The Pacific Coast Co. is the owner of the mine. Everything possible is being done to recover the bodies.

The fourth level is 1,600 feet below the surface. As soon as it was known Wednesday night that the accident had occurred the people of Black Diamond hurried to the scene of the disaster, one mile from here.

The fans are now working in the mine and the deadly air is being cleared out.

AN UNPLEASUANT SURPRISE.

A Train That Was Loaded With Soldiers Attacked By Strikers.

Scranton, Pa., Oct. 3.—A crowd of strikers at Throop Thursday night were given a rather unpleasant surprise party. They attacked a train going to the Pancoast coal colliery which they supposed contained nonunionists, but which in fact had aboard two companies of soldiers. The train was quickly stopped, the soldiers piled out and captured eight of the mob, all foreigners. They were taken to this city and sent to jail in default of $800 bail each.

WESTERN RAILROADS.

The Engineers May Demand a Ten Per Cent. Increase In Wages.

Bloomington, Ill., Oct. 3.—Representatives from the local divisions of the Brotherhood of Locomotive Engineers are in Chicago to attend a secret meeting of the engineers of the principal roads of the west. The object of the meeting is to draw up a formal demand for a ten per cent. increase in pay, obeying the instructions of the national convention recently held in Norfolk, Va.

THE WORLD'S FAIR.

Board of Woman Managers Opposed to Midway Performances.

St. Louis, Oct. 3.—At the meeting of the board of woman managers of the World's fair Thursday the resolution presented by Miss Helen M. Gould expressing the sentiment that the Louisiana Purchase exposition should favor a high moral tone throughout and eliminate from the concessions any that savors of the dances performed on the midway of the Chicago fair, was adopted.

Gen. Funston Guest of Honor.

Ottawa, Kan., Oct. 3.—Brig. Gen. Funston, commander of the department of the Colorado, was the guest of honor at the old soldiers reunion here Thursday. Gen. Funston was introduced to a large crowd in the Chautauqua.

New York Post Office Receipts.

New York, Oct. 3.—Receipts at the New York post office for the quarter just ended broke all records, while those for Tuesday, $100,125, exceeded any single day in the history of the office. Gross receipts for the quarter were $2,821,338.

National Anti-Horsethief Association.

Guthrie, Okla., Oct. 3.—The National Anti-Horse Thief association adjourned Thursday to meet next year in Springfield, Ill. The president's report showed an increase of 5,000 in the membership during the past year.

IN HIS OWN TRAP.

Matt Sloane Balked In His Attempt to Break Jail.

Campton, Ky., Oct. 3.—Matt Sloane, confined in the county jail awaiting trial on various charges, was caught in his own trap in attempting to break jail Wednesday. He had cut a hole through the brick wall of the jail with a pocketknife. Sloane was half way out when he was caught in the hole and was unable to move either way and was compelled to call for the jailer to release him.

GILMOUR A BANKRUPT.

He Owes $33,969.79 and He Has No Assets.

Owensboro, Ky., Oct. 4.—Hugh Gilmour filed a petition in bankruptcy here Friday. He owes $33,969.79, and has no assets. His largest creditors are M. McNamara & Sons, Liverpool, England, which firm he owes $9,720.62, and his mother, Mrs. Sue Gilmour, to whom he owes $12,675.50. He owes the National Deposit and Savings banks, of this city, respectively $6,000 and $2,360.94. He is a tobacco dealer.

WHAT ONE BULLET DID.

Passed Through a Girl's Knee and Fatally Wounded Grandmother.

Olive Hill, Ky., Oct. 4.—At Reeder Post Office, Nannie, the 8-year-old daughter of Joe Gilliam, dropped a revolver. The weapon discharged a ball that passed through her knee, and took off one of the fingers of her grandmother, aged 80. The ball lodged in the aged lady's temple, and she will die. The doctors say the girl's leg will have to be amputated above the knee.

AGED NINETY-FIVE.

The Monastery's Oldest Inmate Dies From Effects of a Fall.

Bardstown, Ky., Oct. 4.—Philip Doran, the oldest inmate of Gethsemane monastery, is dead. Doran was about 95 years old, and his death was the result of an accident. In stepping from a doorway he fell, striking his head and fracturing his skull, death resulting a few hours later. Doran was born in Ireland, and upon coming to Kentucky resided a number of years at St. Catherine's convent, in Washington county.

Life Sentence Affirmed.

Frankfort, Ky., Oct. 3.—The court of appeals, Judge Burman Whiting, affirmed a judgment of the Franklin circuit court in the case of John Cox, jr., against the commonwealth, in which Cox was sentenced to confinement for life in the state penitentiary for murder. The appellant, Cox, shot and killed Bradford Reed, a Louisville & Nashville railroad section foreman here on February 19, 1901.

County Wins a Suit.

Leitchfield, Ky., Oct. 4.—The case of E. R. Bassett, on appeal to the Grayson circuit court from an order of the fiscal court allowing Bassett a salary of $150 a year as county treasurer, was decided by Special Judge J. P. O'Meara in favor of the county. The case will be taken to the court of appeals.

Killed By a Kick.

Columbia, Ky., Oct. 3.—During an altercation Dr. N. G. Holden, a prominent physician of this place, was kicked in the stomach by Israel Stanton, which resulted in his death in a few moments.

Tobacco Crop Suffers.

Petersburg, Ky., Oct. 3.—One of the best tobacco crops ever housed in this county has been almost ruined by the continued warm and rainy weather of the last ten days, causing it to burn and the leaves to drop off. Corn that was cut and shocked green is rotting badly.

Rome Respees Buys Farm.

Petersburg, Ky., Oct. 3.—Rome Respess, the turfman, has bought a fine blue grass farm near Florence, his old home. He is said to have cleared up $150,000 in the last few years.

FIVE LIVES WENT OUT.

Blown to Atoms By the Explosion of a Mill Boiler.

Glasgow, Ky., Oct. 2.—Five persons were killed by the explosion of a boiler at Jesse Hinslow's mill, at Rocky Hill, Wednesday. Their names are: Jesse Hinslow, William Hinslow, his son; Allen Shackelford, John Y. Crumpton, ——— Crumpton. The accident is supposed to have been caused by low water in the boiler.

Jesse Kinslow's body was almost blown into atoms, pieces of it being found several yards away from the scene of the explosion. Crumpton was badly burned and scalded. In the younger Crumpton boy's body nearly all the bones were broken. Hendrick was hit by a piece of iron from the boiler and his skull was crushed. The mill shed was entirely blown away. The engine and all of the mill machinery was completely demolished. Portions of the plank of the millhouse and pieces of iron from the boiler were picked up two miles away from the scene of the explosion.

GAS WASTING CASE.

Injunction Was Made Perpetual and the Gas Lease Cancelled.

Brandenburg, Ky., Oct. 3.—Circuit Judge McBeath handed down his opinion in the "gas wasting cases" that have excited so much interest in this county. The decision is that the injunction must be made perpetual and that the gas lease on the McGehee farm must be cancelled on the ground that it was obtained by fraud and was used for a fraudulent purpose.

A strenuous effort was made by Mr. Burnett to show that the Louisville Gas Co. was in no way responsible for the acts complained of, because the board of directors never authorized any such acts.

KENTUCKY'S CENTER.

It Is Located Near the Famous Old Shawnee Run Church.

Burgin, Ky., Oct. 3.—United States geological surveyors, who have been in Mercer and adjoining counties for the past few months, have just located the geological center of Kentucky on the farm of James Spillman, near the famous old "Shawnee Run church". The spot is near the unexplored cavern in which Daniel Boone is said to have spent one winter while fighting the Indians. The "Shawnee Run church" is the oldest in the state, having been erected about 120 years ago.

The W. C. T. U. Convention.

Madisonville, Ky., Oct. 4.—Notwithstanding the clash between two factions of the W. C. T. U. of this place, resulting from their inability to decide as to the disposition of money subscribed for the woman's temple in Chicago several weeks ago, the 22d annual convention opened here Friday night under favorable conditions. The president of the Kentucky W. C. T. U. and quite a number of delegates from different parts of the state are here.

Against Class Room Cheating.

Lexington, Ky., Oct. 4.—At the State college, the "Honest Effort association" has been organized to begin a systematic campaign against cheating in classroom work in the student body, and to create a higher moral code. The idea of the association is not to report on others for cheating, but for each member to pledge himself not to cheat, either in the recitations or on examinations.

Seeks a Second Divorce.

Louisville, Ky., Oct. 4.—Twice married to the same man, Mrs. Emma L. Clarke now seeks a second decree. Cruelty is the charge she brings in a petition she filed Friday for a legal separation from Asa David Clarke, who was a deputy United States marshal during the Harrison administration. Their last marriage took place September 10.

Seriously Wounded in a Fight.

Lexington, Ky., Oct. 3.—In a fight between Ed Hopper and James Franklin, both of Somerset, at the Queen and Crescent depot here, Franklin was dangerously cut and Hopper seriously wounded. Hopper and "Vinegar Bill" Ingram were arrested, charged with cutting Franklin.

Burglars at Milton.

Bedford, Ky., Oct. 3.—Burglars entered the rear window of J. R. Inglis' drug store at Milton and attempted to blow the safe, but were unsuccessful. Their only booty was two or three dollars in stamps, from the post office, which is kept in the same building.

Whisky Men Will Contest.

Paducah, Ky., Oct. 4.—Attorneys Charles K. Wheeler and D. H. Hughes, of this city, have been retained to contest the local option election held in Fulton, Ky., on September 23 in which whisky was voted out by about 50 majority.

Drowned in a Fishing Pond.

Uniontown, Ky., Oct. 4.—John William Thomas, wealthy and influential citizen of Spring Grove, this county, was drowned in Raleigh lake, a private fish pond, near his home, while in a small boat fishing.

BOONE CO., RECORDER
Wednesday, - - Oct. 8, 1902.
[illegible] Publisher.

For Circuit Clerk.

We are authorized to announce S. E. TERRILL, of Idlewild, as a candidate for Circuit Court Clerk, subject to the action of the Democratic party.

The school per capita in this county this year is two dollars and seventeen cents. Supt. Snyder will be at his office in Burlington, next Saturday.

J. M. Gaunt, of Carrollton, President of the Tobacco Growers Association, addressed a large audience of growers here, last Monday. Boone county has been slow to take hold of the Association, but after Mr. Gaunt's excellent talk of Monday the Boone county growers may begin to realize that there is something in the move Mr. Gannt is so ably advocating.

Hon. James B. McCreary made a rattling Democratic speech to a good sized audience at the court house, Monday afternoon. He was given close attention throughout, and his remarks were heartily endorsed by the Democrats, and no doubt, their effect will be in evidence at the election on the Tuesday after the first Monday in next month. The selection of Senator McCreary to open the campaign in this part of the State was a wise one, as, although he never before spoke in Boone, he is a great favorite with the Democrats here.

THE Missouri railroad commission decided the other day that all railroads in the state must give shippers of stock round trip tickets with one car of stock. The Frisco officials refused to comply with this order and the commission fined them $1,000 in twenty-two cases and a return of the car fares to the shippers. The railroad appealed the case to the Supreme Court.

In reversing a damage suit against the Illinois Central Railroad Company for an assault upon a man and his wife while waiting for a train at Central City, the Appellate Court says: "At such stations the railroad is only required to have its waiting room open thirty minutes before train time and is not required to furnish an inn for persons to go into hours before the train is due to arrive."

Stick to your farm. A farm is a far better, safer, surer, healthier investment than any town store with an equal investment of capital. The man behind the plow is more independent than the man behind the counter. It is just as honorable, just as dignified to plow and to mow, as it is to tie up sugar or measure kerosene, to hand down a spool of thread or a package of crackers. The farmer who can envy the merchant, the manufacturer or the town worker in general has certainly the wrong view of his own occupation as well as theirs.

ONE day last week Mr. Robert Fowler presented the RECORDER with a copy of the address issued to the people of Kentucky, at Russellville, Sept. 17, 1861, by S. B. Buckner, who, that day seceded Mr. Fowler was, at that date, a citizen of Southern Kentucky, and came into possession of the address in a few days after its publication and he preserved it carefully until he presented it to the RECORDER. The address was certainly a warm number, appealing to Kentuckians from every standpoint to "unite on the principals of civil liberty." The address concludes as follows: "Our banner has floated proudly wherever it has been displayed. Under it we have fought the battles of the country in the North and in the South. Under its folds our fathers drove back the savages from the homes of infant Indiana and Ohio. In gratitude, the sons of those, whose fathers was rescued by ours from the tomahawk, and scalping-knife, return to drag us in chains at the feet of a relentless despotism, which is already pressing heavily upon themselves. When in the hour of our country's peril, the extreme north slunk away from the raging contest, thousands of Kentuckians poured in to the frozen North, to fight on British soil the battles of New England. In return, she sends us her hosts of fanatics to despoil us of our liberties; * * * * * * * Let us once more fling to the breeze the proud standard of Kentucky. In every valley and on every hill-top let its folds be kissed by the breezes of Heaven. Let our lone star shine, an emblem of hope, from the deep sky-blue of our banner, over the brothers who join in the grasp of friendship; and let the soldier motto of our State be-speak, under the Providence of God, the strength of the cause which he commits to our hands."

And then he laid his pen down and took up his sword.

The potato crop the present season is likely to be a very large one, and possibly the price may be so low that it will not pay to sell the small tubers. This therefore, brings up the question as to what disposal can be made of them that will be most economical and profitable. They can, of course, be fed to any kind of live stock in the raw form, but it would not be correct to say that they are equally adapted to all kinds of stock. No use can be made of them that will yield a larger return then when they are fed to swine. They can be fed to them in conjunction with other food in the raw form, but only as a part of the ration. It is more than probable, however, that where the facilities are on hand it will be much better to cook or steam them before feeding, especially when they are to be fed in large quantities. Of the various modes of cooking them, steaming is no doubt better and cheaper than boiling. But where one has invested in a boiler it would be well to hesitate before making a change. While potatoes thus prepared are good for growing pigs, they are particularly good for swine that are being fattened, owing to the large amount of starch which they contain. They should be fed in conjunction with meal, as they are too bulky a product to feed to swine. Some persons have adopted the plan of steaming the meal along with the potatoes and feeding the two together. Ground barley would seem to have especial adaptation for such feeding. Of course, ground corn will answer quite as well, but there is the difference that corn answers well when being fed unground, while the same is not true of barley. In any event the potatoes should not be wasted, as from this one item alone a large amount of revenue can be secured providing the rejected potatoes are thus utilized.

Not long ago a bright young lawyer, whose progress was due to the celerity with which he disposed of cases placed in his hands approached one of the famous leaders of the bar in New York with a proposition to be admitted into partnership. "Oh, yes, I have heard of you," said the great legal light. "You won that suit of —— against heavy odds, and from retainer to final fee were occupied less than five weeks. Such expedition is most reprehensible. Why, young man, that case would have occupied any experienced lawyer at least two years. I am not prepared to admit into partnership one who does not understand the most important word in the legal vocabulary—Delay."

R. C. Rice writes the RECORDER from Kansas as follows:

"Dear Friend:—Believing you and other kind friends are interested in my welfare, I will say that my wife and I left Cincinnati on the 25th of September at 9 p. m., and were 24 hours and 15 minutes on the road home, where we arrived safe and sound. After a good night's rest I got up in the morning and found the sun shining as is usual with him in Kansas.

"While we were in Kentucky our college building burned which is a great loss to our city, but it will be rebuilt.

"It is needless to say that we enjoyed our visit to Kentucky very much, and were sorry that we had to cut it short.

"The RECORDER is a most welcome visitor to my home, and hope that its weekly visits may long be continued.

"May the Creator of all preserve you and keep you all and bring you to that Great Reunion where we will ever be together, is the prayer of your neighbor and friend."

The sale of the personal property of Thomas P. Crisler, of Bullittsville, on the 30th ult., was well attended, and good prices prevailed. Corn brought 40 cents a bushel, the corn to be put in the crib.

Judge Lassing made many friends this term of court, and especially with the juries, whom he gave full time. It did not only meet, fully, their approval, but the approbation of everybody.—Carrollton News.

A couple of colored citizens had a misunderstanding last Friday, and made things lively for a short time. One of them carries a bad looking eye as a testimonial of the superiority of his antagonist as an athlete.

The warm, damp weather and heavy fogs the past few weeks have damaged tobacco in the barn and caused fodder in the shock to get musty and mold. The wind of Sunday gave some relief, but on Monday night rain began falling.—Carrollton News.

Edward Hensley, of Waterloo neighborhood, was in town, one day last week, and being asked by O. P. Conner, what he expected to get for his 1902 crop of tobacco, answered promptly, 7 cents a pound. Owen "Smiled a significant smole," and winked tother eye, but he finally bought the tobacco at Ed's price.

Mr. W. T. Smith brought to this office, one day last week, an ear of corn that is truly a cracker-jack. It contains 1,480 grains. A gentleman who cultivates Middle creek soil, was in the office and inspected the ear shortly after Mr. Smith left it here, and remarked that he could beat it and not half try, but, as yet, he has not tried, so far as this office has any information.

The RECORDER is under many obligations to John E. Calvert, of Rabbit Hash, for favors extended. John never lets an opportunity escape whereby he can be of benefit to the paper.

Some say that their tobacco was not injured by the damp weather as badly as they expected it, while others say that their crops are badly house-burned. It is likely that more damaged tobacco than is now anticipated will be found when the crop is stripped.

Ben Cason, who lives down on Middle creek, was in town, one day last week, and as an expert fisherman, predicted that when the water clears up in Gunpowder creek that angling for bass in that stream will be very fine sport. He said that he had information that there are a great many fine bass in Gunpowder.

DIED.—September 20th at his home near Humboldt, Kansas, in his 78th year, Nathan H. Clarkson, formerly of this (Boone) county. His wife, with whom he had walked 52 years, entered into rest just 18 days before. Four children survive them, two of whom, unmarried, Cabell and Mamie have been their stay and comfort for many years.

The Burlington and Bellevue ball teams played a nice game of ball here last Saturday afternoon, score 7 to 1 in favor of Burlington. The meanest thing during the game was the successful working of the hidden ball play on Jake Cook, by Lucky. The battery work of Hughes and Hogan for Burlington, and Conner and Cook for Bellevue, and up to the standard of country batteries.

The next meeting of the fiscal court may turn out to be quite interesting, as at that time each justice of the peace will be expected to make a report as to how the overseers of roads in his district has performed his duties. This has been a good season for spending the money on the roads to an advantage, as there were no heavy rains to tear up the work after it had been done, and the indications are that the justices of the peace will have but few complaints to make.

The Burlington and Erlanger teams played an interesting game of ball here Monday afternoon, the score being 8 to 5 in favor of Burlington. These two clubs have played six games this season, Erlanger winning but one game. The battery on each side did splendid work. Struck out—by Brady, 7; by Powers, 6. Two base hits, Piatt, Brady. Three base hits, Hawes, Hughes. Total hits, Erlanger, 6; Burlington, 7. Umpires, Quick and Riddell. Time of game, 1 hour and 50 minutes. Attendance, 200.

Judge Lassing had been at home but a few days last week until there was another flurry in real estate. He purchased of F. Riddell 22 acres of land adjoining the town on the east for $1,320 and disposed of the south half of the tract to S. W. Tolin at $70 per acre. He then engineered a deal whereby Tony Bentler became owner of the tract of land Everett Hall recently bought of George H. Gordon out on the Union road (the old Ephraim Porter farm), while Everett gets the place now occupied by Tony just south of and adjoining town. The Judge had one or two other deals on which he did not succeed in pulling off, but will have them to amuse himself with during his next vacation, for he has to be doing.

Station Master William H. Collins, who began his career with the New York, New Haven & Hartford road May 17, 1847, has a number of interesting relics in his office in the union station, illustrative of the early days of railroading in this state.

The collection contains the old bell that was used at the depot when it was located on Mulberry street. It was rung regularly five minutes before a train started, giving ample warning of the train's departure. This bell is a curiosity in its way. It would not be thought of for an instant on account of its dimensions, not being half as big as an old New England academy bell; its tone is what lendsan ineffable interest. It was suspended on a spiral wire, with spring enough in it to keep the bell sounding for a minute or two at a time. Old as the wire is, the spring has not been lost, the bell and its belongings being as nimble as in youth. The city boundaries were not as extensive in 1847 as they are now, and there was no difficulty in hearing the bell through the town from boundary to boundary when it was rung.

It was not until 1847 that tallow candles were given up as a means of lighting cars at night. Oil was introduced at that time, and with it came the first type of lantern. The first lantern used on the road between New Haven and Hartford is still preserved in the collection of relics guarded by Station Master Collins. It weighs six and one-half pounds. The conductor's lantern of the present period will not exceed three quarters of a pound in weight. The second type of conductor's lantern to be introduced was carried on the arm by means of an iron band at the bottom, through which the arm was extended. It was also a heavy and awkward device. In the third type the position of the iron band was changed, being at the top instead of the bottom of the lantern.—Hartford Post.

Now I sleep like a top, and eat anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run down people. Try them. Only 50c at W. F. WORKSHOP OF GOD.

Place Where the Omnipotent Artificer Is Building Humanity Anew.

Dry Bones of Man's Moral Failure Made to Live Again in Christ Jesus —Sermon by the "Highway and Byway" Preacher.

[Copyright, 1903, by A. N. Kellogg Newspaper Co.]

Chicago, Oct. 5, 1903.

Text: "For we are His workmanship, created in Christ Jesus unto good works, which God hath before ordained that we should walk in them."—Ephesians, 2:10.

The Workshop.—A workshop is a place where raw material is taken and the finished product turned out. Our text makes the declaration that the Christian is the workmanship of God. He has taken the natural man and by His marvelous, wonder-working power He has created him anew in Christ Jesus. This thought of God's receiving the raw material of a perishable human life and turning out a finished product for eternity is suggestive of a workshop, wherein this marvelous process takes place. Did you ever go through a manufacturing plant? What a busy place it was. The hum of the whirling wheels, the click and grind and pound of the machinery and the bustling, busy workmen, all told a story of something being wrought. You were first shown the piles and piles of crude, raw, unshapen materials bearing no resemblance whatever to the delicate and beautiful pieces of machinery being packed for shipment in the shipping room. Step by step you saw the process by which the raw material was cut and molded and shapen into the complete, perfectly-working machine which was to be sent out on a mission of usefulness. At each machine you observed that some part of the raw material was clipped, or shaved, or filed or bored away and left in the scrap box below, while the part upon which the workman was expending his skill and energy became more shapely with every turn of the machine. Every part of the plant, every machine bore an essential and necessary relationship in the finished machine which was capable of doing the work for which it was created.

We turn to the conception of the spiritual workshop in which God operates, and find that a close parallel exists between it and the workshop in which man operates. In the unseen realm of God's activity He has established His workshop. We cannot know all the marvelous and beautiful mystery of that wonderful and busy place, but it is our privilege to behold on every hand the raw materials of misspent and misdirected human lives which are taken into God's workshop and then to see the finished product of transformed lives sent forth to perform good work. When we see the drunkard lifted out of the gutter and by the transforming power of God made a useful and honored member of society; when we see the vicious and criminal stripped of their evil propensities and filled with new spirit and purpose; when we see the willful, self-centered expend under the Divine touch and reach out with His love to serve a lost, dying humanity; when we see earthly ambitions and hopes of the human heart exchanged for the certainty of eternal riches and honor and glory; when we see dark and clouded brows transformed into countenances beaming with a heavenly light; when we see burdened hearts and lives, crushed under the weight of earthly cares and responsibility, mounting up into the heavenlies on the wings of faith; when we see all this and more, then we know that a great work has been wrought by the unseen hand of God—that the omnipotent forces of His workshop have been in blessed operation. What are these forces?

God's workshop is a co-partnership affair, consisting of God the Father, God the Son and God the Holy Ghost. Perfect harmony and cooperation exists between this triune management. God the Father, if we may reverently so declare, is the Founder and Head Manager of this spiritual workshop. God the Son is the Pattern after which all lives coming into the workshop are molded and formed. But He is more than this. He is the vitalizing force, the transforming power which, permeating the raw material of the dead soul, creates it anew in Him. God the Holy Ghost is the Active Agent through whose operation the work of the Father and the Son is made possible. As the Special Representative of the Son, Jesus Christ, He goes out into the world soliciting material for God's workshop. He convicts the world of sin, of righteousness and judgment. Having convinced the soul of the need of being created anew in God's workshop He returns with the soul to help carry on that blessed operation.

The Raw Material.—Our text sets before us attractively the finished product of God's grace—a soul bearing the impress of the Divine hand. Think of it! The painting of a master can be identified by the masterstrokes of the brush and the superb [illegible]. The graceful lines of the figure reveal to a certainty [illegible] touch and marvelous skill [illegible]. The soul-inspiring [illegible] tell us in [illegible] of [illegible] breezes of [illegible]. Let our lone [illegible] star shine, an emblem of hope, [illegible] from the deep sky-blue of our banner; over the brothers who join in the grasp of friendship; and let [illegible]

[illegible] were, and the brushes used were such as the most mediocre artist used. The statue of an Angelo stepped out of a common block of marble such as anyone might cut out of the mountain. Just the ordinary paints and brushes, just the crude unshapen mass of marble. Very different indeed in appearance from the finished product which artistic conception and the skill of genius were able to call into being. So with the finished product of God's workshop. It is very different from the crude materials which are first received. And what of this raw material?

Scripture is clear and positive in its description and identification of the raw material with which God has to deal. From the Old Testament flash such declarations of God as: "All our righteousnesses are as filthy rags." "There is none that doeth good. They are all gone aside, they are all together become filthy: there is none that doeth good, no, not one." And the New Testament lays bare the awful condition of the human heart and life, its desperate need, when it declares: "Men shall be lovers of their own selves, covetous, boasters, proud, blasphemers, disobedient to parents, unthankful, unholy, without natural affection, trucebreakers, false accusers, inconinent, fierce, despisers of those that are good, traitors, heady, highminded, lovers of pleasures more than lovers of God." This long and full enumeration by Paul is but the different manifestations of the condition of the human heart and life, which is one of deadness, until it is called into life in God's workshop; for we are all "dead in trespasses and sins."

Let Ezekiel, the prophet, supply us with a metaphor which he applied to the house of Israel, likening them to a valley full of dead and dry and bleaching bones. The blackness and silence of death there. Heaps on heaps of hideous, grinning skeletons, but no life, no activity, no usefulness there. Such is the condition of the world. A great valley full of the deadness and blackness of sin. The world does not see it, for it loves darkness rather than the light because its deeds are evil. But the Holy Spirit, the Active Agent of God's workshop, is out in the world trying to convince it of its dead condition. If you will let Him present His overwhelming arguments to your soul He will convict you of your condition and your need.

The very best salesman in the world with an article of the most pronounced merits would not be able to sell it unless he could secure an audience with the prospective buyer. The need of the latter might be most pressing, and the argument of the salesman unanswerable, yet it all would be of no avail if he should refuse to listen. The Holy Spirit is pressing upon the human heart on every hand for an opportunity to present His claims and secure raw material for God's workshop. Let Him clarify your vision and you will be able to see the dry bones all about. And can these bones live? Is it possible that out of such hideous and revolting material can be made a saint to shine eternal in the heavens? Is it possible for that black and jagged rock before the smelter door to yield the pure, untarnished gold? Is it possible for the blocks of steel and brass in the factory to yield the perfect little timepiece, ticking off the vanishing minutes? Is it possible that that blackish tar, that foul-smelling refuse of the gas plant, can yield under the proper processes the pure white paraffine? Is it possible that Mother Nature can take the cold, black earth with its offensive fertilizer and pour into your lap the golden grain and the ripened fruit? Ah, how wonderful! But how infinitely more wonderful is it that God can take into His workshop the raw material of man's failure and recreate him in Christ Jesus.

The Power of Choice.—But suppose the gold quartz should refuse to yield to the refining process, the steel and brass should not submit to lathe and drill, the black offensive tar should persist in flowing to waste instead of into the retort where its different elements could be chemically separated, or Mother Nature should disdainfully turn from the rich, black loam to the glistening white hard sand of the sea shore? No bright and shining gold, no busy ticking watch, no white paraffine, no grain and fruit. Useless would be the plants established to carry on these processes. So is it with man. Unless he lets the Holy Spirit have him to take into God's workshop, there to carry on the wonderful transforming work, the infinite love and power of God cannot be manifested in him. Man can say to the quartz, the steel and the brass, and the coal tar, you must. But God does not go to the human heart with any such imperative summons. He has given to man the power of choice. He must decide himself whether to enter God's workshop and submit to the molding of the Divine hand and will.

The Process.—The world has been asking with Nicodemus, ever since that midnight conversation in the presence of Jesus, how a soul could be born again, how God could create it anew. And the Lord comes with the same answer as of old: "The wind blows the where it listeth, and thou hearest the sound thereof, but canst not tell whence it cometh, and whither [illegible] one that is born [illegible] could we dare to [illegible] Hidden mys[illegible]

"I know not how the Spirit moves,
Convincing men of sin,
Revealing Jesus through the Word,
Creating faith in Him.

"But I know whom I have believed,
And am persuaded that He is able
To keep that which I have committed
Unto Him against that day."

The Pattern.—As in every workshop where raw material is taken and manufactured into articles useful and ornamental, there is the pattern, the working model which is followed, so it is in the workshop of God. The perfect man, Christ Jesus, is the model after which all the constructive work of the shop is carried on. The first Adam disobeyed God and became subject to death as a consequence of sin. All molded after his pattern in the world since then have borne the same disfiguring marks of sin and death. You cannot expect the machine which is constructed after the imperfect model will be free from defects. It was necessary, therefore, if man was to be reconstructed, recreated, a new and perfect model must be secured. For centuries God was busy preparing for this tremendously important event in the world. In the fullness of time He chose His dearest treasure, His only begotten Son, to go to the earth and by His life among men, and as a man, supply the perfect pattern after which the new and Heavenly race was to be constructed. He perfectly kept the law of God and did His Father's will. He was tempted in all points like as we are, yet without sin. Wherein Adam the First failed, He won glorious victory over Satan, and forever put the arch deceiver of mankind to flight. As the perfect pattern He stood upon the mountain of transfiguration and the glory of God transformed Him and He was revealed to the eyes of sinful man as the perfect man. He was ready to go back to God, as far as He Himself was concerned.

But from beholding the face of His Father in Heaven He turned His gaze back to earth and saw the sons of Adam the First dead in trespasses and sins. He had demonstrated His own purity and holiness. Now came the working out of a plan by which death as punishment for sin could be overcome and man could be recreated after the perfect pattern. And this was the subject of conversation between Christ Jesus, the perfect man, and Moses and Elijah. He talked with them concerning His decease, or exodus, which He should accomplish at Jerusalem. He was to become more than the pattern. He was to become the vitalizing force by which the dead soul was to be called into life again.

He was perfectly ready to step back into His place in Heaven, but He so loved the world that He came down into its midst again and became "sin for us, Who knew no sin; that we might be made the righteousness of God in Him." He became our substitute for sin, for "the Lord hath laid on Him the iniquity of us all." Thus in Christ man escapes the consequences of sin, while at the same time God's judgment against sin is perfectly satisfied. He triumphed over death in His resurrection, and thus became not only the perfect pattern to be used in God's workshop, but the vitalizing force as well.

The new-born babe does not suddenly spring into manhood, but develops step by step from babyhood to maturity. So in God's workshop, the new-born soul is not suddenly crowded to the "measure of the stature of the fullness of Christ," the perfect model, but grows step by step into His likeness. And herein is where the workshop of God is kept constantly busy. The Holy Spirit, the Active Agent, "maketh intercession for us with groanings which cannot be uttered," for with His eyes on the perfect model He sees what is needful to shape us into that likeness. And God begins to cut off here and smooth down there, to mold and polish the soul into the perfect likeness of the pattern. And the process goes on gloriously if we will be submissive, for "whom the Lord loveth He chasteneth," until some day we come into His presence and are made in all fullness like Him.

Good Works.—Man in his workshop builds machines to perform certain work. They are expected to do that work or be cast aside as worthless. No less is this true in God's workshop. "For we are His workmanship, created in Christ Jesus, unto good works." God cannot be satisfied with the soul which is content to rest in the thought that it is safe in Christ Jesus. He wants to see that new-born creature in Christ Jesus performing the functions for which he was created. "Created unto good works." Impossible to do good works apart from Christ, but in Christ such activity becomes possible. It is evidence that the soul has been born again, and it is absolutely essential to its life and growth. God found Peter an ignorant fisherman by the lake of Galilee and made him into an apostle and preacher, not for himself alone, but that he might preach on the day of Pentecost and win three thousand souls for Christ. And that he might go on doing the good works of God, from raising the lame man at the temple gate all through his busy ministry to the glory of his martyrdom.—God reached down and dragged out of the awful depths of unbelief and hellish hate Paul, the "chiefest of sinners," but for Paul's salvation, but that he might become the great apostle to the Gentiles and reveal the wonderful [illegible] the glorious Gospel of [illegible] God takes you and me, [illegible] His workshop and [illegible] Jesus that [illegible] Him. GAGGING THE PRESIDENT.

How the Trusts Are Going to Ensure the Continuation of Protection's Aid.

Two political events occurred on Tuesday, September 16, that will have a far-reaching effect on the politics of the country. That they happened simultaneously may have been an accident but would point to a deep-laid plan.

On that day President Roosevelt had called together at Oyster Bay the leaders of his party to consult with them about the position he should take on the tariff and the trusts in his political speeches in the west.

On the same day Speaker Henderson declined to accept a renomination to congress, giving as the reason that "a great many" republicans in his district were in favor of reforming the tariff by taking off the protection that the Dingley bill gives to the trusts.

Both the president and the speaker of the house of representatives had discovered that "a great many" republicans wanted reform. They were tired of paying more for the trust made goods than the same goods were being sold to foreigners for. Speaker Henderson had through the power of his political machine stifled the voice of these independent republicans, and on the face of the returns his convention, made up of office holders and political strikers, renominated him and made a platform of his own choosing of the patented stripe. This happened in May. He returns to his district in September and finds the voice of the people crying aloud for reform. He resigned the nomination, a very honest and sensible thing to do under the circumstances, as his own interests were at variance with the voters.

Over 100 republican nominees for congress, if honest should take the same step. Grosvenor and others of Ohio; Hemenway and Landis and Overstreet, of Indiana; Loudenslager and others in New Jersey, and so the lists of states might be gone through. Nearly every congressman from Iowa, if honest, would step aside. All these and others know that tariff reform sentiment is overwhelming in the central and western states. President Roosevelt also has discovered, even in New England, that tariff-reform sentiment was rampant, but he did not have the pluck of Henderson. He looked for a way to evade the issue that he knew was right and on the side of the people. His conscience told him that he should boldly champion their cause against the trusts and corporations. But he heeded it not and called in the chosen of the trusts and corporations. But he needed it not and called in the chosen of the trusts and corporations. But he heeded it not and called in the chosen protection advocates, knowing what their advice would be before he asked it.

The senatorial junta that controls legislation, through their power as chairmen of the important committees, decided of course, that reform of the tariff must not be an issue. The president must go to the western states and make no promise of relief from the real cause of the enormous prices of the necessaries of life. Thus the trusts have the president gagged, his talks to the people will be stifled by the orders of the senatorial junta. The coincidence of the announcement of the retirement of Henderson at the very time the senators were persuading the president to forego tariff discussions, is so remarkable that it is easy to believe that the trusts are back of both these extraordinary announcements.

All the senators present have been consistent friends of the combines and corporations, every vote they have cast, the bills they have smothered, all prove this. Now when the pinch comes and an erratic president is to be lassoed, why should they not all join in a plan to corral him?

Henderson will soon get his reward, but will the president reach his ambition?

PROSPERITY FROM TARIFF.

Canada Is Enjoying Good Times Without Resorting to the Republican Method of Protection.

The United States and Canada are two great countries with a border line 3,000 miles long. Naturally it might be supposed that an economic system that would benefit one would also benefit the other. Such, however, does not appear to be the case, if the statesmen in charge are to be believed.

The republicans who are "it" in the management of our trust ridden government are perfectly certain that the prosperity which they talk so much about (to make sure that we have it) is due to our high protection policy, inaugurated five years ago. Canada lowered her tariff duties about the time we raised ours, and the statesmen there are now crediting their prosperity to these lower duties. A recent issue of the Toronto Globe says:

"If under any scale of duties the industries of a country are prospering, higher duties cannot be justified even on grounds of expediency. The country has now been for five years under a tariff very considerably lower than that which prevailed in the previous 17 years, a period amply sufficient to test the efficacy of high protection. The prosperity of our industries under the low tariff has far exceeded that enjoyed under the high tariff. The result is that the extreme protectionists are forced back upon the idea of retaliation pure and simple. The United States will not buy our goods as freely as we buy theirs. Therefore we must cut down our American imports until something like equality is established. Germany has made some foolish discriminations against Canadian wheat; we must, therefore, aim to strike a blow at Germany. In this way the word protection loses its meaning. What is sought is not the protection of our own industries, but the injury of somebody else's."

ASSIMILATION OF FINLAND.

Changes Recently Wrought in Russia's Prosperous Province by the Government.

Finland has been the most prosperous and progressive province of Russia; the taxation has been light; there has been a large foreign trade; every encouragement is given to the liberal arts; and the community as a whole is one of the best educated in the world, states the London Speaker. Higher education is within the reach of all. Women may enjoy all the privileges of an academic career. Colleges have been established for agricultural and commercial education and a population of rather more than 2,000,000 furnishes 2,000 undergraduates. Yet art and civilization are combined with simplicity and economy. Plain living and high thinking are compatible in this marvelous land, where freedom has so long flourished under the aegis of an alien and benevolent despotism.

But with the appointment of Gov. Bobrikoff a year or two ago the whole scene has been changed. The imperial manifesto of 1899 marked the beginning of a new policy—the policy of Russifying Finland. The constitution has been broken and the diet suspended. The public record office has been raided, and the charter of Finnish liberty removed to St. Petersburg. The post office has been taken over by Russian officials and the country flooded by Russian police. Throughout the civil service Finns are being dismissed and replaced by Russians. Public business is almost at a standstill. Many Finns are emigrating in despair, preferring the freedom of the new to the tyranny of the old world. The press has been gagged. Commerce is to be destroyed by the application of the barbarous Russian tariff to Finland, and the wretched Finns are now to learn through conscription the meaning of auzerainty. Lord Salisbury and his colleagues may smile at the overthrow of Finland as they smiled at the overthrow of Greece. But there are many Englishmen who regard with mingled horror and shame that hateful knife of imperialism which, having cut with cold brutality the throats of two small republics, is now being plunged into the heart of the only free and prosperous community in Russia.

Doesn't it dawn upon your feeble intellect that if we accept it the author will buy the magazine every month for two years in order not to miss his story when it appears? "Sir," exclaimed the lady, angrily, "my age is 35, not 45!"

"Thank you, madam," said the judge, blandly.—Washington Times.

VEGETABLE WASHER.

Make One Without Delay and See If It Is Not a Great Convenience and Labor Saver.

A very cheap and serviceable root washer may be made by any man right at home, and no need to call on a carpenter or blacksmith. Make a water-tight box of 1¼-inch lumber, 12 by 21 by 30 inches inside. The legs are 1¼ by 3 inches, 2 feet long. Lap the legs 6 inches on to the box and fasten firmly with 2¼-inch screws. This gives a height of 30 inches, which is convenient for all purposes. Two half-round notches are let into the sides of the box in which the axles of the cylinder revolve. The cylinder heads 1¼-inch thick are 15 inches in diameter. A block 1 inch thick by 4 inches square or a round wheel of same dimensions, is screwed to the outside center of each head. These blocks act

VEGETABLE WASHER.

not only as washers between the cylinder heads and sides of box, but serve to reenforce the heads and hold the axles more firmly. Drive a 1¼-inch mortise clear through the blocks and heads of cylinder. Take 2 2-inch hardwood pins and square one end to 1¼-inch plump, and drive firmly into the mortise flush with inside of cylinder heads. The axles must be left sufficiently long to reach outside the box when the completed cylinder is hung ready for use, and one must be long enough to mortise on a piece at right angles for the crank. If both project 4 or 5 inches outside the box it will be all the better, as they will serve as handles for lifting the cylinder out and into the box. Cut 32 slats ⅞ by 1 inch 18 inches long and slightly round the corners, which will be inside where the slats are nailed on to the cylinder ends. Nail 24 slats one-half inch apart around the heads and the remaining space will be the door or cover of the cylinder. Take two pieces of light harness tug 12 inches long and screw the remaining slats on to the pieces of tug one-half inch apart the same as on the cylinder heads, only the strips of tug must be fastened to upper side of slats, so that the cylinder will be perfectly smooth inside. This door may be held in place with heavy leather or iron hinges, or by two small wooden or iron buttons on each cylinder slat next to the door. With a 2-inch piece 1 foot in length mortised on to the outer end of one axle at right angles and a pin through the lower end to serve as a crank, the washer is complete, and at a cash outlay of almost nothing. A three-quarter inch hole may be bored through one end of the box just on a level with the bottom for letting off the water. Fill the cylinder with roots, fasten the door and hang in the box. Use plenty of water and revolve slowly for a minute or two, and the roots will be cleaned perfectly. Any man at all handy with tools can make the washer in a few hours' time, and its use will save hard and costly hours of labor over hard work in one season. Of course, if one has the money to hire it made, and prefers dressed lumber with iron or nickel mounting, and desires to paint and decorate, using turned or carved legs, there is no objection, and it will doubtless do just as good work as the old homespun. The above is very serviceable, can be made in a rainy day right at home, which many of us can do more easily than to pay out cold cash for the more showy machine.—J. E. Morse, in Rural New Yorker.

Sailing Under False Colors.

Oleomargarine men claim that their product is a wholesome food. The new law is now in force imposing a tax of ten cents a pound on oleomargarine colored to imitate butter. If nutritious and healthful oleomargarine should be sold on its merits, very truthfully says the Globe-Democrat. Those who are willing to consume it as a substitute for butter do not want to pay anything additional for coloring material. The public hopes that the new law will be rigidly enforced. Adulteration or deception practiced in food is a fraud on the people, and the federal courts, when called on to act, will see that the new regulations are enforced.

Make the Profit Yourself.

The farmer that sells a horse in poor condition is almost certain to lose money thereby. The ordinary buyer wants a horse that is sleek and fat. So much is this the case that some men in the cities make it their business to cater to this requirement. They buy horses poor in flesh. They fatten them up, finish them off with oats and sell them at a good advance.—Farmers' Review.

THE BEES IN AUTUMN.

Feeding Early for Winter Stores Is a Practice Highly Recommended by Expert Apiarists.

The bees should be fed early, so they can seal up their stores, and feeding at this time not only insures good stores, but it also creates brood rearing, which is as important as feeding. The feeding should be done to secure the best results in promoting the production of brood; to do this, they should be fed regularly every day during the entire month, so that at the close we have the required amount of stores and several frames full of brood, besides a good supply of young bees.

Sugar-fed colonies, if properly fed, usually winter better than those not so fed, especially if there is no honey flow at this time. We may exceptionally have such a honey flow in autumn that bees do not require any feed, but this is very rare, and colonies that do not have enough stores in the fall at the close of the honey harvest seldom gain much during the balance of the season. Late feeding just before going into winter quarters is not good policy, for the bees cannot seal up their stores, even if they are fed sufficiently, and no brood rearing will be done at this time, and we lose half of the benefits.

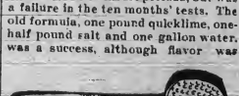
It is best when beginning to feed to feed lightly for a week or more. This will give the queen a chance to fill the brood nest with eggs; then during the latter part of the month feed more heavily until the required amount is given. Bees that are to be wintered out of doors without extra protection should be fed more; and 30 or 40 pounds will not be too much. If wintered in the cellar, 25 pounds is safe enough. Some who make a specialty feed less or carry them through with less honey, but they feed in early spring. It is best to feed enough, or give them enough honey during the fall to both spring and winter them, for they may be neglected in spring.—A. H. Duff, in Farmers' Voice.

KEEPING SEED POTATOES.

A Practice That Has Been Successfully Employed by Eastern Growers for Some Time.

The success of the potato crop depends much upon the vigor and condition of the seed potatoes. Some growers have adopted the following practice with excellent results.

When the potatoes are dug, those which are to be used for seed are stored in a dry, dark shed or barn until about the 10th of November. Just before freezing weather sets in, the potatoes are carefully sorted, and those which show the slightest signs of decay are rejected. A layer of straw from eight to ten inches thick is spread on the ground and the tubers placed upon this straw. The piles should not be made too large.



The best results are usually obtained from mounds three feet wide at the base and piled upon ridges as high as convenient. A covering of straw is placed over the potatoes, and this is followed by a layer of soil from six to eight inches thick, but before severe weather sets in more soil is added, and when the severest weather is at hand, more straw, or strawy barn manure is added. The aim is to cover gradually as the cold increases. This method of storing potatoes seems to winter them much better for seed than when they are placed in root cellars, or when they are stored in mounds immediately after they are dug.

About the last of April they are taken from the pit and again stored in a dark shed or barn until about ten days before planting time, when they are treated with corrosive sublimate. After this treatment they are placed where they will be freely exposed to the sun. Seed should not be cut until shortly before planting. If planting is delayed, the cut pieces should be placed in a moist, cool place.—American Gardening.

BEST EGG PRESERVERS.

Quicklime, Salt and Water and Silicate of Soda Have Proved the Most Satisfactory.

Numerous experiments at times have shown the worthlessness as egg preservers of ashes, sulphur, permangate of potash, gypsum. Dry salt kept eggs fairly well, but injured the flavor. Vaseline or grease rubbed on the shells worked well for short periods, but was a failure in the ten months' tests. The old formula, one pound quicklime, one-half pound salt and one gallon water, was a success, although flavor was

LADLE FOR STORAGE EGGS.

slightly salty. Unfortunately the clear lime pickle does not appear to have been tested with the others.

The best success of all was with water glass or silicate of soda. This costs 40 to 60 cents per gallon and may be reduced with water when used to as low as three per cent. water glass. The eggs must be very fresh and should be completely immersed in the solution. Even this preparation was not successful in every case, but was usually so, the eggs being as good as fresh eggs for cooking. The egg ladle, as portrayed, is a great convenience in handling large numbers of eggs. It is made of a round, shallow tin pan with a long handle, the tin being perforated to drain off the liquid. With it the eggs may be gently lowered into the barrel or tank without risk of breakage. When wanted again they are removed with the dipper and placed on a rack or plate to dry.—G. B. Fiske, in Farm and Home.

THE NEWEST FAD.

Is the "Face Book," Which Takes the Place of the Old-Time Album.

Out the latest idea is to have a face book. Instead of the old-style album, a collection of drawing paper sheets are bound together, and the friends of the book owner are expected to do the rest, says the Washington Star. A book sometimes made of heavy, coarse white linen, and is a desirable and durable style, with the cover of brilliant crimson, deep blue or yellow linen. If a clever sketch drawn in black is put on it, so much the better. Here are lines that may be written in fancy letters below the sketch:

"'Tis a face book rare,
And, friend, I dare,
To trace its pages o'er;
With what is in
Their minds to limn,
However it may be bore."

It is the proper caper to introduce the book at five o'clock teas and Sunday evening suppers. In it each guest is asked to draw a head of some sort—girl, man, child or animal. It does not in the least matter if they cannot draw at all. They must do their best, or worst. Usually the worst is very desirable, because it makes a laugh. The amateur artists must sign their names or write lines descriptive of their efforts. The protests against thus committing themselves are sometimes loud and deep. No attention should be paid to them.

The most amusing pages in the face book are apt to be the ones in which detached human features are drawn. For instance, there may be a nose done by one friend and an ear by another, just the tip end of the dimpled chin by a third or the sketch of a hand. It is a good plan to have the pages with these odds and ends of features sketched in without autographs. A good line at the head of the page would be: "By their works ye shall know them." These are the guessing leaves of the face book, and many a jolly hour may be passed by visitors who try to guess the names of the artists. Some women insist that musical friends shall express a sentiment by means of a bar of music. The selection of the bar is made from a popular song, and the first word of the line is written over the initial note, while the last one appears above the closing one. This helps out the guesses who cannot read music, but who is familiar with the songs of the day. Other face book owners, with original minds, insist that only flowers or plants or trees be drawn on the pages. A glance at some of these makes one wonder to see how little form in flowers is appreciated. Color appears to be the chief point that appeals to the average eye, and form to a little or no place at all in it.

The face book need never be complete, for each evening that a woman entertains a fresh leaf may be added.

VANQUISHING A SINGER.

After Her Elaborate Performance, the Musician Was Given a Hard "Bump."

"Oh, Miss Canari, do sing for us—we're all so anxious to hear you since your return from studying in New York!"

This was the joyous exclamation that greeted a New York girl who had just arrived in Chicago to visit friends, relates the New York Herald.

Miss Canari allowed herself to be drawn to the piano and ran her fingers over the keys. "What shall I sing?" she ruminated.

"Something low and sad," suggested the sentimental young person.

"No; something high and operatic, that will show off your voice," said the hostess, eager that her lioness should roar at her loudest.

"I'll do an aria first," acceded the singer, graciously; "then a ballad afterward," with a sweet glance toward the sentimentalist.

She thundered into a prelude, during which all eyes were on a pair of twins, sitting on their mother's knee. They seemed transfixed. Then "Pace, mio Dio," whooped the first big notes of the recitative. The twins also whooped in chorus.

"I'm afraid I'll scare the babies," deprecated the operatic performer during the interlude, which was punctuated with howls.

"Oh, no, they always do that at first—they love it," assured the mother—and this is what would have registered itself on a phonograph, had there been one in the room:

"Pace, pace"—"Aren't they cunning?" from one corner of the room. "Pace, mio"—"Just see that boy!" "Dio! Pace"—"Good goo!"—"Ha! ha!" "How sweet they act!" "See the babies' hands go!" "Mio Di-io!" "Willie wants to-ting, too, so 'im do!" "O-oh, watch his tootsies wiggle—isn't he too sweet for anything?" from the auntie of the twins.

By this time Miss Canari had become dimly aware that no one knew she was singing, so she modulated into a ragtime medley, finishing with a hymn. The babies continued their duet amid the admiration of the company. When the lady arose from the piano they were all crowded around the proud mother of those wonderful twins, exclaiming over their many infantile charms—except the bachelor, who stood in the background and grinned sardonically when that fond parent, who could afford to be gracious, threw this appreciative remark over her shoulder:

"Thank you, so much, Miss Canari, for your lovely music. I always did love those German operas, and then it's such a treat to the twins."

Chicago & Alton Inaugurate Novelty Between Chicago and Kansas City.

A grill room chair car has been introduced into service by the Chicago & Alton between Chicago and Kansas City. In the fore part of the car is a small kitchen connected with a little room 10 by 8 feet. The grill room is fitted after the style of a small American dining-room. Other rooms will be finished after the English and German styles. The grill rooms of the cars put in service are finished throughout in mahogany, with small, well-stocked and ornamented sideboard and round table at which six people can be seated. The kitchen is isolated and the diners can be served at all times with the steward-cook. The decorations are elaborate. The tableware, including the china, is made to correspond with the general decoration, whether American, English or German, as [illegible]. The innovation adds to the enjoyment of traveling, as a meal consisting of anything from a sandwich to a champagne supper can be ordered at any hour of the day or evening.

PE-RU-NA NECESSARY TO THE HOME.

A Letter From Congressman White, of North Carolina.

PE-RU-NA IS A HOUSEHOLD SAFEGUARD.

HON. GEORGE H. WHITE.

Congressman George Henry White, of Tarboro, N. C., writes the following letter to Dr. Hartman in regard to the merits of the great catarrh cure, Peruna:

House of Representatives,
Washington, Feb. 4, 1899.

The Peruna Medicine Co., Columbus, O.:

Gentlemen—"I am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy."

Very respectfully,
George H. White.

Peruna is an internal, scientific, systemic remedy for catarrh. It is no palliative or temporary remedy; it is thorough in its work, and in cleansing the diseased mucous membranes cures the catarrh.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

COULDN'T BOSS HIM.

A Clergyman Who Wouldn't Submit to Any Orders from an Undertaker.

Rev. R. Perry Bush, of Chelsea, who was present in a ministerial capacity at the opening of the convention of the Massachusetts Embalmers' association recently consented, in the absence of Mayor Collins, who was to address the body, to speak a few words of greeting. He related an instance of a stuffy undertaker and a funeral, says the Boston Herald.

"As I entered the church," said Mr. Bush, "I was greeted by the undertaker in charge of the funeral, who said: 'I want you to stand there,' pointing to half-way up the pulpit steps.

"'I prefer to stand either at the top or the bottom,' I replied. 'Then I can see my audience.'

"'You stand where I tell you,' was the retort. 'I'm running this funeral.'

"'But you are not running me,' I answered, 'and I will give you just one minute to withdraw your order or get another minister.' And I took out my watch and commenced to count off the seconds. At the thirtieth he said: 'Well, stand where you darn please!'

"And I did," exclaimed Mr. Bush.

E. L. Helms has composed another beautiful song, which will come from the publisher in a few days. It is entitled "My Pretty Blue Eyed Nell."

The City Marshal says the oath of the 'Correction Society" is certainly more binding than was that of the Kuklux of some years ago. He caught a young fellow running away from a certain place and he told the Marshal he did not remember his own name and did not know where he lived.

One of the saddest deaths that has occurred in this community for a long time, and one that caused more genuine sorrow, was that of Wm. A. Barnett, youngest son of Mrs. Mary Barnett, at his home in Covington, of typhoid fever. He leaves a wife and one small child and a broken hearted old mother to mourn his early demise. Billy was a good boy and had a host of friends.

Every Democrat in the Petersburg precinct should go to the polls on the 4th day of November and cast his vote for the entire Democratic ticket. There is a plan on foot to defeat Judge Paynter and if one Democrat in each precinct in the 6th District stays away from the polls it would give the Republicans a majority in the entire Appellate District. Paynter is one of the best judges and Democrats in the State. Defeat him and the Republicans will have a majority on the Appellate bench.

As Col. Ike Snow was passing up Tanner st., Friday, some young men greeted him with, "Hi, you Ike?" and with frog calls, and some of them can put to shame the monarch of the pond. Ike did not like the reception the frog opera was given him and wipped out a big 32 and fired into the crowd, luckily no one was hurt, but it was more on account of Ike's bad aim than anything else, for it was his intention to slaughter the entire outfit of frog-callers. After the shooting he took to his heels, pursued by deputy marshal, Ed Pease, who locked him in the late E. L. Grant's lot. He was ordered to throw up his hands which he did on time, then the officer made an attempt to locate the hauser that Ike had exploded among the boys, but was unsuccessful. Snow was told to go home which he did, but Marshal Pease hid near by and at 3 a. m., in the morning Ike came back looking for the pistol which he had hid under some vines in the yard. The Marshal nabbed Ike and his gun and the ball be "snow" in Burlington when Boone Early makes a forecast of Ike's c[illegible].

Noah, a valuable dog belonging to Xen Scott, died of distemper, last Monday morning. Noah was a good dog, and will be greatly missed. We extend to his bereaved owner our heartfelt sympathies.

As some of my neighbors wish to know the name and value of a grass found growing on the roadside in many places, I have taken the trouble to ascertain its name. The grass alluded to may be seen along the pike between W. I. Rouse's and Clyde Berkshire's, and on the farm of F. Riddell on the pike below Burlington. I am in receipt of a letter from H. Garman, Entomologist and Botanist of the Agricultural Experiment Station of Kentucky, in which he says: "The grass you enclose with your letter is known as Fall Red Top, and bears the botonical name of 'Siegliugia Sesleriolides," I have heard it called greasy grass. It is not clearly related to the common red top grown for hay, being little more than a weed. I have somewhere seen it included in a list of forage plants, but should not consider it valuable for this region, though when young and other forage is scarce stock may eat it to some extent." In conversation with H. P. Parsons he said, "In fact its seldom found growing in rich soil. It has long, fibrous roots of considerable strength extending down into the earth to the depth of 4 to 8 inches making it an excellent grass to prevent hill land washing. This is its greatest value in this region, unless it has some medicinal properties."

BULLITTSVILLE.—Mrs. Sallie Calmes and children, of Lexington are now citizens of our neighborhood.

The Grangers had a meeting at the Opera House on Saturday, and will hold another at the residence of James Cross, in a Newcomers extension of this village, next Saturday.

S. L. Edwards, his daughter, Miss Hattie, and promising young son, Ralph, attended the great meeting of the G. A. R. in Washington, last week. When they get home Simon Lycurgus more widely known as "Curg," will have enough to talk about to make several books.

There was a monster basket meeting of the Primitive Baptists at the Salem Church, last Sunday. Attendance was from every where in a radius of 25 miles. The religious exercises being over the congregation was treated to an old time spread, which, as everyone knows or should know, means everything good to eat and toothsome in the superlative degree.

The pleasant jaunts and outings that have been taken in this delightful October weather, are nearly over, and those who have been enjoying them are gathering in to the home circles, and relating the incidents of their trips and edifying the home stayers with their experiences. Mrs. Edward Stamler's visit to Pleasant Ridge and Happy Valley in Campbell county, is a rose colored narrative of the lines old friends are living among the scenes of their childhood days. Misses Edna and Gertrude Stamler saw so much in St. Louis that it will be impossible for them to ever tell the half of the new sights they saw.

VERONA.—Mr. Carpenter Bertram, Professor of Elocution, will give an entertainment in behalf of the League Institute, at the Verona Hall, on the evening of October 18th. Come early and enjoy a rare treat. Admission, 10 cents.

...ATION ...OMMANDER-IN-CHIEF. ...Several Resolutions ... After Much Debate.

The Grand Army Elects Gen. T. J. Stewart to That Position.

Washington, Oct. 9.—For more than six hours Wednesday the people in Washington hummed the chorus of the old war song, "Tramp, Tramp, the Boys Are Marching," and for an equal time the veterans constituting the Grand Army of the Republic made good the claim. The parade was the climax of the 36th encampment of their order. The occasion was in every way worthy of the grand army and the parade did not fail appropriately to delineate the spirit of the war and the memory of glorious achievements the army seeks to keep green in the minds of the American people. None of the soldiers were marching any great part of the time for the entire line of march did not exceed two and a half miles in length, but those who composed the rear detachments were on their feet practically all day, much of the time being consumed in waiting to take their places in the line. The route of the parade was down historic Pennsylvania avenue along which many of them marched as raw recruits in going to the war in 1861 and 1862, and many others on the occasion of the grand review after the close of the war in 1865. The participants in the imposing pageant entered with life and vigor into the spirit of the occasion. Each countenance bore evidence of the joy the experience brought to the individual, but it was plainly evident that there was in the occasion much of the restoration of the youth for most of them.

If the veterans had needed any spur to their enjoyment they would have found it easily in the crowds who thronged their pathway and in the smile which providence bestowed on them, for the weather was perfect. The spectators were limited in numbers only by the capacity of the broad sidewalks, the stands, the parks, the windows and the house tops along the line of march to hold them. The government departments and the schools were closed for the day and practically the entire population of Washington turned out to do honor to the veterans along with the hundred thousand visitors to the city.

The president of the United States also lent his energies to the entertainments of the capital's guests. Unable to endure the strain of reviewing the column from a stand he rose from his reclining chair and had himself driven up and down the line. The unusual interest thus manifested was appreciated by the old soldiers and the president was everywhere received by them with loud applause.

TRAIN WRECKED.

Five Men Killed and a Number Injured Near Cannonsburg, Pa.

Washington, Pa., Oct. 5.—In a wreck on the Washington branch of the Panhandle Wednesday night at Van Emens' station, two miles east of Cannonsburg, five men were killed and a number injured, one so badly that he may die. The latter were all foreigners and their names could not be ascertained. The wreck occurred at a siding about twenty yards from the Van Emens' station. An east bound train "side wiped" a gravel or construction train at the opening of the switch. The engine of the coal train was turned over and completely wrecked, and the engine of the gravel train was turned completely around. The car immediately behind the engine was loaded with Italian laborers and these were knocked down like ten pins. Twenty cars were derailed.

BRONZE TABLET UNVEILED.

Chicago Negroes' Tribute to the Memory of the Late President McKinley.

Chicago, Oct. 9.—A bronze tablet bearing the address delivered by President McKinley to the colored people of Chicago was unveiled Wednesday night in Quinn chapel, during a McKinley memorial service. The edifice was crowded to suffocation. United States Senator William E. Mason delivered the oration. President McKinley's address was made at Quinn chapel three years ago Wednesday. A star has been placed in the floor on the spot where the president stood.

Teddy's Present.

Washington, Oct. 9.—The members of Capt. P. R. Schuyler post, G. A. R., of Philadelphia, presented Theodore Roosevelt, son of the president, a lamb named "Teddy." The lamb was the son of "Bessie," which attracted much attention last year at the encampment at Cleveland when she followed the procession as the president's mascot.

Gov. Bliss Thrown From His Horse.

Washington, Oct. 9.—Gov. A. T. Bliss, of Michigan, was thrown from his horse near Washington circle Wednesday during the G. A. R. parade and suffered several bruises about the body. He was treated at the Grand Army hospital and later removed to his hotel. His injuries are not regarded as serious.

Cambridge, Mass., Oct. 9.—The Amherst football team which was defeated 35 to 0 by Yale, held Harvard down to 6 points Wednesday and much of the time seemingly outplayed the crimson eleven.

The Reports That Extensive Frauds Have Been Practiced in Pension Claims Denounced as Absolutely Baseless.

Washington, Oct. 10.—The Grand Army got down to business Thursday and the encampment of the order besides hearing an address from Commander-in-Chief Torrance and reports from a number of officers and committees elected a new head for the ensuing year. The new commander-in-chief of the G. A. R. is Gen. T. J. Stewart, of Pennsylvania, who was a leading candidate for the honor a year ago. His competitors Thursday were Gen. John C. Black, of Illinois, a former commissioner of pensions, and Col. John McElroy, of this city. The name of Gen. Daniel Sickles, of New York city, was presented to the convention but he withdrew from the race. William M. Olin, of Massachusetts, was elected vice commander-in-chief, and James M. Averill, of Georgia, junior vice commander-in-chief.

Aside from the election of officers, the most interesting feature of the encampment was the report of the pension commission of the G. A. R. This committee severely scored the medical division of the pension bureau, declaring that it was a deadline where were executed the claims of veterans seeking pensions. It accused the personnel of this division of approaching the reports of the examining surgeons throughout the country with suspicion and distrust and as made in bad faith. It denounced the reports that extensive frauds were practiced in pension claims as absolutely baseless.

The Woman's Relief Corps, the Daughters of Veterans and the ladies of the G. A. R. also met in annual convention Thursday.

Thousands of veterans and their wives, new delegates to either of these organizations, attended army corps reunions in the big tent on the white lot or spent the beautiful October day in sightseeing. A feature of the late afternoon was the dedication of the corner stone of the proposed memorial bridge to connect Washington with the National cemetery at Arlington. Secretary Root was the orator of the occasion.

THE MEMORIAL BRIDGE.

Corner Stone Was Dedicated at a Big Open Air Meeting.

Washington, October 10.—The corner stone of the proposed memorial bridge across the Potomac to connect Washington with Arlington cemetery was dedicated at a big open air meeting in the White lot Thursday afternoon. The stone weighs seven tons and was cut by the stone cutters' union of the District of Columbia. The inscription read:

"Designed and presented by the stonecutters' union of Washington, D. C., as the cornerstone of the memorial bridge which, in connecting the national capital with Arlington, shall ever stand as a monument to American patriotism. Dedicated October 9, 1902, during the 36th national encampment of the G. A. R."

Secretary of War Root presided and made an eloquent speech in support of the proposed bridge. He also read a letter from President Roosevelt expressing regret because of his inability to be present and warmly indorsing the proposed memorial. W. P. McHugh, secretary of the Stone cutters' Union presented the stone.

B. H. Warner, of this city; Col. Jos. P. Elwell, of Buffalo, and Gen. Warnock, of Ohio, made speeches. An artillery band furnished the music.

Cocoanut Shells as Fuel.

New York, Oct. 10.—East side confectionery manufacturers are supplying cocoanut shells to tenement dwellers for fuel. The shells are sold in bags of 50 to 60 pounds for 10 to 15 cents a bag. The material furnishes more heat than coal and, while it does not burn as long as coal, its lasting qualities are much better than wood.

A Dual Tragedy.

Washington, Oct. 10.—Miss Alice Fisher, an employe of the government printing office, was shot and instantly killed at noon Thursday by William Dougherty, an employe of the same office. The murderer then turned the weapon upon himself and fired a fatal bullet into his brain. Jealousy was the cause of the dual tragedy.

Three Men Fatally Burned.

Scranton, Pa., Oct. 10.—Hobert Rankin, an actor, Lewis Dorshelmer and David Morton were experimenting with gasoline for illuminating a moving picture machine in the basement of Rankin's home. The gasoline exploded and the three men were fatally burned.

The Boycot Lifted.

Chicago, Oct. 10.—A truce was declared in the fight between the garment workers and the special order clothing workers as to which union had jurisdiction over certain classes of work and the boycot affecting over 4,500 garment workers was lifted.

Roosevelt's Action Commended.

Chicago, Oct. 10.—By an unanimous vote the ministers and laymen attending the Rock River conference of the M. E. church Thursday commended the course of President Roosevelt in attempting to end the coal strike.

Detroit, Mich., Oct. 10.—The 180 delegates representing 24 states, who attended the interstate conference on the coal situation here Tuesday, adopted resolutions after much debate urging the president to institute civil proceedings looking to the improvement of the interstate commerce act against the coal companies and criminal proceedings against their officers, petitioning the governor of Pennsylvania to call a special session of the legislature of that state to condemn all the coal-carrying railroads and confiscate of the mines to supply the demands of the people. The resolution petitions the president to call a special session of the house of representatives and to recommend the appointment of a committee with full power to investigate the cause of the strike and to place the blame therefor. A supplemental resolution was also adopted and ordered attached to the main resolutions. It urges the president to at once institute proceedings to dissolve "the present combination of the coal operators" and to have a receiver appointed to operate the mines.

CLARK UNIVERSITY.

Dedication and Inauguration of Carrol D. Wright as President.

Worcester, Mass., Oct. 10.—The collegiate department of Clark university was dedicated and President Carrol D. Wright was inaugurated Thursday. Senator Hoar, president of the board of trustees, presided and made an eloquent address. Senator Lodge also spoke and a striking feature of the exercises were Senator Hoar's complimentary references to Senator Lodge in introducing him. President Wright briefly outlined the purposes of the new college, which he said opened auspiciously with an entertaining class of 79 students. His oration was upon the relations between college training and citizenship. Clark university conferred the honorary degree of LL. D. upon President Wright and Senator Lodge.

POSTAL RECEIPTS.

The Largest Increase in the History of the Service is Shown.

Washington, Oct. 10.—The largest increase in postal receipts in the history of the service is shown in the reports of the gross receipts of the 50 largest post offices in the United States for last month as compared with September, 1901. These 50 offices furnish approximately half the entire postal revenue of the country. The net increase above the same month last year was 20 per cent. The total gross receipts were $3,068,684, an increase of $833,647. The largest increase was 50 per cent, at Dayton, O., closely followed by almost 49 per cent. increase at Jersey City, N. J. New York city and Chicago each showed an increase of 22 per cent. Receipts at Albany, N. Y., fell off $609.

SOUTHERN TEXTILE CO.

Some Seventy Cotton Mills Have Consolidated.

Charleston, S. C., Oct. 10.—A special from Greensboro, N. C., says: The "Fries cotton mill merger," of certain classes of all southern cotton mills, has been at last consummated to the extent that writings have been signed by 70 mills located in Virginia, North Carolina and South shreslucet t North and South Carolina, Georgia, Alabama and Tennessee. It is understood that the company formed to acquire these properties will be known as the Southern Textile Co.

SAFE BLOWERS' WORK.

A Store, Post Office, Several Offices and Two Residences Burned.

Knoxville, Tenn., Oct. 10.—A special from Lebanon, Va., says safe blowers in order to open the safe of the Russell County bank Wednesday night set fire to the C. M. Jenks & Co. store, on the opposite side of town. The fire destroyed the store, the post office, several offices and two residences, entailing a loss of $50,000. The attempt to force the bank safe in which there was $30,000 was unsuccessful. A part of the gang was seen leaving the bank but escaped.

Work on the New War Vessels is Very Unsatisfactory.

Inability of Shipbuilders to Obtain a Sufficient Force of Skilled Workers in Many Cases Has Been An Important Factor.

Washington, Oct. 13.—"Progress upon new vessels under construction during the past year has not been satisfactory," says Rr. Adm. Bowles, chief of the naval bureau of construction, in his annual report to the secretary of the navy. All the larger vessels, he says, have been delayed by non-delivery of structural steel while the vessels building at San Francisco were set back by the ten months' strike, and the holdout of the workmen at Seattle prevented any actual progress on the structure of the hull of the battleship Nebraska, building there. The delay in the deliveries of armor for the battleships Maine, Missouri and Ohio and the monitors Arkansas, Florida, Nevada and Wyoming has retarded the construction of these vessels, concurrently with other causes. The inability of shipbuilders to obtain a sufficient force of skilled workers also has been, in many cases, an important factor in the slow progress of the vessels." A table is submitted showing in concise form how the work on vessels under construction has fallen behind.

For instance, the battleship Ohio is shown to have been 29 months behind her contract on the 1st of July. This is not an isolated case. The battleship Missouri is over 20 months behind, the majority of the battleships and cruisers are over ten months behind and some of the torpedo craft are more than 40 months behind the date of completion stipulated in their contracts. However, Adm. Bowles says that the extensive delays on the torpedo boats are being terminated by the newly modified conditions for their delivery. The contractors' delay in beginning the construction of the vessels of the Virginia, Pennsylvania and St. Louis class, the chief constructor points out, gave his bureau an opportunity to make a careful revision of the general plans of those war vessels, which, he says, will result in a considerable improvement in their military value and in their habituality. The plans for the turrets of the Virginia class were developed in more detail. An entire rearrangement of the scheme for the stowage of ammunition was made and particular attention was given to an efficient scheme for coaling. A table is given showing the ships added to the navy during the last year. They were the battleship Illinois and the torpedo craft Decatur, Perry, Preble, Biddle, Thornton and Wilkes.

ARMOUR'S CRIPPLED CHILD.

A Successful Operation Performed By Prof. Adolph Lorenz.

Chicago, Oct. 13.—The operation which Mr. and Mrs. J. Ogden Armour hope will cure their daughter Lolita, who has been a cripple since birth, was performed Sunday by Prof. Adolf Lorenz, of the University of Vienna. Prof. Lorenz pronounced it a complete success, and said he had not the least doubt that the child would be able to walk as well as the healthiest children when the plaster cast shall be removed next spring.

Prof. Lorenz was aided by his assistant, Dr. Fredrich Mueller, of Vienna; Dr. Dexter Ashley, of New York, who was a student under him during the summer; Dr. Frank Billings, Dr. John Ridlon, and Dr. J. L. Miller. The operation was concluded about two hours after the anaesthetic was administered.

HE INVITES WAR.

Sultan of Bacolod, Mindanao, Rejects Friendly Overtures.

Manila, Oct. 13.—The sultan of Bacolod, Mindanao, has rejected the friendly overtures of Gen. Sumner, commander of the American forces in Mindanao, in a defiant letter, in which he invites war. The sultan says:

"The sultan of Bacolod desires war forthwith. He wishes to maintain the religion of Mohammed. Cease sending letters. What we want is war. We do not desire your friendship."

Friendly Moros report that the sultan of Bacolod is fortifying his strongholds. He is in possession of many rifles. It is expected that an American column will be sent from Camp Vickers to capture and reduce the Bacolod stronghold. It has not been decided when the move is to be made.

Supply Steamer Arethusa Arrives.

New York, Oct. 13.—The United States supply steamer Arethusa arrived Sunday from Cavite, via the Suez canal, after an absence of 26 months in Asiatic waters, where she has been in service attending the United States fleet stationed in the far east. All on board the vessel are well. She carried a crew of 39 men.

RECOGNIZED RESEMBLANCE.

Father of Smart Young Man Had Good Reason to Doubt His Own Judgment.

Not long ago a youth residing in the city of churches had adopted the pompadour method of combing his hair, and his father din't like it. The latter had an idea that there was only one sensible and manly way to comb the hair, and that was to part it on the side—either side. Everything else was dudish and affected in his opinion. Only a woman was privileged to take liberties with old established methods, relates the Chicago Chronicle.

"Young man," he said, as he looked the youth over, "you look like a fool."

There was no discussion, and shortly thereafter an old friend of the family came in.

"It's startling," he said, by way of pleasant comment, "how much you resemble your father."

"So he's just been telling me," answered the youth.

The old gentleman looked hard at his son for a moment.

"Well," he conceded at last, "I guess your brain hasn't been affected by your fool notions of hairdressing as yet."

More Appropriate.

"He calls his office a 'dental parlor.' Isn't that ridiculous?"

"It is, indeed. He should call it a 'drawing-room.'"—Philadelphia Record.

"My dear," said the young husband, "did you speak to the milkman about there being an ocean on the milk?" "Yes, I told him about it this morning, and he has explained it satisfactorily, and I think it is quite a credit to him, too." "What did he say?" "He said he always filled the bottles so full that there was no room on the top for the cream."—Indianapolis News.

Mitchell Pipteon Will Not Consult in Resumption of Work.

J. Pierpont Morgan Is Convinced of That Statement.

Will Make Propositions to the Individual Miners.

Washington, Oct. 13.—J. Pierpont Morgan is convinced that a military protection at the coal mines will not result in a resumption of work. This decided him to make more speaking to the pending strike. Other matters, and this is necessary energy to secure results.

Under instructions of Morgan and Cassatt propositions to the individual miners will be prepared in these offices and the United Mine Workers' organization. As expressed in Wednesday's resolution that the strikers will not return to work without concessions, even though the entire military force of the United States should be here to protect them.

With a determination to prove their claim, the operators have been for the past week making a supreme effort to secure men, that they have succeeded is evidenced by announcements made with some positiveness that various collieries will resume operations in the course of a few days. The Delaware & Hudson Co. will make a start Monday morning at the Pennsylvania Coal Co. will open up the Green Ridge colliery probably Monday or the next day, but assurances to the public. Other companies say they are figuring on resuming operations, but decline to make any definite statements. Claim is also made on the operators side that the non-union collieries already working are to be largely increased during the week.

The United Mine Workers' leaders continue to assert that the military men can do nothing towards inducing men to return to work, and that all the men who could be induced to go back to work without concessions are already back.

Strike disorder is now almost wholly wanting. During the past two days the soldiers have had nothing to do further than their regular patrol duty, not a single call having come to headquarters.

Wilkesbarre, Pa., Oct. 13.—The Erie Co. Sunday night posted notices at its collieries at Pittston requesting all striking employes to return to work Monday.

The company assured an open shop returned ample protection.

This is believed to be the first move by the part of the coal operators to break the strike under the protection of the United States troops.

A COAL BOAT RISE.

Three Million Bushels Left Pittsburg Monday.

Pittsburg, Oct. 13.—The scarcity of eastern coal famine caused by the coal boats being tied up here by low water is about to be relieved. The heavy rain of Saturday caused the Ohio river to rise to a depth sufficient to allow the boats to move. Monday morning 20 steamers, pushing 240 barges containing 3,000,000 bushels of coal left for the south. There is every indication of a continued rise in the river, in which case an additional 3,000,000 bushels will go south.

IMPORTING ANTHRACITE.

Philadelphia Company Has Purchased 35,000 Tons.

Philadelphia, Oct. 13.—The Brauer Line Steamship Co., operating between Philadelphia and New York and Hamburg, is reported to have purchased 10,000 tons of anthracite coal from Germany and 15,000 tons of anthracite from southern Russia. The latter lots to be shipped from Mariupol, south Russia, during October and November.

Arctic Explorer Sverdrup Decorated.

Christiana, Norway, Oct. 13.—Emperor William has bestowed the decoration of the Prussian royal order of the crown of the first class upon Capt. Sverdrup, the Arctic explorer. King Oscar of Norway bestowed the grand cross of St. Olaf on Capt. Sverdrup last week.

Treasury Balances.

Washington, Oct. 13.—The statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve fund, on account redemption, shows: Available cash balance, $219,799,079.

Converse Subscriptions.

New York, Oct. 13.—The subscriptions obtained at the two meetings of the Christian missionary alliance held Sunday amounted to $60,000. Of the $25,000 pledged, $2,000 was given by Rev. S. A. D. Simpson and $1,000 by Mr. Simpson were the speakers.

Pilgrimage to Parnell's Grave.

Dublin, Oct. 13.—The tenth annual pilgrimage to the grave of Parnell occurred Sunday. For the first time the lord mayor and corporation of Dublin attended. Over 2,000 persons were present, a larger number than on previous years.

Government Bonds Missing.

St. Joseph, Mo., Oct. 11.—Registered government bonds worth $8,000 are missing from the estate of William Shumaker, pioneer banker of this city. John McGee, administrator, discovered the fact Friday.

Fatally Shot.

Pittsburg, Pa., Oct. 11.—While leaning against a fence in front of the Perfecting & Co. building on Fifth avenue, Frank Bell was shot in an air brake which is pending in Washington. Charles Cawley, a three-fold boy of Homestead, Pa., killed his mother and one sister and fatally injured four other children. He also tried to kill his two other brothers, but was detected, overpowered and turned over to the police.

The weapon used was an ax, with which he crushed and hacked his victims beyond recognition. The dead: Mrs. Hannah Cawley, aged about 40 years, head and upper portion of her body almost pounded to a jelly; Bell Cawley, aged 12, who threw with her mother, head frightfully crushed.

The fatally injured, who are at the Southside hospital: Josephine, the baby of the family, aged 15 months, head and chest battered; Ada, aged 6, skull fractured; Ray, aged 6, scalp wound and head bruised; Harry, aged 10, head crushed.

Young Cawley declares emphatically that he committed the deed. He tells a fairly connected story, in which he reiterates his innocence. He says he was awakened at an early hour by sounds on the first floor and went down stairs to investigate. Returning to the upstairs he found his sister lying across the bed covered with blood and dead to all earthly sensations.

Anna, the eldest daughter, was also killed Friday night at the Southside hospital. It is reported that the three other injured persons will probably fully recover.

After a thorough examination by the coroner, it was reported that the young man's story of robbery has been disproved and that Cawley killed the dead in a fit of insanity.

Raymond Cawley died Friday night making four deaths.

NEW ORLEANS STRIKE.

The Differences Adjusted, and the Strikers Go Back to Work.

New Orleans, Oct. 12.—The strike of street railway employes, which has effectually tied up the street car lines of this city since Thursday morning, was declared off by the union almost unanimously last night, after a meeting of the union which began Saturday night and continued until 4 o'clock Sunday morning, when the executive board finally decided to submit the matter to a general meeting of the union Sunday afternoon. The basis of settlement is that the men go back to work on the old schedule of 10 cents an hour, with a minimum of 7½ hours a day.

No decision was reached Monday night as to whether the Mangum men or any of the men under charges, and as many to be taken back as are needed for the operation of the company's lines. The Monday morning meeting was on the taking back of Mangum men, under charges, but the railroad company, finally conceded this, allowing the courts to decide the guilt of the men.

NAVAL OFFICERS NEEDED.

Special Examination For Midshipmen to Be Held in Washington.

Washington, Oct. 11.—Owing to the urgent need for naval officers the navy department has limited the following telegram to all who have passed successfully the recent examination for midshipmen: "Special examination for midshipmen to fill vacancies will be held at the navy department, commencing on November 12, and all successful candidates will be required to report at that time for examination for admission to the naval academy. You can authorize immediate principal and five alternates under regulations recently issued to you. No candidate who has failed to pass any of the examinations will be admitted to this examination for November 12. Vacancies not filled by this examination must remain over and be filled by members of the next graduating class."

A THOUSAND MEN AFFECTED.

Employes of the Machine Shops Combine Strike.

Pittsburg, Pa., Oct. 11.—Vice President T. W. Rowe, of the American Flint Glass Workers' association, announced Friday that a general strike had taken place in the cylinder department and that the five plants of the Macbeth-Evans Glass Co. at Charleroi and the South Side factory are now idle.

The strike was caused by the company refusing to comply with the association rules. One thousand people are affected.

Crown Prince of Siam in Washington.

Washington, Oct. 13.—His royal highness, Chowth Maha Vajiravudh, the crown prince of Siam, who arrived in this city Saturday from New York, spent the day in his apartments at the Arlington and in driving about the city. No visitors were announced.

The explosion occurred at 2:45 Friday afternoon in the cellar of a three-story store on the first floor of the Homestead Land Improvement Co. building at 614 Ann street. The loss will be about $20,000.

DOUBLE RAILWAY WRECK.

Express Train Crashed Into a Wrecked Freight Train.

Montpelier, Vt., Oct. 13.—Express train ran into a wrecked freight train near Barre, three miles west of Petersburg, at 2 o'clock Sunday morning. The passenger engineer and the freight brakeman were instantly killed and the passenger fireman was probably fatally injured.

An eastbound freight train broke in two, and the parts coming together with great force, 14 cars were broken and overturned, across all the tracks. At the same moment the fast express was completely stripped and a postal car, baggage car and four coaches containing 120 passengers were derailed and broken. The wreckage of freight cars immediately caught fire and trains were burned. The four Pullman cars remained on the track, and the passengers were unhurt.

The postal clerks, baggage men and passengers in the coaches were all severely shaken up but no one received more than slight bruises except a lady who had her ankle sprained.

BOGUS SILVER DOLLARS.

They Are Made in China and Circulated in Manila.

Washington, Oct. 13.—Bogus silver dollars are being made in China and circulated here extensively. The supposition is held that some of this money was shipped from San Francisco. The dollars are of silver, and of standard weight. They have been detected through the improper stamping of the word "liberty" on the goddess. The low price of silver has spured to the manufacture of counterfeit money a profit of 100 per cent. American silver dollars are worth 50 cents in the Philippines.

MOTORMAN'S MISTAKE.

Two Killed and Many Injured in a Collision in Paris.

Paris, Oct. 13.—As the result of a mistake made by a motorman one electric street car ran at full speed into another in the Avenue de la Republique Sunday evening. Both cars were crowded. Thirty-nine persons were more or less seriously injured. Several were taken to a hospital. They had sustained broken limbs or had been cut by glass or splinters.

Shipping Coal.

Reading, Pa., Oct. 13.—Four trains of washery and mined coal, consisting of 225 cars, equal to 6,750 tons, passed down the Reading road during Saturday night. The fuel is intended for sale to the company's employes and for use in the locomotives. This was the greatest shipment since last May and is greater than Friday night's run, which was 189 cars.

Government Warning.

London, Oct. 13.—Rev. Charles Robinson, honorary canon of Ripon, has been appointed dean of Westminster in succession to Very Rev. George Granville Bradley, who has resigned.

STATE ITEMS OF INTEREST

FOUR DEAD BODIES

They Were Found in a Cold Storage Plant in Louisville, Ky.

Louisville, Ky., Oct. 13.—Four dead bodies were found Wednesday night in a cold storage room in the rear of an ice factory on Eighth street. The same place that were used in concealing the cream for ice cream were connected up with a small plant in the shed in the rear where they kept the bodies. It was at first thought that the cadavers had been brought here from Indianapolis, but the heads of the several colleges interested in the establishment asserted that the bodies were obtained legitimately by them from the penitentiaries, insane asylums or other institutions of the state of Kentucky.

Chief of Police Gardner received a letter from the chief of police of Indianapolis, inclosing a letter from a woman in Louisville, who said she had lived at the place in question and that some of the bodies stolen in Indianapolis had been shipped here and were stored in the shed.

Chief Gardner sent two policemen to the scene. They reported that they could not get in the shed, without breaking open the door. Central Detective Sergeant Whalen then went to get the permission of the court to open the building, those having charge of the place sent word to police headquarters that the building was open and the investigation was made. The building was in small one, provided with numerous chambers for the preservation of ice cream and fruits. The bodies were found in boxes and most of them were in good state of preservation. The establishment is maintained by several Louisville medical colleges. The head of the institutions say they are given the bodies by the state with the understanding that they are to be held 30 days for identification. In order to assist in the identification the cold storage plant was established and a strange scent made with the ice cream plant to furnish the cooling air. The building is on Eighth street, but the entrance to the place where the bodies were found is from an alley.

Indianapolis, Ind., Oct. 10.—A party headed by Detectives Asch and Sanger went to Louisville this Thursday afternoon to investigate the cold storage room in the Mahoney building. Wednesday night. It is thought the bodies of the bodies were stolen from Indianapolis cemeteries and which mysteriously disappeared from the colleges here may be found there. The party included besides the detectives named, Coroner Castor and Undertaker Sifg. Perham & Long. Nothing more concerning the awful sensation.

Louisville, Ky., Oct. 13.—The ghoulish mystery which broke over the Louisville, New Albany and Chicago [illegible] found in the cold storage room [illegible] pointed to [illegible] that they had been [illegible] in [illegible] Indianapolis [illegible] Coroner Halloran [illegible] Mayor [illegible] Chief [illegible] Detective [illegible] Sergeant [illegible] Detective [illegible] Sergeant [illegible] Detective [illegible] Sergeant

For Circuit Clerk.

We are authorized to announce S. E. TERRELL, of Idlewild, as a candidate for Circuit Court Clerk, subject to the action of the Democratic party.

THE Methodist church of Canada has 291,895 members, a net increase of 2,733 for the year, or 122,092 since 1883, when the various Methodist denominations united.

IT is time for the Democrats in this county to be up and doing, as they are depended upon to make good the anticipated falling off in the Democratic vote in Kenton county next month.

THE ordinary Republican can't get any relief from the treasury when he is afflicted with financial stringency, but he is permitted to borrow from the banks at a high rate the money which the government loans the banks without interest.—Commoner.

THE farmers will enter the coming winter with an abundant supply of provender for their stock, and a larder well supplied for family use, consequently they ought to be a contented and happy class again as they roast their shins before a big fire during the long winter evenings.

THERE is a deficit of teachers for the public schools in Boone county this year, and six or seven districts are unable to secure teachers. This deficit is attributed to the insufficiency of salary which has been paid in the county, and the improvement of the standard of the teacher in the last few years.

THE North Bend Association of Baptists held a very interesting session in Covington, last week. Rev. B. F. Swindler was reelected Moderator, and D. E. Castleman, Clerk. The Association will be held with the Bellevue church next year, which will be an important occasion, it being the centennial year of that body.

THIS issue completes the 27th year of the RECORDER'S existence. To those who have patronized it, it is very thankful for their favors, and especially is it thankful to the large number of persons who have been regular subscribers from the first issue, for such friends made its existence possible. Now is the time to subscribe.

WHEN asked regarding a report that he would not be in the race for the Democratic nomination for Governor, Judge James D. Black, of Barbourville, emphatically denied the statement. He said he had no announcement to make at present, but it is regarded as certain at his home that he will make a strong fight for the nomination.

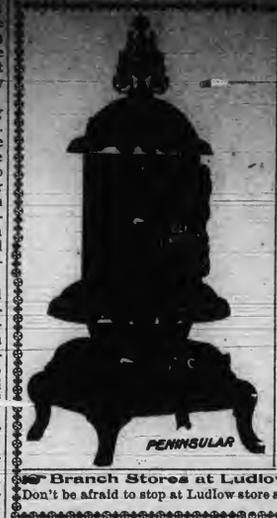
THE Williamstown Courier is pleading with the Grant county Democrats to give Gooch and Paynter the largest majority they ever gave in an off year. The Democrats in this county ought to turn the same trick. They can give 1,500 majority and then have votes to spare. Show your metal, Democrats on the Tuesday after the first Monday in November.

Under the uniform school-book law, similar to the cheaper school book movement declared for by the last democratic platforms in this State, there has been a saving of more than 33 1-2 per cent upon the cost of school books to the people of Tennessee ever since its adoption. If each child enrolled in the public schools bought only $2 worth of books the saving to the parents of those children would amount to the enormous sum of $325,770 in a single year. Another good thing in favor of the system is the books are good for five years and can be passed down from the elder to the younger children through the entire family. The same books are issued in all the counties in the State so that when a family moves from one into another county there are no new books to be purchased. The change has worked satisfactorily in Tennesee as it has in all other states where the movement for uniform and cheaper school books has been inaugurated. A similar law and saving to the people would be in force in Kentucky were it not for the grip of the school book monopoly upon our legislature. The democratic party owes it to the children of Kentucky that the enormous profits of monopoly upon their school books shall be curtailed. The promises of the democratic state platform must be made good.—Cynthiana Times.

A subscriber at Georgetown asked the Louisville Post if there ever was anything like serious suffering, anything like famine in Kentucky, because of short crops due to drouth. The query editor replied as follows:

"There certainly was during one year at least—the year 1855. The year 1854 was known as the year of "the most remarkable drouth since 1829," andth e Ohio then got lower than in any other year going back to 1829. Also in 1854, a tremendous and destructive storm visited Louisville. Much of the state entered and remained throughout the next year—1855—in bad shape.

"In winter of 1855, several farmers in Clark county lost "cattle from starvation." In the surrounding counties farmers in many cases had to sell their cattle at half what they cost two years before, or at very small prices, all "from want of corn and provender," the outcome of the remarkable drouth of the summer just before.



The year 1855 was the year of the terrible riot in Louisville on election day. That day was Monday, August 6, and it came to be known as "Bloody Monday."

The outlook in early part of 1855 was for famine in parts of Kentucky; and in at least one Central Kentucky town a public meeting was held to devise means for the relief of the distress caused by the scarcity and high price of provisions.

"We find reported for May of 1855 occasional cases of scurvy, due to want of vegetable food. And at the same time flour was selling at $10.50 per barrel and potatoes at $1.50 to $2.50 per bushel.

THE Hon. John K. Hendrick, of Paducah, opened his campaign for the Democratic nomination for Governor at Hopkinsville. He assailed the eligibility of Gov. Beckham to reelection, and read a lengthy opinion signed by a number of Western Kentucky lawyers, coinciding in his construction of the Constitution. He discussed national issues to some extent, advocating State legislation against trusts and for the arbitration of labor troubles, and came out strongly in opposition to a Democratic State Primary declaring that there was no authority under the party law for the calling of a State primary.

JUDGE LASSING has taken a stand that will materially reduce the number of pistol carriers in this judicial district. The Judge says when a person is convicted in his court of carrying a pistol he shall serve out the jail sentence that the law imposes, unless pardoned by the Governor. He says that kid-glove gentlemen and "one-gallus" fellows are on equal footing in his court, and neither will be shown any favors when convicted for carrying concealed deadly weapons. The Judge is eminently correct in this matter, and the law-abiding element of the people will endorse his position most heartily. A few imprisonments in jail of the high-toned pistol carriers will have a wholesome effect on that class of persons who can not leave home without concealing a gun under their coat tails.

"If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find that the doctors' prescriptions do not perform the many cures they are given credit for.

"I am consulting with my druggist he advised McElree's Wine of Cardui and Thedford's Black-Draught, and so I took it and have every reason to thank him for a new life opened up to me with restored health, and it only took three months to cure me."

Wine of Cardui is a regulator of the menstrual functions and is a most astonishing tonic for women. It cures scanty, suppressed, too frequent, irregular and painful menstruation, falling of the womb, whites and flooding. It is helpful when approaching womanhood, during pregnancy, after childbirth and in change of life. It frequently brings a dear baby to homes that have been barren for years. All druggists have $1.00 bottles of Wine of Cardui.

Burlington's ball team went to Petersburg, last Saturday afternoon, where it played the fastest game it has put up this season, but which it handed to Petersburg by a failure to cover second base and a bad throw in the 5th inning. Both batteries did effective work, while Alloway's playing at second was the feature of the game. Following is the score by innings:

Burlington	0	0	0	1	1	0	1	0	0	—3
Petersburg	0	0	0	0	4	0	0	0	0	—4

Batteries—Hughes and Hogan; Gordon and Theisge. Base on balls—Hughes, 2; Gordon, 2. Hits—Burlington, 4; Petersburg, 1.

The Burlington and Bellevue teams play at Bellevue next Saturday.

The Burlington and Bullittsville coming ball players had a close finish in a large score here last Saturday, the score being 20 to 19 in favor of the home talent. The feature of the game was Johnny Kruse's throw from right field to first base with his eye.

(Who celebrated the Sixtieth Anniversary of their marriage, Oct. 2.)

October 2nd, 1842, was a beautiful autum Sabbath, and at 3 o'clock that afternoon occurred an event, which, last Thursday, 60 years thereafter, a large number of the friends and relatives assembled at the home of the principals in the old neighborhood, to commemorate. The event here referred to was the marriage of James A. Wilson and Miss Jane K. Stephens, daughter of the late James N. Stephens, of East Bend neighborhood, this county. The officiating minister on that occasion was Rev. Frank Craig, Baptist, and the attendants were Benjamin Stephens, jr., and Miss Sarah Dibble. The groom was a few weeks less than 28 years of age, while the bride had just passed out of her 16th year. These two stout young hearts entered upon the battle of life together at that early day, and have shared the joys and sorrows of life as true christians. They have living, one daughter and seven sons, all good citizens and devoted children, to whom it is a pleasure to minister to their parents' every want in their old age. Next month Mr. Wilson will be 88. Mrs. Wilson is eleven years younger.

The celebration last Thursday was arranged for by the children and friends of Mr. and Mrs. Wilson, and no event could have been enjoyed more by them. Their home has always been an ideal Kentucky home, and the reception accorded their friends last Thursday was the same cordial welcome they have extended all those who crossed their threshhold during their long married life, and which, together with their many good deeds, has secured for them not merely the admiration, but the love, of all. James A. Wilson was for many years prominent in public affairs in this county, having represented it in the General Assembly, and his record, both private and public, is spotless, no act of his ever being imputed to a selfish motive. For many years he was the advisor of his entire neighborhood in affairs both public and private, and the service he rendered his people along that line was very great. Much of his success has been due to the good wife he chose in early manhood.

The elegant dinner prepared for the occasion was served on a long table in the yard, and consisted of every thing that the season afforded and the ingenuity of good cooks could provide. Numerous waiters attended the table, and no wedding feast was ever enjoyed more.

In the large crowd were only four persons who were present at the wedding sixty years ago. They were Miss Permelia Stephens, Marion Stephens, B. H. Stephens, and T. C. S. Ryle. The children present were Mrs. O. F. Craig, Ben, Quintus, Al, Robert, Hayde, Charles and Samuel Wilson.

It was late in the afternoon before all had taken their departure, wishing Mr. and Mrs. Wilson many more happy anniversaries of their marriage.

Those present were F. M. Stephens and wife, Mrs. Myra Stephens, Ben C. Stephens and wife, R. H. Stephens, wife and son, Mrs. E. L. Stephens, J. L. Stephens and wife, B. H. Stephens and wife, J. J. Stephens, Z. T. Stephens and wife, Miss Lulie Stephens, Miss Katie Stephens, Lewis Stephens and wife, Richard Stephens and wife, J. Q. Stephens, Hugh Stephens, Miss Melia Stephens, S. J. Stephens, T. Grant, Bellevue, guarantee satisfaction or refund price. Trial bottles free. Regular sizes, 50c and $1.

The Universalist brick church building in Locust Grove neighborhood, was sold at public auction, last Saturday, Geo. Blyth, of Burlington, being the purchaser at $55. The building was erected in 1849, the late Jesse Kelly, on whose land the building stood, being the boss brickmason, while Attorney F. Riddell, of Burlington, was one of the corps of mortar-mixers. The land reverts to the Kelly estate, and the proceeds of the sale of the building will be used to repair the Universalist church building in Burlington. Thus another old land mark will soon vanish.

DING WITH GOD

(Capital) and Labor in the Light of the Divine Will.

...ference by the "Highway and By-way" Preacher on Some of the ...Questions of the Great Coal Strike.

[Copyright, 1902, by A. N. Kellogg Newspaper Co.]

Chicago, Oct. 12, 1902.

Text: "Our Father, Which art in Heaven. Thy will be done in earth, as it is in Heaven."—Matt. 6:9-10.

The Universal Prayer.—The ground of our text are immediately recognized as part of the Lord's prayer, which Christ taught His disciples, and which has come to be universally used. The rich and poor, the great and small, the cultured and the unlettered, the church attendant and the one who seldom or never goes into the house of God, all unite in the prayer and plead the words of our text: "Thy will be done in earth, as it is in Heaven." And each in their desires belie their words by their acts for and with the whole world, as a rule. They all pray together on high ground, seeking from an impartial and all-wise God a common good.

That is, theoretically they want God's will to be done, while self-will, prejudice and selfishness prevent the practical realization of such desires. Without being conscious of it, personal interests are allowed to so enter into the consideration of questions and conditions as to make one's own will seem to be the will of God. A case in point is the present great coal strike. The men on both sides of the contest as far as I know, believe in and worship God, and undoubtedly frequently repeat the Lord's prayer and pray this: God's will may "be done in earth, as it is in Heaven." Both sides in the present coal strike, as in all other controversies between capital and labor, are sincere in their utterances and believe that they are acting in accordance with God's will. But in the majority of cases they are governed by the line of his individual desires and purposes and plans. They have, together, when it comes to the petition words they utter to God, but remotely connected and absolutely part company with each other and possibly with God when it comes to their ideas as to how the prayer should be answered.

But we know that with God there is no "variableness, neither shadow of turning." We know that He is "the same yesterday, and to-day, and forever." We know that the Divine will follows an "undeviating course," that there are not two different answers to the same prayer; that when in Christ man prays "Thy will be done," and the poor man prays: "Thy will be done," and the labor leader prays: "Thy will be done," that when the cultured product of the university prays "Thy will be done" and the unlettered in the workshop prays: "Thy will be done," all prayers are heard in the same mark, and if the conduct and life of the rich man and the poor man, the capitalist and the labor leader, the cultured and the unlettered were such as to permit the perfect working out of the will of God it would be the same in the shops and the events of the world. The will of God would be doing found in the two widely divergent streams that make the delta of the Amazon, but like the beneficent gulf stream it would flow with its tonic and its blessings through the midst of the ice of the earth's toiling millions, exerting its wholesome influence on every hand. God has no favorites in the sense of showing partiality to one individual over another for the sake of the person. The poor man does not believe that the rich man has a ...ter chance of heaven because of his ...ches, nor can the rich be established ...d trusted that the labor leader ...does not love the capitalist ...s God wealth and the ...nce to gain the ear of God, while he must stand out in the cold and talk [illegible] wail ... that "him that cometh to Me I will in no wise cast out." They may all alike have access to Him.

When Christ taught His disciples to pray this prayer He did not mean that God was to be brought around ... to come into ... And we know that to-day this is the true purpose of the prayer; that wherever the earth ... God is ... done, the conditions ... changed as to bring ... into harmony with ... know, further- ... who goes to God ... and tarries long ... divine presence to ... what God's will ... returns with it ... to help bring ... od.—To offer the ... which is doing ... who believes it ... makes one a ... him upon a ... for ... similar to that ... ing in Heaven, and makes him a party, henchman, disciple, friend to work for the success of that policy. To ... [illegible] ... and heart towards God which is willing to yield personal desires and ambitions ... perfect opportunity to operate through us. Self-will will not allow us to stand with God. There is an insurmountable wall between the individual and God, and must be broken down before God's presence can be gained. Jesus condemned many in His audiences as various times as "stiff-necked, and uncircumcised in heart," because they had set their will up against the will of the Almighty, and were not willing to yield to Him because they saw that God's will was not in accord with their preconceived notions. Submission does not leave room for discussion or argument. One cannot gain the presence of God in the pretext of submitting his will, and then enter into an argument in an effort to show the Almighty how to His way of thinking. Submission to God "is not the "eye, eye, sir," of the son of the parable whose father requested him to go and work in the vineyard, but who went not, but [illegible] ... afterwards repented and went.

But standing with God means more than submission, it means confidence, and perhaps we might [illegible] it first. Confidence, not in self, not in one's wisdom or abilities, or power, but confidence in God. On the face of it this seems like an unnecessary statement. One might ask, who has not confidence in God? And on the other hand, in the face of all fact, how many really have confidence in God? In the world to-day there is very little confidence shown in God. Man would rather trust man than God; would rather rely in his own plans, and his own ability to carry out those plans, than rely on God. The test of how much confidence man has in God is found in man's readiness to obey the word of God. My friend says to me: "I would not invest my money in that enterprise, if I were you." And he does goes on to tell why he thinks it will be a safe investment. The amount of confidence I have in my friend is proven by the closeness with which I follow his advice. The amount of confidence I have in God is shown in the same way. If God speaks and I heed not His voice, surely my confidence in [illegible] ... God. When He declares: "Commit thy way unto the Lord; trust also in Him, and He shall bring it to pass." [illegible] ... because of him who prospereth in his way, because of the man who brings forth wicked devices to pass. Cease from anger, and forsake wrath; fret not thyself in any wise to do evil. For evil doers shall be cut off; but those that wait upon the Lord, they shall inherit the earth."

Here is but one declaration from God's Word, which abounds and overflows with assurances to those who will trust in God. If I really have confidence in God I will take Him at His word and commit all my ways into His hand and wait the time when He shall bring all my desires to pass. There is not a labor dispute, there is not a business difficulty, a domestic trouble, a hardship endured, which is not speedily and effectually settled by a prayer and a solution and adjustment along the lines of God's will.

In the passage from the Psalms quoted above, we have set forth our thoughts in relation to God. In "Commit thy way unto the Lord." In the [illegible] who is "He," we have the declaration which follows we are told the [illegible] with which God acts, "and He shall bring it to pass." And, while such is the case, the Psalmist gives some wholesome advice. Don't fret because the wicked seem to prosper, because of his injustice suffered. Do not do a wrong because a wrong has been done you. Refrain from [illegible] ... Illustrations of the practical working out of this passage from the Word of God, we have time to refer to but one. David, who wrote the words, lived them out in a most wonderful way, and demonstrated the truth of every declaration of God. Saul was a mere toy in God's hands, and anointed him king over Israel. He commanded that he should be treated as a friend and servant of the Lord, but he failed to do it, and the Lord brought it to pass in His own good time. After his great victory over Goliath, and being become a favorite of Saul's, and even given the daughter of the king for a wife, David thought it was soon to realize the promise of God. But instead of it crown he was forced to endure hardship and persecution; instead of the ... [illegible] ... of kingly [illegible] ... [illegible] ... [illegible] ... [illegible] ... wrong doing of his own. We do not hear David complaining, or doubting God. We do not see him losing his confidence in Him and refusing to stand ... [illegible] ... [illegible] ... [illegible]

Items That Have Caused Alarm.

It is pleasing to know that some at least of the republican leaders who had come to look on Mr. Roosevelt as a "trouble hunter" are, since his speech at Cincinnati praising him for his "conservatism." This is based chiefly on the very emphatic manner in which the president made it plain that he had no intention of advocating the only practical present cure for the evils attending the trusts—namely, the withdrawal from them of the favors of the tariff. But without this most recent demonstration of his purpose not to interfere with the idol of his party there does not seem to have been anything in the propositions of Mr. Roosevelt that need alarm the most timid of the politicians, says the New York Times. After giving effect to all the qualifications on which he insists there is not much left to his speeches. Take his latest and most carefully elaborated utterance at Cincinnati. Suppose that he had contented himself with a statement in substance as follows:

"No one knows exactly what is meant by 'trusts.' There are good ones and there are bad ones. I do not know exactly how to tell them apart. I do not know precisely what the evils of the bad ones are. Whatever they may be, congress has not now the power to remedy them. I do not know exactly

COMPANIONS IN MISERY.

The Donkey—"Now you know how a split feels."—Chicago Daily News.

what definite power it ought to have, but the only way to give it is by an amendment to the constitution, the nature of which cannot be stated in advance. But it will take a great while to get the amendment, and we can have time to study it out. All I can say is that we must act with the greatest firmness and caution during the deliberation, do nothing until we are sure we are right, and, do it without hesitation."

Would not that be in reality all that he did say in his speech at Cincinnati or in the speeches that have preceded it? As we have paraphrased his utterances they seem nonsensical. But is the paraphrase unfair or incomplete?

Enough to Confuse.

It appears from the campaign speeches that all the good things which have come upon the country are due to the Dingley tariff; all the bad things are the result of natural laws, over which the republican party has had no control. Thus, while republican policy has caused good crops and general prosperity, it has had nothing to do with the growth of trusts, which merely illustrate a universal tendency. The general advance of prices indicates the prosperity flowing from the tariff; if wages and salaries have not advanced correspondingly, it is because they are controlled by the law of supply and demand. A similar distinction runs through the whole political and economic field. If not always convincing it is most convenient. Yet sometimes it is a little confusing to the logical mind.—Philadelphia Ledger.

Nothing Sudden.

Desire for tariff revision is not a sudden outburst. Anyone who is familiar with the temper of the west, as revealed in the newspapers or in common talk, knows that the fire has long been smoldering. It has not been for the sake of providing entertaining reading that republican conventions in Oregon, Idaho, Wisconsin and Iowa have recently declared for revision. The republicans are in such dead earnest about the matter that Speaker Henderson says their bitterness in his own district can hardly be imagined. If Hanna, Henderson and the school of politicians whose motto is: "After us, the deluge!" continue to choke the vent in the crater they can reckon upon an explosion compared with which the withdrawal of Speaker Henderson is a light puff of smoke.—N. Y. Post.

——The friends of Gen. Alger are insisting on his election as United States senator to "vindicate" him. Among those against whom he must be vindicated are President McKinley, who compelled him to resign from the cabinet, and Col. Roosevelt, who signed the round robin that brought matters to a head with an issue.—Waterbury (Conn.) American (rep).

President Roosevelt in all speeches never once referred to the publican campaign book, nor that matter does any other campaign orator that has to be heard from. Was all the time and labor of the compiler of that interesting production in vain? Are all the figured facts and figures to be buried in the dark since? The president merely rebuked the congressional committee that issued the campaign book by discussing the very matters that were omitted from that interesting production, such as Cuban reciprocity and the reciprocity treaties. He also took issue with the committee on the tariff and trust questions.

With the president on the stump refuting the arguments put forth by the republican committee in its official text book and repudiating the misleading of matter that makes important issues, that party certainly is in a torn-up state and it is no wonder that so many republicans don't know where they are at.

SHAW AND ROOSEVELT.

Said to Differ on the Tariff, and There Is Trouble in the Republican Camp.

The report comes from New York in a special dispatch to that usually well-

informed republican paper, the Record-Herald, "that the president is at the point of open rupture with Secretary Shaw and that the latter may resign from the cabinet. That there were differences between the president and Mr. Shaw as to tariff revision has been suspected."

This information is doubtless correct as far as the differences about the tariff, but that Shaw will resign from the cabinet must be an exaggeration. He may be forced out, he might do that he will never resign. Why, Shaw never had such a soft snap in his life before. With Wall street giving him taffy and working him for favors Shaw will not quit such a delicious job. Then think of all the glories of the "Washington season." That is in store for the Shaws. What retire to the Iowa corn fields; not much. Shaw will talk protection or free trade, trust control or free trusts, but resign, never.

POINTS AND OPINIONS.

——Speaking about party splits, the democrats do not appear to have a monopoly of them just now.—Chicago Chronicle.

——It is not true that the president's injury to his leg came from an attempt to straddle the tariff question.—Louisville Courier-Journal.

——We are now told that foreign trade is stimulated by high tariffs. Sure! Why not have them higher?—Indianapolis News (ind.).

——President Roosevelt's speeches on trusts and public sentiment generally caused the abandonment of the proposed meat merger," says a contemporary. There ought to be a closer division. How much of the work did the president's speeches do?—Cincinnati Enquirer.

——President Roosevelt has been talking about the "strain which a revision of the tariff every few years" involves, as if our tariff laws had been considered sacred from change for long periods at a time in the past. The president's party has never hesitated to tinker on the tariff whenever it thought it would be to its advantage to do so and the idea of setting fixed intervals between tariffs will hardly strike the country as a business proposition.—Atlanta Journal.

——The tariff, which has been the plaything of party politics since 1857, when Martin Van Buren discovered its usefulness in that direction, undoubtedly should be dealt with quietly and as a matter of business merely. The puzzle will be to devise the right method. How are needless delays to be avoided? Unless, moreover, the commission is to be empowered to take cognizance of the existence of harmful monopolies enjoying special favors in the way of tariff protection, how is it to decide what alterations are most needed.—Chicago Daily News (ind.).

OVER THE WIRE.

Germany has 322,281 miles of telephone wire.

Berlin has 31,361 public telephone stations.

London daily averages 1,000,000 telegrams. In Paris the daily average is 320,000.

The telephone service of Belgium is carried on by the postoffice department.

Experiments recently made have demonstrated that the human voice is audible to peculiar influences of electricity.

The total number of government and private cables in the world is now 1,624, covering a length in nautical miles of 187,333.172.

One cable company alone dispatched 11,067 messages from the London stock exchange on the 4th day in the space of two hours.

In 1870 the number of words that could be sent by telegraph per minute was only 80; in 1890 the number of words per minute had increased to 450.

Experiments in wireless telephoning were successfully conducted in Germany recently between Sassnitz and Kolberg, a distance of 105 miles.

PITHY SAYINGS.

SUFFERED SEVEN YEARS

With Catarrhal Derangements of the Pelvic Organs.

Hundreds of Dollars Spent In Vain—Peruna Cured.

Miss Kate Brown.

Miss Kate Brown, Recording Secretary of the L. C. B. Association of Kansas, in a letter from 635 N. Seventh st., Kansas City, Kan., says:

"For seven years I have not known what it was to spend a well day. I caught a severe cold which I neglected. It was at the time of menstruation and inflammation set in and prostrated me. Catarrh of the kidneys and bladder followed, my digestive organs gave way, in fact the cold disarranged my whole system.

"I spent hundreds of dollars with doctors and medicine, but derived but little benefit until I began treatment with Peruna. I kept taking it for nearly nine months before I was completely cured, but I kept growing better gradually so that I felt encouraged to continue taking Peruna until my health was restored. I send my thanks and blessings to you for Peruna."—Miss Kate Brown.

A neglected cold is frequently the cause of death.

It is more often, however, the cause of some chronic disease.

There is not an organ in the body but what is liable to become seriously deranged by a neglected cold. Diseases of the kidneys, bladder and digestive organs are all frequently the result of a neglected cold.

Hundreds of dollars are spent on doctors and medicines trying to cure these diseases, but until the true cause of them is discovered, there will be no use in using medicine.

Dyspepsia medicine, diarrhœa medicine and constipation medicine is of no good whatever when catarrh is the cause. The catarrh must be treated. The cause being removed, the derangements will disappear.

Peruna cures catarrh of the digestive organs, the urinary organs or any of the internal organs.

If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

A Chronic Grumbler.

To the large number of stories of the "grouch" species should be added one of a certain Frenchman, famous for his habit of grumbling at everything and on every occasion. He was attacked by inflammatory rheumatism, and was carefully nursed by his wife, who was very devoted to him, in spite of his fault-finding disposition. His suffering caused her to burst into tears sometimes as she sat at his bedside.

One day a friend of the invalid's came in and asked him how he was getting on.

"Badly, badly!" he exclaimed; "and it's all my wife's fault."

"Is it possible?" asked the friend, in surprise.

"Yes. The doctor told me that humidity was bad for me, and there that woman sits and cries just to make it moist in the room!"—Detroit Free Press.

It's a mistake to imagine that itching piles can't be cured; a mistake to suffer a day longer than you can help. Doan's Ointment brings instant relief, and permanent cure. At any drug store, 50 cents.

"You didn't dig any coal to-day, did you?" said the striker. "No," replied the union miner, good-humoredly. "I struck it in the vein for it."—Philadelphia Press.

Water in It.

"My dear," asked Mr. Keerful, as he poked inquisitively at a mass of something on his plate, "what in the world is this?"

"Why," explained Mrs. Keerful, "you know the health authorities have advised us to boil all the water we use, and that is the watermelon you bought for dessert."—Baltimore American.

The Man of Importance.

Once upon a time there was a man who was exceedingly grave, and who tried to impress his acquaintances with his seriousness. His sedateness naturally caused remarks, and his evident feeling of importance brought a smile to many lips.

"He apparently feels that the world revolves around him," said one of his friends.

"Most of us do sometimes," replied enough to suppose that he is the center of gravity.—N. Y. Herald.

A Solitary Exception.

"All except the custom officials, of course. He expects them to collect it."—Cleveland Plain Dealer.

SYRUP OF FIGS

Acts Gently,
Acts Pleasantly,
Acts Beneficially,
Acts truly as a Laxative.

Syrup of Figs appeals to the cultured and the well-informed and to the healthy, because its component parts are simple and wholesome and because it acts without disturbing the natural functions, as it is wholly free from every objectionable quality or substance. In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially.

To get its beneficial effects—buy the genuine—manufactured by the

Uncle Dutton Crigler, of Gunpowder, was an early caller at this office Monday. He was looking unusually well, and has not fully decided whether he will spend this winter in Florida. So be it.

James Setters, of McVille, was going down the long Gunpowder hill at Bob Owen Ryle's, in Beech Grove neighborhood, one day last week, with his engine and clover huller, when he lost control of the engine, which ran over a very steep bank, piling the huller on top of it. At last accounts the machine had not been gotten out of the ditch, nor did Mr. Setters have any idea of the extent of the damage.

Judge Lassing came home from Williamstown, Saturday night, and remained until Tuesday morning, giving up Monday to the Grant county court and the politicians. The Judge's charge to the Grant county grand jury put everybody in that county to running, talking or thinking, and already has it born fruit in the way of a large number of indictments for gambling, and the selling of whisky unlawfully.

Most Unique Marriage.

The most unique and fashionable event of the season at Florence, was the marriage of Katie Marie Grogan and Charles J. Scott at St. Paul's church. The ceremony was very impressive and was performed by Rev. Father Kolbe during Nuptial High Mass. The church was beautifully decorated with cut flowers and potted plants, and brilliantly illuminated for the occasion. Just before the bridal party entered to the sweet strains of the wedding march, "Call Me Thine Own," the white canvass was spread from the altar to the door.

The Bride was beautiful and radiant in a handsome gown of Point de sprit over white silk, trimmed in satin ribbon and lace medallions with long veil of silk illusion with rosette and white Aigrette, and carried a bouquet of marcheniel roses of most artistic design. The groom, who is a young man of fine character and appearance, was handsome in his conventional suit of black. They were attended by three bridesmaids and three groomsmen. The maids were in white, large white hats and carried bouquets of bride's roses. After the ceremony the bridal party and the guests repaired to the home of the bride's sister Miss Mary Grogan, where an elegant reception was held and a most elaborate and delicious dinner was served. The rooms were decorated artistically with simlax and asparagus fern. At bride's table were seated Rev. Father Kolbe, the bride and groom, Mr. and Mrs. C. J. Scott, the bridesmaids and groomsmen, Miss Ella Snyder, Maysville, Ky., Mr. Charles Burman, Cincinnati; Miss May Snyder, Covington, W. H. Scott, brother of the groom, Miss Alice Scott, sister of the groom, Edward Stuntebeck, Covington; Miss Loa Ewing, of Urbana, Ohio, and the two Ushers, Messrs Albert Burman, of Cincinnati, and Louis Scott, cousin of the groom, Mr. and Mrs. W. H. Scott, parents of the groom, Mr. and Mrs. A. P. Collins, grandparents of the groom.

During the Reception, Mrs. R. P. Rice, Miss Loa Ewing and Mrs. C. J. Scott, entertained the company with several musical selections.

The presents were both numerous and elegant.

The bride and groom left at four o'clock for Washington, D. C., but returned in time for the wedding of the groom's sister on Wednesday, October 8.

The out of town guests were Mr. and Mrs. A. P. Collins, of Richwood; Mr. and Mrs. W. H. Scott, Misses Alice, Katie and Lucy Scott, Crescent; Ella Coleman, Maysville; Miss Loa Ewing, Urbana, Ohio; Misses Emma Nellie and Agnes Scott, Bessie and Nellie Carey, Miss Edna Kanaley, Union; Messrs Albert and Charles Burman, Cincinnati, Mr. and Mrs. W. BOONE COUNTY RECORDER.

VOL. XXVIII. BURLINGTON, KENTUCKY, WEDNESDAY, OCTOBER 22, 1902.

County Correspondence.

COMMISSARY, Oct. 18.—Charles Parsons, of Cleves, Ohio, spent Friday night of last week with his father, and mother, Mr. and Mrs. H. P. Parsons.

Mrs. Fred McAtee, of North Hogan, Ind., is visiting relatives and friends at McVille.

Old bachelors have done more for the happiness of women than any other class of men.

Robert Carver was circulating among friends in the neighborhood of the Commissary, last Sunday.

W. B. Walton and wife, Wm. Scott and Lawrence Phipps, were guests of J. J. Lillard and wife, last Sunday.

J. J. Lillard and wife and Eugene Kelly and wife spent Wednesday evening with W. T. Ryle and wife.

At the regular meeting of Rev. Nooe in Bellevue, last Sunday, two confessed and were baptized Monday evening.

On Thursday of last week, W. J. Ronse and wife visited the latter's sick sister, Mrs. Jane Stephens, of Pleasant Ridge.

Bob Popham, of Gunpowder, spent last Sunday on South Hogan, Ind., with his parents, Mr. and Mrs. John Popham.

Mrs. John Hogan, of Burlington, visited Bernard Rogers and wife last Monday, and W. L. Ryle and family, Monday night.

Clarence Anderson and sister, Gracie, belle of Salem Ridge, Ind., are visiting their uncle and aunt on Woolper, Mr. and Mrs. Scott Wingate.

Watty Rockwell, of Missouri, a former resident of old Boone, spent Friday night, of last week, with his sister, Mrs. Columbus Popham near here.

We are glad to see our friend, D. B. Snyder passing and repassing attending to the duties of his office. Well and faithfully he does this when in health.

John Presser and family, of McVille, and Mrs. Ida Brower and Miss Daisy Griffith, of Ind., daughters of Henry Griffith, were guests of George Ranes last Sunday.

Mr. W. T. Ryle has been wearing a very pleasant and happy smile for the last two weeks, and when asked the reason, she answers, "why don't you know I am grandma?"

Mrs. Josie Grant, of Bellevue, is visiting her mother, Mrs. Loronia Scott, near here. Mrs. Grant and Miss Maud Scott, went to Aurora, Wednesday, to do some trading.

If a correspondent makes his items too pointed the public will break the points off while getting them through their hands; if they are made less pointed the public will sit down on them and not feel a point at all.

It has got so our weather prophet, Billy Slagback, can't untangle fair weather from gentle showers, and rather than lose his reputation entirely he will let go of the weather for a time, and make no more predictions until after Jan. 1st, 1903.

Cats may be of some use in the world, but no person will deny that as vocalists they are a rank failure. If I had had a double barreled shot gun the other night I would have taken a hand in a musical convention held on Jack Walton's fence across the way.

The dancing season is at hand, and a dance or two has been had by both classes. Society here is divided into two classes, the blooded, or upperions and the common herd. The only noticeable difference in the two classes is that the upperions use highwines as a stimulant, while the common herd use rotgut and hard cider.

ERLANGER, Oct. 20.—Our town continues to grow. New houses are going up in every direction.

When the electric road reaches here from Covington, this will soon become a city of the second class; but will any of the present citizens live to hear the clang, clang of the electric car gong?

The Erlanger base ball club which had such disastrous experiences with the Burlington sluggers, will soon disband for the season, but it will be ready for business early in the spring, when it will try again to take the Burlington top-not.

The ladies of the Baptist church presented the Odd Maids' Convention at the city hall, on Friday night. Standing room was at a premium, and a large sum of money was realized for church purposes. The entertainment was a great success, and those taking part deserve much credit for the delightful manner in which the large audience was entertained.

Our town was the scene of a bloody encounter between two of our prominent colored citizens, last Saturday night. Will Green and Albert Cleek fell out over some trifling matter, when Green whipped out a razor and gave Cleek an ugly slash, cutting his throat almost from ear to ear. In the scramble Cleek went down, and Green pounced upon him, and the combatants were in that position when Cleek drew his pop and shot Green in the bowels. The negroes fled in every direction, and the two wounded negroes were cared for by friends. Sunday afternoon two surgeons came out from the city and an operation was performed on Green, but the bullit was not found. Each of the principals in the fight is in a serious condition.

PLATTSBURG.—Mrs. Andy Passons has been quite sick.

It was a weanling mule Wood Sullivan sold instead of a yearling.

Henry Smith and wife were guests of G. T. Rue and wife, of Bellevue, Sunday.

The writer and wife visited Charles Voshell and wife, at Sparta Indiana, last week.

Chas. Voshell and Henry Hoffman, of Sparta, Ind, were here on business, last week.

Mrs. Ethel Sebree and children were visiting her father over on Gunpowder, last Sunday.

BULLITTSVILLE, Oct. 18.—Miss Martha Harding was sewing for Mrs. O. W. Riley, last week.

Misses Lizzie and Mamie Houston had Viola Helms visited the city, Friday.

Myrtle Conner entertained several of the school mates very nicely, Monday evening.

Mrs. Dr. Clore has returned from a very pleasant visit with relatives in Kenton county.

Dr. L. H. Crisler and family, of Burlington, were visiting relatives here, one day last week.

Many from here anticipate attending the series of meetings at Petersburg Christian church.

Mr. Russ has opened his barber shop in Mr. Baisley's store, and would be glad to have you work.

Mrs. C. W. Riley and daughter, Edna, and Miss Mary Gaines, visited friends in Petersburg Saturday.

Snyder and Mary Watts were pleasant guests of their cousins, Willie and Marietta Caimes, last Wednesday night.

Mr. and Mrs. C. S. Baisley entertained about 25 guests in honor of Miss Ethel Cassidy, of Toronto, Canada, on the 12th inst.

Mrs. Matilda Goodridge, who fell and broke her limb, while in Rushville, Ind., is now at her home here. She is improving slowly.

Several from here are attending the revival services at Bullittsburg. There have been several additions, and most excellent sermons are delivered by Rev. Hail, of Dayton, Ky.

RABBIT HASH.—Ode Kelly is visiting in Ludlow.

The protracted meeting at the East Bend M. E. Church is progressing nicely under the able preaching of Rev. Clark. There has been ten additions.

The K. of P.s here will put on carpet and furnish their hall. We have an enthusiastic membership here, and it works all the time for the good of the Order.

Rev. J. T. Stephens and daughter, Katie, passed through here, the other day, enroute to Patriot, Indiana, where Miss Katie's eyes are being treated by an oculist.

Riddell & Stephens are closing out their general stock of merchandise. Mr. Stephens will retire from the business. They have many bargains for their customers.

Lewis R. Terrill sent a box of Keifer pears to C. G. Riddell, at this place, and they are pronounced by all to be the finest they ever saw. One weighed sixteen ounces, heavy.

Joe Riddell and wife were here one day last week in their new buggy, which proves to me that the days of wonders have not ceased, and we are expecting Joe to make his appearance this week on a bicycle.

"Hello!" "Hello?" "Is this Rabbit Hash?" "Yes." "This is Parsons' mill. We want to know if you have seen anything of John Calvert? He has not been seen in these diggings for two weeks, and we are uneasy about him." "He is o. k."

The friends and relatives to quite a number, of Capt. Hastings and wife, met at John McConnell's, Friday, and celebrated in a most delightful manner, the old people's golden wedding. Mrs. McCoy and daughter, of West Virginia, were present.

Robert Hankinson, of Upland, Grant county, Indiana, is visiting his brother, Will, and sisters, Mrs. Z. T. Stephens and Mrs. W. S. Ryle. Bob is well pleased with his part of Indiana, and he and his brother, Tom, are farming and stock raising on a pretty large scale.

WALTON—Mrs. Geo. Stevenson, was visiting friends here, last week.

Fritz Waits, according to reliable dispatches, is yet in Louisville.

Miss Barbara Byerly, a charming young lady of St. Joe, Missouri, is the pleasant guest of Miss Edna Ransler.

Miss Eleanor Walsh, the bright, cheery young daughter of Thomas Walsh, finds her greatest delight in her Sunday visit to her father.

N. M. Northcutt and wife came out on Saturday and remained over Sunday, in attendance on the lady's father, E. P. Holder, who is again in a very dangerous condition, suffering with symptoms of other maladies other than the original ailment.

Quite a number of our citizens, many of them ladies, who availed themselves of the Blanchet Accommodation, known as the "commuter," to take employment in the city, who have been fretting over the failure of the train to make schedule time in the mornings, thereby causing them to lose a quarter or half day's time. Indeed, so infrequently has it been on time that some have moved to the city, and others have it in contemplation, especially in cases where there are two or more "commuters" in one family. This is not good for the town nor the Railroad Company. It is a pleasure to announce that on Saturday last a new engine, a new engineer and a new train dispatcher went on duty, and the very gentlemanly conductor was smiling himself all over with the idea that his train would deliver the passengers on time. He did not think for a moment of the fact that the very best of engineers must get some knowledge of his run, and so he did not get in on time. Let there be a little patience (tho it has been sorely tried), and the crew will bring the train in on sharp time.

GUNPOWDER, Oct. 20.—Aunt Lizzie Quick entertained several of her friends from Hebron, last Sunday.

Born, to Lewis Clegg and wife, on the 16th inst., a fine girl.

B. C. Surface and wife were visiting at Richwood, last Sunday.

Miss Susie Clarkson entertained with a social, last Monday night.

Uncle Jacob Floyd is still very low and his condition is very critical.

Henry, Will and Robert Rouse shipped their hogs to Cincinnati last Tuesday.

George Baker and wife, of Limaburg, were guests at John Tanner's, last Sunday.

Mrs. J. A. Smith, who has been quite sick for about two weeks, is improving slowly.

Mrs. Lizzie Bartell, after a siege of several weeks with malarial fever, has about recovered.

Uncle George Utz is still on the sick list, and his condition has not improved any since our last report.

From the amount of cabbage that is being hauled from the city we judge that sauer kraut will be plentiful this winter.

Farmers are hauling their potatoes to market and are realizing better prices than they had anticipated. The ruling price is 50 cents per bushel.

Perry Aylor sold to E. L. Ronse two of his thoroughbred short horn calves, last week. Price, private. Mr. Aylor has been at considerable expense selecting his herd and, as a result, he has a herd that is very fancy. Any one wishing anything in that line would do well to call on him as his prices are reasonable.

HATHAWAY, Oct. 21.—W. S. White lost a valuable cow last Friday of milk fever.

F. Rice and Claud Ryle are cutting Joe Riddell's timber wood for him.

Jas. K. Sebree furnished this neighborhood with nice beef, last Thursday.

W. H. Moore has been on the sick list for some time, with chills and fever.

Marcus Ryle is tearing down the house vacated by Harry Stephens, and will move it to his farm that he recently purchased.

Calvin Jack, of Sheridan, Ind., accompanied by his son J. M. Jack, of Beaver Lick, dined with George L. Smith, last week.

Mrs. Jane Clements, who is making her home with her son Nathan, had quite a spell of sickness last week. It was thought she could not live, but she is improving greatly at this writing.

Rev. W. S. Taylor began a series of meetings at Big Bone church, last Sunday night a week. There have been 5 additions to this writing. A good meeting is still in progress and there is much interest manifested.

John S. Mason had quite a crowd of mechanics to visit him, Thursday, last week. The Reeves Co., of Columbus, Ind., sold him a steam engine. It is 18 horse power. The other trade mentioned by the writer was pulled off. Mr. Mason thinks that he has profited by trading with the Reeves Co.

As Edward Brady was returning from Big Bone church, with a young lady last Friday night, his horse shied out of the road, causing the buggy to capsize, throwing the couple out. The horse got loose and ran off with the buggy, breaking the top and seat off. He ran some distance when one of the lines caught in a wheel, causing the horse to stop. There was no injury to the occupants.

PT. PLEASANT, Oct. 20.—Mrs. Fannie Clutterbuck and daughter, Miss Emma, of Florence, were calling on Mr. and Mrs. Spencer Tanner, Wednesday.

Several of our farmers are busily engaged in making sorghum.

Joe Morris has secured a position in Covington, with Gus. Meuninger.

Miss Cleva Riggs spent Friday and Saturday with Wm. Riggs and family, of Erlanger.

H. W. Northcutt was the guest of his father, Robt. Northcutt, of Crescent, Saturday.

Miss Mabel Huron, of Crescent, after a pleasant visit with relatives near here, returned home, Tuesday.

The Teachers' District Association will meet at Point Pleasant School house on Saturday, Nov. 1. We expect to have a very interesting discussion on "The Law authorizing the voting of a country school tax" to extend the school term.

The protracted meeting at Point Pleasant, coudncted by Rev. Finley, of Lexington, closed Wednesday night. There were 4 additions: Misses Jessie Gordon, Mary Riddell, Everett Southerland Roy Tanner. They were baptized at Constance, Wednesday, by Rev. Nooe.

Bert Worthington says the reason that he left Crescent was that the people had become tired of him, and he concluded that when vox populi demanded, it was his duty to "hike." But he says that he is like a jack o'lantern, appears and disappears and in a moment when ye think not, he is likely to show up at Crescent.

IDLEWILD.—Thos. Watts had the misfortune to brake his con veyance as he was coming to church, Saturday night.

Health in this neighborhood is good. This lovely weather is appreciated by the farmers.

Hill & Tarvin, life insurance agents, were with us last week.

Edwin and Felix Gaines are visiting their relatives in this neighborhood.

W. A. Gaines had several sheep killed, and others mangled, by dogs, last week.

All are pleased with the plain, scriptural preaching of Rev. W. B. Hall, of Dayton, Ky., and he has large and attentive congregations.

Milton Souther and wife, William Gaines and wife, C. E. Stephens and wife and Owen Allen dined with your correspondent, Sunday.

The impressive rites of baptism were performed last Wednesday at Bullittsburg pool, Mrs. R. C. Gaines and Mrs. Everett Hall being the candidates.

Fletcher Clore raised 90 bushels of corn on an acre and a half of land, many of the years being 17 inches long. He has pumpkins that will not go in a flour barrel.

FLORENCE, Oct. 20.—Jack Delaney and wife, of Covington, are visiting Dr Delaney.

Thomas Nead and family are visiting Frank Nead.

Chas. Clore was awarded the contract to remodel the I. O. O. F. hall.

The infant daughter of Ben Stephens, jr., died Saturday and was buried, Sunday, at the home cemetery.

Mrs. Geo. E. Rouse, of Limaburg, has returned home after a three weeks' stay with her daughter, Mrs. A. M. Yealey.

Rev. Bedinger, after giving the young folks a good talk Sunday, organized a Sunday school, which will meet every Sunday at the M. E. church at 3 p. m.

John Ryle will move in with Dr. Corey. Mrs. Bradford, the past occupant of the house, has gone to live with her son, Owen Bradford, near Union.

The council have had 120 yards of gravel put on the 3 driveways at the cemetery, which adds greatly to its appearance. Bank-Lick St. will soon have a coat of gravel. Many thanks to the council for their energetic move to have better streets in our village.

T. B. Castleman has returned home after four days absence as a delegate at the Grand I. O. O. F. Lodge, which met at Hopkinsville, last week. Mr. Castleman reports Hopkinsville a thriving town, and says that the lodge of that place have erected a hall which cost $16,000. Hopkinsville is the home of Rev. J. W. Venerable, Soverign Grand Chaplin, who has held the position for 50 years.

Mrs. Sallie Fulton is entertaining her niece, Miss Lottie Sparks, of Kansas City.—Mrs. Alonzo Graves and Miss Elizabeth, of Covington, spent several days last week with the Misses Hoggins.—Mrs. Ella Demoisy, of Madisonville, spent several days last week with her parents, Mr. and Mrs. Ned Goloway, of this place.—Quite a number of people from here attended the entertainment at Erlanger, Friday evening, and reported it quite a success.—Mrs. J. H. Hilton and Mrs. Homer Riggs, of Pt. Pleasant, called in Florence, Friday afternoon.—Miss Effie Rouse, of Hebron, spent Sunday with relatives here.—Mr. Ezra Wilbolt had a corn cutting Friday night.

RICHWOOD, Carl Binmenstiel, of Covington, was the guest of Walter and Marion Grubbs, last week.

Mrs. Carrie Robinson's baby that was very sick, last Saturday, is some better.

Several of the children of this neighborhood are attending Walton Graded School.

John Benson and wife, of Verona, were guests of John Powers and wife, Wednesday.

Edward and Eli Rice and Thomas Murray helped Walter Grubbs cut corn Friday night.

Mrs. Susan Wilbolt and son, Arch, of Florence, were guests of James Carpenter, Sunday.

J. B. Dixon has been appointed a delegate to represent Ebenezer church at synod to be held at Springfield, O.

Rev. E. Bedinger filled his regular appointment at Mt. Zion M. E. church last Sunday. Prayer meeting will be held at that church at 3 p. m. Thursday. All are invited.

Don't forget Ed Stephens' sale next Tuesday. It will be a large sale, at which most anything you want can be bought. Ed contemplates starting a dry goods store with Mr. Florida.

Twelve town hunters, in one crowd, were hunting near here, last Sunday, and killed a great many rabbits. If 12 country boys were to go out on the Sabbath and hunt, the next grand jury would have them on the carpet and fined for such flagrant violation of the Sabbath and the law. Not only is it unlawful, but by the time our boys get time to go huntiug the rabbits are all gone.

BEAVERLICK, Oct. 20.—Married, Wednesday, Oct. 15th, at 11 o'clock sharp, at Hughes Chapel Manse, Harry F. Jones, 19 years of age, to Miss Maud M. Miller, 17 years of age. The bride was the beautiful daughter of W. R. Miller, merchant and postmaster at Big Bone Springs, and the groom was the enterprising son of J. L. Jones, one of our most prosperous farmers. The M. E. church South marriage ceremony entire, was employed, by Rev. H. R. Mills in a very formal and impressive manner in uniting the happy young couple. The groom was attired in a rich style of black cloth, military cut, while the trousseau of the bride was pronounced by those present the prettiest and most elegant they had ever seen. After the nuptial knot was tied the loving young couple, with swelling hearts and bouyant spirits, left for a brief visit to Cincinnati. One of the happiest reminiscences of their lives will be the thought that they were the first couple to be united in the holy bonds of wedlock in the new parsonage. They will be at home to their friends at Big Bone Springs after Oct. 20th. We hope for them a long happy and prosperous married life.

Walter Howard, in digging about his barn lot, last Thursday, exhumed 3 human skeletons, which crumbled as soon as exposed to the air. They are supposed to be skeletons of white men buried by Indians, as there appeared to have been no thought of formality exercised in their burial. The teeth, alone, were in a good state of preservation.

The meeting of the Teachers' District Association, held at Beaver Lick, October 18th, was attended by many patrons, and the following teachers: Misses Wade, Edna McElroy, Elsie Roberts, Ella Norman, Olive N. Orem and Mr. J. H. Newman: At 11 o'clock a. m. the meeting was called to order by Superintendent Snyder. The opening exercises, consisting of scripture reading by the Superintendent, singing by the teachers and Superintendent and prayer by Superintendent, were followed by the election of J. H. Newman secretary, after which the subject, "How may we classify Arithmetic in school with one teacher that we may reach all the Grades," was introduced by Miss Olive N. Orem, followed by Miss Lizzie Roberts. The meeting then adjourned until 1:30 p. m., for noon, during which time a bountiful repast was served by the ladies of Beaver Lick and vicinity. In the afternoon, "Do we Grade our schools, or make the work uniform throughout the county?" was taken up and discussed by Miss Rosa Adams and Miss Lizzie Roberts. The next was a German song by little Miss Susie Hardeman, after which was a very interesting and instructive talk on Friday afternoon exercises by Miss Katrina Clayton, followed by a "Concert Recitation," and "Motion Song," by the pupils of Beaver Lick school. The day's exercise was closed by Superintendent Snyder, who gave a very instructive talk on the needs of the school. Everyone present spent a very enjoyable day. The Association extends to the ladies of Beaver Lick its sincere thanks for the toothsome refreshments served, and the kindly interest manifested by the patrons present.

J. H. NEWMAN, Secty.

BELLEVUE, Oct. 21.—Bro. Nooe preached two sermons on the second Sunday. Two additions to that day—baptising on Monday following.

Botts & Setters are preparing to start their saw mill.

T. J. Clore is yarding a harge of 12,000 bushels of coal

W. W. Williams, of Rising Sun, was here on business, one day last week.

Carl Cason is still on the hunt for watermelons in the Bellevue bottoms.

Leslie Acra, of Middle creek, was the guest, last Saturday, of his uncle and aunt, here.

Abe Epstein and family, of Aurora, were guests of Supt. Snyder and wife, last Sunday.

Frank Klopp and wife, of Petersburg, were visiting relatives at this place, Saturday.

A large crowd in town last Saturday. Church meeting at Baptist church and a game of base ball.

The Petersburg pencil shover and Mr. Alloway, witnessed the game of ball here, last Saturday.

Mrs. Electa Craig, of Paris, Ky., was the guest of her sister, Mrs. Mary S. Lawell, last week; D. E. Lawell, Tax Sawdy, thence to her home.

Ruby Nunns and sister, Maggie, and Mrs. Ben Akins, of near Aurora Ferry, attended church here Sunday.

Old Kite is so busy sowing wheat and husking corn that he has postponed visiting his girl until the holidays.

Lawrence Phipps and Ida Nannie Pope, of Middle creek, were visiting Miss Annie Schwartz, Sunday.

Charlie Craven and wife, of Limaburg, were guests of W. T. Ryle and wife, and Bernard Rogers and wife, last Sunday.

G. T. Rue, wife and two sons, Henry Smith and wife, attended the 73d birthday celebration of Mrs. Rue's mother, in Rising Sun, last Friday.

Caddie Maurer and Jas. Smith were around, last Saturday, with their beef wagon. They have fine beef and will supply their customers with fresh meat every Saturday.

HORRIBLE TRAGEDY.

Cousin of Gov. Odell Kills Two Men and Commits Suicide.

New York, Oct. 18.—William C. Turner shot and killed Albert Hamilton, of Pittsburg, and W. J. Mallard in the office of the law firm of Cantor, Adams & McIntyre, in Broad street, and then committed suicide. Turner was at one time treasurer of the Climax Bottling Co., in which the other two men were interested, and the three met Friday to effect a settlement growing out of an alleged defalcation on the part of Turner.

The three men met in the law offices by appointment to allow Turner to make a partial settlement and he was asked for a certified check. "I have it," he said, and then he closed the door of the room. An instant later he drew a revolver and began firing. Mallard fell, shot through the heart, and Hamilton lived only a few moments. A number of other persons who were in the room, clerks and members of the firm, fled in a panic. After killing Hamilton and Mallard, Turner shot himself in the head. Some moments later, hearing no more shots, the persons who fled returned back into the room and found the three bodies.

Turner, who was 45 years old and lived at Mt. Vernon, N. Y., a suburb of this city, was a cousin of Gov. Odell, of this state.

All of the principals in the tragedy were married. Mallard was 36 years old, a native of Atlanta, Ga., where he was well known in business and social circles. He was president of the Young Men's Democratic club there. He had been in this city about four years.

Mr. Hamilton lived in Pittsburg, where he was president of J. T. & A. Hamilton glass factories. He was about 60 years old. He arrived in this city in response to a telegram from Turner received at Pittsburg.

BOER GENERALS DISSATISFIED.

They Are Sorry They Did Not Come to America at Once.

Berlin, Oct. 18.—The Boer generals now here are sorry they did not go to America first for money instead of making a canvass on the continent. Gen. Botha said Friday that they intended of course to go to the United States, but as they had started to tour the continent they would finish their tour of Europe before undertaking the trip to America. The experience of the generals so far has been rather disappointing. There have been plenty of cheers, but little money has been contributed for the relief of the Boers. One American contributed more than all Germany. The total gathered here is $67,500.

EARL ROBERTS.

He May Pay a Visit to the United States Next Year.

London, Oct. 18.—It is learned that Gens. Corbin, Young and Wood have tendered Earl Roberts a cordial invitation to visit the United States and that the British commander-in-chief replied at a late hour Friday evening that he had practically decided to accept the invitation in December of 1903 and that there was a possibility of his crossing in time to witness the international yacht races in that year.

A Treaty With Newfoundland.

St. Johns, N. F., Oct. 18.—It is reported here that Premier Bond has concluded a reciprocity treaty with Secretary Hay in Washington. The United States government is to be ready to sign this treaty at once and to be only awaiting the authority for the British ambassador at Washington, Sir Michael Herbert, to affix his signature to it.

HE MURDERED THREE.

Archie Woodin Killed Wife's Parents and His Daughter.

The Murderer Was Overpowered Just as He Was About to Turn the Weapon Upon Himself, and Placed in Jail.

Mount Pleasant, Mich., Oct. 17.—As the bloody sequel of a divorce suit, Archie Woodin, 23 years old, is under arrest here charged with a triple murder and this community was shocked Thursday by a bloody tragedy, in which Mrs. Woodin's parents and the prisoner's 18 months' old daughter were shot and killed. Woodin was overpowered just as he was about to turn the weapon upon himself, and inflicted wounds that are not expected to prove fatal. He visited the courthouse Thursday morning about 9 o'clock and looked over the papers in a divorce which his wife instituted October 10.

From there he went directly to Isbell's hardware store, where he purchased a revolver. There was no interruption in his career of crime from the moment his hands let go of the legal papers in the court-house until his victims lay dead in two farm houses six miles apart.

The young mother until September 27 had the baby with her at the farm of E. Ferris, where she obtained employment, but the father then took it to his mother on the promise that he would soon return it.

Woodin's wife was Miss Anna M. Gullck, and they were married March 25, 1900. Woodin was a soldier in the Cuban war. At the jail he refused to talk except to express regret that he failed to kill himself. He was laboring under the impression that his wife's parents had caused the divorce proceedings, though his wife's bill of complaint charges personal violence.

BOTH CRATERS ACTIVE.

A Terrific Eruption of the Souffriere Volcano.

Kingston, St. Vincent, Oct. 17.—A terrific eruption of the Souffriere volcano commenced Wednesday night. During the preceding day (Tuesday) earth tremors, apparently too slight to be considered important, were experienced in the central and northern parts of the island.

At 8 o'clock Wednesday night there were indications of an eruption. Rumbling noises were heard; they increased until 9 o'clock, when the roaring volcano giant belched out its deadly contents. This eruption was followed by a brief lull. Then, from 10 o'clock until 4 o'clock Thursday morning the upheaval continued. The outbreak was accompanied by an incessant and confused cannonading. There were incandescent clouds and sparkling matter was ejected. After 4 o'clock the disturbance gradually decreased, but the noise of the boiling caldron is still audible in the districts near the volcano.

Both craters of the Souffriere were apparently active; they have been steaming all day long. Sand fell heavily everywhere from half past 1 until half-past 2 Thursday morning. At southern points the sand is half an inch deep, the depth gradually increased towards the volcanic cone, where there were showers of large stones, pebbles and cinders.

THE AMERICAN CUP.

Sir Thomas Lipton's Third Challenge For the Trophy.

New York, Oct. 17.—Sir Thomas Lipton's third challenge for the Americas cup sent by the Royal Ulster Yacht club, was made public at the New York Yacht club Thursday night, after being read and accepted by a committee appointed for the purpose.

The challenge is almost identical with that sent by Sir Thomas in 1900. There was not a particle of doubt about its acceptance by the club after it had been read on Wednesday.

The first race to be called on Thursday, August 20, 1903. The second race to be called on Saturday, August 22, 1903. The third race to be called on Tuesday, August 25, 1903. Further races (if any) to be called on each following Thursday, Saturday and Tuesday, until finished.

BRIGANDS HOLD UP A TRAIN.

The Conductor and Prince Gedevenoff Stabbed to Death.

Odesss, Russia, Oct. 17.—Circassian brigands have held up a train near Duvanny, on the Northern Caucasus railroad. They stabbed to death the conductor and Prince Gedevanoff, who was sleeping in a first carriage, and robbed all the passengers. The engine driver and the stoker were rendered helpless by being confronted with revolvers in the hands of the brigands.

A SERIOUS RACE WAR.

Bloodshed Between Whites and Blacks in Alebeme.

Birmingham, Ala., Oct. 20.—Three white men and eight Negroes are reported dead as the result of a race riot at Littleton, 23 miles from this city.

The citizens of Littleton have appealed to Sheriff A. W. Burgin for assistance and a posse of deputies left here at 10 o'clock on the Southern railway train for the scene of the trouble. The riot was precipitated by several Negroes pushing a white woman from a trestle and, it is said, severely injuring her. Several white men armed themselves and apprehended the Negroes, demanding an explanation of their conduct. The answer was a volley from a Winchester rifle which killed one man instantly and mortally wounded another. Another white man is missing and it is supposed he is dead. The white citizens then fired into the ranks of the Negroes and several are reported to have been killed.

The following telegram was received by Sheriff Burgin at 9:30 o'clock:

"Littleton, Ala.,—White man shot dead and one missing; Negroes armed and highways blocked. Things serious. Send posse here on 10 o'clock train without fail. (Signed) S. F. W. Barnes, Rev. F. R. Skelton, W. F. Lane, M. J. Marshall, C. J. Langston."

A message a few minutes later stated that three white men and eight Negroes were dead.

Owing to the large number of Negroes the posse was forced to retreat. The Negroes are reported to be in complete possession of the town and have entrenched themselves. The Negroes have captured a powder magazine, the property of a coal company, and are strongly fortified.

MILLIONAIRES' RACE TRACK.

One That Shall Surpass Anything of Its Kind in the World.

New York, Oct. 20.—According to the American there is to be established in Jamaica Plains, Long Island, a race track that shall surpass anything of its kind in the world. The ground, it is asserted, has been purchased for a combination of millionaire horse owners, including August Belmont, William C. Whitney and Thomas T. Hitchcock, jr., and comprises a tract of 480 acres. The price paid being about $800 an acre. It is intended, the American further says, that the new track with its buildings and equipments shall be ready for racing by the time Morris Park passes out of existence as a racing course.

NO DECISIVE RESULTS.

Battle Between Revolutionists and Venezuelan Troops Ended.

Washington, Oct. 20.—In a telegram to the state department, dated Caracas, October 18, and received here at 5 o'clock Sunday afternoon, Minister Bowen stated that the revolutionary army had withdrawn from near Victoria, and that it was believed that the battle was not ended.

He also stated that government troops still held Valencia.

A later dispatch dated 10:46 (Sunday) forenoon, from the same source, stated that the battle had ended with no decisive result.

ROTTEN TIMBERS IN THE FLOOR.

A Serious Catastrophe Was Narrowly Averted at Omeha, Neb.

Omaha, Neb., Oct. 20.—A serious catastrophe was narrowly averted at the First Christian church Sunday when the 500 people who gathered to hear Rev. Allen Wilson, of Irvington, Ind., barely escaped being thrown into the basement, 25 feet below, by the giving way of rotten timbers in the floor. The vast audience passed out quietly, however, upon being notified of their peril and all escaped unhurt. The floor had settled five inches.

Epidemic Among Troops.

Kingston, Jamaica, Oct. 20.—The steamer Orinoco, from Colon, Colombia, which reached here Sunday, brings a report that yellow fever and smallpox have broken out among the forces of the Colombian government at Colon and that there are ten deaths daily from these diseases among the soldiers there.

New Counterfeit Bank Note.

Washington, Oct. 20.—The treasury department has detected a new counterfeit $10 United States note of the series of 1901. This counterfeit is a lithographic production on two pieces of paper between which silk threads have been distributed. At first glance the note is not deceptive, but it will not bear examination.

Russian Schools.

Odessa, Russia, Oct. 20.—A newspaper published at Kronstadt says that the emperor of China has issued an edict permitting the establishment of schools where the Russian langauge will be taught in the Chinese provinces contiguous to Asiatic Russia.

Newspaper Writer Dead.

San Diego, Cal., Oct. 20.—Col. John C. Moore, a newspaper writer, of this city, died suddenly of paralysis, aged 80. He was an Englishman and a veteran of the Crimean war. During the American civil war he served on the confederate side.

Won a Large Stake.

Vienna, Oct. 20.—VanDusen, the American jockey, rode Beregvoeigy to victory Sunday in the contest for the Austrian prize, which is one of the biggest races in Austria. The stake was $25,000.

HE PAID THE PENALTY.

John Buchanan, Murderer of the Hicks Family, Executed.

Was Originally Condemned to Die November 17, But Buchanan Waived the 30 Days Allowed By Law and Was Hanged.

Nacogdoches, Tex., Oct. 18.—Jim Buchanan, colored, the murderer of the Hicks family, was tried here Friday, a plea of guilty being accepted by the judge, and the Negro was legally hanged within two hours after sentence had been passed. Buchanan was brought to Nacogdoches under the protection of five companies of militia. Upon his arrival here the Negro was immediately turned over to Sheriff Spradley, who told the people that he would be given a speedy trial. The town began to fill up rapidly, and the excitement was intense. The telegraph wires were cut, the railroad tracks were torn up for a short distance, and it was announced that an attempt would be made to get possession of Buchanan. District court was at once convened, a jury was impanelled without delay, and the Negro's plea of guilty was accepted by the court. The judge ordered that the death sentence be executed November 17, but many people announced that they would have no delay. Buchanan then waived the 30 days allowed him by law, and was hanged by Sheriff Spradley in the jail yard in the presence of a large crowd.

Ten days ago the dead bodies of Farmer Hicks, his wife and daughter were found in the Hicks home and Sheriff Spradley began a search for the murderer. A week later Jim Buchanan was arrested and confessed to the murder.

ARCTIC EXPLORER PEARY.

He Is to Be Given a Dinner When His Condition Will Permit.

New York, Oct. 18.—At a meeting here Friday of the Peary Arctic club it was decided to give Lieut. Peary a dinner when the explorer's physical condition will permit of his attendance.

A number of gentlemen distinguished in Arctic work, both as explorers and patrons of expeditions, will be invited to attend, among them Sir Clements Markham, president of the Royal Geographical society; the duke of Abrazzi, Alfred Harmsworth and James Gordon Bennett.

Secretary Bridgeman read a letter from Lient. Peary in which the latter expressed regret at his failure to attain the pole and pointed out that among discoveries made was unquestionably the most northerly land on the globe.

ZIEGLER AND BALDWIN.

The Business Relations Between the Two Have Been Severed.

New York, Oct. 18.—As a result of the investigation made and conferences held by Wm. Ziegler, who supplied the funds for the Baldwin-Ziegler polar expedition with various members of the expedition since their return, Mr. Ziegler announced Friday that the business relations between Evelyn B. Baldwin and himself had been severed.

Mr. Ziegler declined to give any details, but announced that he intended to continue his efforts to reach the north pole and would send another expedition to make the attempt.

THE RELEASE OF MISS STONE.

State Department Requested to Make a Demand on Turkey.

Washington, Oct. 18.—Representatives of the missionary societies have at length formally requested the state department to make a demand on Turkey for repayment of the amount of ransom paid on account of the release of Miss Ellen Stone. The request assumes the liability of Turkey as settled, but the state department has by no means assured itself on that point, and it is stated that the responsibility still lies between Turkey and Bulgaria, with, perhaps, the weight of evidence against the latter country.

A PROTEST FILED.

A Test Case to Be Made of a Recent Treasury Department Ruling.

El Paso, Tex., Oct. 18.—Gen. Harrison Gray Otis, of Los Angeles, Cal., who has just arrived here from Mexico, will furnish the revenue officers here with the first test case of the recent treasury department ruling allowing an American resident to bring into the United States exempt from duty presents for his family. Gen. Otis brought in several articles and was compelled to pay $48 duty. He has filed a protest to the treasury department.

Inoculation Prohibited.

Havana, Oct. 18.—Secretary of Government Tamago has issued an order prohibiting the inoculation for experimental purposes of non-immunes by mosquitoes which have bitten a person with the yellow fever and which have been infected for over ten days.

Will Send a Deputation to America.

Vienna, Oct. 18.—The most prominent Austrian trades union, the Gewerbe Verein of Lower Austria, has decided to send a deputation to the United States in 1904 to visit the St. Louis exposition.

TROUBLE BEGINS.

Trouble begins with the first backache. Backache comes in many forms. Sudden twinges of pain, sharp stitches, slow exhaustive aches.

Most backache pains are kidney pains.

The Kidneys fail to perform the duties nature intends them to do and the warning of trouble comes through the back.

Neglect the kidney warning, grave complications will surely follow.

Urinary disorders — Diabetes — Bright's Disease—are the downward steps of neglected kidneys.

Doan's Kidney Pills cure every kidney and bladder sickness and the cure lasts. Read this proof of it:

Mrs. Adam Guntle, residing at 701 South Plum St., Crawfordsville, Ind., says: "I made a public statement in 1897 saying that Doan's Kidney Pills had cured a member of our family after he had suffered for years with a weak back and kidney troubles. He took three boxes of this remedy and was completely cured. Now three years have elapsed since I made this statement and I am only too pleased to reendorse it. I have also used Doan's Kidney Pills myself, obtaining the best results. I have recommended this remedy to my friends and neighbors as one which can always be depended upon."

A free trial of this great Kidney medicine which cured Mrs. Guntle will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

STRIKE IS SETTLED.

Common Ground of Agreement Reached in Anthracite Field.

A Commission Will Meet in a Few Days, Chose a Chairman, Probably Gen Wilson, and Arrange For Sessions and Testimony.

Washington, Oct. 16.—The great anthracite coal strike is settled at last. A commission of six persons, with a seventh, Carroll D. Wright, as recorder, will adjust differences between operators and miners. President Mitchell, of the miners' union, will take the necessary measures to call the strike off. The president will urge immediate resumption of mining. Operations are expected to begin next week. Announcement that the great strike was off was made by Secretary Root with exuberant good humor at the white house shortly after 1 o'clock Thursday morning. As named the commission is perfectly satisfactory to both miners and operators.

The following official statement announcing the close of the strike was issued at the white house at 2:20 a. m. Thursday:

After a conference with Mr. Mitchell and some further conference with representatives of the coal operators, the president has appointed the members of the commission to inquire into, consider and pass upon all questions at issue between the operators and miners in the anthracite coal fields:

Brig. Gen. John M. Wilson, U. S. A., retired (late chief of engineers, U. S. A.), Washington, D. C., as an officer of the engineer corps of either the military or naval service of the United States.

Mr. E. W. Parker, Washington, D. C., as an expert mining engineer.

Mr. Parker is chief statistician of the coal division of the United States geological survey and the editor of the Engineering and Mining Journal of New York.

Hon. George Gray, Wilmington, Del., as a judge of the United States court.

Mr. E. E. Clark, Cedar Rapids, Ia., grand chief of the Order of Railway Conductors, as a sociologist, the president assuming that for the purpose of such a commission the term sociologist means a man who has thought and studied deeply on social questions and has practically applied his knowledge.

Mr. Thomas W. Watkins, Scranton, Pa., as a man practically acquainted with the mining and selling of coal.

Bishop John L. Spalding, of Peoria, Ill.

Hon. Carroll D. Wright has been appointed recorder of the commission.

Wilkesbarre, Pa., Oct. 17.—The executive boards of the three anthracite districts of the United Mine Workers of America, in joint session Thursday, unanimously decided to recommend to a delegate convention of striking miners the acceptance of the arbitration proposition submitted by the president of the United States and it is reasonably certain that the advice will be followed and the great struggle brought to a close. The convention will be convened in this city Monday morning.

Scranton, Pa., Oct. 18.—Reports were circulated Friday night that locals of the United Mine Workers in West Scranton, Pittston and some other localities had voted to instruct their delegates to oppose the acceptance of the operators' proposition unless the companies would agree to discharge the non-union men, take back all the old employes, drop the suits instituted against strikers, and recognize the union. It was impossible to verify these reports, but they are persistently and generally circulated.

A significant fact in this connection was the concern of District President Nicholls over a published report that he was at the head of a movement to oppose the acceptance of the proposition. "This report," said Mr. Nicholls, "is doing no end of mischief. It has caused our men to view the proposition with suspicion, and when they suspected it, they commenced to look for the flaws which they supposed I had found in it. I have heard of locals in different places being disposed to vote against the proposition, and I must admit it is causing some worry at headquarters. I am satisfied, however, that the convention will accept the proposition. I want it stated that the report that I am opposed to the proposition is absolutely false and without foundation. I have been in favor of it from the very first, and the vote of the district officers recommending its acceptance to the convention was unanimous."

To Raise a Loan in France.

Shanghai, Oct. 18.—An edict dated October 15 sanctions the raising of a loan in France of $5,000,000. The loan is to be negotiated by Sheng, director of railroads, through the Russian bank. It is for the construction of a railroad from Ching Ting Fu to Tai Yuen Fu.

Young Corbett Got the Decision.

Baltimore, Oct. 17.—Young Corbett, the champion featherweight pugilist of the world, was awarded the decision over Joe Bernstein, of New York, "the Ghetto champion," before the Eureka Athletic club Thursday night in Music hall.

To Command the Newark.

Annapolis, Md., Oct. 17.—Commander Richard Wainright Thursday received his orders from the navy department to report on November 3 to the United States cruiser Newark and assume command thereof.

FIRED BARNS AND HOUSES.

Disappointment in Love Crazed Adolph Kadelboch.

Minneapolis, Minn., Oct. 20.—Sheriff Dreger Sunday lodged Adolph Kadelboch in jail here for having set fire to the barns and warehouses on half a dozen farms near Loretto, in this county. The prisoner declares disappointment in love crazed him. Successful rejection of his wooing by young women of his neighborhood preyed on his mind. He became convinced that their parents were in league to rob him of the prospect of happiness. So, he explains, he sought revenge in fire. The farm houses of Charles Piper and Jacob Spurzem, whose daughters had most recently rejected Kadelboch, were first fired. Then the torch was applied to the barns of Leonard Miller and Charles Thomas. At the latter's farm Kadelboch was captured. Meanwhile word had been sent along the Rockford road that Kadelboch had become crazy and was trying to burn up Hennepin county. Hundreds of farmers stood guard over their homes [illegible] night with shotguns, Sheriff Winterhotter concealing the fact of Kadelboch's arrest for fear of violence until relieved of his prisoner by Sheriff Dreger.

PUPILS IN SCHOOLS.

Grand Total is Something Over Seventeen and Three-Quarter Millions.

Washington, Oct. 20.—The annual report of the commissioner of education, just submitted to the secretary of the interior, shows that the grand total of pupils in schools, elementary, secondary and higher, both public and private, in the United States, for the year ended June 30, 1901, was 17,999,230, an increase of 278,520 pupils over the previous year. Of this number the enrollment of pupils in institutions supported by general and local taxes furnished by states and municipalities were 15,710,394, as against 15,443,462, the number reported for the previous year. Besides these there were certain special institutions like city evening schools, business schools, schools for Indians, reform schools, schools connected with asylums, schools for cookery and other special trades and vocations, all enrolled nearly half a million pupils. Adding the enrollment in these special schools to that for general education, the aggregate is something over seventeen and three quarter millions of our population.

TUG BOAT PARTIALLY WRECKED.

Two Persons Dead, One Fatally and Three Slightly Injured.

Memphis, Tenn., Oct. 20.—Two persons were killed, one fatally and three slightly injured in an explosion which partially wrecked the tugboat Fred Nellis, of St. Louis, near Mound City, Ark., early Sunday.

The Nellis, which was put in commission at Plaquemine, La., 30 days ago, had 11 persons on board at the time of the accident. The boat left Memphis Saturday night bound for Thebes, Ill., where she was to be used in constructing a railroad bridge. She tied up near Mound City.

The explosion was caused by three boiler flues giving way. The upper deck of the tug was wrecked.

A TEMPERANCE WAVE.

A Bill to Combat Drunkenness Being Prepared By Austria.

Vienna, Oct. 20.—The bill for the purpose of combating drunkenness, which is being prepared by the Austrian government, is the first measure of the kind in the history of Austria. It is an outcome of the strong pressure of public opinion and the efforts of the temperance party. It provides for the imprisonment of persons found intoxicated in public place over a certain number of times within six months, and restricts the sale of bottled spirits which it is declared lead to some drinking, to holders of special licenses. Only one such license is to be granted for every 500 inhabitants.

STEAM PIPE PARTED.

Eight Men Scalded, Some of Whom Will Die, in a Tube Works.

Wheeling, W. Va., Oct. 20.—By the parting of a steam pipe at the Riverside plant of the National tube works, in Benwood, Sunday afternoon, eight men were scalded and three or four of them will die.

Four of the men were carpenters and four laborers. They were placing a partition in the boiler room of the new blast furnace and were working on a scaffold. A 12-inch copper pipe supplying the blast engines with steam from the boilers broke without warning and the escaping steam filled the room.

The Strike Declared Off.

New York, Oct. 20.—The strike inaugurated some time ago among the wood carvers employed by a New York firm having the contract for the carvings at the white house, has been declared off. Strikers won.

Train Collided With An Engine.

Brainerd, Minn., Oct. 20.—Passenger train No. 12 on the Northern Pacific road collided with an engine six miles west of here and Engineer Carlson, Fireman Leonard and Baggagemaster Jones with a dozen passengers were injured.

Five People Drowned.

Constantinople, Oct. 20.—Fifteen persons were immersed and five of them drowned as a result of the collapse of the bridge over the Golden Horn, connecting Constantinople with the suburb of Galata.

PUT AN END TO HIS LIFE

James Younger, the Former Notorious Outlaw, Suicides.

Since His Parole From the Minnesota Penitentiary in July of Last Year Younger Had Lived An Exemplary Life.

St. Paul, Minn., Oct. 20.—James Younger, formerly a member of the notorious James band of outlaws, which infested the western country a quarter of a century ago, committed suicide Sunday by shooting. He left a letter to the press in which he gives as a reason for his act despondency over continued ill health and separation from his friends. The suicide is supposed to have occurred about 8 o'clock Sunday morning. Younger occupied a room in a down town block and when he did not make his appearance as usual Sunday [illegible] was made for him. About 5 o'clock Sunday afternoon the door of his room was broken in and his dead body found stretched on the floor beside the bed a revolver clutched in his right hand. He had shot himself through the head and evidently been dead for several hours.

On a bureau in the room was found a long manila envelope on one side of which was written: "To all that is good and true I love and bid farewell. Jim Younger."

On the other side of the envelope were these words:

"Oh, Lassie, good-by.

"All relatives, just stay away from me. No crocodile tears wanted.

"Reporters: Be my friends. Burn me up. Jim Younger."

The envelope contained a package of letters that had passed between Younger and a lady with whom he is said to have been much in love. The lady, who is prominently connected, is said to have reciprocated his affection and it was reported at one time that they were to be married. The lady's relatives raised strenuous objections to the wedding and a further obstacle was the fact that it was pointed out that a paroled prisoner could not legally contract a marriage. The couple determined to disregard the objections of relatives and an effort was made to overcome the other obstacle to their marriage by securing from the state board of pardons a full pardon and restoration to citizenship. This effort failed, and this, it is thought, had much to do with Younger's determination to end his life.

Younger, since his parole from the state penitentiary in July of last year, had led an exemplary life. His first employment was as traveling agent for a tombstone dealer and on one of the trips he made about the state he was quite seriously hurt by a fall from a wagon. Old wounds he had received earlier in life also gave him much trouble, and although he soon obtained lighter employment, his health was extremely precarious, and this caused him much worriment. He was 54 years of age. The body was viewed by the coroner, who decided that an inquest was not necessary. It is not yet known what disposition will be made of the remains, some doubt arising under the terms of the parole as to whetner the body can be removed from the state.

DIPLOMATIC RELATIONS.

Pope Wants It Established Between the United States and Vatican.

London, Oct. 20.—In a dispatch from Rome the correspondent of the Daily Telegraph says that the vatican hopes that the negotiations in Manila between Gov. Taft and Archbishop Guidi will lead to the establishment of diplomatic relations between the United States and the vatican. If this fails, the correspondent says, the pope is believed to entertain the hope that when the Guidi negotiations are concluded the United States will send an envoy extraordinary to Rome to ratify the arrangements.

RICHARD B. M'COY DEAD.

He Was a Strenuous Abolitionist But Opposed to Negro Suffrage.

Baltimore, Oct. 20.—Richard B. McCoy is dead at his home in Dublin, Hartford county, aged 81 years. Mr. McCoy was a member of the Maryland legislature which met in extra session in '61 to pass upon the question of state rights. He was a strenuous abolitionist but opposed to Negro suffrage. He was one of a party who conferred with President Lincoln on Negro suffrage the night preceding the latter's assassination.

Strikers Ordered to Work.

Chicago, Oct. 20.—The Chicago Federation of Labor went on record as a "strike breaker" Sunday when, by an almost unanimous vote of the delegates the striking members of the Wholesale Grocers' Employes' union were ordered to resume work, pending the settlement of their troubles by arbitration.

Will Anticipate Interest.

Washington, Oct. 20.—The treasury department has decided to anticipate the interest on government bonds due November 1 and on Monday checks for the payment of this interest, amounting to $2,233,000, will be mailed to bondholders.

Librarian Crane Died Suddenly.

Pittsburg, Oct. 20.—Walter Crane, for years librarian of Carnegie library at Braddock, died suddenly Sunday of apoplexy, aged 4o. He was born in Rossier, Scotland, and came to this country when 6 years old.

BLAMES REPUBLICANS

Richard Olney Says Coal Strike Is the Fruit of Protection.

Secret Operators Indorsed [illegible] Upholds Right of [illegible] Discussion—Hopes for Democratic Victory.

Richard Olney, [illegible] President Cleveland, [illegible] principal orator [illegible] the Democratic C[illegible] to Col. William [illegible] candidate for gov[illegible] urday, October 19.

Mr. Olney described [illegible] tions in the anthracite coal fields as the result of republican [illegible] Forty years of partnership [illegible] protected industries had placed [illegible] Democratic [illegible] some private citizens [illegible] where they deemed themselves above the law. He criticised the [illegible] haste of the treasury department [illegible] rush to the relief of Wall street speculators, and, while crediting President Roosevelt with good intentions, pointed to the danger that might follow his efforts to settle the coal strike without authority of law.

Democrats Headed Aright.

Mr. Olney's speech follows:

"Mr. Chairman and Gentlemen: I welcome the opportunity to declare my belief not only that the democratic party is now heading in the right direction, and is tolerably sure of ultimately recovering its old-time ascendency, but that that result is essentially to the welfare of the American people. There is one aspect of the present situation to which I desire to briefly call your attention.

"The vital principle as well as distinguishing merit of our political institutions consists in liberty regulated by law. With the exception of two Cleveland administrations, the republican party has been in control of the national government for a period of more than 40 years. Where it has landed us as respects liberty I will not now consider. But where has it landed us as respects law, which has no right to the name, unless it is the same for the millionaire and for the beggar?

"The signs of the times are that under the regime of the republican party and though the national government, 40 years of partnership has protected industries, we have come to a pass where public officials as well as private citizens deem themselves above the law.

"Witness the frivolous haste with which the treasury rushes to the relief of Wall street speculators by a novel and forced construction of the national banking law. Witness the contemptuous proceeding of the same department in its instructions to subordinate officers respecting the duties to be collected on coal.

Roosevelt's Action Dangerous.

"But the generally lawless atmosphere in which protected republican reign has enveloped us is even more strikingly illustrated by the recent presidential demonstration upon the coal strike. There are those who say that as the president disclaimed any official duty or relation to the matter, he should not have interfered. There is something to be said for that view. Though his office is charged with great functions and invested with great powers, the president is a constitutional officer whose sphere of action is strictly limited by law. Within that sphere he is well-nigh absolute; without he is legally impotent. When, therefore, he goes without it, the danger is that he may fail and be defied, and that his great office may lose prestige and power, and thus be less capable of performing its legitimate duties.

"The president, for example, is our representative with foreign powers. Will it strengthen his hands that some half a dozen private citizens are found snapping their fingers in his face? The president's overture to the coal operators was prompted by the best motives and should have been treated with respectful consideration. It was not; it has been declined courteously, even if firmly.

"But the opportunity to administer a snub to the president was too tempting. Accordingly he was not only treated as a rash intermeddler; he was also lectured upon the law and facts of the case, and, to crown all, was notified that the cause of the trouble was lawlessness, which he was sarcastically invited to suppress.

"For sheer audacity, this attitude of the coal operators could hardly be matched, and nothing could more strongly emphasize the disrespect into which the law of the land has been brought by long-continued republican domination.

Operators Defy the Law.

"Yet, who are they who were so insistent upon the suppression of lawlessness in the mining regions? Why, the most unblushing and persistent of lawbreakers. For years they have defied the law of Pennsylvania, which forbids common carriers engaging in the business of mining. For years they have discriminated between customers in the freight charges on their railroads in violation of the interstate commerce law. For years they have unlawfully monopolized interstate commerce in violation of the Sherman anti-trust law.

"Indeed, the very best excuse or explanation of their astonishing attitude at the Washington conference is that, having violated so many laws for so long and so many times, they might rightly think they were wholly immune from either punishment or reproach.

"It is sometimes urged in extenuation of the coal operators' foolishly offensive conduct at the conference that they were enraged at the recognition of labor unions, and the presence by invitation of their representative. If that be so, they must be as blind to the imperfections of the law as they are living in as they are oblivious of legal obligations.

Right of Labor to Combine.

"In these days of combinations by capitalists on a scale and to an extent as startling as it is unprecedented can they possibly imagine that labor is to be denied an equivalent right of combination? If they do, it is only another instance of their complete indifference to the law of the land.

"In 1894 receivers of a railroad were brought into court on a claim that laborers ought not to be discharged because of membership of labor union. Though the court was a federal court, it sat in Pennsylvania, and the petitioners got nothing from that court.

"But what followed? In a year or two Pennsylvania made it a criminal offense to deprive a man of work because he belonged to a labor union. In 1898 congress not only did the same thing, but in a statute providing for the arbitration of labor disputes expressly made labor organizations parties to such arbitration. This was in addition to the previous legislation by congress encouraging and providing for the incorporation of labor unions. In ignoring them, therefore, the coal operators simply ignore and condemn the law of the land.

"I will detain you, Mr. Chairman, but a moment longer. In the course of the political campaign now going on republican orators are sure to wax eloquent in deprecating change. To all such oratory, while there are many good answers, there is one that is conclusive.

"Law, supreme and equal for all men, is to the American people what the ark of the covenant was to the Jews of old. While we have it we need not fear for our safety; when we lose it we are far advanced on the high road to ruin. Hence, if we would not enter upon that road, change and the displacement of republicanism cannot come too soon or too decisively."

HILL ON PROSPERITY

New York Statesman Discusses Industrial Conditions.

Treats the Coal Question as Foremost Issue of Present Campaign—Renews Demand for Tariff Reform.

The democratic state campaign was formally opened in New York October 11 with a rousing mass meeting at the Brooklyn Academy of Music. Following his custom for many years, ex-Gov. David B. Hill fired the "opening gun" there. He made a long speech, full of vigorous utterances, the feature of which was an elaborate defense of the plank in the state platform demanding government control and operation of the coal mines.

Mr. Hill treated the coal situation as the foremost issue of the present campaign. He renewed his demand for a sheriff to arrest and jail the [illegible] for revenue only and charged the republicans with sole responsibility for the high cost of living in this country to-day.

Cost of Living Increased.

Mr. Hill was warmly welcomed when he arose to speak. Discussing the industrial conditions in the country he said:

"Certain conditions as well as theories confront the American people at this hour. In a time of abundant harvests, with no pestilence afflicting the people, and in the enjoyment of their ordinary health, they find themselves confronted with unusual dangers which threaten their welfare and imperil their happiness. The average citizen discovers that notwithstanding the alleged prosperity of the times which has been so vociferously proclaimed by our political opponents, the fact remains that the accumulations of wealth have accrued to the coffers of the few rather than to the pockets of the many, and that the increased cost of living—especially the enhanced prices of the necessaries of life—have created the problem of existence a more difficult one to solve.

"The republican party is in undisputed control of the state and nation. It can and will or can refuse to enact whatever legislation it pleases. If present evils are traceable to vicious legislation and unwise public policies, the responsibility therefore is easily fixed. If the government in recent years has been used to build up private fortunes for the benefit of a few at the expense of many millions; if the public functions of taxation have been abused to subserve personal and corporate interests; if vast combinations of capital have been permitted to crush competition and dictate government measures for selfish purposes, the responsibility must be assumed by the republican party, which has either sanctioned or tolerated such conditions and refused or omitted to remedy them.

"The democratic party wages no war upon capital. Neither is it inimical to corporations lawfully engaged in legitimate enterprises. It respects vested rights and does not regard the possession of wealth honestly acquired as a crime, nor does it consider poverty as a virtue or as a disgrace.

"In common with all good citizens it views with alarm the organization in the past few years of those vast corporate combinations which have for their real, though not ostensible, object, the creation of monopoly by rendering competition practically impossible through the immensity of the capital employed and the almost unlimited extent of their powers and operations. It is not believed that combinations of such a character are in the public interest or are productive of public good."

Demands Tariff Revision.

Referring to the question of tariff revision, Mr. Hill said:

"With over $60,000,000 of surplus revenue in the treasury of the United States it is folly—aye, it is almost criminal—to further resist a modification of the present exorbitant tariff rates. No good reason can be urged why such revision should not be immediately undertaken."

Favors Government Control.

Of the plank of the state platform demanding government ownership of the anthracite mines, he said:

"The proposition is neither startling, revolutionary, socialistic nor paternal. But is constitutional, necessary, expedient, and, above all, it is right. It is simply a reasonable and necessary extension of the general policy of public ownership already largely prevailing in the municipalities of the country. This proposition does not commit the party to any other projects of public ownership, whatever their merit, if any there may be.

"The coal question is a national one. If it is not, why did the president himself recently intervene and summon private citizens here to the white house for conference and exercise his official influence in regard to a matter over which he had no jurisdiction? He was not acting under any statute. He had no authority for any legal interference on his part. He himself has made it a national question and he and his party are now estopped from otherwise regarding it. It is a national question because the impending coal famine involves the welfare of the whole people of the United States, and such a famine should be prevented from ever occurring again, which cannot be assured under private ownership and control. It is the province of wise statesmanship to provide against just such emergencies in the future. There is no permanent remedy proposed by anybody except that suggested in the democratic platform."

BRYAN HITS SHAW.

Says the Secretary Is Running the Treasury in the Interests of Wall Street.

W. J. Bryan says Secretary Shaw has been guilty of a breach of public trust by pursuing the same policy the republican party denounced the democrats for doing in 1888—loaning the government money, without interest, to "pet banks." In his Commoner Mr. Bryan says:

"The present secretary of the treasury has gone far beyond any previous secretary in responding to the wishes and advancing the interest of 'pet banks.' The partiality shown by the treasury department to the Rockefeller bank in New York is well known.

"But the recent rumors of Secretary Shaw go beyond anything that has heretofore been known. It is gross favoritism to let the banks have government money for nothing, in order that they may loan it out to their customers at the usual rate of interest. The fact that they give bonds for security has nothing to do with it, because they draw interest on the bonds at the same time that they draw interest on the government money which they are permitted to loan out. But New York banks had loaded out so much money on the watered stock of the trusts that they were not prepared for any shrinkage in their deposits, and the government at once went to their aid.

"Whether the secretary has violated the law in his effort to rescue the banks is a question which will probably be discussed when congress meets, but that he is running the treasury department in the interest of Wall street is a question which is not open to dispute."

HE WILLED

"Why," he asked, when [illegible] themselves alone at one end [illegible] "do you suppose it is that [illegible] do not marry?"

"But educated women do marry," she replied. "I know of three or four educated women who have been married within the past month or two."

"Oh, yes, of course some of them marry. But why do so many of them remain single?"

"Perhaps it is because the educated woman's horizon is broader than that of the uneducated; because she demands more."

"Then it is not because she looks upon marriage itself as a bad thing?"

"Oh, dear, no!"

"And you have declined [illegible] because you have demanded more?"

She tied and untied her [illegible] head, chief, relates the Philadelphia [illegible] looked down and blushed [illegible] answered:

"Yes. One of them was [illegible] inches and the other couldn't [illegible] more than 90 pounds."

Being six feet four in his socks, he then spoke out and got her.

RECORDER

Oct. 22, 1902.

Publisher.

For Circuit Clerk.

announce S. E. ... as a candidate for Circuit Clerk, subject to the action of the Democratic party.

It is said that no more will be heard from Gov. Beckham in regard to his candidacy for Governor until after the November election.

MR. BRYAN may be making money with his paper, The Commoner, but he is the only editor in the entire country who has been living in a barn.

THE Government Inspector spent several days at Williamstown, last week, and as a result of his visit five free mail delivery routes will radiate from that city in a few weeks.

MR. MITCHELL had the last say as to how the commission appointed by the President to settle the coal strike should be composed. He was the biggest man in the nation in that matter.

JUDGING from the registration figures in Louisville, the Democrats will sweep the city at the election this fall. They have a considerable majority over all, and a large plurality over the Republicans.

Chairman Babcock is out in an interview in which he announces that the President's course with reference to the strike will be an element of great strength in the Republican campaign. What? Politics in the President's course. C.-J.

IN his speech at Williamstown, last Thursday, Judge James D. Black, of Barbourville, informed his audience that he would be heard from at the proper time in regard to his candidacy for the Democratic nomination for Governor. Many think the Judge will be a formidable candidate.

MR. HERMESS, Independent candidate for Congress in this district designated his picture as the emblem under which his name shall appear, but he failed to file with the proper officer a photograph of himself. Now the question is, can he compel the county clerk to employ a photographer and have him down and take a good shot of him from which to make his emblem?

THIS week the RECORDER begins its 28th year, and it desires to acknowledge the gratitude it feels toward its corps of faithful correspondents, through whose labors much the greater portion of the paper's popularity has been acquired. Their weekly contributions are not only appreciated at this office but the RECORDER'S hosts of readers delight in perusing them from week after week. Let the good work continue.

The United States District Attorney in South Carolina, Capt. Ansel Capers, who is also the Republican National Committeeman from that State, is opposed to the "Lily White" idea that has got possession of the Republican party in the South. He says there is no good reason why the Republican party in that section should be wholly white, and that every reason why it should not be wholly black.

Adolph Cohut recently published an article in the Berliner Tageblatt disputing the assertion that the late Emanuel Hermann, of Vienna, was the inventor of the postcard. He says the credit belongs to Heinrich von Stephen, formerly Postmaster of Germany. He made an eloquent plea for the postcard at the Fifth Postal Congress at Karlsruhe in 1865, but the card was not adopted at that time. This, however, was the result of agitation of the subject.

The nomination of Leslie Applegate as the Republican candidate for Congress in his district was not certified to the Secretary of State as required by law. Secretary Hill does not enforce the law in that particular case, but says it will be up to the county clerks in the district to see whether his name appears on the ballots. The clerk of Socialist ... received the certificate of Applegate's nomination from the nominating convention and will have his name printed. The certificate ... Socialist ... came ... Secretary ... should ...

It is claimed that the Covington Democrats have gotten together all along the line, while the Newport Republicans are having a hot old time, because some of the old liners who wanted city offices were turned down, and very recent acquisitions from the Democratic party were nominated in their stead. It is strange how easy it is for those who were Democrats until recent years, to scoop the Republican nominations, while the party veterans are permitted to do the cussin, only.

It is natural for the soil to become compact. The rains assist in bringing the particles together, while the trampling of the animals, and even the pressure of the atmosphere, assist. Clay soils are more subject to this agglomeration than soils that are sandy, and frequently the soil becomes so hard that during a dry season even the plow cannot be used to loosen it. Plants can only with difficulty penetrate a soil that has been plowed if the plowing was not done just previous to planting the seed, and it is therefore necessary for the growth of the plant that the soil be made loose and also kept in that condition throughout the season. By loosening the soil the nutrition is rendered more available to plants and they also secure more moisture and warmth. The fibrous roots of plants do not penetrate clods, hence the finer the soil the more evenly the roots range. Plowing and harrowing is not performed in order to simply break and loosen the soil, but also to pulverize it and lessen the number of clods. Some soils can be so loosened that in a short time they will settle, but such land can be improved with the roller. The harrowing of the soil also has an effect that is some times overlooked, which is the mixing of the soil. Where there has been an accumulation of humus, and the lower soil has been brought near the surface by plowing, the harrow mixes the top and lower soils, and distributes the available plant food more evenly. Unless this is done there can be no uniformity of growth, for the reason that the plants which have been forced to feed where the lower soil predominates will be feeble and sickly, while plants growing on the richer top soil will be luxuriant. Imperfect harrowing, therefore, is at fault for many of the failures to derive good crops from land that should give more satisfactory results.—Ex.

Commissioner Nall has issued the following report of the condition of the Kentucky crops: "The yield on the whole has been a fair one. The corn crop will be about 90 per cent of the average. The average to 25-26 bushels to the acre. During the year the corn acreage has increased 5 per cent.

"In wheat there will only be a little over half a crop. This is the hardest blow to the farmer, for the wheat acreage in Kentucky is large. The deficiency in the wheat crop was due to bad conditions last fall.

"There is a little rye and barley in Kentucky. The hemp crop is large and the yield fine.

"The tobacco crop is not so good as promised early in the season. On October 1 the indications were for 80 per cent of the average crop. There was a gain of 3 per cent in the crop in September.

"Pastures, grass and forage suffered in many sections from drouth. The Bluegrass section fared better than the rest of the State. Stock peas as a crop are growing in favor in the State both for seed and a fertilizer. The crop, however, was badly stricken by drouth in sections were most grown, and will fall below the average.

"The fruit crops are poor, apples and peaches falling to less than 25 per cent and other fruits practically failing except in a few counties.

"The condition of live stock throughout the State, however, is all that could be desired. There is very little disease among hogs and sheep and there was only an occasional outbreak of authrax in Grayson and Ohio counties."

BY a unanimous vote at of the miners' convention, Monday, the coal strike was declared off, and the strikers will resume work tomorrow.

Farmers have an abundance of food stored for their livestock this winter, and here it is nearly the first of November, and they have not thought about beginning to feed their stock. A year like 1901 makes the farmer realize the blessings brought by seasons like those of 1902.

Tobacco men say that the American crop this year will fall far short and manufacturers in this country and in England will have a hard time getting leaf enough to take care of their trade without paying high prices for every pound. The crop in Kentucky and Tennessee has suffered and will be small. English, French, Spanish and Italian buyers who are here are picking up every pound of leaf tobacco they can find at high prices in order that their factories may run full time for the next year.

For some time the Baptist congregation at Bellevue has recognized that its church building is too small, and has been discussing a proposition to enlarge it, and now the work has taken a shape that is very favorable to an extensive improvement of the building. A committee of twelve of the most prominent and influential male members have been appointed to take charge of the work of enlarging the building, which will be pushed through before the next regular meeting of the North Bend Association, as the Bellevue church will entertain that body in 1903, its centenial. The church has a membership of 218.

The Burlington and Bellevue ball teams played a close game on the ground of the latter, last Saturday, the Burlington boys winning on the tenth inning, the score standing 10 to 8 in their favor. Brady was struck on the arm while at the bat, and disabled so that Hughes had to be put in the box, where he sustained his record as a thrower. There were several sensational plays on each side.

The Burlington second nine went to Bullittsville, last Saturday afternoon, where it was defeated 20 to 19. Both teams did some fine playing although the score was large.

Burlington and Petersburg ball teams will play here next Saturday. Alloway, the champion pitcher in the Northwestern League, will be in the box for Petersburg.

To the Editor of the Recorder:

Several of ye Union Blade Editor's friends have written letters if Indiana in general and Alexandria in particular is not a better place to live and make money than Boone County, Ky. Allow me to answer through your most excellent paper, that such is not the case by any means. It is true that labor is in demand here at what might be called high prices, but there are so many contingencies tied to the proposition, that when Christmas comes and the books are balanced there is no more cash in the treasury than there would be in Boone county. Rent is high, fuel is higher and groceries are the highest. Clothing is dear, shoes are dearer and incidentals are the dearest. Boone county always guarantees any man a good living who hustles even 50 per cent of his time, and has gone so far as to furnish lots of men better than the average Hoosier knows anything about though they refused to hustle at all. In Indiana its different, it's root Hoosier or die—it's get up and go or get out and git—it's put up or shut up and it's business 1st, last and always—no time for the sentimental or finer things that characterize Kentucky living.

The Hoosier is some on the root, in fact he is a rooter from way back, and knows all the in's and outs' of rooting to a frazzle. He can extract the square root of a $ quicker than a wink, and tell the cube root of any proposition that presents itself quicker, than a wink, if there is a dollar in it. A Kentuckian is peculiar and proposes to see the silver lining and pretty side of every day life as he goes along, expecting to enjoy himself, but not so the Hoosier—he just drives in, tramples all the beautiful phases of things under foot, roots out the $, and walks away, leaving the Ky-ian to curse him for being a hog. The old saying, that a sight depends on how a fellow is raised, goes farther with Kentuckians than any people we know of. For this reason it is fair to believe that the average Boone county man will not enjoy living in Indiana. Ask Prof. Voshell and lots of other men, who have tried it. An old stayer like me don't care for these things, and can adapt himself to any old condition, but, verily I believe there are hundreds of young Kentuckians parading over the state of Indiana to-day with a "don't tread on my coat tail expression" in their eyes, because they cannot endure the average Hoosier and his ways, and they have an aching void in their minds big enough to hold a bushel basket full of "home comforts," that they like a deal of getting in Indiana. The average Hoosier regards a Kentuckian with suspicion, believing he will shoot or cut him to death upon the slightest provocation, which, of course, is wrong. The average Kentuckian looks upon the Hoosier as a money loving individual, as a man of common, ordinary instincts, with no appreciation for the beautiful and totally blind, dumb and deaf to the sentimental phases of life, only as they relate to fodder in de shock and punk on the frostvine.

Now, boys, in conclusion, let me tell you that Kentucky has boundless resources to develop, railroads to build, coal mines to work, gold mines to find, factories to build and operate, so the golden opportunities are up to you, and will you accept them, or will you chase forlorn hopes and busted expectations hoping to do better.

Read the appointments for Democratic speakings published elsewhere in this paper, and then go out and hear the speeches.

Come out and hear Judge Tarvin's speech next county court day.

The crop reports already reviewed show an uncommonly large output of grain for the current year. Although the wheat crop falls 128,000,000 bushels below that of last year, it is still the largest on record, with three exceptions—those of 1891, 1898 and 1901. The corn crop breaks all records, and the same is true of oats. Other grain crops are of less importance, but they also are large. France, the largest European producer of wheat, shows a gain of about 50,000,000 bushels over last year, and Russia of 60,000,000. Germany has 38,000,000 bushels more than last year. All the other countries show an increase except Austria-Hungary, which was practically the same as last year. The total crop for the countries named foots up 114,000,000 bushels more than last year. But as the visible supply for the world is 30,000,000 bushels less than last October, the difference is reduced to 84,000,000 bushels, a gain of less than 6 per cent on last year's crops and visible supply. As the above is not a final estimate, the increase in the home supply of Europe may turn out to be even less. On the whole, however, it is safe to infer that Europe will not be quite so dependent upon other countries for a supply of wheat during the coming year as it has been this year.

The Michigan Agricultural College named twelve points to the recent graduating class on judging live stock at fairs and elsewhere are as follows.

1. Have confidence in your own powers.
2. Concentrate your thoughts on the breed and breed type of the animals you are working upon.
3. Do not hurry. Take time to decide. Having done so, stick to it. "Be sure you are right, then go ahead."
4. If possible, watch the class as it comes into the ring. There is often something about the style and carriage of the winner which marks him out as he walks.
5. Take a minute to look over the line from as near the center as possible in order to get a general idea on conformation.
6. Then pass slowly clear around the ring, inspecting each animal from front and rear.
7. Never be satisfied without using your hand in addition to your eyes. Appearances are often deceitful.
8. In handling, always work from front to rear. With cattle, work on the right side, approaching the animal from behind.
9. First pick out the winner of the class; then use it as your standard in placing second and third.
10. When first is placed, briefly sum up its strong points.
11. Look for characteristics and most common breed defects.
12. Pay no attention to either the men with you or the crowd around you. Your business is with the animals.

His Life In Peril.

"I just seem to have gone all to pieces," writes Alfred Bee, of Welfare, Tex., "biliousness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, and eat anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run down people. Try them. Only 50c at W. F. Lexington, Ky., Oct. 18.—Favorites won the four events Friday. The 2:02 pacer, Dan R, was good enough to land both heats. Time, 2:07 and 2:04. Miss Delman won the 2:09 trot, Monte Carlo and Belle Keeser competing.

Straig had the hardest struggle of the day when he defated Beldo in the 2:16 class trot.

Direct had won the Wilson stake, 2:20 class, and the fact that he had to cover the three miles in 2:09, 2:07 and 2:07¼ is proof of the character of the competition. The stake record is 2:06¾, made by Audubon ... last year.

KIDNAPING FEARED.

A Kentucky Farmer Disappears After Drawing Money.

Lagrange, Ky., Oct. 20.—John Rosebro, aged 50 years, a wealthy farmer, living west of this city, near Buchanan, has been missing since last Monday. On that day he appeared at the Buchanan bank and drew currency to the amount of $1,000, and also took a large amount of notes which he had with him to the bank for safe keeping. He departed, saying he intended buying stock.

Rosebro stands high in the community, and his family thinks he has been kidnaped and that a large sum of money will be asked for his release.

Ziegler's Western String.

Lexington, Ky., Oct. 20.—Charlie Hughes, the trainer of the extensive stable of H. M. Ziegler, of Cincinnati, has decided to winter the horses in Louisville this year. Ziegler's extensive band of yearlings, some forty in number, are still in the hands of Dan O'Brien. The Cincinnati owner will have both a western and an eastern stable next year. Of course, Hughes will be in charge of the latter string, and if O'Brien succeeds in getting a trainer's license he will campaign the western division of the stable.

The Fowler Bill.

Paducah, Ky., Oct. 17.—The State Bankers' association adjourned Thursday afternoon. It declared against a part of the Fowler bill and elected the following officers: S. K. Sneed, Henderson, president; W. F. Paxton, Paducah, vice president; Isham Bridges, Louisville, secretary; E. W. Hays, Louisville, treasurer. The place of next meeting will be fixed by the executive committee and will be at Covington or Hopkinsville.

Kentucky's Exhibit.

Louisville, Ky., Oct. 20.—There is no doubt of the success of the effort of the Kentucky Exhibit association in raising a fund for the erection of a creditable building and the placing therein of an exhibit to represent Kentucky at the world's fair. President A. Y. Ford has completed the organization of his finance committee, composed of the best people of the several congressional districts of the state.

Killing in a Poolroom.

Georgetown, Ky., Oct. 20.—Lewis Cohorn shot and killed Both May at Stamping Ground. May was in Hickey's poolroom, watching a game, when Cohorn entered and applied a vile epithet to him. May remonstrated, whereupon Cohorn pulled a revolver and fired. The ball entered May's head, just below the ear, and he fell to the floor dead.

Acquitted of Murder.

Louisville, Ky., Oct. 18.—The jury in the circuit court acquitted W. J. Mills of the murder of his brother-in-law, Joseph Donahue, on the plea of self-defense. Mills cut Donahue's throat with a knife after a quarrel and said Donahue also attacked him with ...

MAY AND DECEMBER MARRIAGE.

A Divorce Suit of Unusual Interest at Lexington, Ky.

Lexington, Ky., Oct. 18.—A divorce suit of unusual interest, the sequel of a May and December marriage, was filed here late Friday. The defendant is Rev. Geo. Varden, of Paris, Ky., aged 75, and the plaintiff, aged 37, is the daughter of Dr. R. D. Green, a physician, of this city.

She alleges cruel and inhuman treatment. They were married in 1896 and have two children. He is wealthy and prominent as a writer and minister of the Christian denomination. By a former wife he has four married sons and a married daughter, all said to be the senior of the plaintiff in this suit. He left the defendant in July. The custody of the children and alimony are prayed for.

WIFE BADLY WOUNDED.

Milton Says the Shooting Was Accidental But Son Talks Differently.

Louisville, Ky., Oct. 20.—George Milton, a laborer, is confined in jail on a charge of shooting and perhaps fatally wounding his wife. Milton, who had been drinking, said he was cleaning a pistol Sunday evening when it was accidentally discharged. His 8-year-old son, the only witness, says he heard his father say, "I am going to shoot," and then heard the shot. Mrs. Milton was shot through the stomach. She was operated on at the city hospital Sunday night in the hope of removing the bullet.

TURNED OVER A LAMP.

House Was Fired and Jack Turner Perished in Trying to Put Out Flames.

Lexington, Ky., Oct. 20.—While intoxicated Saturday night Jack Turner, colored, caused a fire which roasted him to death and destroyed the section house at Muir Station, in this county.—Returning from this city where he drank freely, he found the door to the house locked and crawled in a window. In retiring he turned over a lamp, fired the house and perished trying to get out.

Bones Found.

Petersburg, Ky., Oct. 17.—Local hunters followed a rabbit into a cavern near the head of Woolfer creek, known as Split Rock. They discovered evidences of human habitation, boxes of dried potatoes, remnants of clothing and bones of all kinds. They are supposed to be the remains of a Scotch cobbler named Banteman Roy, who disappeared from the neighborhood in 1882. Further search will be made.

Charged With Patricide.

Middlesboro, Ky., Oct. 20.—A skeleton recently found under the store of John Wilmore has been identified as that of his father. Some years ago young Wilmore said his father had gone to Mexico, and later reported his death in that country. He succeeded to the old man's estate. Saturday he was arrested, charged with killing his parent.

Escaped From the Penitentiary.

Frankfort, Ky., Oct. 18.—Elmer Slider, serving two years for horse stealing in Covington, escaped from the penitentiary and has not been captured. His time would have been out in April, and he was anxious to get away before his time was out, so the Louisville officers could not arrest him for alleged crimes committed there.

Purchased Trotters.

Lexington, Oct. 18.—Schiessinger & Co., of Vienna, Austria, have bought of J. L. Tarlton, of this city, the seven-year-old gray mare Rachel H. by Strong Boy, for a private price. The firm also secured seven other trotters, besides the brood mare Alice Russell, bought of Scott Hudson for $7,000. The horses were shipped to New York for export.

Tobacco For Italy.

Fulton, Ky., Oct. 20.—The contract to supply the Italian government with 4,000,000 pounds of tobacco this season has been awarded to Field Bros. & Co., of this city. The contract is worth $300,000. There are four contracts of this kind in Western Kentucky, one at Mayfield, one at Paducah, one at Murray and one at Fulton.

Failed to Indict.

Newport, Ky., Oct. 20.—There is considerable comment over the fact that no indictment was returned by the grand jury against Mrs. Wagner, who, it is alleged, killed in cold blood at Brent, Ky., a few months ago her husband's alleged paramour, Mrs. Minnie Chase.

Money For the Veterans.

Frankfort, Ky., Oct. 18.—Gov. Beckham Friday issued an order that all the provisions of the act appropriating $10,000 a year to support the Confederate Soldiers' home had been complied with, and that the appropriation is now available.

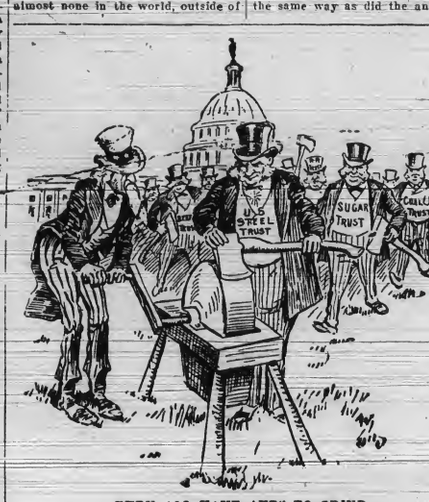
OIL AND COAL TRUSTS.



Dingley Bill Juggled in the Senate in the Interests of Standard Oil and Anthracite Combines.

It has been the general belief of most writers and speakers that neither the Standard Oil nor the anthracite coal trusts were protected by tariff duties on petroleum and anthracite coal. President Roosevelt reflected the popular error on this subject when he said, in his speech at Cincinnati on September 20, in speaking of the proposal to take the duty off articles which are made by trusts:

"Furthermore, the products of many trusts are unprotected and would be entirely unaffected by any change in the tariff, or at most very slightly so. The Standard Oil Company offers a case in point; and the corporations which control the anthracite coal output offer another—for there is no duty whatever on anthracite coal."

Those are strong assertions, even if the Dingley tariff act is what it, on its face, appears to be.

Clearly the anthracite coal trust is protected by the duty of 67 cents per ton on bituminous coal. We import great quantities of coal from Canada and British Columbia, and bituminous competes with anthracite along our entire border. New England, especially, is burdened, at all times, by the duty on Nova Scotian coal and compelled, by it, to use much more anthracite than it would use if all coal were on the free list. Besides, there being no anthracite on this continent, and almost none in the world, outside of this country, it is apparently superfluous to put a duty on any but bituminous coal.

THEY ALL HAVE AXES TO GRIND.

The Standard Oil trust, likewise, was not without protection, either in former tariff bills or in the Dingley bill, even on its face. This trust manufactures several hundred products, all of which (except refined petroleum, paraffin and possibly a few others), are now, and have been for years, protected by tariff duties of from 20 per cent. to 45 per cent. or more. Besides this trust is by far the greatest beneficiary of our drawback tariff law, and, simply because it is big and can afford to obtain drawbacks which it will not pay small manufacturers to obtain, receives benefits because of the existence of tariff duties, on tin plate especially.

Under these conditions and circumstances, which have existed for many years under all recent tariff bills, any man, with even superficial knowledge of the tariff and of the coal and petroleum industries, would hesitate to assert that these trusts "are unprotected and would be entirely unaffected by any change in the tariff," unless he were making a stump speech and knew his hearers would not take him seriously. Certainly our president is supposed to have more than a superficial knowledge of a law which it is his duty to enforce and of conditions concerning which he assumes to instruct the people from the stump or the train.

But the Dingley bill, like its prototype, the McKinley bill, is not what it appears, on its face, to be. It was juggled in the senate, which is the legislative rendezvous of the trusts. It is in the finance committee of the senate, presided over by that smooth and cunning agent of the protected interests, Senator Aldrich, that the trusts get in their fine work.

Both the coal and petroleum schedules of the Dingley bill were juggled in the secret committee room of the senate and presumably in the interests of the trusts, whose agents are always on hand at opportune times.

When the Dingley bill went to the senate all anthracite coal was clearly on the free list, as it had been since July 14, 1870, and bituminous coal was dutiable at 75 cents per ton. As the bill became law it reads (paragraph 415) "Coal, bituminous, and all coals containing less than 92 per centum of fixed carbon, and shale 67 cents per ton of 28 bushels, 80 pounds to the bushel," and, in the free list (paragraph 523), "coal, anthracite, not specially provided for in this act."

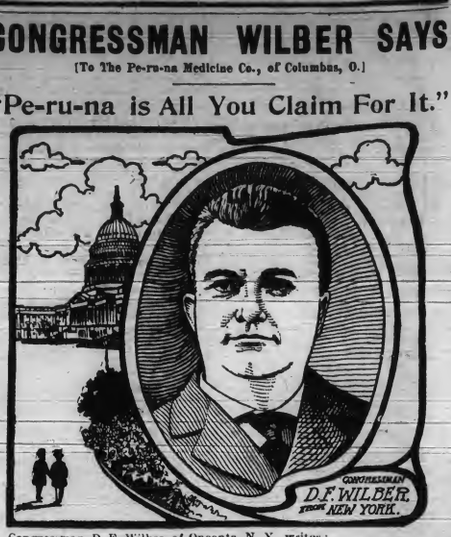
The fact that no cargo of coal is imported commercially that contains more than 92 per cent. of fixed carbon, makes it clear that the Dingley act puts a duty of 67 cents per ton on all coal. This conclusion was stated by Senator Vest when the Dingley bill was being discussed in the senate and is in accord with the decision of the board of general appraisers January 17, 1898, and of the circuit court of the United ... which rendered that a ... coal trust—through the back doors and the secret committees of congress. These trusts don't make an fuss and cause needless discussion, when they want their duties or extra duties on their products. They simply go quietly to Washington and see the managers—those who know where the funds came from in 1896 and 1900 that saved the country.

Although the hundreds of products of the Standard Oil company had been dutiable as manufactured articles, yet petroleum appears to have been unmentioned in tariff acts until 1897. In the original Dingley bill both crude and refined petroleum were put on the free list, but with the following proviso:

"Provided, That if there be imported into the United States crude petroleum, or the products of crude petroleum produced in any country which imposes a duty on petroleum or its products exported from the United States, there shall be levied, paid, and collected upon said crude petroleum or its products so imported 40 per centum ad valorem."

This practically made all of the Standard Oil products dutiable at 40 per cent., for all countries which export these products impose an import duty on them. But it was not enough. The friends of this trust in the senate (and they are not scarce) changed the duty from 40 per cent. to a duty "equal to the duty imposed by such foreign country." The duty levied by Russia, the principal foreign exporting country, probably averages more than 40 per cent., as the oil trust well knew. But the "nigger in the fence" in this charge probably lies in the retaliation club, which it gives our trust in its fight with the Russian combine.

Heretofore there has been no alliance, offensive or defensive, between the Standard Oil trust and the Russian trust. They divided up the world and each agreed to keep off the other's territory. The Standard Oil company has lately been getting aggressive and intruding on the Russian trust's territory, even into Russia itself, so it is said. Foreseeing trouble and a big fight ahead our trust wished to be forearmed with a reciprocity retaliation protection club. Now, if the Russians raise their duty to keep the Standard Oil company out, they will, automatically raise our duties to keep Russian oil out of this country.



Besides, should the "Christian gentlemen" in our oil trust be sufficiently trusted by the Almighty so that He would give them absolute control of the petroleum mines here, they might sometime wish to charge us 20 cents per gallon for oil, where they now charge only eight or ten cents. It is always well for the trust to have a little surplus protection in store for a possible emergency.

—The friends of the tariff feel that they have a perfect right to insist upon it being left severely alone. But, then, the friends of the tariff never were the least bit backward in assuming positions of that sort.—Washington Post.

In 1890 The Sangerlust celebrated its fiftieth anniversary with a large celebration in New York City. The following is his testimony:

"About two years ago I caught a severe cold while traveling and which settled into catarrh of the bronchial tubes, and so affected my voice that I was obliged to cancel my engagements. In distress I was advised to try Peruna, and although I had never used a patent medicine before, I sent for a bottle.

"Words but illy describe my surprise to find that within a few days I was greatly relieved, and within three weeks I was entirely recovered. I am never without it now, and take an occasional dose when I feel run down."—Julian Weisslitz.

Text.—And the King shall answer and say unto them, Verily I say unto you: Inasmuch as ye have done it unto one of the least of these, My brethren, ye have done it unto Me.—Matt. 25:40.

The Last Chapter.—Where is the person who, when reading the interesting story book, has not stolen a glance into the last chapter to see how the plot was going to turn out, and when he has discovered the sequel and has learned how the author finally disposes of the characters, he turns back contentedly and reads the intervening chapters to see how the story has been developed and the plot unfolded. In the section from which our text is taken, the latter part of the twenty-fifth chapter of Matthew, Christ has given us a glimpse into the last chapter in the story of human events which the years of time are now writing. As He stood with His disciples during the last few days of His earthly life God quickened His prophetic vision and He looked down through the centuries that were to unroll to the time when all nations were to be gathered before Him, and the sheep of His own fold were to be separated from the goats of the world's pastures.

During the 40 days in which the risen Lord appeared to His disciples, and they saw Him come and go unhampered by human conditions or human limitations, their understanding began to open and expand to the unlimited resources and power of God. And when they gathered on Olivet's brow and had had a last parting word with their Lord face to face, Heaven's cords drew Him from their midst, up, up, until the fleecy, glowing cloud rolled beneath His feet and shut Him from their view. They could not see Heaven's gates swing wide to admit Him, but they knew they did. They could not hear the rapturous song of the hosts of Heaven as they bid the King welcome, but the music of David's psalm swelled in their souls and they knew it echoed the Heavenly strains:

"Lift up your heads, O ye gates;
And be ye lifted up, ye everlasting doors;
And the King of glory shall come in.
Who is the King of glory?
The Lord strong and mighty,
The Lord mighty in battle.
Lift up your heads, O ye gates;
Yea, lift them up, ye everlasting doors;
And the King of glory shall come in.
Who is this King of glory?
The Lord of Hosts,
He is the King of glory."

They could not see their Lord take His seat at the right hand of God on the throne in Heaven, but they knew He was there. Yea, in the marvelous days which were to follow, the vision of the saintly Stephen was to penetrate the portals of Heaven and he was to see the risen Lord to whom his spirit was so soon to take its flight. And with the knowledge of all this filling their souls with peace and joy and confidence, the words which Jesus spoke came to be full of reality and meaning. "When the Son of Man shall come in His glory, and all the holy angels with Him, then shall He sit upon the throne of His glory." They knew this was to come to pass. They knew that when the world had run its course and God had exhausted every effort in man's behalf that the nations and the peoples of the earth would be ushered into the presence of the King and the final separation of the sheep from the goats would take place. The last chapter lies open before us. We know what the sequel of the story the nations and peoples of the earth are writing is to be. We are helping to fill in the intervening chapters. Are we in the love of Christ living out a life of service to those in need so that we shall hear Him in that great day saying unto us: "Inasmuch as ye have done it unto one of the least of these, My brethren, ye have done it unto Me;" or are we in the pride of the human heart, although, may be, in the name of church and religion, so serving self as to be among those who will hear Him say: "Inasmuch as ye did it not to one of the least of these, ye did it not to Me. Depart from Me."

An Exalted Service.—The words of our text throw a new and beautiful light upon the earthly life and deeds of those to whom the King is talking. The cup of cold water which was given to the tired, dusty, thirsty traveler that day so long before stands revealed in the pure searching light of Heaven as having been given to Christ Himself. That weary, homeless stranger who knocked timidly at the back door that dark and stormy night, and who was given hospitable shelter, is found in the final reckoning day to have been the substitute of Christ, and the service rendered him was done as unto Christ. The shivering, hungry little one on the street who was fed and clothed; the lonely and neglected one, sick in the garret room, who was visited and comforted and cared for; the repentant criminal behind the prison bars, to whom were carried the words of sympathy and hope of a better life, are all suddenly dignified with new light and new meaning, as it is understood that Christ looked upon the service rendered them as done unto Himself.

The charm of the childhood fairy stories lingers with me still. What intense fascination there was in the story of the rich and good fairy who would appear in whatsoever form he chose and bestow his gifts upon those whom he had tested. With what impatient anxiety we followed the good and bad characters in the story as they met the good fairy disguised as an old man, hungry and in need; or, as a poor, helpless, deformed child; and saw the one render the kindly service that brought the bestowment of the rich gift, and the other selfishly withhold and thus lose the favor of the visitor from fairyland. With bated breath we have paused in our reading at the critical testing point and exclaimed: "Oh, if they only knew that it was a rich and good fairy standing there instead of that poor, helpless, needy old man!" How we have just ached to step into the story and tell the secret before it was too late and the opportunity of winning the fairy's gift had been lost.

The fairy stories are not true, but there are Bible stories which are true and can equal any fairy story in the charm of its plot and in the unexpected and miraculous reward of goodness. Take for instance the story of Elijah, the prophet, and the widow of Zarephath. In the time of sore famine the man of God visited her and asked her to give to him the last handful of meal in the barrel and the last drop of oil which she had in the house. Day by day she and her little son had watched the scanty provisions grow less and less. The mother's heart was torn with anguish as she saw her darling slowly starving to death. Each day the cake she baked was smaller in size, that the meal and oil might last the longer. At last, with but enough left for one more meal, she feels herself face to face with death, for she knows not how more meal and more oil can be obtained. But there is enough meal and oil for the day and, because of this, death is one day farther off. And while she is gathering fuel with which to cook the last meal, along comes this stranger from another city, and asks for her all. And, inspired by the spirit of Godly fear and unselfishness, she feeds Elijah, when lo! the barrel of meal continues to yield its daily supply and the cruise of oil fails not during all the long days of that terrible famine.

Take the case of Abraham, who besought the three strangers to rest themselves in his tent after the journey over the hot sands, while he prepared for them a bountiful repast, and discovered ere they had departed that they were angelic visitors with the message from God of a son to be given in his old age. Take the story of Lot, who sat in his official capacity at the gate of Sodom and saw the two strangers approaching in the eventide. Little did he think as he gave them shelter that night and became their protectors against the violence and iniquity of that city that they would be revealed as angels in the morning, leading him to safety from the liquid fire that consumed the city.

Take Luke's account of that walk to Emmaus. The two sorrow-stricken disciples plodding along the roadside communing together over shattered hopes. A stranger appears and breaks into their conversation. I have often thought that if that incident had occurred in this day of denominational prejudice and religious self-pride the stranger would have been dismissed long before Emmaus was reached, and the two unsuspecting disciples would never have seen the Saviour's face. Perhaps the two disciples were at first disappointed because the privacy of their grief was violated, but with kindly patience and forbearance they do not rebuff the stranger and are soon lost in the soul-stirring conversation. Even after the city was reached they might have lost the greatest blessing if the hospitality of their hearts had not gone out to the stranger and they had not invited him in to dine. A good many excuses might have been given for not extending such hospitality. They had been away from home and nothing was prepared for a meal, or pride might have shut the door of hospitality so that the scantiness of the family larder might not become known, or a fretful housewife might have exerted such an influence over that home as to make it risky business for the husband to bring home unexpectedly the guest to a meal.

There is nothing in Luke's story to indicate that there was the least selfish motive on the part of the two disciples in inviting the stranger in. They wanted to give him shelter and food because he needed them. "And they constrained him." And inasmuch as they did it unto this stranger, who was in need, behold! ere the meal is concluded they discover that the service has been rendered unto Christ Himself. How it exalted their service! They will be among the number that will hear Christ, the King, say in that last great day: "Inasmuch as ye did it unto one of the least of these, My brethren, ye have done it unto Me." Every service rendered by the disciples of Christ may be dignified and exalted by the thought that it is done to Christ Himself, and the well where the thirsty one is given to drink, the table where the stranger is fed, the room where the wanderer is sheltered, the sick chamber and the prison cell may be flooded by the light of the Christly presence.

In Christ's Stead.—It is a common incident for one going on a journey to carry a letter of introduction from a friend to some one in the city to be visited introducing the bearer of the letter to an acquaintance of the friend in the home city. It generally reads: "Any attention or courtesy which you can extend to ——— will be considered a personal favor." That is, the one to whom the letter is sent has an opportunity of serving the friend in the distant city by rendering kindly attention to the bearer of the letter. When Prince Henry came to this country it was as the representative of Emperor William, and all the official courtesy extended to him was rendered in the name and for the sake of the ruler of Germany by substitution, the American people were serving the emperor. These illustrations, in a measure, set forth the way in which Christ can be served. By substitution. Christ can reach human need only through human instrumentalities, and the disciple can only serve Christ by serving others, by serving "the least of His brethren."

This is a wonderful thought, that the Christly presence may be found in the most humble, crying human need. Notice that in Christ's earthly ministry it was in the unexpected places and the most humble and distressing cases of human need to which Christ ministered. It was blind Bartimeus by the wayside; it was the woman who touched the hem of His garment while the multitudes thronged Him; it was the foul leper that came and fell at His feet; the outcast and those in all manner of distress that felt the Divine touch and went away rejoicing. And Christ to-day calls His followers to seek in the unexpected places and amidst the distressed multitudes for opportunities of serving Him. He is waiting in such places to be served. What a comfort it should be to us for Him to recognize the giving of the cup of cold water, the food, the raiment, the shelter, the touch to the fevered brow in the sick room, the kindly word spoken within the prison walls, things the poorest and weakest of Christ's disciples can bestow, while those who are boasting of the great things they have done in His name, the uttering of prophecies, the casting out of devils, the doing of many wonderful works, are banished from His presence with the rebuke: "I never knew you; depart from Me, ye that work iniquity."

Christ taught and emphasized the lesson of humble service, and declared that he who would be greatest among them let him be as the servant of all. The glory of the transfiguration on the mountain top and the conversation with Moses and Elias were not allowed to shut out the need of the lunatic son. The pain and agony of the cross could not shut out the loving thought for His mother, or stifle the cry of the penitent thief. Even the formality of the dinner in the house of the rich Pharisee could not keep Him from ministering to the need of a sinful and outcast woman. The great fact was not that He had dined at the house of a rich Pharisee and had talked with men of influence and authority, but it was that a brand had been plucked from the burning and a woman set to rejoicing whose song will continue to ring through the courts of Heaven throughout eternity. The greatest fact in regard to our Christian service is not that you or I are prominent in church circles, that we have great responsibilities resting upon us, that large audiences depend upon us for leadership, but it is that in the unexpected places, at the unexpected times, we may meet Christ in the person of a needy soul by the wayside and be Christ's messenger of loving, helpful service. It is possible to be so occupied with the great things, as we consider them, in the service of Christ as to shut out the real presence of Christ and prevent us from performing the humble service which will call forth some day from the Master's lips: "Inasmuch as ye have done it unto one of the least of these, My brethren, ye have done it unto Me."

The preacher whose sermon is of more importance than the call of distress from some humble parishioner has shut Christ out of his study and missed more good material for stirring sermons than he can scrape together out of his books after months of study. The church member, the Sunday school worker, who is so intent upon reaching the house of God as to hastily pass by the case of need by the roadside has thoughtlessly missed the presence of the Christ and will fail to find Him in the meeting house. The rush of getting ready for church or Sunday school, with its so often attending impatience, may lose us the blessing of meeting Christ in the home, and certainly prevent us from feeling His presence in church or class room. The Sunday clothes that are too nice to be soiled in ministering to the needy may make one feel at home in the fashionable church, but they may shut the wearer out of Heaven. Better to soil your hands and ruin your clothes and meet the Christ by a visit to the sick room or the prison, than to preserve your immaculateness and receive the bowed greetings of a host of fashionable friends. Better to put your arm around the drunkard and lead him to God's altar to meet there with you the Christ than to walk apart from Christ with the greatest man that ever received the honors of the world. Oh, disciple of Jesus Christ! Don't set the bounds where Christ shall meet you. Don't confine Him to the church or the class room, or the home, or the closet; don't look for a meeting with Him only on Sunday and prayer meeting night. If you do you may never meet Him, and you will be among those to whom He will say some day, "Depart from Me, for I was an hungered, and ye gave Me no meat; I was thirsty and ye gave me no drink; I was a stranger and ye took Me not in; naked, and ye clothed Me not; sick, and in prison, and ye visited Me not." Learn the lesson of exalted service, see the opportunities of serving the very Christ Himself in the lowly and needy places, for

"To comfort and to bless,
To find a balm for woe,
To tend the lone and fatherless,
Is angels' work below.

"The captive to release,
To God the lost to bring,
To teach the way of life and peace,
It is a Christlike thing.

"And we believe Thy Word,
Though dim our faith may be;
Whate'er for Thine we do, O Lord,
We do it unto Thee."

John Williams, who passed through the Spanish war and a campaign in the Philippines unscathed, is a disgusted soldier. He was knocked out by the kick of a horse in Washington the other day and announces it as his opinion that a battlefield is a much safer place than a stable.

Maj. William H. Lambert, of Germantown, Pa., has in his library a piece of a tin trunk five feet in height and 18 inches in diameter, taken from the battlefield of Chickamaugh. There are 11 pieces of metal in it, all shot fired during the terrible struggle there. The shot vary in size from an ordinary rifle bullet to a big cannon ball.

The gallant cavalryman, Lord Dundonald, who relieved Ladysmith and is now about to become head of the Canadian militia, is not in favor of the present system of garrisoning colonies with regiments from the United Kingdom. He would have each colony raise its own troops and look after its own fortifications. He also thinks colonial officers should be appointed to such positions as he is about to assume.

Miss Nettie Blackmore, Minneapolis, tells how any young woman may be permanently cured of monthly pains by taking Lydia E. Pinkham's Vegetable Compound.

"YOUNG WOMEN:—I had frequent headaches of a severe dark spots before my eyes, and at my menstrual periods I suffered untold agony. A member of the lodge advised me to try Lydia E. Pinkham's Vegetable Compound, but I only scorned good advice. I felt that my case was hopeless, but she kept at me until I bought a bottle and started taking it. I soon had the best reason in the world to change my opinion of the medicine, as each day my health improved, and finally I was entirely without pain at my menstruation periods. I am most grateful."—NETTIE BLACKMORE, 28 Central Av., Minneapolis, Minn.

Painful Periods

are quickly and permanently overcome by Lydia E. Pinkham's Vegetable Compound. The above letter is only one of hundreds of thousands which prove this statement to be a fact. Menstruation is a severe strain on a woman's vitality,—if it is painful something is wrong. Don't take narcotics to deaden the pain, but remove the cause—perhaps it is caused by irregularity or womb displacements, or the development of a tumor. Whatever it is, Lydia E. Pinkham's Vegetable Compound is guaranteed to cure it.

If there is anything about your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

Details of Another Case.

"DEAR MRS. PINKHAM:—Ignorance and carelessness is the cause of most of the sufferings of women. I believe that if we properly understood the laws of health we would all be well, but if the sick women only knew the truth about **Lydia E. Pinkham's Vegetable Compound**, they would be saved much suffering and would soon be cured.

"I used it for five months for a local difficulty which had troubled me for years, and for which I had spent hundreds of dollars in the vain endeavor to rectify. My life forces were being sapped, and I was daily losing my vitality.

"**Lydia E. Pinkham's Vegetable Compound** cured me completely, and I am now enjoying the best of health, and am most grateful, and only too pleased to endorse such a great remedy."—Miss JENNIE L. EDWARDS, 604 H St., N. W., Washington, D. C.

Mrs. Pinkham, whose address is Lyn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women.

The Preferred Stock of the

W. L. Douglas Shoe Co.

Capital Stock, $2,000,000.

$1,000,000 Preferred Stock.

$1,000,000 Common Stock.

Shares, $100 each. Sold at Par.

Only Preferred Stock offered for sale.

W. L. Douglas rebates all Common Stock.

The Preferred Stock of the W. L. Douglas Shoe Company pays better than Savings Banks or Government Bonds. Every dollar of stock offered the public has behind it more than a dollar's worth of actual assets. W. L. Douglas continues to own one-half of the business, and is to remain the active head of the concern.

This business is not an undeveloped prospect. It is a demonstrated dividend payer. This is the largest business in the world producing Men's Good Year Welt (Hand Sewed Process) shoes, and has always been immensely profitable. There has not been a year in the past seven when the business has not earned in actual cash more than the amount necessary to pay 7 per cent annual dividend on the preferred stock of $1,000,000.

The annual business now is $5,000,000, it is increasing very rapidly, and will equal $7,000,000 for the year 1903. The factory is now turning out 1600 pairs of shoes per day, and an addition to the plant is being built which will increase the capacity to 10,000 pairs per day.

The reason I am offering the Preferred Stock for sale is to perpetuate the business.

If you wish to invest in the best shoe business in the world, which is permanent, and receive 7 per cent on your money, you can purchase one share or more in this great business. Send money by banker's check or certified check, made payable to W. L. Douglas. If there is no bank in your town, send money by express or post office money order.

Prospectus giving full information about this great and profitable business sent upon application. Address

W. L. DOUGLAS, Brockton, Mass.

BOONE COUNTY RECORDER.

VOL. XXVIII. BURLINGTON, KENTUCKY, WEDNESDAY, OCTOBER 29, 1902. NO. 8

County Correspondence.

WALTON, Oct. 25.—Miss Alice Laws has had a severe case of inflammatory rheumatism.

Walter Wilson was in town a few minutes the other day.

Robt. Whitcomb has opened a tinshop next to the Whipps Tob House.

John J. Richards has taken the store lately occupied by Robt. W. Jones, who has moved his grocery to the store in Odd-Fellows' building.

In the early part of last week Chas. Slater visited the town in loving remembrance of his having lived here. A few days afterward, Bishop Garfield, also paid it a visit.

Our workmen are appreciated in every part of the country. John Fink has just finished an extensive job of painting for Arch McClure, of Grant county, near Crittenden.

E. P. Holder is very low and appears to be in a comatose condition. His daughter and son-in-law, M. N. Northcutt, are unremitting in their attentions. The worst is apprehended.

S. W. Beverly has rented the beautiful cottage of H. C. Diers on High St., Mr. Diers moves into the King House, which will be opened to the public as soon as the alterations and repairs can be made.

Jovial Joe Reed and his partner, Henry Noel, have been hard at work, this week, on an extensive job for Hou. L. W. Lassing, near Union. Go in boys and bear in mind that if you do as he directs, he will not only pay well, but in his satisfaction with your compliance with his ideas he may enlarge the amount of work to be done.

The cutting down of the two old locust trees in front of the King House by H. C. Diers seems to have been an inspiration to A. M. Edwards, as two or three ugly, scrawny trees were downed and removed almost simultaneously from the front of the Phoenix Hotel, and both houses show much the better in the absence of the scraggy and almost leafless snags whose usefulness in the matter of shade had long ago been gone.

Our townsman, John R. Craven, is getting considerable work away from home, having finished a handsome concrete pavement, last week, for Guy Collins from his house to the Gardnersville pike near Crittenden. He will also contract some nice walks for W. C. Metcalfe in Crittenden itself as soon as he can finish the work for H. C. Diers in front of the King House here. Craven is also finishing a difficult street crossing where high street debouches into Main st., also in this place.

There is a movement on foot among many of our property holders to organize a "Protection Fire Insurance Co.," on lines similar to that of the "Farmers' Fire Insurance Co.," of Boone Co., which has given the utmost satisfaction to the farmers ever since its introduction more than a quarter of a century ago. The promoters of this, taking the working of the Farmers' Insurance Company as a basis, are prepared to show that not only is there a great saving in the amount of money paid as premiums, but that the mode of adjustment is more equitable and more speedy than is usual in foreign companies.

Wm. Rassler, last week, finished the concrete paving in front of the residence of Mrs. Ruth Hind—making an almost continuous line of handsome and durable pavement from Locust street to the heart of the town. And be it remembered that all this pleasing improvement was inaugurated by a German, Jacob Kipp, who conceived the idea of improving his own piece of property while the more prosperous American fellow citizens were intent on getting more property which they had no intention of improving. Until it was seen it greatly enhanced the value of Mr. Kipp's property, not one of them made a move.

Oct. 26.—The immortal soul of Edward P. Holder passed from its earthly tenement on Saturday the 25th inst., in the presence of his adoring family and near friends. He had suffered for months with heart disease and the close of his life was not unexpected by himself or family. Everything that loving hearts could do was done to alleviate the pangs which accompany the parting of the soul from its earthly enclosure. Mr. Holder had many friends greatly endeared to him by his gentle demeanor and steadfast kindliness of disposition. He leaves a widow and one daughter and both are bowed with the deepest sorrow. He will be buried this afternoon at 2 p. m., in the Baptist cemetery alongside of the remains of a beloved son, who preceded in the dim valley some years ago. Mr. N. M. Northcutt, his son-in-law, has been very assiduous in caring for him during the trying last days and was all that a son-in-law could possibly be to the dying man. Mr. Holder requested that there should be no flowers nor funeral sermon over his remains.

PT. PLEASANT, Oct. 25.—J. H. Walton attended the Grange meeting at Union, Tuesday.

H. W. Northcutt was calling on friends at Hebron, Sunday.

Marion Ranshaw, of Ludlow, is the guest of friends, near here.

Miss Eva Riggs, of Erlanger, is the pleasant guest of Mr. and Mrs. Homer Riggs.

Mr. Stansifer, who has been sick for several weeks, is still in a critical condition.

Mr. and Mrs. Scott Cain, of Banklick, were guests of William Fenelson and family, Sunday.

Mr. and Mrs. Howard Tanner entertained several friends with a sumptuous dinner, Thursday.

Mrs. Hattie Groger and Mrs. Robt. Northcutt, of Crescent, were visitors at Point Pleasant school, Friday.

Mrs. Olevia Riggs, who has been spending several weeks with relatives near here, will return to her home in Birmingham, Alabama, Wednesday.

COMMISSARY, Oct. 25.—Mrs. Minnie Kelly visited her mother, Mrs. Georgia Louden, last Saturday.

H. P. Parsons sold two milch cows, last week—$68 for the two.

H. P. Parsons is building a new barn. Tom Marshall is doing the work.

Samuel Hall and wife were guests of Wm. Goodridge and wife, Sunday.

Clyde Berkshire and wife spent Monday night with Ed Botts and sister.

W. I. Rouse and wife were visiting in Buffalo neighborhood, last Sunday.

W. I. Rouse has the nicest field of growing wheat between Bellevue and Burlington.

Quite a number of Mrs. Eugene Kelly's friends spent the day with her, last Thursday.

T. J. Walton is done sowing wheat, and has his force of men at work building his ice-house.

Wilber Scott and Miss Nellie Martin, of Burlington, were calling on Miss Maud Scott, Sunday evening.

If the girls in this vicinity would be more explicit in directing they would not be so liable to disappointment on Sunday evenings.

Lyra Bondurant and wife spent Friday and Saturday of last week with his brother and sister-in-law, Glen Crisler and wife on Gunpowder.

A couple of Aurora's business men passed here, Saturday evening, intending to spend the night with this quill-driver, but as he was not at home they went down and took supper with W. T. Ryle and went on to McVille.

The hop given by Charley Clore at I. O. O. F. Hall, Bellevue, Tuesday night, was quite a success. The elite of Petersburg, Burlington, Lawrenceburg, Carlton and Bellevue were in attendance. Music was furnished by Petermau's band from Aurora.

Readers of the RECORDER, be sure to remember that the editor wants your help in making it just what you want it to be—the best county paper in the State. Take the interest in it that you would if it were your own—as, indeed, it is. If it pleases you tell him so; very often words of honest appreciation are like a cup of cold water to a thirsty man. Do not withhold them. Many of us lose the opportunity of saying a kind word by waiting to weigh the matter too long; our best impulses are too delicate to admit of much handling. If we fail to give them expression the moment they rise they evaporate and are gone. Whether we think it or not, whether we intend it or not, we are daily brighteuing the lives of others with our sunbeams, or darkening them with our shadows. Let those who imagine that their power in the world is insignificant, take this truth to heart. Each one, however humble, can shed a real happiness upon the world, one that will go on reproducing itself far beyond, by sharing his own cup of bliss with others, by communicating to those around him his troubles, but his griefs, not his fears, but his pleasures, joys and hopes; not his worse, but his better side. Look at the sunny influence of a happy, unconscious child that never thinks of concealing its love, but lets it bubble forth in childish laughter; who can resist it? If in manhood and womanhood we lose this charming unconsciousness and learn to hide much of ourselves under a veil, let it be that part that most afflicts others and adds to their unhappiness, while we gladly and freely express all that is noble and good, excellent and true, gladening and inspiring. Readers, help your neighborhood correspondent. If you know any news of interest report it to him. Help him to make his or hers the best items in the paper. We thank those that helped us in the past, and promise with their assistance in the future, the Commissary shall be well up in the front, and that we'll do all in our power to make the RECORDER a paper that all may justly feel proud of.

TAYLORSPORT.—Lloyd McGlason is attending dental college in Cincinnati.

Mr. Bickelheimer sold his steamboat to Newport parties.

Herby Loze is recovering from injuries received by falling off of a load of lumber coming from the city.

The remains of Denny Harrison, who died on the 23d, were interred in Valley View burying ground, Saturday.

Miss Estelle Sederburg has returned to Louisville, where she is attending the University of Louisville Medical Department.

From the observation in passing through Hebron, last Saturday, your correspondent concludes that the Moundfield Farm scribe is the dude of the field he surveyed.

RICHWOOD, Oct. 27.—M. L. Tanner and family spent Sunday with Walter Grubbs.

Mrs. Johanna Harvey is on the sick list.

The trains were late here Saturday night.

Mrs. Jackson is able to be out after a severe illness.

B. Stevenson, of Covington, was a guest of M. Grubbs, last week.

About 25 delegates of State Grange got off here Tuesday morning.

Albert Tanner and others will give a private "hop" at Union Hall, Wednesday night.

J. McGuire, of Robertson county, was a guest of Walter Grubbs, Tuesday and Wednesday.

The people that missed National Master Jones' speech on Tuesday evening missed a treat.

State Lecturer Walker and wife, of Hopkinsville, were guests of D. B. Dobbins, Wednesday night.

Members of Excelsior Grange are earnestly requested to be present at next meeting and delegates are expected to report.

BIG BONE, Oct. 28.—Wm. Isbel, the gate keeper on the Beaverlick and Big Bone turnpike, has resigned his position and will move to Aurora, Ind., in a few days, where he has a position. J. M. Baker will move into the toll-house so as to send his children to school at the Springs.

Nathan Conley and wife, of Covington, are visiting relatives in this community. Nace is just recovering from a severe case of typhoid fever and says the air at the Springs has done him more good than all the doctors.

J. M. Baker threshed a crop of timothy for W. L. H. Baker the past week, and the seed at the market price would more than pay for the hay, and the hay is cleaner and better after threshing than it was before.

Everybody is very busy getting their winter supply of coal off of the flat that was stranded at the mouth of Big Bone creek. Wm. Huff, the coal merchant, of Hamilton, having purchased all the coal he could get out, and is selling at 10c per busbel.

One of Covington's dudes drove out last Sunday, in the rubber-tire buggy to call on one of Big Bone's favorite belles, but when he arrived he found one of Big Bone's sons of toil setting back in the parlor and the way he went back we are inclined to think that it pays to be a hard working boy than a "5c dude."

VERONA, Oct. 25.—The District Teachers' Association met at Verona, at 10 a. m., and was called to order by Superintendent Snyder. Devotional exercises were conducted by Bro. James Hind.

Miss Anna Lee Wolfe, principal of Verona public school, in a very pretty little speech, gave the teachers and all present a most hearty welcome; after which she opened the exercises with an essay, "Music in the Public Schools." Mr. Dickey, of Walton, opened the discussion. He thinks music should be taught in the public schools as a branch. Mr. Snyder indorses fully the argument in its favor, but thinks Kentucky schools are not yet ready for it, as our curriculum is already too full.

Au essay, "The Study of History an Incentive to Patriotism," by Miss Coffman was practical and to the point. Mr. Newman spoke of the value of historical biography, and how it may be made equally as interesting, and far more beneficial than fairy stories, even in the primary grades. Mr. Dickey argued the value, not only of the history of our own country, but that of the tribes and of other nations—their rise from barbarism to the civilization of the present day, will arouse a spirit of patriotism in all who make a thorough study of this question. Mr. Snyder thinks enough Civil Government is found in the careful study of history to supply the public schools without the use of a text book. Trustee J. R. Johnson says, "do away with primary history, but keep the Civil Government.

Instrumental solo, Marching Through Georgia, by Miss Carrie Myers.

Miss Katie Clayton being absent, Mr. Newman discussed the subject, "Necessary Qualifications for a Successful Teacher." He says a thorough education, love of the work, love of children, love of humanity, "select teachers who are aiming to make the profession a life work, and pay them a salary that will give them the advantage of more thorough knowledge and better preparation for their duties."

Miss Bedinger being absent, a valuable paper prepared by her, "The Importance of Mental Arithmetic," was read by the secretary, and the subject was interestingly discussed by Mr. Newman, Miss Rouse and Mrs. Coffman. Mr. Newman introduces a written analysis when the pupil reaches fractions. Mrs. Coffman teaches mental arithmetic, as mental work from start to finish, making practical only a help to mental, even to the doing away of practical.

Adjournment for dinner.

After a sumptuous repast served by the ladies of the district, the meeting was again called to order, and the exercises continued by a song, Battle Hymn of the Republic.

The subject of Proper Classification in the Grades, was introduced by Miss Carrie Myers. Her paper was an able one, and highly appreciated. Mr. Dickey thinks our country schools should be graded. Mr. Snyder indorses his views, and will make an earnest effort, during his administration, to bring about a system of grading for this county.

Recitation—Too Late for the Train, by Miss Mary Hind.

Miss Jeanette Chambers brought out the great value of Supplementary Reading in the Primary Grades, in her own modest way—"It brings relief and real recreation—is condusive to culture and good scholarship." Miss Myers, in a short talk, urged the value of a public school library.

Recitation,—Joshua in 1776—Miss Irene Hudson.

Compulsory Education, by Mr. Snyder, was much appreciated. He does not think that we can ask for compulsory education until we have a better school system, longer terms and more thorough work, better apparatus, &c. But what we do want is more money to bring about this better system, and as our people are an appreciative people, we will then need no compulsory educatiou, but the patrons will enter fully into the work, and the cry of non-attendance and lack of interest will be hushed. The public school sentiment is growing, and as the people become interested, the work will progress in proportion.

By request of trustee Johnson, Article 158 of School Law was read and explained by Mr. Dickey.

Recitation—Fare Ye Well, Bro. Watkins—Mr. Elmer Myers.

In behalf of the Association Mr. Snyder thanked the audience for their attendance, interest and sympathy in the public school work, the ladies for their hospitality, and Misses Wolfe and Myers for thn musical and literary portion of the program.

Misses Hudson and Hind and Mr. Myers impress us with the fact that the Verona schools are not lacking in oratory and physical culture.

After a song, "Our Old Kentucky Home," adjourned to meet again at Point Pleasant November 1, 1902.

SECRETARY.

LIMABURG, Oct. 23.—Cribbing corn has begun.

Geo. Baker entertained several of his friends, Sunday.

Mrs. Elizabeth Aylor, reported very ill last week, is some better.

Wm. McGlasson, of Hebron, was the guest of Wm. Quigley, Sunday.

Jas. M. Utz has been dreaming what the exact vote in Ohio next Tuesday will be.

W. J. Utz sold 2 Thirwind hogs that weighed 810 pounds, at $3 80 per 100 pounds.

Mrs. John Poston, of Dayton, Ohio, was visiting friends here last Sunday and Monday.

Sam Pettit and wife, from down on Gunpowder, were guests at James Pettit's, Sunday.

Chas. Crigler and sister, Miss Anna, have returned from a visit to their sister at Bellefountaine, Ohio.

Mrs. F. Riddell arrived home yesterday from a visit of six weeks to her sister and other relatives in Missouri.

YDLEWILD.—R. C. Dalues has placed a patent gate at the entrance to his home.

Mrs. Edgar Cropper has been visiting her daughter at Hume City.

Robt. Willis and wife, of Big Bone, are guests at Thomas Whitaker's.

Rev. Sproles and wife dined with Courtney Walton and wife, Sunday.

Mrs. J. T. Gaines entertained a large number of friends after church, last Wednesday.

Owen Allen's sale was well attended. Prices for stock and farm produce were unsatisfactory.

Samuel Pope, wife and daughter, of Waterloo neighborhood, visited at Ed Rice's last week.

Miss Youell, of Pt Pleasant, is giving satisfaction here as a teacher. She has 15 pupils enrolled.

Mrs. Fannie Randall, daughter and sister, of Piattsburg, attended church several days last week.

Mesdames B. W. Adams and Belle Brady, of Burlington, attended church at Bullittsburg, last Thursday.

Mrs. W. O. Kirtley, of Lawrenceburg, was welcomed by her many friends at church, Friday night.

Fletcher Clore's best horse bursted a blood vessel, a few days ago, and died in the harness coming from the city.

We all welcome Mrs. Sallie Calmes, of Fayette county, as a neighbor. She is improving the T. P. Crisler homestead for a future home.

Miss Alberta Gaines entertained Miss Taylor, of Owensboro, Miss Sleet, of Cincinnati and Miss Bagby, of Walton, several days, last week.

Miss Pauline Winston is at home after a visit of two months to Shelby and Carroll counties. She reports Miss Sadie Kirtley's health as no better.

Rev. J. A. Kirtley attended the Jubilee of the Big Bud Baptist church, of Louisville, it being the 70th anniversary. He was that church's third pastor, serving it three years, beginning in 1849.

October has been a very beautiful month, and all have appreciated the beautiful weather during the services conducted at Bullittsburg church by Rev. Hail, of Lexington, who is a zealous, scriptural preacher. His sermons were never surpassed in our church. Friday the pastor baptized Carrie Graves, daughter of M. T. Graves.

BEAVER LICK, Oct. 21.—"Uncle Bud Weed" Sleet has moved into the toll-house here and will take charge of both pikes about Nov. 1.

John Hoit moved to the farm of Dan Bedinger, Monday.

The Smith Bros., James, Ike and Harmon, have moved into the house of Paris Stone on Mullick creek.

Col. Will Wilson had a select force of hands on the Union grade, last Monday, repairing some damaged places in the road.

This is accounted the finest fall the farmers have had in this locality for some years. Grass and small grain are looking fine.

Mr. Charles and Miss Laura Roberts, of Verona, and Mr. Howe and Miss Nellie Cleek were calling on Miss Maud Hume, Monday.

Mrs. Lulie Dudley and daughter, Dorothy, of Pueblo, Colorado, are visiting her parents at her old Mingle-wood home. She speaks highly of her adopted State, but still loves the scenes about her "Old Kentucky Home."

Oct. 27.—A drummer, who stopped over at Geo. W. Ossman's, last Thursday night, had very bad luck, as his horse died that night.

Willie Moore and his two sisters were last Sunday visiting relatives at Glencoe, Gallatin county.

There was preaching at both Fair View Christian church and Hughes' Chapel, Sunday morning.

Boodle Humes sold on the Cincinnati horse market, last week, four fine horses for which he received good prices.

Mrs. Wm. Griffith entertained quite a large number of her lady friends in a royal style at her pretty home, last Thursday.

Mrs. Carrie Carroll and grand daughter, Maud Hume, were visiting at Mrs. Nancy Johnson's, of McCoy's Fork, last Saturday and Sunday.

James Smith is negotiating for property in Beaver, and if successful in the deal will, at an early date, open a general store here, in connection with his huckster business.

Sheriff Allphin spent the day, last Monday, here collecting taxes. Now if there is any one person the old farmer gladly welcome in his vicinity, it is the tax gatherer. His annual visits are a source of great pleasure.

The largest and most enjoyable, old fashioned country dance of the season, was pulled off at the elegant home of Phil Stapleton, of Mudlick, Saturday night. Music was furnished for the occasion by the Beaver string band.

Bang, bang, bang goes the old fooling piece, day in and day out—meat is scarce and rabbits are hunted continously to fill its place. They are reported very scarce, but occasionally the hunter "doth one bag" which is dressed and served as a rare tidbit for the table.

Robert Conley, one of Beaver's most genial, retired farmers, has gone to Greencastle, Ind., to spend the winter with his two married daughters. Some who have been closely watching Bob's social movements lately, predict that he will return in the spring hitched in double harness.

Rev. H. R. Mills, pastor at Hughes' Chapel, is sorry to announce to his parishioners and friends that his wife, who has been an invalid for the past four months, is now confined to her bed at the home of her father in Lincoln Co., and will not be able to reach here this winter, unless a very great change in her health should occur. He therefore offers for rent the lovely new parsonage at Hughes' Chapel and would board with the rentor at the manner or not, as they preferred. This is a good opportunity for a small, respectable family to secure a splendid home.

PETERSBURG, Oct. 27.—William, son of Capt. Elihu Alden, got his collar bone broken while playlug in a game of foot ball at Aurora, Saturday afternoon. The fracture is said to be a very bad one.

Mr. Guissinger, who lives on the Jenkins farm, found seven of his cattle dead in the pasture this morning, while two others were in very bad shape. It is supposed that they ate paris green from a pan which George Bachelor left sitting on a stump in the pasture where he had been using it on his tobacco. Only a few days since Mr. Guissinger had two or three cows killed by a portion of a straw stack falling on them.

There was an exciting runaway out on the pike Saturday night. William Berkshire, Jonas Stephens and Robert Terrill and mother were returning home from church, and when near the foot of the Walton hill their horses became frightened at a fire used by a camper on the side of the road. The horses wheeled and in a few seconds there was a general mixup with the horses and the three vehicles. How the occupants of the buggies managed to escape with but slight injuries is little less than a miracle. The buggies were badly wrecked.

Oct. 28.—Miss Nora, daughter of Jas. L. Green, is very low with typhoid.

C. C. Hughes is on duty here.

T. B. Mathews has gone to Nashville.

Miss Bess Martin, of Aurora, is visiting at Ben Belden's.

Ira, little son of John North, is very ill of typhoid fever.

Miss Bessie Barnett, of Covington, is visiting relatives here.

John Sebree has moved to Pete and is occupying the Rucker property.

Jonas Stephens has returned from a visit to Washington and New York.

Dave Wharton and John Guisler are attending a K. of P. meeting at Louisville.

Mrs. Chas. Foote and children, of Cincinnati, are visiting at J. W. Weindell's.

Jno. Snelling fell from a scaffold at the Lawrenceburg distillery and broke his wrist.

Mrs. Brown, of Trimble county, is here waiting on Mrs. Bradley, who is very sick.

Capt. A. B. Parker is attending a meeting of the Confederate Veterans at Covington.

Miss Bessie Berkshire, of near Burlington, is visiting Geo. R. Berkshire and family.

Mrs. J. W. Berkshire fell down the cellar steps, Saturday night, and injured herself badly.

Capt. Alden's boat was aground in the cbute at Rising Sun, nearly all day last Sunday.

Col. Wm. H. O'Brien, the Democratic war horse, of Indiana, is the guest of Geo. R. Berkshire.

John Helms and son, Ford, of Shelbyville, were visiting his brother, Andrew, here, last week.

Miss Annie Kauffugberg, of Lawrenceburg, is visiting her aunt, Miss Amelia Vessenmeir, at this place.

Mrs. F. L. and C. W. Riley, John Stephens and wife, Mrs. F. L. Gordon and Miss Eunie Willis, of Bullittsville, attended church here, Sunday.

The following persons united with the Christian church during the protracted meeting. Maud Belden, Bilber Belden, Al Nixon, Cora Nixon, Lendell Alloway, Flossie Botts, Stewart Berkshire, Nannie Terrill.

BELLEVIEW, Oct 27.—Miss Estelle Huey made a short visit to her parents from Carrollton, and returned on Str. Louisville, Sunday afternoon.

—M. J. Corbin and family and Wm. Botts and wife, spent last Sunday visiting in Rising Sun.

Albert Snyder and his roommate, A. W. Powell, of Cincinnati, spent Sunday with the former's parents here.

Thanks to him who left the pumpkin at our place without our knowledge or consent. If he will come around Christmas eve we will divide pie with him.

We received a letter from our old friend, D. C. Peck, of Trimble, in which he states that he recently completed the division of 2,400 acres of land in his county, the largest survey ever made in the county.

Glad to hear from you, friend Phillip. Well do we remember when our hearts beat as one and we stood shoulder to shoulder among the unterrified at county seat, working for him whom we thought was the one to carry our cause to victory.

I had the pleasure of Commissary's company, recently, from Burlington, to his place of abode, and learned why his community appreciate him so much he having the mail for all his neighbors, actually doing rural delivery work. Thanks, Bro. C., for your compliment in last issue, at the advanced age of 81 years, 10 months and 11 days. He united with Hopeful church about the year of 1851, and was a most devoted member of that body until death claimed him. During all of his years of service on the Lord's farm he was ready to do and go where duty called him, and his pew was never vacant when his health would permit him to be there, and his daily prayers were that he might be directed by the Almighty hand and that death all things well. During his long illness, while he was in a helpless condition, he was very patient and submissive to the will of the Lord, and among his last words to his son, were, "I know I am going to die. I hate to leave you all but I am prepared to meet my Saviour, and want to go and be at rest, and I want you to live christian lives, and it will not be long until we will meet each other in heaven, where there will be no more parting for ever." He was united in marriage to Lavinia Tanner, Nov. 16, 1843. To this union five children were born: Mrs. Jennie H. Carpenter Mrs. Sarah E. Rouse, Emma F. Floyd, and B. A. Floyd. An infant with mother preceded him to the grave several years. Mrs. Mary E. Rouse and B. A. Floyd are the only surviving members of the family. The funeral services were conducted at Hopeful church by pastor Slater Sunday. He used as a basis for his remarks the 51 chapter and 11 verse Isaiah: "Therefore the Redeemed of Lord shall return, and come [illegible] ing unto Zion; and everlasting [illegible] be upon their head; they shall [illegible] gladness and joy [illegible] mourning shall flee [illegible] were interred in [illegible] the presence of a [illegible] relatives.

GUNPOWDER, Oct. 27.—Moses E. Panner is confined to his bed with heart trouble.

Matthias Floyd, of Georgetown, is visiting in this neighborhood.

P. O. Griffin and family, of Erlanger, were guests at W. R. Tanner's, Sunday night.

Uncle George Utz, who has been on the sick list for several weeks, is some better.

Lewis Rouse and family, of near Union, and Ottis Rouse and family, of Big Bone, were guests of the writer last Sunday.

After an illness of several months, Jacob Floyd passed peacefully away on the 24th inst., at the advanced age of 81 years, 10 months and 11 days. He united with Hopeful church about the year of 1851, and was a most devoted member of that body until death claimed him. During all of his years of service on the Lord's farm he was ready to do and go where duty called him, and his pew was never vacant when his health would permit him to be there, and his daily prayers were that he might be directed by the Almighty hand and that death all things well. During his long illness, while he was in a helpless condition, he was very patient and submissive to the will of the Lord, and among his last words to his son, were, "I know I am going to die. I hate to leave you all but I am prepared to meet my Saviour, and want to go and be at rest, and I want you to live christian lives, and it will not be long until we will meet each other in heaven, where there will be no more parting for ever." He was united in marriage to Lavinia Tanner, Nov. 16, 1843. To this union five children were born: Mrs. Jennie H. Carpenter Mrs. Sarah E. Rouse, Emma F. Floyd, and B. A. Floyd. An infant with mother preceded him to the grave several years. Mrs. Mary E. Rouse and B. A. Floyd are the only surviving members of the family. The funeral services were conducted at Hopeful church by pastor Slater Sunday. He used as a basis for his remarks the 51 chapter and 11 verse Isaiah: "Therefore the Redeemed of Lord shall return, and come [illegible] ing unto Zion; and everlasting [illegible] be upon their head; they shall [illegible] gladness and joy [illegible] mourning shall flee [illegible] were interred in [illegible] the presence of a [illegible] relatives.

EXPRESS TRAIN HELD UP.

The Engineer Was Killed and the Safe Completely Wrecked.

Missoula, Mont., Oct. 25.—Eastbound passenger train No. 2, on the Northern Pacific, was held up near Drummond, Mont., at a place 45 miles from this city, and Engineer Dan O'Neill was killed. O'Neill had been in the service of the road longer than any other engineer. The train, which included mail, baggage and express cars, with nine coaches, arrived at Missoula at 10:20 p. m from Portland and coast cities, and proceeded eastward after a short delay at this station. It arrived after midnight at a place two miles west of Drummond. Here the train was signaled to stop and the engineer accordingly slowed up. While doing so he saw a man creeping toward him over the tender. The man, who was armed, called to O'Neill to stop the train instantly.

The engineer took in the situation at once and, pulling open the throttle, tried to start the train at full speed. The robber divined his purpose and fired at him. The shot took instant effect and the engineer fell dead at his post.

The robber then proceeded to rifle the express and mail cars. He plundered the regular mail and blew open the safe in the express car, which was wrecked by the explosion.

The amount of plunder which he secured is not known at present, but it is supposed to be large.

Word of the attack was sent to Drummond, whence it was telegraphed to Deer Lodge, about 50 miles away. Bloodhounds were sent out at once in charge of trusty men and steps were taken to keep vigilant watch for the robbers.

It was assumed that at least eight men were engaged in the hold up, but the latest advices are that one man alone perpetrated the murder and robbery.

The Northern Pacific has offered a reward of $5,000 for delivery, dead or alive of the train robbers who murdered O'Neill and blew up the baggage and express cars.

SALMON FISHERIES.

The Alaskan Waters to Be Kept Well Stocked With the Fish.

Washington, Oct. 25.—Fish Commissioner George M. Bowers discussed with the president Friday the work of the commission. He informed the president that next spring he expected to send the fish commission steamer Albatross to Alaskan waters to make a thorough investigation of the salmon fisheries with a view to maintaining, and from time to time replenishing the supply of salmon in those waters. Thus far the supply of Alaskan salmon shows no diminution, but it is the purpose of Commissioner Bowers to keep the Alaskan waters well stocked with the fish so valuable to commerce.

IN ARLINGTON CEMETERY.

Remains of Col. William A. Rafferty Laid to Rest.

Washington, Oct. 25.—The remains of Col. William A. Rafferty, of the 5th cavalry, who died last month in the Philippines, were buried at the National cemetery at Arlington Friday with full military honors. Col. Rafferty met his death by falling down a 15-foot embankment as the result of missing the top step of a steep stairway while going to visit an army friend one dark night. The body reached here Wednesday. The funeral was held in the Post chapel at Fort Meyer. A regimental service was conducted by the 2d cavalry, of which the dead officer was a member for nine years.

CHINESE LABORERS.

The German Samoan Company Decides to Import Them.

Berlin, Oct. 25.—The German Samoan Co., with the permission of the government, designs to import Chinese laborers to work on the plantations in Samoa on which cacao is chiefly grown. The company has engaged a former contractor of the New Guinea Co. to proceed to Southern China and engage agricultural workers. The probabilities are that native labor will be wholly displaced by Chinese. The German concessionaries find they can get more work out of Chinese.

MARSHAL O. WAGGONER DEAD.

Some Years Ago He Burned His Extensive Materialist Library.

Detroit, Mich., Oct. 25.—Marshal O. Waggoner, for 60 years a prominent attorney of Toledo, O., and whose conversion from a widely known materialist to an equally aggressive Christian upon the death of his wife, was accompanied by the public burning of his extensive library at Toledo some years ago, died at Emergency hospital. He was nearly 90 years old and had been in a senile decline for several years.

Indian Hanged For Murder.

Sioux Falls, S. D., Oct. 25.—Walking Shield, a Rosebud Indian, was hanged here Friday for the murder of Mrs. Ghost-Face-Bear on the Rosebud Indian reservation, May 8, 1902. On the way to the gallows the Indian joked with the marshal.

Elected a Bishop.

Philadelphia, Oct. 25.—Rev. Sheldon Munson Griswold, rector of Christ church at Hudson, N. Y., diocese of Albany, was Friday elected missionary bishop of Saline, the western district of Kansas.

WEST INDIES TREATY.

On Second Reading the Danish Landsthing Rejects It.

News of the Rejection of Treaty Was Received Quietly in St. Thomas—Large Section of the Population Is Disappointed.

London, Oct. 23.—A Copenhagen dispatch states that the landsthing Wednesday rejected the second reading of the bill providing for the ratification of the treaty between the United States and Denmark, which provides for the cession of the Danish West Indies to the United States. The vote was a tie—32 to 32. A popular demonstration followed the announcement of the vote.

Thygerson and Reben, aged 97 and 87 years respectively, voted against the treaty. Both had been expected to die for several weeks past; they were both bedridden at their homes, 150 miles from Copenhagen, but they were brought to the city. Prominent anti-sale political leaders were sent to transport them here. The sufferers, who were accompanied by physicians, were carried into a saloon car which was rolled on to a ferryboat, on which it crossed from Jutland. On their arrival at Copenhagen they were met by leading anti-salers and were driven in carriages to a hotel. There the two old men were guarded and nursed over night and were eventually carried to their chairs in the landsthing hall an hour before the meeting. They had a prompter on hand to assist them in voting.

St. Thomas, Oct. 23.—The rejection Wednesday by the Danish landsthing of the treaty providing for the sale of the Danish West Indies to the United States has been received quietly in St. Thomas and up to the present time there has been no popular expression of feeling or demonstration. The local press has not yet commented on the matter. A large section of the population of the islands is greatly disappointed at the receipt of the news, believing that its hopes of prosperity have been shattered. A smaller, but stronger section of the islanders is jubilant and hopes for a renewal of prosperity under the old flag and with the aid of the motherland.

Washington, Oct. 23.—It is probable in view of the closeness of the vote in the landsthing that the Danish government will decide to make another attempt to secure the approval of the treaty at a more auspicious time. This may be accomplished by the simple device of negotiating with the United States amendment to the treaty extending the time allowed for the exchange of ratifications of the original treaty. This could be done by Denmark without reference to the rigsdag. But as the treaty has been ratified by the United States senate the amendment in our case necessarily would take the shape of a separate treaty and would require approval by the senate, as in the case of the original convention.

BIBLE READING IN SCHOOLS.

Suit Brought to Compel Its Removal at Topeka, Kan.

Topeka, Kan., Oct. 23.—J. B. Billard, a wealthy miller of this city, has brought suit against the board of education to compel the removal of Bible reading from the public schools. Billard's son was expelled from school because he refused to give proper attention during the opening exercises when the Bible was being read. Leading attorneys are on both sides of the case and it is causing much interest in legal circles.

ILLITERATE IMMIGRANTS.

Bill May Be Introduced Excluding Them From the United States.

London, Oct. 23.—In a dispatch from Rome the correspondent of the Daily Chronicle says the Italian government has been informed that the American senate is disposed to pass a bill excluding illiterate immigration from the United States. This news has created much feeling here, says the correspondent, as such a bill would exclude three-fourths of the Italian emigrants to America.

The Cardiff Giant.

Binghamton, N. Y., Oct. 23.—George Hull, who built the "Cardiff Giant," is dead here. Hull, who was something of an inventor, was credited with having manufactured, in 1868, the figure mentioned. It was said to have been made from stone secured near Fort Dodge, Ia.

Fire in a Michigan Town.

Milwaukee, Wis., Oct. 23.—A Sentinel special from Houghton, Mich., says: Fire Wednesday night destroyed the greater portion of the business portion of Massachusetts City on the Copper Range road, entailing a loss of $40,000, partly covered by insurance.

Gen. Bell Coming Home.

Manila, Oct. 23.—Gen. J. Franklin Bell will be relieved of the command of the American forces in Batangas province, Luzon, December 1. He will be succeeded by Gen. Jesse M. Lee. Gen. Bell proposes returning home via Europe.

Visited Grant's Tomb.

New York, Oct. 23.—The crown prince of Siam spent a quiet day Wednesday. He left his hotel at 4 o'clock in the afternoon and took a carriage drive through Central park and then out to Grant's tomb.

PROTESTED HIS INNOCENCE.

State Henry Hanged at the Moundsville Penitentiary For Murder.

Moundsville, W. Va., Oct. 25.—State Henry, colored, was hanged in the penitentiary here at 5:30 Friday night and in 14 minutes was pronounced dead. He protested to the last that he was innocent and wrote a long statement to that effect. Sixty-two persons witnessed the execution. Three ministers attended him, including one of the "Holiness" sect, with which Henry affiliated. Henry killed John Richardson, another Negro, who was working on the Short Line railroad two years ago, on pay day, for the purpose of robbery.

An alleged confession of a man hanged in Pennsylvania was that an innocent man was to be hanged at Moundsville for a murder he had himself committed. As Henry was convicted on circumstantial evidence it was thought he was meant, but the confession was not made so it could be used. The pardon board twice refused Henry aid. The governor did the same and the supreme court confirmed the lower court's decision.

SUBSTITUTES FOR CANTEENS.

Reading Rooms, Gymnasiums and Other Amusements For Soldiers.

Washington, Oct. 25. — Secretary Root has approved a preliminary plan for the expenditure of the appropriation of $500,000 intended to provide substitutes at military posts for the canteen, which has been abolished by legislation. Maj. French, of the quartermaster's bureau, will be the head of the board to complete the plans and two other officers yet to be designated will assist him. The intention is to provide reading rooms, gymnasiums and other amusements for the soldiers. The appropriation was made in the last army supply bill.

COLOMBIAN AFFAIRS.

Situation on Isthmus Is Unchanged—Death Rate Among Soldiers.

Colon, Colombia, Oct. 25.—The situation on the isthmus remains unchanged. Small bands of so-called liberals are seen daily along the line of the railroad. Some of these make bold attempts to collect taxes, levey dues, patrol privileges, etc., as there are no government troops stationed on the line. The death rate among the soldiers of the government now at Panama and Colon is very high. A good many of these troops come from the higher provinces and are not accustomed to the climate of the isthmus.

AN AGREEMENT REACHED.

Differences Between American Tin Plate Co. and Employes Settled.

Pittsburg, Pa., Oct. 25.—Officials of the American Tin Plate Co. and a conference committee of the Amalgamated association held a long session Friday afternoon after the tin workers' convention had finally adjourned, and Friday night adopted an agreement that will allow the American Tin Plate Co. to bid on the tin plate orders of the Standard Oil Co. that are now being supplied by the Welsh manufacturers.

PARISH PRIEST IMPRISONED.

He Resisted the Closing of Unauthorized Schools in France.

Brest, France, Oct. 25.—Abbe Salaun, parish priest at Les Neven, Finistere, was sentenced in court Friday to four months imprisonment and several other persons, including three women, were given various terms in prison for acts committed in connection with the resistance to the closing last August of unauthorized congregationalist schools at St. Meen and other places in Brittany.

SHIPPING ANTHRACITE COAL.

Thirty Thousand Tons Sent From Shamokin Collieries to Eastern Cities.

Shamokin, Pa., Oct. 25.—Thirty thousand tons of coal were shipped from local collieries Friday to Philadelphia and New York markets and 3,000 additional men went to work. A few more non-union men resigned Friday and left the region. The 10th regiment, which is encamped here, expects to be recalled very soon owing to the peaceful conditions prevailing.

MASTODON'S REMAINS.

Full Sized Skeleton Unearthed Nine Miles Northwest of Paris, Ill.

Paris, Ill., Oct. 25.—While digging a ditch nine miles northwest of Paris Charles Fletcher and James Murray unearthed the remains of a full sized mastodon. Seven feet of the right tusk was intact and was attached to the skull. The full set of upper teeth were also well preserved. Those on the right side were attached to the tusk and the upper part of the skull.

Death Marked the Path of a Hurricane.

Buenos Ayres, Oct. 25.—A hurricane has swept over Port Diamante, province of Entre Rios. Fifteen persons were killed and many were injured. A hundred houses were destroyed and several ships were sunk. Nogvoya and other places were also damaged.

Wild Animals Burned.

Tacoma, Wash., Oct. 25.—Many wild animals perished in the recent forest fires that swept the state. At a lake in Clark county hundreds of carcasses of deer, mountain lions, foxes and other animals were found.

THE INDIANA GHOULS.

Cantrell Did Operate at Louisville Notwithstanding Denials.

Body Snatching in Kentucky Is Not Necessary as the State Furnishes All Bodies in a Legitimate Way.

Indianapolis, Ind., Oct. 25.—A letter found Friday by the mother of Rufus Cantrell, one of the grave robbers, corroborates in a measure the statements of Cantrell that he went to Louisville to operate. Physicians connected with the Louisville colleges said they had never heard of Cantrell, and that he was not telling the truth. The Negro prides himself in assisting in the investigation of the grave robbing cases, and he exhibited the letter found by his mother.

The letter in question is dated Louisville, September 12, 1900, is addressed to a prominent city official and is signed by a prominent physician of that city, and reads as follows:

"This will certify that bearer, Rufus J. Cantrell, came to Louisville on a matter of business from a medical college of Indianapolis."

Cantrell showed his letter as evidence that he is telling the truth. He said he was recommended by a letter signed by members of the faculty of the Central college of this city and went to Louisville to go into the grave robbing business, but that he was turned down on account of his color.

"I went to work preparing subjects for dissection in the medical department of the University of Louisville, and at the Kentucky school of medicine. I was in close touch with the gangs, however. About a month later I got ready to come home, and Dr. David gave me this letter to the mayor, who furnished me with a ticket. If you don't believe I was in Louisville ask Taylor & Sons, Milton & Son and William Watson, all of them undertakers."

Louisville, Ky., Oct. 25.—Dr. Edward L. David, registrar of the University of Louisville, said Friday night that he remembered the Negro Cantrell very well. Cantrell came to Louisville with a letter of introduction from an Indianapolis physician, whose name Dr. David does not now recall. Cantrell, the doctor says, was "ready for any kind of work," but the registrar told him that body snatching was not necessary in Kentucky, as the state furnished all bodies legitimately. Dr. David was later instrumental in securing transportation to Indianapolis for Cantrell.

WAR ON ORGANIZED LABOR.

The National Association of Manufacturers Throws Down the Gauntlet.

Chicago, Oct. 25.—The National Association of Manufacturers of the United States of America, through a circular letter being mailed to every manufacturer in this country, declares for war on organized labor and its aims and objects. Particular stress is laid on the efforts of labor to secure the passage of an eight-hour day law before congress, which is called "vicius." Recipients of these letters are asked to become members of this manufacturers' association and the arguments advanced are because the organization is engaged in a bitter, uphill fight against the unlawful demands of organized labor. The letters bear the signature of David M. Parry, of Indianapolis, the president.

HAVANA'S HEALTHY CONDITION.

Not a Case of Yellow Fever in the City For Over a Year.

Havana, Oct. 25.—Dr. Finlay, chief of the sanitation department, commenting upon the health conditions of Havana during the month of September, says the death rate here was 17.86 per 1,000.

With the end of September a full year was completed since a case of yellow fever originated in this city. This is an event which stands unparalleled in the memory of the oldest physician here.

Death of Rev. Daniel Tenney.

San Diego, Cal., Oct. 25.—Rev. Daniel Tenney, a retired Presbyterian minister, died Friday at his home here, aged 61 years. He leaves a widow and four children, one of them being Rev. Charles Tenney, president of the Imperial university at Tien-Tsin, China. At Oxford, O., Dr. Tenney founded the western college and seminary for women. Rev. Tenney had lived here for ten years.

Bids For Franchises in Manila.

Washington, Oct. 25.—The bureau of insular affairs of the war department has received a dispatch from Gov. Taft stating that the Philippines commission has passed an act inviting bids for street railroad, electric light and other franchises, in Manila, the bids to be opened March 5, 1903. The bids will be advertised in this country.

Business Failures.

New York, Oct. 25.—Business failures in the United States for the week ending Thursday, October 24, number 194, as against 203 last week, 233 in this week last year, 161 in 1900, 211 in 1899 and 219 in 1898. In Canada for the week 23 as against 15 last week.

Match Race Arranged.

Memphis, Tenn., Oct. 25.—A match race of $10,000 a side was arranged here Friday night between the pacers Sir Albert S, 2:03¼, and Prince Alert, 2:03¾, the distance to be a dash of half a mile, only one heat.

An Ideal Woman's Medicine.

So says Mrs. Josie Irwin, of 325 So. College St., Nashville, Tenn., of Lydia E. Pinkham's Vegetable Compound.

Never in the history of medicine has the demand for one particular remedy for female diseases equalled that attained by Lydia E. Pinkham's Vegetable Compound, and never during the lifetime of this wonderful medicine has the demand for it been so great as it is to-day.

From the Atlantic to the Pacific, and throughout the length and breadth of this great continent come the glad tidings of woman's sufferings relieved by it, and thousands upon thousands of letters are pouring in from grateful women saying that it will and positively does cure the worst forms of femail complaints.

Mrs. Pinkham invites all women who are puzzled about their health to write her at Lynn, Mass., for advice. Such correspondence is seen by women only, and no charge is made.

BACK TO THE MINES.

Resumption of Work Not as General as Expected.

Mining Was Postponed Until All Parts of the Underground Working Can Be Made Safe, Which Will Take Some Time.

Wilkesbarre, Pa., Oct. 25.—There were 22 more mines in operation in the anthracite region Friday than Thursday, and the output was close to 100,000 tons. The total output Thursday did not exceed 75,000 tons. When in full operation the mines employ in every capacity about 145,000 men and boys. Of this number it is estimated that 82,000 were at work Friday.

A more amicable feeling prevailed Friday between employer and employe than Thursday. The excitement over the commencement of work were off Friday. There was more work and less talk. The non-union men are slowly being displaced at many of the mines and the old employes are taking their places.

The Delaware, Lackawanna & Western Co. continues to lead in production. There are two reasons for this. First, the mines are in good condition and there is less friction between the district superintendents and the men who have returned to work.

The work of clearing up these mines that are filled with debris from falls is being pushed forward as rapidly as possible and the fact that they are not in readiness to operate is a great disappointment to the mine owners. Former Congressman M. B. Williams, one of the largest individual operators in the Wyoming region, said his mines would not be in readiness to resume before next week, but he would take all his old employes, including steam men, back, because they had served him faithfully in the past. The trouble with the individual operators in the Lehigh region is expected to blow over in a day or two and it is said here on good authority that all collieries in the Lehigh and Schuylkill regions that are in good condition to mine will resume next Monday and that all the union miners will be re-employed. The mine inspectors are quite vigilant and they have refused to give permission to the starting up of mines where the superintendents can not furnish satisfactory proof that the underground workings are perfectly safe.

Washington, Oct. 27.—All is in readiness for the meeting Monday afternoon of the anthracite coal strike commission. All the members of the commission are in the city and most of the operators or their representatives are here. The meeting will be called to order at 2 o'clock and the wishes of both parties to the controversey will be considered as to the method of procedure in securing testimony. Plans for holding the public sessions, places of meeting and various other details necessary to be settled before the actual work of taking testimony can be begun will be decided. No testimony will be taken Monday. It is expected that very little evidence will be heard in Washington, as it is not the desire of the commission to compel the attendance of witnesses here, when the evidence they have to give can be secured at greater convenience to them at or near their places of residence.

The commission also will determine whether it will give hearings to persons not having a direct interest in the issues at stake between the miners and operators, but who believe they can give evidence of a practical character that will assist the commission in its work. Considerable evidence of this character was taken by the commission which reported on the Chicago strike, but unfortunately it was not of material value in assisting that body to arrive at its conclusions.

Five of the mine operators or their representatives arrived here about 9 o'clock Sunday night over the Baltimore & Ohio railroad. They included President George F. Baer, of the Reading; E. F. Thomas, of the Erie; John B. Kerr, representing Thomas Fowler, of the Ontario & Western; David Wilcox, of the Delaware & Hudson, and Alfred Walter, representing the Lehigh Valley. They spent the time in the lobby of the hotel chatting, but refrained from discussing for publication their plans for Monday. The operators will hear the ideas the commission has to make for undertaking the work in hand and if necessary will suggest such changes as will best secure the results desired.

Labor Commissioner Wright has been made a voting member of the strike commission. The appointment was made after Mr. Baer, for the operators, and Mr. Mitchell, for the miners, had consented.

President John Mitchell, of the United Mine Workers, who is to appear before the antracite coal strike commission Monday, arrived here at an early hour Monday morning. He was accompanied by District President Fahy.

Morgan's Profits.

New York, Oct. 24.—The year 1902 will be a banner year for J. Pierpont Morgan, for up to Thursday the firm of J. P. Morgan & Co., has cleared $42,190,000 in profits from the great combinations that he has engineered, not counting his other interests.

Washington, Oct. 24.—Postmaster General Payne entertained the president and the members of the cabinet at a dinner at the Arlington hotel Thursday night. The dinner was purely a social function.

BRUNSWICK, GA., FLOODED.

The Center of the City Is Entirely Under Water.

Brunswick, Ga., Oct. 27.—As a result of continued heavy rains for the past 48 hours five blocks in the center of this city were under water Sunday night and considerable damage has been done from Monk street to Mansfield. On Newcastle street, one of the principal blocks in the city, the water has risen into the stores and is from 10 to 15 inches deep. The city fire department house is under water. The jails are both flooded and from Bay to Union streets, a distance of a quarter of a mile, traffic is impossible.

The Brunswick Electrical Supply Co. has been put entirely out of business by the water and not a light furnished by that concern was burning Sunday night.

A heavy northeaster has been prevailing for two or three days and the only reason assigned for the downpour by mariners and nautical people generally is that these gales contributed their share to the deluge. Railroad traffic has been badly interfered with and washouts are reported on the Southern between Brunswick and Jesup and on the Brunswick & Birmingham. All mails are belated.

DIED OF OLD AGE.

Elizabeth Cady Stanton, the Woman Suffragist, Passed Away.

New York, Oct. 27.—Elizabeth Cady Stanton, the woman suffragist, died Sunday at her home in West 94th street in this city. Old age was given as the cause of death. She was conscious almost to the last. About a week ago Mrs. Stanton began to fail rapidly. This became more noticeable last week and then it was known to the family that her death was only a question of days or hours.

The children with Mrs. Stanton when she died were Mrs. M. F. Lawrence and Mrs. Stanton Blatch, of New York; Henry and Robert L. Stanton, of New York, lawyers; Theodore Stanton, of Paris, and G. Smith Stanton, a real estate broker at Warden Cliffe, L. I. The funeral will be held on Wednesday but the hour has not been set. The interment will be in Woodlawn cemetery.

DIAMOND ROBBERY.

Gems to the Value of $8,000 Stolen From a Chicago Store.

Chicago, Oct. 27.—Diamonds valued at $8,000 were stolen from the vaults of the jewelry firm of Wocher & Weinman some time during Saturday night or early Sunday morning. There is no clew to the robbers. The store is located in the Masonic temple, where a watchman is on duty all night, but he claims to have seen no trace of the robbers. The robbery was discovered late Sunday night by a member of the firm who visited the store by chance.

SALE OF FOOD SUPPLIES.

Assistance For the People of Batangas, Laguna and Mindoro.

Manila, Oct. 27.—Twenty-seven thousand dollars have been realized from the sale of food supplies in the provinces of Batangas and Laguna, Luzon, and in the island of Mindoro.

These sales were conducted with the idea of aiding the people and the work was carried on by Gen. J. Frank an Bell. The sum derived has been turned over by Gen. Bell to the insular government and will be expended by the civil commission among the people of Batangas, Laguna and Mindoro.

EXPLOSION OF POWDER

The Fairmont Works Was Damaged to the Extent of $30,000.

Fairmont, W. Va., Oct. 27.—The Fairmont powder works, located 18 miles from this city, was damaged to the extent of $30,000 by the explosion of 600 kegs of powder Sunday. No one was injured. The machinery was completely destroyed and iron was thrown for miles around. Earth was torn up for 40 feet.

To Stop the Fight.

Waterbury, Ct., Oct. 27.—The Christian Endeavor society and the Epworth League of this city held a mass meeting in the First M. E. church and voted to present petitions to Mayor Kilduff and Assistant Attorney John P. Kellogg, asking that they use measures to stop the proposed Young Corbett-Rich bout scheduled here for November 8.

INTERESTING FIGURES

Illiteracy Among Children of Immigrants and Natives.

Between the Ages of 10 and 14 95.6 Per Cent. of Children of Native Parents and 99.1 of Foreign Born Can Read and Write.

Washington, Oct. 27.—The census office has issued a statement giving a compilation of figures regarding illiteracy among children of immigrants and children of natives. The statement says:

Confining the comparison to children between the ages of 10 and 14 years in the United States as a whole 95.9 per cent. of the native white children of native parents and 99.1 per cent. of the native white children of foreign born parents are able to read and write. This surprising [illegible] is due largely to the fact that the children of foreign born immigrants live mainly in the northern and western states where the public school system have already reached a high degree of efficiency, while great numbers of native parents live in the southern states and in that region about 10 per cent. of such children are illiterate. When the comparison is carried out by geographic divisions the difference between the two classes in each part of the United States, except the South Atlantic states, is found to be much less than in the whole country. Yet these figures indicate that in every region except the North Atlantic states the literate children of immigrant whites are a larger per cent. of whole number of such children than the literate children of native whites are of all children of native whites.

This is partly explained by the clustering of immigrants and their children mainly in the cities and towns, while the native white children of native parents live more generally in the rural districts. Thus in the North Atlantic division there are 996,851 native white children, 10 to 14 years of age and born of native parents, of whom 32 per cent. live in cities having at least 25,000 inhabitants. On the other hand, among the 713,170 native white children 10 to 14 years of age and born of foreign born parents who live in similar cities. There is no reason to infer from the census figures that the children of illiterate immigrants are constituting a permanent illitreate class in the population. It will be noticed, however, that the foregoing figures relate exclusively to immigrants who have been in the country long enough for their children born here to have reached the age of 10 years. Whether among the children of immigrants who have arrived since 1890 there is the same eagerness to acquire at least an elementary education it is still too early to determine from census figures.

AN HEIRLOOM.

The First Treasury Note Issued By the United States Government.

Carbondale, Ill., Oct. 27.—An old treasury note, yellow with age and use, the first of its kind ever issued by the United States government, is the heirloom left by his father to A. D. Milhouse, of this county. It is a five dollar greenback and is No. 1 of series "A." It was printed May 10, 1862, by an act of congress in February of the same year. It is signed by L. E. Chittenden, register of the treasury, and W. E. Spinner, treasurer of the United States. The note has been in the Milhouse family since '64, when John Milhouse, father of the present owner, came into possession of it.

CHOLERA SPREADING.

The Disease Has Gained a Strong Foothold on Mindanao.

Manila, Oct. 27.—The cholera is gaining a strong foothold on the island of Mindanao. It is expected to spread there as it has elsewhere in the islands. The disease continues to be bad in the province of Iloilo, island of Panay, but it is light elsewhere. It has disappeared from Manila. The cases reported up to date exceed 100,000.

FEVER AND PRIVATIONS.

Colombian Soldiers at Savanilla Are Dying at An Alarming Rate.

Kingston, Jamaica, Oct. 27.—The German steamer Hercynia reached here Sunday from Colon, Colombia. Her officers report that considerable fighting is going on in the interior of that country, the revolutionists taking advantage of the withdrawal of government troops for service on the isthmus.

At Savanilla the government soldiers are dying at an alarming rate from fever and privations. While the Hercynia was moored at Savanilla there was on the pier the bodies of several soldiers who had died there and the remains had not been removed.

Disease is rife on that side of the coast. The ship's officers had to check their own cargo at Savanilla and do other work themselves, to perform which Colombians are generally employed, it being impossible to get local help. The situation on the isthmus remains the same.

TICKET AGENT MISSING.

It Is Believed He Was Murdered and the Office Robbed.

Carbondale, Ill., Oct. 27.—Frank M. Flagg, ticket agent of the Illinois Central railroad at Texas Junction, on the Cape Girardeau branch, is missing and the contents of the money drawer is also gone. It is supposed that robbers entered the office, killed the agent, took the money and put the body in the Big Muddy river. Traimmen say they saw some men prowling around the building before Flagg disappeared. Officials of the road, however, are inclined to discredit the murder theory. The amount of money could not have been large.

GOV. YATES ILL.

His Temperature Is 103 and a Protracted Illness Is Feared.

Springfield, Ill., Oct. 27.—Gov. Yates returned Sunday night from a three days' campaigning tour in Southern Illinois and Sunday night was confined to his home by illness.

Immediately upon his return to Springfield Gov. Yates was placed under the care of a physician. Sunday night the governor's temperature had arisen to 103. A protracted illness is feared.

STATE NEWS ITEMS.

FROM AMBUSH.

A Young Girl Shot and Killed Near Marion, Ky.

Marion, Ky., Oct. 24.—In the Chapel Hill neighborhood, this county, Miss Williamson, daughter of Horace Williamson, a prominent farmer, was shot and instantly killed by an unknown negro while she was returning from church accompanied by a young fellow named Brown. The assailant was hidden in the woods along the road. Two shots were fired, both striking the young lady, one tearing away the lower part of the face and the other lodging in the shoulder. The barrel of the gun was within five feet of the girl when the shots were fired.

Some time ago Brown and Allie Sisco had a quarrel regarding the young lady, and Brown shot Sisco, wounding him badly. It is thought that some friend of Sisco, seeking vengeance, murdered the young lady, though he evidently intended to kill Brown.

Bloodhounds will be put on the murderer's trail at once. Great excitement prevails. The murdered girl was about 18 and very popular. Brown and a brother of the murdered girl claim to know the assassin.

RAILROADS IN KENTUCKY.

There Are 3,150 Miles of Road Under Operation at the Present Time.

Frankfort, Ky., Oct. 24.—The annual reports of railroad corporations, compiled by the state railroad commission Thursday, show 3,150 miles of road under operation in Kentucky at the present time. The total gross receipts during the year were $26,532,120, as compared with $23,795,414 for 1901. The net receipts are $8,521,037, an increase of $642,569 over the previous year. The total gross receipts of the Louisville & Nashville Co. are $12,547,853, as against $11,269,278 last year. The net receipts are $4,303,994, as against $4,043,030 for 1901. The commission will sit early in November to assess taxes for the year.

THE LATONIA RACES.

Opened Saturday and Will Continue For 25 Days, Sundays Excepted.

Latonia, Ky., Oct. 25.—The fall meeting of the Latonia Jockey club opened Seturday, to continue 25 days, Sundays excepted. Not within the last ten years have the circumstances been more favorable or the outlook more encouraging than at the present time. The biggest and best stables in the west will race there and there will be plenty of bookmakers on the scene to care for the speculators and incidentally liven up the betting game. There are now quartered at the track over 600 head of horses and stables are coming in daily.

EMBEZZLEMENT CHARGE.

J. M. McKnight, Ex-President of Defunct German National Bank, Guilty.

Louisville, Ky., Oct. 25.—A jury in the United States circuit court Friday night rendered a verdict of guilty in the case of J. M. McKnight, former president of the defunct German national bank of Louisville on the charge of embezzling the bank's funds.

Mr. McKnight was twice convicted and sentenced on this charge and on another trial there was a hung jury. The United States circuit court of appeals set aside both convictions on technical grounds.

Boy Burglars Indicted.

Lexington, Ky., Oct. 24.—A special grand jury returned six indictments against Earl Whitney and Claude O'Brien, charging them jointly with the murder of A. B. Chinn here two weeks ago. Three of the indictments charge them with separate burglaries committed here. Two charges each conversely with shooting and wounding Asa Chinn and being accessory thereto. Judge Parker intimated he would try the cases at once.

Secured a Verdict of $6,000.

Georgetown, Ky., Oct. 23.—Mrs. Mary Cecil Cantrill, wife of Judge Cantrill, secured a $6,000 verdict in the circuit court against the Georgetown Water Co. and Col. R. W. Nelson, of Newport, Ky., owner, on the ground that the destruction of her house was due partly to insufficient pressure in the mains to put out the flames.

The Barbourville Well.

Barbourville, Ky., Oct. 23.—The Stanfill well of the Tye Bend Oil Co. is pleasing operators very much in this section. This well is within the corporate limits of Barbourville and came in last week. At the time the oil sand was reached the oil rose several feet in the casing.

The Confederate Home.

Louisville, Ky., Oct. 25.—The confederate soldiers' home will be formally opened November 1. The board of trustees passed favorably upon 15 of 17 applications for admission. Mrs. Fannie M. Girard, of Hopkinsville, was appointed matron.

THE DUNCAN HEAD SHOOTING.

Louisville People Are Extending a Helping Hand to Dr. Duncan.

Louisville, Ky., Oct. 24.—The friends here of Dr. Duncan, who is in jail at Pittsburg for shooting Bruce Head, are offering all the assistance in their power to him. Mayor Grainger and the board of safety members have written the Pittsburg officials concerning Duncan, and no effort is being spared to aid him. While the contents of the intercepted letter were that Head intended for Mrs. Duncan are known only to Head and Duncan, for the letter never reached her. Friends here are advised that Duncan was trying to whip Head with the whip he carried, but the latter proved too strong, and was overpowering him when the doctor fired. Mrs. Duncan is at her home, and refused to see him. It is said she is almost prostrated by the affair.

Pittsburg, Pa., Oct. 25.—The condition of Bruce Head, bookkeeper for Kenefeck & Co., at the Wabash Greentree tunnel, who was shot by Dr. Ellis Duncan, of Louisville, Tuesday night, took a serious turn Thursday night, and it is now more than likely that he will succumb to the effects of his injuries.

IS BECKHAM ELIGIBLE

It Is the Opinion of Leading Constitutional Lawyers That He Is.

Frankfort, Ky., Oct. 25.—That Gov. J. C. W. Beckham is eligible under the state constitution to succeed himself as chief executive of Kentucky is held by former Chief Justices W. S. Pryor and J. B. Hazelrigg, former Gov. J. Proctor Knott, former Congressman William T. Ellis and Col. Lewis McQuown, all leading constitutional lawyers, in an opinion furnished the governor Friday.

The question was raised by former Congressman John K. Hendrick, of Paducah, who recently announced his candidacy for the democratic nomination for the office of chief executive. Gov. Beckham has not as yet made formal announcement of his candidacy for re-election, but will do so within the next few weeks. The Kentucky constitution provides that the governor shall be ineligible for a succeeding term. A term is four years. Gov. Beckham at the close of his present term will have served three years and eleven months.

HAGGIN'S MANSION.

"Green Hill," on Elmendorf Stock Farm, Dedicated.

Lexington, Ky., Oct. 23.—Mr. and Mrs. J. B. Haggin Wednesday night dedicated their mansion, "Green Hill," on Elmendorf stock farm, with an entertainment, which in brilliancy riveled any private function ever given in the south. About 300 guests were present. Dancing in the dining hall was followed by a sumptuous supper, served. After this a cotillion was danced in a hardwood pavilion especially constructed for the occasion. The mansion was erected at a cost of $350,000 and is said to be the handsomest in Kentucky. The decorations were of American beauty roses and lavish. This is the first public function at "Green Hill" and is said to have been the most costly ever given in the state.

Asa Chinn's Condition.

Lexington, Ky., Oct. 23.—Asa Chinn, who was shot and wounded in a fusse with burglars who had killed his father, is now able to walk about the hospital. His broken jaw has healed enough to permit him to speak distinctly, and it is thought that there will be no disfiguring scars from the wounds in his face.

An Appeal For Aid.

Lexington, Ky., Oct. 24.—The board of managers of the orphans' home has issued an appeal for aid, claiming that high prices of foods have caused embarrassment to the institution. They call attention to the fact that foodstuffs in Lexington have almost doubled in price during the past six months.

Charles Powers Gets Life Sentence.

Pineville, Ky., Oct. 24.—Charles Powers, indicted for the murder of Deputy Sheriff Doland in the "Quarter House" battle, asked to see the judge and pleaded guilty, throwing himself on the mercy of the court. A jury was called and he was given a life sentence.

Neither Elected.

Frankfort, Ky., Oct. 25.—The court of appeals dismissed the appeal of the county judge contested election case of A. C. Hayden vs. W. H. Maguire, from Owsley county. The lower court held that neither one was elected and this judgment now stands.

Succumbed to an Operation.

Campton, Ky., Oct. 25.—Sylvester Hauley, a prominent Methodist preacher of this county, died at his home on Stillwater. Blood poison set up from an old sore and it was necessary to amputate the leg.

...RDER CO., RECORDER
... Oct. 29, 1902.
...RUSSELL, Publisher.

For Circuit Clerk.

We are authorized to announce S. E. Tarvin, of Idlewild, as a candidate for Circuit Court Clerk, subject to the action of the Democratic party.

DEMOCRATIC PARTY.

This is the way to vote the Straight Democratic Ticket.

JUDGE TARVIN will speak at the court house, next Monday. He is a fine campaign orator. Come out and hear him.

JUST make the X in the circle beneath the rooster on the ballot, when you go into the voting booth next Tuesday.

THE Christian Scientists say it was they, and not President Roosevelt or J. Pierpont Morgan, who brought the great anthracite coal strike to the present crisis favorable to its ending.

BOONE county has, easily, a Democratic majority of 1,500 and this the figure which the majority of Paynter and Gooch should reach next Tuesday, and will if the Democrats turn out and vote.

THE Democrats of Boone county are relied on to roll up a big majority, next Monday. Paynter, for Judge of the Court of Appeals, and Gooch, for Congress, are entitled to the vote of every Democrat in Boone county.

THE greatest gas well ever struck in Armstrong County, if not in Pennsylvania, is now sending into the air more than 20,000,000 cubic feet of gas every 24 hours, defying all efforts to bring it under control.

IT is said that J. P. Morgan & Co. have, during the present year cleaned up a profit of $42,190,000 in profits for engineering great combinations. The greatest profit was in promoting the U. S. Steel Corporation—$20.340,000.

THE Confederate Home at Pewee Valley was dedicated last Thursday, and was formerly received, by Gov. Beckhem. The exercises were attended by veterans from all parts of the State. They manifested the greatest interest in the institution. Col. Bennett Young was elected Major Gederal commanding, of the Kentucky division, United Confederate Veterans, to succeeded J. M. Poynts.

LAST week's Lawrenceburg Press contained a good picture of Sandford Tuthill, Republican nominee for State Senator. Mr. Tuthill is well known in the Bellevue neighborhood, where he married his wife, a daughter of the late Richard Moreland, who lived at Rock Springs. The press contains two write-ups of Mr. Tuthill, and it is very evident that the writers did not compare notes. In the first article is found the following in regard to Mr. Tuthill's enlisting in the army:

"When the civil war broke out Mr. Tuthill, who was then living near Bellevue, was among the first to respond to the call for 300,000 volunteers in August, 1861. He joined a company of home guards, having been led to believe that they were organized for the purpose of defending their homes in that community, but when the oath was administered and it came to that part requiring allegiance to the Confederacy, he stepped back out of line and appealed to four young friends to do likewise. Together the five crossed the river to Rising Sun and enlisted in Company C, Seventh Indiana."

The above reads very nicely, but when you read the second article and find the same incident of Mr. Tuthill's life recorded as follows, you naturally become skeptical as to the correctness of the same. The second chronicler says:

"...and five war came on and ...ence's sons with others ...preparing to go south to ...the Confederacy and to ...with them some in-stinct told him he didn't belong on that side, and the night before they were to go he slipped out, crossed the river to Rising Sun and enlisted in the Seventh Indiana."

It should be borne in mind that each of the write-ups is for political purposes. That Mr. Tuthill enlisted early in the war and made a good soldier clear through is true, but the recital of the manner in which he left Kentucky is clearly incorrect in each narrative. No oath, such as mentioned in the first article was ever administered to the company of Home Guards at Bellevue. The captain of that company was a notorious union man. As to his crossing the river under the cover of night to enlist, is doubtful, such a proceeding being entirely unnecessary. The boys who espoused the cause of the gray, were the ones who had to leave home and travel at night to reach the Confederate recruiting camps. Mr. Tuthill is entitled to all the good things the writers say about him, but when pretending to write history the historian should not be so careless in handling facts.

Nearly all the agate marbles that wear holes in the pockets of all schoolboys on earth are made in the State of Thuringia, Germany, says the Philadelphia Public Ledger. On winter days the poor people who live in the village gather together small stones, place them in molds something like coffee mills and grind them till they are round. The marbles made in this way are the common china, glazed china and imitation agates. Imitation agates are made from white stone and are painted to represent the pride of the marble-player's heart—the real agate.

There was another stir in local real estate, last week. Everett Hall sold his recent purchase of Tony Bentler to W. E. Vest, who the same day, sold it to Bert Sullivan, taking in Sullivans 7½ acres over on Gunpowder. Hall then bought of Geo. Gordon the house and lot in Burlington, which a few weeks since he traded to Gordon. J. M. Lassing sold a small parcel of ground here in town to Sidney Gaines, and a few acres from W. A. Gaines adjoining the town.

I have had occasion to use your Black-Draught Stock and Poultry Medicine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recommend it to all owners of stock.

J. B. BELSHER, St. Louis, Mo.

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cared by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it be possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.

TWO FARMS FOR SALE.

ONE containing 76 2 5 acres, lays ¾ of a mile from Verona, Ky., on L. & N. Railroad, has necessary improvements and is in high state of cultivation, all in grass except 10 acres (mostly blue grass.) The other lays 3 miles west of Verona and contains 85 acres of upimproved land all in blue grass, except 8 acres, which was in wheat this year, and yielded 100 bushels. Price low and terms reasonable. For particulars address C. L. GRIFFITH,

A BOONE COUNTY REPUBLICAN

Disgusted With the Management of Affairs in Boone County.

WALTON, KY., Oct. 22, 1902.

To the Editor of the Recorder:

With your kind permission, I wish to review, in as brief manner as possible, the insolent and treacherous management of the Republican party affairs in Boone county by Ernst, Lieberth & Co., of Kenton Co., Ky.

Lately we have seen a great deal about party harmony in Republican papers, which is mere twaddle ground out by the employes of the Boss Machine of Covington, Ky., as the following facts will demonstrate as respects the grand old county of Boone:

When Mr. Lieberth, of Newport, was a candidate for Collector of the Sixth District, he said, that the south end of the county had never been recognized, and if he could get the instruction from Boone county, Big Bone Springs could name the Stamp Deputy at Petersburg, and on that promise Big Bone turned out en masse and carried the county for Mr. Lieberth. Then what did he do? Immediately after securing the appointment, he wrote a letter to a gentleman at Walton, saying he had concluded to appoint a man by the name of Graddy, from the north end of the county, to the Stamp Deputyship, and requested said gentleman to assist him in getting all the indorsements for Graddy he possibly could. As soon as the Boone county Republicans heard this, they started a move to check mate Mr. Lieberth, by calling the Republican county Committee together, which unanimously indorsed a man by the name of Baker, of Big Bone, for the place, every member of the committee, even, the one from Graddy's precinct, indorsing Baker. And to show how Baker stands in his own community, suffice it to say. The only time he was ever a candidate before the people, he carried his home precinct by eleven majority, which, on a party vote, is three to one Democratic. The Republicans of Boone county know both men, Baker and Graddy. Baker got the solid indorsement of his home county and Graddy was indorsed by his brother-in-law of Kenton county, who though very wealthy, we claim had no right to say who should be appointed from Boone county. Graddy still holds the office in spite of the people, committee, &c. of Boone county, and as one prominent Republican expressed it to me, we had three good Republicans put out by this same collector, namely: Alden, Blyth and McKim, and put in their place a man objectionable to every Republican in the county.

After viewing the situation with an unprejudiced eye, my advice to our dictatorial Republicans of Kenton county is to stop "hollering Goebelism" and stand only for fairness and justice. An important election is on hand and both Deering and Applegate are good men and should poll the entire Republican vote with that of every liberal minded Democrat, and would under ordinary circumstances, but when our committee is ignored and the masses trampled on, it is high time to take the beam out of our own eye instead of looking for the mote in the eye of our enemy; no selfrespecting Republican can indorse it. Through party fealty and deep seated pride in Republican principles, I shall vote for both Deering and Applegate, but this vote must not be construed in any way as an indorsement of the disloyal and treacherous action of Ernst Lieberth & Co., of Covington, Ky.

JUSTICE.

None of those producers of large corn, who have been saying they can beat Uncle Button Smith's sample, easily, have come to time with the visible proof. He says they must show up or shut up.

The Petersburg ball team were here on time, last Saturday, and gave the Burlington team a trouncing, the like of which it has not received in many a day. Each team did some fine playing, while, on the other hand, each did some very sloppy work. The features of the game on the Petersburg side was Alloway's pitching and Bohn's home run. For Burlington Hughe's brilliant work at short and Slayback's batting were the features. A better live up than that presented by Petersburg would be hard to obtain in the county. Alloway is by many odds the best pitcher the Burlington team ever faced, but he was not invincible, although he kept the hits so badly scattered that they did no harm. A large crowd witnessed the game, and each side had a large number of enthusiastic rooters. Following is the score by innings:

Burlington	0	0	0	0	0	1	1	0	1	—3
Petersburg	0	0	0	2	0	3	3	1	0	—9

Base hits—Burlington, 5; Petersburg, 9. Home runs—Bohn, Slayback. 3 base hits—Fessenmyer, Slayback. 2 base hits—Arnold. Mahan, Roberts, Bullock, Kirkpatrick. Struck out—By Alloway, 9; by Brady, 2. Passed balls—Roberts, 2. Base on balls—Alloway, 1. Time of game, 1 hour and 30 minutes. Umpires—Crisier and Houston. Attendance, 500.

The Burlington team will play a team composed as follows, next Monday: Houston, Gordon, Bentler, Fox, Fessemyer, Arnold, Aylor, Cook, Ernst.

Property at James White's sale, last Saturday afternoon, sold as follows: Cows, 26 to $36; 2 year old colt, $65; 3 year old colt, $79; 35 sheep $166 75; hay 8 or $9 a ton; fodder, 11 cents a shock; yearling steers, $24 50; heifers, about $22 a head.

CHRIST THE BREAD.

Discourse on One of the Six Striking Claims of Jesus.

Figures of Speech Which He Used in Speaking of Himself—Sermon by the "Highway and By-way" Preacher.

(Copyright, 1902, by A. N. Kellogg Newspaper Co.)

Chicago, Oct. 26, 1902.

Text.—"I am the Living Bread which came down from Heaven: if any man eat of this Bread, he shall live forever: and the Bread that I will give is My flesh, which I will give for the life of the world."—John 6:51.

Introductory.—The Gospel as recorded by John is the deepest and most profound of all the four Gospels. Under the inspiration of the Holy Spirit he wrote, "that ye might believe that Jesus is the Christ, the Son of God; and that, believing, ye might have life through His name."

John reverently and faithfully starts his story "in the beginning with God," introduces the reader to the Christ as coexistent with God, and records such acts and words of His as reveal Him as the Son of God. For this reason we find in John's Gospel some most startling, but simple, declarations of Christ in regard to Himself, and which are to be found in none of the other Gospels. There are six of these declarations to which we wish to call your attention, and which, as we have said, are to be found in none of the other three Gospels.

It is to these six declarations of Christ we wish to direct your attention, and the Lord willing, and with His help, we will endeavor to unfold in a series of six sermons, each complete in itself, the marvelous and blessed truth which they contain. May the Lord, by His Holy Spirit, enable us as speaker and hearers to so speak and so hear that we shall come to know Christ as never before, as "the Living Bread of God," as "the Light of the world," as the only "Door" into the fold of God, as "the Good Shepherd," as "the Way, and the Truth, and the Life," and as "the True Vine."—To-day we are to speak of Christ as the "Living Bread."

Text Setting.—The words of our text were spoken by Jesus during a discourse called forth by the feeding of the 5,000 and the subsequent desire and purpose of the multitude to make Jesus their king. The disciples are troubled, for it is a desert place and the 5,000 men, besides women and children, are tired and hungry. In their eagerness in finding Jesus they have recklessly disregarded every physical need. Oh, that to-day we might be as eager to find Jesus! The difficulties which the human reason can offer against the wisdom of such eager search would quickly disappear before the certain blessing and feeding at the hands of the Lord. The great company of people is fed, the fragments are carefully gathered and the disciples sent away across the lake in their ship, while Jesus withdraws Himself to unsecluded spot, for He perceives that, although the stomachs of the people have been filled, their hearts have not been touched, and they would make Him their king for the sake of material blessings. During the night Jesus joins His disciples, walking to them upon the sea, and teaching Peter and the rest of the disciples that great lesson of faith. But before the day has fairly begun the multitudes come flocking back to the city seeking Him. Then it is that He rebukes them by charging that they seek Him not because they beheld the unseen Hand of God manifested in the miraculous feeding of the multitudes, but because their bellies were filled with the loaves and fishes. And a similar company of people with the same material aims are flocking to Christ to-day.

The Type.—The temper of the Jewish multitudes is readily seen in their quick defense, as they suppose, of Moses. Their blind loyalty to the traditions of their fathers and their remarkable national history prevent their perceiving that the prophet like unto Moses, and ayet greater than Moses, was before them, and that the manna which fed the children of Israel in the wilderness was but a type of the true Manna which God was to send into the world to feed a perishing world. To paraphrase what the Jews said to Jesus would be something like this: "You have just fed the great multitude in the wilderness by the miraculous increase of the loaves and fishes, but do not forget that our fathers did eat manna in the desert. Moses did not multiply loaves and fishes, but he gave them bread right from Heaven, a greater miracle Therefore, what sign showest Thou, that we may see and believe? What dost Thou work?" But they made a vital mistake and overlooked an important point, to both of which Jesus at once calls their attention. "True, your fathers did eat manna in the wilderness, but they died, notwithstanding. And Moses did not give them that bread from Heaven, but My Father giveth the True Bread from Heaven. For the Bread of God is He which cometh down from Heaven, and giveth life unto the world. The manna was not the True Bread from Heaven, but was only the type of the True Bread, for the True Bread from Heaven giveth life unto the world, but your fathers who ate the manna died, did they not?" The manna did not go beyond the physical life. It sustained life for a time, but the fathers all died in due process of time. The True Bread from [illegible] to feed the physical life unto the [illegible] the soul, and [illegible] that soul [illegible] Heaven; if any man eat of this Bread he shall live forever; and the Bread that I will give is My flesh, which I will give for the life of the world." And that is the great trouble with the people in the world to-day as these words are repeated in their ears. Don't hold God's truths too long in the head or they will cause congestion and starve the soul. Send them down into the heart, where assimilation may take place and the soul be fed with the Living Bread. The world is not perishing because it does not know the way of salvation, but because, knowing the way of salvation with the mind, the heart does not act in conjunction therewith; the digestive process has been interrupted; assimilation has not taken place.

The process of assimilation works a wonderful change in the food. The marvelous human laboratory of the stomach takes the food and by a mysterious process transforms it into life and flesh and bone and sinew. The soul feeds upon the Living Bread and by the wonderful operation of the Holy Spirit in the heart, the Living Bread becomes the life of that soul. A popular saying with some food manufacturers to-day is "Tell me what you eat and I will tell you what you are." The prevailing article of diet of individuals and nations bears a striking and important relation to their character. And as the kind of food partaken of determines in such large degree the physical temperament, so that which the soul feeds upon determines what that soul really is. It is easy to trace the connection between the frivolous mind and the trashy novel; it does not require long contact with a boy to discover whether he is feeding his mind on dime novels or upon wholesome reading matter. As a man thinketh, so is he. We understand all this when it comes to physical and mental conditions. The same is true in regard to spiritual things. Only the Living Bread which came down from Heaven can feed the soul and give it life. The world is full of substitutes that the Devil is recommending to be just as good, and the souls of men are trying to feed upon them, but according to God's Word only the Bread which God has provided can feed and give life to the soul.

"It is known," says Marcus Dods, "that the weakness of starvation exposes men to every form of disease; it is a lowered vitality which gives disease its opportunity. In the spiritual life it is the same. The preservative against any definite form of sin is strong spiritual life, a healthy condition not easily fatigued in duty, and not easily overcome by temptation." This must not be forgotten in considering the absolute need of the soul to be fed on the Living Bread. Not only is it absolutely essential to the life of the soul, but without this Living Bread the soul in its starved condition becomes an easy victim to the disease of sin.

Broken Bread.—Christ implies in our text the manner in which He is to give life to the world, by giving His flesh. The night before His crucifixion, while in the upper room with His disciples, "He took bread and gave thanks, and break it and gave unto them, saying: This is My body, which is given for you." And the next day on the cross it was literally fulfilled. Christ gave His flesh for the life of the world. Marvelous truth! The whole world set free from death, and yet the world perishing in its trespasses and sins because it will not accept the truth and believe in the accomplished work of Christ. Not many months ago a news item announced that a colored woman in New York state had just learned that she was a free woman. All these years since the emancipation proclamation of President Lincoln giving liberty to every black slave in the United States she had been serving her master in ignorance of the blessed fact that she was free. But her freedom dated back to the time that the stroke of President Lincoln's pen placed his name at the bottom of the proclamation, and not from the time when she first heard the news, and because of this she was going to bring suit in the courts to recover back pay. The emancipation of the world from sin and death dates back to the cross upon which Christ gave His life for the life of the world. And yet the world is still in ignorance of the blessed truth. Satan continues to hold it in bondage. Just contemplate the awful sin of unbelief! Heaven-sent Bread to feed the starving and dying world, and the world filling itself with the beggarly elements of the world which will perish with the using! Think of it!

Individual Appropriation.—It is true as our text implies that the Living Bread from Heaven is intended to feed the whole world, for

"There's a wideness in God's mercy like the wideness of the sea."

but our text also implies clearly that the appropriation and realization of that blessing is an individual matter. "Any man" who will eat of this Bread shall live forever, for the Living Bread was broken for the life of all the world. Noah preached his Gospel of impending judgment to all the world, but only he and his household were saved. Jesus came and offered Himself to the Jewish nation as their king, and only a few humble, ignorant fishermen and some others received Him. Jesus declared that many are called but few are chosen. The gift of God was to all the world, but it is the few who receive the gift. The invitation to feed upon the Living Bread is to all, but few accept the invitation and eat unto Eternal Life. Children cannot eat for parents, nor parents for children. Pastors cannot eat for people, Sunday school teachers for scholars, or friend for friend. But "If any man eat of this Bread, he shall live forever." Blessed and eternal truth it is.

"Bread of Heaven, on Thee we feed,
For Thy flesh is meat indeed:
Ever let our souls be fed
With the Living Bread."

WHAT REPUBLICANISM DOES.

Favors Trusts and Opposes and Vilifies Organized Labor, the Small Farmer and Laborer.

The real opinions of the leaders of the republican party are seldom to be obtained on the question of the trusts and legislation for the wage-earners. The platforms adopted always deal in platitudes and are never definite on these subjects. Occasionally some republican leader is more outspoken than his fellows and discloses the real intentions of the republican party on the trust and labor questions. Such was the case when Congressman W. A. Calderhead, of the Fifth Kansas district, addressed his constituents, at Beloit, in that state, on September 24. In the course of that speech, he said:

"I deny that the trusts constitute an evil. I contend that they have been a godsend to the country. I have no sympathy with all this talk and fuss about the trusts. I care not if it emanates largely from my own party, I consider it all political buncombe. The trusts will never be remedied, and they ought not to be. The trusts have been the handmaids of progress in every channel of business and in every avenue of life. They have reduced the cost of living. They have furnished employment to labor. They have developed the country. They have promoted science and encouraged invention. I regard organized labor as the greatest menace this country has to-day. It not only robs its own members of liberty, but is a constant menace to the lives, liberty and property of the people of the whole country. It has frequently been the cause of bloodshed and crime. It has caused famines in the necessities of life. It refuses to recognize brains, and it holds the capable, brainy member down with the dullard. It is a barrier to progress; it destroys energy and encourages worthlessness, and is a dangerous thing, which should be suppressed."

These sentiments of Judge Calderhead are not so remarkable, except that he had the courage to tell them. It may be remembered that a still higher republican authority had expressed the same ideas more picturesquely on a former occasion. President Roosevelt, in his book, "Ranch Life and Hunting Trail," pages 9 and 10, said:

"Peril and hardship and years of long toil, broken by weeks of brutal dissipation, draw haggard lines across their (cowboys' and rough riders') boyish faces, but never dim their reckless eyes nor break their bearing of self-confidence. When drunk on the villainous whisky of the frontier towns they cut mad antics, ride their horses into the saloons, firing their pistols right and left, from boisterous lightheartedness, rather than from any viciousness, and indulging too often in deadly shooting affrays, brought on either by the accidental contact of the moment or on account of some longstanding grudge, or perhaps because of bad blood between the ranches or localities. They are much better fellows and pleasanter companions than small farmers or agricultural laborers; nor are the mechanics and denizens of a great city to be mentioned in the same breath."

On page 295 of the September (1896) issue of the Review of Reviews, Theodore Roosevelt, in discussing the American union workingman, made the following statement:

"The men who object to what they style 'Government by Injunction' are, regardless of the essential principles of government, in hearty sympathy with their remote, skin-clad ancestors who lived in caves, fought one another with stone-headed axes, and ran the mammoth and woolly rhinoceros. They are interesting as representing a geological survival, but they are dangerous whenever there is the least chance of their making the principles of this ages-buried past living factors in our present life. They are not in sympathy with men of good minds and sound civic morality."

How do you like the picture, workingmen and farmers, that these republican leaders have painted of you?

Both say organized labor is dangerous. They regard government by injunction as a legitimate exercise of the powers of the judiciary. They view mechanics and workmen of a great city as not to be mentioned in the same breath with the drunken cowboys of the plains. They look upon the small farmer and agricultural laborer as clodhoppers whose only use is to swell the republican majority on election day. Trusts, to them, are a blessing.

Is it not about time the labor worm should turn and defeat the republicans and their vicious policies and their impudent audacity?

—Some of the grand sachems of the republican party still insist that the Dingley tariff is too holy to be touched by anyone, even by the chief priests in the protection temple. But the most of them seem to have heard from Iowa in the west and Boston in the east and to have made up their minds that it is not safe to preach the sacredness and inviolability of all the Dingley schedules too strenuously.—Chicago Chronicle.

VIEWS OF GROVER CLEVELAND

Democrats Must Make a Strong Fight on Its Old-Time Doctrine of Tariff Reform.

To a representative of the New York Evening Post who asked him his views in regard to the outlook for and the duty of the democracy in the approaching congressional elections, ex-President Grover Cleveland, on October 14, said:

"It seems to me that if the democracy is really in earnest it cannot fail largely to increase its representation in the next congress, but in order to do so I think that there must be a constant and stalwart insistence upon the things which are recognized by all to be true democratic doctrines. Of course, by far the most important of these is tariff reform. On this issue, I am satisfied that the democracy is face to face with a great opportunity. All of the signs of the times point to a recognition, far beyond all party lines, of the benefits which would accrue to the people by a readjustment of the tariff, and it would be worse than folly for the party under the stress of any temptation or yielding to any allurement to permit this to be subordinated to or overshadowed by any other issue.

"The present restlessness in republican circles on this subject, often amounting to protests against republican protective theories, should warn the democracy of an impending danger. I mean by this the possibility that our opponents may crowd us from out position on this subject if we allow them to do so by our lukewarmness and indifference, and to occupy our ground, just as we permitted them to crowd us from the ground that belonged to us on the question of sound money. I am very much pleased with the deliverance of the New York democracy on the tariff issue, and it was fit and proper that the Empire state should sound the right note. It is my clear conviction that the best assurance of success for the democracy in the next national campaign will be found in a sincere and unremitting insistence upon its old-time doctrine of a fair and beneficent tariff reform. This insistence should be from now on. It need hardly be said that success will depend upon the presentation of tariff doctrine, not only recognized as truly democratic by those who may be termed veterans in the party, but also commending itself to the hosts of the younger men of our land. Thousands of these await the opportunity to espouse a cause which must appeal to disinterested love of country and which is based upon thoughtful regard of all our people and the safety of the institutions under which we live. To these young men no hope is offered for the realization of their patriotic aspirations except through the conscientious endeavors of the democratic party.

"I am at a loss to understand by what process of reasoning the notion has gained a footing in certain democratic quarters not only that no importance attaches to a democratic ascendency in the next house of representatives, but even that it might be advantageous to party prospects in 1904 for it to continue in its present minority now.

"I cannot believe that the bright prospects of the democracy in the present campaign are to be marred by any lack of hard work and strenuous fighting."

CHROMATIC AFFLICTION.

Facial Indications in the Case of a Bilious Patient Suggested the Rainbow.

A Virginia reader sends a story told by the late Alban S. Payne as an actual occurrence, says the Philadelphia Times. It concerned a hard-riding, hard-drinking young Englishman, who settled near Linden, that state, in the expressed hope that the rustic surroundings would prove an aid in ridding him of his abnormal thirst. But he clung to his old habits, and soon became a connoisseur in moonshine distillations, rather preferring them, after a time, to those bearing the government stamp. His face was a mingled purple and sunset red, the joint product of whisky and an open-air life, and he had nothing of charm apart from his faultless manners to offer the pretty mountain girl who consented to become his wife. One afternoon he was carried home, pretty well mussed up as the result of a fall. The gravel of the roadside, the green of the grass and the smear from some cuts added to the colorfulness of his countenance; and the young wife, when the doctor arrived, rushed out on the porch, screaming:

"Oh, doctor! doctor! go in to him—quick! He has all the diseases of the rainbow!"

On the Verge of Bright's Disease.—A Quick Cure that Lasted.

CASE NO. 30,611.—C. E. Boles, dealer in grain and feed, 505 South Water Street, Akron, O., made the following statement in 1896, he said: "Ever since the Civil War I have had attacks of kidney and bladder troubles, decidedly worse during the last two or three years. Although I consulted physicians, some of whom told me I was serging on Bright's disease, and I was continually using standard remedies, the excruciating aching just across the kidneys, which radiated to the shoulder blades, still existed. As might be expected when my kidneys were in a disturbed condition, there was a distressing and inconvenient difficulty with the action of the kidney secretions. A box of Doan's Kidney Pills, procured at Lamparter & Co.'s drug store, brought such a decided change within a week that I continued the treatment. The last attack, and it was particularly aggravated, disappeared."

Three Years After.

Mr. Boles says in 1899: "In the spring of 1896 I made a public statement of my experience with Doan's Kidney Pills. This remedy cured me of a terrible aching in the kidneys, in the small of my back, in the muscles of the shoulder blades, and in the limbs. During the years that have gone by I can conscientiously say there have been no recurrences of my old trouble. My confidence in Doan's Kidney Pills is stronger than ever, not only from my personal experience but from the experience of many others in Akron which have come to my notice."

The Preferred Stock of the W. L. Douglas Shoe Company pays better than Savings Banks or Government Bonds. Every dollar of stock offered the public has behind it more than a dollar's worth of actual assets. W. L. Douglas continues to own one-half of the business, and for this reason the entire head of the concern.

This business is not an undeveloped prospect. It is a demonstrated dividend payer. This is the largest business of its kind in the world. Never a bloodyear. Well-liked. Sewed right. Last and last. Always been immensely profitable. Has not been a year in the past where the business has not earned a profit much more than the amount necessary to pay the preferred dividend.

The annual business now is $3,500,000. It is increasing very rapidly, and will equal $7,000 000 for the year 1902. The factory is now turning out 7500 pairs of shoes per day, and an addition to the plant is being built which will increase the capacity to 10,000 pairs per day.

The reason I am offering the Preferred Stock for sale is to perpetuate the business.

A MODEL STORAGE PIT.

It Keeps Vegetables from Freezing During Winter and from Growing During Summer.

One of the most serious problems for vegetable growers is to secure a storage place which will keep vegetables from freezing during winter and also prevent them from shrinking and growing during summer. Numerous plans have been used, some of them with most satisfactory results. In the northwest, Mr. S. J. Fairfield, of Minnesota, describes his method in a recent issue of the Minnesota Institute bulletin. Quoting his own language, he says: "I want firm, hard seed potatoes from which no sprouts have ever grown. To secure these, the potatoes should be put in a cave prepared especially for this purpose and so arranged as to control the temperature in winter and summer, keeping it as near to the freezing point as possible. Put the potatoes right in on the earth and keep them dark. In this way

PIT SHOWING ICE BOX, ETC.

they have kept all right for me. Make your cave of any size, shape or kind, if it is nothing more than a pit in the ground. Cover with poles, a few corn stalks, a little straw and six to eight inches of earth.

"A ventilator four feet long and 7x7 inches outside measure should be extended through the roof near the center, projecting 18 inches below the roof. It is made of four-inch board and is eight inches wide by four feet long, in the form of a loose box without ends. A square plunger should be made, of inch board, the same length as the ventilator, using four-inch boards six inches wide by four feet long. Nail a board that just fits over the bottom of the plunger and adjust over the top, so that when the plunger is placed in the ventilator the board on top will prevent its slipping into the cave. The plunger should be filled with sawdust and wrapped with a piece of old quilt or padding, so that when it is in the ventilator, the hole will be completely stopped and consequently frost proof. Put a screw hook into the bottom of the plunger and on it hang a reliable thermometer, so that you can go to the top of the cave, draw out the plunger and see what the temperature is down below without having to open it. The outline of my cave is shown in the accompanying illustration.

"In order to keep the temperature uniform, throw snow all around the cave as soon as the soil is frozen hard, and cover it with straw or old hay. The snow will keep the cave warm in winter and cool late in spring. If nights are very cold, keep careful track of the temperature, and if it gets below 34 degrees pull out the plunger and hang a lantern on the lower end, and the cave will warm up in a little while. If a cellar is used for storing potatoes or vegetables, a large lamp will warm it up during extremely cold periods.

"When spring comes I use ice to keep the temperature of the cave as low as possible. A galvanized box two feet square and 18 inches deep, with a drain off into the ground, will answer as the ice box. It nothing better is at hand, use a washtub and throw a blanket over the ice. I have kept seed potatoes in this way until June and they were as hard as when dug in the fall. Such seed will sprout more slowly and come up later than soft potatoes, but will be more vigorous and as a rule will outyield the other kind."

This plan has worked very well and can be recommended. Of course, as Mr. Fairchild intimates, every vegetable grower must work out the details of the plan himself. The suggestions are excellent. It is easily possible to construct a cave of this kind very cheaply and to keep fruits and vegetables very late in the season. If it is necessary to dig potatoes, for example, early before cool weather comes, the use of ice in this way will keep them until wanted.—American Agriculturist.

Cattle Ranches of Mexico.

The largest cattle ranches in Mexico are in the northern states—those bordering the United States, such as Sonora, Chihuahua and Coahuila—but cattle raising is an industry of no mean proportions in many other of the states of the republic. These ranches are there called haciendas, and many of them contain many hundreds of square miles. It is not uncommon to find upon them as many as 30,000 head of cattle. It is stated upon good authority that one wealthy Mexican brands from 30,000 to 40,000 calves annually on his haciendas.

SOME VICES OF COWS.

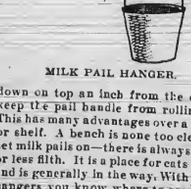
Never Buy an Animal for the Dairy That Shows Signs of Having Bad Habits.

Sometimes an otherwise excellent cow is rendered partially or totally worthless for the dairy because of a habit of leaking milk, writes C. P. Goodrich in Patron's Hand-Book. This fault cannot always be detected unless the milk is seen to be leaking. It does not follow that because a cow milks easily that she will leak her milk; far from it. Still, those that do leak, usually milk rather easy. Sometimes the milk seems to drip away from the teats nearly as fast as it is made and the udder is always nearly empty. This makes a cow worthless as a milker, but can be detected any time except when she is dry. Other cows do not leak until the udder is well distended and they lie down, forcing the milk out in a stream and making quite a puddle of milk on the ground or floor. Sometimes the close observer will detect this.

Another fault that some cows have is the habit of sucking other cows, or, worse still, of sucking themselves. My advice is never to buy such a cow under any circumstances if one can detect the fault. Su A cow may possibly be prevented from sucking, but she can never be cured of the inclination to do so, and will surely be a source of vexation.

If the cow you are looking at has a ring in her nose, or has her nose pierced for a ring, don't buy her. That was done for something, and probably in a vain attempt to prevent her from sucking. If she has her tongue slit it is for the same reason. But, no matter, she can suck just the same. If the hair is worn off about her head or neck, be sure that it is not caused by some toggery put there to prevent her sucking.

WHEN TO GRIND FEED.



Prof. Henry Gives Some Valuable Suggestions on a Topic of Paramount Importance.

The following concise advice from a recent book on feeding by Prof. Henry, of Wisconsin, a recognized authority on the subject, is commended: "This subject is a difficult one to discuss owing to the great variety of conditions existing as to both grain and animals. Directions are here given which may serve to guide the feeder in his practice. For horses which are out of the stable during the day and worked hard, all grain, with the possible exception of oats, should be ground. For those at extremely hard work, all grain should be ground and mixed with chaffed hay. For idle horses oats or corn should not be ground, nor need the hay or straw be chaffed. A cow yielding a large flow of milk should be regarded as a hard-working animal and her feed prepared accordingly. Fattening steers and pigs may be crowded more rapidly with meal than with whole grain, though there is more danger attending upon its use. Sheep worth feeding can always grind their own grain. In general, idle animals and those having ample time for mastication, rumination and digestion do not need their grain or roughage prepared as carefully as do those with only limited time for these essential operations. Experiments quite generally show increased gains from grinding grain, but in many cases they are not sufficient to pay the cost of grinding."

A MILK PAIL HANGER.

The Contrivance Here Described Has Many Advantages Over a Bench or Shelf.

Take strips of soft wood an inch thick and seven inches long; nail two four inches apart on a rail tie, or far enough apart so the handle on the milk pail will hang right; cut them

MILK PAIL HANGER.

down on top an inch from the end to keep the pail handle from rolling off. This has many advantages over a bench or shelf. A bench is none too clean to set milk pails on—there is always more or less filth. It is a place for cats to sit, and is generally in the way. With these hangers you know where to reach for the pail, pussy cannot get at the milk, and the milk will cool faster than setting on a bench. Nail a board ten or 12 inches wide over these hangers, having it slant about 45 degrees; this keeps the dirt from falling in the pails. By having it slant it will not be in the way to pour milk in the pails. I have given it a thorough trial.—H. J. Shrock, in Epitomist.

Grade Up the Dairy Herd.

Only the rich can afford to keep poor cows, and they do not. The poorer a man is the better his few cows should be, if he calculates to make anything from them. To see a poor man keeping poor cows is to make one sigh at the shortsightedness of man. Keeping poor cows is a waste of money, time and energy. The man who owns poor cows must double his energies to get any profit, and wait for years before he can breed up to a high standard. It is better to own a half-dozen good cows than a dozen poor ones. It does not help matters to say to one's self: "Oh, well, I have these and may as well keep them." This is an insult to good intelligence. Grade up your cows.—Midland Farmer.

St. Jacobs Oil.

In cases where bronchitis has become chronic from want of proper treatment in the earlier stages, there is nothing so good as Dr. August Koenig's Hamburg Breast Tea, in conjunction with which is strongly advised the use of St. Jacobs Oil as an outward application, along the front of the throat, from close up under the chin to well down to the top of the chest; the one remedy assists the other, and, as intended, they work in complete unison. The wonderful penetrating power of St. Jacobs Oil enables it to reach the adhesion of foreign matter which lines the bronchial tubes and which makes breathing more and more difficult. As these adhesions become inflamed and enlarged, St. Jacobs Oil causes such adhesions to break away, making expectoration easier and more free. Dr. August Koenig's Hamburg Breast Tea, drank slowly and very hot, soothes and heals the parts, is comforting and quieting, stops the cough and relieves the breathing. This manner of treatment (and there is no other two remedies that will work together so successfully) reaches the difficulty from the outside and the inside at the same time. St. Jacobs Oil reaches the roots of the adhesion, and assists Dr. August Koenig's Hamburg Breast Tea in clearing them; then both remedies act in unison in healing and curing. The above remarks apply with equal force in cases of asthma, croup, whooping cough, enlarged tonsils, and all bronchial affections. Every family should have St. Jacobs Oil and Dr. August Koenig's Hamburg Breast Tea always in the house in order that they may be promptly used in the first stages. Often the maladies develope with wonderful rapidity, and complications take place with equal suddenness.

Careful.

"There's one thing I admire about you," said the frank friend. "You carved out your own fortunes, and yet you never brag about being a self-made man."

"No," answered Mr. Meekton. "I shouldn't think of suggesting that Henrietta wasn't entitled to all the credit."—Washington Star.

"Well," remarked the optimist, "opportunity knocks once at every door." "Yes, there's something very feminine about opportunity," replied the pessimist. "She makes her call when she's pretty sure you're out, and that's the end of it."—Philadelphia Press

Secure—"You say that you have made a success of politics?" "Yes." "Are you an orator?" "No, sir. I'm the leader of a brass band. The musicians always get the money, but the orators are expected to talk for nothing."—Washington Star.

FALLIBILITIES OF SCIENCE.

Lord Kelvin Was Puzzled Over the Impossible Angle of a Ladder Which Couldn't Fall.

At a certain favorite resort in London a conversation among a number of financiers turned upon cable shares and wireless telegraphy. One confirmed cable worshipper quoted Lord Kelvin's opinion that the companies had no need to be alarmed at the progress of Marconi, relates a London paper. "Oh," exclaimed another, "Lord Kelvin be hanged! It is not the first time he has made a mistake. Why, I remember years ago, when he was plain Billy Thomson, he was out in the country for a ride with his brother. You know he was always like the old fish hag that O'Connell tackled. He slept on a parallelogram, shaved with a spheroid, watched the process of an ellipse and generally took his mathematics to bed with him. Anyhow he never passed anything without making a caculation about it. This time it was a ladder standing against a wall at an angle which according to all known laws ought to be impossible, especially as it stood on smooth concrete at the bottom. He called his brother's attention. They both got down, took measurements, made endless calculations, and considered various theories to account for the absence of slip. At last they fixed on some far-fetched explanation just as the farmer hove in sight. Then they casually called his attention to the strange circumstance. 'Oh, ay,' says the old man, 'the ladder.' 'Yes, I put it there for my hens, and it's pretty tight with the holdfast at the top!'"

Not So Very Crazy.

An Emporia (Kan.) sportsman was out gunning a few days ago, the Gazette says, and happened to go by the poor farm. One of the crazy men they keep out there saw him and began asking him questions. "What have you killed?" asked the crazy fellow. The Emporia man said he had a meadow lark and two doves. "What did you pay for that gun?" "Sixty dollars." "How much is the dog worth?" "Twenty-five dollars." "An $85 hunting outfit to kill 25 cents' worth of game! They keep me locked up in here because they say I'm crazy, and they let you run loose. It isn't fair," said the crazy man.

Lionel Ardon.

One of the new novels of exceptional merit, builded along historical lines, is "Lionel Ardon," by Malcolm Dearborn. Like many of the novels of the time it takes its name from that of the hero. The scene is England and the time that of Henry VIII., and through to Queen Elizabeth. The hero, Lionel, is the son of Lord Ardon, who is killed in a duel with Lord Raven, and his death is quickly avenged by the young son. The story follows the entrance of the hero into English court life, and contains some brilliant descriptions of the gayeties and festivities of those times. One of the principal characters is Lady Jane Grey, who is in fact the real heroine. This is the only novel that has ever brought to the sympathy and admiration of story readers that woman of purity and exquisite womanliness. Published by G. W. Dillingham Company, New York. Price, $1.50.

In the Proper Order.

"But can you cook?" asked the prosaic young man.

"Let us take these questions up in their proper order," returned the wise girl. "The matter of cooking is not the first to be considered."

"Then what is the first?" he demanded.

GOVERNOR OF OREGON

Uses Pe-ru-na in His Family and Grip. For Colds

CAPITOL BUILDING, SALEM, OREGON.

A Letter From the Executive Office of Oregon.

Pe-ru-na is known from the Atlantic to the Pacific. Letters of congratulation and commendation testifying to the merits of Pe-ru-na as a catarrh remedy are pouring in from every State in the Union. Dr. Hartman is receiving hundreds of such letters daily. All classes write these letters, from the highest to the lowest.

The outdoor laborer, the indoor artisan, the clerk, the editor, the statesman, the preacher—all agree that Peru-na is the catarrh remedy of the age. The stage and rostrum, recognizing catarrh as their greatest enemy, are especially enthusiastic in their praise and testimony.

Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well-nigh universal; almost omnipresent. Pe-ru-na is the only absolute safeguard known. A cold in the beginning of catarrh. To prevent colds, to cure colds, is to cheat catarrh out of its victims. Pe-ru-na not only cures catarrh, but prevents. Every household should be supplied with this great remedy for coughs, colds and so forth.

The Governor of Oregon is an ardent admirer of Pe-ru-na. He keeps it constantly in the house. In a recent letter to Dr. Hartman he says:

STATE OF OREGON,
EXECUTIVE DEPARTMENT,
SALEM, May 8, 1898.

The Pe-ru-na Medicine Co., Columbus, O.:

Dear Sirs—I have had occasion to use your Pe-ru-na medicine in my family for colds, and it proved to be an excellent remedy. I have not had occasion to use it for other ailments.

Yours very truly,
W. M. Lord.

It will be noticed that the Governor says he has not had occasion to use Pe-ru-na for other ailments. The reason for this is, most other ailments begin with a cold. Being Pe-ru-na to promptly cure colds, he protects his family against other ailments. This is exactly what every other family in the United States should do. Keep Pe-ru-na in the house. Use it for coughs, colds, la grippe, and other climatic affections of winter, and there will be no other ailments in the house. Such families should provide themselves with a copy of Dr. Hartman's free book, entitled "Winter Catarrh." Address Dr. Hartman, Columbus, Ohio.

Why Syrup of Figs is the best family laxative

It is pure.

It is gentle.

It is pleasant.

It is efficacious.

It is not expensive.

It is good for children.

It is excellent for ladies.

It is convenient for business men.

It is perfectly safe under all circumstances.

It is used by millions of families the world over.

It stands highest, as a laxative, with physicians.

If you use it you have the best laxative the world produces.

Because

Its component parts are all wholesome.

It acts gently without unpleasant after-effects.

It is wholly free from objectionable substances.

It contains the laxative principles of plants.

It contains the carminative principles of plants.

It contains wholesome aromatic liquids which are agreeable and refreshing to the taste.

All are pure.

All are delicately blended.

All are skillfully and scientifically compounded.

Its value is due to our method of manufacture and to the originality and simplicity of the combination.

To get its beneficial effects—buy the genuine.

Personal Mentions.

Mrs. M. L. Riddell was visiting in Walton, a few days last week.

Chas. A. Gaines, of Idlewild, was transacting business in Burlington, Monday.

W. P. Beemon and wife, were entertained by county clerk Adams and wife, Sunday.

Col. G. G. Graddy, came up from Petersburg, last Saturday, and remained over Sunday.

B. W. Campbell, and wife and son, of Delhi, were guests at the Boone House, Sunday.

Miss Kate Bradford, of Florence, was the guest of Mr. and Mrs. F. A. Mall, last Saturday.

Asa Cason has just about completed quite an addition to his residence out on the East Bend road.

J. L. Frazer, a clever bachelor of Union neighborhood, was among the visitors to town, Monday.

J. M. Eddins and wife entertained W. M. Houston and family and O. P. Tanner and family, Sunday.

Miss Maud Wingate and brother, Holman, of Petersburg, were guests of Dr. Crisler and wife, Sunday.

D. M. Snyder and wife, of Believue, were visiting their daughter, Mrs. Nathaniel Carpenter near town, Monday.

Miss Helen Mokay, a handsome young lady of West Virginia, is the guest of Misses Birdie and Nellie Martin.

Judge Lassing began a three weeks' term of his court at Owenton, Monday. One of his largest courts follows the other.

Henry Terrill, of Petersburg, left last Thursday, to spend the winter with his wife and daughter at Los Angeles, California.

Shelby Cowen, who is attending school at Rising Sun, was at home last Saturday and Sunday. Shelby is well pleased with his school and the city of Rising Sun.

O. P. Tanner came out, last Sunday, in a nice two seated two-horse vehicle. Owen intends to enjoy the comforts of life in his old age.

Mrs. Mary Carpenter and son, Claud are at home after a sojourn of several weeks with friends and relatives in Union neighborhood.

James Jones left at this office, a very handsome ear of corn, last Saturday. While it does not equal some others in the exhibit in size, it is pronounced the most perfect specimen on the string.

Geo. R. Berkshire came up with the Petersburg club, last Saturday. George says he never travels with other than winning aggregations, and when you see him out with a ball team you may know there is trouble ahead.

Rev. Slater's wife, of Florence, and Mrs. Geo. Rice, of Richwood, were in town, last Friday, soliciting contributions for the Thanksgiving supper to be given at Florence for the benefit of Ebenezer Lutheran church.

Henry Lassing and wife, of Nashville, Tenn., were guests of Judge Lassing and wife, last Friday. If there has been an iota of change in Henry none of his friends here were able to discover it. Henry is doing well at his new home, which his friends here are rejoiced to hear. Everybody was glad to meet him Friday.

Otto Crisler returned home, last Friday evening, from Louisville, where he attended the Masonic Grand Lodge. He was delighted with the trip, and especially was he pleased with the treatment that he and others of the Boone county delegation received at the hands of that prince of good fellows, Postmaster Thomas H. Baker, who is always on the look-out for pilgrims from his native heath.

Jack Barnett had the misfortune to lose his old Mexican pony, one day last week.

Mr. Ogden, of North Bend, bought considerable stock at Jas. White's sale, Saturday.

Jas. Snyder, jr., bought of Sam Jones last week, a good 7 year old, all purpose horse.

There never was such an abundance of fine grass here at this time of the year, as at present.

Dogs made a raid on B. R. Gaines' sheep, one night last week. The dogs have not been located.

Chas. Aylor is able to be at work again, after being laid up a couple of weeks with stomach trouble.

Many of our good citizens are hoping to secure the large prizes in the Enquire's Profit Sharing distribution.

The Petersburg boys were hilarious when they passed here on their way home from the ball game, Saturday.

Some of the buyers want corn at 35 cents per bushel, but farmers in this community have none to sell at that price.

Several from here attended Owen Allen's sale, last Thursday, and witnessed the sale of some nice stock, which sold at reasonable prices.

Some of the boys from hereabouts went to Petersburg, not long since, and proceeded to roughen up to about the roughness of a barbed wire fence, and the first thing they knew they were hauled up before the town authorities and fined $10 each, after the payment of which they were released and allowed to return to their homes, a wiser and it is hoped, a better lot of laddies.

THE STRIKE QUESTION.

Commissioners May Make a Preliminary Report Soon.

"It Is Officially Announced That If Any Award Affecting Existing Wages Shall Be Made It Will Be Effective November 1.

Scranton, Pa., Oct. 31.—The seven commissioners appointed by President Roosevelt to adjust the differences between the anthracite mine workers and employers Thursday made a tour of the extreme upper coal field and saw every step taken in the production of coal from the time it is blasted from the ground, hundreds of feet below the surface, up to the point where it is sent to make ready for the use of the consumer.

Scranton, Pa., Nov. 1.—The first important action by the anthracite coal strike commission, which is arbitrating differences existing between the miners and their employers, was taken Friday when it was announced by Carroll D. Wright, the recorder of the commission, that if any award affecting the existing rate of wages shall be made, the award shall be effective from November 1. The action of the commissioners shuts off any possible controversy that either side may have desired to raise. The announcement of the commission was continued in the following brief resolution:

"Voted unanimously, that if the commission, at the conclusion of its hearings and deliberations, makes any award affecting existing rates of wages, such award shall take effect from November 1, 1902."

Accompanying the resolution was a brief statement made by Recorder Wright in which he says:

"The resolution was adopted by the commission because it felt that it was important to make its investigations deliberately and that it might be well, in order to relieve itself from pressure from any source which might cause undue haste, to inform the operators and the miners that should the investigation and the deliberations following it warrant any change whatever, either in the way of increase or reduction of wages, such change should be from a certain date, thus enabling all parties to facilitate their calculations."

The commissioners spent the entire day in continuing their inspection of the mines and the mining region about Scranton. They visited the Manville colliery, operated jointly by the Delaware & Hudson and the Delaware, Lackawanna & Western Cos., in the forenoon and the afternoon was spent in riding through the region on a special trolley car. The commission will spend Saturday in the vicinity of Wilkesbarre, returning here in the evening.

It is possible that the commission may make a preliminary report on three principal strike questions. They are the increase in wages, a shorter work day and the weighing of coal. After these have been decided the commission can take up all other questions without undue haste. It is known the commissioners have this feature under consideration and it is very likely a preliminary report will be made.

THE FRENCH COAL STRIKE.

President Loubet Is Taking An Active Part in Settling It.

Paris, Nov. 1.—President Loubet, following the example set by President Roosevelt, is taking an active part in settling the French coal miners' strike. Friday he held a conference with M. Vincent, prefect of the department du Nord, who has been acting as intermediary between the strikers and the mine owners in that department. The mine owners have given the prefect the names of four persons who are to represent them in a conference with an equal number of strikers.

In a semi-official statement given out Friday night President Loubet expressed hope for an early settlement of the strike and declares that this would be a political accomplishment beyond precedent.

Sympathetic Strike.

Springfield, Ill., Nov. 1.—Five hundred employes of the Wabash shops here went on strike Friday in sympathy with the boilermakers, who struck a week ago for a uniform increase to 30 cents per hour in all departments. Those who quit work Friday include blacksmiths, machinists, tinners and pipemen. The strike is general over the Wabash system and includes shops at Ft. Wayne, Ind., Decatur, Ill., and Moberly, Mo.

Serious Coal Famine Expected.

Knoxville, Tenn., Nov. 1.—Coal operators believe a coal famine of serious proportions threatens Tennessee, North and South Carolina, Virginia and Georgia. The Southern railway seems helpless to help the situation.

Cuban Minister to Mexico.

Mexico City, Oct. 31.—Gen. Carlos Velez, the first minister to Mexico from the republic of Cuba, was received by President Diaz Thursday at noon in the hall of ambassadors. There was a large attendance of distinguished visitors.

Soldiers Going Home.

Wilkesbarre, Pa., Oct. 31.—The Fourth and Eight regiments, which have been stationed in the Wyoming valley for some time past, broke camp Thursday and returned to their homes. The 8th regiment broke camp Friday, the Salvation army.

THE CUBAN MINISTER.

He Gives His Opinion on the Commercial Treaty.

Washington, Nov. 1.—Senor Quesada, Cuban minister to the United States, Friday in commenting on the negotiations now being conducted for a commercial treaty, is a purely commercial convention treaty between Cuba and this country, said:

"The reciprocity treaty is a purely commercial convention and has nothing to do with any other political questions which may arise between the two governments and has absolutely nothing to do with the Platt amendment. The Cuban government has been studying the draft of the treaty submitted by Secretary Hay and has been consulting the different interests in the island and the custom house receipts as well and in due time will return it with observations and modifications deemed for the interest of Cuba, and which at the same time, will not hurt the interests of the United States. It has been shown by past experience, during the reciprocity arrangement under Mr. Blaine, that the commerce between both countries materially increased and it is expected that under any reciprocal arrangement between the two countries and the figures will be still higher than they were ten years ago, when they reached upward of $100,000,000.

Mr. Quesada said that the best of feeling existed between the Cubans and Americans, the proof of it being that every steamer arriving at Havana and other ports brought a great many American investors who not only were putting money in the island, but were establishing themselves there. He spoke of the popularity of Minister Squiers and the gratitude of the Cubans to the United States for services which were rendered.

When asked regarding the proposed coaling stations in Cuba, Mr. Quesada said that four days before President McKinley was shot he had, at the instance of Estrada Palma, gone to Canton and secured from the president a solmen promise that while he was chief executive he would not give his consent to the establishment of a naval station at Havana, and that President Roosevelt knew of the promise.

VENEZUELAN REVOLUTION.

Castro's Troops Will Attack the Revolutionists From the Rear.

Willemstad, Island of Curacao, Nov. 1.—One thousand Andino troops from Maracaiba, Venezuela, disembarked at Puerto Cabello Friday and marched at once to Valencia to join the government forces there, which number about 1,560 men. They will attack the revolutionists from the rear, according to the present arrangement, and at the same time that the government forces under President Castro attack the enemy in front.

President Castro has left La Victoria and gone in the direction of Villa de Cure. He left only 1,700 men at La Victoria.

A report has reached here that forces under Gen. Gomez have been routed with considerable loss by insurgents near San Mateo. Gen. Gomez is vice president of Venezuela and has been operating with President Castro.

OVERCOME BY GAS.

Four Men Are Dead and Three Others Seriously Affected.

Niagara Falls, N. Y., Nov. 1.—By a sudden rush of gas, supposed to have been sulfurated hydrogen, four men were killed and three seriously affected near the 24th street heading of the big tunnel trunk sewer Friday night.

Thirteen men were working on the sewer. They had started a heading at a new level and had loaded up a blast which was to be discharged. After loading they walked back about 225 feet between the heading and the shaft at 24th street, but before they could reach the shaft, four of the men fell to the floor of the tunnel, over which a considerable stream of water was flowing. The others, becoming alarmed, pushed ahead to the shaft. Foreman Mulroy was the first to reach the surface, a distance of 50 feet, and gave the alarm. George Rhodes was ascending in the bucket when he was over come by the gas and fell from the bucket to the bottom of the shaft. Seven others succeeded in getting out.

GUILTY OF MANSLAUGHTER.

Herbert B. Marble Sentenced For One Year and Fined One Dollar.

New Haven, Ct., Nov. 1.—Herbert B. Marble, of New York city, in the superior court Friday, was found guilty of manslaughter and sentenced to one year in jail and fined one dollar.

While driving an automobile on the Wellingford turnpike Marble struck a vehicle occupied by John Moize and his son. The former was thrown out and received injuries from which he died later. Marble was chauffeur in the employ of a New York automobile manufacturer.

The Cable Completed.

Ottawa, Ont., Nov. 1.—Sir William Mulock sent congratulatory telegrams Friday to Joseph Chamberlain, colonial secretary; Sir Edmund Barton, Australia, and Premier Seddon, of New Zealand, on the completion of the Pacific cable.

Gen. Booth In Toronto.

Toronto, Nov. 1.—Civic officers, leading dignitaries of the church, the premier and members of the legislature of Ontario, have taken part in the welcome extended to Gen. Booth, of the Salvation army.

THE COAST DEFENSE.

Annual Report of the Chief Engineer of the U. S. Army.

Navy Department Is Insistent That All Important Coaling Stations Should Receive Proper Protection From Predatory Attacks.

Washington, Nov. 1.—The annual report of Gen. G. L. Gillespie, chief of engineers of the United States army, which was made public Friday, presents a comprehensive view of the condition of fortifications throughout the country. After giving a list of the 31 points at which projects for permanent sea coast defenses have been adopted, the report says that the defense of the great lakes and the St. Lawrence is under consideration and also that projects for defenses for Porto Rico, Hawaii, Guam, Manila and Subig bay have been approved by the secretary of war. With reference to the last mentioned plans the opinion is given that construction should begin at an early day. "It is believed," the report continues, "that the time has come when it will be no longer possible to ignore the question of the insular defenses.

The navy department is properly insistent that all its important coaling stations should receive proper defensive protection to keep off predatory attacks from possible hostile fleets."

According to the report the sea coast defenses are now somewhat more than 50 per cent. completed; 25 of the principal harbors of the United States have a sufficient number of heavy guns and mortars mounted to permit an effective defense against naval attack, and during the past two years considerable progress has been made in the installation of an adequate rapid fire armament, now the matter of the first importance. The existing projects comprise 358 heavy guns of 8-inch, 10-inch and 12-inch calibers, 1,294 rapid fire guns from 2.24-inch to 6-inch caliber and 544 mortars. The total cost for the engineering work is estimated at $50,000,000, including what has been completed as well as what remains to be done.

Up to the present time provision has been made for emplacing 331 heavy guns, 483 rapid fire guns and 376 12-inch mortars. During the past year the addition to the completed armament of the coast amounted to eight 12-inch guns, three 8-inch guns, 20 rapid fire guns and 34 mortars. It is intended to devote the appropriation of last June to the construction of emplacements for two 12-inch guns, four 10-inch guns, 44 6-inch guns and 52 15 pounders.

GEN. MILES IN MANILA.

A Salute In His Honor Was Fired From Fort Santiago.

Manila, Nov. 1.—Gen. Miles, who reached here Thursday on the United States transport Thomas from San Francisco, disembarked at 10 o'clock Friday morning. A salute in his honor was fired from Fort Santiago.

Gen. Davis and a squadron of cavalry met Gen. Miles at the landing place in Manila and escorted him to the Malacanan palace, where Gov. Taft and the other members of the civil commission awaited the visitor. Gen. Miles has accepted Gov. Taft's invitation to live at the palace while here.

The garrison in Manila will be reviewed by Gen. Miles Saturday. The general will then proceed to Dagupan, where he will visit Col. Charles L. Davis, of the Fifth infantry, Gen. Miles' old regiment. He will return to Manila Sunday. The general's plan for a tour of the archipelago has not yet been completed.

SMALLPOX IN BARBADOES.

Other Islands Are Observing the Most Strict Quarantine.

Kingston, Jamaica, Nov. 1.—Smallpox continues to spread in Barbadoes at an alarming rate. A week ago the total number of cases reached 1,200. In consequence of the shipping restrictions the customs revenue declined the last quarter by over $20,000, a comparatively large sum. The other islands are observing the most strict quarantine against Barbadoes.

Bersch Found Guilty.

St. Louis, Nov. 1.—Edmund Bersch, ex-member of the house of delegates, was found guilty of perjury in connection with the boodling in the suburban railway franchise deal. Bersch was sentenced to five years in the penitentiary. Bersch is under two indictments for bribery.

Crescens' Wonderful Record.

Memphis, Tenn., Nov. 1.—Crescens in his attempt to lower the two-mile record here made a wonderful performance, trotting two miles in 4:17 flat. The former record was 4:22¼, and Crescens lowered this time by 1½ seconds. The driver and Crescens received an ovation.

A Week's Business Failures.

New York, Nov. 1.—Business failures in the United States for the week ending Thursday, October 30, number 194, as against 198 last week, 172 in this week last year, 165 in 1899 and 188 in 1898. In Canada for the week 24, as against 23 last week.

The Cruiser Cincinnati.

Washington, Nov. 1.—A telegram received at the navy department Friday morning announced that the cruiser Cincinnati left San Juan Thursday for Norfolk to be fitted out for service in the Caribbean fleet maneuvers.

THE GRAVE ROBBER.

Rufus Cantrell Will Implicate More Physicians and Undertakers.

Indianapolis, Ind., Oct. 31.—Rufus Cantrell will testify again before the grand jury either Friday or Saturday, and will implicate, he says, 15 additional physicians and undertakers of the city and every one of the local medical and dental colleges of the city that have thus far escaped the grave robbing scandal.

He also makes the astounding statement that one or two women embalmers will be shown to be guilty of complicity in the purchase and concealment of stolen bodies. Whether they were connected with the concealment of the four bodies afterward recovered he will not say.

The big Negro was asked several questions as to how deeply the women are implicated in the matter, but he refused to talk any further about that part of his testimony, which, he says, will be presented before the grand jury. "Several are as guilty as the men" was all that he would say.

Doctors connected with the medical colleges at Ft. Wayne, Lonisville and Cincinnati will be implicated also in this latest confession, Cantrell says. He has been unusually reticent about talking of his connection with the schools in Louisville and the other two cities, but after the action of several of the physicians of Louisville, he has made up his mind to tell what he knows about their connection with the grave robbery business.

CHARGED WITH GRAVE ROBBING.

John McEndree Placed Under Arrest at Martinsville, Ind.

Indianapolis, Ind., Nov. 1.—John McEndree, the alleged leader of a gang of white grave robbers, was arrested in Martinsville Thursday night and held until Detective Asch, of this city, could go after him. The detectives say he is implicated equally as much in the grave robbing business as Rufus Cantrell, Samuel Martin and other colored ghouls now in jail. McEndree was brought here Friday afternoon and when questioned by the detectives confessed that he had been in the graveyard robbing business. When asked how many times he had been out with a gang, he said:

"Oh, I have made about 20 trips." He said he got bodies from different cemeteries about Indianapolis and disposed of them at three of the local colleges.

Albert Hunt, a Negro living at 963 Superior street, was locked up Friday on the charge of disturbing graves. After a cross-examination at the police station Hunt admitted that he had accompanied Cantrell, Martin and others on a grave-robbing expedition to a cemetery near Bridgeport.

SOUTH MANITOU ISLAND.

In Danger of Being Suddenly Swallowed Up in Lake Michigan.

Detroit, Mich., Oct. 31.—A special says that anxiety is felt in South Manitou island over indications that the island may suddenly be swallowed up in Lake Michigan. Capt. Lafberg, in charge of the life saving station at Sleeping Bear Point, has notified his superiors at Washington that in his opinion the island will soon disappear. A boat house recently built by the life savers on the island dropped out of sight and recent soundings have shown a depth of 30 feet where formerly there was but three feet of water.

ROUMANIAN JEWS.

The Migration Through Vienna Recommenced Heavily.

Vienna, Oct. 31.—After an interval of several weeks the migration of Roumanian Jews through this city for the United States has recommenced heavily. Two parties of emigrants, numbering 400 persons, were here last Tuesday and Wednesday. The most remarkable feature of this revived movement is that half of the emigrants are men, whereas former parties were almost entirely composed of women and children. The men now emigrating are chiefly artisans.

Cruiser Montgomery In Quarantine.

Washington, Oct. 31.—The navy department has been notified that the cruiser Montgomery is in quarantine at San Juan, P. R. She has just returned from a visit to points in Colombia and on the return trip a case of yellow fever appeared among the crew. Every precaution was taken to guard against a spread of the disease. No additional cases have been reported.

To Defend the American Cup.

New York, Oct. 31.—Secretary Cook, of the New York Yacht club, announced that the construction of a boat to defend the America's cup is now under way. Herreshoff is the designer and the yacht will be sailed by Capt. Barr.

Ovation Given Cleveland.

Morristown, N. J., Oct. 31.—Former President Cleveland spoke here Thursday night to a political meeting held in Lyceum hall. Special trains brought hundreds of people from other cities and towns in this vicinity and Mr. Cleveland was given an ovation.

Chairman Jones Calls on President.

Washington, Oct. 31.—James K. Jones, of Arkansas, chairman of the democratic national committee, called on the president Thursday. He remained with Mr. Roosevelt a considerable time.

BACKACHE.

Backache is a forerunner and one of the most common symptoms of kidney trouble and womb displacement.

READ MISS BOLLMAN'S EXPERIENCE.

"Some time ago I was in a very weak condition, my work made me nervous and my back ached frightfully all the time, and I had terrible headaches.

"My mother got a bottle of **Lydia E. Pinkham's Vegetable Compound** for me, and it seemed to strengthen my back and help me at once, and I did not get so tired as before. I continued to take it, and it brought health and strength to me, and I want to thank you for the good it has done me."—Miss Kate Hollman, 142nd St. & Wales Ave., New York City. *—$5000 forfeit if original of above letter proving genuineness cannot be produced.*

Lydia E. Pinkham's Vegetable Compound cures because it is the greatest known remedy for kidney and womb troubles.

Every woman who is puzzled about her condition should write to Mrs. Pinkham at Lynn, Mass., and tell her all.

A LOVER'S REVENGE.

Dynamite Bomb Killed Two and Injured Others.

Chas. Smith, Former Boarder, Who Was Paying Attention to One of Kordeck's Daughters, Arrested For the Crime.

Chicago, Nov. 3.—A dynamite bomb, the weapon of a deranged assassin, blew up the home of Joseph Kordeck in Chicago Heights Sunday, killing two members of the family outright, and injuring several others. The house was set on fire and burned, while that of a neighbor caught fire and was also destroyed. The dead: Joseph Kordeck, arms and legs broken off; Lucy Kordeck, aged 2, body blown to pieces. The injured: Mrs. Lucy Kordeck, flesh blown off right side, injured internally, may die. Seven children who escaped were injured, but not seriously.

The explosion occurred while the family was asleep. The father and mother with the daughter Lucy occupied a room in the front of the cottage. On the other side were rooms occupied by the rest of the family. The cottage stood two feet from the ground on wooden posts. The bomb was placed under the room occupied by the parents and the impact of the explosion tore a hole in the floor, blew the bed to pieces, dismembered Kordeck and scattered into fragments the body of Lucy, who was sleeping with her parents. Pieces of flesh the size of a man's hand were the largest remnants of the child's body that could be found. The force of the explosion was directly upward and tore a piece of flesh from Mrs. Kordeck's side and blew her through a window. The noise aroused the rest of the family and they had hardly time to escape from the flames which soon destroyed the cottage. Kordeck's body, torn to shreds, was found in the debris after the fire.

Charles Smith, a former boarder at the Kordeck house, who was paying attention to one of Kordeck's daughters, has been arrested charged with the crime. The Kordeck girl was to have been married to another man next week. Smith declares he is innocent, but neighbors declare that he made threats to them that if the girl refused to be his wife he would blow up the entire family with dynamite. Smith was absent from his room at the time of the explosion. His roommate, Thomas Kobilinekl, claims that Smith returned to his room greatly excited shortly after the explosion.

SPANISH VESSEL SUNK.

Collided With a British Steamer—Several Lives Lost.

London, Nov. 3.—The British steamer St. Regulus, Capt. McMullen, from Shields, for Alexandria, has put in at Gravesend. She reports having collided with and sunk the Spanish steamer Enero, Capt. Delgado, from Huelva, Spain, October 22. With the exception of three members, the crew of the Enero were drowned. The accident occurred Friday night off Dungeness.

The captain of the St. Regulus says that when his vessel struck the Enero he gave the order for full speed ahead with the idea of keeping the two vessels locked together and thus enabling the crew of the Spanish ship to board the St. Regulus, but either they were too greatly alarmed to do so or they failed to understand his purpose, and instead of climbing on board the British ship, they tried to lower a boat with result that a number were thrown into the sea and drowned. The Enero sank in a few moments. The explosion of her boilers probably killed many others of her crew.

The St. Regulus was badly damaged, a large hole being stove in her sides.

STRUCK BY A TRAIN.

Four Men Killed on the Crossing at Algonquin, Ill.

Elgin, Ill., Nov. 3.—Frank and Louis Shuette and Charles and James Woodrich were killed early Sunday at Algonquin, Ill., where the Milk Express on the Chicago & Northwestern railway struck their carriage on the crossing of the main street of the village. All were killed instantly except Louis Schuette, who died at a hospital. All lived at Algonquin except James Woodrich, whose home was at Kilbourne City, Wis. The young man had started to drive to Dundee before daylight and did not see the train on account of the darkness and the cover of their buggy.

Football Player Fatally Injured.

Knoxville, Tenn., Nov. 3.—Walter Cole, fullback of the Tennessee deaf and dumb school football team, was reported dying Sunday night as a result of injuries received in a game played at Maryville, Tenn., Saturday. He has a broken collar bone and serious internal injuries. Cole's home is at McKeesport, Pa.

Coinage Statement.

Washington, Nov. 3.—The monthly coinage statement issued by the director of the mint shows that in the month of October, 1902, the total coinage was $4,459,550, as follows: Gold, $1,890,000; silver, $2,387,000; minor coins, $282,550.

Rescinded Its Action.

Chicago, Nov. 3.—The Chicago Federation of Labor Sunday rescinded its act of expulsion against Typographical Union No. 16 and offered to reinstate the delegates when they apply for admission.

GANG OF LADRONES.

Committed Various Outrages in the Philippine Islands.

Manila, Nov. 3.—A portion of a gang of Ladrones which has been operating on the island of Biliran (just north of the island of Leyte), where they committed various outrages, crossed over to the island of Leyte last Wednesday and entered a small town near Carigara. Here they captured and beheaded the presidente of the town, murdered his wife, whom they slashed with bolos, and abducted the presidente's children. The motive of this crime is said to have been the presidente's friendliness with the Americans.

Ladrones are again active in the province of Rizal and Bulucan, Luzon. Members of the native constabulary engaged these bandits twice during the past week at points close to Manila and succeeded in killing a number of them. The constabulary are capable of suppressing these Ladrones.

Reports received here indicate that the situation on the island of Samar is better than has been recently represented. A number of Dios Dios, or religious fanatics, are still operating there but officials report that the Samar police are able to handle the situation.

SCHISMATIC CHURCH.

Body of a Native Woman Refused Burial in the Catholic Cemetery.

Manila, Nov. 3.—The body of a native woman, who was attended at her death by priests of the Catholic church of the Philippines, was refused interment at the Paco cemetery, which is owned by the Roman Catholic church. There was a scene at the cemetery, and the police were called in to maintain order. In retaliation for this refusal of interment "Bishop" Aglicpa and other leaders of the Schismatic movement, are discussing a plan to appeal to the courts to obtain possession of certain churches and other property in the Philippines.

This independent church movement is being watched closely in government and political circles. The extent of the defection of native clergy and their lay adherents from the church of Rome is not known, but it is claimed that a majority of the native clergy sympathize with the movement. The appointment of an American archbishop in the Philippines, however, with a clear definition of the status of the clergy, would turn the tide of both clergy and laity in favor of the Roman church.

DEVASTATED BY FIRE.

The Town of St. Pierre, Miquelon, Partially Destroyed.

St. Johns, N. F., Nov. 3.—The town of St. Pierre, Miquelon, has been devastated by fire. A destructive conflagration started Saturday night and swept the main portion of the town. The governor's house, the government buildings, the court house, the building occupied by the ministry of marine, the Roman Catholic cathedral, the Presbytery, the schools and a number of other buildings were destroyed.

The extent of the disaster is very far reaching, and the financial loss will probably reach half a million dollars. There was no loss of life or serious accident. The rapid spread of the conflagration was due to the trifling water supply and to the fact that St. Pierre has no adequate fire fighting appliances. The town of St. Pierre has been partly burned down three times before—in 1865, 1867 and 1879.

RICH GOLD DISCOVERY.

A Stampede Comparable to the Mining Rushes of the Early Days.

Duboise, Ida., Nov. 3.—A rich discovery of gold in the Black Hornet district has caused a stampede comparable to the mining rushes of the early days. Knowledge of the find got out Saturday evening and men started out at once to secure claims. They kept going all night and Sunday several hundred men rushed to the scene of the discovery. The discovery is a hitherto unknown vein. The load was blind and was opened in doing some work on another vein. The vein was opened Sunday at several other points. At one point 600 feet from the original discovery rich ore was met with and in all the others good ore shows.

COMMANDANT VILJOEN.

Offers His Services to the British Army to Fight the Mad Mullah.

London, Nov. 3.—The Boer commandant, Viljoen, has written a letter to Earl Roberts in which he offers his services to the British army if Boers are enlisted to take the field against the forces of the Mullah in Somaliland.

It was announced from Johannesburg October 31 that a number of former Boer commandants and British officers had offered their services and those of 1,000 men, half of them British and half Boers, for duty in Somaliland.

Assayer of the Chinese Mint.

Washington, Nov. 3.—Alfred E. Jessup, of New York, now head of the testing laboratory in the supervising architect's office of the treasury department, has accepted the position of chief assayer of the Chinese mint at Tien-Tsin, China.

Opera Singer Killed.

St. Louis, Nov. 3.—William Roebuck, aged 40 years, an opera singer, whose home was in Lima, O., was killed Sunday by a suburban car. He was lying on a trestle crossing the river Des Peres and was badly mangled.

ON CEDAR MOUNTAIN.

President Spent Several Hours on the Historic Battlefield.

Roosevelt Was Given An Old Shell Which Had Been Dug Up in the Field as a Memento of His Visit.

Brandy Station, Va., Nov. 3.—President Roosevelt passed several hours Sunday afternoon on the battlefield of Cedar mountain. The day was perfect and the drive to the battlefield was as pleasureable as could be desired.

The president, accompanied by Secretary Root, Secretary Cortelyou, Dr. Rixey, Judge Grimsley and two or three ladies, arrived at the battlefield shortly after 3 o'clock. They were followed by a procession of carriages containing people from Culpepper and surrounding country.

On arrival at the battlefield, which is dotted here and there by monuments marking the positions of the troops during the fight, the contest was explained to the president by Judge Grimsley. The judge was a captain in the Sixth Virginia cavalry and was a participant in the fight. The president was interested particularly in the account of the famous First cavalry charge made during the battle of Cedar mountain. The union and confederate cavalry met in a depression not far from Cedar mountain. While the battle did not last long and was brought on quite unexpectedly, it was frightfully sanguinary, the losses on both sides being about 3,200.

The president was notably interested in a monument erected last August on the anniversary of the battle by the survivors of the 28th New York infantry, which lost in the engagement 59 per cent. of its men, including nearly every commissioned officer.

In the very heart of the battlefield, President Roosevelt Sunday held an informal reception. Many people had gathered from the surrounding country. Subsequently the President was given a shell which had been dug up on the battlefield, as a memento of his visit.

Sunday morning the president and his party attended services at the Baptist church of Culpepper. Until a short time before the services began it was not known that the president was to be present. No special services marked his presence. Rev. E. W. Winfrey, pastor of the church, one of the oldest religious organizations in Virginia, made a reference to the president in his opening prayer, but did not allude to him in his sermon. The church was crowded, and at the conclusion of the services President Roosevelt cordially greeted the pastor and many members of the congregation and introduced them to those who accompanied him.

Every precaution possible was taken to ensure his safety. Two headquarters men from Washington, in addition to the regular detail of secret officers, were on guard.

The presidential special arrived in Washington Monday morning. Later the president will leave Washington on a special train for Oyster Bay, where he will vote on Tuesday.

TO ARRANGE FOR A DUEL.

M. Gerault Richards and the Marquis de Dion the Contestants.

Paris, Nov. 3.—M. Gerault Richards, of the Petite Republique, has telegraphed two of his friends to meet the seconds of the Marquis de Dion Monday and arrange for a duel. The trouble between M. Gerault Richards and the Marquis de Dion, who are both members of the chamber of deputies, grew out of a recent angry discussion in a corridor of the chamber. The Marquis de Dion slapped M. Gerault Richard's face. The seconds of the marquis are Mm. Bruneau and Syveton.

STRUCK BY A TROLLEY CAR.

Mrs. Anais Wilson, Relative of Empress Josephine, Died of Injuries.

Savannah, Ga., Nov. 3.—Mrs. Anais Wilson, aged 83, died Sunday after being struck by a trolley car. Mrs. Wilson was born in the Island of Martinique in 1819. Her parents were large slave owners. Her mother, Mrs. Peters, was the cousin of the Empress Josephine, first wife of Napoleon. They were educated together in the convent at St. Pierre. Miss Peters removed to Charleston, S. C., with her parents and married Edward G. Wilson.

Christmas Beef For Englishmen.

Paris, Ky., Nov. 3.—L. Joseph, agent for Schwarzchild & Sulzberger, New York, has purchased of Charlton Alexander, jr., 187 head of fine export cattle at a fancy price, to be shipped to England in November for Christmas beef. Joseph also purchased of Wm. Woodford, Hal Woodford and Wm. Bedford a train load of fine beef cattle for the same market.

Motormen's Strike Settled.

Schnectady, N. Y., Nov. 3.—The strike of the motormen on the Hudson Valley Electric railway was settled Sunday night, the company recognizing the union and agreeing to the schedule of wages presented by the men, who returned to work Monday.

Cholera in Jerusalem.

Jerusalem, Nov. 3.—There have been 494 deaths from cholera here and 78 at Ghuzzeh during the past week. Great distress prevails at Lyddia because of the total inadequacy of medical aid there to cope with the disease.

PRESIDENT'S PROCLAMATION.

Thursday, November 27, Designated as a Day of General Thanksgiving.

Washington, Oct. 30.—President Roosevelt issued the following Thanksgiving proclamation:

"According to the yearly custom of our people, it falls upon the president, at this season, to appoint a day of festival and thanksgiving to God.

"Over a century and a quarter has passed since this country took its place among the nations of the earth, and during that time we have had, on the whole, more to be thankful for than has fallen to the lot of any other people. Generation after generation has grown to manhood and passed away. Each has had to bear its peculiar burdens, each to face its special crises, and each has known years of grim trial, when the country was menaced by malice, domestic or foreign levy, when the hand of the Lord was heavy upon it in drought or flood or pestilence, when, in bodily distress and anguish of soul, it paid the penalty of folly and a forward heart.

"Nevertheless, decade by decade, we have struggled onward and upward. We now abundantly enjoy material well-being, and under the favor of the Most High, we are striving earnestly to achieve moral and spiritual uplifting. The year that has just closed has been one of peace and of overflowing plenty. Rarely has any people enjoyed greater prosperity than we are now enjoying. For this we render heartfelt and solemn thanks to the Giver of Good; and we seek to praise Him, not by words only, but by deeds, by the way in which we do our duty to ourselves and our fellow men.

"Now, therefore, I, Theodore Roosevelt, president of the United States, do hereby designate as a day of general thanksgiving Thursday, the twenty-seventh day of the coming November, and do recommend that throughout the land the people cease from their ordinary occupations, and in their several homes and places of worship, render thanks unto Almighty God for the manifold blessings of the past year.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the city of Washington this 29th day of October, in the year of our Lord, one thousand nine hundred and two, and of the independence of the United States, the one hundred and twenty-seventh."

VIENNA PILGRIMS.

One-Third of the Population Visited the Central Cemetery.

Vienna, Nov. 3.—One-third of the population of Vienna made pilgrimages Saturday and Sunday, All Saints' day and All Souls' day respectively, to the Central cemetery, of Vienna. The pilgrims started in the early morning and returned late at night. Some went on foot, while others used vehicles of all descriptions. It is estimated that 600,000 persons visited the graves in the cemetery on these two days. The pilgrims all carried wreaths of flowers, and before the tombs and in the long grass burned countless candles. The sparsely occupied parts of the cemetery presented a weird and picturesque spectacle.

The monuments to Mozart, Beethoven and Schubert, as well as the plot where are buried the 600 victims of the Ring theater fire of 1881, attracted thousands of visitors. This cemetery is the largest in Europe and contains 622,000 graves.

Emperor Francis Joseph and other members of the royal family placed wreaths upon the coffins of the empress and of Crown Prince Rudolph, in the vaults of the Capuchin church.

SNOW IN NEW MEXICO.

Hundreds of Sheep Caught Unexpectedly, Perished.

El Paso, Tex., Nov. 3.—A cold wave has swept over this section during the past 12 hours and reports from the surrounding mountain regions indicate that the snow fall has been heavy on the slopes in New Mexico. Hundreds of sheep caught unexpectedly in the open have perished, and below this city in the Rio Grande valley the losses have been heavy.

LOCOMOTIVE EXPLODED.

Three Trainmen Killed on the Baltimore & Ohio Railroad.

Baltimore, Nov. 3.—Three trainmen were almost instantly killed Sunday by the explosion of a boiler of a Baltimore & Ohio locomotive at Halethorp. Traffic was delayed about three hours by the accident. Those who were killed were: Engineer E. W. Biggs, Fireman O. W. Hunt and Brakeman C. O. stalling.

Eddie Bald Won.

Paris, Nov. 3.—"Eddie" Bald, the American bicyclist, won the international scratch bicycle race at the Parcedes Princes Sunday afternoon. The distance was 1,458 yards. Bald's time was 2 minutes 33 1-5 seconds.

The Emperor as a Hunter.

Berlin, Nov. 3.—The royal gamekeepers' bureau has kept a record of Emperor William's hunting. During 30 years he has killed 47,443 pieces of game, including 3,989 deer, elk or chamois, 2,823 wild boars, 19,508 hares or rabbits and 18,891 pheasants.

Fatal Rear End Collision.

Schnectady, N. Y., Nov. 3.—A freight brakeman was killed and a freight conductor slightly injured in a rear end collision between two freight trains west of this city on the New York Central Sunday night

STATE NEWS HAPPENINGS.

DEATH PREFERRED TO ASYLUM.

John Walton Committed Suicide by Taking Strichnine.

Bowling Green, Ky., Oct. 31.—John A. Walton, for six years a member of the regular army and for a period a member of Company F, 23d United States infantry during the Spanish-American war, committed suicide here by taking 20 grains of strichnine. He walked almost to the reservoir and took the dose out of a drachm vial in front of one of the best-known residences in the city.

Walton was 24 years of age and came from Allen county. He was related to a number of people here. He left a note addressed to "Whom it may concern." In it he said he first married Miss Della Dottson, but was separated from her by reason of the influence of other people. He married the second time, he said, Miss Pernie Taylor, whom he loved better than his life. The letter was written on the back of a letter head from Washington attorneys, who were attempting to secure a pension for him.

Dr. S. B. Jones, a member of the local pension board, who is a friend of Walton, had been trying for a month to induce the young man's family to have him tried for insanity. Wednesday afternoon they agreed to have Walton presented Thursday. He must have suspected this, as he procured a bottle of strychnine and took the fatal dose.

ANOTHER COMBINE.

A Plan to Consolidate All Coal Mines in Western Kentucky.

Beaver Dam, Ky., Nov. 1.—J. B. Atkinson, who owns 14 mines in Hopkins and Webster counties, is said to be engineering for eastern capitalists a deal to consolidate all the coal mines in Western Kentucky. It is said it will be consummated in several weeks. Besides mines in Webster and Hopkins, collieries at these places are mentioned in the deal:

Taylor, Render, Williams, McHenry, Echols, Central City, Bevier, Drakesboro, Powderly, Hillside, Oakland, Lucerne, St. Charles and Mud River, Ohio county miners are uneasy over the deal, as Atkinson is the only operator in the Western Kentucky field whose mines are not organized. The United Mine Workers' union is said to have spent $100,000 in a futile effort to organize them.

Louisville Tobacco Market.

Louisville, Ky., Nov. 1.—Sales of tobacco Friday were light, as they have been throughout the week. Offerings have been reviews and poorer qualities. The sales Friday aggregated 122 hhds, of which 48 hhds were burley and 74 hhds dark. Of these 71 hhds were original inspections and 54 hhds reviews. Rejections Thursday were 147 hhds, attesting the unsatisfactory prices obtained.

Declared Not Guilty.

Pineville, Ky., Oct. 31.—The jury in the case of Isaac Potter returned a verdict of not guilty Thursday. This was Potter's second trial, the first being for the alleged murder of Mrs. Jemina Hall, in Letcher county, in which the jury was unable to agree. The second trial was for the alleged murder of Sherwood Reynolds and the adopted child of Mrs. Hall.

Bruce Head's Condition Serious.

Pittsburg, Pa., Oct. 30.—Bruce Head, the victim of Dr. Ellis S. Duncan, was in worse condition Wednesday than at any time since the shooting. Wednesday morning the officials of the Greentree camp sent word to Dr. R. L. Walker and he arrived on the scene and was at the bedside of Head much earlier than he has been since he took charge of the case.

Valuable Records Burned.

Scottsville, Ky., Oct. 31.—Allen county sustained an inestimable loss when fire broke out in the south end of the building in which the county and circuit clerks' offices were located. Both offices were destroyed, together with records which date back to the birth of Allen county in 1814.

Shot and Killed Himself.

Thomson, Ky., Oct. 30.—Carter Mitchell, aged 60, shot and killed himself Wednesday. He came here from Brown county, Ohio. His wife left him 18 months ago. He had been staying with his son-in-law, Mr. Bud Moore, a tobacco grower. He has one son, Mr. C. J. Mitchell, of Urbana, O.

One Man Killed and Six Injured.

Inez, Ky., Oct. 31.—In a railroad disaster at Bull Creek tunnel, on the N. & W. railroad, six miles northeast of here, Henry Damron was killed and six others seriously injured. The disaster was caused by a premature blast.

Lexington Boys Missing.

Lexington, Ky., Oct. 30.—Two sons of Harry Steel and a boy named Taylor, ranging in ages from 8 to 12 years, are missing here and the police are inquiring for them. They went wainut hunting Saturday and have not been heard of since.

Barnes Gets Judgment.

Owensboro, Ky., Oct. 30.—John T. Barnes, as administrator, obtained a judgment in the circuit court here for $2,000 against the Louisville & Evansville Mail Packet Co. for the drowning of his daughter.

MRS. BALLANTYNE'S DREAM.

She Saw Her Son Virgil Killed in a Railroad Wreck.

Newport, Ky., Nov. 1.—Word was received in Newport Friday that the remains of two of the victims of Thursday's wreck on the C. H. & D. railroad, near Oxford, O., have been identified, and that they were both from Newport.

The young men are Virgil Ballantyne, the 18-year-old son of Mr. and Mrs. Thos. A. Ballantyne, of 639 Monmouth street, and Harry Prues, aged 19, a son of Mrs. Mary Prues, who lives at 845 Monroe street.

The peculiar feature of the death of young Ballantyne is that his mother, when informed of the death of her son, told of a dream which she had had after reading of the wreck in which she saw her son among the dead. Young Ballantyne had gained some notice as a jockey, having had a number of mounts on local and foreign tracks. He has not been riding lately, and both he and young Prues were on their way from Middletown to Hamilton in search of work when they were killed.

DIAMONDS IN KENTUCKY.

Company Organized to Prospect in Southern Part of Elliott County.

Jackson, Ky., Oct. 30.—And now Kentucky is said to have diamonds as well as the various other treasures which the mountains have yielded to the pick and spade of the prospector. A company organized under the laws of the South Dakota as the Diamond Mining and Development Co., with a capitalization of $5,000,000, has filed articles of incorporation with the clerk of Elliott county at Sandy Hook, and has begun operations among the celebrated "dykes" in the eastern part of Elliott county. A number of stones are said to have already been discovered which have been pronounced diamonds by expert lapidaries of Baltimore. It is also reported that both red and green garnets have been discovered.

MISSING BOY FOUND.

Discovered After a 2,000 Mile Trip By His Step Brother.

Lexington, Ky., Oct. 30.—After traveling 2,000 miles over Kentucky and Tennessee, walking the greater part of the distance, Clarance Condon, of Latonia, Ky., has found Harrison Wome, his 12-year-old half brother, who slipped away from his mother and disappeared at Austerlitz while being taken from Winchester to Covington. He was found working for a farmer near Van Buren. The mother was almost distracted by the disappearance of the lad. Condon was recovering from an accident in which his leg had been broken and his long journey has left him in a serious physical condition.

KENTUCKY LAW STUDENT.

It is Thought He Was Drowned in the Charles River at Cambridge.

Cambridge, Mass., Nov. 1.—Ernest L. Mansfield, of Springfield, Ky., second year student at Harvard, is thought to have been drowned in the Charles river Friday. He left the Newell club in a single shell, which later was found on the bank at a very narrow part of the river. His clothes were in the boathouse. The police have unsuccessfully searched the river.

Gayle Will Not Run.

Frankfort, Ky., Oct. 31.—Friends of ex-Congressman June W. Gayle, of Owen county, announced here that he had decided not to enter the race for the democratic nomination for state auditor. He had a long spell of fever and peritonitis during the summer and has been unable to make a canvass.

He Was Afraid of Banks.

Bowling Green, Ky., Nov. 1.—Shell Bratcher, a farmer, residing near Sand Hill, because he was afraid of banks, drew out a deposit of $240 and took it home with him for safe keeping. He placed it in his kitchen safe. Robbers came along and stole all the farmer's hard-earned money.

Shot Himself in the Hand.

Augusta, Ky., Oct. 30.—While William Powers, night policeman, was handling a revolver, the weapon was discharged, the ball passing through his left hand, necessitating the amputation of his second finger.

Married in the Station.

Georgetown, Ky., Oct. 30.—James P. Donovan, an electrician, about 45, and Miss Mary Haipin, about the same age, were married here Wednesday morning in the Q. & C. station, and took an early train to Cincinnati.

Charged With Killing His Son.

Inez, Ky., Nov. 1.—Pleasant Spradlin was lodged in jail here on the charge of murdering his son. The boy was only 4 years old, and the alleged motive for the tragedy is that the youngster disobeyed the parent's commands.

Took Out Diamonds.

Jackson, Ky., Nov. 1.—The Kentucky Diamond Mining and Developing Co. has begun operations in the "dypes" of Elliott county, and, it is reported, has already taken out diamonds and other precious stones.

BOONE CO., RECORDER

Wednesday, - - - 1902.

W. L. RIDDELL, - - Publisher.

For Circuit Clerk.

We are authorized to announce S. E. TERRILL, of Idlewild, as a candidate for Circuit Court Clerk, subject to the action of the Democratic party.

During the year 1865, when the war closed, prices had reached marvelously high figures; for instance, flour sold for $20 per barrel, sugar 33 cents per pound, butter 60 cents, coffee 60 to 70 cents, tea $1.40 to $1.60 per pound, oil $1.05 to $1.15 per gallon, beans 16 cents per quart, potatoes, $1 per bushel, soap 20 cents per pound, eggs 60 cents per dozen, and other things in the same proportion.

In an interview printed in the Chicago Record-Herald Governor Cummins, republican of Iowa, referring to the prediction that terrible results would come from tariff agitation, said: "That is a scare-crow set up in the corn fields. It is a device always resorted to by those who want the tariff treated as a sacred fetich. The nuisance to this country today is not tariff change, but the temptations to reckless stock watering which avaricious men find in their ability to create monopolies in production. We cannot avert disaster by falling on our knees and worshipping a tariff schedule. The truth is that men who are enjoying the fruits of monopoly are daily laughing in their sleeves at the fatuity with which the people permit them to plunder under the form of law."

THE Owen News-Herald, wants the cow pastures in the center of its town abolished, and thus complains:

"A few of the sleepers in the flats about the public square are complaining about the early morning meanderings of a nice blue cow with bell attached. The deep and melancholy peals of this cow bell are no good incentive to sleep. The complaints do not disclose the owner but they believe the "milk gap" is in the engine house. The town 'daddies' will sit to hear proof concerning this cow on the 2nd Saturday after the first Friday in November. Of course, should the cow die or otherwise be prevented from her morning walks the investigation will be discontinued. We would venture the assertion that no other Court House in the state is within fifteen feet of a milk gap."

In all soils there is a large proportion of the elements that enter into the growth of plants, but these substances exist in forms which render them only partially available for use. When the plow is allowed to go only to a certain depth every year the loss of fertility is in the first six inches of the soil. Below this shallow depth is a mine of wealth which is at the disposal of the farmer if he will appropriate it to his use. So steadily have farmers adhered to the rule of farming to a certain depth that on some farms the plow runs along the bottom of the furrow as though passing and rattling over stone. It is the hard pan which creates this sound and it has been made hard by the farmer himself, who has allowed his team to trample every square foot of earth at the bottom of each furrow year after year while turning up the top soil. The subsoil or hard pan becomes harder every year, and consequently it becomes more and more impervious to water, air and warmth. The top soil alone is compelled to provide plant food, although there is an abundance below. The breaking of the ground for a crop, which is considered but a "matter of form" on the farm, is really the most important duty performed, and the work should be done with judgment and with the view of improving the soil's conditions.

To turn up the cold subsoil certainly is not desirable, nor would it prove beneficial at the start, but the work should be done gradually. If the plow is sent down only half an inch deeper every year the depth of the top soil will be increased to four inches in eight years. While the soil from below will not add to the fertility of the top soil the first year, yet it will gradually change in characteristics and give up plant food as readily as the soil, for the reason that by being reduced to a fine condition the heat, air moisture, acids and alkalines exert chemical effects which change its composition entirely. It also becomes capable of absorbing the liquid fertilizer from the manure which may be applied on the soil, as the rains dissolve out the soluble matter and carry it down. Where this soluble fertilizer only reaches the depth of the six inches of top soil it now goes lower saturating the half-inch of pulverized hard pan, assisting to change it chemically and converting it into the same conditions as the top soil. It is by gradually reaching down into the hard pan for more soil and more plant food that the farmer derives the stored wealth beneath the surface, and when the soil has been mellowed to the depth of a foot by thus encroaching on the hard pan it will retain more moisture than formerly, while the work of plowing will be easier, as the land will turn over and crumble more readily because of an improvement in its mechanical condition.

There is also such a thing as putting the plants at work in improving the soil. Every time the hard pan is encroached upon it opens more for the penetration of the roots and plants. This does not refer to the tap roots or the roots which sometimes endeavor to get into the hard pan to derive plant food, but to the roots that feed in the surface soil. Instead of being confined to a depth of six inches they will have seven or eight inches or more, according to the depth of the hard pan invaded, and when the crop is removed there will be a mass of roots left in the soil, and to a greater depth than before, which is so much fertility remaining in the soil for the next season. If the subsoil plow is also used, in addition to plowing an inch deeper, the hard pan will be broken up to a greater depth without turning it to the surface, but the plowing up of half an inch or an inch of the subsoil, and adding it to the top soil, exposes it more directly to the action of moisture, air and warmth, and the farmer does not injure his top soil in any manner. If air-slaked lime is applied to the soil after it is plowed and the land is then well harrowed, especially in the fall season, it will prove of much benefit to the land while the surface soil is being deepened, as it produces both a chemical effect and a mechanical action, which hasten the process of bringing the soil to the desired condition.

Why not Insure in a Home Company?

Best results for least premium consistent with permanent security.

Combines every necessary element in life insurance, and has new features not found in any other single policy.

Furnish low cost of insurance, full protection, and a high rate of investment.

Any sum not less than $50 may be paid, and premium proportionately decreased thereafter, while the value of the policy is increased. Dividends payable annually.

High cash guaranteed value a feature of the policy.

The premium on a 20 payment life policy in the Equitable Life of New York, at age 35, is $38.34
In the New York Life it is . . 38.34
In the Mutual Life it is 36.87
In the INTER-STATE it is only 35.92

At the end of 20 years the Equitable Life guarantees you a cash surrender of $610.00
The New York Life guarantees you 609.00
The Mutual Life guarantees you 631.00
While the INTER-STATE guarantees you 637.00

In other words, the New York companies charge you more and guarantee you less than The INTER-STATE, and yet the advantages of The INTER-STATE are better for the policy-holder than either of the other companies.

The Election.

Boone gave a Democratic majority of 1,200. At 00 o'clock this morning, we know nothing as to the State.

The meager reports from the States in which fights were made indicate that the Republicans have won by large majorities.

In Kentucky the Republicans get 1 Congressman and none of the Judges.

A large part of all the progress so far made by man has been made by him in association with the horse. "Deduct," says one, reflecting on what the horse has been to and has done for mankind, "all that has been achieved, directly or indirectly by the aid of the horse, in the way of conveyance at home; from place to place, for business or recreation, trips often made on distant journeys—made before the power of steam was so wonderfully applied to the purposes of locomotion—of the draught of heavy burdens, of motive power connected with machinery, power for agriculture and power for war in all countries and in all ages—deduct what has been done directly or indirectly, and there is seen a stupendous statement of the sum total of man's achievement and progress.—Ex.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Congressman Al. Berry, President M. I. Barker of the Ohio Valley Traction Company of Carrollton, Ky., and several directors of that road had an important conference at the Grand Hotel Wednesday morning, at which the announcement was made that Eastern capital had been interested in the road and would finance it. The statement was made by President Barker, who is on his way home from the East, where he has been for several months. He and Col. Berry both stated that while in New York city last week matters looking toward the construction of their trolly road known as the Milton line and having Louisville as its destination, had assumed so favorably an aspect that a final conference with the engineering corps is asked for, to consider.

Said President Barker: "There is money in plenty to be found, ready to be invested in the road if everything is favorable. We will have no trouble to finance the road, and would build it ourselves if we had the required amount of money at our command. Then, there is the question of crossing the Ohio river on one of the bridges, which has not yet been settled.

Col. Berry added that the road was meeting with a certain amount of opposition from Louisville merchants, on the ground that if built it will take from the Falls City what small amount of business that city now derives from the territory along the river to be traversed. Plans are also under way for the erection of a modern hotel at Big Bone Springs, which will be operated as an all-year hotel as soon as the road is completed. The water at Big Bone Springs is known throughout the country, where it is handled by druggists. It is said to be better than that of French Lick Springs. Big Bone Springs are 22 miles from this city, in Boone county, Ky., and local men, seeing the opportunity, are planing the hotel project. The largest springs in the Big Bone district belong to Boone county, and several leases have been asked for. Pending the action of the county court in this matter, lands upon which smaller springs exist have been leased from the owners with a view to consolidating them into one operating company.

Mr. Editor, in making your assertions that we Hoosiers do not stop to enjoy the bright side of every day's life, and that all we think of is extirpating dollars, I beg to assert most emphatically that you are very much mistaken. I am a Hoosier, and proud to say it, and know whereof I speak.

I'll admit the Hoosiers do root a great deal, but they always have a goodly number of $'s laid up for a rainy day. Please don't think that because a few of our illiterates look upon Corncrackers as dangerous beings, that we all do. I'll venture to assert that some of our young "rooters" tread the Dark and Bloody Grounds of Old Ky., with a there's no flies on me," expression on their countenances, and never have met an individual or a weapon that they were the least bit alarmed at. If the Corncrackers do tread around as if walking on pins a "don't tread on my coat-tail" expression, over here, none of their coattails will ever be tread upon, and when you hear some individual speaking of "Pike on de Stringtown," don't think it's a Hoosier!

To the Editor of the Recorder:

When I made up my mind to become an occasional coutributor to your paper, I determined that I would never write for publication an anonymous letter, nor take any notice of any production from the pen of a literary assassin, who did not possess sufficient courage to sign his name to any assault he migth make upon me. I still adhere to this determination. There are certain rules to be observed in literature as well as in society that enables one to command the respect of his fellow-creatures. The golden rule is, be courteous and respectful in all your dealings with your fellow-men, and mind strictly your own business. I have studiously endeavored to be governed by this rule. This fact serves as a barrier to my ever becoming a politician. I do not think I could so deaden my conscience that I would be stimulated to make a nefarious assault upon the standing of one person in the interest of another. I have strenuously endeavored to be governed by this rule.

The following is from the Covington news in last Friday's Enquirer:

"Ben A. Terrill, brother of Attorney James Terrill, of Covington, had a narrow escape from death last night. Accompanied by George Burkett, he started to drive from Erlanger to Union, to be at the bedside of his wife, who was taken seriously ill and is not expected to live. While on their way a spring wagon ran into the buggy. The tongue of the wagon crashed through the buggy, striking Terrill's left leg, making an ugly flesh wound. It glanced off and sunk into the right leg, which is crippled, breaking the large bone. Terrill was removed to the office of Dr. Terrill, who dressed the injuries and set the broken member. Who the men in the spring wagon were could not be learned. As soon as the vehicles were untangled they hurriedly made their way toward Covington. Terrill resides at 53 East Front street."

CHRIST THE LIGHT.

Reveals and Cleanses Sin and Leads the Way Back to God.

Sermon on One of the Six Startling Claims of Jesus by the "High-way and Byway" Preacher.

(Copyright, 1902, by A. N. Kellogg Newspaper Co.)

Chicago, Nov. 2, 1902.

Text:—"I am the Light of the world."—John 8:12.

The great, glowing sun mounts the heavens, and the darkness flees before it, but Jesus is the Light of the world.

Scientists tell us that the light and heat of the sun will fail some day, but Jesus, the Light of the world, is from everlasting to everlasting.

God's Word tells us that the heavens and earth shall pass away, but in that new Jerusalem which John saw in prophetic vision there was no sun or moon, for it had no need thereof, "for the glory of God did lighten it, and the Lamb is the Light thereof."

Isaiah cries: "Lift up your eyes to the heavens, and look upon the earth beneath; for the heavens shall vanish away like smoke, and the earth shall wax old like a garment, and they that dwell therein shall die in like manner; but (in Jesus the Light of the world) My salvation shall be forever, and My righteousness shall not be abolished."

Jesus, in foretelling future events, declared: "Immediately after the tribulation of those days shall the sun be darkened, and the moon shall not give her light, and the stars shall fall from heaven, and the powers of the heavens shall be shaken," but then "they shall see the Son of man coming in the clouds of heaven, with power and great glory." Paul bears witness of the literal brightness of the glory of Jesus in his defense before King Agrippa when he says: "At midday, O king, I saw in the way a light from Heaven, above the brightness of the sun, shining round about me, and . . . I heard a voice speaking unto me . . . and He said: I am Jesus, whom thou persecutest."

Notwithstanding the light of the sun shines upon the just and the unjust, the people of the world, out of fellowship with God, "walk in darkness," "for God is light and in Him is no darkness at all." The natural eye may behold the beauty of the sun of the heavens, but if the mind's "eye be evil, thy whole body shall be full of darkness. If, therefore, the light that is in thee be darkness, how great is that darkness?" Nowadays we hear so much about "this enlightened age," and the world is rejoicing in its intellectualism, its commercialism, its electrical and mechanical achievements, its fraternalism, and its ecclesiasticism, and turning from the Heaven-sent Light, it is blinding itself with its own feeble, flickering flame. The world in the light of its own imaginings is seeking the way of success and happiness, with Heaven as the intended goal, while the eternal truth of God remains that Jesus is the Light of the world and only can reveal the way to God. The light streams from His cradle, the cross and the tomb, and "if we walk in the light, as He is in the light, we have fellowship one with another, and the blood of Jesus Christ cleanseth us from all sin." Yes, the Light of the world is Jesus.

Text Setting.—What a wonderful and attractive declaration is that of our text: "I am the Light of the world!" According to the twentieth verse of the chapter from which it is taken, Jesus had been sitting in the treasury of the temple teaching. Close beside Him were two colossal lamp-stands, gorgeously gilded, on which hung a multitude of lamps, lighted after the evening sacrifice during the feast of tabernacles, and diffusing their brilliancy, it is said, over all the city. The scene which was familiar to the eyes of Jesus is probably accurately described by Canon Farrar, who says: "Round these lamps, the people, in their joyous enthusiasm, and even the statelliest priests and Pharisees, joined in festival dances; while, to the sound of flutes and other music, the Levities, drawn up in array on the fifteen steps which led up to the court, chanted the beautiful Psalms which early received the title of 'Songs of Degrees.' In allusion to these great lamps, on which some circumstance of the moment may have concentrated the attention of the hearers, Christ exclaimed to them: 'I am the Light of the world.'"

Natural and Spiritual Light.—The same hand which hung the great sun in the heavens to give light and life to the earth sent His Son into the world to become the light and life of the soul of man. Jesus called Himself the Light of the world because His relations to the soul closely paralleled the relations which the sun sustains to the earth, and this things and conditions in the natural sphere illustrate and make plain profound spiritual truth.

The sun is the one universal source of light to the world. As it rides in the heavens it sheds its beams of light upon every land and every people on the globe. It wakens this land to the activity of another day as its first rays touch the mountain peaks and its advancing light chases away the darkness; from the easternmost tongue of land as it stretches out into the Atlantic to the jutting promontories cleaving the waters of the Pacific. It sparkles on the waves of the rolling ocean until their waters kiss the shores of far-off Asia. It climbs the snowy heads of China and penetrates the fastnesses of Tibet, where white man's foot has never trod. It shines above "darkest Africa," and reveals the sad scene of desolation in the land our Lord loved and where He declared Himself the Light of the world. It sees the unrest of Europe and follows the shiploads of emigrants as they crowd into the gateway of the western world.

Take the wings of imagination and mount up to the chariot of the sun, and ride with him over all the face of the earth. Peep into every land, mark every city as you pass, behold the teeming millions as they surge hither and thither; step from mountain peak to mountain peak and skip over the isles of the sea. The sun is known everywhere and welcomed right heartily. It is the only source of light.

Jesus as the Light of the world is the one and only universal light illuminating the moral darkness of the world. Where the Light of Jesus is not permitted to shine it is darkest America, and darkest Europe, and darkest Africa, and darkest Asia. Where the Light of Jesus is allowed to penetrate, there is the brightness of Eternal Life, whether it be in the enlightened land of America or in the jungles of India; whether in the places where civilization has wrought its best work or in the most benighted land. Every ancient nation, China, Japan, India, Egypt, Persia, has its gods and its own religion, but each is peculiar to its own land and people and can gain no foothold in other lands, but wonderful it is that the Light of Jesus shines for all. The most learned and the unlettered, the rich and poor, the dwellers in every land meet on common ground in Christ and rejoice in His light.

The sun gives life. Let the scientist tell you what this world would be without the sun. Take your healthiest and hardiest plant and place it in a cold, dark, damp cellar. Visit it in the course of a few days, and behold what a change. The leaves have turned from a healthy green to a sickly yellow, the stalk appears wilted and unsteady. But take it out to the sunlight and let it drink in its life-giving heat and light, and in a few days the plant regains its vigor. What is the lesson of the fall and winter days in the northern climes? The trees are bare and lifeless, the grass is brown and dead and the flowers of the summer time have faded and passed away. Why? Because the sun in his strength has ceased to shine and coldness and death follow. The life-giver has passed to the south and nature for the time being is dead.

Jesus as the Light of the world gives life. "In Him was life and the life was the Light of men." And as there is no other source of life for the natural world but in the sun, so in the spiritual realm there is life in none other than in the Light of the world. The natural condition of the soul of man is one of darkness and death, and only the Light of the Christ can dispel the darkness and call it into life. Into the home at Bethany where death had come and the beloved brother lay rotting in his tomb, Jesus entered and the Light of His presence penetrated the tomb and called back to life again the one who three days before had died. And He who raised the physically dead declared that He was the resurrection and the Life and that whosoever believeth in Him should not taste death, but was passed from death unto life.

The sun reveals. Did you never notice in the faint early morning light how the landscape appears grotesque and misshapen, and nothing seems in its right proportions, but as the full light of the sun bursts above the horizon, revealing the landscape in all its fullness and beauty, every tree and bush, every swaying branch and nodding flower, stands out for just what it is. The light of the sun reveals nature in all her attractiveness. But night settling down upon the scene shuts out all the detail and paints the landscape in one black, shapeless mass.

Jesus as the Light of the world reveals. In the dim, uncertain light of man's natural mind nothing is seen in its right proportions. Human reason distorts and changes, and every shade of belief, every misconception is made to appear clothed in righteousness and truth. The human mind can argue away a personal God and a personal Devil, can banish to oblivion the reality of hell and throw open wide the gates of Heaven, and turn the broad road into a universal thoroughfare leading thereto. But it takes the Light of Jesus to dispel mental and moral misconceptions and to reveal things in their true relations and proportions. The way is rough and uncertain and the precipice in on either hand to those who walk in the darkness of the world, but the Light which streams from Jesus' presence leads on and on in a plain path straight up to the throne of God. The human mind can store away God's Word until its reading is known from Genesis to Revelation, but without Jesus the Light to illuminate its truths it is a shut book. The Devil can quote Scripture with the most blatant infidel, but both abide in darkness, for Jesus is the only Light which can reveal.

The Pharisee, standing in the temple, prayed in the darkness of his own mind thus with himself (Scripture is particular to intimate that he did not pray to God): "God, I thank Thee that I am not as other men are, extortioners, unjust, adulterers, or even as this publican. I fast twice in the week, I give tithes of all that I possess." What a magnificent fellow he was in his own eyes, but the Light of Jesus, turned upon him, penetrates the veneer and reveals him a miserable, self-righteous hypocrite; while the publican, standing afar off and beating his breast, in desperate need, cries: "God be merciful to me, a sinner." For the Light of Jesus had revealed the true state of his heart to him. So it will be with everyone into whose heart the searchlight of Jesus' righteousness penetrates. It will reveal a sinner every time, and in the same blessed Light will shine forth a Saviour's face.

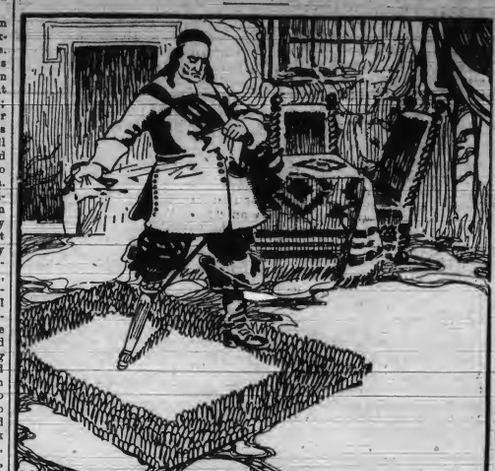
The sun purifies. The room from which the sunshine is persistently excluded fairly swarms with microbes. To live in such an atmosphere breeds sickness and death. But give the sun a chance and it will purify the air; it will dry up the dampness and mold; it will paint sunbeams on the floor and drive grim-visaged death from his lurking in the corners. The sun will distill the water from a stagnant and foul-smelling pool and give it back to the earth in pure and refreshing rain.

Jesus as the Light of the world purifies. In the presence of Jesus sin stood revealed. The hidden iniquity of the heart was laid bare. But not only was this true, but the iniquity of the heart and the sins of the outward life were swept away. By faith, purifying Light of Jesus was allowed to cleanse from all sin. The foul leper was healed, and the fouler leprosy of sin was cleansed away. The demon-possessed were delivered and the heart purified from the defiling presence. The palsied were healed and told that their sins were forgiven them and to go and sin no more. Into every life where Jesus was allowed to come the Light revealed its need and purified from sin. "And if we walk in the Light as He is in the Light . . . the blood of Jesus Christ, His Son, cleanseth from all sin."

Reflected Light.—"As long as I am in the world, I am the Light of the world." To see how wonderfully this was true of Jesus, one needs but to read the record of the Gospels. Wherever He went the sin and hypocrisy of man were revealed in the pure, white light of His presence. The Scribes and Pharisees, the doctors of the law and the rabbis were stripped of their outward cloaks of religious forms and ceremonies, and stood revealed in their true character. The whited sepulchers were shown to be full of dead men's bones. Traps laid for Jesus were sprung by his deft, unerring hand and always caught those who laid them. How wonderful! Surely, Jesus, as long as He was in the world, was the Light of the world. But how is it now? Has He ceased thus to be? No, for He declared that His disciples were the Light of the world. His Light shines through them. Luke, in his Gospel, wrote of "all that Jesus began both to do and to teach," and then in the Acts goes on to tell all that Jesus continued to do through His disciples, and the blessed story is still being written.

The Light must shine in before it can shine out. The mirror perfectly reflects the light or image which comes before it, but it is all on the surface. The sun or the image does not become part of the mirror. But it is different with the disciples of Jesus Christ. In order that they may perfectly reflect the Light of Jesus, that Light must penetrate the innermost recesses of the life before it can be given back to a world lost in the darkness of sin. Like the diamond, we must drink in the light in order to flash it out again. Moses' face shone, and the face of Stephen became as luminous as the face of an angel, because the very soul and being were saturated with the Divine presence.

The disciple of Jesus must live up to the light he has before he can secure more light. Put this in your heart, O, Christian, and ponder it deeply. Have you wondered why you did not have more light, why the Word of God was so little understood by you, why its pages were not luminous with the fascinating presence of the Christ? The Lord cannot give more of the light of His presence until you use the light you already have, and live it out in your life. God never intended His eternal truth to be a theory, but a "living epistle, known and read of all men." The early disciples lived in the Light, and their accusers "took knowledge of them, that they had been with Jesus." What a glorious tribute.



Not very many nights ago I saw the great luminous moon climb the heavens. It was one magnificent, glowing, effulgent light, and the earth was bathed in the beauty of its presence. It was a glorious sight. On the lips of everyone was heard the expression of delight. But as it neared the zenith something seemed to be the matter. A deep shadow crept across the face of that glowing moon, and the earth was cast into darkness. It could no longer rejoice in its light. What was the matter? Had the sun ceased to shine? Or had the moon rolled off into space behind the stars? No, the sun still shone, and the moon was still there, but something had come between the sun's light and the moon's reflective surface and darkness resulted. The earth was off the light and the moon was in eclipse. The things of the world had come between Jesus, the Light, and the people of the world, and they are in the darkness of an eclipse. And, oh, how many, many, many disciples of Jesus Christ who should be full-orbed, brilliant lights for the world are in partial and some almost total eclipse because the things of the world have cut off the Light of Jesus! "Love not the world, neither the things that are in the world," for such guilty, unholy love will obscure your light. "The world passeth away, and the lust thereof; but he that doeth the will of God abideth forever."

"No darkness have we who in Jesus abide,
The Light of the world is Jesus.
We walk in the Light when we follow our guide,
The Light of the world is Jesus.

"Ye dwellers in darkness with sin-blinded eyes,
The Light of the world is Jesus.
Go, wash, at His bidding, and light will arise,
The Light of the world is Jesus.

"Come to the Light, 'tis shining for thee;
Sweetly the Light has dawn'd upon me,
Once I was blind, but now I can see;
The Light of the world is Jesus."

LESSON IN AMERICAN HISTORY IN PUZZLE

STUYVESANT TEARS THE DEMAND FOR SURRENDER TO PIECES.
Find Gov. Winthrop.

It was in August, 1664, that an English land and naval force under Col. Richard Nicholls anchored in the harbor of New Amsterdam and demanded the surrender of the town, and at the same time sent a proclamation to the citizens promising perfect security of person and property to those who would quietly submit to English rule. A second letter, brought by Gov. Winthrop of Connecticut, came, demanding surrender, and the council suggested reading it to the people, but the governor, in a rage, tore the letter into bits, but later had the pieces gathered up and a copy made, which was submitted to the people.

HUMOROUS.

"She's not as pensive as she was before you married her." "No; she's expensive now."—Indianapolis News.

His Pound of Flesh.—Financier (tenant of our forest, after a week's unsuccessful stalking)—"Now, look here, my man. I bought and paid for ten stags. If the brutes can't be shot, you'll have to trap them! I've promised the venison, and I mean to have it!"—Punch.

Holdon—"I tell you what, Harry, I wish I had enough money to relieve all the distress amongst the poor people of this town." Somers—"A generous wish." Holdon—"You see, if I had all that money, I'd be able to live like a fighting cock all the rest of my life."—Boston Tranacript.

Opportune Time.—She—"George, I think you'd better not speak to papa to-night. I'm afraid he isn't in a very good humor." He—"Why not?" She—"My dressmaker sent him her bill to-day." He—"But, dear, I'll make it clear to him that I want to provide for you in the future."—Philadelphia Press.

A young man from Banffshire was spending his holidays in Aberdeen. While walking on "the green" in company with his uncle he was surprised to see so many kites flying. Observing one far higher than the rest he called his uncle's attention and asked if ever he had seen a kite flying as high before. "Did ever I see ane as high afore? Man, Jamie, that's naething, for I hae seen some o' them clean out o' sight."—Scottish American.

GIANT MUSHROOMS.

In England They Sometimes Grow Big Enough for Sunshades or Umbrellas.

Mushrooms are specially abundant in many districts this year. The statement that great quantities are being found in the rural districts around Colchester has brought in several letters from other parts of the country. All our correspondents state that they are enjoying the delights of mushroom picking, and one of them adds that this is the best tonic for the season. Two correspondents have found mushrooms which they consider to be of unusual size. What is an unusual size for a mushroom is a very much discussed matter, but we give our correspondents the credit of their finds, says the London Express.

"Paterfamilias," writes from High Wycombe to this effect:

"The other day I was out in the fields with my two children. It was the sort of day to which we have got accustomed now—when rain is regarded as probable every other minute. I mention this to explain what follows. My children had gone on ahead of me when I was struck by their attitude. I could not see exactly what they were doing, as I am short-sighted, but they were coming toward me with something over their heads. It turned out to be a very late mushroom, and they were pretending that it was a fairy's umbrella. I had no measure with me, and before we got home the mushroom had been chipped a good deal, owing to the children's letting it fall, but I feel sure that it was at least ten or 12 inches in diameter. This surely constitutes a record."

But the supposed record is soon beaten. Our other correspondent has found a bigger mushroom. Writing from North Kent, he says:

"I was looking for mushrooms yesterday morning, when I came across a patch of the biggest I have ever seen, all together in a field. They all seemed to run from ten inches to a foot across, and after looking about for some time I found one that eclipsed all the others in size. I took it home carefully and had it measured. It was just under 13 inches across, but was only three inches in the stem. My wife and I made quite a meal off it."

SCHOOL AND CHURCH.

The fact that last year the Fiji islands contributed $25,000 to foreign missions is in itself an announcement that the heathen countries of the world are diminished by one.

There are between 80 and 90 principal synagogues in the United Kingdom, in which just under 100,000 Jews worship. There are also 150 minor synagogues, or bethels.

An extensive movement toward Christianity is reported among the low caste Lal Begis people near Meerut, in the northwest provinces, India, in connection with the mission of the Church Missionary society.

A movement has been started in England, under the lead of Lord Radstock, to place a copy of the Scriptures in the hands of every child in the schools of India who is able to read a Gospel in his or her own tongue.

Iowa college, Grinnell, opened its first year under President Bradley with an attendance of 303, the largest in the history of the institution. The total of all the students on the ground, including those studying in the academy and the school of music, reaches 450.

A Bombay medical missionary last year treated 3,110 patients in addition to her regular work as teacher in a boarding school. This missionary's industry is paralleled by that of a doctor in India, an eye specialist, who treated 12,000 patients during one year, besides visiting many in their homes.

A richly deserved retort was that made by a Sioux girl at the Hampton institute not long since. A silly visitor to the school went up to the magnificent red-skinned belle and said: "Are you civilized?" The Sioux raised her head slowly from her work—she was fashioning a breadboard at the moment—and replied: "No; are you?"

Bradford (Mass.) academy began its one hundredth year with an entering class of over 100 young women. This turn in the fortunes of this institution is deserved testimony to the beauty of its situation and its excellent equipment. Several new teachers are employed, the accommodations of the school are insufficient for its needs and there is a long waiting list.

Hebrew Exclusiveness.

Is Jewish exclusiveness becoming a legend rather than a reality? It would seem so, at least in Australia. The recently published matrimonial statistics of New South Wales show that in 1901 67 Jewesses selected husbands from the Church of England, 17 mated with Catholics and 11 found their affinities in the Presbyterian fold. One hundred and fifty-one Jews united to Anglican wives, 62 to Catholics, 13 to Presbyterians, 12 to Methodists, four to agnostics, and two to Congregationalists, while a solitary son of Israel is returned as having wedded a Baptist. Altogether, out of 781 Jewish marriages, 341 were more or less "mixed."—London Chronicle.

Future Vengeance.

"You'll be sorry for this some day!" howled the son and heir as his father released him from the position he had occupied across the paternal knee.

"I'll be sorry? When?"

"When I get to be a man!"

"You will take revenge by whipping your father when you are big and strong and I am old and feeble, will you, Johnny?"

"No, sir," blubbered Johnny, rubbing himself, "but I'll spank your grandchildren till they can't rest!"—N. Y. Times.

Deeds of Daring.

Cholly—Aw—I say, Fweddy, let's do something desperate and bweak into the hewoic class.

Fweddy—All wight, dead boy. What shall we do?

"Something extwaordinary, doncher know. Hawl I have it; we'll have bweakfast food for dinner."—Chicago Daily News.

CASE NO. 34,320.—Mr. Walter McLaughlin, of 3022 Jacob street, Wheeling, W. Va., a machine hand working at J. A. Holliday & Son's planing mill, says: "I firmly believe had I not used Doan's Kidney Pills when I did I would not be alive now. I was in a terrible condition, and although I took quarts of medicine, and was attended by doctors, I got no better, but worse. Friends spoke of my bad appearance, and thousands knew about it. I could hardly get around and felt and looked like a dead man rather than a living one. Doan's Kidney Pills, procured at the Logan Drug Co.'s store, were a blessing to me; half a box relieved me; three boxes entirely cured me."

A FREE TRIAL of this great kidney medicine which cured Mr. McLaughlin will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

Why invest your money at 3% or 4% when the W. L. Douglas Preferred Stock pays 7% and is absolutely safe. Every dollar of stock offered the publicbas behind it more than a dollar's worth of actual assets. W. L. Douglas continues to own a majority of the business and is to remain the active head of the company.

This business is not an undeveloped prospect. It is a demonstrated dividend payer. This is the largest business in the world producing Men's good year Welt (hand sewed process) shoes, and has always been immensely profitable. The business is safe against fierce competition or panic, making it a better investment than any other industrial stock. There has not been a year in the past twelve when the business has not earned a actual cash much more than the amount necessary to pay 7% annual dividend on the preferred stock of $1,000,000.

The annual business now is $4,000,000, it is increasing very rapidly, and will equal $7,000,000 for the year 1903. The factory is now running on two full sets of hours per day, and an addition to the plant is being built which will increase the capacity to 10,000 pairs per day. The reason I am offering the Preferred Stock for sale is to perpetuate the business.

If you wish to invest in the best shoe business in the world, which is permanent, and requires 1% on your money, you can purchase one share or more in this great business. Send money by cashier's check, certified check, express or P. O. money order, or bank draft to W. L. Douglas. Certificate of stock will be sent you by return mail. DURABLE WIRE FENCE.

Most Important Point in Constructing One Is the Secure Anchoring of the Posts.

The vital point in wire fence construction is the manner in which the ends are secured. Especially is this true of the stronger kind of fences, where several strands of heavy cable or elastic wires are used. It is desirable that the material used in anchoring the ends used should be placed in such a manner as to secure as great a degree of permanence as the fence itself. The most common method is to attach a stay wire to the ground line of the end post, running to near top of second post, with

a brace of timber from top of end post to bottom of second, or to a point near the ground. The objection to this bracing is that the stay wire and brace each assist the post to lift the end post out of the ground.

Another fault is that the whole strain of the fence is placed on the end post at the ground line, the point first weakened by decay. These objections are obviated in the method which I have used with perfect satisfaction for several years. I use an end post 7½ feet, of good size, say six to eight inches in diameter; second post also a pretty good one, seven feet long. A trench is dug directly in front of the position of end posts to a depth of 2½ feet, and across the line of the draft. End post is notched around the lower end to receive four strands of No. 8 or

9 galvanized wire, of length sufficient to reach and attach securely to the second post one-third way down from top, to be twisted into a cable later on. Then set end post in a place dug in the wall of the trench to receive it, which should be six inches deeper than the trench.

A narrow cut should be made to allow the stay wire to pass in a direct line, as shown in cut (Fig. 1). Place "dead man" (any rough piece of sound timber will answer; a log 12 inches in diameter split in quarters is satisfactory) in trench on top of stay wire and fill in with solid earth or stones, being careful to pack snugly; insert horizontal brace and twist stay wire by a short durable stick put through the center. This can be made fast to the fence after it is put on.

My way for leaving space for a gate in a line of fence is to set two good, large posts each side, nine feet apart; use a horizontal brace one-third way down from top and a stay of four heavy wires running from that point on second post to "dead man" buried in center of gateway. Over each end of "dead man" drive a pair of strong stakes in such a way that they cross and form a crotch, in which lay a piece of timber and bind it to the center of the "dead man" with a piece of wire. Then fill in and tamp earth and stones well around the "dead man," and if properly done your fence will not come loose or gate drawn away from its fastenings. In setting line posts I scatter the dirt (removed with a post-hole spade) and pack small stones around the post with an iron bar. The frost never pulls them out.—Don B. Husted, in Ohio Farmer.

A Large Head of Water.

In watering most crops the experienced irrigator knows that it is more economical to use a large head of water than a small one. A person can irrigate a given area in less than one-half the time with two cubic feet per second than would be required with one cubic foot per second, and it might be utterly impossible to irrigate the [illegible] with one-half a cubic foot per [illegible], for the reason that the stream would be likely be absorbed by the [illegible] and sink into the subsoil instead of flowing over the surface. In the irrigation of most crops a man can handle two and a half cubic feet of water per second with little difficulty. —C. T. Johnson, in Cincinnati Commercial.

The Special Crop Idea.

The need of adapting special crops to special localities and of determining the fitness of the soil for their successful culture is becoming daily more and more evident. For instance, the soil and climatic conditions in the vicinity of Dorr, Allegan county, in southwestern Michigan, are such that 400 acres of land are devoted to the raising of cucumbers for pickling purposes. Fifty cents a bushel is the prevailing price this season. The storage rooms are of sufficient capacity to store 80,000 bushels.

THE HEN'S IMPORTANCE.

She Is, According to Census Reports, the Commercial Queen of Industrial America.

The National Provisioner pays the following tribute to the industrious hen

"If you hear a hen cackling respect her; she keeps down food prices. Besides, she never cackles unless she is about to do something or has done something. The hen is the commercial queen of industrial America and the "feathered tribe" has more to do with our prosperity and domestic economy than at first seems possible. Poultry and eggs control meat prices at certain seasons and influence them at all times. The hen and her product, along with other fowls, are meat's persistent competitors all over the world. This competition is especially felt in this country during the late spring and early fall.

"We now eat last year's fresh eggs and last year's fresh poultry just like we do last year's fresh meats. Cold storage is the wizard in the case. It keeps them on tap. The census enumerators found all the hens, ducks, and geese setting the day he was around. The figures sent in showed that the barnyard fowls of America laid 167,000,000 dozen or 2,000,000,000 eggs a year for consumption. At an average of 15 cents per dozen they were worth $25,050,000. To the above must be added the hatching eggs, or, better, the hatched birds that are sold as spring or other poultry. Last year this amounted to $220,000,000 worth!

"In comparison: Our much vaunted wheat crop the same year realized $303,000,000; our cotton crop, $325,000,000. It beats our production of gold for the year three times over. The sum realized by the poultry industry would have paid all our public school bills for that year and have had a surplus of $112,000,000 to spare. There are a lot of other crops which the hen could beat in sets of three each. This showing enhances the importance of the chicken and makes the poultry yard a strong competitor of the stock yards."

SOD POULTRY HOUSE.

Kansas Farmer Considers It Healthful and Convenient for Quite a Large Flock.

The house shown in the illustration was built by E. D. Smith, of Kansas, who has found it healthful, convenient and large enough to accommodate 75 to 100 hens. He writes: In a bank sloping southwest I made an excavation 12 feet east and west by 22 feet north and south. At the southwest corner the excavation was on a level with the surface of the ground; at the north side it was two and one-half feet deep. Around the edges I built a sod wall, making its upper edge five feet above the floor. I roofed the north half with boards and covered with tar paper. A border of sod was placed all around the edge, then the whole overlaid with six inches of gypsum taken from a pit near by. In the south half of the roof I put two hotbed sashes three by nine feet and covered the remainder of the space

SOD HOUSE FOR POULTRY.

the same as the north side. In the walls were placed two glass windows and a door with glass in the upper part. In the north wall there is a window level with the roosts 18 inches high and five feet long. It is used for ventilation in the summer. In the winter it is covered with boards and banked with earth. The windows are hinged and covered with heavy wire netting. I have an extra lattice door for summer.

The walls were given two coats of gypsum, or poor man's plaster (very abundant in the southwest), and when dry a heavy whitewash was applied to fill all cracks. Roosts occupy the north half. The south half under glass is reserved for nests and a feeding ground during stormy weather. The floor under the roosts is made of gypsum, cement and sand. From this the droppings can be readily taken. I feed boiled wheat in the morning, dry wheat at noon and a feed of meat at least once a day in winter. I have kept 75 to 100 single comb Brown Leghorns in this house for three winters without having a frozen comb. The hens lay well also. The bank feature is not essential; walls made entirely of sod will answer.—Farm and Home.

Ration for a Draft Horse.

According to the best authorities, the draft horse should have two pounds of food daily for each 100 pounds of live weight. A 1,600-pound draft animal should be fed 32 pounds of food, of which at least 10 to 18 pounds should be grain, the grain component depending on the severity of the labor performed. For light work, oats, with a little corn, are excellent; with an increase of work the amount of corn should increase, as this carbonaceous food supplies heat and force. Of late years cracked grain and hay run through a feed cutter is a favorite feed. This can be mixed and fed in the grain box. It is also the opinion of the best farmers that the noon meal should be comparatively light. Where horses are subjected to very severe labor, the grain should be ground and the hay moistened.

RUINS OF OLD JERUSALEM.

Valuable Relics of Antiquity Unearthed in Excavating in the Holy City.

The Greek Catholic monks, who are in possession of the chief portions of the church of the Holy Sepulcher, are now going to build a hotel opposite it, where pilgrims may purchase souvenirs of their visit to Jerusalem. During the process of clearing the site the foundations of an old medieval church, 40 meters long and 30 wide, with three apses, were discovered, says the London Standard. A number of fine capitals, fragments of basalt pillars and bas-reliefs, with symbolic animals, were found, all these remains having doubtless belonged to the choir of the church. Last year a valuable silver shrine, containing a piece of the holy cross and relics of the Apostles Peter and Paul—according, at least, to the inscriptions on them—was found at the same place.

The patriarch of Jerusalem, it is said, is keeping other discoveries secret, owing to his dislike of the Roman Catholic church. Those mentioned above are all the more important, as it can be ascertained to what church they belonged. According to the statement of a medieval traveler the hospice and the monastery which the citizens of Amalfi founded about the year 640, as a refuge for western pilgrims, were situated due south of the holy sepulcher, about a stone's throw away. The first church was built in honor of St. Mary de Latinis, and the second, the ruins of which have now been found, in honor of St. John the Baptist. The French monk Bernard, who lived there in 870, highly praised the hospitality and the large library of the hospice. A Mohammedan historian says it was destroyed by the Khalif Hakem, and rebuilt shortly afterward, while, according to another account, it prospered down to the time of King Baldwin, of Jerusalem, from 1100 to 1118, when the two communities of St. Mary and St. John adopted the latter as their joint protector. This was the origin of the Knights of St. John. The remains now discovered, therefore, are the ruins of the cradle of this order. It is much to be found that the preservation of these very interesting remains seems impossible, owing to the ill-feeling which exists between the Greeks and Roman Catholics in Jerusalem.

CLOSE CALCULATION.

The Hard Times Experienced by a Young Schoolmaster in Making Ends Meet.

It is within the memory of many middle-aged people that the custom of schoolteachers "boarding around" was the usual thing in country districts. Although a custom which teachers seldom liked, it is doubtful if many of them had as hard a time as a young schoolmaster who described his experience in the New England Galaxy for 1817, says Youth's Companion. The article was written by Leonard Apthorp, then an undergraduate of Bowdoin college. The young schoolmaster was to receive $15 a month and his board.

From the first day I perceived that I was at board on speculation, and at the mercy of a close calculator, he writes. One day the whole dinner consisted of a single dumpling, which they called a pudding, and five sausages, which in cooking shrunk to the size of pipe-stems. There were five of us at table.

A few days afterward, on my return from school, my eyes were delighted by the sight of an animal I had never before seen. It was a raccoon, which the young man, Jonathan, had killed and brought home in triumph. When skinned he seemed to be one entire mass of fat, and of a most delicate whiteness. I was overjoyed, and went to bed early to dream of delicious steaks which the morrow would bring.

Long before daylight I heard the family stirring, and the alacrity of quick footsteps and the repeated opening and shutting of doors all gave assurance of the coming holiday.

I was soon ready for breakfast, and when seated, at table I observed that the place of Jonathan was vacant.

"Where is Jonathan?" I asked.

"Gone to market," said they.

"Market! What market, pray? I did not know there was any market in these parts."

"Oh, yes," they said, "he is gone to ——, about 30 miles to the southward of us."

"And what has called him up so early to go to market?"

"He has gone," said they, "to sell his raccoon."

Infant Market in Hungary.

The orphanage at Temesvar, in Hungary, holds an "infant market" once a month, at which all the children at the orphanage will be on view, and at which persons desirous of adopting one or more of them can inspect them and take their choice. The first of these markets passed off very successfully. Thirty children were on view—boys and girls between the ages of one and ten years. Nineteen of them were adopted, five boys and 14 girls. Most of them were adopted by fairly well-to-do people, and one foster mother went straight to a lawyer's office and made her newly-adopted child heiress to her fortune of $100,000.—London Mail.

Was Helpless.

"Hey, hey!" yelled the excited neighbor, "there's a robber in your house."

"You're right," said Mr. Fudge; "I saw him enter."

"Did you? Well, you don't seem to be excited about it. Wanter to call a policeman and nab the robber?"

"No use. It's the man who examines the gas meters."—Baltimore Herald.

WORD FOR WORD.

The Reporters Compiled to the Letter with the Wishes of the Speaker.

It is not a new plaint among legislative and other loquacious bodies that the shorthand report is not all that it should be, but if the reporter's side is less frequently presented it is not because there is nothing to be said. A member of a committee found fault, so the Christian Endeavor World says, with the way their speeches were reported; his own, in particular, were scarcely recognizable when seen in print.

He did not want his speeches "cut," neither did he want them embroidered. He wanted them to come out in the paper exactly as he made them. So did the member who spoke next, whereupon the shorthand writers retaliated, with this telling result:

"The reporters ought not to—the reporters ought not to be the ones to judge of what is important—not to say what should be left out—but—the member can only judge of what is important. As I—as my speech—as—as the reports—as what I say is reported sometimes, no one—nobody can understand from the reports—what it is—what I mean. So—it strikes me it has struck me certain matters—things that appear of importance—are sometimes left out—omitted. The reporter—the papers—points are reported—I mean—to make a brief statement—what the paper thinks of interest—is reported."

"Dr. August Koenig's Hamburg Breast Tea," writes Mr. F. Batsch, of Horicon, Wis., "enabled me to get rid of an obstinate cough; we feel very grateful to the discoverer of this medicine."

"Dar's no good in kickin' care every rose hab its thorn," said Uncle Eben. "If dar was only jes' thorns without no roses, it 'ud be sumpin' sho' 'nough to complain about."—Washington Star.

PE-RU-NA CURES CATARRH OF KIDNEYS EVERY TIME.

DANGEROUS KIDNEY DISEASES CURED

Pe-ru-na Creating a National Sensation in the Cure of Chronic Ailments of the Kidneys.

Major T. H. Mars, of the First Wisconsin Cavalry regiment, writes from 1425 Dunning street, Chicago, Ill., the following letter:

"For years I suffered with catarrh of the kidneys contracted in the army. Medicine did not help me any until a comrade who had been helped by Peruna advised me to try it. I bought some at once, and soon found blessed relief. I kept taking it four months, and am now well and strong and feel better than I have done for the past twenty years, thanks to Peruna."—T. H. Mars.

Mr. John Vance, of Hartford City, Ind., says: "My kidney trouble is much better. I have improved so much that every body wants to know what medicine I am using. I recommend Peruna to every body and some have commenced to use it. The folks all say that if Dr. Hartman's medicine cures me it must be great."—John Vance.

Mr. J. Brake, of Petroles, Ontario, Canada, writes: "Four years ago I had a severe attack of Bright's disease, which brought me so low the doctor said nothing more could be done for me. I began to take Peruna and Manalin, and in three months I was a well man, and have continued so ever since."—J. Brake.

At the appearance of the first symptom of kidney trouble, Peruna should be taken. This remedy strikes at once the very root of the disease. It at once relieves the catarrhal kidneys of the stagnant blood, preventing the escape of serum from the blood. Peruna stimulates the kidneys to excrete from the blood the accumulating poison, and thus prevents the convulsions which are sure to follow if the poisons are allowed to remain. It gives great vigor to the heart's action and digestive system, both of which are apt to fail rapidly in this disease.

Peruna cures catarrh of the kidneys simply because it cures catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION

I have spent much of a long life in the observation of horses. I have reared them, broken them trained them, ridden them, driven them in every form from the plow to the four-in-hand. The result of these years of study is summed up in one sentence: I believe the horse to be part maniac and part idiot. Every horse at some time in his life develops into a homicidal maniac. I believe any man who trusts himself or his family to the power of a horse stronger than himself to be lacking in common sense and wholly devoid of ordinary prudence. I have driven one commonplace horse every other day for 6 years over the same road, and then had him to go crazy and try to kill himself and me because a leaf fluttered down in front of him. I have known scores of horses, apparently trustworthy, apparently creatures of routine, go wild and insane over equally regular and recurring phenomena. No amount of observation can tell when the brute will break out. One mare took two generations of children to school over the same quiet road, and then in her 20th year went crazy because a rooster crowed alongside the road. She killed two of the children. If any one can tell me of one good reason why man should trust a horse I should be glad to know.—Correspondent Harper's Weekly.

Justice Shiras has a collar button story which he tells with a great deal of gusto, says the Chicago Record-Herald. A man in Pittsburg, where he used to live, had a wife who was complaining of dyspepsia, and she heard of a certain remedy that was put up in capsules. Her husband bought a dozen at a drug store, and brought them home in a pill box. At the same time he bought a dozen collar buttons, made of a metallic composition that looked very much like pearl, and the druggist gave him a pill box similar to that in which the capsules were put up to carry them in. He took both boxes home, handed them to his wife, and the same day she began to take the medicine. After she had taken twelve doses she was entirely cured, and advertised the wonderful remedy all over the neighborhood. About this time her husband lost his collar button and, opening his pill box, found it empty. A brief investigation showed that the capsules in the other pill box were still there, and that his wife had swallowed twelve composition collar buttons two a day for six days, and been entirely cured of dyspepsia.

Those who have cows that give milk very rich in butter fat, and desire to raise their calves by hand (and none should ever be raised by allowing them to suck the cow unless they are intended for the butcher), will find an advantage in reducing the milk after the first two or three days, by diluting with about one-third of water or one-half of skim milk. The well-fed Jersey or Guernsey cow, and sometimes those of other breeds, gives milk so rich in fat as to be really indigestible. Always give the milk at a temperature of 98 to 100 degrees, at least until five or six weeks old, then it may be given cooler, and soon they may be given cold milk, or some that is partially sour, as they will then have begun to eat hay or grass almost enough to support them without any milk. By gradually decreasing the new milk and increasing the skim milk we used to have them taking only skim milk by the time they were three or four weeks old by adding a little porridge to the milk. Now flaxseed jelly or a little oat meal is preferred to the porridge, but if scours came on we would scald the skim milk and add flour porridge. Food too rich or too cold milk are the most frequent causes of scours, though taking cold from standing in a wet draft or living in a wet place may cause it as surely, but not many dairymen or stock raisers are so careless as to allow that, even if not always particular enough about the food. Overfeeding is sometimes a cause of bowel trouble. Never give so much that an animal will not come up with as good appetite at the next feeding time, and if it lacks appetite, skip one feed entirely, or greatly reduce the amount.—American Cultivator.

Our Missionaries to Korea, Rev. Willard Cram and wife, have been heard from at Honolulu, Oct. 12 to 15. They expect to reach Yokohoma by Oct. 25 and their destination Songdo, Korea, by Nov. 15. They were well and enjoying the voyage immensely—except a day or two of sea sickness, soon after leaving San Francisco. They are full of hope and perfectly reconciled to their [illegible].—Williamstown Courier.

The apple crop throughout the country this year, according to the estimate of the New England Homestead, will be 43,000,000 barrels, against 27,000,000 barrels in 1901. As for quality, this is far from satisfactory in the Central and Western States, and in New England it is very much better.

Among the other provisions in the contract which the Downs, Kans., School Board makes the teacher sign is this: "No teacher shall engage in dancing or card playing during the continuance of this contract, nor attend any formal parties during the school week." How many Boone county teachers would sign a like contract?

BOONE COUNTY RECORDER.

VOL. XXVIII. BURLINGTON, KENTUCKY, WEDNESDAY, NOVEMBER 12, 1902. NO. 4

County Correspondence.

COMMISSARY, Nov. 8.—Ransom Ryle's mother visited in this neighborhood the first of the week.

Mrs. Will Rogers and Mrs. James Botts visited their mother, Mrs. Scott, near here, last Monday.

Mrs. Phoebe Nettles and Mrs. Martha Reeves spent last Saturday and night with their nephew, Asa Delph and wife.

Omar Popham and Alva Moyer, of Indiana, were over, last week, on a short visit, and returned to their homes Sunday.

Colon Kelly and wife, of Rabbit Hash and Eugene Kelly and wife, were guests of W. L. Ryle and wife, last Sunday evening.

Mrs. J. J. Walton, and Mrs. Williamson, of Bellevue, were guests of Mrs. T. J. Walton, last Monday, and Mrs. W. T. Ryle and Mrs. Eugene Kelly, on Wednesday.

There will be another grand hop in Bellevue at the I. O. O. F. hall in the near future. Watch the Commissary for date—in fact watch the Commissary for general information.

The wedding party that went to Burlington Wednesday to get spliced returned in a pelting rain, wearing a pleasant, happy and contented smile, as though they were the first and only couple ever married. We wish them much joy, happiness and prosperity.

James Louden, of McVille, is conducting a matrimonial agency. His fee is $5, $1 in advance as a guarantee of good faith, the balance when married, party giving note with approved security. Mr. Louden has had considerable experience in this line of business, and if put in his hands will receive prompt attention.

The indications are that a couple of our young people who have been casting goo-goo eyes at each other have had a lovers' quarrel, but we don't think it will amount to much, as young people do a whole lot of making up before marriage without having quarreled; but after marriage they do a lot of quarreling without making up.

As Bro. Snyder said, we have been doing rural delivery work for about two years without compensation, excepting two or three good suppers we got at W. J. Rouse's and T. J. Walton's where we happened to be at meal time. Messrs. Rouse and Walton are good providers, and their good wives know how to dish up provisions to suit our taste. We have one coming from our worthy prophet, W. T. Ryle, and J. J. Gaddard.

Now that the election is past the Commissary can say what no other town in the county can say, and that is every voter went to the polls on the 4th inst. and voted the straight Democratic ticket, even if "Uncle" Button Smith didn't know that there is such a being as a straight Democrat. I am one from the sole of my head to the crown of my feet. I am a Democrat because Democratic principles are right. Our Savior was a Democrat, and the plan of salvation was founded on democratic principles; had it not been the party that came in the name of Republican would have been in a bad row for stumps. While I am a Democrat I am a Republican, too. In their true meaning the words are the same.

HATHAWAY, Nov. 10.—Hunting was the order around here last week.

Mrs. W. B. Horten remains in a critical condition.

G. N. Smith killed and trapped 50 rabbits in two days last week.

W. B. White visited his old neighbor J. J. Berkshire, Saturday night and Sunday.

Mrs. Ines Conley, of French, Ind., spent last week with her son, E. C. Conley, on Gunpowder.

Jno. S. Mason finished hulling clover last week, and has hauled his machine into winter quarters.

Ye scribe and family spent Saturday night and Sunday week with James White and family, of near Burlington.

Mrs. Carrie Rice and daughters, of Big Bone Springs, spent a couple of days last week with her parents on Gunpowder.

W. H. Moore sold his span of match mules, one day last week, to Henry Clore who lives out on the East Bend road. Price, $275.

Big Bone church called Rev. W. S. Taylor as their pastor for the ensuing year, at the special call meeting last Saturday evening.

Weaver and Houston had a brick flue built in their store last week. O. B. Utz, contractor and builder. O. B. is a jack at all trades.

James Setters started his threshing out fit again last week, and threshed for the writer and then left for East Bend to thresh a large crop of clover.

Bro. Thomas I thought I recognized you Sunday evening as I passed you on Rock Spring branch, but if I should meet you after night I would not know which way your hair layed.

WALTON, Nov. 10.—C. C. Fry, of Dry Ridge, made the town a brief visit, last week.

W. N. Hind was out from the city, last Sunday.

Mrs. Susan E. Stevenson lost a silk umbrella somewhere in going to or from Verona. The finder will please leave it at the postoffice in Verona and oblige S. E. Stevenson.

Will Lee Johnson was around, one day last week, jubilating very extensively. Getting a little quiet talk with him it was learned that he had just received a letter from his son, Kirtley, dated, "Winfield, Kansas, Nov. 1st," announcing the birth of a daughter. "Just to think," said he, "I never was a grandfather before."

H. C. Diers has gone one better than all the others on improvements of neglected property. The old King Hotel will have a nice terrace in front, protected by a cement retaining wall, giving quite a distingue appearance. Jno. Fink is also making many improvements on the Kentucky Hotel property. It is thought that the Phoenix will call for a shoveler before this pleasant autumn weather has passed away.

S. C. Johnson, on reading the chicken feather item in the Hebron news, last week, in which Mr. Mannin was the leading feature, said, "O shucks! That's nothing. I've been dealing so long in hogs that the bristles on my back are 3 inches long, and friend Kipp want ste shave them off to make 'waxends" of them, but he must wait a short time, as there are 7 nice ones that will be sold at the Holdersale that I want to get hold of, and then Kipp can have the bristles."

PETERSBURG, Nov. 9.—Mr. Newbold will move to Cincinnati, this week.

Mrs. Agnes Grant is quite sick.

Mrs. Will Stephens is very sick.

Mrs E. T. Krutz is visiting at Etheridge.

Geo. Batchelor and Katie Snelling eloped, Saturday, and were married in Lawrenceburg.

An interesting protracted meeting is in progress at the M. E. church. No additions to date.

H. D. Arnold and wife have moved up from Bellevue, and occupy the Weindel property.

Misses Thompson and Mrs. Harry McWethy, are delegates to the Epworth League Convention at Walton.

Did you ever stop to consider what a cheap and safe investment life insurance is? Drop a line to C. C. Roberts, Burlington.

The town was considerably stirred up a few days since by the report that Geo. Weindell had fallen from his battle ship and was drowned. Happily it was not true.

Elijah Acra has recovered from the severe blow he received from a poll on which a chain broke when pulling seven miles with a team of horses. It is a wonder his neck was not broken.'

The following united with the Christian church here during the recent protracted meeting: Nannie Terrill, Lendell Alloway, Flossie Botts, Diver, Fred Chas. and Maud Belden, Mamie and Susie Helms, Mrs. Wm. Rector, Emma and Cora Nixon, and Steward Berkshire.

Wells, the shanty boat ferryman, located on the Indiana shore opposite here, tried to put our old river man, Tim Smith, out of business, a few days since. He does not like Tim's engaging in the ferry business, and to put a stop to it, he shot at him two or three times the other day, but Tim sticks to the trade.

The Inter-State will only charge you $4 07 a year per $1,000 at age of 35. Let us show you how we do it.

Joe Huey moved his household furniture from Hathaway, last Thursday, to the old Ryle place near here.

Mrs. Cynthia Wilson, Mrs. Emma Presser, Mrs. Annie Ryle and Mrs. Claud Ryle, dined with Mrs. L. W. Stephens, Monday.

LUDLOW.—We had a very quiet election in Ludlow, everybody voting as he pleased and the ward heelers having to take back seats. There was a scheme on to knife Judge Paynter, but voters of both parties who wanted to down the "gang," came to the rescue, and Judge Paynter received a majority of 38, and Mr. Dan Gooch, 30. Many of the ballots were marked Paynter and Applegate, and Deering and Gooch, showing that it was the intention of the Gooch faction to down Paynter. Had it not been for the Republicans who voted for Judge Paynter he would have run far behind his ticket here. The voters of this city are determined to have honest elections even if they have to sacrifice both the parties in order to accomplish it. The people are tired of the way political affairs have been conducted in Kenton county for the last several years, so Covington went Republican, Ludlow, Democratic and Republican, while West Covington was carried by the Socialists.

Nov. 11.—I attended the meeting of the Teachers' Association at Pt. Pleasant school house a few days since. I attended for two reasons:—to get a good dinner and to hear the addresses upon "The Improvement of our Public Schools." There could have been no improvement on the dinner provided for the occasion, thanks to the ladies of Pt. Pleasant. I was very much pleased with Prof. Northcutt's remarks on Civil Government. It is something the teaching of which should not be neglected in our pulic schools. Teach the pupil the duties of every officeholder from the lowest to the highest, and he will make an intelligent voter. Teach him that the public schools are necessary to perpetuate a free and independent government. Teach him that the public schools of the United States are our fortresses and that the teachers are our sentinels. Our flag floats over our military forts, so should it float over our educational forts. The subject of district or local taxation, is another important subject that should interest the people. We have a school in Ludlow which we consider second to no school in the State, and local taxation made it what it is. We have the money with which to hire good teachers at good salaries. The amount of money received from the State for district school is not sufficient to employ a good teacher for 5 months. There should be a local-tax, so good teachers could be employed at good salaries. The county has a good Superintendent who is laboring for the betterment of the public schools, and should have the cooperation of all the friends of education. T. J. McNEAL.

BEAVERLICK, Nov. 11.—Richard Hoard and family moved from here to Erlanger, last Thursday, where he will reside and work in the city. They are good people, and we regret losing them, but our loss is Erlanger's gain.

Died, Thursday, November 6th, of old age and general debility, Mrs. Lydia Ann Black, relict of Cousin Sam Black, of Little South Fork creek. The remains were laid to rest in the South Fork cemetery. Edward Bros., funeral directors.

It may sound strange, at this day, and age of the State, to describe a deer chase in the south end of Boone county but, nevertheless, such a thing actually occurred last Thursday. Several sportsmen, with their hounds, started the fine, young buck in the Berkshire hills and ran him nearly to Beaver, when his deership suddenly changed his course west ward and crossed the Ohio river near Billy Grimsley's. Where the pretty, fleet footed young deer came from, is a question upon which our sportsmen are not generally agreed.

A Startling Surprise.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for 10 years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50cts, at W. F. McKim's, Burlington; J. G. Oelsner's, Florence; Union Drug Store Union; A. W. Smith's, Walton; O. N. Grant's, Bellevue.

Any company is an experiment for the first 10 or 15 years of its life. This company is past the experimental age.

This company may fail, but the Government is just as apt to.

If you are going to insure, why not put your money where it is absolutely safe? Why not carry no insurance and you treating your wife fairly?

THE KING'S BIRTHDAY.

A Host of Congratulations and Gifts Received By the Sovereign.

Sandringham, England, Nov. 10.—The weather here Sunday was perfect and mild, and the bright sunshine brought crowds of visitors to Sandringham on the chance of seeing Emperor William. The approaches to the church were lined with spectators. Queen Alexandra, the prince of Wales and Mrs. Chamberlain arrived at the church together. Half an hour later King Edward, Emperor William, Prime Minister Balfour, Colonial Secretary Chamberlain and other distinguished persons arrived and stood chatting outside. King Edward talked with Mr. Chamberlain for a few minutes, then the emperor of Germany approached and for a quarter of an hour the emperor and Mr. Chamberlain stood apart and conversed earnestly. The service had begun and the anthem had been reached before the royal party entered the church; the king taking the emperor's arm.

The bishop of Ripon preached on the possibility of the disappearance of race distinctions and the attaining of the grand brotherhood of men. He referred to King Edward's recovery from his illness; to the visit of his kinsman monarch and to the ties which have long united Germany and Great Britain.

During the day King Edward received a host of birthday congratulations and gifts. Emperor William gave him a valuable vase.

EIGHT WERE INJURED.

Wagon Containing 12 Persons Run Into By a Street Car.

St. Louis, Nov. 10.—A wagon containing 12 persons was run into by a street car at the corner of Jefferson avenue and Howard street Sunday night and eight were injured. The crowd attracted made an attempt to lynch the motorman and car conductor, but the police interfered. The wagon was turned over by the collision and the occupants thrown in every direction. Loretto Sefton, a year-old girl, was internally injured and was taken to a hospital. The others received severe bruises, but were able to go to their homes.

A crowd soon collected around the crushed wagon and some one shouted, "Lynch the car crew." Instantly a rush was made for the conductor and motorman. Several policemen rushed to the rescue and by threats to shoot kept the crowd back until a patrol wagon could be called. The car men were then taken to the police station for protection.

BOILER BLEW UP.

Two Men Killed and Pumping Station of Water Supply System Wrecked.

New York, Nov. 10.—Two men were killed and one of the pumping stations of the city's water supply system in Queensborough totally destroyed Sunday by the explosion of one of the two big boilers which furnished power for the pumps. Those killed were:

W. Dihoy, the engineer of the plant, and James Nelson, the fireman. The building was ripped to pieces. Bricks from it flew a distance of a thousand feet or more while the boiler which exploded was hurled 200 feet from its bed. The other boiler, which was not in use at the time, was lifted from its foundations and thrown a hundred feet in the other direction. The body of the engineer was hurled about 150 feet from a spot where he is supposed to have been standing. Scaling of the boiler is supposed to have caused the explosion.

BEATEN TO DEATH.

Murder During a Wedding Celebration at Reading, Pa.

Reading, Pa., Nov. 10.—While celebrating the marriage of John Wojtko, at the home of John Wrabel, of this city, Sunday, John Morshira and John Odiajansky became involved in a quarrel with the bridegroom and Wotjko was beaten to death with a club. Several peacemakers were seriously injured. The murderers escaped but Odiajansky was arrested two hours later. He is said to have struck the fatal blow.

The Robbers Fled.

Seymour, Mo., Nov. 10.—Robbers made an unsuccessful attempt to rob the bank of Seymour Sunday. They blew the safe and while working in the inner doors a crowd of citizens appeared. A fusilade from the robbers put the citizens to flight and the robbers left the bank and ran to the railroad, escaping on a handcar. A posse is in pursuit.

A Terrific Shock.

Houghton, Mich., Nov. 8.—Residents of Hancock and Houghton were greatly alarmed Friday night by a terrific shock which rocked houses and rattled windows. Investigation failed to disclose the cause of the shock. This is the second occurrence of the kind within three months.

The Cholera in the Philippines.

Manila, Nov. 10.—The cholera continues to be intermittent in different parts of the archipelago. The recorded total of cases is 105,000 and of deaths 67,000. It is believed that the actual number of cases exceeds the recorded number by 20 per cent.

Will Be Called to the Cabinet.

Ottawa, Ont., Nov. 10.—Raymond Prefontaine, M. P., it is understood, will be called to the cabinet Monday to take the place of Mr. Tarte, who resigned the public works portfolio at the request of the premier.

THE MURDER MYSTERY

Toils Tightening Around Slayer of Two Girls.

Mason's Attorney Places No Faith in the Statement and Will Attempt to Show That the Negro is the Guilty One.

Boston, Nov. 8.—Miss Clara A. Morton was murdered at Waverly last Saturday. A few days later Alan G. Mason, a rich merchant and prominent club man of this city was arrested on suspicion. The girl's watch was sold to a jeweler on Monday by a colored man. A few days later the colored man was arrested and said that Mason gave him the watch to dispose of for him.

Boston, Nov. 10.—George L. O. Perry, the Negro who pawned the watches taken from the murdered women, Miss Clara A. Morton and Miss Agnes McPhee, declared Sunday that Alan G. Mason, the ..... merchant of Boston, is the man from whom he received these articles. Perry was taken to the jail in East Cambridge, where Mason, under arrest on the charge of killing Miss Morton, is confined pending a hearing in the Cambridge court Monday. In one of the jail corridors Perry positively identified Mason as the man who had given him the two watches. Mason, by neither look nor word, betrayed any knowledge of having seen Perry before. When questioned by Sheriff Fairhairn, Mason merely said: "I do not know this man; I never saw before."

During the day Chief Ryan and Officer Argy, of Belmont, talked with Perry, and later State Officers New, Dunham, Dexter and others took Perry to the jail. The callers were shown into the room where Mason and six others were in line. Perry walked straight up to Mason, who was second in position, and, pointing his finger at him, said:

"This is the man who gave me the watches to pawn."

He was about to leave the room when Sheriff Fairhairn asked him if he would not like to talk with Mason in order that he might make himself sure that Mason was the man. Perry replied there was no need of that, as he knew who the man was and had known him for a long time.

On being returned to his cell in the police station Perry was confronted by three newsboys and they identified him as another newsboy.

Another visitor at the police station was Mason's attorney. He was accompanied by a woman. This woman did not see Perry, but it was understood that she had been produced by the defense in the hope of showing that Perry himself or some other Negro was the real "Jack the Slugger." She is one of the women who were followed by a Negro in Cambridge several weeks ago. Mr. Ware places no faith in the statement of Perry that it was Mason that gave the boy the watches.

By arrangements made Sunday night Perry will be arraigned Monday at Cambridge on the charge of being accessory after the fact. The police say that Perry had been confined at the Lyman school for boys, having been convicted for assault and battery upon a young woman in this city.

Also it has come to light that on Sunday, July 27, Perry, who was then employed as the driver of a mail wagon from Cambridge to Boston, was missing from his work. It was on this date that an assault upon Miss Ellen Murphy occurred.

EVACUATION OF SHANGHAI.

Reported Germany Has a Secret Understanding With China.

London, Nov. 10.—The Daily Mail and the Daily News Monday morning throw doubt upon the reality of the reported settlement of the evacuation of Shanghai. The former paper hints that Germany has a secret understanding with China in the matter, while the latter journal declares that Emperor William's visit to King Edward is concerned with this question and with an endeavor on the part of Germany to secure a quid pro quo for German quiescence, while Great Britain completes her arrangements with Portugal with reference to Delagoa bay.

The Daily News further accuses the government of imperiling the British position in China, in order to secure the barren concession of Delagoa bay. Colonial Secretary Chamberlain is determined, according to the Daily News, to obtain a working agreement with regard to Delagoa bay at whatever cost.

Gov. Yates Somewhat Better.

Springfield, Ill., Nov. 8.—Gov. Yates was somewhat improved in condition Friday night. His fever was lower than Thursday and Dr. L. C. Taylor stated that he felt the governor was doing as well as could be expected under the circumstances.

Persian Minister Returned.

Washington, Nov. 7.—Gen. Isaac Khan, Persian minister to the United States, returned to Washington after an absence of six months, which he spent mostly in company with the shah of Persia at the different summer resorts in Europe.

Emperor William Starts For England.

Kiel, Nov. 7.—Emperor William left Thursday night on board the imperial yacht Hohenzollern for England, where he will visit King Edward. A fleet of British torpedo boats will meet the Hohenzollern in British waters.

AFTER THE LADRONES.

Vigorous Methods to Suppress Them to Be Adopted.

Manila, Nov. 10.—The government is adopting vigorous measures to suppress Ladronism in the provinces of Cavite, Rizal and Bulacan. A zone embracing these provinces, and surrounding Manila, is the scene of constant petty and, sometimes, serious disorder. Several armed bands, some of them numbering two or three hundred men, are operating in the described districts and have committed various depredations. They find a safe refuge in the mountains. The plan of the government contemplates securing the assistance of the military, which has been inactive since the end of the insurrection. The extent of the army's participation in the work of suppression depends upon developments. It is probable that the military authorities will request the garrisons to protect the more important towns, while the constabulary conduct the field operations. It is thought that martial law, in a modified form, will be declared and the privilege of the writ of habeas corpus suspended in Cavite province, which has been the home of the Ladrones for ages.

Military control of Cavite province is not contemplated. It is intended that the military and civil authorities shall work in conjunction. The belief is held that advantage has been taken in some parts of the island of the complete inactivity of the soldiers, and it is thought that the use of the army by the civil authorities will have a beneficial effect.

The vigorous campaign against the Ladrones, which has been conducted by volunteers in Bulacan province, has resulted in driving many refugee bandits into Rizal, where the campaign is now opening.

Gen. Davis is co-operating with Gov. Taft. He has strengthened the garrisons in Rizal and is supporting and assisting the native constabulary which is now afield. The operations in Cavite province will commence shortly.

TONS OF VOLCANIC ASHES.

The Decks of a Steamship Covered to the Depth of a Foot.

San Francisco, Nov. 10.—The Kosmos line steamship Luxor, from Hamburg, reports an unusual experience at San Benito, the lowermost port of Mexico, October 25. Thirty tons of volcanic ashes from the volcano of Mt. Quemado fell on her decks. She was anchored off shore awaiting lighters that were to be used in transferring her cargo.

Without warning the sky darkened until it acquired the pitchy blackness of a starless night. Then began a gentle rain of soft ashes, which soon covered the liner's decks to a depth of several inches. The fall of ashes continued until early in the morning of Octoher 28, when the decks of the Luxor were a foot in powdered pumice stone. Mt. Quemado, from which the ashes came, is about 70 miles from San Benito.

COLLISION ON THE N. & W. ROAD.

Engineer Killed and His Remains Burned to a Crisp.

Huntington, W. Va., Nov. 10.—N. & W. fast express No. 4, bound from Columbus to Norfolk, Va., had a head-end collision with an extra freight two miles north of Williamson early Sunday morning. Owing to the heavy fog that prevailed the engineer of the passenger train failed to see the danger signal and when the collision occurred his train was running near 50 miles an hour. John Snyder, of Plattsburg, W. Va., express messenger, was instantly killed. The injured are Abe Jackson, engineer, and J. C. Eakins, fireman. They live in Kenova and each is in a serious condition. The baggage and mail car caught fire and Snyder's remains were burned to a crisp. Traffic was delayed 12 hours.

TWO SAFES DYNAMITED.

About $600 Was Stolen and the Building Damaged Fully $6,000 Worth.

Pittsburg, Pa., Nov. 10.—At an early hour Sunday morning the office of Walker & Stratman, soap manufacturers, on Horrs island, was looted by burglars. Two of the four safes in the office were dynamited, about $600 stolen and fully $6,000 damage done to the building. The office building is some distance from the manufactory proper which enabled the burglars to do their work unmolested by the watchman and the dozen or more workmen who were on the night turn. No clew to the robbers has been found.

Shot and Killed Himself.

Kansas City, Mo., Nov. 10.—John McAfee, aged 24, a clerk in the office of the Kansas City Southern railroad, killed himself here by shooting. Officers found his body when they went to serve a warrant for McAfee's arrest, charging him with attempting to rob a fellow employe. His mother, Mrs. Julia Long, lives at Louisville, Ky.

For a Deaconess Home.

Kansas City, Mo., Nov. 10.—C. E. Schoellkopf, a local capitalist, has given a $25,000 site in this city to the Woman's Home Missionary society of the Methodist church, for the erection of a deaconess home and missionary training school.

Rebellion in China.

Peking, Nov. 10.—A rebellion against taxation to meet the indemnity China is to pay to the powers has broken out in the southwestern part of Chi Li province. Troops have been sent to suppress the disorders.

COAL FOR THE NAVY.

Total Amount Purchased Last Was 882,040 Tons.

Annual Report of Adm. Bradford, Chief of the Bureau of Equipment and Repairs of the Navy Department.

Washington, Nov. 10.—In his annual report, made public Sunday, Adm. Bradford, chief of the bureau of equipment and repair of the navy department, takes occasion to renew his protest against the action of the department in substituting a naval constructor for a line officer at shipbuilding works. A naval constructor, he says, is a non-seagoing officer. Inquiries as to the custom of the merchant marine in this matter, the report says, shows that the construction of merchant ships generally is supervised by the most experienced master mariner and chief engineer in the employ of the owners. It is an anomaly to build a ship and prepare her for sea under the supervision of a landsman.

The report does not touch on the question of additional coaling stations or of wireless telegraphy.

The total amount of coal purchased during the year was 382,040 tons at an average cost of $5.81 per ton, against $7.01 last year. This is the lowest price paid for coal since 1898, when the average was $4.63. The amount used was 18 per cent. larger than the preceding year. The amount used for storing purposes has increased more than five times during the past ten years. The report notes the gratifying fact that foreign coal purchased decreased 10 per cent. while the amount of domestic coal used increased 34 per cent. Special attention is called to the fact that 48 per cent. of the entire coal consumption was for auxiliary purposes.

Exhaustive tests were made during the early part of the year by the torpedo flotilla at Norfolk of various kinds of Virginia coal to determine the best adapted for the use of torpedo boats. The result showed little difference when the coal was carefully selected.

KILLED HER HUSBAND.

Jealousy Over a Nephew Lead to a Tragedy Sunday Morning.

Binghamton, N. Y., Nov. 10.—Mrs. Enoch Hink shot and killed her husband at their home, about three miles above Port Wickinson, Sunday morning about 4 o'clock.

Hink was 53 years old, his wife is 40. They have been married 23 years. For some time Hink has been jealous of a nephew, Frank Hink, who has boarded at the Hink home. Saturday Mr. and Mrs. Hink and Frank Hink came to Binghamton. Mrs. Hink and Frank drove home alone. About 2 o'clock Sunday morning Hink, who had arrived home some time previously in an intoxicated condition, quarreled with his wife, and made an assault upon her. She ran out of doors in her night dress, barefooted and, pursued by her husband, ran down the road. He was armed with a clasp knife. Finally, in the darkness, Mrs. Hink eluded him and, going back to the house, barricaded her bedroom. Hink went back and when he tried to open the door to renew the assault, the woman took up a shotgun and pointed it at her husband. It was discharged, the charge entering Hink's breast just above the heart.

PITCHER HARRY ALLEMANG.

Shot and Mortally Wounded at Mason, W. Va., By a Burglar.

Pomeroy, O., Nov. 10.—Harry Allemang, who pitched in the Southern League this season and who has signed with Cincinnati for the coming season, was shot and mortally wounded at Mason, W. Va., his home, early Sunday morning. Allemang had been out with friends and was returning home when he found burglars at work in the post office. A sentry on the outside ordered Allemang to halt. No attention was paid to the command and the sentry fired on Allemang, the bullet entering his back and lodging in the left lung. When Allemang had fallen to the ground the robbers took $980 from him.

DEATH OF DR. ROB'T N. TOOKER.

He Was Widely Known as a Writer on Medical Subjects.

Chicago, Nov. 10.—Dr. Robert Newton Tooker, one of the prominent physicians of Chicago and president of the Illinois Homeopathic Medical association, died suddenly Sunday of apoplexy. When a servant found his body lying on the floor in the bath room the physician had apparently been dead several hours. Dr. Tooker, who was 61 years of age, was widely known as a writer on medical subjects.

The Alabama and Massachusetts.

New York, Nov. 10.—The United States battleships Alabama, Capt. C. H. Davis, and Massachusetts, Capt. H. N. Manney, sailed from this port Sunday for Culebra island, in the Caribbean sea, where they will participate in the winter maneuvers.

Another club woman, Mrs. Haule, of Edgerton, Wis., tells how she was cured of irregularities and uterine trouble, terrible pains and backache by Lydia E. Pinkham's Vegetable Compound.

"A while ago my health began to fail because of female troubles. The doctor did not help me. I remembered that my mother had used Lydia E. Pinkham's Vegetable Compound on many occasions for irregularities and uterine troubles, and I felt sure that it could not harm me at any rate to give it a trial.

"I was certainly glad to find that within a week I felt much better, the terrible pains in my back and side were beginning to cease, and at the time of menstruation I did not have nearly as serious a time as heretofore, so I continued its use for two months, and at the end of that time I was like a new woman. I really have never felt better in my life, have not had a sick headache since, and weigh 20 pounds more than I ever did, so I unhesitatingly recommend Vegetable Compound."—Mrs. MAY HAULE, Edgerton, Wis., President Household Economics Club.—*$5000 forfeit if original of above letter proving genuineness cannot be produced.*

ELECTION RETURNS.

The Next United States Senate Will Be Republican by at Least 16 Majority.

A LOSS OF FOUR TO REPUBLICANS

Greater New York, Which Elected a Fusionist Last Year, Went Democratic by a Large Majority.

Gov. Odell Was Re-Elected Governor of the State of New York By a Majority of 12,887.

Republican Majority in Ohio Estimated at 100,000—Democrats Claim Gain of One and Republicans Two Congressmen.

Washington, Nov. 6.—The latest returns received up to 10:30 o'clock Wednesday night show that the republicans, including in this description the fusionists elected from the Pittsburg-Allegheny districts in Pennsylvania, will control the next house by a vote of 204 republicans and 17 democrats, with one district, the Eighth Tennessee, and two California districts remaining so much in doubt that the official returns will be needed to decide the result. The totals given are believed to be correct, although there are a few districts, such as two in Colorado and one in Minnesota, where the republican and democratic party managers respectively do not concede defeat, but the general result could not be affected even should their claims prove well founded.

OHIO.

Cincinnati, Nov. 6.—City complete giving Laylin, rep., for secretary of state, 24,084 majority indicates a republican majority in Hamilton county of nearly 30,000.

Columbus, O., Nov. 6.—Chairman Dick, of the republican state headquarters, late Wednesday night had complete returns from 86 of the 88 Ohio counties, showing a republican plurality for state candidates of 90,807. The two counties not heard from are Putnam and Noble. The former gave a democratic plurality of 3,541 and the latter a republican plurality of 751 last year. Deducting this difference of 790 he estimates the republican plurality in Ohio at 90,107, but he expects both Putnam and Noble county to show republican gains, and that the official vote will exceed these figures. Although 17 counties have not returned their total vote, it is estimated as close to 800,000.

Chairman Garber, of the democratic state committee, said: "The democrats made gains in more than a two-thirds of the counties in which Mayor Johnson, of Cleveland, pitched his tent. Complete returns will show an average republican plurality for state candidates, as compared with recent years. Democrats are not discouraged. We will fight again on the same line."

Chairman Garber expresses satisfaction with the result for congressmen, in which contest the democrats elected the same number as two years ago, although he had expected a gain of three. In his closing statement he eulogized Mayor Johnson as the opponent of Senator Hanna.

INDIANA.

Indianapolis, Nov. 6.—Estimated pluralities by counties received at state headquarters Wednesday indicate the election of the republican state ticket by 26,000. The congressional pluralities estimated are: Hemenway, rep., 1,250; Miers, dem., 650; Zenor, dem., 2,300; Griffith, dem., 2,450; Holliday, rep., 2,250; Watson, rep., 3,100; Overstreet, rep., 3,500; Cromer, rep., 4,200; Chas. Landis, rep., 3,100; Crumpacker, rep., 5,100; Fred. Landis, rep., 5,200; Robinson, dem., 500; Brick, rep., 1,800. The republicans in the legislature will have a plurality of 64 and possibly 65. The senate will probably stand 35 republicans and 15 democrats and the house 72 republicans and 28 democrats. The republicans have elected 16 senators and the democrats 9 senators who hold over two years and will form the nucleus of the legislature that will elect a successor to Beveridge. In Marion county the only close fight is for treasurer.

KENTUCKY.

Frankfort, Ky., Nov. 5.—Reports early Tuesday night from over Kentucky show that but little interest was manifested in the congressional elections, except in the districts embraced in Appellate Court districts. Advices from the Sixth Appellate district, in which Judge Paynter is seeking re-election, are that he has won by a majority of 2,500 votes. This is 1,000 short of what the party managers figured on, and indicates the defeat of Democratic Congressman John N. Kehoe by W. H. Castner, rep. In the Fifth Congressional district, the Louisville district, in which an appellate judge was also elected, early reports indicate the defeat of Republican Congressman Irwin and of Appellate Judge Durelle. The republicans do not concede this, however, and claim confidently the re-election of Durelle. The warmest fight in the state was in the Second Appellate district, in which Chief Justice Guffy sought re-election and was opposed by Judge Warren Settle. This district embraces the Third Congressional district and the race between John Rhea and Congressman Moss was equally exciting.

Lexington, Ky., Nov. 5.—The democrats elected the city ticket by 600 majority. Trimble, dem., carried the city and county in the congressional race.

ILLINOIS.

Chicago, Nov. 5.—In the Sixth congressional district where, ex-Congressman William Lorimer has been making a desperate fight to recover the position he lost in the last congressional election, the contest is exceedingly close. Lorimer, with two-thirds of the district to hear from, had a lead of 41 votes and it will be impossible to arrive at the result in this contest before Wednesday.

The fight in the Third district is also very close, but Wilson, rep., has a lead of 200 with half of his district yet to report and although the chances are that he will win out the result is too close to predict with confidence.

In the city of Chicago the election was full of surprises. The republicans triumphed in democratic strongholds and the democrats returned the compliment in fullest measure.

The head of the republican ticket, [illegible] candidate for state treasurer, [illegible] Chicago and county [illegible] 30,000, and the democratic candidate for sheriff, has undoubtedly passed the republican nominee by about 10,000. Kleiboerge, the democratic candidate for county treasurer, has also carried the city by about 6,000, and the republicans rely upon their usual majority in the county outside of the city to elect Hanburg, their candidate. It may possibly result in that manner, but the aspect at present favors Kleiboerge.

Chicago, Nov. 5.—The republicans have carried Illinois by a plurality of about 45,000. The republican leaders claim that they have elected Burke for state treasurer by 47,000 and Mamer for clerk of the supreme court by 45,000.

MICHIGAN.

Detroit, Mich., Nov. 5.—The republicans of Michigan have elected Gov. A. T. Bliss, the state entire state ticket, 11 of the 12 congressmen and by an overwhelming majority of 100 members of the legislature. The republican majority is estimated at midnight between 30,000 and 40,000. Gov. Bliss ran heavily behind his ticket—from 10,000 to 15,000, it is estimated at midnight. L. T. Durand, the democratic candidate for governor, polled a correspondingly heavy vote, especially in Detroit, which he carried by from 4,000 to 6,000. At midnight all indications pointed to the election of Fred A. Dickinson, democrat, to congress from the First district. John B. Corliss, the present member, was run deeply. Total returns from one-fifth of the precincts in the First district give Lucking a lead of nearly 1,000. While the returns indicate that the democrats have increased by a few members their representation in the state legislature, the republicans will have an overwhelming majority in both branches. This assures the election of Gen. R. A. Alger to fill the unexpired term of the late United States Senator James McMillan.

NEW YORK.

New York, Nov. 6.—Official figures on the vote for governor vary but little from the unofficial reports. According to returns made to the executive at Albany by the several county clerks, the plurality for Odell is 12,887. Only three counties above the Bronx were carried by the democratic nominee, the aggregate plurality for Coler in those counties being 1,011. This and the Greater New York plurality of 122,074 given to Coler was met and overcome by an up-state republican plurality of 135,972, the difference being a net plurality of 12,887, against 111,126 plurality for Odell in 1900.

The state legislature is controlled by the republicans by a reduced majority, but one so large as to admit of no doubt of the return of Mr. Platt to the United States senate.

MISSOURI.

St. Louis, Nov. 5.—At 11 o'clock partial returns from the state indicate a falling off in the total vote as compared with 1900 of 15 to 25 per cent. Especially is this so in the central portion. In several districts the fight for congress is very close and definite results will probably not be known for 24 hours. At republican headquarters it is claimed there is a slight republican gain in Missouri counties.

At democratic headquarters it is claimed the democratic ticket will come to St. Louis with 15,000 to 18,000 majority. Indications point to a sweeping democratic victory in St. Louis with a plurality of 15,000, the election of two democratic congressmen out of three and the full democratic city ticket.

NORTH DAKOTA.

Fargo, N. D., Nov. 5.—North Dakota has gone republican by about the usual majority, although Gov. White, rep., who is a candidate to succeed himself, runs somewhat behind the balance of the state ticket. The republican state committee estimates that White's majority will be from 7,000 to 8,000. North Dakota elects two congressmen at large this year, and both of these are republicans, Thomas F. Marshall will be re-elected, and B. F. Spalding being named as his associate. The legislature, which will elect a successor to United States Senator Hansbrough, is overwhelmingly republican.

KANSAS.

Topeka, Kan., Nov. 6.—The republican victory in Kansas is complete. A good majority of the legislature, all the state officers and a large part of the county officers were taken by the republicans. Chairman Albaugh, of the republican state committee, made the following statement Wednesday night: "Returns have been received from every part of the state, and they indicate the election of W. J. Bailey and the entire republican ticket by about 35,000 plurality. The republicans have elected every member of congress and over 90 members of the state legislature.

NEBRASKA.

Lincoln, Neb., Nov. 6.—Complete returns from enough counties accurately forecast the result show that Mickey, rep., has been elected governor of Nebraska, by not less than 3,000 and probably by 5,000 plurality. The rest of the republican state ticket is elected by an increased plurality. For congress the republicans carry three districts, fusionists one, and two districts are in doubt. The republicans will control both branches of the legislature by a greatly increased majority, having 83 senators and 70 of the 100 house members.

MONTANA.

Butte, Mont., Nov. 5.—Reports received up to midnight give the state to the republicans almost beyond a doubt, although defeat has not yet been conceded by the democrats. Over 25 precincts have been heard from, including the largest counties in Montana.

Butte, Mont., Nov. 5.—Reports received up to midnight give the state to the republicans almost beyond a doubt, although defeat has not yet been conceded by the democrats. Over 25 precincts have been heard from, including the largest counties in Montana.

CALIFORNIA.

San Francisco, Nov. 6.—Complete returns from San Francisco and partial returns from all over the state indicate that George C. Pardee, republican nominee for governor, is elected by a majority of 2,000 or 3,000. The plurality of 5,000 given by San Francisco to F. K. Lane, the democratic nominee, has been almost wiped out by republican majorities in the interior counties. The republican vote for Pardee in Southern California is justifying the claim of the republican campaign committee and has undoubtedly elected Pardee.

NORTH CAROLINA.

Raleigh, N. C., Nov. 5.—The returns from 35 counties give a democratic majority of over 30,000. These are from the eastern and middle counties, and the same ratio will give the democratic state ticket a majority in the state of approximately 65,000. The only congressional districts in which the democrats are conceding are the Fifth and Tenth, and there is nothing definite from either district yet. Both parties were claiming each at 10 o'clock Tuesday night.

DELAWARE.

Wilmington, Del., Nov. 5.—The polls closed in Delaware at 5 p. m. Indications are that the vote in the state was lighter than two years ago. The contest for the legislature apparently close and the result will probably not be known until the full vote is counted. The election of Henry A. Houston, dem., for congress, is indicated. The returns are being received slowly, with no legislative districts completed.

PENNSYLVANIA.

Philadelphia, Nov. 6.—Practically complete returns from the state indicate a plurality for Samuel W. Pennypacker, rep., for governor, of about 125,000. Of the 32 congressmen elected 23 are republican. The incoming house of representatives will be made up of 187 republicans and 6 democrats, and the senate will contain 39 republicans and 11 democrats.

GEORGIA.

Atlanta, Ga., Nov. 6.—Georgia elected a solid delegation of 11 democratic congressmen. So little interest was taken in the election that the returns in the 11 districts were not collated Tuesday night. Except in the Seventh district the democrats had no opposition, and in that district it was inconsequential. The vote polled was very light. The election was for congressmen only.

MASSACHUSETTS.

Boston, Nov. 5.—Lieut. Gov. John L. Bates, of Boston, was elected governor by the republicans in the state election Tuesday, defeating William A. Gaston, democratic candidate, by 37,470 plurality, the vote being: Bates, rep., 195,961; Gaston, dem., 158,482. The republicans also elected the rest of the state ticket and 10 out of 14 congressmen. The state legislature remains unchanged.

MINNESOTA.

St. Paul, Minn., Nov. 6.—With the receipt of more nearly complete returns the majority of Gov. Vansant will be at least 50,000 and may go as high as 75,000, a record breaking majority in Minnesota for a gubernatorial candidate. Eight of the nine congressmen are republicans, the lone democrat being former Gov. John Lind.

IOWA.

Des Moines, Ia., Nov. 6.—More complete returns place the republican plurality of the state ticket in Iowa a little above 70,000. The plurality of P. B. Birdsall, who will succeed Speaker Henderson from the Third district, is 5,255, and that of M. J. Wade in the Second district, the only democratic congressman elected, 1,140.

CONNECTICUT.

New Haven, Ct., Nov. 5.—The democratic state organization at 11:30 p. m. conceded the election of the entire republican ticket in Connecticut with the general assembly safely republican on joint ballot. With complete returns from 140 of the 168 towns in Connecticut the republican plurality is conservatively estimated at 15,000.

WEST VIRGINIA.

Wheeling, W. Va., Nov. 5.—Returns coming in slowly indicate the certain election of H. B. Dovener, republican, for congress, in the First district, by slightly reduced majorities compared with 1900. In the Second district John T. McGraw claims his election over A. G. Dayton, republican, but the republicans do not concede it.

MARYLAND.

Baltimore, Nov. 5.—The election in Maryland, which was only for congressmen, passed off quietly with the exception of a few minor disturbances in the eastern district of this city. Of the six congressmen the republicans elect four and the democrats two. The vote in the Third district was very close. Wachter having a majority of about 100.

MISSISSIPPI.

Jackson, Miss., Nov. 5.—The vote in Mississippi Tuesday was very light, the tabulation so far made indicating a total of less than 40,000. All the democratic candidates for congress were elected without opposition. The constitutional amendments are believed to have been defeated.

TEXAS.

Dallas, Tex., Nov. 5.—The vote in Texas for state and congressional officers Tuesday was lighter than in 1900. The democrats swept the state, the ticket headed by S. W. T. Lanham winning by a heavy majority. Latest returns show that the democrats elected congressmen from all 16 districts.

COLORADO.

Denver, Col., Nov. 5.—At 10 p. m. the returns from the state were so meager that it is impossible to give a reliable estimate of the result in Colorado. That the republicans have made heavy gains throughout the state is generally conceded. Lake and El Paso counties have given republican majorities.

FLORIDA.

Jackson, Fla., Nov. 5.—A light vote was polled throughout the state. Congressmen Sparkman and Davis are re-elected from the First and Second districts respectively without opposition. Attorney W. B. Lamar is elected in the new Third district. There was no opposition to the democratic ticket, state or congressional.

VIRGINIA.

Richmond, Va., Nov. 5.—Returns are coming in slowly, but the state certainly will return a full democratic congressional delegation. The latest returns from the Ninth district, which furnishes the only serious contest in the state, assures the election of Rhea, dem.

WISCONSIN.

Milwaukee, Wis., Nov. 6.—Belated returns increase Gov. LaFollette's plurality in the state to 80,000, estimated. As near as can be figured out, the next legislature will be made up as follows: Assembly, 75 republicans and 25 democrats; senate, 31 republicans and 2 democrats.

SOUTH CAROLINA.

Charleston, S. C., Nov. 6.—The democrats elected their entire state ticket. Returns are coming in slowly from almost without the slightest opposition. George county elects a full democratic ticket for the first time in 35 years.

NEW JERSEY.

Trenton, N. J., Nov. 5.—The republicans will again control both houses of the New Jersey state legislature by heavy majorities.

IDAHO.

Boise, Idaho, Nov. 6.—Scattering returns, mostly from the southern part of the state, show Morrison, rep., for governor, running ahead of Hunt, dem. The vote in the Gentile precincts was heavily republican. Definite figures will be very late.

WASHINGTON.

Seattle, Wash., Nov. 5.—At 10:30 p. m. returns coming in slowly. Indications are that the state will go republican by about 20,000 majority, with the election of three congressmen and the control of the legislature.

NEVADA.

Reno, Nev., Nov. 5.—The entire fusion and wards in New Hampshire give Bachelder rep. for governor, 2,328; Hollis, dem., 1,388. Same towns and wards in 1900 gave Jordan, rep., 2,915; Potter, dem., 1,850.

NEW HAMPSHIRE.

RHODE ISLAND.

Providence, R. I., Nov. 5.—The election of L. F. C. Garvin, dem., for governor, is practically assured because of the poll he has made in 37 districts out of 130 of 15,407, as against 12,829 for Kimball, republican.

WYOMING.

Cheyenne, Wyo., Nov. 5.—Meager returns from the state indicate that the entire republican ticket is elected. Mondell, rep., for congress, will have 4,000 majority.

ALABAMA.

Montgomery, Ala., Nov. 5.—The full democratic state ticket is elected by a large majority. "Lily-white" republican vote not as large as expected. Returns insufficient to give accurate figures.

SOUTH DAKOTA.

Sioux Falls, S. D., Nov. 5.—At 9 o'clock the indications received from the state at the republican headquarters were that the state ticket would have a plurality of about 15,000.

TENNESSEE.

Nashville, Tenn., Nov. 5.—The entire democratic state ticket, headed by James B. Frazier for governor, has been elected by a majority estimated at 50,000.

LOUISIANA.

New Orleans, Nov. 5.—All the democratic nominees for congress in Louisiana are elected.

ARKANSAS.

Little Rock, Ark., Nov. 5.—All the democratic nominees for congress in Arkansas are elected.

FATAL SHOOTING AFFAIR.

Three Men Were Killed on the Street at Orange, Tex.

Orange, Tex., Nov. 6.—Three men are dead as a result of a shooting affray here late Wednesday.

Bad blood is said to have existed between Jeff Chenault and Will Harris, a well-known young man, for some time. Wednesday the two met and after a war of words Harris secured a double barreled shotgun and killed Chenault. Harris ran to escape the fire of Chenault's brother, but was apprehended by City Marshal Jordan, who was close at hand. While the officer was conducting young Harris to jail he was shot and killed and his prisoner escaped. It is not known who killed Jordan, although there were a large number of people on the street at the time of the tragedy.

Will Harris was later arrested and placed in jail. At this juncture his brother, James Harris, started for a nearby store declaring he would procure a weapon and take part in the affair. It is claimed that Tony Jones handed Harris a gun, after which the former jumped into a buggy and, as he was driving away officers appeared on the scene and opened fire on Jones, inflicting wounds from which he died a few minutes later.

DESTRUCTIVE FIRE.

Hundreds of Head of Cattle and Cornfields Destroyed.

Naper, Neb., Nov. 6.—The most destructive fire that ever visited this county has been raging on the Rosebud Indian reservation since Sunday. Three hundred head of cattle are known to have been burned to death, and several ranches in the path of the flames have not been heard from. Several hundred settlers are now holding the flames in check along the north line of Boyd county, where a great many cornfields were destroyed.

CRUELLY SLAIN.

An American Teacher Killed By Filipinos Near Bacolol.

Manila, Nov. 4.—News has been received here of the cold-blooded murder of D. C. Montgomery, the superintendent of schools in Oriental Negros. He was on his way to Bacolol on Friday to consult with the retiring superintendent, when he was set upon by six natives, armed with spears and bolos, and murdered. He had considerable money. This was taken and his body mutilated. Montgomery leaves a widow, a teacher in Negros.

Montgomery [illegible] appointed from Nebraska [illegible] 1901.

A DRUNKEN ROW.

Woman Killed Another Wounded and a Man Shot Through the Lung.

Plattsburg, N. Y., Nov. 6.—In a drunken row at Saranac Lake, John Mooney shot and killed a woman named Bessette, fatally wounding his sister, Miss Mooney, and shot John McLellan through the lungs. McLellan will recover. Mooney was arrested, and Charles Merrill was taken into custody as an accomplice.

Madrid, Nov. 6.—Gen. Toral, who surrendered Santiago de Cuba to the American forces in July, 1898, has become insane at Murcia.

FROM ALL OVER THE STATE.

Discovery Reported to Have Been Made in [illegible] County.

Richmond, Ky., [illegible] deposit of copper has been discovered on the farm of W. B. [illegible] fus. Some time ago [illegible] miner of Tullahoma [illegible] work on the C[illegible] ville, discovered [illegible] a flinty looking rock [illegible] ways follow the [illegible] Hastings [illegible] at once, and [illegible] lead of the [illegible] traced the [illegible] veins, and [illegible] surface [illegible] ed favorably. He dug in [illegible] inch of ore, but [illegible] found it. Finally he reached the Parker farm, and at the depth of 15 [illegible] he was rewarded by striking the vein of ore.

Mr. Hastings had several specimens analyzed at the state college last week, and the result showed 70 per cent. copper and 3 per cent. silver. The two men have since leased or bought all the land on the route prospected over for several miles into the mountains. A party of Lexington capitalists have offered them $75,000 for their holdings, but they refuse to sell.

ROBBED THE MAIL BOX.

Officers Arrested Will Cooper, Aged 17 Years, at Fulton, Ky.

Fulton, Ky., Nov. 7.—Will Cooper, 17 years old, was by Officers Robertson and Walker charged with robbing the United States mail box at the Daily Leader and National Baptist publishing house. Cooper confessed to having robbed the above firm's mail for some time past and accompanied the officers up back streets and alleys where he showed them vast numbers of letters torn into small pieces. Several particles of money orders were found. There is no way of estimating how much valuable mail has been stolen and destroyed, but it will foot up several hundred dollars.

A JUROR CRAZY.

Was Found Wandering in the Street in His Night Clothes.

Morehead, Ky., Nov. 8.—Eber Proctor, a juror in the case of Harvey Moore, charged with killing Finn Tolliver, a year ago, awoke a lunatic. The sheriff caught him in the street in his night clothes. Proctor had both formed and expressed an opinion, but the commonwealth and defense waived the objection and accepted him. After he was caught he kept saying he had formed and expressed an opinion. The case will be continued.

McDonald on Trial.

Barbourville, Ky., Nov. 7.—The fall term of the Clay county circuit court is now in session. At the court many important murder cases are tried each term. One of the most important of this term is the case of the commonwealth against Ransome McDonald, charged with having aided in the assassination of Jim Sparks several months ago. This case was called Thursday.

Fine Horses Burned.

Lebanon, Ky., Nov. 7.—The fine barn of J. B. Wathen was destroyed by fire. The barn contained some of the best bred stock in Kentucky. The fine stallion, Red Prince, a fine brood mare and a celebrated jack; $500 worth of feed, a surrey and other vehicles and harness were burned. One fine mare was burned so badly that she will die.

Claim Reward For Goebel Murderers.

Frankfort, Ky., Nov. 6.—In the Franklin court Detectives Harding and Armstrong, of Louisville, presented a claim for the $1,000 reward offered by the county in 1900 for the apprehension of the murderers of Wm. Goebel. They base their claim on the conviction of Henry Youtsey, now in the state prison under life sentence.

Brothers' Narrow Escape.

Lexington, Ky., Nov. 7.—To escape being burned to death Isaac A. Ackerman and his brother, John Ackerman, C. & O. car cleaners, both jumped into the town branch. Their clothing caught fire from the explosion of a lamp, and was saturated with oil. They leaped together into the water, and the flames were extinguished.

Two Men Missing.

Dayton, Ky., Nov. 8.—The families of John Loesch, aged 47, a carpenter, and Dick Rogg, aged 36, of this city, are much concerned over their disappearance late Tuesday. It is feared that they have met with some tragic fate, as both had been drinking. Rogg's skiff is [illegible]

Fish Dynamited.

Burgin, Ky., Nov. 8.—Violaters of the fish law aroused the people along the Kentucky river above High Bridge with loud explosions of dynamite thrown into the river, the surface of which was afterward literally lined with dead fish. Prosecutions likely will follow.

Will Castleman Coming Home.

Louisville, Ky., Nov. 8.—Will Castleman, the famous tenor of the Royal opera, Antwerp, will arrive here Saturday to visit his family. This is his first visit to Louisville for eight years.

CORBETT-M'GOVERN CONTEST.

Motion For a Perpetual Injunction Argued Before Judge Toney.

Louisville, Ky., Nov. 6.—A motion for a perpetual injunction preventing Young Corbett" and Terry McGovern from engaging in a boxing contest in Kentucky was Wednesday argued before Judge Toney. Judge Toney will [illegible] down his opinion in a week or two, and then the case will go to the court of appeals for final hearing. The decision will settle the question as to [illegible] or boxing contests are unlawful [illegible]

[illegible]ille, Ky., Nov. 6.—Election returns [illegible]ay make it possible to pull off [illegible]s in Louisville once more. The followers of the game here are confident that the unfavorable decision of the court of appeals which knocked out the McGovern-Corbett contest, will be speedily reverse.

CHILD PERISHED IN FLAMES.

The Mother of the Innocent Was Unable to Save It.

Newport, Ky., Nov. 8.—Shortly before 6 o'clock Friday night an alarm from box 41 called the Newport fire department to the home of Mary Clifton, colored, living at 1027 John street, where the room had taken fire from an overheated stove. An 18-months-old child of Mrs. Clifton's was sleeping in a bed in the room at the time and was burned to death, the mother being unable to reach it, the flames having gained such headway before the arrival of the department. The flames were quickly extinguished, however, with a loss of about $700.

LEAF TOBACCO.

Largest Transaction in the History of the Louisville Market.

Louisville, Ky., Nov. 7.—The largest transaction in the history of the leaf tobacco market of this city has just been closed. It is the purchase by the Continental Tobacco Co. of 2,320 hogsheads of redried Green River Pryors from the Pickett warehouse. The aggregate cost was in the neighborhood of $250,000. In addition to this, the Continental bought 1,018 hogsheads of Green River from the Louisville Tobacco Warehouse Co. last Friday, practically cleaning up this variety in the local market.

FIRE AT AUBURN.

Large Part of the Business District Was Wiped Out.

Auburn, Ky., Nov. 7.—Fire wiped out a large part of the business district of this little town Wednesday night. The fire started in a harness shop, and destroyed seven buildings before it was checked. The total loss is estimated at $11,500. The principal sufferer was David Childres, whose fine business block was valued at $10,000.

SOUGHT TO END HIS LIFE.

Couldn't Be Boss of the Family So Bauer Attempted Suicide.

Louisville, Ky., Nov. 8.—John Bauer, an aged German, attempted to commit suicide by jumping into the canal Friday morning. When rescued he remarked, with a smile:

"I am 74 years old, and as I am older than my wife and eight children I thought I ought to be boss. When I stopped being boss I thought it was time to quit living."

Writ For a Corpse.

Louisville, Ky., Nov. 6.—J. B. Read, a Louisville Negro, found it necessary to apply to a magistrate for an order of delivery for a corpse. The body of Read's mother is in the hands of R. H. Smith, an undertaker. Read, in making his complaint, charged that Smith obtained the body at the hospital where Mrs. Read died without authority from the family, and has presented a bill of $15 for embalming.

Both Engines Demolished in Collision.

Central City, Ky., Nov. 8.—Four trainmen were injured and several passengers were slightly shaken up in a head-on collision between a northbound Illinois Central passenger train and freight train in the railroad yards here Friday. None of the injured were seriously hurt. Both engines were demolished. The cause of the wreck is not positively known.

Probably Killed by a Train.

Hopkinsville, Ky., Nov. 8.—An unknown white man was found dead by the side of the railroad track, near Empire. He appeared to be about forty years old and was well dressed. There was a hole in his head and the supposition is that he was struck by a train.

Mail Carrier Died in His Wagon.

Frankfort, Ky., Nov. 8.—L. L. Delaney, a mail carrier to the Harrieland post office in this county, was found dead in his wagon. The wagon was standing on the roadside about two miles from the city. Death was due to heart disease.

Lay in a Field All Night.

Petersburg, Ky., Nov. 8.—John J. Berkshire, 70, a wealthy farmer and one of the largest fruit growers in Northern Kentucky, was paralyzed and lay alone in the field where he had gone to shuck corn, all night.

For Circuit Clerk.

We are authorized to announce S. E. TERRILL, of Idlewild, as a candidate for Circuit Court Clerk, subject to the action of the Democratic party.

THE spellbinder is now out of a job.

WHILE it looks like the Democrats may carry New York in 1904, Indiana is drifting farther away from them.

AFTER the first of January next the Court of Appeals of this State will be composed of four Democrats and one Republican.

FROM the vote cast on Tuesday of last week in Kentucky, the State appears to be securely anchored in the Democratic column.

BULLITTSVILLE is the banner Democratic precinct in this county. It always bobs up on election day with an organization that gets out the vote.

FROM the election returns in Ohio it appears that the firm of Johnson & Bigelow got out more votes for the other ticket than they did for theirs.

HAD the Indiana Democrats in counties other than Ohio did as well as the Ohio county Democrats did on the 4th inst., there would have been a very different result in the State.

PRACTIACLLY all of the town of Calhoun Falls, S. C., embracing 700 acres, was put up at auction and sold for $14,000. The town was built by an improvement company, but proved a losing venture.

GOODNESS! how the voters did snow under the ex-Democratic Republican nominees on the 4th inst. None of the several in Kentucky touched side, edge or bottom. Wonder if any of them will add another ex?

IT is strange how the Simon-pure Democrats in Covington could carry the city for the Democratic candidates for Congress and Judge of the Court of Ap---als and the Republicans capture e city government.

IF you want the job of delivering the mail on the proposed rural route from Burlington, you would better meet Uncle Sam's agent at the postoffice in Burlington, tomorrow and undergo the required examination.

THE popularity of Mr. Applegate, Republican candidate for Congressman in this district, with his party, was shown by the vote in his own precinct, which has always given a Republican majority—it was carried by Mr. Gooch.

THE ticket holders in the Enquirer's lottery are anxiously awaiting the announcement of the sums of money to which they are entitled. A wager that the Enquire's scheme took more money out of this county than it will send back would be safe.

THE still hunt that was being made in the interest of Mr. Deering, Republican candidate for Judge of the Court of Appeals, was very still, indeed, but it served to alarm his apponent, Judge Paynter, who hustled out an increased majority in the district.

E. H. BAKER, a justice of the peace in Covington, who was the Democratic candidate for that office at the recent election, was badly snowed under, much to the regret of his many friends in this county, who hoped to see him don the ermine of Judge of the Kenton County Court in a few years. But such is politics

THE English press, in commenting upon the results of the elections in the United States, to a great degree takes the position that it is a greater victory for President Roosevelt than for the Republican party. The Telegraph says: "It is not too much to say that Roosevelt has won the victory for his party, which the party managers nearly threw away."

AT Omaha, Nebraska, last week the Rev. W. G. Rabe, pastor of the German Baptist church, and Miss Augusta Busch, a missionary and assistant to the pastor, were found dead in the minister's study. They were clasped in each other's arms and the room was full of gas, escaping from a small stove. There was no indication of suicide and the death of the ... is supposed to have been accidental.

Mrs. Fred Unrath.

President Country Club, Benton Harbor, Mich.

"After my first baby was born I did not seem to regain my strength although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband insisted that I take Wine of Cardui for a week and see what it would do for me. I did take the medicine and was very grateful to find my strength and health slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

Wine of Cardui reinforces the organs of generation for the ordeal of pregnancy and childbirth. It prevents miscarriage. No woman who takes Wine of Cardui need fear the coming of her child. If Mrs. Unrath had taken Wine of Cardui before her baby came she would not have been weakened as she was. Her rapid recovery should commend this great remedy to every expectant mother. Wine of Cardui regulates the menstrual flow.

Leslie, son of ex-Sheriff J. R. Clutterbuck, died at the home of his brothers, Homer and Roy, here in Burlington, last Saturday night at 11:30 o'clock, in his 27th year, of consumption. For many years he had been a faithful employe of A. J. Conroy & Co., of Cincinnati, extensive dealers in furniture. When his health failed him he was stationed at St. Louis, where his employer had to pursuade him to give up and come home for a rest. He arrived home last August, from which time his health continued to decline until last Friday night when the soul of the promising young man was released from its earthly tenement.

Leslie Clutterbuck was born at Florence, this county on the 8th day of June 1875. While yet but a lad his mother died, and shortly thereafter his father moved to Burlington, where Leslie grew up to manhood, a general favorite with all who knew him, and great was their sorrow when he reached home last August so emaciated that it was evident that his death was a question of only a few months.

A short and appropriate funeral service was conducted by Rev. Sproles at 11 a. m. Sunday, at the Baptist church in the presence of a large concourse of sorrowing relatives and friends, after which the remains were taken to Highland cemetery and placed in the receiving tomb to await final interment in the family lot in that beautiful city of the dead.

The pall bearers were of the associates of the deceased in his boyhood: A. B. Rouse, Elmer Beall, Hubert Gaines, Edson Riddell, Jack Sandford and Albert Conner, John Allison, of Covington, had charge of the funeral.

The wife of Will Green, who has been in the county infirmary several times, walked into Burlington about the middle of the afternoon, last Sunday. She inquired for the county judge expecting to be given a permit to enter the county infirmary again. The woman's face being badly broken out, Judge Cason would not allow her to go to the infirmary until he could be advised by a physician as to what her trouble was. Dr. Rouse, who has the pauper practice in this precinct was not at home, and the woman seated herself on the court house steps, where she remained for several hours. The doctor got home about dark, and, upon seeing the woman gave it as his opinion that she had small-pox, although he said he never had seen a case. Judge Cason then sent the woman to an old, vacant house about a mile west of town, to remain all night, first having arranged to make her as comfortable as he could with the means at his command. Dr. Clore, of Bullittsville, a health officer, was telephoned for and came over Monday morning and visited the woman, who he found with a well developed case of smallpox. She told Dr. Clore that she came from Welton, where she had been living with her brother, but her story could not be corroborated by telephoning to Walton. The house which the woman occupies is on what is known as the Baker place west of town. She is being guarded by an inmate of the county infirmary, and there is now no danger from the patient. The County Judge and County Attorney bought the building for the county, with the privilege of using it 60 days, when it is to be burnt.

There is no telling how many persons the woman met along the pike as she came from Walton, and a hundred or more persons were passing about the streets in front of the court house, while she occupied steps, but the local physician say there is not much danger of the disease being communicated in the open air.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

CHRIST THE DOOR.

Leads from World's Perils Into the Safety of God's Sheepfold.

Sermon on One of the Six Startling Claims of Jesus by the "Highway and Byway" Preacher.

[Copyright, 1902, by A. N. Kellogg Newspaper Co.]

Chicago, Nov. 9, 1902.

Text:—"I am the Door: by Me if any man enter in, he shall be saved, and shall go in and out, and find pasture."—John 10:9.

The world stands face to face with an Open Door. The hand of God has swung wide the portals of eternal possibilities. His love and mercy have found expression in the setting of His Son before the world as the Open Door through which may be experienced the safety, and comfort, and peace, and joy, and love of the Father's House. Poor, sore-covered, suffering Lazarus, lying on the hard flagging of the courtyard and looking through the door of Dives' palace, saw food for his famished body, soft couches on which to rest his pain-racked limbs, and warmth and comfort, but all that vision of beauty and comfort streaming through the door of that palace home could not compare with the unspeakable and eternal riches which may be attained through Christ the Door. And the need of that miserable begga was not greater than is the need of the world as it lies helpless and undone within reach of Christ the Door.

God's Word declares that "the whole world lieth in the wicked one," but it also declares that Christ the Door is the way of escape. Dante's Inferno is being enacted all over this fair earth, but he who enters the blessed portals of Christ the Door steps from death to life, and leaves the scene of torment for one of peace which passeth understanding. On this side the Door is darkness, on the other side light. On this side are the husks of this world, on the other is the Bread of Life. On this side is death, on the other is Life. On this side are turmoil and discontent, on the other is unspeakable peace. On this side are tears and unhappiness, on the other are angelic smiles and eternal joys. On this side is the uncertainty of life, on the other are the sure promises of God. On this side is the lost sinner, on the other is the blood-washed saint. On this side is the outcast doomed to destruction, on the other is the son of God. On this side is the poverty-stricken soul, on the other is the heir to the riches of Heaven.

Marvelous Door it is that gives entrance from the sphere of man's endeavor to the unlimited possibilities of God's fellowship and presence. Here are the earthly existence and the Heavenly Home, and between the two: Jesus the Door; here are the world "dead in trespasses and sins," and Jesus the Door of escape into the Eternal Life of God's Heaven. What a picture we have here! The declaration of our text follows the reference of Christ to the sheepfold and the true and false shepherds. The allegory of the sheepfold and the good shepherd of the tenth chapter is evidently a continuation of the discourse of the ninth chapter in which the giving of sight to the blind man has aroused the bitterest hatred and opposition towards Jesus on the part of the Jewish leaders. The healed blind man has been driven out of the fold of the synagogue by the false under-shepherds, and Jesus quickly rebukes their conduct by His reference to the sheepfold and to the thief and robber who gains access to the fold by climbing over the wall. The shepherd of the sheep enters by the door, his voice is recognized by the sheep who will not follow a stranger, as in the case of this blind man, who turned from the wicked suggestions of the Pharisees to obedient loyalty to the One who had healed him. Jesus then goes on to make a double application of His parable by declaring, first, that He is the Door to the sheepfold, and, secondly, that He is the Good Shepherd. The sheepfold was the place of shelter and safety for the sheep, and the one narrow gateway was the entrance through which the sheep must needs pass. Jesus declares: "I am the Door; by Me if any man enter in, he shall be saved, and shall go in and out and find pasture."

A door connects. It affords the means of communication between two separate and distinct compartments, or places. On one side is the comfort and joy and peace of the home, on the other is the outside world where one becomes a wanderer and a stranger. Jesus as the Door connects earth with Heaven. He affords the means of communication between the lost world and the Home in Heaven. On one side are the love and joy and peace of the Father's House, and on the other is the self-seeking world, where all have gone astray, and where one has turned to his own way. And if Jesus is the Door let us look at some of the characteristics of that Door. He is the Only Door. He is an Open Door. He is a Narrow-Broad Door, if you will allow the paradoxical statement. He will yet be a Shut Door.

Jesus the Only Door.—Jesus was not a Door into the sheepfold, but was THE Door. The use of the definite article is in perfect harmony with all other declarations of Scripture in regard to the Christ. Probably the same Scribes and Pharisees who heard Christ declare Himself as the Door were later present at that council of the Jewish leaders which heard Peter declare that there was salvation in no other than Christ, "for there is no other name under Heaven given among men whereby we must be saved." These Jewish leaders were [illegible] of their own making [illegible] God. They were false shepherds, using false doors to the sheepfold. There are many false doors to-day claiming to give entrance into the true sheepfold. Pride and self-will are turning multitudes from the Only Door of God's Way to the innumerable false doors of man's rearing. Strange, is it not? that the people of the world should continue to seek other doors into the sheepfold of God while the Only Door is so easy of access that "whosoever will may come." Imagine the invited guest of a king refusing to enter the palace by the wide open door of the state entrance because he wanted to seek for himself an entrance into the palace. Has not the king a perfect right to indicate by what door his guests shall enter? Has not God a right to indicate the Door by which the soul shall enter into His palace of Eternal Life? At the door of the palace of the king all provision is made for the reception of the guests. The servants of the king stand ready to provide for the comfort and needs of the guests and to announce to the king the arrivals. The guest who would willfully climb in some other way would rightfully incur the displeasure of the king and be justly banished from his presence. The guest without the wedding garment on of Christ's parable never came in to the wedding supper of the Lamb by way of the Door, for if he had his coming would have been announced to the King and a wedding garment provided. Undoubtedly he had walked side by side with the other guests to that supper, and with ready tongue explained his theory of the way to gain entrance to the palace and the wedding supper, but when the searching eye of the King had quickly discovered him he was speechless. All his skillfully reared theories came crashing to the ground. The false door of his own construction gave not safe entrance to the wedding supper, but was the gateway to his own destruction. What supreme folly it was that he did not accept the invitation of the King and pass through the Door the King had provided for His guests. But how is it with you, my friend? What are you trusting in? Are you trusting in a false door to gain entrance to Eternal Life?

Jesus the Open Door.—There is a vast difference between an open door and a shut door. One says: "Come in," the other says: "Keep out." And there is a vast difference, too, between a real open door and what appears to be an open door. I remember a good many years ago experiencing considerable embarrassment in attempting to enter an open door just before me and instead slamming against a heavy plate glass mirror covering one side of the large room. My eyes told me that an open door was before me, but they deceived me. My little child with the large picture before her sees through the open doorway the little one playing on the floor in the beam of sunshine, and she tries to get behind the picture to play with that other little girl, but finds on the other side that it is only a piece of canvas, and dusty at that. If the human eye can be so deceived the human heart is liable to the same error. Many a soul basking in the sunshine of its own devices will find that what has appeared to it an open door into the sheepfold of God is nothing but a reflection of its own imaginings. What an awakening it will be when it discovers its mistake and it is too late to gain the Only Open Door into God's presence.

Jesus the Open Door: An Open Door that admits to the security, the success, the happiness, the enlarged opportunities of the sheepfold! An Open Door to all that is good and true, and abiding! The wild beasts of Satan's breeding are without the fold to devour the souls of men, but within are safety and shelter. Jesus is the Open Door to success. That success which is not measured by the bounds of the human life, but that success which builds for eternity. Not that success which gains the whole world at the sacrifice of the soul, but that success which comes from faithful stewardship in handling God's time and money and talents. Not that success which is marked by the holding of great world power, but that success which is the reward of him who learns how to subdue his own spirit. Jesus is the Open Door to happiness. Where among all the world's children will you find one who is really happy? Riches, honor, fame, worldly pleasures, intellectual attainments, cannot impart real and abiding happiness. These are not foods upon which the human soul can feed and be satisfied, but Christ is the Open Door to true happiness. The Christian's secret of a happy life is not a secret at all. It is an Open Door, which all may enter. The reason there are so many unhappy Christians is because somehow or other the soul, having entered the Open Door of Christ's salvation, has wandered back again into the world's pastures and is trying to feed on the husks of the world.

Jesus is the Open Door to enlarged opportunities. The country lad who studied astronomy out of his book and searched out the stars with his naked eye came after a time to the great university and catching a view of the heavens through the gigantic telescope exclaimed: "How the universe has expanded and grown since I came from the country!" And the soul which has studied life through the natural vision exclaims, after it has passed through Christ the Door: "How life has expanded and grown!" Before, the vision was limited to the span of this life, and now, it reaches on and on through eternity. Before, the possibilities and hopes did not extend beyond the natural life, but now, eternity is bright with hope and filled with unending possibilities. Before, the soul was building after its own plans, but now, God, the Architect, provides the plans of His eternal purpose and the soul builds with confident certainty. Peter left his fishing nets, and, entering through Christ the Door, became a fisher of men and found enlarged possibilities as he cast out the net of God's salvation on the day of Pentecost and drew in 3,000 souls. Paul gave up his narrow Judaism and by his miraculous conversion entered through Christ the Door into a new life of service which has deepened and widened to the present day. The business man, the scholar, the artisan and the toiler in whatever field of usefulness in life will find enlarged possibilities by means of Christ the Door.

Jesus the Narrow-Broad Door.—A paradoxical statement, but nevertheless true. A Narrow Door, because man's self-will and self-righteousness cannot possibly find room to pass. A Broad Door, because "Whosoever will may come." Imagine the restless multitudes of the earth's population coming in response to the invitation and seeking to pass through the Door. As they come we notice that like Christian of Bunyan's Pilgrim's Progress they are each and all carrying burdens. These burdens are self-will. As in chemistry, the same elements in different quantities combine to form a great variety of subatances, so with these burdens which the multitudes are struggling under. It is self-will in varying quantities and manifesting itself in a variety of ways. Self-will in religious forms and ceremonies, self-will in ambition, in the appetites, in human friendships and associations, self-will in everything to which the natural mind and body of man can turn. And how that surging multitude would go sweeping through the Door if it could only carry its burdens with it. Satan sets many a door in imitation of the Door which God has set, and he lets the multitudes carry all the burdens of their self-will with them. And every such door is the gateway to hell, for the full fruitage of self-will is hell itself. But the Door which God has set before the world is so narrow that self-will can never get through. Christ, the Door, is the entrance to God's will, and self-will can never abide in His presence. The rich young ruler sought Christ, the Door, and because he could not enter with the self-will of his gold, he went away sorrowful. What a sad spectacle it is to see the world clinging to its self-will and failing of entrance to Christ the Door, where is Eternal Life and eternal satisfaction in abiding in the will of God. Do you know what God's will is? In the very narrowness of the Door we find its world-wide breadth, for God "will have all men to be saved, and to come unto the knowledge of the truth." The only entrance to the realm of God's will is through Christ the Door.

Jesus Will Yet Be a Shut Door.—The message to the church in Philadelphia was, "Behold, I have set before thee an Open Door, and no man can shut it." And that is God's message to the world to-day, but in the fullness of God's time that Open Door is to become a Shut Door. While the Door is open the light streams from it into the world, and, thanks be to God! some turn to that Light and live. But some day that Door is to be shut, and then what awful darkness will prevail! The cry at midnight of the five foolish virgins as they stand before the shut door is yet to burst from the agonized lips of the world. God's message from the Open Doorway of His love and mercy is always in the present. "To-day, if ye will hear His voice, harden not your hearts." "Now is the accepted time, now is the day of salvation." God's to-morrow will see His face withdrawn from the Open Door, His hand will close to the Door, and His voice will no longer be one of pleading invitation, but will echo in thunder tones of wrath through the earthly corridors: "Depart from Me, ye workers of iniquity." It is a solemn thought, but it is the eternal truth of God. Heaven and earth shall pass away, but the Word of God abideth forever.

Which side of the Door are you on? Not which side do you think you are on, or hope you are on, but which side are you really on according to God's Word and His eternal promises?

Jerry McAuley once put the question to a lady who had come to visit his mission. "Sir, I am a member of a church." Nothing daunted, Mr. McAuley pressed home his question: "I did not ask you about your church membership. Are you saved?" "Do you mean have I gotten down like those people up there?" (pointing to the motley group at the altar). And she turned indignantly and left the mission. But the shaft which had been sent home to her heart wrought its work, and it was Mr. McAuley's privilege to see her, a repentant sinner, leave her self-will behind and pass through Christ the Door. Have you joined the church with your burden of self-will tightly shut within your heart? Then you have not entered Christ the Door. Your name may be on the church books but no angel hand has been moved to inscribe your name in the Lamb's Book of Life.

On which side of the Door are you? While the sun beams upon you and you feed in the world's pastures to your heart's content, you may not be conscious that you are without the fold, but when the night settles down upon you and the chill mountain air cuts to your very marrow, and the wild beasts close in upon you to devour you, then you will realize that there is the difference of an eternity between the outside and the inside of the fold. But he that entereth by the Door "shall be saved, and shall go in and out, and find pasture." Safety and the best pasturage is found on the other side of Christ the Door. The invitation is to you. Will you not enter?

ENGLISH AS SHE WAS SPOKE.

How a Constantinople Merchant Understood the Language of a Tourist.

"Of course I went through the bazars of Constantinople when I got around to that city," said the tourist, according to the Detroit Free Press, "and almost at the first one I came to I found a scimitar I very much wanted. It was a blade formerly owned by a noted rebel, and a very handsome arm, indeed, but when I asked the price the old man behind the counter named a sum equal to about $100 in our money, and laid his hand on his heart and exclaimed:

"'I swear to you by the eyes of my grandmother that it cost me exactly this sum, and that I am not making a coin by the transaction. It is because I love you that I do it.'

"I had an interpreter along to do the talking, and when he had repeated after the old skinflint I said in English:

"'Tell old stick-in-the-mud to take his love and his scimitar and go to the devil with them!'

"I meant to have that blade, though," continued the tourist, "and I sent my man to the shop time and again to make an offer for it. Under my instructions he offered up to $60, but came back to shake his head and reply:

"'It is with grief in my heart that I tell you the relic is not for you.'

"'But will $65 buy it?'

"'Alas! no.'

"'Will $70?'

"'Not even the hundred dollars he asked a week ago. He says you shall not have it at any price.'

"'Oh, he does? And what's the matter with the old Jebediah?'

"'Very little, sir. He simply understands the English language, and when you called him old-mud-with-a-stick-in-it he got mad and swore by Allah that your money could buy nothing from him.'"

FANCY WAISTS.

Renewed Interest in Them Is Based Upon Their Being the Embodiment of Attainability.

Despite the effort to shelve them, odd bodices are again in the field. They take the place of the shirt waist frocks, which lately succeeded them for house wear, ousting in turn their rivals, and even more triumphantly, says the Chicago Inter Ocean.

There are several reasons for this renewed interest in the fancy waist, the chief one being that it is the embodiment of the attainable. Five yards of material will make one, and those who tremble at the cost of stuffs can always find inexpensive remnants in this length. Just now radiant pieces of Shantung pongee—deep blues, greens and dull reds—fragments of voile canvas, cheviot and laine are to be had.

One of the newest models is a low cut blouse in checked brown and white linen canvas, such materials being very much in evidence for autumn house wear. The linen is of the heaviest quality, loosely woven and without stiffening. The chief trimming of the blouse, which shows the usual inverted mutton-leg sleeve, is a bias of stout white linen, running around the neck and down the front, and worked with black. A narrow black waah braid outlines this, some leaf applications made of the same showing at the front of the blouse. The neck is filled in with a light-weight black linen. The finely tucked vest and stock are in one piece. Stock finish and cuffs are of the black and white embroidery.

IN JUNGLE DEPTHS.

The Natives of the African Forest Were Not Safe from the All-Prevailing Game.

The friend of the returned traveler looked at him with a smile, relates the Cleveland Plain Dealer.

"Well," he said, "we've got one new thing at least to show you."

"And what is that?" the traveler inquired.

"It's ping-pong."

The traveler's sun-baked face crinkled in a laugh.

"That reminds me of a little experience I had in central Africa last winter," he said. "I had gone into the jungle looking for big game when I was surprised and delighted to see a white man approaching. He was equally delighted to see me. He explained that he was an English trader in ivory and was on his way back to the coast. 'By George,' he cried, 'I'm awfully glad to see you! Just hold on a minute.' And with that he hastily drove four stakes in the ground and stretched a section of an elephant hide tightly across them. 'Now,' he cried, 'we'll have a game.' I looked at him in amazement. I fancied for a moment that he had the jungle fever in his blood. 'A game of what?' I asked. He kicked a square box that was lying at his feet. 'Ping-pong,' he cried."

"And did you play it?" inquired the friend.

"I should say we did," replied the traveler. "We played it so denced late that we had to sleep in trees that night to keep away from the jungle marauders."

Spanish Rice.

Spanish rice is very good with roast mutton. Put two tablespoonfuls of drippings into a saucepan and allow them to bubble. Add a half-cupful of well-washed rice and toss until browned. A sliced tomato, a minced onion, and a bit of garlic are also browned in the drippings. Cover with hot water, season with salt and pepper, and cook thoroughly, adding more water, if necessary. Do not touch the rice until it is done.—N. Y. Post.

No Lost.

A Quaker city gossip tells this story of a young man who apologized for being late at a dinner party:

"Awfully glad to see you, Mr. Blank," said the hostess. "So good of you to come. And all the way from New York, too! But where is your brother?"

"I am commissioned to tender his regrets. You see, we are so busy just now that it was impossible for both of us to get away, and so we tossed up to see which of us should come," said the young man.

"How nice! Such an original idea! And you won."

"No," said the young man, absently; "I lost."—Pittsburg Bulletin.

A Surprised Physician.

A dying patient recovers through the interposition of a humble German.

Chicago, Nov. 15.

Some weeks ago Dr. G——, a very reputable and widely-known physician, living on C—— Street, was called to attend a very complicated case of Rheumatism. Upon arriving at the house he found a man about forty years of age, lying in a prostrated and serious condition, with his whole frame dangerously affected with the painful disease. He prescribed for the patient, but the man continued to grow worse, and on Sunday evening he was found to be in a very alarming condition. The knees and elbows and larger joints were greatly inflamed, and could not be moved. It was only with extreme difficulty that the patient could be turned in bed, with the aid of three or four persons. The weight of the clothing was so painful that means had to be adopted to keep it from the patient's body.

The doctor saw that his assistance would be of no avail; and left the house, the members of the family following him to the door, weeping. Almost immediately the grief-stricken ones were addressed by an humble German. He had heard of the despair of the family, and now asked them to try his remedy, and accordingly brought forth a bottle of St. Jacobs Oil. The poor wife applied this remedy. The first application eased the patient very much; after a few hours they used it again, and, wonder of wonders, the pain vanished entirely! Every subsequent application improved the patient, and in two days he was well and out. When the doctor called a few days after, he was indeed surprised.

HAMLIN'S WIZARD OIL for EARACHE ALL DRUGGISTS SELL IT

ALMOST A MIRACLE.

Case No. 49,673. Mrs. M. Isted of 1207 Strand Street, Galveston, Tex., who is proprietor of a boarding house at that address, numbering among her boarders a dozen medical students, says: "I caught cold during the flood of September, 1900, and it settled in my kidneys. Despite the fact that I tried all kinds of medicine and was under the care of physicians, the excruciating twinges and dull aching across the small of my back refused to leave, and trouble with the kidney secretions began to set in. From then, ordinary Anglo-Saxon fails to describe the annoyance and suffering I endured. The fearful pain through my body, loss of appetite, loss of sleep, consequent loss of energy, and, finally, an indication of complete dissolution compelled me, from sheer agony and pain, to either lie on the floor and scream—forced me into spasms. On such occasions my husband called in a physician, whose morphine treatment relieved me temporarily. I grew weaker and thinner, and so run down physically that nothing was left but skin and bone. All my friends, acquaintances, and neighbors knew about my critical condition, and on one occasion I was reported dead and they came to see my corpse. At last the doctors attending me held a consultation and agreed that if I did not undergo an operation I could not live. Preparations were made, a room selected at the city hospital, and they even went so far as to have the carriage brought to the door to carry me there. I don't know why, but something told me not to go, and I absolutely refused. Now I want the reader to grasp every word of the following: A friend of ours, a Mr. McGaund, knowing that my kidneys were the real cause of the entire trouble, brought a box of Doan's Kidney Pills to the house, and requested me to give them a trial. I had taken so much medicine that I was more than discouraged, and had little, if any, faith in any preparation. However, I reasoned if they did not do me good they could not possibly make me worse, so I began the treatment. After the third dose, I felt something dart across me like a flash of lightning, and from that moment I began to improve. The pain in my back and kidneys positively disappeared, the kidney secretions became free and natural. At present I rest and sleep well, my appetite is good, my weight has increased from 118 to 155 pounds, and my flesh is firm and solid. My friends actually marvel at the change in my appearance. Words cannot express my own feelings. I am not putting it too strongly when I say I have been raised from the dead. I am satisfied that had it not been for Doan's Kidney Pills, taken when they were, I would have been either lying in the Lake View Cemetery, or an invalid for the balance of my life. I will be only too pleased to give minuter particulars of my case to any one calling on me, not, of course, out of idle curiosity, but if they really have kidney complaint and want to know what course to pursue to get relief."

TARIFF AND TRUSTS.

Grover Cleveland Denounces Protection and Its Friends.

Former President Speaks in New Jersey Upon the Issue Most Prominent in the Current Campaign.

Speaking on the tariff and trusts at a big mass meeting of democrats at Morristown, N. J., Thursday, October 30, ex-President Grover Cleveland said:

"Mr. Chairman and Fellow Citizens: As I greet you now I cannot smother certain sentimental emotions which intensify the satisfaction which this occasion affords. I was born in New Jersey. After long absence full of incidents and vicissitudes I have returned to the old state, where I hope to pass the remainder of my days and find a final resting place. I have brought back with me a genuine and unabated pride not only for my native state, but for her old-time, stanch and vigorous Democracy.

"I hope you will not think such reflections amiss. I feel in the mood for their mention not by way of excuse for my appearance in a democratic assemblage, which I have never yet consented to be necessary, but because my presence here may be regarded as not strictly consistent with my determination to consider myself retired from the struggles and activities of political warfare.

True to Genuine Democracy.

"I fully recognize the natural order of things which bring changes in political leadership and counsel, and I do not assume to have a place in either role, but nothing, I care not what, can drive or tempt me from my adherence to the unadulterated, wholesome and beneficial principles of genuine democracy.

"I am told that these principles of good, old-fashioned New Jersey brand are involved in a canvass here pending in my native state and in the state I delight to call my home, and I have indulged my desire to come here and enjoy the stimulation and pleasure which I have never failed to find in hearty and unanimous democratic struggles.

"I am especially pleased to learn that tariff reform has been made the principal issue in the canvass you have in hand. Never within my experience has there been a time when this should be more earnestly, persistently and honestly pressed upon the attention of our countrymen than now.

"Of course custom duties must continue to be the source of government maintenance until another plan is devised by which tariff constructed for the purpose of protection as its chief object is at all times and in every feature of it an unjust and unfair burden upon the masses of our people, but the bold and arrogant developments of its unfairness and injustice in recent years and the new directions they have taken especially invite a renewal of attention and apprehension of every thoughtful, sober-minded citizen.

Democracy's Aim.

"It was but long ago that the democratic party in advocating the reduction of tariff taxation to the revenue needs of the government based its insistence largely upon the right and justice of cheapening for the masses of our people the prices of the necessities of life and withdrawing so much protection from a favored few manufacturers as allowed them abnormal profits at the expense of the great body of consumers. But the exactions from the people on account of protection were made in such a stealthy and unobserved manner, by adding them to their daily purchases, that it was difficult to impress upon the consumers of the land the extent of these exactions.

"While the process was going on imported articles not produced in this country were charged with such high rates of duties as not only to greatly enhance their cost to the purchasing contumer, but to create a surplus revenue beyond its needs in the government treasury. This surplus represented clearly and definitely a small proportion of the unnecessary added expense of the living of our people on account of high protection, and its aggregate was ascertainable, but the amount of the exaction thus represented was insignificant as compared with the amount which protection permitted our own manufacturers to pocket from the consumer.

Surplus Shows Duties Are Too High.

"When in 1887 the doctrine of the democracy on tariff reform was embodied in an executive message to congress, though all the incidents and consequences of a high protective tariff were considered, it was hoped that the plain and palpable fact that what was then considered a large surplus remained in the government treasury which should be in the possession of the people might, as an object lesson from an unusual standpoint, effectually present the situation. This was therefore in a sense made the keynote of the message in the opening passage, as follows:

"'You are confronted at the threshold of your legislative duties with a condition of the national finance which imperatively demands immediate and careful consideration.

"'The amount of money exacted through the operation of present laws from the industries and necessities of the people largely exceeds the sum necessary to meet the expenses of the government.

"'When we consider that the theory of our institutions guarantees to every citizen the full enjoyment of all the fruits of his industry and enterprise, with only such deduction as may be his share toward the careful and economical maintenance of the government which protects him, it is plain that the exaction of more than this is indefensible extortion and a culpable betrayal of American fairness and justice.'

Attacked Law While President.

"After commenting on tariff operations from this standpoint there followed a condemnation of the policy and law that made an unnecessary accumulation in the treasury of the people's money possible, and this was introduced in these words:

"'But our present tariff laws the vicious, inequitable and illogical source of unnecessary taxation, ought to be at once revised and amended. These laws, as their primary and plain effect, raise the price to the consumers of all articles imported and subject to duty by precisely the sum paid for such duties. Thus the amount of the duty measures the tax paid by those who purchase for use these imported articles. Many of these things, however, are raised or manufactured in our own country and the duties now levied upon foreign goods and products are called protection to the home manufacturers, because they render it possible for those of our people who are manufacturers to make these taxed articles and sell them for a price equal to that demanded for the imported goods that have paid custom duty.'

New Argument Against Tariff.

"I have quoted thus liberally from this message solely for the purpose of showing not only the accepted position of the democratic party on the tariff question, but also to suggest the material then available in attacking tariff iniquities.

"I want if I can to lead you to a contemplation of the iniquities that have since accumulated, to the numerous additions to a vicious and dangerous progeny born of tariff license and depravity, to the increased material of successful attack and to the present duty of all who love our people more than self to strike a blow whenever and wherever it is possible for our country's honor and emancipation.

Foresaw Danger from Trusts.

"For this purpose I hope you will permit me to add one further quotation from the same message as follows:

"'In speaking of the increased cost to the consumer of our home manufactures resulting from a duty laid upon imported articles of the same description, the fact is not overlooked that competition among our domestic producers sometimes has the effect of keeping the price of their products below the highest limit allowed by such duty. But it is notorious that this competition is too often strangled by combinations quite prevalent at this time and frequently called trusts, which have for their object the regulation of the supply and price of commodities made and sold by members of the combination. The people can hardly hope for any consideration in the operation of their selfish schemes.'

Voters Reject the Warning.

"Less than a year after this announcement of democratic doctrine it was made a target for all sorts of attack in a presidential election. The insult was aimed that absolute free trade would follow democratic success, that the importers paid the custom taxes, and, above all, that if should be intrusted to the friends of the tariff. The people were persuaded to continue these friends in political control and they forthwith constructed a new scheme of high protection.

"The advance growth of the arrogance and greediness of tariff beneficiaries and the kindness shown them by these friends of the 'last resort' exhibited in this scheme demonstrated how confidently they relied upon the continuance of the people's credulity, which they had so recently and successfully tested.

How "Tariff's Friends" Revise Duties

"Sooner than they had the least reason to expect the friends of the tariff, or, in other words, those who sought to grow rich with government help at the expense of the people, with their aides and abettors, had turned over to them the work of again adjusting tariff rates. How did they approach the task? Was it with a patriotic intention to really benefit the masses of our people and make their burdens lighter? This they would hardly declare without a sly wink. Was it even with the fear of the people before their eyes? Surely nothing indicates it. On the contrary, they exultantly relied upon their ability to delude the people; they had not even yet learned to fear them. Their work was undertaken as they would have entered upon a privilege—to make the most of it.

Beneficiaries Fix the Duties.

"I have heard it said upon excellent authority that expectant beneficiaries under the existing tariff laws—made by its friends—were actually allowed to construct the schedule by which they expected to profit. This was quite in keeping with the color and complexion of the entire scheme. Evidence abounds in and about it indicating that the welfare and interests of the common people of our land were not allowed to disturb in any unpleasant degree the cheerfulness of those having the work in hand.

"I believe this last exploit of the so-called friends of the tariff in its revision should certify to any thoughtful observer not blased by interest that the spirit of a high protective tariff grows by indulgence and mocks what it feeds upon, and that its protective greed and ruthlessness is becoming more and more a menace to the welfare and happiness of our people.

"How long has it been thought decent or even safe to cheat the consumers of coal by putting it on the free list, but dishonestly providing for its custom taxation in another cunningly constructed revision of the law?

"How recently have the friends of the tariff had the boldness to perpetrate such a trick and take the chances of facing the people when in the painful stress of a threatened coal famine it should be exposed?

High Tariff Fosters Trusts.

"I have called your attention to the fact that in 1887 competition which, if unrestricted, might modify the effect upon our consumers of a high protective tariff was spoken of as 'too often strangled by combinations, quite prevalent at this time, and frequently called trusts, which have for their object the regulation of the supply and price of commodities made and sold by members of the combination.' When this was written I suppose the trusts and combinations mentioned as 'quite prevalent' so far as they were at all important might have been counted on the fingers of the two hands.

"When the friends of the tariff last took up the work of its reconstruction these trusts and combinations had increased by the hundreds. The consequence of their operation could not fail to be understood. It was as plain then as now that a high protective tariff defends them against foreign competition and that by agreed association and confederacy in production and price they defend themselves against competition at home.

"It was perfectly apparent that under the broad wings of high protection and fattened by unearned accumulation they could complacently close their ears to the troublesome cry for easier living from the everyday consumer.

Republicans Admit Need of Reform.

"Is it not true, then, that the encroachments of the doctrine of high protection have been constantly progressive? Is it not true that the heedlessness of its expectant beneficiaries and their disregard for the welfare of the great mass of consumers is more and more impudently exhibited; and is it not true that to all other reasons for a reform of our tariff laws there is added the birth and development of their cruel and unmerciful progeny of trusts and combinations which stand guard against all attempts to seek relief in the fields of free competition?

"That present tariff conditions have assumed a complexion which not only requires a check in its aggressiveness, but actual amendment, is at last admitted among those responsible for these conditions. Such a concession was made when a dozen or more reciprocity treaties were submitted to the senate, but the sincerity of the concession and the honest intention to surrender the least advantage as long as it can be held is emphatically disproved by the fact that session after session of the senate has passed without taking the least action on these treaties.

Doubts Sincerity of Republicans.

"I need hardly refer to the prevalence just at this time among the supporters of high protection of declarations and professions in favor of tariff readjustment. We hear it on every side. What does it mean? It means that they see the handwriting on the wall as they have never seen it before. Does it mean that they are sincerely willing to do something for the people as against old comrades who have heretofore paid well for the neglect of the people?

"How can we believe this when we see still paraded up and down before our sight the hoary-headed, bloated and malodorous old fraud and pretense that the tariff should be revised by its friends?

Should Not Be Trusted Again.

"What have these friends of the tariff done that they should again be trusted?

"They have quieted the people's fears and professed solicitude for their welfare and promised to lead them to pleasant places, and now that shoals and rocks have been struck they seek by another promise to mend the whole affair and retain the confidence and trust of those they have deluded.

"I have supposed that my fellow citizens are thoughtful on this subject and that their thoughtfulness has led them to desire an amendment of our tariff laws and a rectification of the wrong and injustice that follow in their train. I have attempted to give reasons why this work should not be intrusted to those who have so fully demonstrated their insincerity and unfitness for the task."

WHITE HOUSE DINNER SET.

New and Magnificent China to Be Shipped from England in Time for State Dinner in January.

Word has been received at the white house that the new dinner set, consisting of 500 or 600 pieces, which was ordered by Mrs. Roosevelt from England, will be shipped in time for the state dinners in January. The design of the china is the simplest ever ordered by a mistress of the white house, having a gold border and the great seal of the United States done in colors as the only decoration. The price of the china was much less than $30,000, which it was said to have cost. It is a much needed acquisition, however, and its order foretells much larger dinners at the white house than have been given there before. In ordering this china, Mrs. Roosevelt had in mind not so much the distinctive beauty of the design as its adaptability to use in connection with the other rare china already in the white house. It is much like the china left there by Dolly Madison, except the gold of that early day fired red, while that of the new china is yellow.

ROYAL LIONS PHOTOGRAPHED.

Pictures Are Successfully Taken from Inside a Cage of Beasts at Vienna.

Photographs of lions taken inside their cages in Emperor Francis Joseph's private zoological gardens at Schoenbrunn have been made by an amateur named L. Bleecha. The Austrian emperor's lions have a double cage with a trap door between. This trap was opened and the apparatus was placed in it, but a guard held the chain of the trap door so that it might be dropped at any moment.

Outside the cage stood the director of the imperial gardens, a muscular man, with an iron pole, ready to knock the lions down if they showed signs of wishing to attack the photographer. But all these precautions were superfluous. The male lion was as quiet as a lamb, and the lionesses most decidedly enjoyed having their pictures taken. A second male absolutely refused to be photographed and walked about lashing his tail.

BRITISH TRADE INCREASING.

The Exports and Imports for Month of September Shown to Be Larger.

The September statement of the London board of trade shows an increase in imports of $17,775,000 and an increase in exports of $9,190,000. These returns show increases in almost all imports, including $5,891,360 in manufactured articles, $4,735,500 in dutiable articles of food and drink, $2,790,105 in dutyless eatables, $4,852,460 in raw materials, and $1,560,330 in tobacco. The more notable increases in the exports were $3,005,000 in metals and articles manufactured therefrom.

In view of the exaggerated stories about coal exports, it is interesting to note that the increase was only 710,000 tons over 1901, of which only 20,000 went to the group of countries in which the United States is included.

Kipling's Hoodoo.

Should Mr. Kipling ever again take up his quarters at Gloucester for the purpose of securing material for a companion story to his "Captain Courageous," he will do so against the protest of all the old fishermen down that way, who are now convinced that Mr. Kipling is a "hoodoo." Everyone of the 20 fishing boats named by him in his story of that locality has, says the Boston Herald, gone down at sea.

THOUSANDS OF WOMEN ARE SLOWLY DYING FROM CATARRH

Pe-ru-na Cures, That Is Why the People Like It.

All the Advertisements in the World Could Not Make Pe-ru-na as Popular as It Is.

Miss Margaret Donnelly, 21 Webster Place, Brooklyn, N. Y., writes:

"Peruna was recommended to me about a year ago for catarrh with which I had been troubled nearly all my life, but which had given me serious trouble a few months before I took Peruna. In two weeks my head cleared up, I did not have headaches, and in a short time felt perfectly well."—Margaret Donnelly.

November Colds Should Not Be Allowed to Develop Into Chronic Catarrh.

Pe-ru-na Cures a Cold Promptly and Permanently.

"I am glad to recommend Peruna as it has done so much for me. I had been a great sufferer from catarrhal colds until I was urged to try Peruna, and I am happy to say that it has entirely cured me. I shall never be without it and most cheerfully recommend it to others who are afflicted as I have been."—Katherine Dauter, 239 13th St., Milwaukee, Wis.

Most people think the success of Peruna depends upon the use of advertisements. Undoubtedly the advertisements help some. But by far the greatest number of people who hear of Peruna, have their attention called to it by a friend.

Some one gets cured of chronic catarrh by Peruna. After he is certain of his cure, he is sure to recommend it to his friends. Friend recommends it to friend and the news spreads from tongue to tongue.

All the advertisements in the world could not make Peruna as popular as it is. Peruna cures. That is the reason people like it. Peruna cures a very stubborn disease. That is why everyone recommends it. Peruna cures chronic catarrh after all other remedies fail, which explains why neighbor recommends it to neighbor. Peruna cures catarrh permanently, and this way has gained a life-long friend.

People who have been cured by Peruna many years ago have been eager to recommend Peruna to their friends ever since. This is the way Peruna is advertised. It advertises itself. Its merits are its chief advertisement. Once cured of so distressing and exasperating a malady as catarrh, it becomes the duty of every one to pass it along; to call the attention of those who are still victims, to a remedy that rarely fails to cure.

Beware of Cheap Imitations of Peru-na—Be Sure That You Get Pe-ru-na.

There are no substitutes for Peruna. Allow no one to persuade you that there is something just as good. The success of Peruna has tempted many people to devise cheap imitations. Beware of them. Be sure that you get Peruna.

Miss Jennie Driscoll, 870 Putnam ave., Brooklyn, N. Y., writes:

"I heard so much in praise of Peruna as a specific for catarrhal affections that *when I found myself with a bad case of catarrh of the head and throat Peruna was the first thing that I thought of.* And my convictions were not wrong, for in a few weeks after using Peruna systematically I was entirely rid of this aggravating and distressing disease, catarrh.

"If people knew how efficient Peruna was for this trouble they would not hesitate to try it. I have all the faith in the world in it, and have never known of a case where the person was not cured in a short time."—Jennie Driscoll.

If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping; irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. The genuine article may be bought anywhere of all reliable druggists at fifty cents per bottle. Please to remember, the full name of the Company—**CALIFORNIA FIG SYRUP CO.**—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.

TAKING TESTIMONY.

The Coal Strike Commission Sitting As a Court.

There Are No Less Than 30 Attorneys, 24 of Whom Are Looking After the Interests of the Mine Owners.

Scranton, Pa., Nov. 15.—The anthracite coal strike commission appointed by President Roosevelt to arbitrate the differences existing between the mine workers of the hard coal fields of Pennsylvania and their employers, Friday began the hearing of testimony by which it will determine whether or not the workmen are receiving fair and just wages for their labor and whether their conditions should not be improved. The star witness for the miners, President John Mitchell, took the stand in the forenoon and when the commission adjourned at 4 o'clock in the afternoon he was still under the fire of cross examination by David W. Willcox, general counsel of the Delaware & Hudson Co. It was a trying day for the miners' leader, but he seemed to stand the test well. The heaviest fire of cross questions was aimed at him late in the afternoon session and when the hour of adjournment was reached Mr. Willcox was still propounding questions and testing Mr. Mitchell's memory.

The opening of the sessions was a notable day in the annals of the law in the upper anthracite regions. Such an array of lawyers has never been seen in this part of the state, and it is doubtful whether attorneys have ever been so numerous on one side of a case in this state as were present in the interests of coal companies Friday. The commission's sessions are being held in the room of the Pennsylvania supreme court, which is now sitting in Philadelphia. Ranged around three tables in front of the seven commissioners who occupied judge's bench, were no less than 30 lawyers, 24 of whom were looking after the interests of the mine owners.

In addition to these there was a large number of members of the bar present who came to merely look on. The court room at both sections was packed almost to suffocation, and scores of persons were unable to gain admittance.

Grouped about Mr. Mitchell were District Presidents Nicholls, Duffy and Fahy, the three district secretaries, the three national board members and the members of the three district legislative boards of the anthracite field. Scattered through the spectators were many practical miners who will be called upon to take the stand in behalf of the miners.

During the day Attorney Willcox asked Mr. Mitchell many questions as to the policies of the union, the method of calling strikes, the ability of the union to maintain discipline and prevent the members of the union from violating the law, and also as to the liability of the union breaking contracts. It was apparent to many of those present, who understood the situation, that Mr. Willcox's object was to attempt to prove by Mr. Michell's own testimony that the contention of the companies that the miners' union was an irresponsible organization was well founded, and that trade agreements therefore could not be safely entered into with the union.

During the hearing the statements were brought out for the first time since the late strike was begun that the union had disbursed $1,500,000 among the union and non-union men who were on strike.

MRS. M'KINLEY'S MINE.

The First Carload of Zinc Ore Ever Mined in Illinois Shipped.

Metropolis, Ill., Nov. 15.—The Empire lead lands and spahr mines on the Illinois Central railway in Pope county have just shipped the first carload of zinc ore ever mined in Illinois. This mine is on land owned by Mrs. William McKinley, widow of the president, and was operated by the Saxtons for several years after the civil war for spar and lead. But so much carbonate of zinc ore was found that the mines were finally abandoned, the value of the brown colored ore not being known. Recently operations were resumed by an Ohio man.

OUTBREAK OF CHOLERA.

The Dread Disease Again Makes Its Appearance at Manila.

Manila, Nov. 13.—Cholera made its appearance among the men of a detachment of the 5th infantry, which is stationed here. Seven men have already died and a number of others are seriously ill.

The detachment of the 5th infantry in question had been placed on guard along the Maraquina river, whence Manila receives its water supply, as it was deemed necessary to protect the stream from possible pollution. The cholera developed while the men were on this duty.

It was believed that cholera had entirely disappeared from Manila and its reappearance has created feelings of apprehension.

Gen. Miles, who is making a tour of the archipelago, was given a reception and banquet at Hollo, Island of Panay, Tuesday. The general delivered a short address, in which he expressed sympathy with the people in the afflictions which had come to them with the war and the cholera. He said he hoped for an early improvement in their affairs. From Hollo Gen. Miles proceeded for Jolo.

The further decline in the price of silver has forced the government to raise the rate of exchange to $2.50 Mexican for $1 gold.

The cheapening of silver has resulted in increasing the loss of the government and all other holders of silver. The instability of the present currency is seriously damaging business and the members of the civil commission, representatives of commercial interests in the islands will unite in making a strong plea to congress for the establishment of a non-fluctuating Philippine currency.

THE OLYMPIAN GAMES.

They May Be Transferred From Chicago to St. Louis.

Chicago, Nov. 13.—At a meeting of the board of directors of the Society of the International Olympian Games, held Wednesday afternoon at Kinsley, a committee was appointed, consisting of Henry J. Furber, Jr., Dr. William R. Harper, president University of Chicago, Judge John Barton T. Payne and Harry G. Selfridge, to enter into communication with St. Louis regarding the invitation of the latter city for the transfer of the games of 1904, and with the Committee International Olympique, which latter organization alone has the power to decide as to the time and place of its quadrennial contests.

Mr. Furber says: "If pursuant to the entreaty of St. Louis, we advise a course of magnanimity, we at least shall have the satisfaction of feeling that we have placed national interest before ambition, whether personal or local.

DR. HUNTER RESIGNS.

Leslie Combes Succeeds Him as Minister to Guatemala.

Washington, Nov. 13.—Dr. W. Godfrey Hunter, of Kentucky, United States minister to Guatemala, has resigned, and Leslie Combes, of Louisville, Ky., has been selected in his place.

Lexington, Ky., Nov. 13.—Leslie Combes, of Lexington, whose selection as minister to Guatemala was announced in Washington Wednesday, is a son of Gen. Leslie Combes, famous as an Indian fighter in pioneer days and prominently identified with Kentucky and national affairs as late as the civil war. Combes was state campaign chairman in 1900 and was appointed pension agent for Kentucky by President McKinley in 1897.

CAUGHT IN THE ACT.

Chicago Man Arrested Charged With Counterfeiting.

Chicago, Nov. 13.—Charles Wilder was arrested at his home Wednesday on a charge of counterfeiting. Detectives say that Wilder, who claims to be a molder by trade, was in the act of turning out spurious half dollars when the arrest was made. Capt. Portor, of the secret service, stated that the bogus coins had been in circulation since 1899, being of a very deceptive appearance.

Ohio Valley Improvement Association.

Parkersburg, W. Va., Nov. 12.—At the meeting of the Ohio Valley Improvement association Wednesday, lengthy resolutions were passed to send to congress, setting forth proposed amendments, etc. Resolutions were also passed giving vote of thanks to President Roosevelt for interest taken in the association and soliciting his aid in the work. After a few short addresses the association upon motion adjourned to meet next year at Evansville, Ind.

HIS TRIP TO THE SOUTH

The President Goes to Mississippi For a Few Days' Hunt.

That Region Was Formerly the Favorite Hunting Ground of Gen. Wade Hampton, the Famous Confederate Leader.

Cincinnati, Nov. 13.—Wednesday night President Roosevelt was speeding down through Kentucky on his way to Smedes, Miss., about 35 miles north of Vicksburg, for a four days' bear hunt. The place selected for the hunt is some miles from the railroad and is in the region which was formerly the favorite hunting ground of Gen. Wade Hampton, the famous leader of the Confederate Black Horse cavalry. Gen. Hampton at one time owned a plantation in this vicinity and hunted black bear in the cane brakes with horse and hounds. Before the war he is said to have killed over fifty bears in a single season, some of them with a knife.

Smedes, Miss., Nov. 14.—President Roosevelt and his party arrived here shortly before 4 o'clock Thursday afternoon and in their hunting togs started soon after for the camp on the Little Sunflower river. As the distance is about 15 miles and the trail is rough and bad the chances are that it was after dark before they reached the camp.

The president is clad in hunting costume, kakalin riding trousers, heavy leather leggings, blue flannel shirt, corduroy coat and wore on his head a brown slouch hat. Around his waist was buckled his cartridge belt and at his side hung his ivory handled hunting knife. The other members of the party also wore hunting suits. While the guns, blankets and other small baggage were being loaded into a four mule wagon the president chatted with the manager of the Smede estate and two ladies who were great admirers of him and who had come especially to greet him.

Smedes, Miss., Nov. 15.—A lean black bear which weighs 225 pounds is hanging up at the president's camp on the Little Sunflower, but to the regret of all the members of the party the first trophy of the hunt did not fall to the president's Winchester. The bear's trail was struck by the hounds soon after the party started Friday morning. The members of the party, except the president, Mr. Foote, Mr. Parker and Holt Collier, had been stationed at the various crossings, and as soon as the dogs gave tongue the president and his guides plunged through the dense underbrush in pursuit. Within a few minutes the dogs showed the direction the quarry was taking and Holt Collier, with the instinct of an old bear hunter, immediately made up his mind where the animal would come out. To save the president needless hard riding through the brush he directed Mr. Foote to take the president along the trail to a certain cut off. This was done and the president and Mr. Foote rode to the assigned station. On their way several swamp deer were jumped up but no effort was made to get a shot at them. Then for several hours the president and Mr. Foote waited. The trail of the bear carried the yelping hounds out of hearing and shortly after noon Mr. Foote abandoned hope that the quarry would come back their way and he and the president returned to camp for lunch. Had they remained, the president would have had a shot as the bear with the pack at its heels crossed at almost the exact spot which Holt had indicated.

THEODORE ROOSEVELT, JR.

The Lad on His Way to Washington Under the Care of Three Physicians.

New York, Nov. 15. — Theodore Roosevelt, jr., left Friday night in charge of three physicians en route to Washington, says a dispatch from Groton, Mass. He is said to be suffering from some trouble with his eyes which made it desirable that he go home at once. No details are obtainable here.

Theodore Roosevelt, jr., passed through New York early Saturday morning under the care of two physicians on the Federal Express bound for Washington. The conductor in charge of the car in which the president's son was berthed said he did not know how ill the young man was or the cause of his trouble.

REBELLION IN KWANG SI.

Boxers Massacred 1,700 Catholic Converts and Plundered Towns.

Victoria, B. C., Nov. 13.—Mail advices from South China report a recrudescence of the rebellion in Kwang Si, some time ago reported to have been suppressed. The rebels captured Hochin Chok, in Chin-Wan-Fu, secured the sub-prefect and placed him in his own prison. After pillaging this place, they attacked and took Lin Chin Fu, a prefectural city. Large numbers of the Kotishui, a new secret society, which is both anti-foreign and anti-dynastic, have joined the rebel movements. The rebels are singularly supplied by caravans which cross the adjacent French and Portuguese territory with arms and war munitions. Two Chinese cruisers, the Whan Gai and King Chang, left Canton shortly prior to the departure of the steamer Empress of China from Hong-Kong with over a thousand men to reinforce the imperial troops.

In Sze Chuan the Boxer movement still progresses. The Boxers have plundered all the villages between Sze Chuan and Chang Lu and in one place massacred 1,700 Catholic converts. When the last advices were received at Shanghai from Cheng Tu Yang Hsu it was besieged by Boxers and the gates of several cities nearby were kept closed. In October two parties of Boxers entered Cheng Tu, flourished knives and waved Boxer flags. The people were panic-stricken and fled in confusion, but the prompt arrival of garrisons resulted in the Boxers being driven from the city with heavy loss and 11, including a woman, looked upon as prophetess, were captured and beheaded in front of the yamens.

A proclamation has been posted at Cheng Tu offering 100 taels for the head of each Boxer captured within the city.

PREHISTORIC CITIES.

An Effort to Be Made to Preserve the Ruins.

Washington, Nov. 13.—Prof. W. J. McGee, of the bureau of American ethnology, one of the best known scientists in the country, was appointed by the president through the secretary of state to represent the United States on the American international archaeological commission, whose creation was recommended by the second international conference of American states held in Mexico last winter. Each of the American republics will appoint one or more members of the commission, appointments to be for five years. Each government interested will contribute to the expenses of the commission.

The idea of the commission is to preserve the ruins of the principal prehistorical cities, establishing at each of them a museum to contain objects of interest found in the locality and at such exhumed cities to establish conveniences for the visiting public. It will be the effort of the commission to establish an American international museum in the city selected by the majority of the republics participating in the work of the commission, which shall become the center of all American archaeological investigations and interpretations.

HUNDREDS OF HOUSES BURNED.

Many Chinese Were Cremated at Kwellin Kwangsi.

Victoria, B. C., Nov. 13.—Mail advices from China report a fire at Kwellin Kwangsi, causing great loss of life and property. The fire, which originated in a fire cracker shop, spread and burned several hundred houses. Many Chinese were burned to death. The fire burned houses all around the Christian alliance mission, which was unscathed. The result of this freak of the fire is that many of the Chinese have since come to the missionary to be baptized.

JUDGE JAMES HARGIS.

Denies the Story in Alleged Affidavits of Marcum and Flitner.

Lexington, Ky., Nov. 13.—County Judge James Hargis, of Breathitt, here from Jackson, Ky., gave an authorized interview in which he denied in toto the story contained in the alleged affidavits of Attorney J. B. Marcum and Moses Flitner to the effect that Judge Hargis was implicated in a plot to have Marcum assassinated. Hargis says no such affidavits as those published are on record in Breathitt court as alleged. He characterized the story as a "lie."

CATARRH THIRTY YEARS.

The Remarkable Experience of a Prominent Statesman—Congressman Meekison Gives Pe-ru-na a High Endorsement.

Congressman Meekison of Ohio.

Hon. David Meekison is well known not only in his own State, but throughout America. He was elected to the Fifty-fifth Congress by a very large majority, and is the acknowledged leader of his party in his section of the State.

Only one flaw marred the otherwise complete success of this rising statesman. Catarrh with its insidious approach and tenacious grasp, was his only unconquered foe. For thirty years he waged unsuccessful warfare against this personal enemy. At last Peruna came to the rescue. He writes:

"I have used several bottles of Peruna and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison, Member of Congress.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

SHOT AT KING LEOPOLD.

Attempt to Assassinate the Ruler of Belgium.

The Would-Be Assassin Is An Italian Anarchist Named Gennerro Rubino, Who Was Arrested.—The King Was Not Injured.

Brussels, Nov. 17.—An anarchist, named Rubino, made an attempt to assassinate Leopold, king of Belgium. He is an Italian, and made the attempt while the king was proceeding to the cathedral to attend a requiem in memory of the late Queen Marie Henrietta. No one was hurt.

Rubino stood in front of the bank of Brussels, on the Rue Royale. The other chambers in the revolver proved to be blank. The man was immediately arrested, and the police had some difficulty in rescuing him from the hands of the crowd.

That Rubino intended to assassinate King Leopold seemed fully established Saturday evening by the prisoner's confession to the police. The latter at first denied all the reports to the effect that the revolver contained ball cartridges, or that Rubino was connected with anarchism. But they final ly admitted that the prisoner had confessed that he intended to shoot King Leopold, and that he had anarchistic beliefs.

According to some reports Rubino, in the course of his examination before the magistrate, declared that he selected King Leopold for his attack, on account of his majesty's inhuman conduct towards his daughter, Princess Stephanie, at the time of her mother's death, and he also wished to show to the anarchists in London who doubted his loyalty that while they only talked, he acted. He would have killed King Edward, he added, but for the strong feeling of the English people in favor of the monarch.

The ministry of the interior has established the identity of the assailant of King Leopold. His name is Gennerro Rubino and he is described in their records as an advanced socialist. He was condemned to a long term of imprisonment for stealing at Milan in 1893, but he effected his escape to England, where he is supposed to have imbibed his anarchist principles.

It appears that Rubino has a brother who is also an anrchist. His father fought with distinction in the Italian war for independence.

Washington, Nov. 17. — Secretary Hay called at the Belgian legation Sunday to express to the officials there the regret over the attempt on the life of the king of Belgium Saturday and to extend the congratulations of the people of this country over the king's escape from harm.

THE NATIONAL GRANGE.

The Establishment of Rural Loan and Trust Companies Advocated.

Lansing, Mich., Nov. 17.—Impressive exercises were held by the National Grange in Representative hall Sunday in memory of the members of that body who have died in the past year. Aaron Jones, master of the grange at Sunday's session, severely scored what he termed the most gigantic of all monopolies, the proposed bankers' trust. He advocated the establishing of rural loan and trust companies, the growth of which in Indiana, he says, has been phenomenal in the last two years.

BATTLE OF FORT WASHINGTON.

Services Held in New York Commemorative of the Event.

New York, Nov. 17.—In "The Little Church at the Old Fort," officially known as the "Holy Rood Protestant Episcopal Church," which is situated on the site of the battle of Fort Washington, services were held Sunday commemorative of the battle. Among the societies represented at the services were the Empire State society, Sons of the American Revolution, the Mary Washington Chapter, Daughter of the American Revolution and the American Scenic and Historic Preservation society. Various revolutionary relics, dug up in the vicinity, were displayed in the chapter room of the church.

A $100,000 Fire in New York.

New York, Nov. 17.—Fire Sunday night completely gutted the buildings at 286 to 292 Graham street, Brooklyn, entailing a loss of $100,000. The blaze was first discovered in the boiler room of No. 290, which was occupied partly by Hugo Tollner, manufacturer of novelties, and rapidly spread through the other houses.

New York, Nov. 17.—Dread of being summoned to answer a charge of roughly treating one of the children of her class is supposed to have been the cause of the suicide of Miss Celia Ettleson, a public school teacher, Sunday.

Secretary Wilson Ill.

Washington, Nov. 17.—Secretary Wilson is confined to his home by a severe neuralgic cold which has developed since the recent political campaign in which the secretary took an active part.

OVER THE ARMY.

Report of Inspector General Brecklaridge.

Washington, Nov. 17.—The annual report of Gen. J. C. Brecklaridge, inspector general of the army, is a voluminous document and covers every phase of the military establishment and each department bureau and command in the army. There is more than fifty recommendations and suggestions relating to improvements in the army, most of which pertaine to technical matters and minor conditions. Much of the report necessarily has been covered in the reports of bureau chiefs and commanding officers. General Brecklaridge does enough to comment on all branches of the service and reports progress and improvements everywhere.

The most serious criticism is in regard to absenteeism where officers are on detached duty leaving the regiments short of officers. Thus, in the Philippines especially, it is found that many companies are without captains, and the companies in command of new and untried officers. He attributes this to lack of officers in the army to fill the details and detached assignments. Gen. Brecklaridge shows that instruction in the army is progressing satisfactorily. He recommends the fortification of Pearl Harbor, in the Hawaiian islands, as a strategic point. He says water transportation in the army is rapidly assuming stable and economical methods.

He has the following to say regarding his inspection in the Philippines:

"During my tour in the Philippines it was evident on all sides that the army, as a whole, was laboring patiently and faithfully to solve the many vexing problems continually presented to it. The difficulties encountered and the hardships endured never can be fully appreciated by any one who has not been on the ground and observed the daily life of officers and men, miles away from home, influences and associations, living in communities either openly or secretly hostile, depending almost entirely for their subsistence upon the commissary—where one is almost afraid to take even an ordinary drink of water without ascertaining first whether it has been cooked."

SHIPWRECKED CREW.

Hardships of the Survivors of the Steamer Elingamite Disaster.

London, Nov. 17.—The Daily Mail's correspondent at Wellington, New Zealand, telegraphs that the eight survivors from the wreck of the British steamer Elingamite, who were rescued on a raft by the British survey steamer Penguin, went through a dreadful experience. The raft from which they were taken measured only 12 feet long by seven feet wide, and had 16 persons on it when it left the wreck. The only food on board was two apples. The first apple was consumed on Tuesday and the second on Wednesday, each being divided into 16 portions.

From Sunday, the day they were wrecked, until Thursday, when they were rescued the survivors drifted 60 miles on the half-submerged raft. Several attempts were made to land on the Three King's Islands, but without success. Three men died on Monday night from drinking salt water. All of the survivors suffered the tortures of thirst, and four other men and the stewardess died of exhaustion before they were picked up by the Penguin. They had a cruel disappointment on Tuesday night. A steamer was sighted in the distance and frantic shouts were raised by those on the raft to attract attention. The steamer lowered a boat which passed within 50 yards of them, but the boat's crew apparently did not see the raft and returned to their vessel.

When the Pelguin was sighted only one of the survivors was able to stand, and all were terribly emaciated.

COLLISION IN CHICAGO.

One Man Killed and a Dozen Persons More or Less Hurt.

Chicago, Nov. 17.—One man was killed and a dozen men, women and children more or less seriously injured in a collision Sunday night between a Western avenue electric car and a Chicago, Burlington and Quincy freight train at the Eighteenth street crossing. The motor and trailer, which made up the electric train, was crowded with passengers, and it seems a miracle that so many escaped instant death. A mistake of the flagman at the crossing was responsible for the accident. The flagman and men in charge of the street car have been placed under arrest.

Suicided By Shooting.

Dawson, Ga., Nov. 17.—Lavoysier Lamar, a merchant of this place, aged 27, and related to the Lamar family of Georgia committed suicide Sunday night by shooting himself with a pistol on a railroad track and allowing a train to run over his body. During the evening he entered the Methodist church and bade the pastor good-bye, telling him he hoped he would not be permitted to speak ill of him.

On Leave of Absence.

Copenhagen, Nov. 17.—Ambassador Jusserand and his wife, who is an American, left for Paris, where they intend to spend the New Year. They will proceed thence to Washington, where they expect to arrive in January.

Granted Increase of Pay.

Denver, Col., Nov. 17.—Under an agreement reached the men employed as switchmen in the various yards of the Rio Grande systemhare granted an increase in pay, based on the Chicago schedule recently adopted.

DESTROYED BY FIRE.

Armour & Co.'s Packing Plant Went Up in Smoke.

The Loss Is Partly Covered By $721,500 Insurance—Six Hundred Men Are Thrown Out of Work By the Fire.

Sioux City, Ia., Nov. 17.—Armour & Co.'s packing plant, which occupied four acres of the stock yards, and valued at $900,000, was totally destroyed early Sunday morning by a fire which started on the second floor of the fertilizer building and is thought by Manager Lemon to have been due either to spontaneous combustion or to an imperfect dryer. The loss is partly covered by $721,500 insurance. Six hundred men are thrown out of employment by the fire.

Within an hour after the fire was discovered by a watchman six streams of water were being thrown upon the fire, which was gutting the fertilizer building, which was 120 by 60 feet and four stories high, but tao pressure was inadequate.

The floors and contents of the building burned like chaff. The roof soon fell and the fire burst through into the beef killing house. At the same time the cattle chute ignited, and in five minutes fell with a crash.

Once in the beef killing house, the flames began to dance madly. From this house to the oleo building was only a step, and when the oils started to burn the fire presented a most spectacular appearance. The big beef house, containing 500 carcasses, was the next to take fire, and the whole plant, except the hog house, was a lake of fire. The roar was terrible. The country for miles around was lighted up. Suddenly there was a terrific detonation followed quickly by another, and then another. Twenty-four drums of 100 pounds of ammonia each exploded before the reserve supply in the ammonia cistern was reached. That explosion almost razed tho entire plant.

The flames were blown through the fire wall which separated the hog house from the other buildings. Steadily the fire crept against the wind and through the office building. Not a scrap of paper was saved.

When the last of the ammonia drums was going off a burning chute fell upon a bunch of live hogs and their squeals were added to the appalling chorus.

THE CHOLERA IN MANILA.

The Spread of the Disease Is Causing Some Alarm.

Manila, Nov. 17.—The number of cholera cases is increasing in this city and the spread of the disease is causing some alarm. There are on an average 30 cases daily. The Funston reserve hospital, the casual camp at Santa Mesa and Rillbid prison are now included among the places infected. The disease is spreading in the Marquina valley where the danger of an infection of the water supply is regarded as grave. Should the water supply become infected a general epidemic is considered inevitable.

The cholera reports from the provinces show a decrease in the number of cases.

AS A REPRISAL.

A Duty of Four Dollars Per 1,000 to Be Placed on Canadian Lumber.

Toronto, Nov. 17.—Canadian lumber men who are in touch with what is going on at Washington and in Canadian government circles, are alarmed over the rumor that a duty of $4 per 1,000 feet will be levied on Canadian sawod lumber entering the United States. It is said that the measure is intended as a reprisal for the action of the provincial governments of Ontario and Quehec in placing an embargo on the export of pulp wood.

MASTER MECHANIC KILLED.

Shot By An Unknown Person While In a Private Car.

Conroe, Tex., Nov. 17.—At Waukegan, a sawmill town east of here, Master Mechanic C. W. Tate, of the Gulf, Colorado & Santa Fe, was shot to death Sunday morning. He was in the private car of Roadmaster Maxson when the shot was fired through the rear of the car, the bullet striking Mr. Tate in the forehead. His home was at Cleburne, where he leaves a widow and children. On circumstantial evidence Sheriff Anderson has arrested Tom Futrell, a freight conductor.

Probable Suicide.

Pocatello, Ida., Nov. 17.—Attorney R. C. Sneed, who last summer made an attempt to kill H. V. Platt, agent for the Oregen Short Line at this place, died here Sunday from the effects of morphine hypodermically injected. Circumstances indicate suicidal intent.

Switchmen's Wages Raised.

Cleveland, O., Nov. 17.—The Lake Shore road posted notices Monday announcing an advance of ten per cent. in the wages of switchmen along the entire system. It will affect about 1,000 men.

ATTORNEY MARCUM'S STORY.

In Fear of Assassination He Left His Home In Jackson.

Lexington, Ky., Nov. 14.—J. B. Marcum, of Jackson, against whose life numerous plots are said to have been directed, is in Lexington, en route to Frankfort to argue a case before the court of appeals. In fear of assassination he left his home by the rear just before train time, accompanied by his two sisters and his wife who, walking on either side and behind, proceeded with him by a circuitous route to the depot. Marcum is a trustee of the state college, attorney for the L. & E. road, United States commissioner in his district and attorney for several Eastern Kentucky corporations.

Until Thursday he had not left his house but twice since June. Within the last few days he has been afraid to leave his room, he says, having been warned by a friend, who rode 15 miles at midnight, that two men had been stationed in a house commanding a view of his porch and were to shoot him when he followed his custom of sitting on the porch. He says that in one room of the house, indicated the blind of a front window, has been drawn and the sash raised several inches.

In support of sensational statements made by Moses Feltner, in an affidavit, Marcum says that at a time when he knew Feltner had no money or gun, he came to his house one night, showed him $35, a shotgun and shells loaded with buckshot and told him that a plot had been formed to assassinate him, and through fear he had agreed to do the work. At another time he says he went with Feltner to a woods, where, to prove the story, he had related of another plot, he showed him four Winchesters concealed in the leaves.

Feltner told him the plan was to shoot him at dawn the following morning. Before becoming afraid to leave his premises in the early summer Marcum made a practice of carrying his baby in his arms as protection. He says he knows the babe saved his life once when a man who intended to assassinate him with a shotgun would not fire.

SEAMENS PERILS.

Hardships of the Crew of the Sunken Schooner Marts.

Savannah, Ga., Nov. 14.—The crew of the schooner S. B. Marts, Capt. Holloway, arrived on the schooner Arthur McArdle, which rescued them off Cape Hatteras, where the Marts went to pieces. The entire crew for 36 hours before their rescue were lashed to the after cabin of their dismantled vessel without food or water and at the mercy of the sea.

The Marts left Savannah November 3 with a cargo of lumber for Baltimore. Last Saturday morning she sprung a leak. The vessel made water so fast that she could not be freed. At 4 o'clock Saturday the sea carried away the deck load and took all sails. About 7 o'clock she struck Hatteras outer shoals, her masts went over and soon the vessel began going to pieces. Capt. Holloway and the crew sought safety on the after house, the highest place they could get, and there lashed themselves.

TIN PLATE MILLS.

Many That Have Been Idle For Months Are Starting Up.

Elwood, Ind., Nov. 14.—As a result of the recent agreement between the American Tin Plate Co. and the Amalgamated Association of Iron and Steel workers to secure the export tin trade, many plants that have been idle for months are starting up. Monday last 20 of the 26 idle mills of the Elwood plant were started and the remainder, which are being repaired, will be put to work as rapidly as the repairs are completed. The plants at Anderson, Gas City and Middleton have orders to start about November 15. At the four plants about 47 mills will be operated, giving employment to about 3,100 men. Arrangements are being made to start the Demmler plant at Braddock, Pa., and the two plants in Pittsburg also.

A NEW AIRSHIP.

A Successful Trial of the Machine Made Near Nantes, France.

Nantes, France, Nov. 14.—The airship built for the brothers Pierre and Paul Lebaudy made a very successful trial Thursday in this neighborhood. Several free ascents and descents were effected, accompanied by evolutions in all directions over the fields and woods bordering the Seine between La Roche Guyon and the town of Bonnieres. The flying machine returned each time to its point of departure at the rate of 25 miles an hour. There were four persons in the car.

STATE NEWS PICK-UPS.

COUNTY ATTORNEY BLANTON.

He Offers Capt. Patrick Fullest Protion If He Will Return to Jackson.

Lexington, Ky., Nov. 12.—In a signed statement received here Wednesday night from W. H. Blanton, county attorney of Breathitt county, he promises the fullest protection to Capt. Jim Patrick if the latter will return to Jackson to testify before the grand jury regarding the assassination of James Cockrell. Blanton says that on account of recent murders in Breathitt, the county is losing opportunity for development and calls upon the citizens of the county to throw aside their weapons and give up the feuds. As county attorney, he claims to have made all possible efforts to bring the guilty parties to justice, and says that one witness summoned, Silas McIntosh, has now been thrown into jail for refusing to answer questions asked by the grand jury. This fact and the protection offered Patrick is evidence that the authorities at Jackson want the law upheld.

John Patrick, formerly attorney at Jackson, in a published statement several days ago, claimed to know the assassins of Cockrell, that he saw the shots fired from his office window and recognized the murderers. He left Jackson and came to Lexington soon after the shooting. In his statement he said he was willing to testify before the Breathitt grand jury if Gov. Beckham would allow a company of state militia to accompany him, as he would be killed at Jackson without military protection. An attachment from Jackson for Patrick is in the hands of the local sheriff, but Patrick can not be found.

TRACKED BY BLOODHOUNDS.

A Kentuckian Assassinated While Returning From Church.

Maysville, Ky., Nov. 13.—Tuesday night Walter Peck was shot and instantly killed between Elizaville and Crains, Fleming county. Peck had been to church and was on his way home. When on a lonesome stretch of the pike, about half way from the church and home, and while passing a rock pile on the side of the pike, a man rose up with a shotgun and fired, the load striking Peck, killing him instantly. The authorities came to this city, procured the bloodhounds, and Wednesday morning early a man by the name of Burgess, of Tilton, Fleming county, was arrested. No one knows why he should shoot Peck, as there were no words or grudge between them. Peck was an excellent young man.

VICTIM OF MELANCHOLIA.

Mrs. Abell Shot Herself Through the Heart at Her Home.

Bardstown, Ky., Nov. 14.—Mrs. Abell, wife of Edward Abell, shot herself through the heart at her home at Cox creek at 8 o'clock Thursday morning, dying 15 minutes later. Mrs. Abell was injured in a runaway accident about five years ago, since which time she has suffered from melancholia. She was a daughter of Jordan Hall, superintendent of the Bardstown electric light plant, and was about 26 years old.

Arlund Changed His Mind.

Louisville, Ky., Nov. 14.—Peter Arlund appeared at the Crescent bath house Thursday night. He had previously been with convivial friends and announced that he was going to St. Louis Friday night to force Col. Moses Wetmore to fight a duel or to be denounced as a coward. Leaving the bathhouse some hours later Arlund told a reporter the incident was closed unless Wetmore accepted the challenge.

Officers Elected.

Shelbyville, Ky., Nov. 14.—The annual meeting of the directors of the Kentucky home for aged and infirm masons was held here. The following officers were elected for the ensuing year: President, Judge Howard French, of Mt. Sterling; vice president, John M. Ramsey, of Owingsville; treasurer, Frank Johnson, of Frankfort.

The Griffin Brothers Arrested.

London, Ky., Nov. 15.—Sol Griffin was captured in Estill county and delivered to the jailer here, and James Griffin was brought from Bell county. They are under indictment for killing Deputy Sheriff Thacker, of Clay county.

Forwarded His Resignation.

Louisville, Ky., Nov. 15.—Pension Agent Leslie Combs Friday forwarded his resignation to President Roosevelt. The resignation takes effect November 20. Mr. Comb's successor will be appointed immediately.

Injured in a Runaway.

Shelbyville, Ky., Nov. 15.—While returning to their homes in the Finchville neighborhood Misses Pearl Carrithers and Maude Wigglaton were badly injured in a runaway accident on Main street, at the western limits of the city.

Aged Woman Dead.

Bardstown, Ky., Nov. 15.—Mrs. Catherine Turner died at her home here of old age. Mrs. Turner was 84 years old. She was an interesting talker and could relate many incidents of the pioneer days of Nelson county.

USED HIS PISTOL.

Policeman Shot and Killed a Deputy Sheriff and Wounded Another.

Covington, Ky., Nov. 13.—Nicholas Bodkin, deputy sheriff of Kenton county, was shot and killed, and John McInerney, also deputy sheriff and brother of Sheriff Bud McInerney, was painfully shot Wednesday night by Robert Brown, a Cdvington policeman. The shooting took place in Ben Hegener's saloon in Court avenue, directly across the street from Covington police headquarters.

The quarrelsome nature of Policeman Brown when intoxicated seems to be the only cause for the [illegible] although it was preceded by a quarrel by Brown with two strangers. From the acounts of eyewitnesses it appears that Bodkin and McInerney got into trouble through desiring to preserve peace, and even Brown's statement corroborates that theory.

J. M. M'KNIGHT SENTENCED.

The Ex-Banker Gets Six Years in the Penitentiary.

Louisville, Ky., Nov. 14.—J. M. McKnight, former president of the German national bank, who was found guilty in the federal court of misappropriating funds of that institution, which was closed in 1896, was sentenced to six years in the penitentiary on both counts by Judge Evans Thursday. The terms are concurrent, however, and his full time will be six years. This is the fourth sentence that has been passed on McKnight. The others were seven, five and six years.

OWENSBORO WATER WORKS.

The City Is Empowered By the Court to Issue Bonds For Its Erection.

Owensboro, Ky., Nov. 14.—Judge Owen handed down an important opinion Thursday in the case of Z. T. Robinson et al., in which they sought to enjoin the city from issuing $200,000 of bonds to erect a new water works plant. Judge Owen held that the city ordinance giving the population at 15,058 in June, 1900, when the census of the city was taken, was conclusive, and held that the city was empowered to issue the bonds.

A Girl Heroine.

Middlesboro, Ky., Nov. 15.—The home of Brand Whitley, an aged farmer, some distance from Hegan, Va., was destroyed by a forest fire raging on the Kentucky-Virginia border. He was ill at the time, and would have been burned to death but for Mary Staples, about 14, who rushed in and carried the old man to safety.

Poor Hunting Season.

Covington, Ky., Nov. 15.—Hunters who left at the opening of the present quail and rabbit season last Monday for various hunting fields are beginning to return in disgust, with but few birds and cotton-tails. The continued warm, dry weather has thus far made this the poorest hunting season in years.

The Railroad Extension.

Mayking, Ky., Nov. 14.—Surveyors on the new line of railroad, the Sandy Valley & Elkhorn, running from Pikeville via the famous Elkhorn creek coal belt and Mayking and Whitesburg, in this county, have just completed the route and 1,000 hands will be put to work on November 20.

A Murder Verdict.

Covington, Ky., Nov. 15.—Coroner Tarvin's jury completed its inquest Friday morning on the death of Deputy Sheriff Bodkin. The verdict was that Bodkin "came to his death from a wound in the abdomen made by a pistol ball from a revolver in the hands of Robert Brown."

Will Take Out Tavern Licenses.

Paducah, Ky., Nov. 14.—Police Judge Sanders decided that L. A. Lagomarsino, proprietor of a saloon and cafe, had not violated the Sunday law by serving intoxicating liquors with meals. It is said that several saloonkeepers who have restaurants attached to their saloons will take out tavern licenses.

Want Cheaper Insurance.

Louisville, Ky., Nov. 15.—If the whisky men of Louisville and elsewhere in the state fail to get the 50 cent reduction in insurance rates that they have demanded, it is reported that they will form a mutual company and give the others the go-by.

Cut One of His Tenants.

Madisonville, Ky., Nov. 15.—Rev. T. J. Watson, of Benton, Friday seriously cut C. A. McCann, one of his tenants. There had been bad blood between the two for several weeks. Rev. Mr. Watson gave himself up, and was released on bond.

Pays Up Back Taxes.

Newport, Ky., Nov. 14.—City Auditor Albert Silva received from the Central Railway and Bridge Co. a check for $5,000 for francaise taxes due the city from that corporation. The above amount, the auditor says, will fully pay all undisputed taxes to date.

Superannuated Minister Dead.

Owensboro, Ky., Nov. 14.—Rev. J. S. McDaniel, a superannuated Methodist minister, who was well known throughout the Louisville conference, died at his home in Lewisport, aged 75 years. He had been in the ministry 51 years.

BOONE CO., RECORDER
Wednesday, - - Nov. 19, 1902.
W. L. RIDDELL, - - Publisher.

For Circuit Clerk.

We are authorised to announce S. E. FERRILL, of Idlewild, as a candidate for Circuit Court Clerk, subject to the action of the Democratic party.

THE President had a great time in the Mississippi jungles.

THE Carrollton Republican went out of business as soon as the Kentucky returns of the last election came in.

INDIANA politicians have started a boom for Gov. Durbin for Vice-President. A boom for that nomination amounts to about 0.

It is said that a combination of interests is under way which will furnish the river traffic above and below Cincinnati, a line of independent steam boats.

AN Elwood, Indiana, woman drank a quart of gasoline with suicidal intent. Failing in the desired effect she lighted a match and held it to her mouth and an explosion followed, mangling her face badly.

IT is strange that such a great, good and pure (?) man as Richard W. Knott is, will continue to abide in so vile a city as Louisville, a city where, according to his testimony thieves, thugs and cutthroats dominate everything.

As a result of the election Democrats will be found on the Congressional delegations from California, Michigan, Wisconsin and Maryland, which have been solidly Republican since 1896. Deleaware also sends a Democrat instead of a Republican and Rhode Island changed a Republican Governor for a Democratic one.

DR. HUNTER'S political enemies have landed his scalp at last, and he has been compelled to resign as minister to Gautemala. It is said that he will enter the contest for the Republican nomination for Governor of Kentucky, and prospects are good for a hot old time in the Republican party in Kentucky during the next year.

THE call under which the primary election will be held to nominate a Democratic candidate for State Senator in the Twenty-first district, composed of the counties of Carroll, Henry, Oldham and Trimble, provides that no money shall be used in any way to influence a vote, and that the votes of any candidate not living up to this rule shall not be counted. The rule has been tried in Trimble county, where it is said it worked well.

THE farmers in Carroll county are endeavoring to organize a fire insurance company on the same plan as that of the Boone county company. If they succeed, which they surely will, they will never regret the work necessary to get it in operation. For about 25 years Boone county farmers have found that the home company furnished the cheapest and best insurance possible to get, and its popularity has increased until now the company insures nearly all the farm property in the county. All the insurance money stays at home.

AERIAL telegraphy is soon to be used in France, if the projects of the recently formed Paris company, are carried out which use the Popp-Branley system, is shortly to install a central station in Paris of a novel character, and subscribers all over the city will receive the news of the day by wireless telegraphy. The main station will be in connection with the telegraph, telephone, and with the aerial posts outside the city so that it will be in a position to keep the subscribers posted as to all occurrences of importance, stock quotations, results of races, &c.

IT is understood in Republican circles that Internal Revenue Commissioner Yerkes, in view of the sweeping Democratic victory in Kentucky, will not be a candidate for the Republican gubernatorial nomination. A close friend of the Commissioner is authority for the statement that Mr. Yerkes intended to make the race, conditional upon the showing of his party in last week's election. This gentleman says that Mr. Yerkes has no desire to go into an election simply to lead a forlorn hope, and in view of the admitted aggressiveness of the Kentucky Democracy Mr. Yerkes will continue to serve the Government in the capacity of Commissioner of Internal Revenue.

A PATRON who was renewing his subscription to the RECORDER, a few days since, said: "Riddell, you have gotten the RECORDER to a point where most of the people in this county cannot do without it. I have been taking it so long that it has become a necessity at my house as well as at the home of two or three of my neighbors who have been regular borrowers of my paper for several years; but one of them has decided to subscribe for it at the beginning of the year. I do not see how any person interested in what is going on in Boone county can get along without the RECORDER. It is a complete weekly record of the doings of our people. Here's for another year."

POLYGAMY will play an important part in the question of seating Apostle Reed Smoot, should he be chosen Senator from Utah to succeed Senator Rawlins. A fight may be made against him, as was made in the case of Brigham H. Roberts, elected to Congress four years ago. Smoot, like Roberts, is a polygamist, and one of the leaders of the Mormon Church. He is the candidate of the Kearns faction in Utah for the Senatorship, and will probably be chosen, as the Legislature is Republican. Although there will be strong opposition to Smoot because he is a Mormon with plural wives, the Senate may not take the same view of the matter that the House did in the case of Roberts.

MR. BRYAN, in the Commoner, says:

"Those democrats whose enthusiasm ebbs and flows with the political tides will not be made jubilant by reading the election returns of last week. Later returns not only fail to strengthen democratic claims, but give further evidence of republican gains. In the south the usual majority have been polled, but in the northern states Rhode Island and Nevada are the only ones that elected democratic governors. * *

"Generally speaking, the democrats made gains in the cities and lost in the country, the explanation being, first, that the city organization is more complete and, second, that present prices have brought more advantage to the farmers than to the wage-earners.

"The result has been the same too, whether the national platform of the party was indorsed or rejected. While the Kansas City platform was indorsed in Rhode Island and Nevada—the states that we carried—it was ignored in New York and California—states in which we made gains.

"On the other hand, we were defeated in Wisconsin, Indiana Massachusetts, Illinois, Iowa, Connecticut, New Jersey and Michigan, where they turned down the Kansas City platform as well as in Ohio, Kansas, Nebraska, Colorado, Minnesota, Idaho and Washington, where it was indorsed. Neither the regular democrats nor the reorganizers can point to the election as an evidence that their plan of dealing with the issues will insure success."

Why not Insure in a Home Company?

Best results for least premium consistent with permanent security.

Combines every necessary element in life insurance, and has new features not found in any other single policy.

Furnish low cost of insurance, full protection, and a high rate of investment.

Any sum not less than $50 may be paid, and premium proportionately decreased thereafter, while the value of the policy is increased. Dividends payable annually.

High cash guaranteed value a feature of the policy.

The premium on a 20 payment life policy in the Equitable Life of New York, at age 35, is..$38.34
In the New York Life it is..38.34
In the Mutual Life it is....36.87
In the INTER-STATE it is only 35.92

At the end of 20 years the Equitable Life guarantees you a cash surrender of.....$610.00
The New York Life guarantees you..... 609.00
The Mutual Life guarantees you.....631.00
While the INTER-STATE guarantees you.....637.00

In other words, the New York companies charge you more and guarantee you less than The INTER-STATE, and yet the advantages of The INTER-STATE are better for the policy-holder than either of the other companies.

C. C. ROBERTS,
Agent Boone County.

So far this month Kenton county has had two peace officers killed and one other badly wounded Two thirds of this bloody work was done by peace officers.

The following summary of crop conditions for the month of October was issued by the weather bureau at Washington:

"The month, as a whole, was very mild, with rainfall generally sufficient. In the central valleys the conditions are generally favorable for hardening corn, but a considerable portion of the crop in the late region and over the northern portions of the Mississippi and Missouri valleys is yet soft.

"Rains caused considerable injury to cotton during the early part of the month, especially in the central and western portions of the belt. The weather for the middle and latter part of the month was more favorable and the developments of a fair top crop in some localities resulted. At the close of the month picking was still in progress and with delay of frosts considerable will yet be gathered, the most favorable prospects for top crop being reported from northern and central Texas.

"Winter wheat seeding made satisfactory progress and was largely complete at the close of the month by the principal winter month states. The early sown has, as a rule, germinated well, good stands being generally reported. Fly is, however, quite extensively reported from the states of the Ohio and central Mississippi valleys."

Notice to Policy Holders.

To the Policy Holders of the Farmers' Mutual Fire Insurance Co.:

At the meeting of the board of directors of the Farmers' Mutual Fire Insurance Company of Boone County, Kentucky, on the 6th day of October, 1902, the following motion was made and carried unanimously:

Resolved, That the policy holders of the Farmers' Mutual Fire Insurance Company of Boone County, Kentucky, are hereby notified and requested to meet in mass convention in the court house in Burlington, on the first Monday in December, 1902, to discuss and take action on the question of voting by proxy at the annual elections of the Fire Insurance Company.

The board requests that as many policyholders as possible can, be in attendance on that day.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars. free.

All successful cattle breeders and feeders are agreed that in order to make high priced, prime loin beef in the largest quantity in the fat steer, good breeding and good blood even in the grade animal, is the first and essential consideration. This, they say, after long experience, must be the foundation of what is known in the market as prime beef. There is nothing that can be substituted for this, and no amount of care and feeding can overcome poorly bred steers, or make thick and marbled loin beef which sells at the top of the market, and is so much sought after for exporting. But when this foundation is laid in good breeding and good blood, even the grade steer can be put on the market with thick, marbled loin, and at top prices.

Around in the Engine House ward the editor of the News received two votes for Congressman, while ex-Congressman Al. Berry received one. There's consolation in the fact that we downed "the tall sycamore from the Licking once." We appreciate the thoughtfulness of our friends, but still would rather had them cast those two votes for Mr. Trimble.—Georgetown News.

The currycomb should not be harshly applied to the skin, but be used more to clean the brush. In heavy horses the currycomb should never be used below the knees and hocks, but may be used upon the body in lighter fashion than it is commonly used. There is no need of scratching the back hard enough to open the coat and start up a cloud of unnecessary dandruff. The action of the brush is merely to loosen the scales from the cuticle and allow them to be removed by the dandy brush.

The Rural Mail Delivery.

The inspector of rural delivery mail routes has an appointment to be here tomorrow. You would better be on hand for examination if you wish to be the carrier in case the route is established. As soon as it is known that the route will be recommended Mr. Thomas will be around with a sample box which has been accepted by the government. When put up the boxes are under the protection of the government, and to interfere with one of them in any manner is a very serious offense, for which the offender will have to answer in the United States Court.

The Campbell-Nichols Nuptials.

Clayborn Campbell and Miss Stella Nichols were united in the holy bonds of matrimony at the residence of Rev. J. L. Sproles, on the 5th inst. The groom wore the conventional black, while the bride was charming in a tailor-made suit of gray. The attendants were Miss Edith Smith, cousin of the bride, Leslie Nichols brother of the bride, Harry Passons uncle of the groom, and Miss Julia Smith. After the ceremony the wedding party repaired to the residence of the bride's father, where a sumptuous wedding feast was served.

The presents were both numerous and handsome.

In the evening an old time charivari was given them, after which all repaired to their homes, wishing God's richest blessings to rest on them in their journey through life together.

Mr. and Mrs. Walter Campbell entertained the wedding party the next day, with an elegant dinner, served in true Kentucky style, consisting of every delicacy of the season.

Tobacco Growers in Session.

The Kentucky Tobacco Growers' Association held a convention at Lexington Thursday. About 120 delegates were present, representing twenty-four counties. The meeting was of a business nature, the further organization of the Association in the Burley tobacco growing counties being its object.

When formerly incorporated the organization must have forty thousand members, all growers of white burley, and it will be capitalized at one million dollars. The members whether or not stockholders, pledge themselves to sell only to the Association, which agree to pay prices considerably in excess of those paid by the so-called trust. By the contract, which forms a basis for the organization, the producers will have a majority on the Executive Board and will be able to fix the prices which shall be paid for the tobacco.—Georgetown Times.

A Rock Pile Badly Needed.

Cummins, who was tried by Judge Cason, last Wednesday, for carrying a pistol got $25 and ten days in jail, and is paying the penality by a sojourn in the county jail. This thing of paying fines by going to jail is becoming monotonous. A good healthy rock pile should loom up near the jail at all times, and whenever a fellow proposes paying his fine by going in jail, put him on the rock pile. The fruits of his labor could be used to an advantage on the public roads, and when it become known that the jail is no longer a place in which a fine can be paid at the expense of the county the number that otherwise would go there when fined will be greatly reduced. It will, of course, cost something to work that class of prisoners, but, in the long run it is evident that the county will profit by it. The Judges of the courts in every instance where the law will permit, should have verdicts returned and judgments entered authorizing the county to work the prisoners who go to jail in lieu of paying their fines, and then let the fiscal court do its part in providing the means for enforcing such judgments. The RECORDER does not make the above suggestions believing that any profit to the county will actually accrue from the work of the prisoners, but it does believe that the benefit to the county will arise from the fact that such a proceeding will greatly diminish the offenses for which a jail sentence can be inflicted. The RECORDER believes that the people of Boone county are heartily in accord with the above suggestions.

Supervisors of Tax.

The county judge has appointed the following as supervisors of tax: G. M. Allen, of Hamilton; G. W. Roberts, of Verona; J. W. Conner, of Union; W. P. Cropper, of Bullittsville; John B. Cloud, of Constance.

FISCAL COURT

Meets in Special Session and Considers the Small-pox Situation.

A Committee Appointed and Authorized to Build a Pest-House.

The fiscal court met in special session, last Thursday, all the justices being present except J. H. Watson, of Walton. The object of the session was to take steps in regard to providing a county pest house as soon as practicable, and the court, without a dissenting voice, decided to erect, on the cite of the old county poor house, a four room pest house, and appointed County Judge Cason, county attorney Castleman and N. E. Riddell a committee to have the work done. The first case of "walking" smallpox that developed demonstrated to the entire satisfaction of the court the necessity of a county pest house. Very few of the citizens of Burlington or vicinity anticipate any more cases of the disease here, and there is little or no uneasiness on that score, but the fiscal court saw the necessity of providing a place for taking care of those in the county who might take the smallpox and have no home.

Following is the full text of the order the fiscal court made in regard to the pest house: "On motion carried, P. E. Cason, D. E. Castleman and N. E. Riddell, are appointed a committee to build a pest house They will erect same on the county farm, and at or near the place now occupied by the old infirmary; said house to consist of four rooms and arranged as the committee desires. Said committee may make all necessary contracts as to the matter of building, and the bills contracted by them shall, on order of the county judge, be paid by the sheriff out of funds in his hands not otherwise appropriated. But should it become necessary or advisable, the committee is hereby authorized to borrow funds with which to build said house, and the fiscal court will make proper orders to secure the repayment thereof; and they will cause said building to be erected as soon as practicable."

Our Corn Exhibit.

Ben Cason, who resides down on Middle creek, is one of the few persons in this county, who carries the old time saddle bags. Ben came into this office, last Friday, with his saddle pockets, and they contained five ears of corn that taxed them to their full capacity. He said these five ears are only a fair sample of his crop.

One of the nice exhibits of corn that has come in during the past few days is that of Geo. Blythe. George is not willing to accept any position below first in the display as now constituted.

M. T. Graves, of Bullittsville, never does anything by the halves, and when he entered our corn exhibit a few days since, he brought in a string of ten nice ears which have not been outclassed up to date. Mentor says Uncle Button is no longer entitled the front seat in the exhibit.

Mr. Jackson brought in Monday, a hand of very fine tobacco, and some very large corn. Mr. Jackson is a new comer among our farmers, but his agricultural productions are equal to any of the old timers.

The Ordination Exercises.

Last Wednesday was a beautiful day, and a very large congregation assembled at the Baptist church here to witness the ordaining of a deacon, Mr. D. E. Lawell being the person elevated to that position in his church. Dr. J. A. Kirtley preached the ordination sermon, which was a most excellent effort. Rev. Hall, of Dayton, Ky., delivered the charge in a most impressive manner. The ordination exercises were completed in the forenoon, and in the afternoon the congregation listened to a very able sermon delivered by Dr. Daniels, of Covington.

At noon a most excellent dinner was spread in the hall at the Court House, of which all were invited to partake. The exercises throughout were impressive and instructive.

Ministers present were Dr. J. A. Kirtley; Revs. B. F. Swindler and Daniels, of Covington; Hall, of Dayton; Taylor, of Erlanger; Sproles, of Burlington.

Thief Captured While Asleep.

When F. A. Hall went to his barn, last Sunday morning, he heard a very loud snoring, and he was certain that a tramp had taken lodging in the building for the night. An investigation was begun at once, and in a few minutes the trespasser was discovered, and proved to be a large possum, which Mr. Hall approached in a very careful manner to avoid any unpleasant experience in case the intruder should be a putorius fartidus. The indentity of the animal being settled it was taken in charge and presented to Dudley Rouse, whose appetite had been craving an opossum ever since the frost appeared the first time, this fall, on the pumpkin vine.

Agricultural Hints.

THE DORKING BREED.

For General Purposes It Is Highly Recommended by the Department of Agriculture.

This English bird is one which may be considered an ideal bird for general purposes, says a bulletin of the department of agriculture. It is a hardy fowl and can stand almost any amount of cold weather, providing the ground is not damp. This is proved by the fact that they do well in the northern part of Scotland and in the extreme north of Ireland, among the Cumberland hills, and in other places equally as cold and exposed. This should be remembered by those who contemplate raising them, that the soil must not be damp if success is expected with them. The Dorking is one of the oldest of domestic fowls.

SILVER GRAY DORKING COCK.

If not the oldest. There are no definite records to show when it first lived in England, or whence it came, but the supposition is that it was carried to England by the Romans, who evidently possessed fowls of similar characteristics.

The chief distinctive mark of the breed is the presence of a fifth or supernumerary toe, springing behind, a little above the foot and below the spur. It has been sought by various writers to deprive Dorking of the honor of being the original and principal rearing place of this justly celebrated variety, and it is asserted that the true Dorking fowls are raised at Horsham, Cuckfield, and other places in the Weald of Surrey, and that the ancient and superior white fowls from Dorking are a degenerated race compared with the improved Sussex breed. The feature in which this bird is most popular is its table qualities. The flesh is white and very delicate in texture. It is claimed by many to equal if not excel the French varieties. The broad, deep and projecting breast of the Dorking admirably fits it for table purposes, and in this respect it is conceded by some the rival of the Indian Games. As layers the Dorkings are good, and are careful sitters and attentive mothers. They are splendid fowls for the farm and are profitable for practical purposes.

There are three varieties of Dorkings—the White, Silver Gray and colored. The White Dorking is really the purest blooded of the three, as for years this was the only variety which produced invariably the fifth toe.

UTILIZING WASTE EGGS.

Whether Fresh, Cracked, Dirty or Rotten, Modern Commerce Finds a Use for Them.

Storage houses have learned economics in the handling of eggs. The large storage concerns propose to have as little loss as possible, and utilize every egg in the case, whether fresh, cracked or dirty. Even rotten eggs are utilized. This is how they do it:

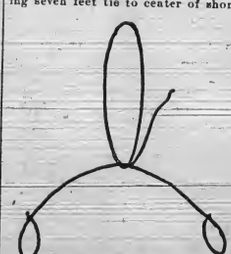
All of the small, dirty and cracked eggs that are fresh and of good quality are canned. They are put up the same as canned meats. The yolks and white of the egg go in separate cans, and this product is shipped all over the country, and is a great convenience in hot climates. When a baker has use for the whites of eggs he can just buy what he needs put up in these cans, which saves him the loss resulting from buying eggs as they are ordinarily sold. The quality of this canned fruit is fine.

Then the rotten and cloudy eggs are put up in cans and sold to tanners, and used in putting the gloss on fine leather. The "rots" serve the purpose of the tanners and can be bought cheaper. The shells are used to make fertilizers, etc., so that the loss is small. When it is remembered that the small things count up fast in making losses profits, the value of the economy here practiced becomes apparent.

Preparing Fowls for Market.

Exercise is not conducive to the laying on of flesh. On the other hand fowls do not thrive when confined in coops the process of fattening should be a very quick one. Fourteen days is long enough to get a fowl in condition. Mashed potatoes and corn meal one-half and half a good combination. Feed all they will eat in the morning. At noon give sweet cats, puddings and corn equal parts of each, and in the evening plenty of wheat and corn. Grit must be kept before them all the time. Give plenty of water and once a day a little green food if they will then soon be ready. —J. E. Brabazon.

GREEN CORN FOR PIGS.



Now Comes an Experienced Iowa Farmer Who Proclaims It a Most Excellent Food.

The time of year has arrived for the theorists to get out their advice regarding the effects of feeding green corn. I have already seen many articles warning the people against the free use of new corn to any kind of stock, and more especially hogs. Now, I have been feeding green corn to all kinds of stock for the last 40 years, and I have my first case to record yet where any bad results followed. I usually commence while the corn is in the milk. I am feeding a few hogs at present writing that I summered through on blue grass pasture with not more than two or three ears of corn per head daily up to the advent of new corn, and I must say, I never saw hogs gain as fast as they are gaining. I will make assertion that will be met with very strong opposition. It is this: I believe there is more money made by allowing the pig crop to be carried through the first winter and only grained enough through the summer to keep them growing until new corn can be fed. I will try to give my reason as experience has taught me. In the first place, we have to feed our spring litters too much grain from the start, in order to market them. The following winter they have no time to grow bone or muscle. They are more liable to disease than when more matured. I will give my idea, or at least my fancy, regarding hog raising for marketing. In the first place, I would want a good old Poland sow crossed with a full-blooded Chester White male, the pigs to come about the first of May. The sow should be allowed to run in bluegrass and white clover pasture, where she may have access to plenty of water to drink and also to wallow in with plenty of shade. She should be just kept in a growing condition through the winter and the next summer. The result is large healthy hogs. A very few bushels of corn tell wonderfully when the corn is passing from the milk stage. Many will argue that it does not pay to keep hogs so long. But you get but very little profit from your clover pasture in feeding your spring pigs, and the difference in selling a 400-pound hog against a 200-pound hog will more than balance the extra feed and labor required to grow it.—John H. Carl, in Prairie Farmer.

HANDLING A BIG HOG.

A Comparatively Simple Method Which Has Been Found Effective and Satisfactory.

An easy way for one man to handle a large hog is by means of a three-eighths-inch rope ten feet long. Cut off three feet, and tie a loop in each end, as shown in cut. The remaining seven feet tie to center of short

EFFECTIVE HOG ROPE.

rope between the loops. Place loops over hind feet of hog and draw long rope between front feet and over nose, then back again through short rope. Pull forward more over nose, then back again as before and tie. This comparatively simple method has been found quite effective and satisfactory by many farmers following it. William Berck, in Orange Judd Farmer.

ALL AROUND THE STABLE.

In building a stable, have the side walls and ceiling so tight that they will prevent dust from sifting through, and so constructed as to keep cobwebs from collecting. There should be windows in at least three sides, providing not less than three square feet of unobstructed window glass to each animal.

Never allow animals of other species to be kept in the same room with milch cows.

At least once every two months, scrub your mangers with water and soap, lye or washing powder.

Leave the gutters behind the cows open, and with enough incline to provide good drainage.

Give cows frequent change of food. This increases the appetite and the more food a cow consumes the more milk she will give. A cow possesses no creative power; she only changes and transforms the food into a different form.

Don't Market Soiled Eggs.

A soiled egg, says Farm, Stock and Home, is an abomination, and two or three of them in a shipment cuts down the price of the whole lot. But cold storage and other preserving plants have found washed eggs do not keep as well. The rubbing, etc., takes off a natural mucilaginous coating. Eggs are bound to be soiled sometimes. When the dirt spot is small and soft, wipe off with a soft cloth as soon as gathered. Otherwise keep soiled eggs for home use, thereby avoiding the rock of a cut in price or a complaint of non-keep-

THE TARIFF INIQUITY.

Republicans Now Have a Chance to Fulfill Their Promise to Put Down the Trusts.

The republicans having won control of congress for the next two years, or until after the national election of 1904, it is incumbent on them to carry out the pledges made by the administration to legislate against the bad trusts.

Everyone but the coal barons admits that the coal trust is a bad trust. Therefore the duty must come off coal—hard coal and soft coal. There should be no quibbling about that.

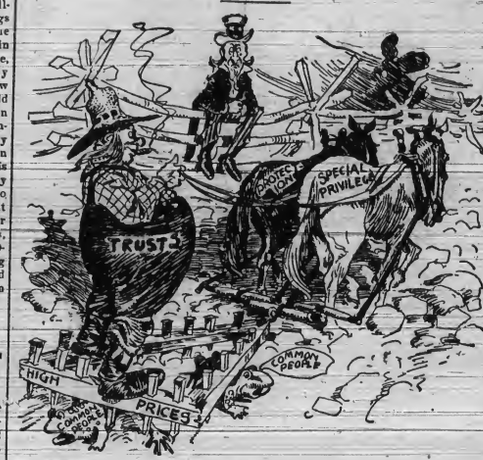
The administration has set its ban upon the meat trust by beginning legal proceedings against it. This may have been done for political effect, the dilatory way in which the suit against the beef merger has been prosecuted would warrant that conclusion. But the fact remains that the meat trust was denounced by the administration, before election, as a bad trust. This will compel congress to remove the duty on cattle and dressed meat. The steel trust was denounced by Mr. Babcock, chairman of the republican campaign committee, two years ago, and a bill was introduced by him to revise the tariff on steel and other products of the trust, so it is conceded by at least one faction of the republican party that the steel trust is a bad one. If all republicans cannot be brought to think the steel trust is a bad trust, a small minority that do so believe will find the democrats quite willing to vote with them to abolish or reduce the steel and iron schedule.

The book trust has been proved by indisputable evidence to be one of the most rapacious frusts, charging three times as much for its products here as abroad. This should entitle it to be classed amongst the bad trusts and the tariff law amended accordingly.

The list of bad trusts might be extended into hundreds, and a number cited who are selling cheaper abroad than here, but the few above described should at once receive the attention of congress and their protection be removed.

The republicans have been declaring from every stump that they will reform the tariff, so that the trusts shall not continue to rob the people by charging them excessive prices for trust productions. They also said that the tariff must be reformed by its friends, so that business interests may not suffer, and it is incumbent on them to carry out the promises made by their speakers and organs. This applies to the dominant or Roosevelt faction, and not to Senator Hanna and the old guard, who refused to pledge themselves and believe the present trust tariff should not be disturbed. In the meanwhile the proposed tariff commission can be inaugurated and investigate the whole tariff and report for later action by congress.

PRESS COMMENTS.



——Secretary Shaw declares that the Iowa republican platform has received altogether too much attention—and it does look that way from a republican standpoint. — Chicago Chronicle.

——Secretary Shaw continues to insist that the tariff is only a fourth cousin to the trusts at best, and that the two families have had nothing to do with each other in years.—Detroit Free Press.

——The Dingley tariff is the mother of nearly all the monopolies, and it fosters and coddles the few that it did not actually create. It is the parent of the famine prices that make all bragging about prosperity a bitter mockery to the great body of the people. It must be revised and reduced to release them from the intolerable tyranny of the trusts.—Baltimore Sun.

——The Danish congress has voted against the sale of the West Indies islands to Uncle Sam. This is a godsend to the people of the United States, as the price was high and the islands would be a constant expense. Even our bargain-counter purchase of the Philippines has turned out a poor investment, having so far cost nearly $100,000,000 a year, which even if all we sell to them was profit would not pay interest on the investment.

THE TRUST HARROW.

WHERE THE PEOPLE ARE.

PROSPERITY OF THE TRUSTS.

A Specimen Case of Reckless Extravagance Made Possible by Monopoly Profits.

It is rather disheartening to the honest, law abiding citizen to hear about the antics of some of the trust magnates and their contempt for the common people. The sayings and doings of coal trust magnate Baer are still in the minds of all, and now comes Schwab, the president of the steel trust, making an unedifying spectacle of himself in foreign parts. This is his second offense of that kind. About a year ago he startled the gamblers at Monte Carlo by his monstrous gambling at that resort. His latest efforts for notoriety are thus described by the Chicago News:

"He has thrown away his money recklessly, ostentatiously, and senselessly. One report says that he is building a house to cost two and a half million dollars. Another credits him with purchasing an entire summer resort. He has given a church to a town which his father honored by living in it. He has bought yachts, and automobiles and made silly displays of regal bounty to servants, beggars and freaks."

All this money that he is squandering in Europe was wrung from the toil of the laborers who work at the furnaces of the steel trust and through the extraordinary profits allowed that corporation by the Dingley tariff law. The people pay the piper while

ROOSEVELT'S OPPORTUNITY.

The President Can Now Set to Work to Remove the Shelter of the Trusts.

If President Roosevelt is really in favor of tariff reform, and of removing the shelter that the trusts enjoy, he can easily accomplish it. If he does not call congress together, the tariff fight will be postponed until the regular session, and as the organization of congress will probably not be completed until after the holidays, no bill can be reported until 1904. That being the year of the national election, partisan politics will be more likely to be considered than the general welfare, and no legislation on the tariff might result. The whole tariff and trust fight would thus be made the paramount issue in the national election. The people would be robbed by the trusts for two more years and the foreigners would have the benefit.

Can the republican party and President Roosevelt afford to face such a condition in the national election?

As a political condition it would be welcomed by the democrats, their opponent would be on the defensive from the start, and the full enormity of the protection tariff would be brought plainly to the view of the voters. But from the highter motives of the general welfare the democrats will welcome a special session of congress in the hope of accomplishing a reform of the tariff as far as a republican senate will allow.

——Senator Cullom, of Illinois, has also found the way the tariff wind is blowing and has veered around with it within 48 hours. He is now against tariff revision, but in favor of a commission. What he will be for before this reaches the eyes of the reader is mere guess work. It is getting to be difficult to locate a republican leader these days. The only one there seems to be no quibble about is Henderson. He is absolutely opposed to changing the tariff.

A nervous, irritable mother, often on the verge of hysterics, is unfit to care for children; it ruins a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother has some female weakness, and she is entirely unfit to bear the strain upon her nerves that governing a child involves; it is impossible for her to do anything calmly. She cannot help it, as her condition is due to suffering and shattered nerves caused by some derangement of the uterine system with backache, headache, and all kinds of pain, and she is on the verge of nervous prostration.

When a mother finds that she cannot be calm and quiet with her children, she may be sure that her condition needs attention, and she cannot do better than to take **Lydia E. Pinkham's Vegetable Compound.** This medicine will build up her system, strengthen her nerves, and enable her to calmly handle a disobedient child without a scene. The children will soon realize the difference, and seeing their mother quiet, will themselves become quiet.

Mrs. May Brown, of Chicago, Ill., says:

"DEAR MRS. PINKHAM:—'Honor to whom honor is due,' and you deserve both the thanks and honor of the mothers of America whom you have so blessedly helped and benefited. I have used **Lydia E. Pinkham's Vegetable Compound** when I would feel run-down, nervous and irritable, or have any of the aches and pains which but few women escape, and I have found that it relieved me at once and gave me new strength. Several ladies, members of our Literary Union, speak in the highest praise of your Vegetable Compound, as they have been cured from serious female troubles. One lady, who thought she must submit to an operation, was cured without using anything in the world but **Lydia E. Pinkham's Vegetable Compound and Sanative Wash.** You have hosts of friends in Chicago, and if you came to visit our city we would delight to do you honor. Gratefully yours,—MRS. MAY BROWN, 57 Grant Place, Chicago, Ill.

How Mrs. Pinkham Helped Mrs. McKinny.

"DEAR MRS. PINKHAM:—I feel it my duty to write and let you know the good you and your Vegetable Compound are doing. I had been sick ever since my first baby was born, and at the birth of my second, my doctor, as well as myself thought I should never live through it. After that menstruation never came regular, and when it came I suffered terribly. I also had womb and ovarian trouble. A friend of my husband's advised him to get **Lydia E. Pinkham's Vegetable Compound** for me. At first I had no faith in it, but now nothing could induce me to be without it. Menstruation has become regular, and I feel like a new woman. Your medicine is a God-send to suffering women. I hope this letter will lead others to try **Lydia E. Pinkham's Vegetable Compound.** Yours truly, MRS. MILDRED MCKINNY, 28 Pearl St., San Francisco, Cal." (March 16, 1901).

THE GOOD SHEPHERD

Beautiful Relationship Which Christ Sustains to His Followers.

Sermon by the "Highway and Byway" Preacher on One of the Six Striking Declarations of Christ.

[Copyright, 1902, by A. N. Kellogg Newspaper Co.]

Chicago, Nov. 16, 1902.

Text:—"I am the Good Shepherd: the Good Shepherd giveth His life for the sheep."—John 10:11.

Like the mother's lullaby to the ear of the little tired child as it rests its weary head on her bosom and finds rest, and comfort, and safety; like the soft clear note of the nightingale cleaving the darkness of the midnight air and reassuring the affrighted soul; like the burst of melody floating out over the noise of the tumultuous crowd stilling it to enrapt silence; like the glad songs of the birds and rippling laughter of the children above the roar of the mighty rushing Niagara—like the quiet lull and the glorious burst of sunshine after the blackness of the whirling cloud and the rush of the tempest, so are the words of our text to the weary, sinsick, troubled soul.

"I am the Good Shepherd." The words, like the "Peace, be still," spoken over the troubled dashing waters of Galilee, soothing them to placid quietness, fall on the ears of the wandering sheep of the world and draw many of them from the byways of death to the green pasture land of God's love, and the pathway that leads to Life Eternal. The kiss of the prince of the fairy tale was potent to wake the sleeping princess and deliver her from the spell which bound her. The gentle, sweet words, "I am the Good Shepherd," wafted on the soft breezes of God's love around the globe, are able to kindle new life and hope in the fallen sheep, and as the pleading look of helplessness is lifted to the face of the Good Shepherd as He passes by His loving arms are outstretched and the sinsick, dying soul is clasped to His bosom.

David, the simple shepherd lad, whose quick ear had caught the music of the gurgling, splashing mountain streams, and the glad song of the birds, and whose deft fingers had learned to pick out the notes upon his willing, responsive harp, played before Israel's King Saul when the evil spirit of a rebellious heart possessed him, and soothed that turbid soul to quietness, and Jesus, with the music of His love learned in Heaven, comes to the world with His message: "I am the Good Shepherd," and longs to win the wandering world back to God. David, as he tended his sheep, sang: "The Lord is my Shepherd," and the bright star of his hope rose in the fullness of time over Bethlehem, and Jesus came, declaring: "I am the Good Shepherd." As David gently led his flocks into the green pastures and beside the still waters which his quick, watchful eye so faithfully searched out, his heart sang in gratitude to God as he felt every desire of his soul gratified, and he knew that the Lord was leading him beside the still waters and making him to lie down in green pastures. And Jesus, the Good Shepherd, came with the living water, saying: "Whosoever drinketh of the water that I shall give him shall never thirst; but the water that I shall give him shall be in him a well of water springing up into Everlasting Life." And He led the way into the green pastures of inexhaustible supply as He said: "I am the Living Bread; he that cometh to Me shall never hunger." They say a hungry sheep will never lie down to rest, and David knew his sheep were satisfied as he saw them resting in quiet contentment on the green, sloping hillsides of Judea. Jesus, the Good Shepherd, calls to the wandering sheep of the world: "Come unto Me, all ye that labor and are heavy laden, and I will give you rest." He alone can give rest unto the soul, because He alone can feed it and quench its thirst. David heard the roar of the wild beasts as it echoed among the rocks and in the thick underbrush which skirted the green pasture where his flock was feeding; he saw the lion and the bear, which had crept up unawares, make off with the little lambs innocently gamboling on the outer edges of the flock, and had swiftly given pursuit. He delivered the lambs out of their dreadful peril and when the lion and the bear turned upon him to rend him he smote them and slew "both the lion and the bear." Jesus, the Good Shepherd, hears the roar of the devil as he goes about through the earth, "seeking whom he may devour," but "He is able to save unto the uttermost," and when His sheep let Him fight for them the devil is driven away every time and the Good Shepherd turns to His Father in Heaven and says: "Those that Thou gavest Me I have kept, and none of them is lost." Oh, what a wonderful declaration it is to hear Jesus say: "I am the Good Shepherd; the Good Shepherd giveth His life for the sheep!"

Wandering Sheep.—God gave to Isaiah a true glimpse of the condition of the world, and the faithful prophet cries out: "All we like sheep have gone astray, we have turned every one to his own way," and because this is true, the penalty of death rests upon us. But blessed be the name of the Lord, Jesus offered Himself to God His Father, as our substitute for sin, and "the Lord hath laid on Him the iniquity of us all." He became the Good Shepherd, giving His life for the sheep. Oh, glorious triumph! Oh, supreme victory of the ages! The bright star of hope which God hung in the Garden of Eden when He promised that the seed of the woman should bruise the serpent's head grew brighter and clearer through the centuries until it burst in its full orbed beauty over the manger at Bethlehem. The wild beasts of human passion and desire; wandering sheep falling over the precipice into the blackness and death of the bottomless pit.

A wandering sheep is a lost sheep. What though the sun does shine, and the way seems easy and fringed with the succulent blades of tender grass? What though the sheep seems for a time to thrive and prosper as well away from the shepherd and flock as with them? It is a lost sheep, just the same, and cannot find its way back alone. This is one of the peculiarities of sheep. A wandering sheep is always a lost sheep. The thicket is just ahead, the thorny path, the desert waste, the rocky steeps and the chill mountain air. The wandering sheep sooner or later falls into these perils, and soon perishes if the faithful shepherd does not go out after the lost and bring it back to the shelter of the fold. The world is like unto a wandering sheep. It is lost. It cannot find its own way back to the fold and safety, but the Good Shepherd has gone out into all the world seeking that which was lost. If the sheep will but hear His voice He will lead back to the green pastures and the still waters of Eternal Life.

The wandering sheep is a helpless sheep. What is more helpless than a sheep at all times? It is absolutely dependent upon the shepherd for leading, for protection, for its food and its drink. But a wandering sheep! It plunges blindly into the briars and thistles, it stumbles and falls over the rocky ground, it heedlessly rushes over the precipice into the chasm below, or out into the barren wastes away from pasture lands and the flowing streams. And the world, like a wandering sheep, is helpless. It rushes blindly hither and thither, knowing not whither it is tending; it seeks the broad way of its own desires and recklessly draws nearer and nearer to the abyss of its own destruction. It is utterly helpless, but Jesus, the Good Shepherd, is always within reach and quickly hears the cry for help. But if no cry of helpless need is raised, the Good Shepherd cannot find and save the wandering sheep. It is related of an oriental shepherd who searched day after day for his lost sheep that at last he found it cold and stiff and dead, hidden in the thicket close to the pathway over which he had passed and repassed in his search. One faint bleat from the helpless sheep would have brought the sorrow-stricken shepherd to its side, and it would not have perished, but would have been tenderly lifted to the strong, willing shoulders of the shepherd and carried back to the fold and safety. And oh! if the lost sheep of the world would only raise one faint cry for help and salvation as Jesus, the Good Shepherd, passes to and fro seeking for the lost sheep, how quickly it would reach His ear, and His nail-pierced feet would speed to the side of the helpless and dying one, and the nail-pierced hands would reach out and with infinite love and tenderness release the fettered soul from the cruel thorns and the tangled briars. Helpless, dying sheep of the world, send out your cry to the Good Shepherd before it is too late and you are left cold and lifeless on the mountain side of sin!

The wandering sheep is a sure and easy prey of the wild beasts which lurk in the thicket and among the rocks. Utterly powerless to resist attack, its life is speedily crushed out and its life's blood sucked up by the bloodthirsty beast. The world as a wandering sheep is utterly powerless to resist the attack of its adversary, the devil. Unlike real sheep, it is true that it does resist and fight against the devil, but he is just as certain of his final victory over that soul as is the great lion that is crunching the bones of the helpless, dying lamb. Just as certain!—unless a faint cry for help goes out to the Good Shepherd, when, like the contemptible coward that he is, the devil slinks off in ignominious defeat. The world thinks it gives the devil some pretty hard raps, sometimes, but the hardest rap the world ever gave him was like the tickling stroke of a feather, and it set him and all his legions of black devils to shouting with glee. The devil plays his victim like a cat plays with the mouse. They are perfectly helpless within his grasp, unless the cry of faith to the Good Shepherd brings Him to their side, for He alone can set them free from the wiles and power of the devil.

The Supreme Victory.—"The Good Shepherd giveth His life for the sheep." "Greater love hath no man than this, that a man lay down his life for his friends." In the Father's House the only begotten Son of God beheld sinful and perishing man as scattered and wandering sheep plunging helplessly to destruction. He laid aside His crown, His scepter and His kingly robe and came all the way from Heaven to earth to become the Good Shepherd which giveth His life for His sheep. The hireling fleeth, leaving the helpless sheep to the merciless attack of the wolf, but the Good Shepherd, seeing the danger, and knowing that the life of the sheep was at stake, stood in the breach and willingly died that He might give life to the sheep. "All we like sheep have gone astray, we have turned every one to his own way," and because this is true, the penalty of death rests upon us. But blessed be the name of the Lord, Jesus offered Himself to God His Father, as our substitute for sin, and "the Lord hath laid on Him the iniquity of us all." He became the Good Shepherd, giving His life for the sheep. Oh, glorious triumph! Oh, supreme victory of the ages! The bright star of hope which God hung in the Garden of Eden when He promised that the seed of the woman should bruise the serpent's head grew brighter and clearer through the centuries until it burst in its full orbed beauty over the manger at Bethlehem. The patriarchs and the prophets watched for the coming of the Deliverer. We rejoice in the fact that the Deliverer has come. The hope of the world from Adam until now centers around the cross. The efficacy of that cross reaches back to Abel whose faith enabled him to offer a sacrifice which typified the Christ and was acceptable with God, and it streams forward in blessed, life-giving power until now.

David, the shepherd lad, in the simple garb of the field where he tended his sheep, went out and met the mighty Goliath. What a magnificent sight that was! The two armies drawn up in battle array. The army of God's people holding together and yet stricken to the heart with terror at the sight of the innumerable hosts of the Philistines and the great, overtowering giant whose tread shook the earth and who defied the army of the living God. The fair-faced youth, with clear eye and steady hand in which he held the faithful sling, went forth across the valley from the army of Israel to meet the advancing giant. Faith in God nerved him to certain victory. The climax drew on apace. Each stride of the giant and each spring of the lithe youth brought the conflict nearer. The stone is placed, the swish of the sling breaks the intense silence which follows the speeches of the two combatants, and then at the feet of David is stretched in helpless, ignominious defeat the great quivering frame of the mighty Goliath. Then the shout of victory from the army of Israel, then the panic-stricken flight of the Philistines, then the deliverance for the nation of Israel. Oh, that was a wonderful battle! Oh, that was an inspiring scene!

But oh, wonderful battle of the ages! Oh, inspiring scene for time and eternity! Jesus, the Good Shepherd, battling for the life of His sheep, giving His life for the sheep, triumphing over Satan and death and giving life to His sheep! How wonderful! Is it any wonder that the story never grows old in Heaven or in earth? The angels beheld the conflict with bated breath and marveled at God's wonderful way of salvation; the redeemed in Heaven and earth rejoice in the deliverance wrought and never tire of telling the story of the lost sheep and the Good Shepherd who gave His life to save them. Yes, they can tell it over and over again, "But none of the ransomed can ever know
How deep were the waters crossed;
Nor how dark was the night that the Lord passed through
Ere He found His sheep that was lost.
Out in the desert He heard its cry—
Sick and helpless, and ready to die.

"'Lord, whence are those blood-drops all the way
That mark out the mountain's track?'
'They were shed for one who had gone astray
Ere the Shepherd could bring him back.'
'Lord, whence are Thy hands so rent and torn?'
'They are pierced to-night by many a thorn.'

"But all thro' the mountains, thunder-riven,
And up from the rocky steep,
There rose a glad cry to the gate of Heaven,
'Rejoice! I have found My sheep!'
And the angels echoed around the throne,
'Rejoice, for the Lord brings back His own!'"

And Jesus as the Good Shepherd knows His sheep and His sheep know Him. It is said that Napoleon knew the name of every man in his army, a wonderful achievement and indicating a close association of the general with his army, but Jesus not only knows the names of all His sheep, but He knows them each and all through and through. And on the other hand the sheep know the Shepherd, and as they know Him they grow into His likeness. Such a beautifully intimate relationship that the one understands the every need of the other, and the sheep respond to the gentle leading and loving care of the Shepherd. The oriental shepherd knows his flock by name and they follow as he calls them; he leads them in and out and they find pasture. Jesus says: "My sheep hear My voice, and they follow Me." His sheep have two characteristics which stamp them as His: In their ears, "They hear My voice," and in their feet, "They follow me." It is said that sheep having once learned the voice of the shepherd never forget it. And in this country where the shepherd is not known as he is in the oriental countries, and where the leader of the flock is marked by the bell which tinkles as he feeds and draws the rest of the flock after him, the sheep learn the sound of the bell and do not forget it.

And Jesus as the Good Shepherd gives His sheep Eternal Life, and no man can pluck them out of His hand. Perpetuity and absolute security are characteristics which mark the flock of the Good Shepherd. The pasture of time adjoins the pasture of eternity and the sheep of His pasture here pass over the line into the green fields of the Celestial Kingdom. And the safety of the flock is absolutely certain. Oh, what comfort there ought to be in this declaration of Christ, that no man is able to pluck them out of His hand! With such assurance as that in the heart one can bid defiance to the devil. The sheep may be buffeted and sorely tried, but it will only cause it to draw more closely to the Good Shepherd's side. The devil may sift as wheat, but he cannot drag one of the true flock to perdition. He may lure into the byways of sinful indulgence, but he cannot prevent the Good Shepherd from going out and bringing back His sheep. The Good Shepherd's patience, His watchfulness, His tender care, His loving shelter are as unfathomable as eternity and inexhaustible as the untold riches of the city not made with hands, eternal in the Heavens. I am glad the Lord is my Shepherd! Will you not accept Him as your Good Shepherd, too?

There was a rush in New York to pay city taxes on the first day of collection which broke the record in the amount of money paid and in the number of persons in line. Estimated total receipts for the day reached $9,700,000. When the windows were opened more than 2,000 property owners were in line. The largest single payment recorded was from the Vanderbilts and the New York Central. This came in the form of one check for $800,000. The Astor estate paid $350,000.

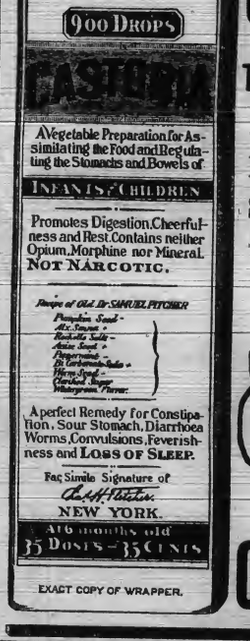
THE TEST OF TIME.



Mrs. Clara J. Sherbourne, Professional Nurse of 257 Cumberland St., Portland, Maine, says:—

"I heartily wish those who suffer from some disturbed action of the kidneys would try Doan's Kidney Pills. They would, like me, be more than surprised. My back annoyed me for years. Physicians who diagnosed my case said it arose from my kidneys. When the grip was epidemic, I was worn out with constant nursing, and when I contracted it myself it left me in a very serious condition. I could not straighten nor do the most trivial act without being in torture. The kidneys were too active or the secretions were too copious, and I knew what was wrong, but how to right it was a mystery. It seems odd for a professional nurse, who has had a great deal of experience with medicines, to read advertisements about Doan's Kidney Pills in the newspapers, and it may appear more singular for me to go to H. H. Hay & Son's drug store for a box. But I did, however; and had anybody told me before that it was possible to get relief as quickly as I did I would have been loth to believe it. You can send anyone who wishes more minute particulars about my case to me, and I will be only too glad to tell them personally. As long as I live I will be a firm advocate of Doan's Kidney Pills."

Cure Confirmed 5 Years Later.

"Lapse of time has strengthened my good opinion of Doan's Kidney Pills, first expressed in the spring of 1896. I said then that had anybody told me that it was possible to get relief as quickly as I did I would have been loth to believe it. Years have passed and my continued freedom from kidney complaint has strengthened my opinion of Doan's Kidney Pills and given me a much higher appreciation of their merits."

A FREE TRIAL of this great kidney medicine which cured Mrs. Sherbourne will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

VOL. XXVIII. BURLINGTON, KENTUCKY, WEDNESDAY, NOVEMBER 26, 1902. NO. 6.

County Correspondence.

COMMISSARY CULLINGS.

Nov. 22.—The sick in this neighborhood are all on foot again.

H. P. Parson's new barn will be completed in a few days.

T. J. Walton's house is completed except putting carpet down.

W. L. Rouse and sons shipped six teen nice porkers to Cincinnati, last Thursday night.

Misses Lon, Gracie, Nannie and Julia Louden were guests of their brother, Jesse Louden, last Sunday.

James Smith and wife, of Bellevue, were guests of Ransom Ryle and wife, Saturday night and Sunday.

Henry Rains was a guest of Leona Louden, last Sunday, and in the evening they called on their best girls.

Misses Grace Slayback and Sallie Garland, of Erlanger, came down Thursday to visit Wm. Slayback and mother.

Mrs. R. M. Parsons, the Middle creek merchant, is headquarters for loaded shells—shells reloaded on short notice.

The young people of this neighborhood were entertained last Wednesday evening, by Miss Evelyn Botts, of Bellevue.

Mrs. Duncan and son, of Gallatin county, were visiting her sister, Mrs. Joe West, near Bellevue, the latter part of last and the first of this week.

Baby Hugh Rogers, in company with his papa and mama, visited his grandpa and grandma, W. T. Ryle and wife, last Saturday night and Sunday.

Bro. Smith, thanks for coming to my assistance in urging the people to report items to their neighborhood correspondents. What you said was to the point.

Misses Artie and Stella Ryle entertained, last Wednesday, in honor of their cousin, Misses Mayme Conley and Bessie McNeely, two interesting young ladies from Gallatin county. Those present were Misses Mary Huey, Minnie Clore, Evelyn Botts, Emma Moody, Amy Smith, Maud Scott, Mrs. O. N. Grant, Mrs. Bernard and Mrs. Will Rogers.

It has been said that "Commissary writes up none but poor people." This is an unjust charge, and those making it ought to be ashamed. I treat all alike. If I write up one more than another its because I have occasion to, and if I praise one above another its because one is more deserving. I know that if I tell the truth about the poor, the poor will applaud me, and if I tell the whole truth about the rich, the whole neighborhood will frown upon me and call me an agitator and insulter.

IDLEWILD ITEMS.

Nov. 23.—Mrs. C. A. Gaines entertained quite a number of her neighbors, Friday.

Richard Acra's youngest child got its arm broken a few days since.

Miss Pauline Winston is visiting her sister, Mrs. Stephens, at Hebron.

James Rogers and wife, of Bellevue, visited Mrs. Legrand Gaines, a few days since.

Mr. and Mrs. J. A. Gaines were calling on R. Y Randall, of Petersburg, a few days since.

Last Saturday C. A. Gaines received from a Walnut Hills party an order for 20 fine turkeys.

Miss Grace Davis, of Cincinnati, was the guest of Mrs. Chester Davis, at Hebron, Sunday.

A. E. Chambers has been sent to Peoria, Ill., and his son, Malchus, has returned to Arizona.

Elmo Gaines sold his fine dog, the other day, for $50. A Dayton, O., man was the purchaser.

The splendid rain which supplied the demand for water, improved the fall pastures very much.

Miss Carroll White, of Pt. Pleasant, is again visiting her niece, and sister, Mrs. Wm. Stephens.

Milton Souther, of Pt. Pleasant, was here, Friday, hunting some of his cattle that had gone estray.

The many friends of Mrs. Sophia Terrill are glad to hear of her good luck in the Enquirer's guessing contest.

The friends of Rev. Edgar D. Jones and wife, of Erlanger, congratulate them upon the arrival of a son.

Miss Sadie Kirtley was a welcome visitor to our Sunday School, last Sunday. She looked much better than her friends expected to see her.

All the travelers who pass here from Michigan and Indiana are enroute to Lexington or Richmond, this State. These two cities appear to be a mecca for the poor.

Kentucky, I trust, will be the banner State in the observance of Thanksgiving day, "showing that the gratitude of her Pilgrim Fathers is the unanimous act of her people."

Rev. Sproles preached at Petersburg, Sunday night. On Monday he visited Mrs. Baisly, of North Bend, who is very ill. He also attended the protracted meeting at Sand Run, and visited Dr. Walton, at Home City.

Idlewild, like Beaver, claims to be second to no village in old Boone. With her pikes, telephone, daily mail, churches, her beautiful hills and romantic scenery, intelligent citizens and a popular and enterprising merchant, what more could she ask—not even free mail delivery.

LIMABURG LINEUPS.

Nov. 24.—Limaburg is on a land trade boom.

Jerry Quigley slaughtered 123 turkeys for Thanksgiving.

It looks like some of the boys will get some of the Enquirer money.

Mrs. Bluford Adams was the guest of Mrs. Jerry Beemon, Monday.

W. C. C. Rouse picked new strawberries out of his patch, last week.

Mrs. Henry Clore gathered a mess of green beans out of her garden on the 10th inst.

Robt. W. Rouse raised a turnip that measured 25 inches in circumference and weighed 6 pounds.

BUFFALO BITS.

Nov. 22.—We had several good rains last week.

Wood Stephens raised a beet that weighed 7 pounds.

Mrs. Lizzie Neal returned home after a week's visit with friends and relatives here.

Whooping cough is getting to be quite thick around here. Several cases right near.

Davis Marshall and Jimmie Huey are the champion rabbit hunters in this part of the county.

T. J. Stephens and wife were visiting their son W. L. Stephens, of Waterloo, last Monday week.

Mrs. Emma Presser and Mrs. Daisy Presser spent last Wednesday with T. J. Stephens and family.

The farmers are all wishing for cold weather so they can kill hogs, but it seems we are going to have summer all winter.

Claud Ryle and Rob Woods finished stripping their crops of tobacco, last Saturday and are ready to sell to the firs buyer that comes along.

Clifford Nadaud passed through here last Tuesday evening inquiring for the half way place, and wanted to know where the dirt roads were, as he had found nothing but mud roads for his bicycle.

PETERSBURG PICKINGS.

Nov. 24.—Plenty of rain now.

The High T's will give a ball at Gordon's Hall, Wednesday night.

A Mr. Hathaway, a Brookville, Ind., cigar drummer, is in town, today.

Miss Corda Ryle, of Florence, is the guest of her sister, Mrs. J. B. Berkshire, of this place.

Mrs. E. L. Helms, son and mother are at home after a very pleasant visit with relatives and friends at Ethridge.

John Roeder, who use to run an Aurora bread wagon on this side of the river, dropped dead on the streets of that city a few days since.

Burthel Pease and Miss Blanche, daughter of James Green, will observe Thanksgiving day (Thursday) by being united in the holy bonds of matrimony.

James Tolin is out at Price Gibbs' assisting Price save a fine crop of tobacco and corn. They do say Jim is doing a little courting in the same neighborhood, as a side line.

One of our citizens took a clean shave, a few days since, and was very much changed in disposition as well as appearance. He concluded he was a bad man from bitter creek, and had to be disciplined before he was able to recognize himself again.

Owing to a very severe chill Rev. Edgar Jones was not able to stand in the pulpit, at the Christian church here, Sunday morning, and he occupied a chair while delivering his sermon. Rev. Leslie Earley occupied the pulpit for him Sunday night. Rev. Jones was able to return to his home at Erlanger, this morning.

Abiel Dean, in his 86th year, died of dropsy at his home here a few days since. He predicted his death several weeks ago, to the day. One night he awoke, and he said something told him to watch the lamp, which he did, and the blaze ran up very high and then it would almost go out. This it did 40 times, which he interpreted to mean that while 40 days from that time to live, and at the end of the 40 days he was dead. Some may regard this not true, but it is, and there are several reliable persons about town to whom he gave the correct date of his demise. Mr. Dean was born in Plymouth, Massachusetts, on October 12th, 1817. He came to Ohio county, Indiana, with his parents in 1819. He came to this neighborhood in 1827, and has lived here ever since. He was a soldier in both the Mexican and the civil wars. His wife who survives is 82 years old. The death occurred Sunday morning, and the funeral on Monday.

Miss Nettie Cave is visiting friends at Moore's Hill, Indiana.

W. A. Black is catching some nice bass and salmon in his nets.

Mr. and Mrs. Ben Belden were visiting at Markland, Indiana, last week.

S. P. Gibbs had a field of 16 acres of corn that made 70 bushels to the acre.

Peter Kefm has a stalk of cabbage on which are 25 well developed heads.

Geo. Bachelor and his bride were visiting Mrs. B.'s parents a few days ago.

Ben Cason, from the headwaters of Middle creek, was in town one day last week.

The pole cat crop is a big one, and the hides are selling higher this season than usual.

Perry Mahan is close to the exact vote of Ohio, and will get a piece of the Times-Star's money.

The children of the M. E. Church Sunday School will have an entertainment during the holidays.

Lloyd Norris, of Osgood, Indiana, is visiting his sister, Mrs. B. H. Berkshire, of this neighborhood.

Lloyd McGlasson, of Taylorsport, came down and went hunting with W. H. Crisler. They killed 50 rabbits.

Miss Jean Berkshire is spending a few months with her sister, Mrs. Dr. Rosenboom, at Chillicothe, Ohio.

Small crowd attended W. C. Hensley's sale, but bidding was spirited. Corn brought 40 cents a bushel in the crib.

Peach trees, apple trees, rose bushes and strawberry vines are in bloom, and the second crop of mustard greens is great.

The snag boat, Woodruff, removed several ugly looking obstructions from the channel of the river here, one day last week.

Parts of several giant skeletons were found here, a few days since, when workmen were excavating for a sewer near the postoffice.

Uncle Andy Helms has a Poland China hog that hog experts say will weigh 800 pounds. It is so fat it can not stand up to eat.

Wm. Alden, who was so badly hurt in a game of football at Aurora, several weeks ago, has recovered sufficiently to attend school again.

William Worford and Ethel Sebree, Irvin Rue and Edith Smith, and Burthel Pease and Blanche Green, will be married Wednesday.

There have been no sales of the new crop of tobacco in this vicinity. The crop is so much better than that of last year the growers expect better prices.

The High T ball, Thursday night, brought out the wealth, beauty and culture of Northern Kentucky. Schafer's band, of Covington, made the music.

If our friend, Col. David Beall, of Hebron, will read last week's Recorder again, he will see that that which he spoke to a friend about was not in my items.

Miss Pearl Crisler has returned from a very pleasant visit with friends at Taylorsport. While absent she was a guest at an opossum dinner, which she enjoyed very much.

Miss Cora Ryle, one of our towns prettiest young ladies, is visiting her sister, Mrs. Mamie Kloak, of Cincinnati. Mrs. Kloak's husband is one of the Queen City's best policemen.

A Bellevue man will shy his caster in the ring as a candidate for circuit court clerk. With four or five candidates from this end of the county, a south end candidate will have easy sailing.

The bottling department at the distillery is running on full time so as to fill all orders for the holiday trade. The greater part of the whisky made here goes south, a large quantity as far as the Philippine Islands.

Some of the readers say that I have gone back on Bryan and the Chicago platform, which is not true. No man is bigger than his party. When Bryan was nominated I supported him with the greatest of ease, but he has been tried and found wanting. Now, if the Democratic party sees proper to nominate John G. Carlisle, I can support him with as good grace as any man in the party. I am in favor of harmony with a big H. There is no glory in being defeated all the time.

The Widowers' Club had a called meeting, last Friday night, to adopt resolutions of regret on account of the prospect of losing, at an early date, one of its most valuable members, and vice president of the club, Mr. Robt. Blackburn, who will be married before the holidays. A committee composed of the following charter members was appointed to wait on Uncle Ed Gaines and inform him of Mr. Blackburn's intention to forsake the society known as the Gay Widower's Club, of which he is president: M. F. Wingate, John Geisler, George Hurd, M. V. Cave. It is not known, but it is believed that he will order the usual badge of mourning to be worn for 13 days.

HATHAWAY HITS.

Nov. 24.—Several in this vicinity are done gathering corn.

Mr. and Mrs. N. H. Clements were visiting in Bellevue Sunday.

Several in this neighborhood have stripped considerable tobacco.

Jno. C. White and wife made a business trip to Rising Sun, Thursday.

Jas. Huey was the guest of David Marshall a couple of days last week.

Marcus Ryle has completed his house which makes him quite a comfortable neat home.

R. Lee Huey will buy tobacco again this winter, and will receive at his barn near Big Bone church.

C. L. Smith and wife and Cynthia Mason and C. B. Mason and family broke bread with your writer Sunday.

Plummer Gully, of Waterloo, says that he can beat the International stock food's picture for hogs. He has a sow and 12 pigs as fine as their picture is and which only represents 11 pigs.

If this warm weather lasts until Christmas and everything grows like it has in the past, we will call this country a second Florida. There will be a second crop of most every thing. Below are a few things that we have seen and heard of. A second crop of oats that is headed out; tobacco succors about 5 feet tall and blooming; second crop of mustard; corn 6 inches high from last year's seed. F. J. Rue tells us that he gathered his first crop of bean seed and planted some of them, and about two weeks ago he ate green beans off of the vines; Napolean Bristow is eating second crop of radishes and lettuce. I could record many more such instances, truth fully.

VERONA VIEWS.

Nov. 24.—We are glad to see Elmer Showers out after several days of illness of malarial fever.

J. G. Kennedy had the misfortune to lose a good horse, one day last week.

Rev. Bedinger filled his appointment at the Methodist church, last Sunday.

Miss Lizzie Roberts, who has been quite ill for the past 3 weeks, is recovering slowly.

Rev. W. E. Morris will preach at the New Bethel church Thanksgiving morning and night.

Ex-Judge Roberts, of Burlington, and a Mr. Hill, were working this place for life insurance, last week.

Game at this place is very scarce, and hunters from the city have been very few on account of the new game law.

Mrs. Paddy Dempsey, who died in a Cincinnati hospital, was buried at the Catholic cemetery, 3 miles west of Verona, last Sunday.

Thos. Vest, our local log buyer, has just shipped several car loads of oak and walnut logs, for which he will realize a good price.

Those who hold guesses near the total vote for Secretary of State in Ohio, are Jas. Hudson, Dr. Jas. McCormack, A. C. Roberts, Joe Riggs. C. Riggs and Omer Whitson. Within 100 is the nearest to the total vote, held by Jas. Hudson.

GUNPOWDER GRIST.

Nov. 24.—Uncle Geo. Utz, who has been on she sick list for some time, is better.

Uncle Frank Smith spent Sunday with J. C. Hankins.

B. C. Surface has a contract for hauling gravel on the Union pike.

Ezra Rouse was over on our ridge last week, building wire fence on his farm.

Neighbors, hand us items of news for the Recorder and oblige your humble scribe.

The beautiful weather of last week gave the farmers a chance to handle considerable shock corn.

Rev. T. L. Utz has sold his farm in this neighborhood to Elbert Senior, of Rising Sun, Price, private.

George Rice has rented Uncle Geo. Utz's farm, and will move to it as soon as it is vacated by J. C. Hankins.

Rouse Bros. have a new saw for their mill. They are prepared to saw logs as large as they grow in this neck o' woods.

Peaceful Sunday school has arranged to have a Christmas tree, and a very beautiful cantata will be rendered by the school, Friday Dec. 26, at 1 o'clock p. m.

On account of the high price of coal there is very little used in this neighborhood, and if the price stays up wood will be used by the most of us this winter for fuel.

Elbert and Frank Ronse passed through our burg last Saturday, driving some fine, young cattle which they purchased at the Union Stock Yards, Cincinnati. Price, 4¼ and 5 cents per pound.

The ladies of Ebenezer church are putting forth a great effort to make their supper at Florence, Thanksgiving afternoon a perfect success. Every body is invited to attend and enjoy a pleasant time, and a good supper. Doors open at 3 o'clock, p. m.

Quite a number of Hopeful church members met at the parsonage, on Wednesday of last week, and spent the day socially with their pastor, Rev. Slater, and as an appreciation of his labors, they left with him many needful articles, which were very much appreciated, and thankfully received by him and his estimable wife.

CRESCENT CRUMBS.

Nov. 21.—Miss Mabel Huron, who has been quite sick, is improving.

The Carey Brothers have rented the G. W. Burlington farm.

Several of our young people attended the show at Florence, Saturday night.

Dove Carpenter has bought the T. A. Huey farm near here. Consideration unknown.

Jno. Flannigan and wife, of Newport were guests of Mr. and Mrs. Henry Groger, Sunday.

Rev. Adams filled his regular appointment at Banklick Baptist church, Friday evening.

Elbert Brown and family, of Cincinnati, spent Saturday and Sunday with relatives at this place.

Miss Blanche Hogan, who has been spending several days with relatives at this place, has returned to her home at Wood Lawn, Ohio.

Thos. Northcutt, formerly employed on the Q. and C. railway, has secured a position on the Pennsylvania Lines, between Cincinnati and Columbus.

We indorse the position taken by T. J. McNeal in regard to the improvement of the public schools. If we want good teachers, we must pay good salaries, and under the present system the teacher's salary is not sufficient to justify the best talent to remain in the profession. We would like to hear from Mr. Neal again on this subject.

WALTON WAIFS.

Nov. 23.—The friends of Wm. Tilman will be glad to know that he has entirely recovered his health at New Castle, Ind. His weight has jumped up to 173 lbs. and he has not lost any days work for some time.

Rowland M. Johnson, of the United States Vessel, Monongahela, left here on Friday after a pleasant furlough among his relatives. He will join his ship at Newport, R. I.

Mrs. Sarah E. Holder has rented her farm on the Lexington pike to George Powers, who has engaged a Mr. Brown from near Old Salem church, who will live in the house and have charge of the farm.

John R. Craven is putting down an extra job of concrete sidewalk pavement in front of the residence of W. H. Metcalfe, and also in front of the hard ware store. He will also, this week, put down one for Joseph Glenn, who is ready for the concrete, himself and son having excavated and laid the foundation for a most durable and handsome finish.

John Fink, not content with the work he gets in his home place, has invaded new territory and has gone to Owenton to paint the handsome Graded School house at that place. It is said that the work he did here on the King House attracted the attention of the visitors from the state of Owen and when his work on our school building was shown, they gave him the contract without much parley.

Just now there is a minature coal famine in this place and great complaints are made about the quality of the coal the dealers are selling. The trouble is the people do not know how to use the coal, which is a Kentucky product and will give more heat than any coal that has been in this market for years. It has more oil, and used judiciously, will give more satisfaction than Campbell's creek or any of its kind. It don't blaze up, it is true, and burn right out like the coal mentioned, but after it is started use about half or two-thirds of the amount that is used of Campbell's creek, and you will have a hotter fire than the other and it will last nearly twice as long, and a stove wont be burnt out or warped so as to make it a cause of endless torment, not only to the housekeeper, but to every one about her. Time was when the Youghiogheny coal was the great desideratum for heating and fuel purposes and then every three or four years a new coal stove had to be bought. The old cast iron cannon and the Franklin stove with its open grate were the only heaters in vogue and they required almost as great a draught as the anthracite. If the coal was packed into cooking stoves and ranges up to the lids, it would soon choke up and the cooks would be loud in their complaints of the stove not drawing. The trouble was the cooking apparatus had twice the fuel crammed into it that the stove and flues had the capacity of burning. And it might as well be understood that with our modern light plated cooking stoves this Kentucky coal given a good strong draught will surely burn the stove into uselessness in as short a time as black locust wood would burn up our old fashioned wood cookers. I am here reminded to narrate a couple of incidents that came under my personal observation: A most estimable lady had some of the Kentucky coal and had also gotten all the ashes and cinders out of it, and had endeavored to make a fire a half dozen times in the forenoon. Finally she had the pipe taken down and had a panful of ashes and soot withdrawn from the place where the pipe is attached to the stove. Then she laid and lighted the fire again, and in less time than it has taken to tell it, the heat filled the room and she had the doors of her room open. This Kentucky coal is good if it has good treatment. It will then show itself as an economical and reliable dispenser of heat. Not one person in ten ever used the lighter coals but threw away half burned coal enough from the ash pans to materially reduce their coal bills. No more coal should be used in a cookstove than to be filled even with not above the oven, and it is scarcely ever necessary to put on coal an inch above the top bar of the grate. Hoping these hints may give some relief in the stringency of the coal market, I remain yours, G. M. C.

Bank Lick, Nov. 24.—Mr. Fletcher Johnson and sister, Julia, had a very pleasant social that was greatly enjoyed by every one present. Among them were sisters Edna, Clara and Edith Lucas, Lena Bume; Ralph Huey, Joe Wilmns, Edward Byland, Edgar Stephenson, Harris Getzendine, Frank Johnson and Clintou Stone.

Patrick Gunning is the happiest of men—it is a 10 pound boy.

Howard Byland and his cousin, Albert Lucas, are guests at home, Friday.

Miss Maud Ingram, of Napoleon, is visiting her aunt, Mrs. Samuel Byland, of Oak Ridge.

Robert Emmett grew such large potatoes that they must be cut before they can be peeled.

Bro. S. M. Adams, of Walton, will preach at the new Banklick Baptist church on Friday night before the 4th Sunday in each month.

RICHWOOD RAYS.

John Rice's house will soon be completed.

Mrs. Amanda Carpenter is on the sick list.

Mrs. Lal Dorsey spent last week with Mrs. Mamie Surface.

Perin Hunter, of Cincinnati, was a guest of M. Grubbs, Friday.

J. R. Carpenter and wife were guests at James Carpenter's, Sunday.

Theodore Carpenter and family visited friends at Walton, Sunday.

Messrs. Harbick & Rose, of Covington, were hunting near here, Friday.

Galloway & Picket are putting the finishing touches on M. Grubbs' residence.

Many of our horses have had distemper, and this disagreeable weather is very unfavorable.

Excelsior Grange will have a Christmas tree at the hall, and after the holidays, an oyster supper.

The several meteors reported found near here turned out to be stones commonly called "nigger heads."

Will some one tell us what the farmer has to be thankful for? We think they should, but can not recall much.

J. R. Carpenter's friends and relatives to a considerable nnmber assisted him to celebrate his birthday on the 17th inst.

There will be a shooting match held here Thanksgiving day. Where? every where, only on the posted farms will be an exception.

Some of our citizens are near unto the prizes of the Enquirer, while we, "individually" are just 6,300 from the exact vote and not near enough to see the finish.

Edmund Stephens and son have arrived at Cocoa, Florida, with their household goods. Mrs. Stephens and the other children will leave the first of next week to join them.

Pastor of the oyster supper will be permitted to view China, taste Turkey, and dip into Grease, an excursion that is worth the price, 25 cents, on Thanksgiving afternoon at Florence.

O. F. Glackin and wife, Walter Grubbs and wife, J. C. Robinson and wife, W. E. Glackin and wife, Mrs. Cora Stephens and family and E. B. Surface and family were guests at Thos. Rice's, Sunday.

Miss Ida Grubbs met with a serious accident, at her home, stepping off of a porch on to a piece of timber, breaking her ankle. She was removed to Dr. Slater's, at Erlanger, last Saturday so to be under the constant care of the doctor. She was to have charge of a booth at the Try-State Carriage Exhibit at Music Hall, and her misfortune caused a great disappointment to both her and the firms represented.

TAYLORSPORT TIPS.

Miss Cassie Foulk is on the sick list.

Miss Sallie Dye, of Ludlow, is visiting John Dye and family.

Dr. Chas. Crigler and family, of Ludlow, spent Sunday with his parents.

Wm. Harrison sold his farm of 13a on top of the river hill, to Aaron Carder for $1,300.

Capt. Pickleheimer fattened 30 hogs on garbage—he having the contract to take it from the city of Newport.

UNION USUALS.

Nov. 24.—Mr. and Mrs. Lewis Rouse have for guests Mrs. Dixon and Miss Moss.

Rev. and Mrs. A. P. Gregory took dinner with Mrs. Delehanuty, Sunday.

Misses Aylor, Freeman and Johnson, were guests of Mrs. James Huey, Sunday.

James Blanton, of Stamping Ground, attended church here Sunday afternoon.

Rev. A. P. Gregory preached to a large congregation, Sunday at Presbyterian church.

Rev. Martin preached a very interesting sermon at the Baptist church, Sunday afternoon.

Mr. and Mrs. W. H. Smith and J. L. Frasier, dined with Mr. and Mrs. W. M. Rachal, Sunday.

Remember the oyster supper at Florence given by the ladies of Ebenezer church Nov. 27th at 3 p. m.

Sunday was the marriage anniversary of Mr. and Mrs. J. W. Williams, and they were favored with a dinner.

Rev. Brodnax was the guest of Mr. and Mrs. Filding Dickey, Sunday night. He is on his way to Southern Pines, N. C., where he will remain until his health is restored.

Misses Lizzie Rouse, Marietta Riley, Lena Riley and Messrs. Harry Riley and Snyder Rouse were charmingly entertained Saturday evening by Harry Wilson and sisters.

Miss Bernice Johnson, with her pupils and a few friends, visited Miss Naunle Bristow's school Friday afternoon, and both teacher and pupils deserve a great deal of praise for we were very highly entertained.

Mr. and Mrs. J. J. Garrison entertained the following guests with a dinner party Saturday: Dr. and Mrs. H. C. Lassing, Dr. and Mrs. W. H. Blanton, of Erlanger; Mr. and Mrs. James Gayle Blanton, of Stamping Ground; Mr. and Mrs. J. W. Conner, Mrs. J. W. Taliaferro, of Cornith; Mrs. Wallace Garrison, Mrs. Rachal Rice and Mr. Coleman Lassing.

FLORENCE FRIVOLITIES.

Nov. 24.—Mrs. J. R. Whitson is visiting her daughter, Mrs. Cook, in Covington.

Dr. Corey was the pleasant guest of Covington friends a few days the past week.

Dr. A. Sayre has been quite poorly for some time past, but we hope to soon see him out again.

Rev. T. L. Utz has very much improved in health in the last few weeks to the delight of his many friends.

Miss Cordie May Ryle, left last week for a visit of a few weeks with her sister, Mrs. J. B. Berkshire, of Petersburg.

Mrs. A. M. Yealey was called to Columbus, Ohio, last Thursday, on account of the serious illness of her sister, Mrs. W. S. Cole.

Rev. T. L. Utz is the champion turnip producer of this section, having raised one that is 25 inches in circumference and weighs 5 pounds.

H. W. Ryle, of Erlanger, who has been quite sick for the past five weeks with typhoid fever, is slowly improving, to the delight of his numerous friends.

Jos. Scott, of Florence, sold to Lawrence Kennedy, a grand bull, Bess May Hugo's Exile, No. 64146, by Grand Exile No. 56070, and dropped by Bess May Hugo No. 133993; he being the first son of Grand Exile ever sold, and the second oldest son.

The Ladies' Aid Society of the Erlanger Baptist church, met with their President, Mrs. John H. Ryle. When it is known that Mrs. Ryle is hostess, it always insures a large attendance. There were present Mrs. S. L. Webb, Mrs. Alex. Buckner, Mrs. Neal, Mrs. Rogers, Mrs. L. L. Childress, Miss Stella Childress, Miss Pauline Kirtley, Miss Bennynitz and others. Delightful refreshments were served.

RABBIT HASH RIBBONS.

Nov. 22.—Mr. and Mrs. Frank Scott, of near Dillsboro, Ind., are visiting their parents here.

Dr. Hopkins' sister and Mrs. Hopkins' mother, of Gardnersville, Ky., are visiting them.

Hog killing has commenced here. Walter Ryle was the first. It has become a necessity as most of the people are out of meat as well as lard.

Lewis Stephens moved to this place this week, and expects to go into partnership with C. G. Riddell in the dry-goods and grocery business

Robt. M. Wilson had new potatoes for dinner last Friday, grown after the first crop was dug, and from seed left on the ground while digging.

Died Sunday evening, the 1st. inst., Lloyd Hedges, son of Elijah Hedges, Jr. He was about seven years old, and died with consumption of the bowels.

Mrs. P. M. Stephens celebrated the 74th anniversary of her birth to day. Her children and friends surprised her with a dinner although the day was very rainy.

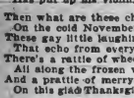
The Pentecost preachers have been holding meetings in the East Bend Methodist church since last Monday evening, but the people about here seem to take but little interest in the meeting.

Two thieves from Rising Sun, stole Martin Statley's dog one day last week while he was in that city. Dod Froudy helped capture the thieves and hung them. When the dog was found Staley nor Froudy had a rope to tie him with. Staley took an old blue handkerchief out of his pocket which filled the place of a rope. Those who saw them coming down main street said it was equal to Buffalo Bill's show instead of a dog show. The thieves had better stay away from Staley's neighborhood.

Burlington Lodge K. of P. No. 109, will have important business at its meeting to be held Saturday, Dec. 13th at 7 p. m.

For sale.—Registered Jersey Bull, No. 63680. Valita's Clothaire, No. 50962. Valita, No. 105292, dropped Dec. 20, 1900 Jos. W. Scott, Florence, Ky.

ON THANKSGIVING DAY.



HE robins are southward winging,
The sweet little phoebe has flown,
The wood-brooks no longer are singing,
All frozen as stiff as a stone.
No katydids chat in the thicket,
The locusts have ended their din,
And even the last little cricket
Has put up his violin.

Then what are these cheery noises
On the cold November air,
These gay little laughing voices
That echo from everywhere?
There's a rattle of wheels a-clatter
All along the frozen way,
And a prattle of merry chatter
On this glad Thanksgiving day.

Ah, these are the children coming!
No robin is half so sweet,
No little brook's softest humming
Is blithe as the sound of their feet
To thousands of loving grandmas,
Who are waiting with smiling eyes
For the little folks flocking to grandpa's,
All under the frosty skies.

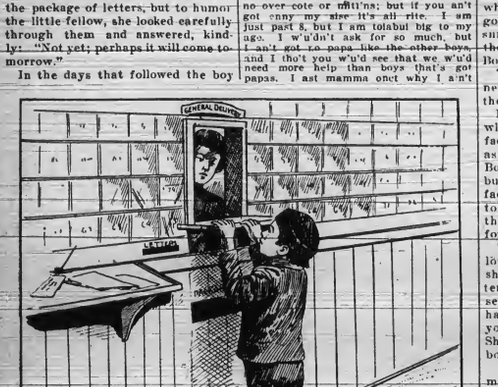
HOW THE GOVERNOR HELPED BOBBY TAANKSGIVE

BY LULU LINTON.

IT WAS the slack time at the post office—the hour just before noon, when the morning mail had all been distributed, and the clerks were chatting sociably or reading the morning papers.

The girl at the general delivery window was startled by the sudden inquiry: "Say, is they anything for the Jenners?"

Looking through the window she saw a boy, with big, brown eyes, just on a level with the shelf outside.



She took down the package of letters remaining in the general delivery box, looked all through them, then shook her head, and the boy turned away with a disappointed look.

In the afternoon, after the crowd had left the office, he came again and called up the girl: "Is they anything for the Jenners yet?"

The girl shook her head, but he was not convinced. "Look for Bobby Jenner," he said. "Maybe you didn't look for that name."

She knew there was no such name in the package of letters, but to humor the little fellow, she looked carefully through them and answered, kindly: "Not yet; perhaps it will come to-morrow."

In the days that followed the boy came twice a day, and the question: "Is they anything for the Jenners?" came to be a familiar sound in the post office, and the clerks listened for it with much amusement, but the girl at the window came to dread it.

"SAY, IS THERE ANYTHING FOR THE JENNERS?"

She was haunted by the mournful look that came into his eyes every time she shook her head, and tried to console him one day by saying: "Your letter will surely come soon; you have been expecting it so long."

"Letter," he said, scornfully, "I never said I wanted a letter; I want a bundle, and I want it pretty soon, too. I've been 'specting it a long time, and—and—I'm just tired of you shaking your head, I am." The defiant little voice ended with something very like a sob.

The girl at the office window was accustomed to hearing complaints from people larger than Bobby, who wanted their mail and wanted it pretty soon, too; but none of them had ever affected her as this one did.

She came through the door into the outer office, and taking Bobby's hand asked, kindly: "Had you written to someone to send you something?"

Seeing the look of sympathy on her face, he told her all about it. "You see, it's this way: Mamma used to let me write to Santa Claus and tell him what I wanted a Christmas time, and I always got something—that was when I was a little feller" (straightening back his shoulders). "My teacher has been telling me about the man that runs Thanksgiving, and she read a letter he had in the papers telling the people when Thanksgiving and all that, and I found her was he a real sure-enough man or if he was just a put-up job like Santa. She just laughed and laughed, and then she showed me his picture in the paper, and he was a man 'thout no white beard like Santa's, and she said they call him guv'nor. He looked so kind and good out of his eyes, I just thought maybe he would help us a little if he knew how hard up we was this fall. Mamma can't wash as much as she used to, and I can't help much yet, so I wrote a letter to the guv'nor one day when mamma had gone to the judge's to help clean house. I made my en-vl'up out of paper like I wrote my letter on; the teacher in the first room showed me how, but it didn't stick good, and I'm afraid it lost my letter out and the guv'nor didn't get it, and it's only one more week till Thanksgiving."

His voice trembled, and the girl turned her head for a moment to give him a chance to choke back his tears.

"Where did you mail your letter?" she asked.

He pointed to a tiny crack under the shelf of the general delivery window. "Right here," he said. "I couldn't reach the holes where the big folks put their letters."

The girl told him to run along home and be patient, and pulling out the stamp drawer reached in behind it and found a crumpled paper. It was Bobby's letter to the guv'nor.

It dropped out of the envelope into her lap, and she read the pitiful appeal; then taking a sheet of paper she wrote:

"Dear Sir: This important letter has been mislaid in our office, but I hope it is not too late for you to answer it before Thanksgiving. Yours very truly,

"The Girl at the Office Window."

She folded this inside Bobby's letter, fastened the corners of the brown envelope with mucilage, addressed it properly, and taking a stamp from her stamp book put it on the corner. She took out her purse and counted her scanty savings; then she put n dime in the stamp drawer and put a special delivery stamp on the brown envelope, too.

The governor's mail was brought to him at breakfast time. In the package was the queer brown envelope, and the governor opened it first out of curiosity. He read it through once and smiled. He read it again and whistled softly; then the children called for an explanation, and he read aloud:

"Dear Guv'nor: I am a boy, but I am not afrade of you, for you look good out of yore eyes. The teacher told me about you bein' the man that run Thanksgivin' and I tho't you w'u'd want all yore people to have a good time and we ain't got enney turkey or enney thing like the teacher read about the people hav'n'. I don't ker much for them things if you ain't got enuff to go 'round, but mamma needs a new dress awful bad, and a shall she ain't got enny to keep her warm when we carry the close home, and I ain't got no over-cote or mitt'ns; but if you ain't got enny my size it's all rite. I am just past 8, but I am tolabul big to my age. I w'u'dn't ask for so much, but I ain't got to papa like the other boys, and I tho't you w'u'd see that we w'u'd need more help than boys that's got papas. I ast mamma onct why I ain't got no papa and she cried and sed he went away when I was a baby and ain't got back. Ple'se send these things if you got plenty, so we can thanksgive, to. Yore fr'end,

"BOBBY JENNER.

"P. S. I like candy, but I don't ever have enny."

When the governor had finished reading the letter he was besieged by the children: "You will, won't you, papa? You won't disappoint the little fellow; just think, he knew you were so good ju-t from seeing your picture. Say, let us get the things; we can fit the overcoat and mittens on our Robby, he's just past eight, and big for his age; and, oh, papa, won't you let us send some things he didn't ask for?"

The children were all talking at once.

"Hold on," said the governor. "I haven't said that I would send the things that he did ask for yet."

His own Robby looked up into his face and said, gravely: "I think you won't be good like your picture looks if you don't."

This speech settled the question, and 14-year-old Winifred was appointed chairman of the purchasing committee by the governor, who gave her a bill that sent them all flying at him, until he fled down the steps to keep from being smothered by their rapturous embraces.

Bobby Jenner and his thanksgiving became the topic at breakfast, dinner and supper, until the governor and his wife became almost as interested as the children.

Oh, the bargains the purchasing committee found in the hours after school. There was a soft, warm shawl, two patterns of percale for wrappers, nice mittens and overcoat that fitted plump Bobby perfectly, so, of course, they would fit Bobby Jenner.

At the end of the week the committee agreed that they had never had so good a time in their lives before.

The governor came home with an important air one night, and, calling the children around him, told them the good news that Bobby's father was going home for Thanksgiving.

"Going home; where has he been?" were the eager questions, and the governor answered sadly: "Jenner made a mistake one time, and they sent him away from home for a long time, to make him sorry for it."

"Oh, papa, has he been in prison?" asked Winifred, in an awed tone.

The governor nodded; then he told them how very sorry Jenner had been for the wrong he had done, and they were letting him out before his sentence was out, on account of his good behavior. He had been to see Jenner and had shown Bobby's letter to him, and Jenner had cried like a baby over it.

When the children showed the governor the huge bundle they had ready to send, he said it would never go through the mail. Their faces clouded, for they had talked so much of Bobby's surprise, when he asked for his mail, and the girl at the window gave him the bundle.

All at once quick-witted Winifred thought of a plan to overcome the difficulty.

"We will have Bobby's father come here for the bundle when he starts home; he can go to the post office and wait for Bobby and carry the bundle home, and won't Bobby's mamma be surprised?"

This plan met the approval of the committee and it was settled.

In the meantime Bobby trudged to the office every day, morning and evening, and asked: "Ain't they anything for Jenners yet?" His tone grew discouraged, and the girl at the window found it hard work to comfort him. She felt a bitter resentment toward the governor, who had paid no heed to the little fellow's appeal.

Thanksgiving morning came; Jenner called early at the governor's home, feeling awkward and ill at ease in his new suit and his freedom.

The children had fastened a basket to the huge bundle; in it was a turkey, plump and yellow, packed in with oranges, nuts and candies.

The committee shook hands with Jenner, wishing him a glad Thanksgiving; they sent messages to Bobby, and sent Jenner out into the world with a brave heart.

Jenner took the early train for home, and when he reached the town he went straight to the post office. Going to the general delivery window, he asked the girl if she was the person who had forwarded a letter to the governor. She answered "Yes," in a surprised tone; then he showed her the bundle and told her that he was Bobby's father.

The girl was delighted with the good news, and asked Jenner to wait inside the office.

Bobby was later than usual; he came with a lagging step and a sad little face. Jenner caught his breath hard as he saw his baby, grown so large. Bobby did not ask the usual question, but looking up into the girl's kind face said: "I guess it ain't no use to ask; it's too late now, and I guess they ain't ever going to be anything for the Jenners."

The girl came out of the office, followed by Jenner with the bundle. She showed Bobby the address in big letters and said: "You see, the governor sent you such a big Thanksgiving, he had to send a man to carry it home for you. Will you show him the way?" She laughed through her tears at the boy's glad surprise.

Bobby reached up and took the big man's hand confidingly; not knowing who it was, he led the way home, and there was glad Thanksgiving for "The Jenners."—Ladies' World, New York.

Making Preparations.

"I want to get a turkey and a bottle of paregoric, and some mince-meat, and some pepsia pills, and some cranberries, and some furniture polish, and a quart of oysters, and a package of court plaster, and some sweet potatoes, and a fire insurance policy." Here the manketman smiled merrily and inquired: "Going to eat all that?" "No," responded the customer, "but the family Thanksgiving dinner occurs at my house this year."—Baltimore American.

A SHARP DISCUSSION.

Mr. Gobble—Oh, you're not so sharp. I'll get you some day.

Mr. Ax—Yes, and when you do it will be in the neck.

Inconsistent.

Optimist—So you have nothing to be thankful for?

Pessimist—Not a deuced thing!

"Well, such an habitual kicker as you ought to be thankful for that."—Puck.

FOG HAMPERS ARTISTS.

Julian Story Makes Comparison Between the British and French Capitals.

Julian Story, the artist, who has been in London several days, thinks Paris is much preferable to London for artists. In conversation the other day he said in answer to a question: "I don't think I should care to live in London. It may be all right when the weather is clear, but when they have those fogs of the pea-soup variety I should imagine it would interfere with good work. Fancy getting your inspiration under such weather conditions. I should think the pea-soup fog would be likely to make itself felt in the painting. This, I think, despite the fact that I spent eight years at school here.

"No, Paris, in my mind, is superior. There one can get into a genuine artistic atmosphere. There great skies and sunshine, too, make a difference. I think one can work much better in Paris than in London."

Mr. Story will accompany his wife, Mme. Emma Eames Story, to America early in November. He has several commissions to execute, particularly in Philadelphia, where he has a studio. Mme. Eames will sing in "La Tosca" for the first time this season in New York.

KAISER TO QUIT SMOKING.

Emperor of Germany Trying to Break Himself of the Use of Tobacco.

Emperor William has been suffering acutely of late from a painful chronic affection of the ear, and, having been advised by his doctors to stop smoking strong cigars, he has begun to break himself of the smoking habit altogether. When shooting he smokes a pipe, and his cigars are of the mildest sort. He rarely drinks wine now, but when he is with the regimental messes he absorbs an immense quantity of beer.

When he goes to visit King Edward next month at Sandringham he probably will be accompanied by the crown prince, whose tendency to flirt will be kept in check by his father's presence.

HISTORIC INN FOR SALE.

Place in London Which Was Famous During Revolutionary War Now Seeking a Purchaser.

The old Raven Inn at the Hook, near Basingstoke, London, is advertised for sale. It was built in 1653. It attained world-wide notoriety at the time of the American war for independence through being the place of residence and capture of the famous Jack the Painter, who aroused the whole country in 1770 by attempting to set fire to the dock yards and shipping, and did $300,000 damage at Portsmouth and some at Bristol, but was foiled at Plymouth. He was then run down at the Raven and gibbeted at Portsmouth.

The Scorcher Must Pay.

The award in the United States court in Trenton, N. J., of $12,070 damages to the victim of an automobile accident may open the eyes of the scorching chauffeurs to their responsibilities upon the road, says the New York World. The principle which seems now perfectly established, that he who causes damage must pay for it, will do more to check reckless misuse of the roads than the imposition of any number of $10 fines.

Keeping Out of Trouble.

The new ameer of Afghanistan has declared against the admission of missionaries to his country.

AN ANGEL IN DISGUISE.

He Wanted an Eraser, But the Good Woman Wouldn't Give Him Dry Bread.

An artist who was making a sketching tour through a picturesque region of Connecticut chanced one day on a barn so alluring to his eye that he sat down on a stone wall and went to work at once, relates an exchange.

He soon became conscious that he had two interested spectators in the persons of the farmer and his wife, who had come to the door of the house to watch him.

The artist by and by discovered that he had lost or mislaid his rubber eraser, and, as he wished to correct a slight error in the sketch he went up to the door and asked the farmer's wife if he might have a small piece of dry bread. This as every artist knows, makes a good eraser.

The farmer's wife looked at him with an expression of pity not unmixed with surprise.

"Dry bread!" she repeated. "Well, I guess you won't have to put up with any dry bread from me, young man. You come right into the kitchen with me and I'll give you a thick slice of bread with butter on it."

"Now don't say a word," she continued, raising her hand to warn off his expostulations. "I don't care how you came to this state, nor anything about it; all I know is you're hungry, and that's enough for me. You shall have a good dinner."

Clerk—"I should like to get off early, sir, as my wife wants me to do some odd jobs about the house while it is light enough." Manager—"Can't possibly do it!" Clerk—"Thank you, sir. You are very kind."—London Answers.

TRUE THANKSGIVING

It Involves a Three-Fold Attitude Towards God.

Recognition of Dependence, of Gifts and of Obligations Essential —Thanksgiving Day Sermon by "Highway and Byway" Preacher.

(Copyrighted, 1902, by A. N. Kellogg Newspaper Company.)

Chicago, Nov. 23, 1902.

Text—"Be ye thankful!"—Col. 3:15.

The president has issued the customary Thanksgiving day proclamation, and the governors of most, if not all, of the states have emphasized the call to the people of this land to render unto God thanksgiving for the blessings to the nation and to the individual which have been received during the past year. Our text is in the imperative mood and, antedating the president's proclamation by something over 1,800 years, calls to recognition of God's goodness and bounty by its short, emphatic command: "Be ye thankful!"

Over a thousand years before Paul's Divinely-guided hand penned the words of our text King David issued to the kingdom over which he ruled a Thanksgiving proclamation, and I am inclined to think that Paul had been reading the one hundredth Psalm before he echoed its sentiments in his letter to the Colossians. Paul wrote primarily to the disciples of Jesus Christ, because they, above all others, should have thankful hearts and recognize God as a potent factor in every detail of life, but David's call is to "all ye lands:"

"Make a joyful noise unto the Lord, all ye lands!
Serve the Lord with gladness:
Come before His presence with singing!
Know ye that the Lord, He is God:
It is He that hath made us, and not we ourselves;
We are His people, and the sheep of His pasture.
Enter into His gates with thanksgiving,
And into His courts with praise:
Give thanks unto Him, and bless His name!
For the Lord is good; His mercy endureth forever!
And His faithfulness unto all generations."

In the light and spirit of the above psalm and in obedience to the command of our text, we wish to consider what are the elements of true Thanksgiving, and discover the claims which God has upon us for rendering unto Him grateful acknowledgment of blessings both individual and national, and for which one day in each year is most fittingly set apart.

A spirit of true thankfulness on the part of a dependent creature must issue towards its benefactor if there is to exist between the two the least degree of fellowship and of communion. Ingratitude separates as an impassable gulf. The boat loads of gifts and blessings may continue to pass from the benefactor to the recipient, but they can never build a bridge over the gulf of ingratitude so as to afford a means of heart to heart communication between the two; but recognition of the blessings and the gifts, and a thankful spirit, can throw out span by span the bridge over which may flow the unbroken current of kindly feeling and genuine fellowship. Ingratitude as a canker doth eat up and destroy human friendships, and what is true between man and man is more infinitely true between man and his Maker. We need not dwell upon this point. A moment's reflection is sufficient to call to mind instances in your own life, or the lives of others with whom you are acquainted, where ingratitude has wrecked friendships and terminated the fellowship of years. The pride of the human heart and the selfwill of an independent spirit are the seeds from which the poisonous plant of ingratitude grows. Man's ingratitude to man is only exceeded by his ingratitude to God, the Creator and Ruler of the universe. What are the elements of true thanksgiving or thankfulness?

Elements of True Thanksgiving.—First of all I believe comes recognition of dependence, and that which is its correlative, recognition of the Benefactor; secondly, a recognition of the gifts and blessings themselves, and in the third place, recognition of reciprocal obligations. Our text tells us to be thankful, and David's Psalm in the rare beauty of its poetic lines reveals to us what is meant by true thankfulness. A joyful, glad strain flows through it all, because there is music in the thankful heart. The opening burst of music is followed in the third verse by the call to recognition of dependence, for we have not made ourselves, but "we are His people," by right of creation. And because this is true, "know ye that the Lord, He is God; it is He that hath made us," giving us a sublime recognition of the Benefactor. And the strains of our Thanksgiving song carry us on then to a recognition of the gifts and blessings received, for we are "the sheep of His pasture,"—the green pastures and still waters found there given to the sheep—everything there for their comfort and blessing. Then comes, in the fourth verse, recognition of reciprocal obligations. "Enter into His gates . . . and into His courts . . . and bless His name." This may appear on the surface a good deal like a beautiful religious ceremony, without its practical application to everyday life, but I believe if we dig under the surface and discover the real depth of meaning of this poetic recognition of obligations to God, we shall find that entering into the gates and courts of God and blessing His name have the most vital connection possible with

[illegible] of life. If so, then the [illegible] true thanksgiving [illegible] nothing more than religious [illegible] more than the glad song [illegible] than the attendance [illegible] Thanksgiving day services. [illegible] gratitude gives recognition to this fact when he declares in this proclamation that, "we seek to praise Him not by words only but by deeds, by the way in which we do our duty to ourselves and to our fellow men."

Recognition of Dependence.—The first element of true thanksgiving, whether towards man or God, is recognition of the dependence of the individual upon the Benefactor for the gift received. The self-made man cannot stand in the presence of God. It is a grand and inspiring sight to see human pluck and determination carrying the individual step by step up the steep mountain side of difficulty until the summit of success is reached. But the self-made man on the mountain-top of his success still must gaze still higher than himself and the eminent place he occupies for the reason of his existence and his success. He is dependent upon God for life, for abilities, for opportunities, whether he recognizes such relationship to his Creator, or not. And if this is true of those who have seemingly done so much for themselves, surely it is true of those of us who occupy comparatively humble and unknown spheres in life. These two points we wish to emphasize: The fact of our dependence and recognition of such dependence.

The recognition of this dependence marks the difference between superficial thanksgiving and true thanksgiving. It is all very well, or rather, it is not well at all, to in a general way talk about God as the Giver of all things, to say that He is the Sender of the rain and the sunshine, that He unrolls the springtime of plowing and sowing, the summertime of growing and ripening, the fall of harvesting, and the wintertime of Nature's rest, but it is quite another thing for the heart to swell in humble gratitude towards God for His gifts and His blessings.

In how far the spirit of Thanksgiving day celebration and even worship of to-day is a genuine expression of gratitude towards God may be judged, perhaps, by our further analysis of what constitutes true thanksgiving. Certain it is that the football games, the feasting and festivities, the family reunions and the joy of congenial associations, the ballroom and parties and the thronged theaters are not thanksgiving. They may be incidents of the day which is set apart for the giving of thanks, but in no sense do they constitute the purpose of the day. The church services throughout the land may give opportunity for the expression of true thanksgiving, but the swelling anthem of the trained choir, the full-rounded prayer, the eloquent discourse of the picked speaker, the stirred emotions of the congregation, are not in and of themselves true thanksgiving. Let us further apply the test and endeavor to discover what is true thanksgiving. We have already seen that the first element of true thanksgiving is recognition of dependence upon God. We will next consider the recognition of the gifts and blessings.

Recognition of Gifts and Blessings.—It is a fundamental truth of mathematics that the greater always contains the less. This is true of other things. For this reason I wish to speak first of God's greatest gift to mankind in the person of His Son, Christ Jesus, and show that all other gifts and blessings are contained in Him, and that real recognition of God's gifts and blessings cannot be apart from their relationship to Christ, the greatest gift. How could it be otherwise? The center of God's purpose in Heaven and in earth is found in the Christ; the only hope of the world rests in Christ the Crucified One. How could thanksgiving to God for gifts and blessings which left out the Christ in thought and spirit be acceptable in any degree to Him? Recognition of gifts and blessings, then, as an element of true thanksgiving must find its center in the Christ. Our text is addressed to believers on and followers of Jesus Christ. They are told to be thankful. God's message to the world is not, "be thankful" for lesser gifts, but, "believe on and accept" the greatest gift. While the greatest gift remains unreceived and unappropriated, acceptable thanks cannot be rendered to God for His lesser gifts.

The multitudes ate of the loaves and fishes which passed from the Master's hand of blessing and were filled, and they were so enthusiastically thankful that they wanted to take Jesus and make Him their king, but they were not thankful enough to feed on the Living Bread which was offered them. Do you suppose for a minute God was pleased with the fleshly gratitude of a full stomach while the soul was famishing for the Living Bread? Undoubtedly Nature's vast banqueting hall on the mountain side where the multitudes were fed rang with the praises of Him Who had supplied their physical need. That open-air feast was turned into a rousing thanksgiving service in recognition of the One Who had so graciously acted as their host, but how much of their praise and thanksgiving really got above their own heads is shown in the closing part of the chapter where we find not only the multitudes turning from the Living Bread, but "many of His disciples went back and walked no more with Him." When they found Jesus had not established a miraculous commissary department and was not going to continue to feed them, their gratitude vanished in thin air and they scattered "every one to his own way."

That multitude pictures for us in miniature the world to-day. Its gratitude towards God is dependent upon the loaves and fishes of material prosperity. It counts its blessings in dollars and cents, and houses and lands, a full larder and a well-equipped wardrobe. But do you suppose God hears with pleasure his expressions of gratitude at possessing these lesser gifts of material things while His greatest gift of a Saviour is being disdainfully spurned? True thanksgiving involves recognition of gifts, and there can be no adequate recognition of gifts which leaves out the Christ. God cannot accept thanksgiving which has its inspiration in material things alone.

The Christian has the advantage of the people of the world at every turn in life, for whereas the thanksgiving of the world must necessarily depend upon the material things of life, the Christian is able to "give thanks always, for all things." In counting gifts and blessings, one is so apt to enumerate only those things which are pleasant and to him desirable, whereas the trial, the affliction, the misfortune may be the greatest possible blessing, as will be clearly seen in after years. "All things work together for good to them that love God." The misfortune and trials of a Joseph wrought the salvation of his own family and of the nation of Egypt. The cruel edict of Pharaoh against the Hebrew boy babies became the stepping stone of Moses to the 40 years of training in the king's palace. The persecutions of the disciples at Jerusalem spread the glad Gospel message throughout the world. The prison walls of John Bunyan became the sacred temple within which the inspired book of Pilgrim's Progress was given birth. The Christian's thanksgiving is not confined to one day in the year, but every day becomes a day of thanksgiving, as thanks are given "always, for all things."

Recognition of Reciprocal Obligations. — We have seen that true thanksgiving involves recognition of dependence and recognition of gifts and blessings. We have seen something of what dependence upon God means and what the recognition of His gifts implies. We now come to the third element in true thanksgiving, namely: Recognition of reciprocal obligations. The one who professes thankfulness for gifts received, and who feels that the mere expression of the lips is fulfillment of all claims, is not really thankful at all. The truly thankful heart is filled with an earnest purpose and desire to give expression to its gratitude in some substantial way. David sings: "Enter into His gates with thanksgiving, and into His courts with praise: Give thanks unto Him, and bless His name." And here I believe he has implied practical expression of the thankfulness which is swelling within his heart. What David would have you do is this: "Being thankful, enter into the gates and courts of God; give thanks unto Him by blessing His name." What are "the gates and courts of God" and what is it to "bless His name?"

Do I hear some one say the churches and meeting houses, the cathedrals and temples of worship throughout the world are the courts of God, and to "sit and sing the soul into everlasting bliss" is blessing His name! That is the world's idea, and I am sorry to say it is the conception of many so-called Christians, but I want to tell you, in the light of God's eternal truth, that the soul cannot prescribe limits to the courts of God, nor can it "bless His name" in the meeting house, if it has not been blessing his name in the home, in the business, in the hours of pleasure and recreation. "The earth is the Lord's and the fullness thereof; the world and they that dwell therein." God's court extends to every nook and corner where human feet can tread; it spreads out into the vast universe and includes the realm of the saints and the angels of Heaven. Entering into the gates and courts of God means a recognition of reciprocal obligation to Him which makes an honest, righteous business man, a devout and patriotic citizen, a faithful, affectionate father, a pure-hearted associate; it means that wife and children, big and little, great and small, everybody, are to give God the first place in their lives because they are treading His courts. It does mean something to enter the gates and courts of God! It does mean something to "bless His name!" True thanksgiving must include recognition of reciprocal obligations every day and every moment of the life.

God's Claim Upon Us.—But what claim has God upon us for rendering unto Him thanksgiving and praise? What claim has the faithful parent upon the child for grateful acknowledgment of the years of love and care? What claim have you upon that friend because of gifts, and favors, and service bestowed? Can you answer these last two queries and not be able to answer the one first propounded? Every claim which the parent has upon the child, God has upon us, only infinitely more so. "We are the sheep of His pasture." We receive all things from Him. God has laid out the pastures of the world and stored therein every conceivable treasure for the comfort and blessing of man. Is it strange or unreasonable that man should recognize God's claims upon him? Man must render thanksgiving unto God if he would have any fellowship or communion with God, and true thanksgiving must include recognition of dependence upon God, must recognize God's gifts and blessings, the first of which is Christ Himself, and it must recognize reciprocal obligations. Therefore, "be ye thankful," and

"Praise God from Whom all blessings flow:
Praise Him all creatures here below;
Praise Him above, ye heavenly host;
Praise Father, Son and Holy Ghost."

NOW IT'S "PING POODLE."

New Game with Which Suburbanites Amuse Themselves on the Train Going Home.

Have you ever played "ping poodle?" If you are a commuter and don't know anything about the game you are behind the times. Most of the suburbanites are now indulging in "ping poodle" with as much enthusiasm as they formerly displayed over their games of whist or pitch, reports a Chicago exchange.

"Ping poodle" is simply an elaboration of that venerable child's game, known as "spots." A square is made with any given number of spots in it. Then these spots are made into smaller squares by means of pencil marks. The men who has to fill out the last square loses the game.

On the suburban trains each spot usually counts for five cents, and the loser must pay the winner the sum of the spots. If there are 64 spots in a square, the man who makes the last pencil mark must produce $3.20.

The other day a number of railroad men were playing "ping poodle" when a suburbanite who lives at the farthest station on the local division appeared. When the game had been explained to him he insisted upon playing 128 instead of 64 spots. It was an hour before the game was finished, and then the new-comer found that he owed his opponent just $6.40. But the veteran "ping poodler" had passed his own station during the excitement of the game, and as he was unable to catch an incoming train, he was obliged to spend the night with his victim, who after much persuasion finally agreed not to pay his loss.

DeWet's Military Status.

Gen. DeWet, the sturdy Boer leader, carried his independence with him to London and showed it in marked fashion during his interview with Colonial Secretary Chamberlain. The latter addressed him as "Mr. DeWet," whereupon the warrior from South Africa corrected him by saying "Gen. DeWet." Almost immediately afterward Mr. Chamberlain repeated the "Mr." and DeWet said, sternly: "General or nothing." Then the suave Chamberlain followed Lord Kitchener's example and recognized the military status of his visitor.

Ought to Be Meadville.

A curious political situation is presented in Greenwich, Conn., where three rich men, each named Mead, have been nominated on separate tickets for members of the state assembly. There are 2,700 voters in the town, and of these almost ten per cent. are of the same name, including the wealthiest and most influential citizens.

Atmospheric Elements.

Besides oxygen, nitrogen and carbonic acid, there are present in the atmosphere five other elements—argon, neon, helium, krupton and xenon.

A PASTOR WHO WAS BEFRIENDED BY AN ANGEL

SAVED BY PE-RU-NA.

REV. H. STUBENVOLL

Rev. H. Stubenvoll, of Elkhorn, Wis., is pastor of the Evangelical Lutheran St. John's Church of that place. Rev. Stubenvoll is the possessor of two bibles presented to him by Emperor William of Germany. Upon the fly leaf of one of the biblea the Emperor has written in his own handwriting a text.

This honored pastor, in a recent letter to The Peruna Medicine Co., of Columbus, Ohio, says concerning their famous catarrh remedy, Peruna:

The Peruna Medicine Co., Columbus, Ohio.

Gentlemen: "I had hemorrhages of the lungs for a long time, and all despaired of me. I took Peruna and was cured. It gave me strength and courage, and made healthy, pure blood. It increased my weight, gave me a healthy color, and I feel well. It is the best medicine in the world. If everyone kept Peruna in the house it would save many from death every year."—H. STUBENVOLL.

Thousands of people have catarrh who would be surprised to know it, because it has been called some other name than catarrh. The fact is catarrh is catarrh wherever located; and another fact which is of equally great importance, is that Peruna cures catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

A State Primary.

The Democratic State Executive Committee met at Frankfort yesterday, and ordered a primary election held May 9th, 1903, to nominate candidates for State offices. The committee stood 10 to 1 in favor of the primary. Several of the candidates and their friends were before the committee and made a hard fight against the primary. There is talk of an attempt to enjoin the holding of the primary election. It appears that the fun has begun.

The negro was then carried to a telephone pole and hanged in the presence of a crowd of 600 persons.

Two smooth strangers from the East arrived in Covington one night about four weeks ago and left during the early hours of last Wednesday morning, and now hundreds of the people of Cincinnati and Covington are mourning their sudden departure, and the loss of money and valuable gems. The strangers claimed to be able to unfold the future, and they found many of the leading society people of Covington easily duped and robbed of their money and gems.

THE Grayson Tribune (Republican) says: "Our defeat in Kentucky may be charged up to the Deboe brand of politics. Under this regime true and tried Republicans have been snubbed, popular leaders relegated to private life, turncoat Democrats and slick-headed dudes given all the fat jobs, veterans insulted and ignored, and mullett-heads put in the high places. Give us our old leaders around whom we can rally, and make a fight on principle, instead of for Federal jobs, and we will regain what we have lost in old Kentucky."

MR. TAGART, who carried the mail from Union to Florence has thrown up his job after having lost about $140 because of the insolvency of the original contractors who sublet the route to him. Mr. Tagart put his claim in the hands of an attorney, who was advised from Washington, by the Postoffice Department, that Mr. Tagart was not known at all in the letting of the Union and Florence route, consequently he will lose his money. If the government would deal directly with the carriers on the star routes as it does with the carriers on the rural routes, it would be better for all parties, and, no doubt, a considerable saving to the government.

THE "Jim Crow" law drawing the color line in the New Orleans street cars, which has just been declared unconstitutional by a lower court, has been on trial for about two weeks and according to the Picayune "has been abandoned to general violation and contempt." Everybody tramples upon it with impunity. The law was passed by the whites, in the supposed interest of the whites, but the whites were the first to violate it. When their own compartments were crowded and there were vacant seats in the colored compartments they quickly chose to sit with the negroes rather than stand with the whites, law or no law, and successfully resisted the efforts of the conductors to have them remain on their own side of the color line. It has reached the point now where nobody makes an effort to enforce the law.—C.-J.

THIS county has an iron bridge that is worth about $1,000 laying on the bank of Woolper creek near Plattsburg. It is a pity that such a valuable piece of property should be permitted to be destroyed by rust, when there are so many points in the county at which it could be used to a great advantage to a very large community. There are two points at which a public road crosses streams within a few hundred yards of where this bridge lay a prey to rust, at which it is badly needed. The bridge was purchased with the money of the people interested in the Woolper pike, which was surrendered to the county several years since, and, having the bridge on its hands would it not be the proper thing for the county to do to put the bridge where it will accommodate these people? Is it good policy to let the bridge go to ruin, when for a few hundred dollars it can be made to span a creek where it will accommodate a great volume of travel? No doubt but the people along the road known as the Woolper pike will lend a helping hand to put the bridge across the creek again at some suitable point. The matter is worth looking after.

Why not Insure in a Home Company?

Best results for least premium consistent with permanent security.

Combines every necessary element in life insurance, and has new features not found in any other single policy.

Furnish low cost of insurance, full protection, and a high rate of investment.

Any sum not less than $50 may be paid, and premium proportionately decreased thereafter, while the value of the policy is increased. Dividends payable annually.

High cash guaranteed value a feature of the policy.

The premium on a 20 payment life policy in the Equitable Life of New York, at age 35, is..$38.34
In the New York Life it is..38.34
In the Mutual Life it is....36.87
In the INTER-STATE it is only 35.92

At the end of 20 years the Equitable Life guarantees you a cash surrender of.....$610.00
The New York Life guarantees you..... 609.00
The Mutual Life guarantees you.....631.00
While the INTER-STATE guarantees you.....637.00

In other words, the New York companies charge you more and guarantee you less than The INTER-STATE, and yet the advantages of The INTER-STATE are better for the policy-holder than either of the other companies.

C. C. ROBERTS,
Agent Boone County.

THE Court of Appeals made an important ruling in the contested election case from Todd county of Wilkins and Gill, Republicans, vs Duffy and Mallary, Democrats. The facts are that the Republicans of Todd county nominated a full county ticket, but their nominees for County Judge and Attorney declined to run. The Republicans failed to fill the vacancies, and Wilkins and Gill got up petitions to have their names placed on the ballot. The statutes provides that the nominees of a convention, primary or party committee are the only names entitled to go under the device of that party on the ballot. The County Clerk of Todd declined to place Wilkins and Gill under the Republican device, because they had not been nominated in any way by the Republican party, and instead put them under a separate device as Independent Republicans. After the election the Democratic nominees were given the certificates on the face of the returns, and Wilkins and Gill contested on the ground that the clerk should have put their names under the Republican device. The Court of Appeals decides that the clerk acted within the law and the scope of his authority in refusing to place names of petition candidates under the devices of a party that had not nominated them. Judge O'Rear wrote the opinion, and it settles an important question in elections in this State.

THE election of a Speaker of the National House of Representatives is a year in the future, but Congressman Cannon, of Illinois has the office nailed down. His nomination will be unanimous if there is anything in indications. Two or three who proposed to put up a fight for the place, seeing that Cannon's nomination and election are a certainty, have quit the race.

THE Washington correspondent of the Philadelphia Public Ledger recently sent to his paper an interesting story of the claim of an aged negro employed in the treasury department that the eclipse of the moon on October 16 had restored his voice. This man is named Merriman, and his voice has almost entirely been gone for many months. According to the correspondent when he reported for duty at the department on October 17 the captain of the watch was astounded to hear the old man speak in a loud clear voice. He declared that directly upon the passage of the eclipse he felt his voice changing. He did not know how it could have affected him, but he was convinced that the eclipse was the cause of the restoration of his voice.

THE war over whether an organ should be installed in the Broadway Christian Church, at Lexington, was ended, last Sunday, when the congregation, by a vote of 361 to 202, decided to install the organ. It was an intense battle between the organ and the anti-organ factions. The result is that the church will be split, many old members going to a Christian Church in the city which enjoys the sole distinction of not having an organ. Rev. Mr. McGarvey and other leaders of the Christian Church are the seceders.

We are dismayed by the action of a jury who recently decided that a hug was worth only one cent. Besides the fact that it was a lie it is awful cheapening of a valuable asset. Just think of it. One hundred for a dollar. A man could go out this beautiful bright weather and hug his collar bone loose for 50 cents. Everybody knows that a hug is worth more than a cent. Most of us would willingly pay as high as a dime. But now here comes a jury and awards a woman who has been hugged one cent. If this is fixed by law as the ruling price there won't be any other work done this fall.—Mead County Messenger.

A meeting was held at the court house Friday afternoon relative to the new Cincinnati & Louisville railroad. Geo. H. Keeney was chairman and Scott Thompson secretary. The meeting was addressed by Henry C. Starr, of Richmond. The company asks for a two per cent tax from Randolph township and will execute a $50,000 bond that the road will be completed by Dec. 31, 1903. The matter was referred to the old railroad committee. Further particulars will be given next week.—Rising Sun Local.

Covington, -

One night as the devil sat musing alone in the midst of his crazy warm fire, trying to figure the difference in guilt between theft and the all around liar, his memory turned to the scenes of his youth and his eyes filled with hot boiling tears; so he took down his ledger and turned to a page dated back about six thousand years. "I suppose," he exclaimed, as he glanced through the book, "I am doing the best I can, for my business denotes a continual increase ever since the creation of man. I have cribbed a good harvest for six thousand years and should be content with the yield and give my opponents permission to have the gleanings I leave in the field. I've gathered a very diversified crop of merchants and lawyers galore; I've bound politicians in bundles until the ends of my fingers are sore, I've fiddlers, gamblers and insurance men; and filled up my furnace with green populists till they actually put out the fires. I've railroad conductors and doctors to spare; horse traders and preachers to spend; republicans, democrats, tories and wigs and two or three newspaper men. But there is one class I'm happy to say can never gain entrance here; their souls are so dirty I'm sure they would demoralize hell in a year. I refer to that thing neither human or beast—the carrion crow of the world—who is never happy unless he can feast on the wreck of an innocent girl. A million of years in my warmest of rooms his slanders would never atone; so I give him a match and advise him to start a select little hell of his own." With fingers he lit an asbestos cigar and placing his book on the shelf, muttered: "I may be a very bad man, but I've some respect for myself."

Notice to Policy Holders.

To the Policy Holders of the Farmers' Mutual Fire Insurance Co.:

At the meeting of the board of directors of the Farmers' Mutual Fire Insurance Company of Boone County, Kentucky, on the 6th day of October, 1902, the following motion was made and carried unanimously:

Resolved, That the policy holders of the Farmers' Mutual Fire Insurance Company of Boone County, Kentucky, are hereby notified and requested to meet in mass convention in the court house in Burlington, on the first Monday in December, 1902, to discuss and take action on the question of voting by proxy at the annual elections of the Fire Insurance Company.

The board requests that as many policyholders as possible can, be in attendance on that day.

Young men, you have only a month now in which to determine with what you will present your girl for a Christmas present. She expects something quite handsome, and it is not in your heart to disappoint her.

If the people along the proposed rural mail route as given in this issue want a postoffice at their door, they now have a chance for it. Take a box and induce each of your neighbors living within a reasonable distance of the route to do the same. You can not appreciate the convenience until you have it for a while.

Two Disinfectors.

Judge Lassing received from Warsaw, Gallatin county, last Friday, a pair of goats, genuine cliff-climbers. Goats are said to be good disinfectors, and if that be true the Judge's corner of the burg will, undoubtedly be one of the healthiest localities in this part of the county. Billie is loaded down with that "salubrious" odor peculiar to his species, and appears to have a wonderful capacity for disinfecting.

A Telephone Line to Bellevue.

With anything like proper encouragement the Boone County Telephone Company will construct a line from Burlington to Bellevue. After the line has been put up a short time the people between the two towns will not see how they did without the telephone so long. It is a convenience the value of which increases with the number in use in a community, and it will not be long before nearly every farm house along the line will have a 'phone.

Was it Primed?

A good one is told on a farmer in this vicinity who prides himself on the fine crops he produces. He invited a neighbor to take dinner with him a few days since. After a very excellent meal had been enjoyed, he said: "I want you to go to the barn with me and look at a crib of corn." When the crib was reached and the door thereto opened, the visitor found himself confronted by ears of corn containing from 18 to 26 rows and from 50 to 60 grains to the row. This magnificent display was too much for the visitor's credulity, and when he began to laugh the owner of the corn, to convince his guest that he had not attempted to put a job up on him, insisted that he should walk about a mile with him to look at another crib which he declared was just like the first, but the guest declined to make the trip, agreeing to take the farmer's word for it. It was a crib of very fine corn, but the visitor does not think equal, as a whole, to the first appearance.

The Rural Mail Route.

The inspector of rural mail routes arrived last Thursday and went over the route leaving Burlington. The route that will be recommended leaves Burlington via the Burlington and Petersburg pike, going to what is known as the Berkshire school house near Elijah Holton's. At the Berkshire school house it takes the Woolper pike, following it to the Commissary on the Burlington and Bellevue pike, thence by the latter pike back to Burlington, the whole distance being eighteen miles. At first it was intended to go to Petersburg and then down the river to the toll gate near Bellevue, then back to Burlington, but at the last moment the inspector decided to change the route on account of the back water occasionally interfering with the crossing near the mouth of Woolper creek. The route as laid out will accommodate a great number of families, and was pronounced a good route by the inspector. Each family desiring the benefit of the free delivery will have to put a box at a point designated by the carrier, the box being so located that carrier will not have to get out of his vehicle to deliver or receive mail. The box has to be of a make approved by the government which protects it. The boxes do not cost much, and the purchase of the box and placing it in position is the only expense to the patron.

The mail will leave Burlington about 12 o'clock every day. The carrier can register letters and receive money for money orders, the money for which he will return to the Burlington office where the order will be issued and mailed. The carrier gets $50 a month and a reasonable toll is paid for him.

Mr. Thomas, our Commissary correspondent, who has taken a great interest in the rural route, is an agent for a very convenient and cheap mail box, and he will call on the people who are expected to desire the benefit of rural service, and he will be glad to furnish the boxes. The patrons of the route may live any distance from the road provided they put their boxes at the point indicated by the carrier. The following took the examination for carrier: J. M. Eddins, Bruce Clore, William Hughes and Herbert Kirkpatrick. It is not known which will secure the appointment.

Before this route is put in operation there must be as many as 80 boxes up ready to receive mail.

Some Very Sore Arms.

Some who were vaccinated a few days after the Green woman made her dash through the county with smallpox, have sore arms that are proving very annoying. Better have a sore arm than a case of smallpox and a long medical bill.

Good Tobacco Weather.

During the last few weeks the farmers have had a most excellent opportunity for stripping and preparing their tobacco for market, and many of them have that work well advanced. Only a few crops have been delivered to buyers at this place.

A Burlington Man's Prospects.

Atty. G. G. Hughes, of the local bar, has both eyes turned towards Eastern Kentucky, where syndicates are making large purchases of mineral lands. Mr. Hughes owns an interest in a large tract of coal land in Pike and adjoining counties, being the Ben Craig land, of which he was one of the purchasers at Commissioner's sale several years ago. The land was bought very cheap, and the odds are now largely in favor of Mr. Hughes making a nice thing out of his purchase. His friends here hope that he will rake off an hundred thousand dollars as his part.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DEATH Of MAJ. REED.

Was Head Officer of the Surgeon General's Department of the Army.

Washington, Nov. 24.—Maj. Walter Reed, an officer of the surgeon general's department of the army, died here Sunday. Maj. Reed was sent to Havana to investigate the yellow fever question and it was largely through his researches that the determination was reached that the disease was communicable through the mosquito. Maj. Reed's death was due to appendicitis, for which an operation was performed on Monday, the 17th inst.

Maj. Reed was born in Gloucester county, Virginia, in 1851, and was a graduate of the medical department of the University of Virginia and of Bellevue hospital, New York city. He was appointed an assistant surgeon in the army in 1875, and at the time of his death was first on the list of majors and surgeons in the medical department of the army. He had been known for years as one of the foremost bacteriorologists and pathologists of the country.

ANTI-MILITARY SONGS SUNG.

A Violent Riot in the Alcazar Music Hall, Tours, France.

Tours, France Nov. 24.—A violent riot broke out Sunday evening in the Alcazar Music hall in this city owing to the singing of anti-military songs by one of the performers. A party of officers belonging to the garrison of Tours, who, dressed in mufti, were occupying the stalls, hissed the songs, while the public in the gallery applauded and threw missiles at the officers, wounding several of them. The occupants of the galleries then invaded the floor of the hall, where a free fight ensued until the police cleared the building. An anti-military demonstration in the streets followed, a crowd escorting the singer, the author of all the trouble, home, and singing revolutionary songs. The rioters attempted to mob all the officers they met on the way, but a squad of police and infantry succeeded in protecting the officers and order finally was restored, although the streets are still being patrolled by troops.

TRANSPORT INGALLS.

The Vessel, With Gen. Miles and Party on Board, Struck a Reef.

Manila, Nov. 24.—The United States transport Ingalls with Gen. Miles and party on board, which struck on a reef while entering the harbor of Le Gaspi, Luzon, Saturday, floated at high tide the same day and will arrive here next Monday. The vessel struck on a coral reef while going at a speed of nine knots. The shock raised the ship two feet along its entire length.

Capt. Brugire has explained that he was trying to save 20 minutes by running through the chartered channel between the reefs in the center of the Gulf of Albay in a straight line for Le Gaspi, instead of following the usual channel. A Spanish vessel which was asked to give assistance asked 100,000 Mexican dollars as salvage, but these terms were declined. Capt. Brugire pumped out the vessel's water ballast and she floated without aid. It is believed that the Ingalls is undamaged.

DEATH OF SEPTIMUS WINNER.

He Was the Composer of "The Mocking Bird" and Other Popular Songs

Philadelphia, Nov. 24.—Septimus Winner, composer of "The Mocking Bird," and hnndreds of other popular songs, died suddenly Sunday at his home here. He was 76 years of age.

Mr. Winner was the author of 200 technical books on musical instruments and arranged over 2,000 compositions for the violin and piano. His also possessed considerable poetic ability, his latest work, completed recently, being "The Cogitations of a Crank." Mr. Winner was a frequent contributor to Graham's Magazine when Edgar Allen Poe was editor of that publication. One of his compositions, "Give us Back Our Dear Commander," written after the removal of Gen. McClellan, is said to have threatened the disruption of the military forces and its publication was stopped by the government.

Mr. Winner sold "The Mocking Bird" for $35, but the publishers years later admitted having realized $3,000,000 for its sale.

PIONEER MERCHANT DEAD.

Joseph M. Cushing Expired in Baltimore of Heart Failure.

Baltimore, Nov. 24.—Joseph M. Cushing, a prominent merchant, died suddenly Sunday of heart failure. He was 65 years old and conducted the book selling and stationery business established nearly a century ago by his father. Mr. Cushing was especially interested in educational matters and the development of manual arts. He was president at the time of his death and for many years previously of the Maryland academy of arts and designs and also a member of the state board of education.

THE MINING TROUBLES

Effort to Settle Differences Outside Strike Commission.

The Rough Proposition is a Ten Per Cent. Increase in Wages, a Nine Hour Day and Trade Agreements.

Scranton, Pa., Nov. 22.—The mine workers, through their representatives, have agreed with the mine owners to attempt to adjust the differences existing between them outside the anthracite coal strike commission. The proposition was made on a compromise basis, and negotiations, it is expected, will be at once entered upon, with a reasonable hope of settlement with the aid of the arbitrators. The rough proposition, which is to form the basis of negotiations, is a ten per cent. increase in wages, a nine hour day, and trade agreements between the miners and the company by which they are employed. The only one of the four demands not touched upon is that of weighing of coal by the legal ton. While both sides have expressed a willingness to settle their differences among themselves, it is not to be construed that it carries with it the acceptance of the terms proposed. They are mentioned only as a basis, it is understood, from which a settlement is to be effected. It is possible that the foundation already laid can be wrecked by either party holding out too strongly against some question and leave the whole matter in the hands of the commissioners, who, in the meantime, will act as a sort of a board of conciliation rather than as a board of arbitration.

Few persons were aware that an attempt would be made at an outside settlement until it was practically so intimated by Judge Gray, the chairman of the commission, who read a carefully prepared announcement from the bench. The move, one of the most important in the whole history of the coal strike, created a mild sensation when it became known. The surprise was all the greater when it was remembered that numerous persons from the president of the United States down, and many organizations from the National Civic Federation to the small boards of trade of the mining towns failed to bring the two parties together. It is said it was all brought about by both sides seeing that the proceedings before the commission would be interminable and that in the intermingling of the lawyers for both sides the outside agreement proposition was broacaed and taken up.

It can not be officially stated which party made the proposition first. The attorneys for both sides are averse to talking, but those who were inclined to say something differed in their statements. An attorney for one of the railroads said it came from the miners' side, while one lawyer for the miners said it was a "spontaneous" proposition. It is generally believed, however, that the operators were the first to make the proposition. Wayne MacVeagh, who carried on such a brilliant cross examination of President Mitchell, is given credit for bringing about the present situation. He went to New York after he finished with Mr. Mitchell and had a conference with certain persons connected with the coal industry, among them, it is reported, J. P. Morgan. He was in New York Friday in connection with the matter.

The commissioners were informed of the new turn of affairs Thursday night, and acquiesced in the proposed arrangement.

It was agreed Friday night by the miners' representatives and the attorneys for the coal companies to ask the commission to adjourn Saturday until Wednesday, December 3. It is likely the request will be granted.

HAVANA CIGAR MAKERS STRIKE.

Typographical Union Has Called Out Its Members in Sympathy.

Havana, Nov. 22.—Chief of Police Cardenas, who was removed from his post by the mayor of Havana Thursday for ordering the police to disperse the striking cigar workers against the mayor's orders, has made an appeal to President Palma for reinstatement.

No disturbance was created by the strikers Friday. The typographical union has called out all its members in sympathy with the cigar workers and a general suspension of the newspapers is expected Saturday.

Col. Thos. Ochiltree Dying.

Hot Springs, Va., Nov. 22.—Col. Thomas Ochiltree is critically ill here of heart trouble. There is no hope for his recovery. He was sent here a fortnight ago from New York in the hope that the change would be beneficial, but he came too late. The heart trouble is a result of pneumonia contracted a year ago. Col. Ochiltree is kept up entirely on heart stimulants. He has with him only a man servant and a trained nurse.

PEACE IS RESTORED.

The Long Revolution in Colombia is About Ended.

Panama, Nov. 22.—Consul General Gudger landed from the Wisconsin at 4 o'clock Friday afternoon bringing the news that a treaty of peace has been signed Friday afternoon by the revolutionary general, Herrera, and the government commissioners.

The principal points in the treaty of peace, which has now been signed by Minister of State Perdomo, specifies that Gen. Herrera shall hand over to the government the entire revolutionary fleet, consisting of the gunboats Padilla, Darien, Gaeten and Boyaca. All the war elements of the insurgent arises in the provinces of Cauca and Panama and the arms and ammunition captured at Agua Dulce are also to be surrendered. The government will pay the sum necessary to return the soldiers of the revolution to their homes.

Once peace has been declared, the Colombian congress will decide regarding the laws for the Panama canal and the elections, and also the paper money question, as this is the wish of the president and of the whole nation.

Panama, Nov. 24.—The Star and Herald says that at the conference on board the Wisconsin a distinguished son of Uncle Sam, Rr. Adm. Silas Casey, acted as a mediator and peacemaker, which conduct, it remarks, reflects great credit on a nation whose motives for doing good are too frequently disparaged.

Adm. Casey in a brilliant speech extended to the negotiators his heartfelt good wishes, highly praising them for their judgment and patriotism and their arrangement of such an extremely delicate matter. Gen. Cobas, chief minister of State Perdomo's staff, who spoke in good English, made an eloquent reply to this speech and in the name of Colombia thanked the gallant admiral for the hospitality and attention the negotiators had received on board his flagship and also for his generous intervention in the arrangement to bring about peace in that zone of Colombian territory.

Troops already are being sent away. Nearly one thousand men left Sunday night for Barranquilla. Ar soon as the revolutionary gunboat Padilla arrives here the troops in the Caucau province will be sent to Buenta Ventura, on the bay of Choco.

Gen. Herrera and his secretaries have arrived at Agua Dulce, accompanied by a government commissioner bringing the news of the conclusion or peace to the gunboat Bogota in order to prevent a fight with the Padilla should they meet Gen. Salazar. The governor of Pansma has set all politi cal prisoners at liberty.

CHOLERA IS SPREADING.

Quarantine Increases the Suffering Among the Moro Towns.

Manila, Nov. 24.—The cholera is spreading among the Moro tribes on the west coast of Mindanao and there is much destitution among the people. Quarantine increases the suffering by stopping work and the movement of supplies. Gen. Davis has telegraphed to Gen. Sumner directing the distribution of food supplies to the sufferers in the infected and quarantined towns. The disease is disappearing from this city.

DYNAMITE OUTRAGE.

A Saloon in Mahanoy City, Pa., Wrecked Early Sunday Morning.

Mahanoy City, Pa., Nov. 24.—The most destructive dynamiting outrage that has occurred in the coal regions since the strike began was perpetrated here at 5 o'clock Sunday morning.

The dynamite with fuse attached was placed on the bar of the saloon of Christopher Portland. The front part of the building was blown across the street and the adjoining buildings on either side were badly wrecked. Windows were broken in every house in the square.

Portland and the other members of the family were sleeping on the third floor and escaped serious injury, although all were thrown from their beds. Portland's two sons are nonunion men and worked during the strike.

A Break For Liberty.

Knoxville, Tenn., Nov. 24.—While one prisoner held the jailer six others escaped from jail at Dandridge, Tenn., late Sunday night. John Perry was the man who seized Jailer Fuller and in the struggle was unable to escape himself, although the others successfully got away. Lant Wright, one of the men who escaped, was in jail on the charge of housebreaking with intent to commit criminal assault. Officers with bloodhounds are scouring the country.

WAS SHOT FOUR TIMES

Son of United States Minister Killed Wm. Fitzgerald.

The Shootist Was Accompanied at the Time of the Killing By Jamse G. Bailey, the Secretary of the Legation.

Washington, Nov. 22.—The state department has been informed that Godfrey Hunter, Jr., son of the United States minister at Guatemala City, Friday shot and killed William Fitzgerald, of Grand Rapids, Mich. Hunter has taken refuge in the legation and an interesting question has arisen as to his exemption from arrest.

Important details are lacking in the report of the affair, which has come to the department and the officials are in doubt as to what should be done. They have no notion of surrendering without protest an American citizen to the local courts of Guatemala, unless satisfied that the man is a proper subject for punishment. Even then it is not at all certain that the department itself has the right to waive any legal exemption that the man might have. International law lays down the precept that an ambassador or minister may not of his own accord surrender any such exemption in his own case.

A closer inspection of the original advice reveals the fact that the only name by which the man was known was Fitzgerald; he has not the Christian name of William, as was supposed at first. He was shot four times. Another important fact developed was that young Hunter was accompanied at the time of the shooting by the secretary of the legation. This official is set down in the register as being James G. Bailey, of Kentucky, who went to his post in June, 1901. The cablegram also, rather by suggestion than by direct statement, gave ground for an inference that the killing was provoked.

Louisville, Ky., Nov. 22.—Godfrey Hunter, jr., is well known in Louisville. He is about 25 years of age and has acted as his father's private secretary at the legation in Guatemala for some time.

Young Hunter figured in a social affair in Louisville which was extensively aired about a year ago. Dr. Hunter and his son came to Louisville last winter. Young Hunter was taken seriously ill while here and for a time his life was despaired of.

James G. Bailey, secretary of the legation, is about 35 years old and his home is thought to be at Middlesboro. He was a candidate six years ago on the republican ticket for clerk of tae court of appeals, but was defeated.

Fitzgerald, whom young Hunter shot and killed Friday, made charges about a year ago against Dr. Hunter. He criticised sharply the way in which Dr. Hunter conducted his office, and made some serious reflections on the minister. Fitzgerald while on a trip to this country, gave out an interview at New Orleans in which he scored Dr. Hunter and young Godfrey severely. He announced that he would prefer charges against Dr. Hunter at Washington, but the matter was never taken up by the state department.

A LARGE ESTATE.

The Will of Former Congressman Felix Campbell Filed.

New York, Nov. 22.—The will of former Congressman Felix Campbell, of Brooklyn, disposing of an estate estimated at $7,000,000, was filed for probate Friday in the surrogate's office of Kings county. A bequest is made to Bishop Charles B. McDonnell, of $70,000 for application to the building fund of the Roman Catholic cathedral of the Immaculate Conception in Brooklyn. The bulk of the estate is devised to the testator's wife and four daughters.

THE THREE I LEAGUE.

Terre Haute and Evansville Allowed to Withdraw.

St. Louis, Nov. 22.—The Three I Baseball League adjourned Friday afternoon after having unanimously voted to allow the Terre Haute and Evansville (Ind.) clubs to withdraw from the league. These clubs, it is stated, will join the Interstate League that is being revived. A special meeting will be called by President Sexton probably in January to fill the vacancies caused by the withdrawal of the two clubs named to elect a president.

McLean's Automobile.

Washington, Nov. 22.—Arthur McArthur Washburn, of Ohio, a guest here of John R. McLean, started out for a short spin in McLean's $1,000 automobile. The machine became unmanageable, slipped into a rut and turned turtle. Mr. Washburn barely escaped being crushed. The batteries were jarred out of place, and a strong electric current set fire to the frame work of the machine, which was destroyed.

Wages Increased.

Omaha, Neb., Nov. 22.—The Burlington & Missouri River railroad increased the wages of the switchmen of its system to the Chicago scale. The Illinois Central road also advanced the wages of their switchmen to the same scale.

Call For New Bids.

Washington, Nov. 22.—The post office department Friday issued the fourmal call for new bids for the contract for installing pneumatic tube mail service in Chicago, using January 1 as the date for opening the bids.

The Blood.

The blood is life. We derive from the blood life, power, beauty and reason, as the doctors have been saying from time immemorial. A healthy body, a fresh appearance, and generally all the abilities we possess depend on that source of life. It is, therefore, the duty of every sensible man to keep the blood as pure and normal as possible. Nature, in its infinite wisdom, has given us a thermometer indicating the state of the blood, which appeals to our reason by giving notice of its impurity. Small eruptions of the skin, to which we scarcely pay any attention, headache, ringing noises in the ears, lassitude, sleeplessness, are generally a sign that the blood is not in normal state, but is filled with noxious substances. These symptoms deserve our full attention. If more attention were paid to these symptoms and steps taken to remove them, then many illnesses from which we suffer would become unknown, and the human body would become stronger and healthier. Attention, therefore, should be paid to those warning signs, and the blood can be purified and poisonous substances removed from it by the use of Dr. August Koenig's Hamburg Drops, discovered more than 60 years ago.

Lost in the Park.

A man had been absent for some time, and during his absence had raised a pretty luxuriant crop of whiskers, mustache, etc. On returning home he visited a relitive, whose little girl he was very fond of.

The little girl made no demonstration toward saluting him with a kiss, as was usual.

"Why, child," said the mother, "don't you give Uncle Will a kiss?"

"Why, ma," returned the little girl, with the most perfect simplicity, "I don't see any place!"—Washington Times.

Many women and doctors do not recognize the real symptoms of, derangement of the female organs until too late.

"I had terrible pains along my spinal cord for two years and suffered dreadfully. I was given different medicines, wore plasters; none of these things helped me. Reading of the cures that **Lydia E. Pinkham's Vegetable Compound** has brought about, I somehow felt that it was what I needed and bought a bottle to take. How glad I am that I did so; two bottles brought me immense relief, and after using three bottles more I felt new life and blood surging through my veins. It seemed as though there had been a regular house cleaning through my system, that all the sickness and poison had been taken out and new life given me instead. I have advised dozens of my friends to use **Lydia E. Pinkham's Vegetable Compound.** Good health is indispensable to complete happiness, and **Lydia E. Pinkham's Vegetable Compound has secured this to me,"** —Mrs. LAURA L. KRUPP DIED SUDDENLY

Great Gun Maker Taken Off By a Stroke of Apoplexy.

The Funeral Has Been Fixed For Wednesday.—Mrs. Krupp Was Brought From Jena to Essen in a Special Train.

Berlin, Nov. 24.—Herr Krupp, the great gunmaker and the wealthiest man in Germany, died suddenly from apoplexy Saturday at his villa in Hueguel.

Moderate estimates of the fortune of the deceased place it at $125,000,000, and his annual income during his recent years of prosperity at $10,000,000.

The first assumption that Herr Krupp committed suicide is yielding to precise and abundant testimony to the contrary. Prof. Binswanger, a physician of the highest reputation, was in the apartment adjoining Herr Krupp's sleeping room when he was stricken on Saturday morning, and Dr. Pahl, Herr Krupp's family doctor, also was in the house. They summoned several other physicians and it is regarded as being beyond belief that all of them should have connived at a concealment of the cause of death which they ascribed to a stroke of apoplexy, induced, they add unofficially, by mental excitement from which Herr Krupp was suffering.

Herr Krupp's medical history for several years past indicates that he was in delicate health. He was asthmatic, had a weak heart and was subject to fainting spells. He fell to the ground unconscious while in Genoa several years ago and again while at dinner at a hotel here 18 months ago. He had been warned to avoid over fatigue and worry. He was at Hamburg Thursday last and at the Hamburger Hof it was observed that he was in a highly nervous condition, and scarcely in control of himself. His condition accounted for the presence of two physicians in the house at the time of his death, one of them being Prof. Binswanger.

Mrs. Krupp was sent for from Jena. She is suffering from a nervous malady, but was brought to Essen in a special train, arriving there Sunday morning. The funeral has been fixed for Wednesday. Chancellor von Buelow, all the ministers and a great number of other officials, following the example of the emperor, have telegraphed their condolences to the widow.

Herr Krupp's father started the system of modern dwellings for the working man as a matter of expediency and Herr Krupp himself appears to have developed them from conviction and in accordance with his ideals. He owned 5,469 dwellings, each, to whatever group it belonged, being constructed with variations in the architecture to avoid monotony. Each house had a front yard in which were bits of ornamental gardening; the outside coloring and the interior decoration gave a certain aesthetic unity, while there was plenty of space and light.

Herr Krupp had also a variety of institutions, some of them rather singular, such as "Bachelors' homes" and "Widowers' retreats." Besides convalescent hospitals and orphanages he had a pension fund for his employes amounting to $4,125,000. He contributed last year as required by law $372,000 to the national insurance fund and gave voluntarily $4,080,000 to other insurance funds. Notwithstanding his benevolent interests he was an autocrat in the management of his concerns.

CHOSEN FOR ANOTHER TERM.

The Officers of the American Federation of Labor Re-Elected.

New Orleans, Nov. 24.—The following officers were elected by the American Federation of Labor. Without exception they are hold-overs from last year, the fraternal delegates not being classed as officers: President, Samuel Gompers; first vice president, James Duncan; second vice president, John Mitchell; third vice president, James O'Connell; fourth vice president, Max Morris; fifth vice president, Thomas L. Kidd; sixth vice president, Dennis A. Hayes; treasurer, John B. Lennon; secretary, Frank Morrison; fraternal delegates to the next labor convention of Great Britain, Max S. Hayes and Martin Lawler; fraternal delegate to Canada, John Coleman.

John Dillon Ill.

Chicago, Nov. 24.—John Dillon, the well-known Irish leader who came to Chicago to address a meeting here Sunday night in celebration of the Manchester martyrs' anniversary, was taken suddenly ill Sunday and was unable to appear at the meeting. While driving Sunday Mr. Dillon suffered a chill, which was followed by a high fever Sunday night. His temperature was 104. The attending physician gave out the information that while Mr. Dillon is not seriously ill he will be confined to his room for several days.

KILLED HIS KEEPER.

An Elephant Became Insane After Being in a Wreck.

Savannah, Ga., Nov. 24.—Gypsy, the big elephant belonging to Morris' Nickel Plate shows, and which injured its keeper in winter quarters in Chicago several years ago, went crazy six miles from Valdosta Saturday afternoon and killed her keeper, James O'Rourke. The circus train had been in a wreck at Tifton earlier in the day, when several of the animal cars were wrecked and two or three trained horses killed. The elephant, Gypsy, was in a highly nervous state when the train pulled out for Valdosta, the next show point. Six miles out from that town Gypsy became so noisy and restless that O'Rourke entered the car as the train stopped at a small station to try to quiet her. Immediately the mad brute attacked the man and crushed his life out against the side of the car. O'Rourke, for some reason, did not close the door of the car after him, so, after killing her keeper, Gypsy escaped to the woods. Her absence was noted before the train left the station, and a hunt was organized. The big beast was shot a number of times before she succumbed to rifle bullets in the brain.

O'Rourke's body was taken to Valdosta Sunday afternoon, being taken to the cemetery in a circus wagon drawn by six horses. His home was in New Orleans, where he has a wife and family. The skin and bones of the elephant have been saved. Twelve men buried the mountain of flesh Sunday in the woods where Gypsy was killed.

THE COMING CONGRESS.

Senators and Representatives Are Beginning to Arrive in Washington.

Washington, Nov. 24.—Senators and members of the house of representatives are beginning to arrive in Washington preparatory to the meeting of congress a week from Monday. Most of the leaders will be here during the early part of the week, as the president desires to confer with them before putting the finishing touches on his message.

Speaker Henderson expressed the opinion in an interview Sunday night that there would be little legislation at the coming short session aside from the passage of the appropriation bills. He added, however, that the president would have the first inning. The speaker to some of his earlier callers expressed his belief that a constitutional amendment would be the only method of dealing with the trust question.

THE STANTON MINE.

It Has Been Cleared of Water and Mining Will Be Resumed.

Wilkesbarre, Nov. 24.—The Stanton mine of the Lehigh and Wilkesbarre Coal Co. has been cleared of water at last and will be ready to resume operations in a few days. During the high water last March the lower workings of the colliery were submerged and before it could be pumped out the strike came on. This left the mine at the mercy of the water. When the strike was declared off a large force of experienced men were put to work and they finally succeeded in pumping all the water out. The colliery employs 700 men and boys and the resumption of work will add 700 tons to the daily output of coal.

WAR SHIPS GATHERING.

United States' Warning to All the Powers in Europe.

Washington, Nov. 24.—The greatest war fleet ever assembled under the American flag is gathering in the Caribbean sea. More than 50 ships of war compose the fleet.

More than 15,000 men will be engaged in the war game.

The mobilization of this great war fleet at this time is regarded by foreign diplomats here as America's warning to all European powers of her ability and readiness to defend any application of the Monroe doctrine that she may make, to impress upon the world her political and commercial supremacy in the "American Mediterranean" and to demonstrate her absolute power of control over any interoceanic canal that may be built.

Three Men Lost Their Lives.

Ashland, Wis., Nov. 24.—Only three men lost their lives in the fire that destroyed the Wisconsin Central ore docks here Saturday. Those who jumped into the bay were rescued or swam ashore, while many workmen who appeared to the onlookers to be cut off by flames from possible escape managed to reach places of safety.

Locomotive Boiler Exploded.

Pittsburg, Pa., Nov. 24.—One man was killed and seven others seriously injured by the explosion of a locomotive boiler at Thompson, on the Monongahela division of the Pennsylvania railroad. John Markovisch, of Duquesne, a trainman, was the man killed.

Schooner Sunk.

St. Johns, N. F., Nov. 24.—The British steamer Damara, from Halifax for Liverpool, while entering port, collided with and sank the schooner Shamrock, laden with 500 quintels of codfish. The schooner's crew was rescued by the steamer.

One Killed and Several Injured.

Charlotte, N. C., Nov. 24.—At 2:30 Monday morning information reached here of a wreck at Spartanburg, S. C., in which one was killed and several passengers badly injured. The train collided with freight cars.

THE TARIFF REFORMERS.

With Their Hands Tied by the Party Machine Can Accomplish Nothing.

A majority of the voters in a large number of congressional districts in the western states have been buncoed into believing that the members of congress they have elected will vote to amend the tariff law and control the trusts. The candidates promised that if a republican majority was elected the tariff and trust issue would be settled by those who are the friends of protection and there would be no disturbance of business. Some of these republicans who have been elected to congress on the faith in their promises were no doubt sincere and will strive to carry them out, but that they will accomplish any such results is out of the question. Those candidates who have been reelected to congress and have had experience in the workings of the ruthless machine, must have known that any such promises were worthless and were only given to once more fool their constituents into reelecting them. That this is a fair statement of facts is certain when it is considered that congress is run by a majority of the dominant party and that individual congressmen have no opportunity given them to even have their ideas considered unless the party managers think such are desirable.

When the next congress meets in December, 1903, the caucus of the republican members will decide who is to be speaker, he will appoint the committees, and if the majority shall decide that the tariff is not to be reformed, the speaker will carry out their wishes. He will appoint a committee on ways and means, to whom any tariff bill must be referred, who will all be reliable protectionists, and who believe that nearly all the trusts are good trusts, and should be aided rather than hindered in their career of piling up profits at the expense of the people. The republican congressman who believes in tariff reform, to any extent, will be helpless. He may introduce a bill, like Mr. Babcock did in the beginning of the present congress, to reform the iron and steel schedule, but it will be buried, like that notable production in the grave of tariff reform hopes—the ways and means committee. If our new congressman is insistent to have his bill considered, which, like Mr. Babcock, he will probably not be, all will be serene, he will be favored in other matters, so that his constituents may be partially satisfied. If he demands that his, or some similar bill, be considered and reported so that he may have an opportunity to record his vote, and thus show his sincerity to his constituents, he will be put off from participation in all the inside advantages of belonging to the majority party, and be treated much more discourteously than the members of the democratic minority. Only in the almost impossible event of enough republican members joining with the democrats to make a majority and then voting to order the committee on ways and means to report a bill to amend the tariff law, will it be possible to have a yea and nay vote recorded on such a proposition.

It will be interesting to watch the actions of those republican congressmen from Iowa, Minnesota and other states that have succeeded in deluding their farmer constituents into believing that the tariff will be revised by its friends.

If the people of any congressional district want the tariff revised they must bring pressure to bear on the congressman they have elected to compel him to carry out their wishes. It will require a good deal of backbone for a republican congressman to stand up and fight for even trust productions to be placed upon the free list.

Barbed wire being the production of the steel trust, and selling in Europe for two-thirds less than the trust sells it to the American farmer, would seem to fix the status of the steel trust as a bad trust. If the republicans are sincere in their expressed determination to remove protection from bad trusts, the steel trust productions would be a good place to begin by lopping off the 40 per cent. protection the tariff law now gives them.

OPINIONS AND POINTERS.

—If the new house of representatives is republican, that is all right. The republicans will have the full responsibility for the national government, during the next two years, and it is but right and proper that they should have full power to solve the many problems which, at the present time, call for solution in the popular interest.—Albany Argus.

—"There will be no difficulty in getting the contemplated anti-trust bill through congress this winter if the republican leaders will permit it. Democrats will offer no obstruction. All depends on the attitude of a few republicans. The question is whether or not their chronic servility to the monopolistic combines is to be abandoned.—Washington Post (Ind.).

—Republicans will have the next congress in both branches as they have the present one. If the republicans fail to put through whatever legislation they see fit it will not be on account of insufficient members in the party representation. There will be, as now, a republican administration, a republican senate and a republican house. Full responsibility will rest with the republican party, and should the country think it necessary to change the responsibility in 1904 it will be solely owing to failure of the party now in power to make satisfactory use of its opportunities.—Cleveland Plain Dealer.

MARK REPUBLICAN COURSE.

The Fun Will Begin When They Attempt to Revise the Tariff.

At last the tariff is going to be reformed "by its friends"—not right away, but as soon as it really needs it. Some of the duties which protect "bad" trusts must come off.

A beginning may be made with the duty on anthracite coal, which Secretary Moody says was "smuggled into the Dingley tariff bill in a sneaking and cowardly manner."

Undoubtedly the president, in his message to congress, will recommend that this smuggled duty be taken off, and as the duty on soft coal protects the coal trust, or trusts, far more than the duty on anthracite, he must, to be consistent, recommend that all coal be put on the free list.

Then the fun will begin, as it always has begun when the republicans have attempted to revise the tariff downwards—and indeed by revising it upwards.

The trusts will send agents to Washington. These will appear before the ways and means committee, or perhaps before a tariff commission, which the president will recommend. They will loudly proclaim the direful results that will follow even the slightest lowering of the robber duties. Each trust agent will gravely inform the commission or their commission (for heretofore the protected manufacturers have had their own way in all things) that his particular industry would be ruined, simply wiped off the earth, if the tariff is touched even by friendly hands. He will produce carefully prepared tables showing that in his industry day wages are twice as high in this country as in Germany or France and 60 per cent. higher than in England. He will put up a pitiful plea for "protection to labor" and "American wages for American workingmen." He will not explain how a tariff on goods—what the trusts have to sell—will protect labor—what the workingman has to sell. Neither will he explain why wages are higher in free trade England than in protected Germany or France, nor why our trust products, made by high-priced labor, are sold in foreign countries in competition with goods made by cheap labor. These details will not prevent him from making most positive assertions that the tariff protects the workingman and free trade would ruin him.

After a year spent in taking testimony from the protected manufacturers—the only ones who usually appear before such a committee—the commission will, unless the agitation for revision becomes very acute, calmly decide that the tariff protects labor more than the manufacturer, and that it is should be removed; and fourth, good or bad.

In this way one or two years' time will be gained by the protected manufacturers, and perhaps by that time another war will be launched, and will divert the people from the tariff question.

It is hard to beat the protected trusts.

THE COMING CONGRESS.

Democratic Gains Attest Dissatisfaction of the People in Industrial Centers.

The verdict of the people plainly expressed in the vote for representatives is that congress must—

Put those products of trusts which are essential to the life, comfort and necessities of the people on the free list, and thereby prevent the further continuance of monopoly under the plea of protection, says the New York World.

In political complexion the new house is nominally republican by a margin of about 24 votes against a majority of 45 in the present house. But if such plain issues as putting coal and beef on the free list and reducing the steel schedule of the Dingley tariff could be properly presented, enough republicans would vote "aye" to overthrow their party in the house. The republicans from Massachusetts are pledged to tariff reform; Judge Birdsall, nominated in place of Speaker Henderson in the Third Iowa district, was accused by the democrats of stealing their platform to stand upon. In Michigan, Wisconsin, Minnesota, there is open revolt.

Rightly or wrongly, the leaders of the democracy in this campaign disagreed with Mr. Cleveland as to the necessity of "a continuous struggle." They did not want the house; they made no strenuous effort to gain it, feeling that its possession, with the president and senate republican, would be a barren embarrassment. But the people came near thrusting victory upon them against their will. In New York the democrats gain five votes and the republicans lose two, the delegation gaining three seats by reapportionment. Democratic gains of six votes in Pennsylvania, two in Maryland, two in California and one in Delaware further attest the dissatisfaction of the people in industrial centers with the party in power and give hope of victory all along the line in 1904 if democracy is steadfast to its time-honored principles.

—The demand for tariff revision is plainly not from any one party, nor from any one class of citizens; it is national in character and extent. The Dingley tariff has outlived both its usefulness and its popularity, except with that small fraction of the nation, the monopoly-mongers, who are pulling all the plums out of the pudding of prosperity, and who naturally agree with Senator Hanna that the situation is "well enough as it is" and should be "let alone." The tide of public opinion has plainly turned toward tariff reform.—Baltimore Sun.

STATE NEWS PICK-UPS.

THREE BOYS BADLY BURNED.

They Poured Powder on a Fire With Fearful Results.

Newport, Ky., Nov. 24.—Henry Dink, 15; William Andrews, 17, and Charles Lewis, 18, were horribly burned Sunday in a rather peculiar manner.

The trio had been out hunting, and, when near the Queen City race track on their way home, decided to build a fire. They kindled one, but it did not burn fast enough to suit them. They had a large flask of gunpowder, and with this they decided to accelerate the blaze, and did so. The gunpowder that they had sprinkled on the fire ignited and blazed up, enveloping the upper portions of the bodies of the three boys. Then the flames communicated to the flask, which exploded with a loud report, inflicting additional injuries and making their agony more acute.

Their cries attracted the attention of neighboring farmers, who took them to their respective homes, where they received medical treatment. Dink is the worst injured of the three. His face, arms, hands and neck are a mass of raw flesh. Andrews' hands and face are terribly burned, while Lewis' ears and eyes are badly injured.

KILLED HIMSELF.

Great Grandson of the First Governor of Kentucky Committed Suicide.

Lexington, Ky., Nov. 24.—At 3 o'clock Sunday morning George S. Shelby, aged 20, great grandson of Isaac Shelby, first governor of Kentucky, and a prominent society man, killed himself as he lay in bed with a revolver. He was subject to somnambulism, and relatives believe that he fired the fatal shot while in this state, his custom being to sleep with a pistol under his pillow. Temporary insanity from overwork is the only other theory.

He had accompanied a young lady to the theater Saturday evening, was in good spirits, and had several engagements for Sunday. He had no bad habits, and it is the consensus of opinion that the act was committed while temporarily irresponsible. He was division timekeeper in the employ of the Queen & Crescent railway. The family was at breakfast when the shot was heard.

WITHIN THREE MONTHS.

Mrs. Emma L. Clarke Twice Divorced From the Same Man.

Louisville, Ky., Nov. 24.—Twice divorced within three months is the record of Asa David Clarke and Emma L. Clarke. Mrs. Clarke obtained a divorce September 2 last. In the afternoon Clarke appeared in the county clerk's office and said: "I can't live with that woman and I can't live without her. I'm going to try her again. Give me another license."

The license was issued and the couple was married the same day. During the night Clarke disappeared, and his wife went to St. Louis in search of him. Clarke reappeared in this city, but said he remembered nothing of the second marriage, and refused to live with his wife. She returned to Louisville and filed suit for divorce. The second divorce was granted here Saturday. She alleged abandonment.

AN INSURANCE SUIT.

A Novel Point as to Time Involved in the Litigation.

Louisville, Ky., Nov. 21.—The Peaslee-Gaulbert Co., of this city, filed suit Thursday afternoon against 12 insurance companies for insurance aggregating $19,000. A novel insurance point is involved. Plaintiffs' warehouses were destroyed by fire April 1 last. They held $200,000 worth of insurance, all of which had been renewed, with the exception of $19,000. This expired at noon the day of the fire. The alarm was sent in at 11:55, standard time. The companies claim the policies expired at solar time, which would be 12½ minutes before the alarm was sent in.

Will Be Placed Under Guard.

Marion, Ky., Nov. 21.—George W. Sisco was indicted here Thursday charged with the murder of Miss Bertha Williamson. He will be brought here from Henderson Friday. Judge Nunn says he will place a guard of ten men in jail to protect the prisoner, but excitement is high, and there is danger of mob violence.

Died While Feeding Cattle.

Paintsville, Ky., Nov. 21.—Lafayette Preston, a highly respected farmer, living four miles north of here on Sandy river, went out to feed his cattle. While doing so he became speechless and died almost instantly.

Tobacco Growers Organize.

Mt. Olivet, Ky., Nov. 21.—Many of the tobacco growers met at the courthouse and laid plans for an organization among the growers of this county. State Manager Gaunt was here and stated the purposes of the organization.

Kentucky Rural Letter Carriers.

Washington, Nov. 21.—The following rural letter carriers have been appointed in Kentucky: Bowling Green—Robert A. Burton, C. E. Haner, C. W. Merritt, carriers; Harrell Baker, Clarence Swett, Hugh Tobin substitutes.

ADOPTED THE ORGAN.

In Consequence Rev. James W. McGarvey Withdrew From the Church.

Lexington, Ky., Nov. 24.—The withdrawal of Rev. James W. McGarvey, president of the Bible college of Kentucky university, from the Broadway Christian church, became final Sunday when that church by a vote of 361 to 202 adopted the organ as a part of the worship. He opposed it on scriptural ground, being noted throughout the denomination for his utterances against it. For 30 years the church, which he organized, and of which he was first pastor and always an elder, observed his wish, but weeks ago those favoring instrumental music demanded a vote. President McGarvey immediately demanded a letter transferring his membership to another city church, where there is no organ, conditional upon the vote Sunday. Two factions developed in the church, and the campaign was intense. Rev. J. W. Zachary, an evangelist, late prohibition candidate for congress, has also withdrawn, and Prof. Henry H. White, former president of Kentucky university, with some others, will leave the church when the organ is installed.

ARBONDALE STOCK FARM.

Perry Belmont Has Secured a Long Term Lease on the Property.

Lexington, Ky., Nov. 21.—Through his private secretary, Clarence Hall, Hon. Perry Belmont Thursday night secured a long term lease on J. C. Graves' Arbondale stock farm of 250 acres, three miles from Lexington on the Nicholasville road. His sires, Ethelbert and Magian, with ten brood mares arrived Thursday night and will be sent to the stud Friday. The horses came from Silver Brook stock farm in New Jersey, which has been bought of Lucian Appleby by C. Mackay. George Hughes will be manager of the stud. Mr. Belmont believes the blue grass best suited to horse breeding and he will maintain a stud here permanently.

DECISION DELAYED.

The Case Against the Southern Athletic Club at Louisville.

Louisville, Ky., Nov. 22.—Disappointment was great among the sporting fraternity here Friday morning when Judge Sterling B. Toney announced that he would not hand down his decision in the injunction suit of the commonwealth against Robert C. Gray and others until some day next week. It was expected that the decision would be forthcoming at the joint session Saturday.

Manager Gray and the sporting fraternity are very anxious to have the McGovern-Corbett contest pulled off here.

MIDGET AND HIS BRIDE.

Frank Lindsey, the Smallest Man in Kentucky, Married.

Paducah, Ky., Nov. 22.—Frank Lindsey, the smallest man in Kentucky, and Mrs. Mary S. English, both of Benton, Marshall county, were married there Friday by Rev. B. T. Hall. The groom is 33 years old, weighs 71 pounds, and is four feet high. His bride is 38, weighs 160 pounds, and is five feet six inches high. This was her fourth venture and his second.

Inherits a Handsome Fortune.

Lexington, Ky., Nov. 21.—By the death of Dr. William Mathews Friday at San Jose, Cal., Mrs. H. B. McClellan, of this city, will fall heir to a handsome fortune. According to the will just offered for probate Mrs. McClellan, a sister and a brother will divide the remainder of $250,000 after minor bequests are compiled with.

Railroad Not to Blame.

Lexington, Ky., Nov. 21.—Coroner Molloy held an inquest over the remains of Lewis S. Burgess, killed by a Georgetown-Lexington interurban electric car, and the jury decided that the death of Mr. Burgess was not due to any negligence on the part of the employes of the railroad company.

Want Vote on Liquor Question.

Georgetown, Ky., Nov. 22.—Having cut out the portion of Georgetown known as Boston, populated by colored people, the church people have filed a petition in the Scott county court to hold an election on the question of local option for the city January 23.

Natural Soap Found.

Cloverport, Ky., Nov. 20.—Natural soap in large quantities has been found several feet below the earth's surface in a field near town belonging to Mrs. J. Miller, of this city. Its cleansing and polishing properties are good.

Attempted Assassination.

Henderson, Ky., Nov. 24.—An unknown Negro attempted to assassinate J. Alves Deacon, son of ex-Senator Joe Dixon, with a knife. The cause of the attempt is believed to be the writing of an article some days ago in a local paper. Dixon was uninjured.

The Capital Stock Increased.

Hopkinsville, Ky., Nov. 23.—Articles of incorporation were filed here Friday increasing the capital stock of the Acme Mills Co. from $100,000 to $200,000 and changing the name to the Acme Mills and Elevator Co.

The following postal explains itself: "Enroute to Petersburg via C. N. O & T. P. Nov. 22, 1902. My dear Mr. Riddell:—A dear little minister of the Gospel came to our house bright and early on the morning of the 21st. We gave him an indefinite call.

Very Truly Yours,
EDGAR D. JONES."

Mr. and Mrs. Jones are receiving congratulations from their numerous friends.

A Startling Surprise.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for 10 years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the Kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50c. at W. F. McKim's, Burlington; J. G. Oelsner's, Florence; Union Drug Store Union; A. W. Smith's, Walton; O. N. Grant's, Bellevue.

The Walnut Street Baptist congregation in Louisville but recently dedicated a $140,000 church edifice, one of the handsomest church buildings in the South. The memorial windows are pronounced the most beautiful in this part of the county. The north window space, twelve feet by twelve, is entirely taken up by Mr. Samuel Buchanan's memorial to his wife, who was Miss Carrie Johnson, daughter of the late Thomas P. Johnson, of Big Bone, this county. The design follows out a conception of Mr. Buchanan brought out by the text of a funeral sermon preached by Dr. Eaton. On the narrow windows placed on either side of the central design are the words of the text: "Yea, though I walk through the valley of the shadow of death I will fear no evil, for Thou art with me." The center design shows two figures. A woman of singular beauty both of face and expression, seems to be walking through a dark valley. All about is blackness in which the purple robe of the victorious Christian shows forth resplendant. The woman's eyes look straight ahead of her, where stands an angel clothed in white and with one arm extended pointing ahead.

THEDFORD'S BLACK-DRAUGHT FOR CONSTIPATION

Constipation is nothing more than a clogging of the bowels and nothing less than vital stagnation or death if not relieved. If every constipated sufferer could realize that he is allowing poisonous filth to remain in his system, he would soon get relief. Constipation invites all kind of contagion. Headaches, biliousness, colds and many other ailments disappear when constipated bowels are relieved. Thedford's Black-Draught thoroughly cleans out the bowels in an easy and natural manner without the purging of calomel or other violent cathartics.

Be sure that you get the original Thedford's Black-Draught, made by The Chattanooga Medicine Co. Sold by all druggists in 25 cent and $1.00 packages.

Morgan, Ark., May 25, 1901.
I cannot recommend Thedford's Black-Draught too highly. I keep it in my house all the time and have used it for the last ten years. I never gave my children any other laxative. I think I could never be able to work without it on account of being troubled with constipation. Your medicine is all that keeps me up.

BOONE COUNTY RECORDER.

VOL. XXVIII. BURLINGTON, KENTUCKY, WEDNESDAY, DECEMBER 3, 1902. NO. 7.

County Correspondence.

GUNPOWDER.

Dec. 1.—A large crowd attended Mr. Buffington's sale last week, and every thing sold for a good price.

W. H. Rice and wife were guests of B. H. Snyder, last Sunday.

Spencer Rouse and family attended church at Pt. Pleasant last Sunday.

All who had turkeys in market Thanksgiving received satisfactory prices.

R. O. Beemon and wife and Lon Acra and wife honored the writer with a visit, last Sunday.

The cold, wet weather of last week set the farmers back somewhat with corn gathering, etc.

B. L. Rouse was here last week and left some special invitations for some of the boys to come to Burlington next week.

A wood strike was on here last week, and Lee Wingate and Rex Riley could be heard striking early and late—they used the ax.

A pretty good specimen of winter weather here last Sunday. Snow fell until about noon, but the sun came out and it all disappeared before night.

Nearly everybody in this neighborhood is ready to kill their hogs, and if the weather continues cold there will be a great many hogs butchered this week.

D. I. Tanner, who is teaching at Visalia, Kenton county, was visiting his parents Saturday and Sunday. He reports his school progressing nicely with 60 pupils.

COMMISSARY.

Nov. 29.—Wm. Slayback spent Sunday with his brother in Erlanger.

Miss Lizzie Rogers was a guest of the Misses Ryle, Sunday last.

Ransome Ryle and wife were visiting, last Sunday—Ransome visited his father, and his wife her sister, Mrs. Weidicke.

James Rogers and wife, Otho Rogers and wife were guests of W. B. Walton and wife, last Sunday.

T. Z Roberts, Misses Sadie Marshall and May Cason were visiting relatives over in Indiana, Friday and Saturday.

Commissary was out calling, Sunday, and called on Rolen McCarty and Richard Louden on the pike, Tim Sandford in Bellevue, John Presser and James Louden in McVillie.

Bert Parsons came down from Cincinnati, Monday, to visit father, mother, and wife, and returned Wednesday. He has a steady run now, but the wages are low but better than nothing.

Charley and Ed Sandford, of Bellevue, have purchased a large skiff and will carry passengers from Bellevue to Rising Sun. They are deserving young men and solicit your patronage.

Ed Burres will give points of the weather during Billy Slayback's layoff. Ed says, "Watch poor people's wood yard, and when there is two or three loads of wood in the yard, there will be nice, pleasant winter weather; but when their wood yard gets so low that there is only wood enough to burn until bedtime, and build the morning fire, it will be raining the next morning and rain for three or four days, or there will be snow from 6 in. to 1 foot deep and cold enough to freeze the door off the hinges."

Two or three weeks ago I heard a lady say, "I intend to renew my subscription to the Recorder and begin the first of Jan. 1903, to keep my papers nice and clean and lay them away until the end of the year and then bind or have them bound in book form." This is a wise thing to do, and others should follow her example. The persons who doe this will have a record of births, marriages and deaths all over the county; besides many other things of which there should be a record kept.—After two or three years much of the reading will be as interesting as when first read.

I wish to say to those that are not taking the Recorder to do so between now and the beginning of the new year. Give your subscription to Commissary and the paper and receipt for the money will be promptly sent you. There are men in Boone county that provide plenty for their families to eat, and yet they are starving—starving for something to read. Don't let this be said of you. Remember the mind must have food as well as the body, and the Recorder contains the nourishment needed.

IDLEWILD.

Mrs. Bertha Davis has moved to Ludlow. We will surely miss her very much.

C. E. Stephens has moved to James T. Gaines' place here.

One of the recent wedding parties enjoyed a big dinner at Mr. Wolfers'.

John Cropper and R. C. Gaines and wife visited in Union, a few days since.

Our village is increasing in population, Richard Acra and family being the most recent addition.

Some reckless boys knocked the glass out of Tom Delph's windows with stones, one night last week.

Mrs. J. A. Kirtley entertained some of her friends very handsomely at a turkey dinner, last Thursday.

James T. Gaines, our good friend and neighbor, has gone to Denver, Colorado. He takes with him the best wishes of all.

The rains and high winds of the past week warns us of the approach of winter, after the most delightful fall ever known here.

Several about here took advantage of the recent favorable weather, and killed their hogs, and the menu now is sausage and hominy.

A son of Will Strader, colored, who lives with the Stephens boys near here, was thrown from a horse, a few days since, and rendered unconscious, but it turned out that he was not seriously hurt.

For Rent—3½ acres of land and house of 3 rooms. H. C. McNeal, Constance.

GASBURG.

Dec. 1.—The river is in fine boating stage.

Mrs. Willie Burris was very sick the latter part of the week.

Scott Chambers sold 22 fat hogs in Cincinnati at $6 35 per hundred.

But one crop of tobacco has been sold here to date, 6cts was the price.

Frank Parker, of Cincinnati, spent thanksgiving with his parents here.

Your correspondent sold his famous race horse A. B. C. to Scott Chambers.

Ben Berkshire has stripped and is prizing his crop of 10,000 lbs. of tobacco.

The two Frank Hartmans made a business trip to Burlington, Wednesday.

Abe Epstein has kept a clothing store in Aurora continuously for 35 years.

Arthur and Elijah Parker have been invited to attend the next meeting of the United Daughters of the Confederacy in Covington and be decorated with the Southern Cross of Honor, for meritorious services in the Confederate army, and fidelity to the Southern cause.

BUFFALO.

Nov. 29.—Hog killings were all the go this week—two and three a day in this vicinity.

Died, on the 27th inst, the infant child of Joe, and Mary Love.

Miss Percie Ryle spent last Monday night with T. J. Stephens and family.

Arch Rouse and wife attended the Rue and Smith wedding, last Wednesday.

Mrs. Lou Neal and Mrs. Grace Clore spent last Wednesday with Mrs. Daisy Presser.

Mrs. Fannie Adams will spend the winter with her father and mother at this place.

Mrs. J. Q. Elston and Miss Bertha Shinkle were visiting Mrs. Nathan Clement's, last Friday.

Mr. Stevenson, the Erlanger tobacconist, paid this burg a visit and bought several crops of tobacco, last Friday, including P. P. Neal's, Claud Ryle's and Robert Wood's. Prices, 7, 6 and 4 cents.

HATHAWAY.

Dec. 1.—Killing hogs is the order now.

Raymond Smith had a tobacco stripping, Friday.

Your pencil shover lost a valuable bow, one day last week.

Hart Williamson killed 3 Mallard ducks on Gunpowder, one day last week.

S. H. Marshall, E. C. Franks and Oath Hubbard, hutchered their hogs last Friday.

Jno. S. Mason was over on Woolper, last Wednesday, to view Jas. Setters' new mill. He is thinking of purchasing one soon.

A. O. Rouse and wife attended the wedding of Irvin Rue in the Bellevue neighborhood, last Thursday.

A drummer representing Pratt's food, of Philadelphia, visited our burg, rested, and sold a stock to Houston and Weaver.

James White, of near Burlington, attended the Utz—Bristow sale last Friday week, and spent that night with his parents on Gunpowder.

W. L. Presser and wife, and Mrs. Emily Presser, called on H. C. Presser, of Latonia, Friday, and took him a load of farm produce, which Hal was glad to see coming.

Mrs. Lou Neal and daughter, of Buffalo, Mrs. G. L. Smith, Cynthia Mason, Mrs. Nan B. McElroy and Mrs. Nannie Franks, of this neighborhood, were pleasant guests of Mrs. W. L. Presser, last Wednesday.

While Nathan Clements was catching a large turkey gobbler one night last week off of a building, it tried to make its escape by flying off, when it pulled Mr. C. off also; but it did not carry him far until they came to the ground safely.

Mrs. W. B. Horten, of Beech Grove neighborhood, who has been confined to her couch of pain, for several months past, died, last Friday, at 2 o'clock p. m. She leaves a husband and 6 grown children, to mourn her death. The remains were taken to Big Bone, last Sunday, interred in the cemetery there. She was a member of Big Bone Baptist church, and a devoted christian woman

VERONA.

Dec. 1.—Owing to inclement weather Thanksgiving services were not held here as expected.

Mrs. Dr. O'Neal and daughter, Mrs. Stella Hubble, were entertained by Mrs. J. Showers, last week.

Butler Myers, who has accepted a position as fireman on B. O. R. R., is at home for a few days.

Clarence Kemper, of Glencoe, was calling on his best girl here last Sunday, Miss Lethia Callahan.

Miss Jennie Smith, of Walton, was the pleasant guest of Miss Blanch Roberts, Thanksgiving day.

We were sorry to hear of the sudden death of Dr. A. E. Robinson, of Covington, who died of heart trouble.

Next Monday circuit court will begin and some of the boys are preparing to have business elsewhere, while court is going on.

C. Figg sold two hogheads of new tobacco on the Cincinnati market, last week, at the following prices: 1 hogshead, of trash, $7 05; 1 hogshead, of tips, $8 40 per 100 pounds.

Wm. Sparks' son, Joe, has been confined to his bed for several days with a very peculiar ailment, thought by many to be hydrophobia. The young man has to be kept tied, and when a fit comes on he snaps, growls and barks. Joe was bitten by a dog 7 years ago, and afterwards the dog went mad and was killed. The physicians here are watching the patient closely, but have not pronounced the case hydrophobia.

BEAVER.

Nov. 30.—Mrs. B. B. Hume and daughter Maud, who were visiting Mrs. Hume's brother, and family in Frankfort, thanksgiving, returned home last Friday.

Lee Snow and wife of Cincinnati, were visiting at John Snow's, last Sunday.

The rainy season has "not in" here, and while many are delighted with it, there are others—who are never satisfied.

Neal Morris, who has been spending the present year in Ohio paid his cousin Robert Litterall and family a visit last Sunday.

Rev. H. R. Mills has returned home from a visit to Standford, Lincoln county, where his wife is seriously ill at the residence of her parents. He attended the meeting of the Epworth League at Paris enroute home.

Since the temporary cessation of the bird law our sportsmen, with gun and dog, have begunto exterminate the toothsome quail; and the appearance at present indicates that their labor will be crowned with abundant success.

G. Washington Roberts, who resides at Mount Zion, Grant county, stayed all night with his old friend, B. B. Hume last Saturday night, but owing to very pressing business down on Middlick creek left at an unusually early hour Sunday morning.

Your humble cumtumble is under many thauks to Mr. and Mrs. A. A. Roter for a chair at their festible board Thanksgiving. A fine turkey was served in elegant style, with all the delicacies of the season. Besides Mr. Roter and family there were present Will Wilson, B. B. Hume, and Mrs. Judge Roter and your grateful scribe.

Mrs. T. J. Hughes presented Hughes chapel with a magnificent gift last week in the form of an Acetylene Gas Plant. The chandelier employed in hanging the light is artistically decorating and very beautiful, emitting a powerful light of exquisite brilliancy and lending altogether an excellent appearance to the chapel at night. The entire plant cost about $75, and is only one of the many recent expressions of Mrs. Hughes' beneficent church work.

Deputy Sheriff B. B. Hume returned home Saturday night from Covington, via Burlington, where he deposited, for safe keeping, two young gentlemen named Robert Adams, whom he apprehended in the city. They are reported to have acted in a very unbecoming manner at the store of Mr. G. B. Miller at Big Bone Springs Thanksgiving night. They had in their possession, when captured, some goods which Mr. Miller, claims had been surreptitiously procured at his place of business. The accused are young men of good family and their untoward act on this account is deeply regretted by the many friends of their aged parents.

Mrs. Ailie Dempsey, wife of Patrick Dempsey, of Hume, died November 22nd, at the hospital in Cincinnati, where she had been taken for a surgical operation. The remains were shipped to Walton and conveyed to the home of Mr. Dempsey, from which place they were laid to rest in the pretty little Catholic cemetery, on the old Carr farm, at 11 o'clock Sunday in the presence of a large concourse of sorrowing relatives and friends. Mr. Dempsey, who lost his only child about a year ago, and in this sad event is left alone, has the heartfelt sympathy of the entire community in this dark hour of his deep grief.

CRESCENT.

Dec. 1.—Several of our young folks attended the ball at Florence, Friday evening.

G. S. Brown, of Cincinnati, spent Sunday with Henry Groger and wife.

Hubert Carpenter, the telegrapher at Bracht, was the guest of relatives, here last week.

Miss Blanch Northcutt and Kenneth Clayton, of Hebron, spent Friday and Saturday at the home of her father, R. P. Northcutt.

A large crowd attended the sale at G. N. Buffington's, last Wednesday, although the bad weather kept many from attending. Nearly everything brought a good price.

Jas. Carpenter is delivering his corn in Covington. He says that he does not think that it would be profitable to hold the crop until spring, as the price is not likely to be better then.

Bert Worthington and several others are talking of organizing a society for those fortunate beings known as "old bachelors." The society will be known as "the brotherhood of anti-matrimonians," and the necessary qualifications of a member will be to vow to never to marry unless an opportunity presents itself, and to wear the hair parted equarlaterally.

We attended the supper given by the ladies of Ebenezer church at Florence, Thursday evening, and we certainly pronounce it a success from every point of view. We went there confident that we could make the supper look like thirty cents, but, after we'd sampled the oysters and turkey for more than an hour, our courage failed and we wished that we could call the Commissary scribe to our assistance. We have dined with him and feel safe in saying that he would be valuable assistance in disposing of a Thanksgiving supper.

BELLEVUE.

Dec. 1.—Albert Snyder has been at home from the city with a sore arm—vaccination.

John Rogers is progressing nicely with the erection of his new barn.

The recent rains enabled the farmers to get their shock corn in and their tobacco stripped.

Geo. Blyth and wife, and Edson Riddell and wife were guests of Al Rogers and wife, Sunday.

Perry and T. J. Clore gave a graphaphone entertainment, Friday night, at Woolper school house.

Miss Pearl Acra, of Rising Sun, was visiting her grand-parents and uncle, last week, on Middle creek.

J. H. Lawell and wife returned, last Saturday, after several days' visit with relatives in Lexington and Paris.

Geo. Rue and wife, of Cleves, Ohio, attended his brother, Irvin's wedding. They returned home last Saturday.

Mrs Lourena Scott and daughter, Miss Maud, of the Commissary, were guests of James Rogers and family, one day last week.

Bro. Thomas disposed of the rich and the poor, last week, but what will he do with the middle man? who is neither rich nor poor.

Warren Flick and wife entertained several of the young folks, last Saturday night, with candy pulling. All enjoyed themselves.

Bro. Nooe will preach at the Christian church next Saturday night at 7 o'clock, and on Sunday morning, 10:30 o'clock, and that night.

Our telephone hustlers, Edson Riddell and A. B. Rouse, of Burlington, were down, last Friday, driving stakes where the posts will be set along the pike from Burlington to Bellevue. We hope to see the line a go.

The members of the Christian church met, last Sunday, to arrange to employ a preacher in the ensuling year, and Bro. Nooe was chosen by a unanimous vote to begin his services the second Sunday in January.

On the 26th of November, in Burlington, at Rev. Sproles', Irvin Rue, of this place, and Miss Edith May Smith, of Ashbyfork, were united in marriage. After the ceremony they returned to the bride's parents, where an elegant and sumptuous dinner awaited them. On the following day they repaired to the home of the groom's parents, accompanied by a host of relatives and friends, where a most tempting dinner awaited them, prepared by his good mother, assisted by the father. They have the best wishes of all who know them. I do not believe it ever has been my privilege to meet with two young people that I consider any nearer a model couple than these two, who have started out to fight life's battle together. "May their path be ever lighted so they may never stumble, and may they so live in their earthly home that they may have an inheritance in that home above."

PETERSBURG.

Dec. 1.—Four young married couple at church at the hall, Sunday night.

Mrs. Geo. Guissinger was visiting relatives in Cincinnati, last week.

Dr. Hubert Walton was registered at Hotel Crisler, several days last week.

The J. B. Finley and Sow steam hard aground at Lawrenceburg, last Friday and Saturday.

James Kelley and wife, of Hebron, were visiting at B. J. Crisler's, Saturday and Sunday.

Mrs. Wm. Rouse, of Bellevue, spent several days, last week, with her mother, Mrs. Agnes Grant.

We learn that Frank Hartman will leave, in a few days, for South Dakota, where his son resides.

Misses Nettie Cave and Maud Ruth have returned from an extended visit with out of town relatives.

Earl Buchanau comes over from Lawrenceburg quite often. A pretty young lady is the attraction.

Dr. W. E. Grant, Dean of the Louisville School of Dentistry, was the guest of his brothers here, Sunday.

W. H. Grant has gone to Waxarkana, Texas, where he will spend the winter with his son, Dr. Robert Grant.

1,400 bushels of coal were shipped from the distillery to Carrollton. Outsiders do not kdow what it means.

Earl Whiting, who is attending the Kentucky University at Lexington, was at home several days last week.

U. S. Revenue agent, Benton McMillan, of Washington, D. C., paid his respects to the revenue boys here, one day last week.

Mrs. John D. Norris has quit the hotel business at Osgood, Ind., and has come to her daughter's, Mrs. B. H. Berkshire, near here.

Quite a number from here attended a Taffy Party given by Mrs. A. J. Buchanan, of Lawrenceburg, Thursday night. They report a splenid time.

Mrs. A. Dean had a sale of household goods, Saturday afternoon. She will leave, in a few days to make her home with her son in Baltimore, Md.

Bert Smith, the versatile cor. of the Recorder at Flickertown, was in town Saturday. We fell proud of Bert as he is one of our students. He is a good cor.

The cor. who led off from here last week was badly off in his prognostications. The last portion of the items, commencing after our reference to Mr. Dean's death, was ours.

Burthel Pease, one of our best known young men, and Miss Blanche Green, daughter of James L. Green, were married by Esquire Given in Lawrenceburg, last Wednesday at 3 p. m.

Sunday School teacher asked Prof. Bondurant's little girl what the golden text was, she replied, "The Lord is in the trust." The golden text—"Trust in the Lord." The teacher said that is not quite right, and she replied, "that everything else was in the trust."

Protracted meeting will begin at the Methodist church next Monday night. Rev B. F. Chatham, of Brookville, will assist the pastor. Bro. Chatham is a splendid gentleman and a good preacher, with whom all will be pleased. Let him have a good congregation every night.

Dr. J. M. Grant spent Thanksgiving with his daughter, Mrs. Dunlap, at Peoria, Ill. He found Mrs. Dunlap and her two children in poor health, but nothing serious. Mrs. Grant has been with her daughter several months. The Doctor reports the remainder of the Boone county colony there well and saucy.

In the minutes of the Kentucky Annual Conference is an excellent likeness of Rev. W. G. Cram and wife, who recently sailed for Korea, where they have accepted the call to Mission work. A number of our town people have a deep interest in Bro. Cram, and remember, with great pleasure, the meeting he held at this place about three years since.

The Woman's Foreign Missionary Society held interesting sessions Thursday and Friday evening, the meeting Thursday being a Thanksgiving service. On each occasion select reading, songs, recitations and well prepared papers formed the greater part of the program. The Juvenile Society added its service which was very much enjoyed, especially "The cry for help, from Foreign Shores," in which all its members took part, doing themselves proud. Miss Katharine Cook recited a beautiful poem entitled, "A Little Maid's Amen." Misses Lola Mathews and Sue McWethy pleased the audience with their fine recitations. Mrs. Cook prepared the program well.

William Warford, a prominent young farmer of Flattsburg neighborhood, and Miss Ethel Scbree, of the same vicinity, were married by Rev. Geo. C. Maul, at his residence in Lawrenceburg, last Wednesday, at 2 p. m. They were accompanied by J. B. Tolin, uncle of the bride, and Miss Julia Smith, cousin of the bride. After the ceremony bride and groom repaired to the residence of Miss Julia Smith, where they were met by a number of friends, and at 8 p. m., the guests were invited into the dining room where the table was laden with all the delicacies of the season. The tin pan brigade paid their respects at 10 p. m. Billy is a quiet and industrious young man, whose friends wish him and his bride all the happiness this life affords.

FLORENCE.

Dec. 1.—A. B. Corbin, of Bellevue, is the guest of Rev. Lee Utz.

Hello! Limaburg, you beat our turup but you can't beat our beet.

School reopened last Monday after a two weeks' scare of diphtheria.

Tom Castleman and son, Clay, have returned after a few days visit in Grant county.

Mrs. Nannie Fish, of Nicholasville, is the guest of her daughter, Mrs. B. A. Pulaney.

Dr. Smith and wife, of Avondale, were pleasant guests of Mr. and Mrs. Cahill, last week.

Lee Wallace expects a share of the Enquirer money, as he is within 57 of the correct guess.

Allison & Yates' hearse team became frightened here last week, and demolished the front of their hier.

Regardless of bad weather the members of the Ebenezer church sold tickets to the amount of $160 for their supper, given here Thanksgiving day.

Mr. Oelsner, our genial store keeper, went to Cincinnati last week and purchased $300 worth of dry goods. Mr. Oelsner is one of our best business men and believes in supplying his trade with the best.

One of our young busiuess men sold his unruly cow, which he had in Mr. Cleek's pasture near Union, to Mr. Cody, and was seut with his partner after her. They loaded their pockets with mineral water and started. On returning Mr. Cody was surprised at his good luck, as the animal was better than he expected, but just as he was in the act of killing her, a messenger arrived, stating they had the wrong cow, and the mistake was rectified in time to save one of Mr. Cleek's best milkers. Mineral water, or mineral water, why dost thou cause me to see cows with horns, when mine was a mnley.

J. R. Whitson, the Florence caterer, reports a grand time at the hoghead banquet at which he presided a few evenings since. The attendance was very select and the hogshead most delicious. The contributions were liberal, and the thanks for the evening's enjoyment were profuse.

HEBRON.

A Million Voices

Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen to him:—A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but conld not help him. When all thought he was doomed he began to use Dr. King's New Discovery for Consumption and writes—"it completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for Coughs, Colds and Lung troubles. Price 50c and $1 00. Trial bottles free at W. F McKim's, Burlington; Union Drug Store, Union; J. G. Oelsner's, Florence; A. W. Smith's, Walton; O. N. Grant's, Bellevue.

Card of Thanks

From the members of Ebenezer church to the community far and near for their generosity and kindness in helping and giving for the supper on Thanksgiving night, the proceeds of which are to be used for purchasing pews for the church. Although the weather was very successful, the supper was a perfect success. We feel that we owe special thanks to Mrs. Emma Rouse, who so kindly gave us the use of her house in Florence.

B. C. Surface, Chairman.

The Boone Co. Pomona Grange will meet at Golden Grange Hall, in Union next Saturday at 10 a. m. Election of officers for ensuing year will be held at that time. Grange will be opened at the appointed time promptly (sun time) December 6th, 1902.

Oscar Gaines, Master.

Conner & Hogan were on the market Tuesday with their first sale of new tobacco—prices were not up to expectations.

M. T. Garnett is now on his way to Florida to spend the winter. His address is Eloise, Polk county. Here is hoping he will have a pleasant and profitable winter.

Judge Stephens, of Florence, was in town, Friday He says his son, Ben, has about regained his health since his return from Kansas City, Mo. He had no health at all while in the West.

H. L. Beemon, of Limaburg neighborhood, was in town Friday. Mr. Beemon has been doing considerable building during the last year, and now has many conveuiences about his home—good barns, etc.

O. W. Adams, one of the livest tobacco men in this part of the country, called on the Recorder, yesterday. He has a card in this paper that it will be to the interest of tobacco men to read. He will treat you right if you ship to the Brown House.

Lewis Scott, son of Jos. Scott, the Jersey cattle man of Florence, called in to see us Friday. Speaking of milk stock, he said a few days since they churned 63½ pounds of butter from 120 gallons of milk. That is a sample of the produce of Mr. Scott's cattle.

On the afternoon of Thanksgiving day we received from M. C. Weaver, of Evensville, Tenn., a letter enclosing a renewal of his subscription, also two nice roses that were as fragraut as a midsummer production, evidence that the beautiful fall weather has prevailed in his locality as well as here.

Joel C. Clore, of Cincinnati, attended court here Monday. Dode had a close finish that morning to make the train for Erlanger. When he awoke he had just 4 minutes in which to perform his toilet and make the train, but he put himself in motion and the fete was performed with ¼ of a second to spare.

Mr. E. E. Kreuthoffer, of Delhi, O., a prominent Rail Road official, has purchased the farm of the late Victor Chambers of 450 acres, in the North Bend bottoms, and will operate it as a stock and grain farm under the management of F. P. Walton, of Covington. The sale was made through L. C. Hamer & Co., 340 Main street, Cincinnati, Ohio, whose ad appears in another column of this paper.

Dr. J. D. Terrill, son-in-law of Mrs. Adam Schleicher, has been elected president of the Gulf Coast Ship and Marine Ways Company of Mobile, Ala. The company owns the site of Terrill, a town recently platted near Mobile.—Lawrenceburg, (Ind.) Press.

Dr. Terrill is a son of the late Geo. W. Terrill, of Petersburg, this county. He went to Mobile, Ala., several years ago, where he has been very successful in all his business undertakings, much to the gratification of his numerous friends in this county.

Mr. and Mrs. W. F. Grant entertained the following guests at a rabbit roast Thursday evening, Nov. 27th: Misses May Crisler, Artie and Eunie Borders, Nellie Vaughn, Sadie and Ida Crisler; Messrs. Edward and Eli Borders, Jas. and Clinton Beemon, Frank McMullen, Eugene Long. The guests were entertained by euchre and crokinole until 10 o'clock, when they were invited to the dining room where a sumptuous supper, consisting of roasted rabbit, quail, celery, pickles, and all the delicacies of the season, had been spread by Mrs. Grant. They made their departure at 12 o'clock reporting a delightful time and wishing there would be many more such gatherings.

Hon. J. W. Kennedy was in town, Monday, mixing with the good people of the county who chauced to attend court that day. Mr. Kennedy is very anxious that Kentuckians have a creditable exhibit at the Louisiana Purchase Exposition at St. Louis in 1904. He says he opposed an appropriation by the legislature last winter for that purse, because the condition of the State treasury was not such as would justify the appropriation of money to assist in such an enterprise. He is of the opinion that the St. Louis exposition will be of great deal more benefit to Kentucky than any of those of the past, and hopes to see enough money contributed to place Kentucky in the position she should occupy in that exposition.

BURGLARY AT BIG BONE.

Two Young Men Locked Up on the Charge of Housebreaking.

Walton, Ky., Nov. 29.—Thieves entered the store of Wood Miller, at Big Bone, Ky., and after discarding their old clothes in the store, dressed them selves in the best suits, hats and shoes in stock, opened the cash drawer, took the change and left a note reading:

"We thank you for your kindness, Mr. Miller. Will call again. A. and P."

Then they went to the stable of Haze Miller and took his horse, riding it to Walton, a distance of eight miles, turned the horse loose and boarded a northbound train.

Sheriff B. Hume has gone to Covington to see the suspects held there.

James and George McIntyre, two young men who live at Athey avenue and Craig street, were arrested Friday night by Detective Gaffney and Officers Flavin and Finnegan, and locked up on a charge of housebreaking. The boys admitted that they had broken into and robbed George Miller's general store at Big Bone Springs Thursday night, and secured a lot of wearing apparel. Two coats, a pair of gloves and several pairs of overshoes were found on the premises which were identified as property of Miller.

A BIG MORTGAGE.

The Independent Long Distance Telephone and Telegraph Co.

Lexington, Ky., Nov. 27.—A mortgage was filed in the county clerk's office here Wednesday by the Independent Long Distance Telephone and Telegraph Co., of Delaware, to the National Trust Co., of Louisville, Ky., in trust to secure the issue of one million five per cent. first mortgage gold bonds 30 years from January 1 next. The property mortgaged includes the plant in Louisville and equipment wherever it may be, including the lines from Louisville through Shelby, Franklin, Fayette, Anderson, Henry, Owen, Carrol, Gallatin, Trimble, Bullet, Hardin, Meade, Breckinridge, Hancock, Taylor and Larue counties in Kentucky; also Floyd, Bartholomew and Crawford counties in Indiana, with all branches and equipment. The mortgage is signed by John P. Starks, president of the Independent Long Distance Telephone and Telegraph Co., and Jordan D. Powers, president, and Bethel B. Vaoch, secretary of the National Trust Co.

FAILED TO MAKE OUT HIS CASE.

David Browning Lost His Suit For Damages.

Owensboro, Ky., Nov. 27.—In the federal court Judge Evans peremptorily instructed the jury to find for the defendants in the suit of David Browning for $5,000 against Benjamin Watson and Gus Severin, of Webster county. Browning, who is a United States storekeeper, sued because he was not allowed to vote in the election of 1900 by Watson and Severin, who were election officers in one of the Webster county precincts. He failed to make out his case.

AN OLD APPLE TREE.

One Planted Near Tompkinsville in 1791 Is Still Bearing Fruit.

Tompkinsville, Ky., Nov. 29.—On a farm about six miles east of this place is an appie tree that was brought from Virginia in 1791 by a man named Compton and transplanted. It has never missed bearing fruit every season for 107 years. This is claimed to be the oldest apple tree in the United States. Although the fruit crop was a failure here this season this old veteran had a good yield.

Horse Sales Closed.

Lexington, Ky., Nov. 29.—Woodard & Shanklin's sale of thoroughbreds closed Friday. Twenty-seven head were sold for a total of $5,840. The best sale was Lady Bramble, 4-year-old filly by Bramble-Charity, to Baker & Gentry for $1,125. The other sales amounted to less than $500 each.

Second Strawberry Crop.

Russellville, Ky., Nov. 29.—Capt. Ed Tapscott, of the L. & N. railroad, is the champion strawberry raiser of this section for this time of the year. His vines are literally covered with berries as large as the end of an ordinary sized thumb, and some of them are ripening.

A Road Tax Levied.

Russellville, Ky., Nov. 29.—The fiscal court has made a levy of one dollar poll tax and 20 cents ad valorem for roads, and the people of Logan county are rejoicing. The court will meet later and appropriate enough money for the erection of a new court house.

Sermons By Telephone.

Lexington, Ky., Nov. 26.—Dean Barr, of St. Lee, pastor of Christ's Episcopal church of this city, has had placed in the church an instrument by which sermons may be heard by telephone in any private residence in the city and county.

Arm Mashed By Train.

Franklin, Ky., Nov. 26.—Henry Jones came from Bowling Green on a fast train. He jumped from and was run over the rapidly moving train. His left arm was mashed from the elbow to the hand.

IN A DRIVING SNOW STORM.

Fierce Game Between Kentucky University and State College.

Lexington, Ky., Nov. 28.—Played in a driving snow, on soggy ground and ending in darkness, the fiercest game played annually in Kentucky Thursday, resulted in the victory of Kentucky university over State college by a score of 6 to 5. Rivalry between the two local institutions always amounts to bitterness which annually reaches the maximum on the good day of Thanksgiving when the football teams line up for the last game of the season. A fierce contest invariably results. Despite the severe weather, several thousand were in attendance. It was expected that State would retrieve her defeat of last year, because five of the K. U. regular men, including Capt. Yancey, were out of the game, four being in hospitals as a result of a recent game with Vanderbilt university. Second team men filled their places.

In the first half State played the better game, and after a succession of line plunges, Pride was pushed over for a touchdown. Adkins failed to kick goal. K. U. rallied and the ball was in State's territory when the half ended. In the second half Yancey, for K. U., made a 50 yard end run and tied the score. He punted out to Spencer and then kicked goal, making the score 6 to 5. The play was up and down the field on kicks from that time until a minute before time was up, when Yancey made an 80 yard run and was downed on State's five yard line by a cadet who was not in the game and who was one of a large crowd of spectators whom the police were powerless to keep off the field. Time was called.

As a result of the bitter feeling between students of the colleges, there were a succession of fights behind the ropes, but nothing more serious than black eyes and bloody noses resulted.

AN AMUSING INCIDENT.

Pressed Into Service Somebody's Horse to Catch a Train.

Pineville, Ky., Nov. 28.—Quite an amusing incident occurred here Thursday morning. Congressman Vincent Boreing, of London, Ky., was on his way to the L. & N. depot, when the train pulled in. Seeing that he would miss it unless he used some extraordinary efforts, he took a horse which had been hitched to a fence near by and started down the street on it in a dead run. When he came to the bridge across Cumberland river, instead of walking the horse across he urged it on at a gallop and jumped on the train as it was pulling out. Chief of Police Slusher made an attempt to arrest him as he got off the horse, but Boreing was too quick. Riding fast across the bridge is punishable by a ten-dollar fine and the officers say they will get the congressman when he comes back.

Smothered By Foul Air.

Pineville, Ky., Nov. 27.—Will Stoneham, a young man who came here about three weeks ago from the coal fields of Pennsylvania and went to work in the Pineville Coal Co.'s mines, about one mile from town, was smothered to death by foul air while at work in the mines. Will Caruthers, his companion, was also overcome, but was revived when found.

The Wife Relented.

Louisville, Ky., Nov. 28.—Mrs. Essie Wallace, who Wednesday night sued out a writ of delivery to secure the corpse of her dead husband, Harry Wallace, relented when she saw the mother and sister of the dead man faint away. She was allowed permission to attend the funeral, and permitted the corpse to remain in the possession of the sister.

Married Ahead of Time.

Owensboro, Ky., Nov. 27.—Sculptor George Julian Zolnay and Mrs. Abbie R. Gillim, who were to have been married at 3 o'clock Wednesday afternoon, were married quietly at the home of the bride's parents at 7 o'clock Wednesday morning, and left for the east at 8 o'clock. They said they desired to escape the gaze of the curious.

John G. Carlisle Visits Old Friends.

Covington, Ky., Nov. 28.—Hon. John G. Carlisle, secretary of the treasury under the Cleveland administration and once speaker of the national house of representatives, ate Thanksgiving dinner with Mr. and Mrs. Queen, of Garrard street, this city. Mr. Carlisle is practicing law in New York.

Fined in Two Cases.

Greenup, Ky., Nov. 29.—Russell Allen, of Oldtown, was brought in on a charge of selling liquor without license. There were six cases against him. He was fined $60 and costs in two, and the other four were continued.

Snow in Kentucky.

Henderson, Ky., Nov. 27.—Snow fell for an hour here Wednesday. It was the first of the season and was followed by rain.

Louisville, Ky., Nov. 27.—A light snow, the first of the season, fell here Wednesday night.

Snowstorm at Owensboro.

Owensboro, Ky., Nov. 27.—The first snowstorm commenced Wednesday morning at 9 o'clock and continued for more than an hour. The ground was so warm that the snow melted as fast as it fell.

THE TARIFF COMMISSION.

Postponement of Tariff Reform Until After the Presidential Election Is a Subterfuge.

The protectionists themselves do not seem to be able to agree on the personnel of the tariff commission they are so anxious to see congress authorize. One school thinks a non-partisan commission would be most available, and another school will only approve of a bipartisan commission. It is difficult to see how any commission can be selected that would report a satisfactory bill or amendment to the present Dingley law, unless they agree politically with the majority of congress, that has to finally approve the changes. If a commission was composed of one-half protectionists and the other half tariff reformers, they could never agree on the changes that should be made. In fact, the protectionists desire no change unless it will increase the present rates. History shows that the republicans have always reformed the tariff upwards. A nonpartisan commission is hardly possible, if those appointed are skilled in the intricacies of the tariff, for anyone who has investigated its complications must have a decided bent either towards protection, or tariff for revenue, or free trade.

If such a commission consisted of five men, two protectionists and two tariff reformers and the fifth member was selected as a nonpartisan—that is, neither a protectionist nor a tariff reformer, what would result? The nonpartisan member must agree on a report which either the one side or the other consider desirable, or no majority report would be forthcoming, or if he could not agree with either side, a deadlock would result.

Is not a deadlock what the republicans desire?

Can you find a republican who does not declare that the principle of protection must be preserved in any modification of the present tariff law? Those republican congressmen who have been elected in the western states by constituencies which strongly favored abolishing the protection to trust productions have declared, while promising relief from the exactions of the trusts, they still adhere to protection as the most fundamental doctrine of their party. Is not the commission plan proposed to prevent action until the excitement subsides, or to trust that other issues will in the meantime arise and the thoughts of the voters in the tariff reform constituencies can be concentrated upon them to the exclusion of tariff reform?

The fight for supremacy in the next congress will be settled by the selection of a speaker, and the only candidate so far mentioned who has shown any sign of tariff reform sentiment is Chairman Babcock, and his reputation for it rests on the bills he introduced to amend the steel and iron schedule. As Mr. Babcock did not demand that these bills should be considered by the ways and means committee, his reputation as a tariff reformer rests on a very slim foundation, and it was the common talk of political circles in Washington that he only introduced the bills to be on record in the right direction, without any idea of taking any decided stand in behalf of such reform, and in fact did not favor it.

His election by the ultra protection majority of his party to the important position of chairman of the congressional committee to manage the campaign, and the fact that all the documents issued by the committee made a bold stand for extreme protection, makes it clear that tariff reform will fare badly in his hands.

All the other candidates mentioned for speaker are strong protectionists.

It is impossible therefore to overcome the facts that point to the tariff commission as a means to gain time and postpone consideration of tariff reforms until after the presidential election.

——There is a rumor about that Secretary Shaw acted under presidential orders in abandoning the plan of accepting state and city bonds as security for public deposits. This in turn revives the reports that the president is not particularly pleased with the conduct of the treasury department, and contemplates a change. Still, they continue to distribute "Roosevelt and Shaw, 1904," buttons out in Iowa.—Springfield Republican (Ind.).

REGARDING THE COAL STRIKE.

Imminent Danger of the Whole Thing Breaking Out Again at Any Moment.

It is persistently reiterated by the New York Commercial, one of the organs of the coal barons, that the miners' union will not be recognized in the strike arbitration. As this is one of the principal issues between the coal operators and the miners, the prospect that the strike may break out afresh is far from unlikely. The truce effected, by both parties agreeing to arbitrate their differences before "the commission," was brought about by President Roosevelt, aided by public opinion, that had decided against the operators. "The commission" is but a make-shift, with no legal leg to stand on, there being no federal law authorizing any such court. The parties to the strike cannot be made to abide by any decision "the commission" may render, and the coal barons are insistent that they will not submit to treat with the miners as a national organization, or with any officer or attorney that represents them, who is not himself an actual workman in the mines.

Mr. Mitchell has called attention to the fact that the coal operators and the coal railroads are an interstate organization, on the same plane as the miners' organization, and, if the one is recognized, there is no good reason why the other should not be.

As either the coal trust or the miners are sure to be dissatisfied with the decision of the arbitrators' work, and neither are legally bound by any decision they may render, the dear public, who burn hard coal, would do well to lay in their winter stock at the first opportunity, for the strike may break out in a fresh place, with less chance of settlement.

There being no national election until 1904, President Roosevelt and the politicians will not be so interested in the distress of the miners, or of the people, and another long drawn out fight in the anthracite coal fields may be in prospect.

It is understood that President Roosevelt brought the coal trust operators to agree to "the commission" by the threat of proceedings against them under the interstate and anti-trust statutes. As the price of coal has been advanced by the trust, in spite of the staying of the strike, much beyond the price in former years, the administration would seem to be responsible for the high price, if no steps are taken to bring the trust to time. If their fear of the threat of the president was sufficient to make them agree to allow a commission to be appointed, the same power could force the trust to stop bleeding the public by the high price of coal.

Neither President Roosevelt or the coal trust operators need think that the coal consumers will be satisfied until they are furnished coal at a reasonable price.

——The scheme of a tariff commission, whether permanent or temporary, can wait. We have had tariff commissions before, and experience teaches that their work is absolutely useless as an influence upon legislation by congress. But as for a special session of congress next spring to deal with some of the more pressing burdens of the Dingley law, why is that necessary when congress will be in regular session two weeks from today? Why not give the people at once the relief for which they are clamoring?—Boston Post.

——When a Carnegie, through the possibilities of profitable production and monopoly which the tariff affords, can have his wealth in less than ten years' time increased from approximately $20,000,000 to $300,000,000, is it at all strange that, seeing how generously government aid is bestowed in favored quarters, a large number of unthinking people should demand that government exercise its bounty by taking charge of everything, assuring to the workmen large profits as well as to the great capitalists?—Boston Herald.

——There needed no ghost to tell us that President Roosevelt had abandoned the notion of calling an extra session of congress to revise the tariff. Mr. Roosevelt is, of course, profoundly impressed with the necessity for such revision, but, the elections being over, he considers that there is no occasion for rash and unseemly haste.—Chicago Chronicle.

OUR SLEEPY ATTORNEY GENERAL.

Fibroid Tumors Cured.

A distressing case of Fibroid Tumor, which baffled the skill of Boston doctors. Mrs. Hayes, of Boston, Mass., in the following letter tells how she was cured, after everything else failed, by **Lydia E. Pinkham's Vegetable Compound.**

Mrs. Hayes' First Letter Appealing to Mrs. Pinkham for Help:

"DEAR MRS. PINKHAM:—I have been under Boston doctors' treatment for a long time without any relief. They tell me I have a fibroid tumor. I cannot sit down without great pain, and the soreness extends up my spine. I have bearing-down pains both back and front. My abdomen is swollen, and I have had flowing spells for three years. My appetite is not good. I cannot walk or be on my feet for any length of time.

"The symptoms of Fibroid Tumor given in your little book accurately describe my case, so I write to you for advice."—(Signed) Mrs. E. F. HAYES, 252 Dudley St., (Roxbury) Boston, Mass.

Note the result of Mrs. Pinkham's advice—although she advised Mrs. Hayes, of Boston, to take her medicine—which she knew would help her—her letter contained a mass of additional instructions as to treatment, all of which helped to bring about the happy result.

"DEAR MRS. PINKHAM:—Sometime ago I wrote to you describing my symptoms and asked your advice. You replied, and I followed all your directions carefully, and to-day I am a well woman.

"The use of **Lydia E. Pinkham's Vegetable Compound** entirely expelled the tumor and strengthened my whole system. I can walk miles now.

"**Lydia E. Pinkham's Vegetable Compound** is worth five dollars a drop. I advise all women who are afflicted with tumors or female trouble of any kind to give it a faithful trial."—(Signed) MRS. E. F. HAYES, 252 Dudley St., (Roxbury) Boston, Mass.

Mountains of gold could not purchase such testimony—or take the place of the health and happiness which Lydia E. Pinkham's Vegetable Compound brought to Mrs. Hayes.

Such testimony should be accepted by all women as convincing evidence that **Lydia E. Pinkham's Vegetable Compound** stands without a peer as a remedy for all the distressing ills of women; all ovarian troubles; tumors; inflammations; ulceration, falling and displacements of the womb; backache; irregular, suppressed or painful menstruation. Surely the volume and character of the testimonial letters we are daily printing in the newspapers can leave no room for doubt.

Mrs. Hayes at her above address will gladly answer any letters which sick women may write for fuller information about her illness. Her gratitude to Mrs. Pinkham and **Lydia E. Pinkham's Vegetable Compound** is so genuine and heartfelt that she thinks no trouble is too great for her to take in return for her health and happiness.

Truly it is said that it is Lydia E. Pinkham's Vegetable Compound that is curing so many women, and no other medicine; don't forget this when some druggist wants to sell you something else.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

WAY, TRUTH AND L[illegible]

The Beautiful, Threefold Aspect of Christ, the Saviour.

Sermon by the "Highway and Byway" Preacher on One of the Six Striking Sayings of Jesus.

(Copyright, 1902, by A. N. Kellogg Newspaper Co.)

Chicago, Nov. 30, 1902.

Text:—"Jesus saith unto him, I am the Way, and the Truth, and the Life; no man cometh unto the Father but by Me."—John 14:6.

You have noticed those unique, triple-faced sign boards which read differently from the three points of view, and yet which tell one complete story of the business man and his wares. At the right hand as you advance you read the words that flash out in that direction; as you gain a position directly in front of the sign the words you first read disappear and a new set of words stands out in bold lettering, and as you pass to the left of the sign you are able to spell out still another sentence. I remember in my youth to have been puzzled and amused with the novelty, and to have gone back and forth before such a triple-reading sign watching its kaleidoscopic changes and spelling out its three-sided message. God has hung before the eyes of the world such a sign board, and it flashes out its triple-sided declaration in regard to the Christ. While we are yet in the distance its Heaven-sent light points out the way; as the feet walk in the way of that light and the soul comes opposite to the blessed sign board the truth flashes on the vision of its heart, and as the journey is continued in that way and in that truth, the finger post of the sign traces out the promise of eternal life, and its crimson glow may be seen breaking on the horizon of the heart's sky of faith.

You have held the prism in your hand and seen the sunlight flash through it and break up into the primary colors of its brilliant beauty. Until the prism came to your aid the dancing sunbeam on the floor ha budt a singie beauty, but the three sides of the crystal caught the flashing smile of the sun and revealed to you its hidden beauties. God's rare and priceless crystal prism catches on its three shining surfaces the sunshine of His love and breaks it up into a thousand beauties. The Way, the Truth and the Life. What a glorious all-inclusive, all-prevailing triple revelation of the Divine nature.

Does the heart ask with incredulous Thomas: "What is the Way?" Does it ask with the idle curiosity of unbelief of a Pilate: "What is Truth?" Does it question with the heart-broken sisters at Bethany as they stand before the tomb of their beloved brother: "What is Life?" Jesus the Way for our feet to walk in! Jesus the Truth, to shine as a beacon light in this world, where satan has set himself to make us believe a lie! Jesus the Life, to quicken the dry bones of a dead self into an undying hope that will find its eternal realization in the presence of the Father. Oh, what a wonderful declaration for Jesus to make!

Our text is one of the many sparkling gems which flash from the casket of heavenly treasures uncovered in that fourteenth chapter of John's Gospel. It is one of the clear bugle calls to the soul which sound forth from the doorway of the Father's House and guide the weary feet of the dusty pilgrim as he climbs the heights towards the Celestial City. The saddest moments in the life of our Lord and Saviour, as gathered with His 11 true disciples, He opened up His heart to them in sweetest words of comfort, were sweetened and glorified as He pictured to them the Father's House with its many mansions. A real place; a place of refuge and rest; a haven of eternal bliss after the days of the earthly pilgrimage were over. He was going to leave them, not for His own sake, but that He might prepare a place for His disciples in His Father's House. And not only was He going to be busy over there as He, with loving hands, fitted up our mansions with just the things we loved best and which were best for us, but day after day He would be longing for the Word of the Father which would bid Him return to earth to bring back His waiting ones. Isn't that a beautiful picture? And having drawn back the curtain of mystery which separated the seen from the unseen, He said: "And whither I go, ye know and the Way ye know."

"Thomas saith unto Him, Lord, we know not whither thou goest; and how can we know the Way?"

"Jesus saith unto him: I am the Way, and the Truth, and the Life: no man cometh unto the Father but by Me."

And what Jesus said to doubting Thomas He says to you and to me. Oh, how patiently He leads our sin-blinded hearts into the Way; how faithfully He instructs our dull, earth-bound minds in the light of the blessed Truth; how willingly He brings down His Eternal Life, and, laying it alongside of our cold lifeless clay, summons us forth from the black, damp tomb of soul death into newness of life. I am glad Jesus has thrown open wide the door of the Father's House; I am glad He has gone there before me, to prepare my place for me and to make my welcome sure; I am glad that as I journey towards that mansion in the skies I have such a sure Guide as He; such a solid Rock on which to rest my wayward, trembling feet; such a Power that it can strip [illegible] Soul self and clothe it [illegible] righteousness; [illegible] the pathway of His Way; let us open up the windows of our soul to the blessed light of His Truth; let us clarify the atmosphere of the soul and permit it to breathe the Eternal Life of His presence. Lift up the gates of the natural mind, break down the insurmountable wall of the will, and let the King of Glory come in with the true blessing of the certain Way, the unfailing Truth and the Eternal Life.

Questioning of the Soul.—Jesus always meets the honest doubt with patient, loving answer. Thomas couldn't understand and began to question because he could not see every inch of the way. He knew the Father's House was eternal in the Heavens, and that there was a place there for him. Jesus said He was going there, and that the disciples knew the way thither. Immediately Thomas began to look around in his own heart for the light that would lead him to the Father's House. Questionings always come from within, but if they are honest questions, with eager yearning after the truth, then Jesus always answers them.

Have you doubts and questionings in your heart, O soul? Go to Jesus with them. Don't seek for the light that can chase away all the dark clouds of unbelief anywhere but in the presence of the Son of God, for if you do the clouds will gather thicker and blacker about your soul and you will never find the blessed Way to the Father's House. But if the eye of faith looking up sees the eternal reality of the Father's House and longs to plant its feet within its pearly gates, then Jesus will turn to such an one, as He turned to Thomas, and say: "Why, dear heart, I am the Way to the Father's House. Do not look within for thy way. Fix your eyes on Me, for I am the Way, and the Truth and the Life: no man cometh unto the Father but by Me."

An Unerring Guide.—During the years following the great gold discoveries in California caravan after caravan of eager seekers after the yellow metal threaded their way across the great trackless plains of the west. Frontiersmen who could pilot safely through the wide stretch of wilderness and lead past the dangers of the hostile Indian country were in demand. The question always asked by the cautious traveler was: "Have you been over the route before?" To have learned the landmarks that made the way certain to the desired haven, and to have found out the perils of the journey and be able to guard against the lurking foe, were qualifications in the guide which made his services always in demand. But let the incautious emigrant trust himself to the leadership of an incompetent guide, or let him attempt to make the journey alone, and ten chances to one his bleaching bones would be found later on the prairie, silent and ghastly witnesses against his mad folly.

In the journey from earth to the Father's House a competent Guide is needed to safely pilot the soul over the desert wastes of the earthly pilgrimage, and around the hostile country. One who can always perceive the presence of the lurking foe and guard against his attack. Would you dare to trust yourself in the hands of one who has not been over the way, who does not know every inch of the way, or would you in mad folly dare to attempt the journey alone? Oh, soul, mark the sad wrecks by the roadside of life of those who have chosen a false guide or who have attempted the journey alone! Let the rattling bones and the grinning skulls bear their message of solemn warning to your soul, that you can never safely make the journey from earth to Heaven without you trust yourself in the hands of the unerring Guide, Who is known as Christ Jesus, the Way.

"The Way," Not "a Way."—The Way came from the Father, and The Way led back to the Father. Every road, every pathway has its distinctive landmarks by which it is identified, and the point to which it leads made plain and certain. The pathway of the human will leads away from God. Its landmarks are found in the wrecked lives, unsatisfied longings and desires, its restless seeking after every conceivable and inconceivable thing in the world, while the soul sickens and dies. But the pathway of eternal hope leads through Jesus, the Way, and the landmarks that make it a bright and shining Way are the expressions of the Father's will in the cradle, the cross and the tomb. The cradle that received God's gift to the world of a Saviour. The cross of sacrifice, on which the Lamb of God, the Sinless One, suffered for the sins of the world. The tomb of hope from which the Son of God came forth a triumphant Victor over death. And you, oh, soul, must pass over this Way if you would make a safe journey and gain the eternal joy and rest and security of the Father's House.

The Eternal Rock.—Like an everlasting mountain lifting its snow-capped peaks into the vast reaches of the limitless expanse of the heavens, Truth lays its foundations in the beginning with God, and towering from everlasting to everlasting, reaches on and up through the unending stretches of eternity. Pilate asked: "What is truth?" His gaze was so steadfastly fixed into the devil's charms of unbelief and unbelief that the high-rearing peaks of Truth could not fall athwart his vision. The mole burrowing through the black, dark earth might hear the sunbeam dancing on the glad soil above his sightless eyes and ask: "What is light?" and there would be more hope of leading him to understand what light was than to lead the Pilates of the world, who have chosen rather to believe the lie of the [illegible] to do understand what Truth is. Jesus declares: "I am the Truth." He was the Truth, because He was in the beginning with God and as the Word was the expression of God. "And the Word became flesh and dwelt among us," and He was truly the Truth, because He was the perfect manifestation of God to the world. The foundations of the universe were laid in Him, and before the foundations of the worlds were laid the eternal purposes of God centered in Him, so that He was indeed the Truth. Oh, Eternal Rock on which to plant the purposes of God and the hope of the human race! No truth apart from Him. The world gone mad in its quest of Truth, and Truth in its midst unseen and unknown!

The Samaritan woman had doubtless argued the point as to the proper place to worship with many a wayfaring Jew, and when Jesus came her way she brought out the same old argument and tried to start a discussion. But Jesus guided her erring judgment, with infinite wisdom and patience toward the thought of the coming Messiah, the One Who when He came would tell them all things, and then with sublime simplicity declared unto her: "I that speak unto thee am He." The world stands to-day with the readiness of the Samaritan woman to argue the question as to which is the proper place to worship, at the Mount Gerizim of this school of thought, or at the Jerusalem of that advanced learning and thinking, and while the argument goes desperately on, and while the learned searchers are delving down deep and taking the four winds of heaven to gather their knowledge, the lowly presence of the Eternal Truth of God stands in their midst. As He spoke to the Samaritan woman so He will speak to every heart and make His presence known. Oh, that the world would turn its gaze from the Mount Gerizims and the Jerusalems and see the mighty rock of Eternal Truth in its midst!

The Bright Light of Hope.—"It is a case of life and death. The doctors say there is no hope for me in this climate, that I must get away as quickly as possible and spend the rest of my days in the sunny, flowery land of California." And off the poor, sick, worn-out body goes in quest of life. Sweet life! A new hope burns brightly within the feverish heart, and the change, and the soft breezes and the gentle sun, seem to give new grip on life, and the days may be prolonged. Ah, how far the journey will be taken if the bright hope of renewed life burns in the distance. Seas will be crossed, continents covered, mountains scaled in the ceaseless search for the fountain of life and youth. This shows how precious life is. It is the boon that money cannot buy. It is the vital spark in the house of clay which is clung to with such piteous tenacity as to make deathbed scenes a harrowing memory.

And if life is so sweet and precious, the life that is but a span, that covers a possible three score and ten or a four score and ten, and then disappears into the grave, what must it mean to come into the presence of Him, who said: "I am the Life." Who is there who can take in the scope of a life in all of its detail at a single stretch of the mind? It cannot be done. And yet Jesus comes to you and me and says: "I am the Life." "I give to you Eternal Life." Don't try to grasp the thought, don't try to understand it. You cannot. You must just believe it, and when the ages of eternity roll beneath your feet, as they rest within the eternal city of God, you will only begin to understand something of the matchless gift of Eternal Life.

Count Ponce de Leon sought the springs of perennial youth in the everglades and garden spots of Florida. He braved the perils of the almost unknown sea and faced the hardships of a sojourn in a wild and unbroken country that he might search out the fabled spring and drink of its miraculous waters. He died in disappointment. Old Mother Earth has been lavish in her gifts of health-giving waters, but none have the power to restore the vigor of youth or ward off the stroke of death. No, the Hand which molded the earth and caused the gushing springs to burst forth has done better than that. He has given to all the world the Eternal Life of the Son, and whosoever will may drink at the Divinely-appointed fountain and never thirst again; for the draught of Living Water, which Christ the Life will give, will "become a well of water, springing up into Everlasting Life."

Jesus the Way, and the Truth and the Life; no one cometh unto the Father but by Him. Is it strange that when God has so wondrously provided for the needs of the soul in Christ, the Way, the Truth and the Life, that it should be absolutely the only way into the presence of God and the eternal glories of Heaven? O soul, as you look down into the unmeasured lengths of the years and gaze across the border land of death, in what are you trusting? Hear Christ speak, the Son of the Living God, the One Who is all He claims to be: "I am the Way, and the Truth, and the Life: no man cometh unto the Father but by Me." Hear the multitude of the saints in all ages lift their voices as they sing:

"Thou art the Way—to Thee alone
From sin and death we flee;
And he who would the Father seek,
Must seek Him, Lord, by Thee.

"Thou art the Truth—Thy Word alone
True wisdom can impart;
Thou only canst instruct the mind,
And purify the heart.

"Thou art the Life—the rending tomb
Proclaims Thy conquering arm;
And those who put their trust in Thee
Nor death nor hell shall harm.

"Thou art the Way, the Truth, the Life!
Grant us that Way to know,
That Truth to keep, that Life to win,
Whose joys eternal flow."

The man with the cinnamon colored beard was observed standing at the counter and looking at the bottles on the shelves in some perplexity of mind.

"What is it?" said the druggist.

"Isn't there an organization of Methodist young people," asked the man, "that's named after some place where John Wesley lived to live?"

"You mean the Epworth league?"

"That's it!" exclaimed the customer, his brow clearing. "Give me five cents' worth of Epworth salts."—Chicago Tribune.

DIFFERENCE OF A COMMA.

How the Sentence Was Written the Inspector Concluded That Something Was Wrong.

Recently a school inspector arrived at a small town in Germany and requested the mayor to accompany him on a tour of inspection round the schools, relates London Spare Moments.

The mayor, as he put on his hat, muttered to himself:

"I should like to know why that ass has some so soon again," a remark which the inspector overheard, but affected to ignore.

Arrived at the first school, he began to examine the pupils in punctuation, but was told by the mayor:

"We don't trouble about commas and such like."

The inspector merely told one of the boys to write on the blackboard:

"The mayor of Ritzelbuttel says the inspector is an ass."

"Now," he added, "put a comma after 'Ritzelbuttel' and another after 'inspector.'"

The boy did so.

The mayor is believed to have changed his opinion as to the value of commas.

California.

The Passenger Department of the Chicago & Northwestern Railway has just issued a beautiful book of 60 pages, relating to California and the best route to the Pacific Coast. The book is artistically arranged, beautifully printed and fully illustrated—portraying the scenic beauties, hotel and transportation advantages, and delights of outdoor life in the favored climate of the Coast.

This publication is of special value to those interested in California or contemplating a trip to that State, and may be obtained on receipt of four cents in stamps, sent to W. B. Kniskern, Passenger Traffic Manager, Chicago, Ill.

For Circuit Clerk.

We are authorised to announce S. E. TERRILL, of Idlewild, as a candidate for Circuit Court Clerk, subject to the action of the Democratic party.

THE train and express robbers are evidently enjoying a period of prosperity.

THE lynching of colored men in Indiana is becoming more frequent as time passes.

THE weather got as badly rattled, last week as some Kentucky politicians appear to be.

THE President's pen will not rust, it is used too much in his efforts trying to square himself politically to allow the corroding process to attack it.

THE voters who elect Democratic State officials are not quarreling about how the nominations shall be made. Any old way that is fair will suit them.

CHAIRMAN C. M. Barnett announces that he will call a meeting of the Kentucky Republican State Central Committee to be held in Louisville the first week in January.

FROM the amount of property the Sheriff of Jefferson county has advertised for sale for taxes, the impression goes abroad that very few in that county pay their taxes and avoid the cost of sale, &c.

IF the primary election called by the Democratic State Committee is a go, it is likely that the county primary election will be held on same date to nominate candidates for circuit clerk and representative in the legislature.

BOOKER T. WASHINGTON has issued a letter in which he states that his conferences with President Roosevelt and other public officials have been as an educator and not as a politician. He denies furthering any political candidacies.

NEWS has gone forth that the two factions of the Democratic party in Covington have made peace, but such statements have been made very often heretofore and proved untrue, consequently not much credence is given the report.

THE Williamstown Courier says the health board has been notified of several cases of small pox in Grant county, and that it is of a much more malignant type than were the cases of the past. Prompt action has been taken to prevent the spread of the disease.

AT Hyde Park, Mass., there has recently been finished the first solor motor in this part of the country. For several months the residents of the town have been watching with a great deal of interest the construction of this piece of clever and antique mechanism, which is entirely new in this part of the country.

THE President's bear hunt in Mississippi does not seem to have strengthened him in that section as the white Republicans down there do not like the rebuke he administered to them because of their treatment of the colored element in their party, and it is probable that the "Lilly Whites" will make their presence felt in the next national convention.

NEBRASKA is on the eve of the exposure of a conspiracy so far reaching that thousands of people from 20 or more states are concerned in its ramifications. The conspiracy extends to officers and representatives of the United States, and takes in business and professional men in many cities and states, but the sufferers will be the comparatively innocent.

THE editor of the Grayson Tribune (Republican) appears to be very much in the humor of some of the old time Republicans in this county. His accusation that "turncoat Democrats and slick-headed dudes" have been given all the fat jobs indicates that he is very, very tired of seeing old-timers assigned to back seats at the feast. And there are others.

THE President has called a halt on those white Republicans in the South, who were endeavoring to eliminate the negroes from politics in the Southern States. The President saw that if a stop was not put to that proceedings in the South, that the colored voters in the North might resent it and give his party serious trouble in several of the Northern States where they hold the balance of power.

Two smooth strangers from the East arrived in Covington one night about 4 weeks ago and left during the early hours of Wednesday morning, and now hundreds of the people of Cincinnati and Covington are mourning their sudden departure, and the loss of money and valuable gems.

PERHAPS one of the most remarkable sea races in history was concluded on November 20 when a trial of speed of several big battleships and cruisers was made from Hampton Roads to San Juan Porto Rico. All the ships belonged to the North Atlantic squadron, and the cruiser Cincinnati came in first, having a close second in the battleship Alabama.

PRESIDENT ROOSEVELT has written a letter to a prominent citizen of Charleston, S. C., setting forth his attitude regarding the appointment of negroes to Federal offices. He declares that "the door of opportunity" cannot be shut upon any man "purely upon the grounds of race or color." The President finds it necessary to make numerous explanations of his official acts. Why is this?

THE State of Georgia is beginning to realize that a halt must be called on the pension list. Georgia pensions the exconfederates and her pension list at the end of 37 years is like that of the general government, growing to enormous propositions. The eyes of the State is being opened to the fact that it is the rankest kind of profligacy to pension men drawing good salaries or who are independent financially.

To make a small cork fit a large bottle and vice versa, it is common practice to trim the sides of a cork when it is too large for a bottle. Generally the knife is dull and the cut irregular. A simple way is to cut a wedge-shaped piece out of the cork at its lower end. If the cork is very large, cut out an additional wedge at right angles to the first. This will make a perfect non-spilling stopper.—Scientific American.

THE New York Sun is handling President Roosevelt without gloves because of his very contradictory public utterances during the past few months in regard to the trust problem. It quotes from the several speeches he has made this fall to show that in one speech he would make a declaration only to contradict it in the next. The Sun has kept close tab on the President and shows tha the has no fixed opinion in regard to controling of trusts.

THE citizens who use the public road crossing at the mouth of Ashby Fork, are making up money with which to replace the bridge at that ford. Only a few hundred yards from where the new bridge is to be built, on the bank of Woolper creek, lays a good iron bridge that belongs to the county, which might be used to an advantage at the Ashby Fork crossing. It is only a prey to the rust in its present condition.

IN his voluminous affidavit asking that the Democratic Executive Committee be enjoined from holding a primary election to nominate candidates for State offices, Charles Meacham, among other things says: "All of which will tend to render him odious, invidious, repulsive, unpopular and detestable to his party associates in the Democratic party, and hereby cause him irreparable injury." The courts will not allow Mr. Meacham to be ruined (?) in this manner by a few aspiring men.

THE proposition to hold a primary election to nominate Democratic candidates for State offices has not been given much thought by the rank and file of the party in this part of the State, but the probability is there will be no great trouble in Northern Kentucky on that score. The voters believe an honest primary will be held in the country and see no reason why a candidate will not get as fair play in the cities in a primary as in a mass convention. Certainly honest men enough can be found to hold the election.

STICK to your farm. A farm is a far better, safer, surer, healthier investment than any town store with an equal investment of capital says an exchange. The man behind the plow is more independent than the man behind the counter. It is just as honorable, just as dignified to plow and to mow as it is to tie up sugar or measure kerosine, to hand down a spool of thread or to put up a package of crackers. The farmer who can envy the merchant, the manufacturer or the town worker in general has certainly the wrong view of his own occupation as well as theirs.

AT St. Petersburg, Russia, is to be opened the first agricultural training school for women ever established in Europe. The government has approved the full curriculum, which extends over three years and embraces the general principles of farming, gardening, dairying, beekeeping, poultry, sheep and cattle-raising. Theoretically work will go hand in hand with practical employment. Graduates will be placed on an equality with men trained in the existing institutions. They will also be eligible for positions under the ministry of agriculture. Although no date has been fixed for the opening of the school, 325 young women have already been enrolled as students.

MUCH has been said in the last few days about the liberal advance in wages many railroads have given their employes, but to more than overcome the advance the freight traffic managers of the Trunk Line Association have agreed to advance, beginning on the first of January, freight rates, in many instances as much as 30 per cent. All of these advances mean higher prices to the consumer, and in some instances losses to the merchant, contractor and storekeeper. The 10 per cent advance fixed upon for iron, steel and their products will be felt in every home. It means that every article of hardware and numberless kitchen and household utensils will be sold at higher prices during the coming year. The extra freight will be added by the wholesaler to the price at which he has been selling to the retailer and the latter, to keep his ratio of profit the same, will make a corresponding increase in his price to the consumer. Thus it is seen that the consumer, puts up for the advance in wages made by the railroads.

THE Postmaster General, in his report to Congress, says: "Rural free delivery service has become an established fact. It is no longer in the experimental stage, and undoubtedly, Congress will continue to increase the appropriation for this service until all the people of the country are reached, where it is thickly enough settled to warrant it. The estimates of the Department are to the effect that the available territory for this service embraces about 1,000,000 square miles, or one-third of the country's area, exclusive of Alaska. The 11,650 routes now in operation cover about one-third of the available territory. From this it will be seen that it will require 27,000 employes additional to those now in the service to cover this territory."

A correspondent of the Indiana Farmer says he has measured thousands of bushels of corn by the following rule and in cases when it was afterwards weighed proved satisfactory:

"There is no rule by measurement that will prove exact, as so much depends upon the variety and quality of the corn. Reduce the inside measurement of your crib to cubic inches, and divide the amount by 4,300 and your quotient will be the number of bushels, the rule is based on the fact that there are 2,150 cubic inches in a bushel, ignoring a small fraction.

"We estimate 2 bushels of ears for 1 of shelled corn; therefore divide by double the amount of cubic inches in a bushel, 4,300; and I have always been willing to buy or sell on this basis where it was impracticable to weigh. Your crib 20 by 10 by 5, by this rule, would contain 401 bushels plus a fraction."

Cyrus Moberley, who lives near the Madison and Garrard line, has in his possession a curiosity in the way of a cucumber that has been incased in a glass bottle for over forty years. The cucumber was placed in its glass receptacle when not far beyond the blooming stage, and was allowed to remain until it reached maturity and it was no longer possible to remove it through the narrow apperture. Mr. Moberley's mother inserted the tiny vegetable into its glass envelope, and he has preserved it for over forty years as a memento and a curiosity.—Richmond Pantagraph.

HEAVY LAMBS WANTED.

Experiments at the Missouri Station shows that lambs weighing bes: at birth gave much better weekly gains then the lighter ones. The nine pound lambs at birth gained two pounds weekly per head more than those having a birth weight under eight pounds. This shows the great advantage gained by raising heavy lambs at birth and proves to us that we want to use methods that will tend to produce such animals. Remember that much depends upon the condition of the mother and to her we must look for our best results in heavy lamb breeding.

The summary of results of the experiment are:

1. The birth weight of lambs is largely or entirely controlled by the mothers.

2. The lambs having the heaviest birth weights were from the heaviest ewes. The birth weights of the lambs and the weights of their dams seem to be closely correlated and vary together.

3. Neither the breed nor the size of the rams used, were determining factors in fixing the birth weight of the lambs.

4. Male lambs were sixteen per cent heavier at birth than female lambs.

5. The male lambs made a slightly better gain for an average period of seven weeks after birth than did the female lambs.

6. The average birth weight of twin lambs was only one-half pound below the general average.

7. The gains of the lambs for an average period of seven weeks after birth were decidedly in favor of the lambs having a heavy birth weight.

A TERROR TO EVIL-DOERS.

Deputy Sheriff. B. B. Hume.

Burglars entered the general store of W. R. Miller, at Big Bone, last Thursday night, and stole a considerable amount of clothing, and left a note thanking him and informing him that they would call again. Deputy Sheriff B. B. Hume was given the case, and in a few hours he had secured a clew and was in pursuit of the thieves, tracing them to Covington, where he soon located them and took them into custody. They were George McIntyre, 19, and James McIntyre, 17, who spent a few days last week, hunting in Big Bone neighborhood. At first the boys denied knowing anything about the robbery, but they finally confessed, and took the officer to a coal shed near at hand, where they had concealed the stolen goods. The officer lost no time in landing the young men in jail here to await the action of the grand jury next week, and if they do not go over the road it will be a great surprise to many. Mr. Hume's fast work in this case is in keeping with that which he has been doing along that line ever since he became deputy sheriff, and he is now a terror to the evil does in his part of the county.

J. M. EDDINS, Collector.

Alexandria, Ind. Nov. 26, '02.

To the Editor of the Recorder:

I made a nice little trip through Boone not long ago via the old reliable, broad-guage, double-tracked Recorder route, eating melons at Pete, pie at Burlington, fish at the Commissary, chicken at Hathaway, possum at Beaver, to finally land on the bridge of "Tiger," in Union.

Of course we all understand that this trip of 130 miles was purely one of the imagination, and yet, it afforded pleasure and fun for me, and of necessity did no one else harm. I would, in all probability, have been sitting on that bridge until now (wrapped in the solitude of my own originality and perhaps 20c worth of clothes), thinking of events that cast their shadows before (even if they never come) if it had not happened that a letter came from an old friend away out in Texas asking if we would accept his assistance in starting a paper in Union to be known as the Union Blade, and also asking what I was thinking about as I sat there.

With your permission, Mr. Editor, I will give our Texas friend some ideas of what a fellow could think about as he sat on that bridge if his thinker was in good order. I might have thought of getting a gun from James Bristow, some gunpowder from Bro. Floyd, a bird dog from Lee Busby to go hunting on Bro. Batterson's Mound Field Farm, but I didn't. I might have let my thoughts cut a few pigeon wings away back into the past, any 25 years, and remembered how the boys of Union use to sit on that bridge at midnight smoking long green as their feet "hung over," but really I neglected to do it. I did think, and always will think that it the rough hewn boards of that bridge could talk they would tell how lots of the boys who smashed "long green" on that bridge twenty-five years ago, and made love to the goddess of fortune in at least ten different languages, now occupy some of the best positions, and are a power in law, in medicine and business generally—Capt. Lute, Dr. Joe, Judge John, Major Henry and a host of equally good fellows are in evidence to prove that smoking long green on "Tiger" was productive of good to everybody, except some.

The citizens of Union have held that bridge in high repute as a place to rest, to smoke, to confer and debate, to devise plans, to carry out plans devised and for that reason, most every man in Union and vicinity had sit down and thought there as I did. Uncle Ad told me that plans were devised upon that bridge for helping Gen. Morgan get through the "lines," and on to the South, and that's only one incident in its war history to think about. In times of peace men from all parts of Boone county have held caucuses on "Tiger" to settle questions in politics, and many a man who got up in the morning of his political career, like a rose geranium, went to sleep on a bed of thorns after the caucus was over, to never be "it" any more. Esq. Bannister wrought in iron and fashioned in steel for years right alongside of that bridge, and he can tell a thousand things about "Tiger" that will be entertaining if he will only do it.

Our friend in Texas must remember that the Union Blade has existed for 5 years, 2 months and 22 days as no paper in the world ever existed before or since, i.e. without money and without price. The paper, like the Nantucket Indian, was born at Nantucket and all along up shore—it had no father or mother, but really "just growed." It never had any head or headquarters, simply because it needed none. The Blade was conceived in a spirit of fun, but it was never funny; one thing about it, the paper was democratic in as much as it hit everybody alike—rich and poor, the attractive and unattractive, the man who rode in his automobile took equal chances with the man who "walked begorra" and so it went. Our friend in Texas must also remember that a paper run five or six years as a myth, would be hard to put on a dividend paying basis, even in such "prosperous times" as we are now having, with the people "Twisting" in every thing except the law of equal justice to everybody and special privileges to nocc.

I appreciated the letter from our friend in Texas, offering kindly assistance, and when I get over to Union again, as I hope to by Christmas, I shall consult with the Editor and if they decide that the Blade may publish such pleasing, funnygraphs as "hogs being killed with cathartic pills shot from a rifle;" cakes walking, rocks talking, ghosts climbing, etc. I will then decide to open up for business—with "Jonas" as fighting Ed; "Johnny" as medical examiner, and "Angel" to sing a requiem de totum over what's left after the first issue.

Hoping that Spencer, Richard and Willie may be ready for freezing or fishing, as the case may be, and Christmas may come with a carload of good luck for the RECORDER, all its correspondents and readers, I am most cordially,

ED UNION BLADE.

CHAS. F. KELLY ARRESTED.

He is Wanted in St. Louis in Connection With Bribery Charges.

Philadelphia, Nov. 29.—After eluding arrest for several months, Charles F. Kelly, the former speaker of the St. Louis house of delegates who is wanted in St. Louis in connection with the bribery cases unearthed there some time ago, was arrested in this city Friday afternoon. Kelly arrived in New York on the steamer Celtic Friday morning from Liverpool and had just stepped from the western express in the Broad street station here when he was taken into custody by Detective James Tate, sr., of the detective bureau of this city. He admitted his identity and is now locked up in the Central police station.

Kelly was crestfallen when he reached the police station. "I was on my way back to St. Louis," he said, "and meant to announce my arrival there Monday and give myself up to answer whatever charges have been laid against me. I had been absent in Europe for several months and spent most of my time in Ireland. On my arrival in New York this morning I received word that my son had died in St. Louis. As soon as I stepped from the steamer it was suggested to me by an old acquaintance that I come to Philadelphia for a few days. I came here and now I find myself under arrest. That's all there is to it."

St. Louis, Nov. 29.—Charles F. Kelly, former speaker of the city council, known as the house of delegates, was the most badly wanted of all the members of the coterie known as the "combine," indicted on charges of bribery in connection with the passage of the municipal lighting bill. Kelly was wanted because he, it was charged, handled the $47,500 bribe money which, according to evidence, had been distributed among the 19 members of the "combine." Where did this money come from? That was the question the grand jury wanted answered, and believing that Kelly could furnish the answer, he was indicted on September 8. He was at the four courts when the indictment was made against him. A deputy sheriff told him he was wanted. Kelly asked permission to run over to the council chamber to attend to an important matter, saying: "If you need me before I get back telephone me at the house of delegates." That was the last seen of him by any officers of the law until his arrest in Philadelphia Friday.

SULTAN OF BACOLOD.

He is Indignant and Challenges the Americans to Fight.

Manila, Nov. 29.—Constabulary Inspector Hendryx, who has been stationed in Samar island was killed last Tuesday by a band of Ladrones. The reports regarding his death are mea ger and indicate that Hendryx was at tacked by a superior force of Ladrones His detachment of constahulary was routed and Hendryx, with one soldier, was sourrounded and killed.

The sultan of Bacolod, after professing friendship for America, has written a letter to Capt. Pershing at Camp Vicars in which he calls Americans "Hogs—hogs that eat hogs," and challenges them to fight. It is probable that Capt. Pershing will be ordered to take a column to Bacoiod. The military men, however, doubt whether the sultan will really fight.

COLOMBIAN INVADERS.

They Were Defeated and Obliged to Recross the Frontier.

Caracas, Venezuela, Nov. 29.—The Colombian invaders under Gens. Garbiras and Espiritu Morales, after several defeats, were obliged to recross the frontier November 25. They left numerous prisoners in the hands of the Venezuelan troops, among them Chief of Staff Briceno, who was abandoned in a wounded condition, and a quantity of ammunition.

The revolutionary general, Matos, is still lying sick at Willemstad, Curacao.

Corbett-McGovern Fight.

San Francisco, Nov. 29.—Morris Levy, of the Hayes Valley Athletic club Friday forwarded to J. R. McLean, of Cincinnati, a certified check for $5,000 which the club posts for a guarantee that it can pull off the Corbett-McGovern fight. It is proposed that the fight take place in this city about Christmas.

Two Killed and Two Injured.

Macon, Ga., Nov. 29.—By the explosion of a boiler used with a stationary engine at Lizella, a small station on the Macon & Birmingham railroad, ten miles from this city, Friday afternoon, two men were instantly killed and two injured, one of them being in a critical condition.

Business Failures.

New York, Nov. 29.—Business failures in the United States for the week ending Thursday, November 27, number 180, as against 201 last week, 181 in this week last year, 184 in 1900, 177 in 1899, and 212 in 1898. Canadian failures number 19, as against 19 last week.

Dismissed From the Service.

New York, Nov. 29.—Edward F. Croker, chief of the fire department, who recently was tried on a series of charges, was declared guilty by Commissioner Sturgis and was dismissed from the service, the dismissal to take place on December 1.

Frozen to Death.

Pittsburg, Pa., Nov. 29.—Johnnie Patterson, a well-known barber of Greensburg, 30 miles east of Pittsburg, was found frozen to death at Jeannine station Friday morning. He was 55 years old and leaves a wife.

THE THREE YEARS WAR

Gen. De Wet, in His Book, Spares Neither Briton Nor Boer.

Gen. Knox Is the Only British General Who Seems to Have Struck DeWet as a Commander With Military Genius.

London, Dec. 1.—"Had not so many of our burghers proved false to their own colors, England, as the great Bismarck foretold, would have found her grave in South Africa." That is the keynote of the Boer Gen. DeWet's book entitled "Three Years' War."

It is perhaps the most remarkable book by the most remarkable leader that any recent war has produced. The concise, simply told tale of the extraordinary campaign is marked throughout with the stamp of truth. The baldness of the narrative only serves to bring into strong relief the fiery passages over a strong man literally hlurts out his soul in pathetic regret or bitter denunciation.

In thus taking the public into his confidence DeWet loses nothing of the glamor with which his exploits in the field surround him. In criticising he spares no one; Boer and Briton come equally under the lash. DeWet declares that whatever the English people may have to say in discredit of Gen. Buller, he had to operate against stronger positions than any other British general. Throughout the work the Boer general had but slight praise for Lord Roberts and little more for Lord Kitchener. Gen. Knox is almost the only British general who seems to have struck DeWet as a commander with military genius.

Of "Tommy Adkins" he has many kindly words to say and declares "the British were far from being bad shots." The comparative immunity of the Boers from harm DeWet constantly and most fervently attributes to the interposition of God.

"If any reader," he says, "is eager to know how it was I kept out of the enemies' hands, I can only answer, although I may not be understood, that I ascribed it to nothing else than this—it was not God's will that I should fall into their hands. Let those who rejoice at my miraculous escapes give all the praise to God."

Nevertheless the book teems with accounts of military and other strategies by which DeWet outwitted his pursuers.

PARENTS ARRESTED.

They Are Suspected of Killing Their Two Children For the Insurance.

Philadelphia, Dec. 1.—After carrying on for a period of several weeks an investigation into the cause of the death of Annie Williams, aged 9 years, and her 3-year-old sister Josephine, on October 21 and 22 respectively, the police authorities have deemed it proper to detain at a police station the parents of the dead children. The father, John W. Williams, was taken into custody late Saturday night and the wife was removed to a police station Sunday along with her other three small children. Annie and Josephine died of what the attending physician thinks was poison, and so notified the coroner. A chemical analysis made by direction of the coroner tended to prove the doctor's theory, and the arrest of the parents followed. It is said the dead children were insured, the older one for $115 and the younger child for $30. Williams and his wife deny that they were the cause of the death of the two children.

SENATOR MARK HANNA.

Has No Intention of Resigning From the Senate or Chairmanship.

Washington, Dec. 1.—Senator Hanna Sunday night denied all reports that he intended to resign from either the senate or the chairmanship of the republican national committee.

"I'm not going to resign from anything," he said, and added: "Such a thought has never entered my head." He said he would serve out his term as senator and it would then be for the people to say whether he was to retire.

He said: "Neither will he retire from the chairmanship of the republican national committee until after I have called the next convention to order. If the new national committee be selected by the delegates to that convention does not ask me to become its chairman I will not have to pass upon the subject of my retirement. If it does tender me the chairmanship, then I shall have to decide whether I will accept or not."

The Czar Will Visit Rome.

Rome, Dec. 1.—The pope gave an audience to the Grand Duke Sergius, who announced to his holiness the czar's intention to visit Rome. The pope said that he anticipated with great pleasure making the personal acquaintance of the emperor of Russia.

Train Robber's Long Sentence.

Knoxville, Tenn., Dec. 1.—Harvey Logan, the Montana train robber, was given ten sentences aggregating 130 years. Eight sentences are for 15 years each, to be served concurrently, and two sentences are for five years each, to be served concurrently.

To Ship Cattle From Halifax.

Halifax, N. S., Dec. 1.—Owing to the cattle embargo on New England ports, the agents of the Leyland line of Boston, are making arrangements for the housing and shipment of cattle and sheep from here.

MOROS SURPRISED.

Found Americans Had Neither Horns Nor Tails.

Manila, Dec. 1.—Capt. Pershing, with 60 men, has completed a march across the island of Mindanao from cape Camp Vicara to Illigan. This is possibly the first time that white men have made the journey. Capt. Pershing visited the villages of Madaya and Marahui. On his way to Madaya he found the moros more surprised to learn that Americans were not monsters ten feet tall, with horns and tails. At Marahui he addressed 500 Moros, telling them of the friendly purposes of the Americans. Representatives of the Nato and Docapatan tribes, which are now at war, asked Capt. Pershing to arbitrate the difference between them. The captain agreed to visit them and give his arbitration on his return journey to Camp Vicara. No hostility was shown towards the column on the march.

The constabulary in the Zembalen province reports a repulsive incident of cruelty perpetrated by Ladrones. Several columns of constabulary had been chasing the Ladrones with the assistance of friendly natives. Five of the friendlies straggled from the column and were captured by Ladrones, who amputated the tongue and gouged out the eyes of one friendly and then sent him back to the constabulary. The fate of the other friendlies is unknown.

The efforts to restore agriculture in the Philippine islands have been blocked by a dearth of field animals. Ninety per cent. of the Carabos died in the original epidemic of hinderpest, and of the small number many have died.

The government has planned an extensive importation of these animals to meet the crying need, and had arranged to have them immuned. It was forced to abandon this plan on account of lack of money to meet the purchases. The general cultivation of the plantations is impossible without them, and the absence of any immediate prospect of getting the field animals leaves the agricultural situation in a serious condition.

THE ARMY.

Annual Report of Secretary of War Elihu Root.

Washington, Dec. 1.—The annual report of Secretary of War Elihu Root was made public Sunday. The report is a review of the military activities of the year, and deals at length with the military administration of Cuba and the insurrection in the Philippines.

The creation of a general staff, Secretary Root says, is the most pressing need of the army. Our military system is still exceedingly defective at the top. We have a personnel unsurpassed anywhere, and a population ready to respond to calls for the increase of the personnel in case of need, up to the full limit at which it is possible to transport and subsist an army. We have wealth and a present willingness to expend it reasonably for the procurement of supplies and materiai of war as plentiful and as good as can be found in any country. We have the different branches of the military service well organized, each within itself for the performance of its duties. But when we come to the coordination and direction of all these means and agencies of warfare, so that all parts of the machine shall work true together, we are weak. Our system makes no adequate provision for directing brain which every army must have to work successfully.

Death On a Boat.

Escanaba, Mich., Dec. 1.—Pat Downey, a deck hand on the steamer Maryland, met instant death as the result of a scuffle with two other deck hands on the boat. The three men were wrestling on the boat, which was unloading coal on the St. Paul dock, when they all fell to the deck below. Downey's neck was broken and he died instantly. George Belerol's collarbone was broken and Joe Malarkey suffered a serious scalp wound.

Many Hunters Killed or Wounded.

Milwaukee, Wis., Dec. 1.—The season for hunting deer in the northern woods closed Sunday. Fatalities have been unusually frequent in the woods this season, 14 men having been killed while hunting in the states of Minnesota, Wisconsin and Michigan. At least 11 others have been shot and seriously wounded.

Terrific Boiler Explosion.

Chicago, Dec. 1.—With a deafening report, a boiler in Swift & Co.'s boiler house exploded Saturday. Thirteen lives were sacrificed and scores of employes, visitors and others were injured. Huge boilers were sent through the roof of the structure and hurled hundreds of feet.

Killed in a Runaway.

Philadelphia, Dec. 1.—James B. Marcoe, a banker and society man, was killed in a runaway accident. Clarence Dunbar, the footman; George Tomlinson, the coachman, and Harry Grady, a pedestrian who attempted to stop the frightened horses, were badly injured.

Death of Uriel B. Smith.

Milwaukee, Wis., Dec. 1.—Uriel B Smith, who was the father of the first white child born in Milwaukee, died in Chicago Sunday at the residence of his daughter, Mrs. C. A. McDonald. Mr. Smith came to Milwaukee in 1835 and was 91 years old.

Responsible For Krupp Charges.

Hamburg, Dec. 1.—The German Painter, Christian Allers, a resident of Capri island, who, it is alleged, was responsible for the charges brought against the late Herr Krupp, has been arrested at the Swiss frontier.

CONGRESS IN SESSION.

Both Branches Called to Order Monday Noon.

Probably One of the First Measures Taken Up Will Be to Defray the Expense of the Coal Strike Commissioners.

Washington, Dec. 1.—The senate was called to order at noon Monday. The present week will barely witness the beginning of the three months' work. The usual committee of two senators was appointed to call on the president and resolutions of regret for the death of Senator McMillan, of Michigan, brought the day's session to a close a few minutes after assembly. Tuesday the president's message will be read and beyond this no business will be attempted that day. The sessions of Wednesday and Thursday will also be brief with an adjournment from Thursday until the following Monday.

The admission of the territories of Oklahoma, New Mexico and Arizona as states of the union probably will be the subject of general importance to receive attention of the senate. Other questions which, in addition to the appropriation bills, are expected to receive attention of the senate at this session are the trusts, the tariff and Cuban reciprocity. It is possible that the Cuban question may be postponed until the pending commercial treaty with the Cuban government shall be transmitted to the senate, but there has not been any determination on the point. Very few republican senators admit the probability of any change of the tariff law during the present session, but some bills to modify present schedules may be introduced and speeches made thereon. Some senators speak of the creation of a tariff commission as a possibility, but there are differences of opinion as to the utility of such a body. There is quite a unanimity of opinion favorable to anti-trust legislation and this opinion goes to the extent of predicting results along the lines indicated by Attorney General Knox for the amendment of the anti-trust law. Differences of opinion as to the constitutionality of some of the proposed changes have developed already.

The house convened Monday but the session was brief. The roll was called and the announcement of the deaths that have occurred during the recess was made. The house then adjourned until Tuesday when the president's message will be read. There is no program for the remainder of the week beyond the bill to defray the expenses of the coal strike commission.

When the house convened to enter on the final session of the 57th congress a perfect deluge of bills dealing with the trust question in all its phases was thrown into the legislative hopper. It is admitted on all hands that this will he the most important topic of discussion. Indeed, the leaders incline to the belief that beyond the appropriation hills and routine legislation it will be the only general subject on which there is a chance of action at the short session. As yet the leaders have formulated no measure and there exists a pretty wide divergence of opinion is to what can or should be done. The president's recommendations on the subject are awaited with interest.

The leaders already have resolved to expedite the appropriation bills as much as possible in order to allow the largest margin of time for other matters. Mr. Cannon, chairman of the appropriations committee, believes that the legislative, executive and judicial and the pension appropriation bills can he disposed of before the holidays. His committee will go to work at once and prepare the supply hills as rapidly as possible. The legislative and pension bills probably will be read before the end of the week. One of the first things the appropriation committee will be called on to do, however, is to prepare a bill to provide for the coal strike commission.

TO FILL UP LANDS.

Effort to Be Made in Colonizing in Louisiana and Texas.

Chicago, Dec. 1.—More than $100,000 will be spent by the management of the Southern Pacific in the next five months in colonizing Southwestern Louisiana and Southern Texas. This decision to increase the efforts and expenditure which are being made to fill up these lands was reached in a general meeting of representatives of Harriman lines held here last week and closing Sunday night.

Deer For Mrs. McKinley.

Milwaukee, Wis., Dec. 1.—A deer consigned to Mrs. McKinley, in Canton, O., passed through here by express. The animal was a magnificent one and was killed and forwarded to the widow of the martyred president by a member of a party of Canton sportsmen now hunting in the northern part of the state.

To Renew Diplomatic Relations.

Caracas, Venezuela, Dec. 1.—The Venezuelan general, Antonio Velutini, has been appointed minister plenipotentiary to France. He will renew the diplomatic relations between the two countries which have been ruptured since 1894.

William Wilkins Expires.

Baltimore, Dec. 1.—William Wilkins, senior member of the bristle and hair factory of William Wilkins & Sons, died Sunday night at his home in this city, aged 57. The firm has a branch in Chicago.

SO PRESUMING OF HIM.

With Only $75,000 a Year He Had No Reason to Expect That He Had a Chance.

The yellow moon hung by its crescent hook against the starlit azure of the September sky, and the night was dreamy, delicious, divine, says the New York Herald.

The man and the maiden walked beneath the silent stars and listened to the purple music from the dusk. Her jeweled fingers rested lightly on his arm, and he felt them there as trembling harp-strings feel the touch of angel hands that summon forth the soul's high harmonies.

His heart beat fast and the red blood ran riot in his veins, for love had placed its chalice to his lips and he had drunk his fill. He had not spoken, but he felt the spirit of the hope that makes men dare do anything and now this night of nights should see him conqueror of the maiden's heart.

"A penny for your thoughts," he whispered, bending low to look into her sweet, soft eyes.

"No money?" she murmured, looking up at him, to let those blue eyes fall again.

He caught her hand in his and let his full heart flow.

"All I have in the world," he said, sublimely.

"Too little," she responded, with firmness.

And then he knew that some of his hated rivals had told her he had but $75,000 a year income and no rich relatives.

Ethel—"Father, please give me a nickel." Father—"Don't you think you're too big to beg for a nickel?" Ethel—"Spose you give me a quarter, then."—Detroit Free Press.

"No," said the bride-to-be, "I didn't accept Jack the first time he proposed." "How could you?" replied Miss Wyrwell. "Why not?" "You weren't there."—Philadelphia Press.

WONDERFUL WORK.

Case No. 18,977.—David M. Bye, P. O. Address Box 297, Midland, Mich., says: "Three months I was almost incapacitated from labor; could not sleep at night; had to walk the floor, owing to terrible pain in the hips, in the small of the back, in my instep and ankle of the right leg.

"I was treated for sciatic rheumatism in the hospital, but received no benefit. One month ago I returned home and was given a box of Doan's Kidney Pills. To-day residents of this city can bear witness to the fact that I am able to work, and can also walk to my work without the aid of a walking-stick or crutch.

"In speaking of the immediate effect of Doan's Kidney Pills, I did not find them to deaden the pain, but quickly and surely to eradicate the cause of it.

"I am of the opinion that Doan's Kidney Pills is the best remedy for kidney ailments that can be procured. I was especially careful in my diet, in order to give the treatment fair play.

"In conclusion, I shall be pleased, at any time, to answer any inquiries regarding my case, from anyone desirous of obtaining it."

A FREE TRIAL of this great kidney medicine which cured Mr. Bye will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

ROOSEVELT TO CONGRESS

His Annual Communication Upon Questions of Importance to the Nation.

VIEWS ON THE TRUSTS AND TARIFF

A Lowering of Import Duties Would Not Remedy the Evils of Monopoly—Believes in a Tariff Commission—Much That Is Good in Labor Unions and Corporations—Many Needs of the Nation.

To the Senate and House of Representatives:—The country continues in a period of unbounded prosperity. This prosperity is not the creature of law, but undoubtedly the laws under which we work have been instrumental in creating the conditions which made it possible, and by unwise legislation it would be easy enough to destroy it. These will undoubtedly be periods of depression. The wave will recede; but the tide will turn, and the nation will enter upon a continued period of progress, when, as one continent thinking by two great oceans, a population of 100,000,000 of men, the descendants of pioneers, or in a few cases of adventurous settlers, of men winnowed out from among the nations of the old world by the energy, boldness, and love of adventure which led their own eager hearts. Such a nation, so placed, will surely wrest success from fortune.

As a people we have played a large part in the world, and we are at the moment making our future even larger than the past. In particular, the events of the last four years have definitely decided that for weal or for woe our place must be great among the nations. We may, either fail greatly or succeed greatly; but we cannot avoid the endeavor from which either great failure or great success must come. Even if we would, we cannot play a small part. If we attempt it, all that would follow would be that we should play a large part ignobly and shamefully.

Causes of Prosperity.

No country has ever occupied a higher plane of material well-being than ours at the present moment. This well-being is due in part to the fortunate combination of causes, but to the play of the economic forces in this country for over a century; to our laws, our institutions, and our governmental policies; above all, to the high individual average of our citizenship. Great fortunes have been won, but in the years that have taken the lead in this phenomenal industrial development, and most of these fortunes have been won honestly as well as greatly. Even in the years when the wealth of the country has been piled up most rapidly, a small part only of the wealth acquired has been won by sharp practice or by doubtful methods, while the proportion of such wealth which represents the reward of service rendered to the community as a whole, of genuine benefit conferred upon mankind, is exceptionally large. Our prosperity has been based upon the business of supplying the needs of our own people, and the bulk of our wealth has been accumulated in the form of property which represents tools with which to do work, and which adds to the efficiency of labor. Finally, this material well-being has been very widely diffused among our people. Fortunes have been rapidly piled up, yet in the aggregate the fortunes are small indeed when compared to the wealth of the people as a whole. The plain people are better off than they have ever been before. The insurance companies, the great and economically mutual benefit societies—especially those managed by men of moderate means—represent accumulations of capital which are among the largest in this country. There are deposits in the savings banks, more owners of the small farms, better paid wage workers in this country now than ever before in our history. Of course, when the conditions have favored the growth of so much that was good, they have also favored the growth in some degree of what was evil. It is eminently necessary that we should endeavor to cut out this evil, but we must keep due sense of proportion; let us not in fixing our gaze upon the lesser evil forget the greater good. The wrongs are real and undoubted, them are menacing, but they are the outgrowth not of misery or decadence, but of prosperity and of the progress of our gigantic industrial development. This industrial development must not be checked, but side by side with it should go such progressive regulation as will eliminate the evils. We have not fully met our duty if we did not try to remedy the evils, but we shall succeed only if we proceed patiently, with practical common sense as well as resolution, separating the good from the bad and holding on to the former while endeavoring to get rid of the latter.

THE TRUSTS.

They Can Be Controlled Only by National Action.

In my message to the present congress at its first session I discussed at length the question of the relations of those big corporations commonly doing an interstate business, often with some tendency to monopoly, which are popularly known as trusts. The experience of the past year has emphasized, in my opinion, the need of the steps I then advised being proposed. A fundamental requisite of social efficiency is a high standard of individual energy and excellence; but this is in no wise inconsistent with power or efficiency in combination or alms which cannot so well be achieved by the individual acting alone. A fundamental basis of civilized life is the inviolability of property; but this is in no wise inconsistent with the right of society to regulate the exercise of that quasi-public power which confers upon the owners of property, under the name of corporate franchises, in such a way as to secure from them adequate returns for the privileges granted them. Corporations, and especially combinations of corporations, should be managed under publicity of action. Experience has shown that under our system of government no really adequate supervision cannot be obtained except by national action. It must therefore be achieved by national legislation. It is not to do away with corporations; on the contrary these big aggregations are an inevitable development of modern industrialism, and the effort to destroy them would be futile unless accomplished in ways that would work their utmost harm to the body politic. We can do nothing of good in the way of regulating and supervising these corporations until we get it clearly in our minds that we are not attacking the corporation, and endeavoring to do away with any evil in them. We are not hostile to them; we are merely determined that they shall be handled in such a way as to subserve the public good. We draw a line against misconduct, not against wealth. The capitalist who, alone or in combination with his fellows, performs some great industrial feat by which he wins wealth is entitled to our admiration, provided only he works in proper and legitimate lines. We wish to favor such a man when he does good work. We wish to supervise and control his actions only to prevent him from doing ill. Publicity can do no harm to the honest corporation; and we need not be overtender about sparing the dishonest corporation.

Must Exercise Care.

In curbing and regulating the combinations of capital which are or may become injurious to the public we must be careful not to stop the great enterprises which have legitimately reduced the cost of production, not to abandon the place which our country has won in the leadership of the international industrial world, not to strike down wealth with the result of closing factories and mines, or turning the wage-worker idle in the streets and increasing the farmer without a market for what he grows. Instance upon the impossible means delay in achieving the possible, exactly as, on the other hand, the stubborn refusal to see the need of any change, the impulse to trust wholly to the wisdom of the past, may bring destruction to the present and future alike. What we need is patiently to learn by experience, and yet not to be afraid to apply remedies which experience shows are needed. Our aim must be to secure the benefits and minimize the harm. In my judgment we can accomplish this result only by the exercise of the right of supervision and regulation over the great business concerns engaged in interstate commerce, and by placing the work of supervising and regulating in the hands of a single commission or bureau.

I believe that monopolies, unjust discriminations, which prevent or cripple competition, fraudulent overcapitalization, and other evils in trust organizations and corporations which injuriously affect interstate trade can be prevented under the power of the congress to "regulate commerce with foreign nations and among the several states" through creating the several states operating directly upon such commerce, the instrumentalities thereof, and those engaged therein.

I therefore recommend this subject to the consideration of the congress with a view to the passage of a law reasonable in its provisions, conservative in its operations, and unquestioned that now raise doubts as to the necessity of constitutional amendment. If it prove impossible to accomplish the purposes above set forth by such a law, then, assured that it is impossible to do so, amending the constitution so as to secure beyond peradventure the power sought.

THE TARIFF.

It Is a Subject That Stands Apart from the Trusts.

One proposition often vociferously urged has been the reduction of the tariff as a means of lessening the evils of the trusts which fall within the field of interstate commerce. Not merely would this be wholly ineffective, but the diversion of our efforts in such a direction would result in permanent damage to all intelligent attempt to do away with the real evils. The mere fact of the largest corporations in this country being engaged in interstate business certainly be included in any proper scheme of regulation, would not be affected in the slightest degree by a change in the tariff law, in so far as such change interfered with the general prosperity of the country. The only relation of the tariff to big corporations as a whole is that the tariff makes manufactures profitable, and that the profits thus made possible are in effect simply due to make manufactures unprofitable. To remove the tariff as a means of giving profit directed against trusts would inevitably result in ruin to many of the competitors who are struggling against them.

Profits can be put by unwise tariff changes to give foreign manufacturers an advantage over domestic products, but by proper regulation of the tariff we can give domestic competition a fair chance; and this is all that can be done by any tariff changes which would affect unfavorably all domestic competitors, good and bad alike. The question of the regulation of the trusts stands apart from the question of tariff revision.

Stability of economic policy must always be the prime economic need of this country. This stability should not be fossilization. The country has acquiesced in the wisdom of the protective principle. It is exceedingly undesirable that this system should be destroyed or that there should be violent and needless changes therein. Our past experience shows that great prosperity has in this country always come under the operation of a protective tariff, and that the country cannot prosper under fitful tariff changes in accordance with party interests. Moreover, if the tariff laws as a whole work well, it is certain that a dislocation of our system, the mere threat of which (not to speak of the performance) would produce grave injury to the business energies of the community. The first consideration in making these changes must be the avoidance of violent disturbance. It is most earnestly to be wished that we could take the tariff from the standpoint solely of our business welfare, leaving entirely out of consideration the question of the wage-worker, like the welfare of the tiller of the soil, should be treated as an essential factor in framing our whole economic policy. There must ever be a standard of comfort, and a standard of wages of the American wage-worker.

One way in which the readjustment sought can be reached is by reciprocity treaties. It is greatly to be desired that such treaties may be adopted. They can be used to widen our markets and above all to give a greater field for the activities of our merchant marine. On the one hand, and on the other to secure in practical fashion the lowering of duties when they are no longer needed for purposes among our own people, or when the minimum of injury to our industries will be done by the reduction. Reciprocity treaties, and if there seem to be no warrant for the present time to execute others, or to amend the pending treaties so that they can be ratified, then the same end—to secure reciprocity—should be met by direct legislation.

Need of a Tariff Commission.

Wherever the tariff conditions are such that a needed change can be made with advantage to the business of the country by the application of the reciprocity idea, then it can be made outright as a lowering of duties on a given product. If possible, such changes should be made only after the fullest consideration by practical experts, who should approach the subject from a business standpoint, having in view both the particular interests affected and the commercial well-being of the people as a whole. The machinery for providing such careful investigation can readily be supplied. The executive department has already at its disposal many methods of collecting facts and figures; and if the congress desires additional consideration to that which will be given the subject by its own committees, then a commission or a business expert can be appointed whose duty it should be to report after action by the congress after a deliberate and scientific examination of the various schedules as they are affected by the changed and changing conditions. Such a commission and unbiased report of this character would show what changes should be made in the various schedules, and in these changes could go without also changing the great principle upon which this country is now enjoying, or should enjoy, its fixed economic policy.

The cases in which the tariff can produce a monopoly are so few as to constitute an inconsiderable factor in the problem. It is of course if in any case it be found that a given rate of duty does promote a monopoly which works hardship that provision would object to such reduction of the duty as would equalize competition.

In my judgment, the tariff on anthracite coal should be removed, and anthracite put actually, where it now is nominally, on the free list. This would have no effect at all save in crisis, but in better, where possible, to invoke such a crisis it might be of service to the people.

Needed Financial Legislation.

Interest rates are a potent factor in business activity, and in order that these rates may be equalized to meet the varying needs of the seasons and of widely separated communities, and to prevent the recurrence of financial stringencies which injuriously affect legitimate business, it is necessary that there should be an element of elasticity in our monetary system. Banks are the natural servants of commerce, and upon them should be placed, as far as practicable, the burden of furnishing and maintaining a circulation sufficient to supply the needs of our diversified industries and of our domestic and foreign commerce; and the issue of bank notes should be so regulated that a sufficient supply should be always available for the business interests of the country.

It would be both unwise and unnecessary at this time to attempt to reconstruct our financial system, which has been the growth of a century; but some additional legislation is, I think, desirable. The methods of any plan can be efficiently comprehensive to meet these requirements without transgress the appropriate limits of this communication. It is suggested, however, that all future legislation on this subject should be with the view of encouraging the use of such supply as will be automatically responsive to the demand for productive industries and of commerce, not only in the amount, but in the character of circulation, and especially the issue of money interchangeable, and, at the will of the holder, convertible into the established gold standard.

THE LABOR PROBLEM.

Unionism Contains Much That Is Good and Some Bad.

How to secure fair treatment alike for labor and for capital, how to hold in check the unscrupulous man, whether employer or employee, without hampering individual initiative, without hampering and preventing the industrial development of the country, is a problem which presents great difficulties and one which it is of the utmost importance to solve on lines of sanity and far-sighted common sense as well as of devotion to the right. This is an era of federation and combination. Exactly as business men find it essential to work through corporations, and as it is a constant tendency to make these corporations to grow larger, so it is becoming essential for laboring men to work in federations, of which the most conspicuous portant factors of modern industrial life. Both federation, capitalistic and labor, can do much that is good, and a necessary corollary they can both do evil. Each should be a kind of organization whatever is bad in the conduct of any of its members should be discountenanced by the rest. Each should remember that in addition to the question of right and wrong in the abstract, of lofty and generous conduct toward every employer, every wage worker, must be considered the liberty and his right to do as he likes with his own, so long as his conduct does not infringe upon the rights of others. It is of the highest importance that the employer should allow to his employee a due share of the benefits which have accrued because of the progress of industrialism, and should show a proper regard for the welfare, the feelings, and the wishes of those who work for him, whether in matters affecting their labor directly or affecting their lives outside of their labor. On the other hand, the employee should show due regard for the interests of the employer, and refrain from abusing his position either to do him injury or to enrich himself. Violence, brutality, and lawlessness should be instantly suppressed, whether exhibited by corporation or by union. Both employer and employee should be given the fullest protection in their lawful rights, and the public authorities should enforce the law with an even hand. Labor unions have rendered, and can render, great service to our people; without them the great progress in the conditions of labor which has taken place during the last half century could never have come about. Normally and rightly they have been powerful factors for peace and for progress. Nevertheless, like all combinations of men, they sometimes exhibit tendencies which are objectionable and even dangerous. Primarily the aim of labor unions is to secure by lawful means the betterment of the conditions of labor for those whom they represent; and this is a proper aim. Sometimes, however, they seek to secure it by refusing to permit their members to work with or for any man who does not belong to the union, by refusing to allow any man to work at a trade unless he has served an apprenticeship deemed excessively long by those already in the trade, by refusing to allow more than a certain number of apprentices to learn the trade, by limiting the amount of work which may be done by any man, by preventing the use of improved machinery, and sometimes by refusing to allow any work to be done on material furnished by firms employing nonunion labor. Finally, in exceptional cases, they have gone so far as to commit or encourage acts of violence and brutality toward nonunion workmen, and even toward innocent persons, in the course of struggles between unions and employers. Such practices are criminal, and cannot be too severely condemned. Nothing can be said in favor of the men who practice them, and they should be sternly put down by the law-abiding members of labor unions. Moreover, these unions should remember that the conduct of their members reacts on the unions themselves, and that they are responsible for the good behavior of their members toward outsiders. Finally, they should remember that in addition to the question of right and wrong in the abstract, of lofty and generous conduct toward every employer, every wage worker, must be considered the liberty and his right to do as he likes with his own, so long as his conduct does not infringe upon the rights of others. It is of the highest importance that the employer should allow to his employee a due share of the benefits which have accrued because of the progress of industrialism, and should endeavor to appreciate fairly the point of view of the employee, to remember that he has his rights as a human being, and that if he is treated like a mere machine he will become resentful and will strive to secure by violence the rights which he can not secure by appeals to his employer's reason and conscience

PETERSBURG, KY., Dec. 1, 1902.

To the Editor of the Recorder:

I just want to say a little bit about Sunday School work, for we are all interested in the grand work, and think this letter may help some other person or persons in the community at large. We are going to have a jolly good time here on Christmas eve. I'll tell you about it. Well, as Pres proclomonly told you, we divided our school into the reds and blues. Now the losing side will give the winning side a grand supper Dec. 24th at 7 p. m., in Gordon's Hall. On the 14th of Dec. the contest will close and the winning side announced, then the losers will go to work. Each member of each side has a red or blue button which they wear, and on that night all wearing buttons will be admitted free, while those who cannot produce a button will be charged 25c, but they will get 25c worth of good eating; a nice sociable time will be had by all. I desire to say a word to those who do not attend Sunday-school some of our church members here and I suppose the rule applies to other places, I do not believe in Sunday school. Acts 5:42 says "They cease not to teach and preach." I Matt. 28:19 it positively says, "Go teach." How are they to get around this? They can't. If they are believers in the whole truth and wish to take God's Word as it reads, they should assist the Sunday School as well as the church. The officials of the church should go and have charge of part of the teaching, for it is the teaching service of the church. If they cannot teach, they should attend to see that the children are taught properly by their respective teachers. It's folly to say, an officer of the church did not know when the truth was being taught. He is supposed to be part of the congress of the church, an example, a helper, then I believe he should lend his presence to the school, and encourage it in all its branches. In fact, all members of the church should help; its a church service; its the place where your sons and daughters get their first knowledge (nine times out of 10) of God and His wonderful works. There is none too old to learn. If there is one who can receive no instruction from the school, then by all means, he should be there helping others. We have enrolled in our school at present something over 150 scholars, and they are good scholars at that. Most of them have fathers and mothers who are members of the church, yet out of all that number there is enrolled on our books a little over 20 names. Parents, you are neglecting part of your church duty. You should attend for two reasons: First—For your own benefit. Second—To encourage your children to learn more of God, and to help lighten the burden of their teacher, who has so many little minds to feed that are hungering for the precious word of Christ Jesus who died for the remission of their sins and your sins. Some parents are ever telling their children of God's love, and the grand truths and precious promises He has made in the great book. Yet, when the Sunday-school hour comes, pa will sit down and read the paper and ma will bake pies or something else, and send the little ones off to Sunday-school. What will be the result when the boy gets as big as pa, and the girl gets to be a young lady? They will quit the school because pa and ma don't go. It is said a little girl had been cross all day, and mama told her she must pray to Jesus to give her a better temper. That night the little girl prayed the children's prayer, then after asking blessings for mama, papa, sisters and brothers, she asked Jesus to give her a better temper, but, before she said amen, she raised her baby voice and said, "and dear Jesus, while you're at it, wont you please repair up mama's temper some too." Children watch our action—they are great imitators. Are you setting the proper example? EVERETT HELMS,
Supt. Christian S. S.

Three prisoners in jail.

Considerable rain fell yesterday.

A small crowd attended court Monday.

Jailer Adams and mother now occupy the Furnish property.

Don't forget J. C. Hankins' sale will take place next Monday afternoon.

A good communication from Hebron, had to go to the waste basket this week, because of not being signed.

In the county court Monday J. R. Clutterbuck was appointed administrator of Leslie Clutterbuck, and John Scothorn was released from work on public roads.

No mail came to the Burlington office Tuesday, at noon, consequently some communications and other matter intended for this issue arrived too late to be used this week.

R. F. Adams, of Union neighborhood, has a sale of personal property advertised for Dec. 13th, and same day Mrs. Belle Clore, of Bellevue, will have a public sale of horses.

W. P. Cropper, of North Bend was given a judgment in the quarterly court, yesterday, for $100 against Freiburg & Workum, owners of the steamboat Levi J. Workum, a White Collar Line packet between Cincinnati and Madison, Ind. A few months ago Mr. Cropper put some hogs in a pen on the river to be shipped to Cincinnati on the packet in opposition to the Workum. The Workum came up first that night and took the hogs aboard, nobody being at the pens to protest. Before the hogs reached Cincinnati some of them died, which Mr. Cropper alleged was due to the careless and negligent manner in which the hogs were handled, and he sued the owners of the boat for $100. The defendants did not appear and make any defense. Thornton Snyder atty. for plaintiff.

A Bedford woman suspected that her husband was in the habit of kissing the cook, and resolved to detect him in the act. Saturday night she saw him pass into the kitchen. The cook was out and the kitchen dark. The jealous wife took a few matches in her hand and hastily placing a shawl over her head, as the cook often did, entered the back door, and immediately she was seized, embraced and kissed in a very ardent manner. With heart almost breaking, the wife prepared to administer a terrible rebuking to the faithless spouse, and tearing herself away from the fond embrace she struck a match and stood face to face with—the hired man.

W. C. Green, of New York, and three other Americans have purchased a tract of 7,500,000 acres of land in the state of Sonora, northern Mexico, and will convert it into the largest cattle ranch in the world. Seven thousand miles of barbed wire will be required to fence it in and it will accommodate more than 50,000 head of cattle. Extensive irrigation will be established and farming on a large scale engaged in.

The greatest corn crop in the history of Indiana is now in shock and crib; greater by 88,203,000 bushels than last year, and exceeding by 22,665,000 anything heretofore known. The total crop is estimated at 175,886,900 bushels. This is an average of 38 9 bushels per acre. The total acreage is 4,521,000 acres.

An attempt to put a negro woman as a teacher in a school in Chicago was followed by a revolt of the pupils, who held an indignation meeting and vowed that no negro woman could teach them.

Sam Gunrod, of Limaburg, sent a sample of very fine tobacco to this office, last Monday.

BOONE COUNTY RECORDER.

VOL. XXVIII. BURLINGTON, KENTUCKY, WEDNESDAY, DECEMBER 10, 1902. NO. 8.

County Correspondence.

BELLEVUE.

Dec. 8.—Corn is selling here at 38c to 45c delivered.

Tony and Jacob Cook were visiting their uncle, Jake Klopp, Sunday.

Mrs. Sims, of Golconda, Ill., is the guest of her uncle, Michael Clore.

Lute Aylor, of Lawrenceburg, Ind., is visiting relatives in this and adjoining town.

Mrs. Lucy Parsons, of Indiana, was the guest of her brother, Tim Sandford, last Sunday.

Robt. Akin, of the Str. Swan, spent last Sunday at home, the first visit at home since April.

James H. Lawell recently shipped 27 porkers, averaging 310 pounds to the cith, realizing $6 80 per cwt.

Albert Snyder returned to the city, Friday, his sister, Miss Virgie, accompanying him, returning Saturday evening.

Orlando Snyder and family were visiting here on the 5th inst. His friends and relatives were pleased with his improved condition.

Hugh Arnold, of Petersburg, was down, last week, stripping tobacco. He and Will shipped 11 nice hogs to the city on the 5th inst.

Col. J. R. Akin, chief merchant at McVille, says that he will connect with the county seat by 'phone as soon as the company completes the line to this place.

Daniel Lawell, wife and Miss Myra Craig, of Burlington, were guests of his father and mother, last Thursday. Miss Myra is now visiting her aunt in Rising Sun.

Thos. Clore came near having a burn out at his residence on the 6th inst., as a result of a lighted match being used in the closet. Much wearing apparel was badly damaged.

Jacob Utzinger and John Keaton, of Idlewild, who are now in the U. S. employ on Str. Golden Rod, attended Sunday School here, last Sunday and broke bread with Robt. Green.

Twenty or more dollars left our town in the guessing contest of the Enquirer, and nothing returned but disappointment. We venture to say more money left Boone than returned.

Through the earnest solicitude of our "best half" were lead to believe that "the house we live in" would be in less danger if subjected to "vax-i-na shun" and as a result we have been on repairs for the past week, but will be on duty in a short time.

Ed Maurer, pilot of Str. Indiana, was off for a day last week. Speaking of pilots reminds us that there are now 6 of our Bellevue boys in the employ of the White Collar Line—two Maurers; two Brashers and two Lindenburns. Jacob Lindenburn was offered promotion but declined.

E. B. Atwood preached to an appreciative congregation, Sunday, at the Baptist church. James Kirtley, jr., will fill his appointment here on the third Saturday and Sunday in this month. Rev. Atwood expects to visit his parents in Western Kentucky the latter part of the month.

The Teachers' meeting at Beech Grove was very well attended, and much of the program carried out. But for the inclement weather, and a recent death in the community, the meeting would have been one of the most interesting one of the year. The teachers in charge, trustees and patrons had made every provision to entertain.

A number of young ladies of this place and several from near the Commissary, met at the residence of Thos. Clore on the 4th inst., and had a most enjoyable time. The day was spent in playing games of different kinds and vocal and instrumental music. The most amusing and interesting feature of the occasion was the "mock wedding," Miss Flora Arnold officiating. Those present were Misses Artie and Stella Kyle, Maud Scott, Flora Arnold, Eva Botts, Virgie Snyder, Corda Clore, Mary Huey, Grace Sutton, Manny and Fanny Clore and Mrs. Bess Kelly.

Dec. 9.—Many have butchered their porkers since the cold weather set in.

E. L. Grant and W. B. Arnold spent Sunday in Burlington.

James Rogers and sons are feeding a nice lot of cattle and hogs.

Whooping cough has made its appearance in this neighborhood.

J. O. Huey and wife, of Erlanger, were the guests of Mrs. Lamora Huey, last Sunday.

Miss Maud Scott, of Commissary, was visiting her sister, Mrs. Josie Grant, several days last week.

Mrs. B. F. Rogers returned home, last week, from a pleasant visit with relatives in Gallatin and Owen.

Hugh Arnold lost a lady's shoe between the toll-gate here and Petersburg. The finder will please leave it at the gate or Berkshire's store, at Pete.

The sisters of the Christian church have one nice quilt done and two more near completion, which they will sell and appropriate the proceeds for the benefit of the church.

VERONA.

Nov. 8.—It was thought that young Sparks, of this neighborhood, who is so strangely afflicted, was better, but the improvement was only temporary. His case is a puzzle to the local physicians, who are watching it closely.

The Elocution class of the League Institute, under charge of Miss M. L. Culbertson, will give their annual Christmas entertainment on the evening of December 16th. Admission, 10 cents.

The citizens in Idlewild neighborhood believe the free mail delivery over the route proposed would be a disadvantage to them, in as much as the postoffice at that place would be abolished, in which event the bus running from that place to the city, daily would be discontinued because the public patronage is not sufficient to sustain it without the pay for carrying the mail.

COMMISSARY.

Dec. 8.—Miss Evelyn Botts was the guest of Miss Maud Scott, the latter part of last week.

Miss Flora Arnold entertained with a card party, Saturday night.

Misses Artie and Stella Kyle and Miss Maud Scott dined with Miss Eva Botts, Sunday.

Bernard Rogers and family were visiting Mrs. Rogers' parents, Saturday night and Sunday.

T. J. Walton and wife entertained company from Erlanger and Covington, Wednesday and Thursday.

One of the most enjoyable events of the season was the dance given by Miss Maud Scott, last Friday night. Quite a number from a distance was present.

T. J. Walton and wife went to Aurora, Friday, and left considerable money with the business men of Aurora, judging from the amount of goods they brought home with them.

Bro. Acra, I will leave the middle man where he is, with his present occupation—that of collecting toll, shoe-cobbling and pointing out the straight and narrow way to the ungodly.

Gus Clore visited his son, Ransom, last Wednesday night; also W. T. Ryle, wife and son, Ira, and your humble scribe spent the evening with them. Ransom and wife are great entertainers.

Dan McCarty and Miss Lizzie Miller returned, the first of the week, from Addyston, Ohio, where they had been visiting Miss Miller's mother. Dan reports a pleasant time. It was thought by some they would marry while gone, but Dan says "they were not married."

Crescent, I am glad to know you have not forgotten me. I think of our first meeting quite often, and of our walk down Rock Spring road, over the hills and across the fields. I wish I had been with you at the supper; we would have given that Thanksgiving supper a black eye.

Several from this neighborhood attended the turkey dinner given at the hospitable home of Mr. and Mrs. T. J. Clore, last Thursday. Mr. and Mrs. Clore with the assistance of their son, Charles and accomplished daughters, Fannie and Minnie, make the most charming hosts and hostess.

It is difficult to to tell the truth, the whole truth and nothing but the truth, without stepping on someones toes. One of my truths in last issue struck W. T. Ryle so forcibly that he thought it was aimed direct at him, and to get even with me he requested me to state that he "knows a man that has plenty to read, but nothing to eat." I admit I do not have much to eat, but coffee, corn bread and soft soap, beats nothing. Christmas is near at hand and I suggest you have your woman to bake me a couple of pies and cut out two or three slices of the cake you will have and give me, when I take down some good reading to you.

PLATTSBURG.

Ab Gaines and son were visiting at J. W. Gaines', Sunday.

Everybody seems to be pleased with the rural mail route.

Less Sebree sold his tobacco to Clay Heisley at 9c and 3c.

Miss Erma Gaines is visiting at her aunt's, Mrs. Legrand Gaines.

James Botts shipped his hogs to the Cincinnati marked, last week.

Miss May Sebree, of Cincinnati is visiting her parents, this week.

Frank Voshell and wife were visiting relatives in Indiana, last week.

Mrs. W. S. Acra spent last week in Cincinnati, visiting her neice, Mrs. Anna Sandford.

Mrs. Fannie Randall and daughter, and Miss Pearl Botts were visiting in the Bullittsburg neighborhood, last week.

Since reading last week's paper the people have been waked up about the Woolper bridge, and from what I can learn, if some one would take hold of the matter and work it up, we believe, with a little help from the county, the bridge could be built.

UNION.

Dec. 8.—Ben Terrill is able to be on the street again.

Sunshine and good roads are a thing of the past.

Mrs. Ben Terrill is slowly improving. Mrs. Rachel Rice is visiting her brother in Shelby county.

F. P. Wolcott, of Covington, attended Pomona Grange, Saturday.

Misses Lizzie Rouse and Elva Utz were guests of the Misses Riley, last week.

Mrs. M. C. Norman, who has been quite sick, for two weeks with rheumatism is better.

J. R. Thompson is home again after a stay of several months with his brother in Pennsylvania.

N. C. Tanner was called, Thursday, to the bedside of his mother, who was stricken with paralysis the night before.

Mrs. J. W. Conner spent Saturday and Sunday with her uncle, Jno. Stephens, of Bullittsville, who is quite sick.

Messrs. Oscar Gaines, of Bullittsville; Everett Aylor, of Limaburg, and Everett Clore, of Bellevue, attended Pomona Grange, Saturday.

Miss Nannie Burkitt returned home Saturday, after several months' stay in Cincinnati, where she has been gathering data for her establishment.

Mrs. J. S. Asbury and daughter, Maud Norman, after a short visit with Mr. and Mrs. M. C. Norman, have returned to their home, Fern Leaf, Ky.

Mesdames Charlie Cleek, S. L. Webb and Miss Statira Childress, of Erlanger; Mrs. Lee Cleek and Mrs. M. J. Crouch dined with Mrs. J. A. Huey, Thursday.

Golden Grange will hold its last regular meeting of the year, Saturday, December 13th, for the purpose of electing officers. Hope all members will be present.

The Sheriff has collected considerable taxes since the penalty went on.

BEAVER.

Dec. 8.—H. C. Johnson spent some days in the city, last week, visiting friends and attending business.

George Moore returned from the city last week, with 20 fine feeding steers

Mrs. J. B. Eidred, who attended the funeral of her mother at Patriot, last Friday, has returned home.

The sale at Patrick Dempsey's, last Saturday, was largely attended and everything sold at a good price.

Frank Afterkirk, who was married in Cincinnati last week, has moved to the home he recently furnished on the Beaverlick and Union 'pike, where he will begin housekeeping.

Lee Sutton, who transports the mail from Hamilton to Walton daily, except Sunday, declared that the past two weeks' inclement weather has rendered the mud roads from Beaver to Walton, almost impassible.

If Madam Rumor is correct in her predictions, there will be several weddings to report from here during the holidays. This is a wholesome sign, and bespeaks the prevalence of an enterprising spirit in this community.

We were glad to notice the Recorder's highly deserved compliment to our efficient Deputy Sheriff in its last week's issue. Boodle treats everybody in a gentlemanly manner, but never falters in the discharge of his official duty.

Our sporting fraternity, having been duly apprized of the fact that His Honor, Judge J. M. Lassing and appurtenances there to, will hold high carnival at Burlington this week, have gone to pay distant relatives a long promised visit.

Rev. W. A. Earle, present pastor of Beaverlick Baptist church, has served his charge well during the past year and the congregation secured his services again for the next year. Rev. Earle, who resides at Latonia, is a pleasant gentleman socially, an earnest christian worker and a very interesting pulpit orator.

IDLEWILD.

Mr. and Mrs. George Kreyleich were visiting friends in Covington, last week.

Buford, son of S. E. Terrill, of Missouri, is here to sell out the mail for his father.

Mrs. George Walton entertained her brother Yancy Clore and wife, of Sand Run, Sunday.

Glad to hear that the health of Miss Beulah Gaines' continues to improve at her Colorado home.

Homer Grant and wife entertained, at dinner, the country Baptists who attended church in Petersburg, Sunday.

Mr. Editor, for what do the three letters, G. O. P., we so often see in the papers, stand for? Grand Old Party, and is applied to the Republican party.

Mrs. George Walton, Mrs. Stephens and daughter, and Misses Dora Huey and Pauline Winston, braved the rain and wind of Tuesday of last week and visited the city.

J. B. Wright has his first tax receipt. It is for poll tax, 50 cents, in 1850, and is signed "Ben W. White, Sheriff of Boone county, by S. R. Hedges, Deputy."

After services by Revs. Kirtley and Sproles, the remains of Mrs. Julia Baisly were placed in the vault at Bullittsburg, Saturday. She was loved ball, and her children and brothers have the sympathy of many friends. She was born in August, 1840, and was baptized by Rev. J. A. Kirtley, in December, 1876, and after life's trials, and intense suffering for months with cancer of the stomach, she was resigned to God's will.

PT. PLEASANT.

Dec. 8.—Your correspondent spent Sunday at Crescent.

Phelps Walton is spending several days with relatives near Hebron.

There will be a Christmas tree at Pt. Pleasant church, during Christmas.

William McNeal, of Ludlow, was the guest of relatives near here, last week.

Spence Tanner has bought and shipped a carload of brass from Crittenden.

Joe Morris, of Covington, was the guest of relatives near here, last week

Quite a number of our young folks attended the ball, at Hebron, Friday night.

Misses Lizzie Vest and Emma Clutterbuck, of Florence, were guests of Mr. and Mrs. Jas. Tanner, Sunday.

Mesdames Scott Walton, Malchus Souther, Daisy Riggs and Iona Tanner, were handsomely entertained by Mr. and Mrs. Howard Tanner, Thursday afternoon.

Howard Tanner and Bert Worthington, champion domino players, met one day, last week, and "crossed steel." After playing for several hours the game was decided a draw, but they have agreed to meet again soon, and play for the championship.

One of the most charming functions of the season was the party given at the home of James Riddell, on the evening of the 30th inst. Among those present were Misses Alice Tanner, Olive Brown, Ola Dye, Eva Aylor, Gussie Sederburg, Flora Dye, Roy Tanner, Allie Walton, Harry Brown, Louis Riddell, Fred Tanner, John Dolwick, and many others whom we can not now recall. The evening was pleasantly spent in playing and singing and all concurred in pronouncing the party a social success.

The Mt. Pleasant Grange will give an entertainment, consisting of music and drama, at Grange Hall, Bullittsville, on the evening of Dec. 26, 1902, will be assisted by Mr. Pericles Grubbs and Mrs. Pichlehelmer, together with musical talent of a very high grade from Cincinnati and Covington. Performance to begin promptly at 7:30 p. m. Admission, 25c.

Hon. W. P. Thorn, of Henry county, candidate for Lieutenant Governor, made a speech here Monday, to a very small crowd. Mr. Thorn is one of the best stumpers in the Democratic party in Kentucky, and a man who has taken part in every campaign for ages.

MOUND FIELD FARM.

Dec. 8.—Harrison Clore and wife have gone to California where they expect to spend the winter.

Jeff Clayton has moved to the city, where he has a position in a carriage shop.

George Ritchey's little daughter had the misfortune to get her arm broken, last Saturday.

Chester Davis moved his household goods to Ludlow, last week. He is assistant cashier in the bank there.

Henry Quick has Harve Aylor's new house ready for the plastering. It will be one of Henry's model jobs when completed.

Hog killing between showers is in order here every day, Sundays excepted, and will be until the crop of hogs is exhausted.

Dr. Frank Sayre and John Ernsta have developed into professional butchers, that is they play the role of executioners, John holds the hogs while Doc shoots them.

Chas Stephens, who has been clerking in Davis' store for three years past, has moved to James Gaines' farm near Idlewild, where he will engage in agricultural pursuits.

Quite a number of us about Hebron had our photos ready for insertion in the Enquirer as prize winners, but as the company did not send for any of them, they failed to appear.

We have built so many large cisterns the past year, that unless we have an unusual rain fall for the next 6 months, we may expect a severe drouth next summer, as it will run into these cisterns.

We had occasion to cross the river, recently, on Capt. Sprague's new ferry boat at Taylorsport. We must say that the Captain has the best boat ever operated at that place, while he and his efficient engineer, James Berry, are accommodating gentlemen, and should be patronized.

For the benefit of those who cannot attend the entertainment at Hebron at night, the managers have decided to give a matinee in the afternoon of the same day—the doors to open promptly at 2 o'clock p. m. It is desired that all, both old and young, will have an opportunity of witnessing the rendition of the popular farces selected for the occasion.

Last Saturday night was the regular meeting of Greenwood Grange. Quite a number of the members were present. On and after this until the first of next April the meetings will be held in the afternoon, beginning at 2 o'clock. At the next meeting, which will be on the 20th inst., officers for the ensuing year will be elected. It is to be hoped that all the members will attend.

We regret that Bro. Philip in his musings did not conclude to take the hunt he thought of taking. We should like to have entertained him, and would have done all in our power to assist him in starting his paper in Union, provided it did not conflict with the Recorder too much. Hope he will be over again before melons are ripe, and instead of bringing Lee Busby's dog bring Lee; hope they will come some Saturday night and stay all the week.

RABBIT HASH.

Dec. 8.—Mrs. Mary McConnell is very low. She fell and dislocated her hip on the 1st inst.

Mrs. Cora Ryle, teacher of district school No. 85, has been sick for over a week.

Mike Bailey sold and delivered his crop of tobacco to Hubert Brady for 7½ and 5½ cents.

Some of the young men about here trade rabbits to the hucksters for candy for their best girls.

Wm. Ryle, formerly of Hamilton, Ohio, is now a citizen of this place. He lives in the Carlton house.

Esquire Moses Scott has been inspecting the roads in this and the Big Bone precincts, the past week.

John M. Hodges has so far recovered from the stroke of paralysis he had last Summer, that he is able to be out again.

Paul Aylor and Miss Kate Stephens spent Saturday and Sunday with her sister and his brother, Mr. and Mrs. Wm. Aylor, near Aurora, Ind.

C. G. Riddell and Lewis Stephens are remodeling, papering and painting their store house. Ben Merrick and George Hillis are doing the work.

Mrs. Thos. Riggs died at her son's here last Saturday morning between 8 and 9 o'clock. She was buried yesterday afternoon, at the East Bend M. E. church.

FLICKERTOWN.

Most of the farmers have finished gathering corn.

Some of the farmers are about done stripping tobacco.

Mrs. Lillie Hemsley has been quite sick for about a week.

According to Uncle Button's sign, we will have 28 snows this winter.

There is considerable complaint of petty thieving in this community.

Mrs. Kate Smith, of Addyston, Ohio, is staying with her daughter, who is quite ill.

Mr. Editor does the new game law protect the rabbits from suares and traps? [No.—ED.

Jas. Snyder, jr., and Jas. Snyder sr., each delivered their crops to Clay Hensley at 6cts around.

Your scribe delivered three fat hogs to M. F. Wingate at Petersburg, last week, at $5 85 per hundred.

Louis Sullivan delivered his crop of 4,000 lbs. of tobacco to Wingate & Thompson, last week, at 7cts around.

Jim and Steve Gaines were hauling bran from the Petersburg mill last week. They paid $14 per ton, quite a difference between now and this time last year.

Harry Acra and family, from down on Middle Creek, spent several days last week with relatives here. Harry brought his gun along and greatly diminished the supply of rabbits and quails during his stay.

GUNPOWDER.

Nov. 8.—W. H. Rice bought 2 hogs of Lonnie Utz at 7½ cents net.

Uncle George Utz is improving slowly, but is not able to be out very much.

Hiram Long & Co. were hauling the tobacco, last week that they purchased from J. L. Tanner.

A good sized crowd attended J. C. Hankins' sale, last Monday, and everything sold for fairly good prices.

Ben Peddock, a prominent business man of Hartwell, Ohio, was in this neighborhood on Tuesday of last week.

J. H. Corbin is determined to down the coal trust. He had a wood sawing last Saturday and will use wood for fuel and let the trust hold their coal.

Ben Rouse is the champion shot in this neighborhood. In shooting hogs he seldom ever makes one squeal. If it does it is after he has hit it somewhere. He don't use the famous cathartic pills, he uses old time powder and lead.

We are sorry to report aunt Annie Tanner in a critical condition. While visiting her daughter, Mrs. Alice Tanner, on Wednesday of last week, she had a paralytic stoke. The entire right side is effected, and she is in a helpless condition, and has not been able to speak since she received the stroke. She is gradually getting weaker.

Henry Rouse had somewhat of an experience a few days since. He was hauling boards on a sled, and had to cross a creek which was running at a pretty good stage. The water was deeper than he had figured it and the result was the sled went to the bottom and the boards took passage down stream, but Henry captured them. He will take a wagon next time to haul his boards.

RICHWOOD.

Mrs. Sarah Robinson is on the sick list.

Hog killings have been fashionable the past week.

Miss Artie Green, of Covington, is the guest of J. J. Tanner.

John R. Carpenter lost a valuable horse, Thursday, from dropsy.

Lon Robinson, of Cincinnati, spent last week with relatives here.

We hear that we will have a wedding to report during the holidays.

Mrs. C. D. Stephens left, last Thursday, for her future home, Cocoa, Fla.

Carry Carpenter has moved from the Lipp place to his own house on the pike.

Perin Hunter, of Cincinnati, was the guest of Walter Grubbs, Saturday and Sunday.

A letter from Lafayette Grubbs, formerly of this place, states that he is now located at Welch, Indian Ty.

The wreck above here, Friday, delayed trains. The commuter was 8 hours late, being caught south of the wreck.

Miss Ida Grubbs is slowly recovering and the Doctor thinks she will be able to walk without the aid of crutches by Christmas.

Walter and Marion Grubbs and families, Mr. and Mrs. Jno. Carpenter spent Sunday with M. L. Tanner and wife, of Banklick.

Jas. Coleman accidentally discharged a revolver at his home and the bullet lodged in his wife's hand, making a painful wound.

A letter from Edmund Stephens, of Cocoa, Fla., reports safe arrival, and a good location and the health of himself and family good.

Thomas Judge, an old citizen of this place, died suddenly, Saturday night, at John Denady's, where he has made his home for years. His funeral was held at Richwood, Monday.

Excelsior Grange held a meeting last Saturday, and an entertainment committee was appointed to arrange for a xmas tree and social during the holidays. One petition was received.

PETERSBURG.

Dec. 8.—Frank Baker is very sick at Kokomo, Indiana.

Mote Christie is home from Indianapolis, very ill.

Mrs. Courtney Walton is visiting her relatives in Lexington and vicinity.

Sullivan Black, 19, and Miss Jennie Burnes, 16, daughter of Stephen Burns eloped to Lawrenceburg, last Saturday, and were married.

A yellow hound, supposed to have hydrophobia, created a commotion in the lower end of this precinct, one day the latter part of last week. It bit some hogs and cattle for Ben R. Berkshire, and made its escape.

Saved at Grave's Brink.

"I know I would long ago have been in my grave," writes Mrs. S. H. Newsom, of Decatur, Ala., "if it had not been for Electric Bitters. For three years I suffered untold agony from the worst forms of Indigestion, Waterbrash, Stomach and Bowel Dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 35 lbs." For Indigestion, Loss of Appetite, Stomach, Liver and Kidney troubles Electric Bitters are a positive, guaranteed cure. Only 50c at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Oeisner's, Florence; A. W. Smith's, Walton; O. N. Grant's, Bellevue.

WALTON.

Two of Covington's pleasant young ladies, Misses Mary Bradley and Carrine Feak, have had a delightful visit to Mrs. Katheryn Rice.

Mrs. E. P. Holder paid farewell visits to many of her friends, and will spend the winter with her daughter, Mrs. Nannie Northcutt, in Covington.

There is a stray hog at Mr. Enoch West's, which he took out of his corn field two or three weeks ago, and which the owner can have by proving property and paying for posting this notice.

The young ladies of Walton Baptist church will open Dec. 18, and have for sale a bazaar in building opposite the Postoffice dolls, dressed and undressed, toys and candies, pies and cakes, fancy articles, and everything to please the children. Prices suitable to all give us a trial before purchasing elsewhere.

The veritable millionaire and statesman, Tom Johnson, of Cleveland, Ohio, tarried a long enough to buy a ferret for his rabbit hunt. It seems that Harry Simmons, some time ago, traded a fiddle for the little animal, and thinking he would have no use for it, traded it to Doc Vest for a barrel of potatoes and a lot of shock corn, and Vest, who is always dickering in something, bartered it to Dr. James L. Adams, for a bicycle; Simmons then got it again, and finally in the course of several transaction it came again into the possession of Dr. Adams, and when Johnson came along in his famous "red auto," and heard of the little animal, he hunted Dr. Adams up and wanted to buy it of him. Jim did not want to sell, as he and his brother were getting ready for a rabbit hunt in West Virginia. Mr. Johnson asked Dr. Adams what it was worth, and he said he did not know. Finally the statesman pulled out $25, and handed it to the Doctor, remarking, "that if it is enough I'll take the ferret." The Doctor handed over the animal, saying, "it is your ferret, Mr. Johnson." Had Tom Simpkins known that the statesman was grieving over the loss of a rabbit dog, he might have said "Business," for a similar amount, for he is acknowledged by all who have hunted with him to be a fine rabbit dog and particularly handy with coons and 'possums as well.

Mr. H. P. Crisler Heard From.

In renewing the subscription of his daughter, Mrs. Mary E. Rice, of Mexico, Mo., he writes: "We have been very busy this fall moving. My daughter has rented out her farm for next year, and bought a house and lot in the suburbs of Mexico. We have got moved, killed our hogs, laid in two tons of coal, a lot of wood, vegetables and feed for a cow and horse; so you see we have nothing to do but cook and eat, feed the cow and horse, and build fires and keep warm. We have a nice place and good neighbors, on Curtis Avenue, about three fourths of a mile from the court house. Our town is on a boom this fall, and as land buyers from other States have bought all the land they can get here, it appears that half the farms have changed hands recently. This is a very fine country, and the price of land ranges from $30 to $80 an acre. Most of the people here came from Kentucky and Virginia, so you know they are all right. We had good crops and money is plentiful and the people are happy. Notwithstanding my pleasant situation, I often think of old Boone with my many relatives and friends and associations, and then I get a little homesick, and wish to be with and to see them again. The Recorder, the coming of which we look forward to, comes every Friday, giving us all the news from home. Tell Button if he wants to see fine corn and plenty of it to come to Missouri. Love to all friends."

A Million Voices

Could hardly express the thanks of Homer Hall, of West Point, Ia., for his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use Dr. King's New Discovery for Consumption and writes—"it completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for Coughs, Colds and Lung troubles. Price 50c and $1 00. Trial bottles free at W. F McKim's, Burlington; Union Drug Store, Union; J. G. Oeisner's, Florence; A. W. EMBARGOED CATTLE.

Quarantine Has But Little Effect On the British Supply.

It is Merely a Question of Shipping Western Cattle to the Seaboard By Way of New York Instead of Boston.

London, Dec. 6.—The board of agriculture has intimated its willingness to remove the embargo on cattle arriving from New England ports whenever the American department of agriculture considers that the outbreak is suppressed. The board Friday night issued an order enabling the landing of the cattle under certain restrictions by the steamer Irishman, which has arrived at Liverpool from Boston, the steamers Kansas and Victorian, due Friday at Liverpool from Boston, and the steamer Cambrien, due at London from Boston.

Meantime the importers here say that the quarantine has little effect on the American meat supply, since the bulk comes from the west and it is merely a question of shipping the cattle by way of New York instead of Boston. Regarding the general question of opening English ports to Canadian and Argentine live cattle there is not the slightest likelihood of the admittance of Argentine cattle until the board of agriculture is satisfied that the foot and mouth disease has been not only stamped out in the Argentine republic but until the latter establishes an effectual quarantine against the surrounding infected territory of which there is no immediate prospect.

On the other hand, the importers say that the opening of British ports to Canadian live cattle is not only improbable but if done would not favorably affect the English meat supply because it is cheaper to sell Canadian range steers in the United States and ship them dressed to England than to import them alive here to be fattened for the market.

PENNSYLVANIA CATTLE.

Gov. Stone Takes Prompt Action to Raise Quarantine Against Them.

Harrisburg, Pa., Dec. 6.—Gov. Stone has taken prompt action to raise the quarantine which was probably ordered by Gov. Yates, of Illinois, against Pennsylvania cattle on account of the foot and mouth disease which exists among cattle in the New England states. Gov. Stone wrote a letter to Gov. Yates protesting against his action and advising that there had been no such disease in this state since 1882, that there had been none in New York and there is none and has been none in New Jersey.

"To quarantine against Pennsylvania is to say, in effect," continues Gov. Stone, "that the cattle of Pennsylvania are diseased or suspected. There is no shadow of truth in the aspersion and will seriously injure the export of cattle from all the states, as they nearly all pass through Pennsylvania en route to port for export.

"The effect of your order is to say that there is danger of foot and mouth disease infection in the states around and close to the ports of New York, Philadelphia and Baltimore. Your action may cause an unjustifiable scare that will injure the whole export trade in live animals in this country.

"The foot and mouth disease in the United States is confined to a territory within a radius of 100 miles of Boston. I hope that you will withdraw your quarantine order against those states not infected and against which the federal authorities find no reason to quarantine."

SEVERE WEATHER IN EUROPE.

Many Ships Are Ice Bound in Copenhagen Harbor.

London, Dec. 6.—Telegrams from all parts of Europe record severe weather and snow, the temperature being several degrees below freezing point. The Dutch canals are frozen over and the harbor at Copenhagen is packed with ice and many ships are ice bound. Heavy falls of snow are being experienced in the Alps and some Swiss villages are isolated. The Bora, the dry wind which sweeps across the Adriatic from the Julian Alps, is blowing with great violence.

Ed J. Delehanty Signed.

New York, Dec. 6.—President John T. Brush announced positively that Edward J. Delehanty had signed a contract with the New York baseball club. Charles Babb, who played third base last summer on the Indianapolis team, also has signed with New York.

THE CREW WAS LOST.

A Schooner Dashed to Pieces at Hatteras Inlet.

Hatteras, N. C., Dec. 6.—The observer of the weather bureau reports that the four masted schooner Wesley M. Oler went ashore at Hatteras inlet life saving station early Friday morning, during the storm. She was pounding in the surf about a mile off shore until 8:20 a. m., when the foremast went over carrying probably the last man. Almost immediately the vessel went to pieces. The life saving crew could do nothing to save the crew. No bodies have come ashore yet.

Norfolk, Va., Dec. 6.—Reports received in Norfolk are to the effect that none of the ill-fated schooner Wesley M. Oler's crew escaped. Only one chance of a rescue is known. The German steamer Koln, from Bremen to Baltimore, reported the crew of an abandoned schooner aboard while entering the capes Friday.

The three masted schooner William D. Hilton and Melville Philips, together with several smaller craft, were blown ashore in the harbor and lower bay in Friday morning's gale. The steamer Underwriter, which was towing the Oler from Nassau, has not been heard from and fears are entertained that she foundered in the gale. The crew of the schooner Ida Lawrence abandoned that vessel in a rudderless condition off Hatteras early Friday morning and were rescued with the great est difficulty by life savers.

Cape Henry, Va., Dec. 6.—Capt. Lan greuter, of the German steamer Koln bound from Bremen to Baltimore, signalled as the vessel passed this station: "We have crew saved from abandoned W. H. T. D."

Newport News, Va., Dec. 6.—The terrific storm of wind and rain that struck this section early Friday morning was the most destructive known in Hampton Roads in some time. One life was lost and numerous boats have been torn loose from their moorings and beached. Others firmly anchored have been filled and sunk.

The only victim known so far is a colored man who was drowned near Mluch's store in Warwick county.

DENNY FOUND GUILTY.

The Millionaire Brewer of St. Louis Convicted of Perjury.

St. Louis, Dec. 6.—After two days of trial Charles J. Denny, millionaire brewer and director of the Suburban Street Railway Co., formerly a member of the house of delegates, charged with perjury in connection with the suburban bill boodle deal, Thursday night was found guilty and his punishment fixed at two years in the penitentiary. The only defense offered by Judge Krum, attorney for Denny, was testimony in behalf of the defendant may have had information that $75,000 had been placed on deposit in the Lincoln Trust Co. to be paid out for votes for the passage of the suburban bill; he had no positive knowledge of it, and therefore did not commit perjury when he told the grand jury he had no such knowledge. Then followed an argument on the difference between knowledge and information.

Circuit Attorney Folk, in closing for the state insisted that Denny did know absolutely that the money had been deposited and therefore perjured himself before the grand jury in his denial The case went to the jury shortly after noon.

MUST HAVE A LICENSE.

A Man Who Gives a Drink to a Friend Violates the Law.

St. Paul, Minn., Dec. 6.—A man who gives a drink to a friend is violating the law unless he has a license. This is the substance of a decision rendered by the state supreme court Friday in the case of the state in the matter of Harry Krebs, relator, against Frank Jones, village marshal of Perham, Minn. Krebs, as agent of a St. Paul liquor firm, gave a prospective customer in the village several sample drinks of liquor. He was arrested because he had no license and bound over in $200 bail to the next grand jury. He brought habeas corpus proceedings to the supreme court to get out of jail, as he could not get bail. The supreme court, however, decides that Krebs must remain in jail.

BACTERIA IN CHERRIES.

Twelve Million Inhabit the Skins of Half a Pound.

Washington Dec. 6.—Twelve million bacteria inhabit the skins of a half pound of cherries, according to Dr. Ehrlich, a German scientist, who has made extensive experiments in regard to the infection of fruit with bacteria. Currants come next with 11,000,000 to every half pound, and grapes next with eight million. An account of these experiments has been transmitted to the state department by United States Consular Clerk Murphy, at Frankfort. Dr. Ehrlich urges that all fruit be cleaned, by either peeling or washing before it is eaten.

To Increase the Personnel.

Washington, Dec. 6.—The house committee on naval affairs instructed the sub-committee on organization, rank and pay to formulate a provision to increase the personnel of the line officers, naval cadets and marine corps.

After Corbett-McGovern Fight.

Detroit, Mich., Dec. 6.—The Metropolitan Athletic club of Dertoit has agreed to put up a forfeit for the "Young" Corbett-McGovern fight for January 3. The proposition will be accepted.

THE ARBITRATORS.

The Mine Workers Are Still Presenting Their Side.

Commissioners Do Not Desire to Unnecessarily Hurry Ane One But Feel That All Should Hurry Work Rapidly As Possible.

Scranton, Pa., Dec. 8.—It is expected that the mine workers will continue all of next week in presenting to the anthracite coal strike commission their side of the controversy with the coal operators. The miners have consumed 13 days thus far in presenting their testimony, and expect to take fully as much more time. While no one positively knows, it is estimated the employers will take about ten days to submit the information they desire the commission to have. It is probable the commission will adjourn for Christmas about December 23.

The commission Monday will ask the attorneys for both sides to present the figures they already have prepared, so that the arbitrators can study them. If they are not exactly the kind they want, the commission will ask for additional figures, and will again request those who are not yet ready to present their figures, to make an extra effort to expedite the work of computation.

The commission has no desire to unnecessarily hurry any one, but feels that all interested should work as rapidly as possible. Some time has been wasted in the hearing of testimony because of the wide range it has taken. While members of the commission admit the irrelevancy of some of it, they are lothe to curtail the privileges of the contending parties because they do not wish to have any one make complaint that they were shut out from giving information. The arbitraters are daily receiving letters from persons residing in all parts of the country, in which the commissioners are advised how to set in the present investigation.

No attention is paid to any of the letters. A great number of the communications, nearly a majority of them, make pleas for the protection of the non-union men.

DIED OF YELLOW FEVER.

Consul General Thomas Nast Passed Away in Guayaquil, Ecuador.

Guayaquil, Ecuador, Dec. 8.—Consul General Thomas Nast died Sunday at noon after three days' illness from yellow fever. He was interred at 5 o'clock Sunday afternoon. The funeral was attended by the governor, the consular corps, the American colony and by many friends. The coffin was wrapped in the Stars and Stripes. The British consul recited a prayer in the cemetery. The death of Mr. Nast is deeply lamented by the natives, who held him in high esteem.

New York, Dec. 8.—Thomas Nast was appointed consul general at Guayaquil this year, leaving New York for his post July 1. He was born in Landau, Bavaria, September 27, 1840, and came with his parents to the United States six years later. As a caricaturist and cartoonist he became famous.

BARRY JOHNSTONE DEAD.

Last Monday He Shot Himself After Killing Actress Kate Hassett.

Philadelphia, Dec. 8.—After lingering for nearly a week Barry Johnstone, the actor who last Monday night shot himself after killing Kate Hassett, a member of Keith's Bijou theater stock company, died Sunday at the Hahnemann hospital. Death resulted from peritonitis. At Johnstone's bedside when he died were his two sisters and two brothers, his mother having returned to her home in Syracuse, N. Y., Saturday. The actor's body was sent to Syracuse Sunday afternoon for burial. Kate Hassett's murder and Johnstone's suicide were the result of the man's insane jealousy.

A CUSTOMS RULING.

Chinese Residing in the United States May Enter the Philippines.

Manila, Dec. 8.—Customs Collector Shuster rules that Chinese residing in the United States may enter the Philippine islands. His decision says:

"All Chinese legally resident in the mainland territory of the United States is entitled to enter the Philippines, irrespective of class or occupation, provided that he comes by a reasonably direct route and uses due diligence in coming."

Left Without Water Supply.

SISTERS OF CHARITY

Use Pe-ru-na for Coughs, Colds, Grip and Catarrh---A Congressman's Letter.

In every country of the civilized world Sisters of Charity are known Not only do they minister to the spiritual and intellectual needs of the charges committed to their care, but they also minister to their bodily needs.

With so many children to take care of and to protect from climate and disease, these wise and prudent Sisters have found Peruna a never failing safeguard.

Dr. Hartman receives many letters from Catholic Sisters from all over the United States. A recommend recently received from a Catholic institution in Detroit, Mich., reads as follows:

Dr. S. B. Hartman, Columbus, Ohio:

Dear Sir:—"The young girl who used the Peruna was suffering from laryngitis, and loss of voice. The result of the treatment was most satisfactory. She found great relief, and after further use of the medicine we hope to be able to say she is entirely cured."

—Sisters of Charity.

The young girl was under the care of the Sisters of Charity and used Peruna for catarrh of the throat with good results as the above letter testifies.

Send to The Peruna Medicine Co., Columbus, Ohio, for a free book written by Dr. Hartman.

The following letter is from Congressman Meekison, of Napoleon, Ohio: The Peruna Medicine Co., Columbus, O.:

David Meekison.

Gentlemen: "I have used several bottles of Peruna and feel greatly benefited thereby from my catarrh of the head, and feel encouraged to believe that its continued use will fully eradicate a disease of thirty years' standing."

David Meekison.

Dr. Hartman, one of the best known physicians and surgeons in the United States, was the first man to formulate Peruna. It was through his genius and perseverance that it was introduced to the medical profession of this country.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

DOINGS IN CONGRESS.

The House Passed the Bill to Pay Expenses of Strike Commission.

The Bill to Amend the Immigration Laws and Statehood Bill Were Under Discussion—President's Message Read in Both Branches.

Washington, Dec. 4.—Senate—The senate Wednesday began the real work of disposing of the business before it although the session lasted only an hour and a half, when an adjournment was taken at 1:30 o'clock out of respect of the memory of Representatives De Graffenreid and Sheppard, of Texas. The bill to amend the immigration laws was under discussion. Early in the day Mr. Nelson, from the committee on territories, reported a substitute for the omnibus statehood bill with the recommendation that Oklahoma and Indian territory be admitted in the union as one state under the name of Oklahoma. When the immigration bill was brought up Mr. Quay precipitated a discussion over the status of the statehood bill, which was terminated by a ruling from the chair that beginning on December 10 it would be the unfinished business and that at the closing hour each day it would be laid before the senate unless displaced by a vote of that body.

House—The house Wednesday passed the bill to appropriate $50,000 to defray the expenses of the anthracite coal strike commission and then adjourned until Friday, when the London dock charge bill will be considered. There were two hours of discussion on the commission bill during which the president's course in creating the commission was highly commended, except by Mr. Burton, a Missouri democrat, who contended that the commission was created without authority of law or constitution. There was some criticism of the feature of the bill allowing double salaries to members of the commission now in government employ and also because the bill left the amount of compensation of the members to the president.

Washington, Dec. 5.—Senate—The senate was in session Thursday one hour and five minutes, most of which time was spent behind closed doors. After the reception of a number of bills and petitions, and the adoption of a concurrent resolution, calling on the president for the papers in the Pious fund case recently arbitrated before The Hague tribunal, Mr. Beveridge had read the resolutions adopted by the delegates to the Oklahoma nonpartisan convention favoring the admission of Oklahoma and Indian territory as one state and opposing the house omnibus statehood bill. The senate then went into executive session and at 1:05 adjourned until Monday.

Washington, Dec. 6.—The house devoted Friday to bills on the private calendar. The most important bill passed was one to adjudicate in the court of claims the claims of certain importers of steel blooms who between 1879 and 1882 paid customs duties equivalent to 45 per cent. ad valorem when it is claimed the correct rate should have been 30 per cent. About $350,000 is involved. A bill to pay Smithmeyer & Pelz, architects of the congressional library, $50,000 additional compensation was defeated. A bill was passed authorizing the following persons to accept presents and decorations from foreign governments: Capt. B. H. McCall, U. S. N.; Drs. Eugene Wasdin and H. B. Geddings, U. S. M. H. S.; Henry E. Alford, W. A. Taylor, H. W. Wiley, M. A. Carleton and John I. Shulte, of the department of agriculture; John A. Okerman, of the Mississippi river commission; Casper S. Crowninshield, United States commercial agent; Miss Anna Tolman Smith and Lieut. Col. F. P. Phipps.

Washington, Dec. 8.—House—The house Saturday passed the pension appropriation bill carrying $139,000,000 without a word of debate, and devoted the remainder of the day to the passing of bills on the calendar, quite a number of which were passed. To prevent the passage of a bill to prohibit the military bands from engaging in competition with private bands, W. A. Smith (Mich.) made the point of no quorum, and the house thereupon adjourned. It was agreed that the London dock charge bill should be considered and voted upon Monday. Representative Payne, leader of the majority, introduced a resolution in the house for a holiday adjournment from December 20 to January 5. Mr. Barthodit (Mo.) presented a resolution in the house Saturday calling upon the secretary of war for all reports received by the war department upon the operations of the anti-canteen law.

Sudden Summons.

Ypsilanti, Mich., Dec. 8.—Prof. August Lodeman, who for 30 years has held the chair of modern languages in the state normal college, died suddenly Sunday of acute indigestion. He was born in Germany in 1842. A son, Frank Lodeman, is instructor in Cornell university.

Street Car Strike Settled.

Houston, Tex., Dec. 5.—The street car strike has been settled. The men get a scale calling for 18 cents per hour for the first year, 19 cents the second year and 20 cents thereafter, which is an increase of about 6 per cent. over the old scale.

Heavy Failure.

Lowell, Mass., Dec. 5.—The Pickering Manufacturing Co. announced its failure Thursday night with liabilities upwards of $400,000. The company makes all grades of knitted cotton underwear.

AN ISLAND IN DISPUTE.

Venezuela and Great Britain Claim Ownership of Patos.

Washington, Dec. 8.—In Venezuela's "yellow book" for 1901, a copy of which has been received in Washington recently from the foreign office at Caracas are the exchanges between the London and Caracas governments last year in regard to the ownership of Patos island, which has been in dispute between the two countries for many years. Significance attaches to this correspondence in view of the approaching crisis between Venezuela and Great Britain, as it is not improbable that in the settlement of the claims of British and German citizens against Venezuela the Patos dispute will also be involved. Reopening of the Patos question was caused by the action of the Venezuelan gunboat Augusto in January, 1901, in capturing certain British subjects on the island. When the Caracas authorities were called to account by the London foreign office the former replied by renewing their long-standing claim to Patos and a diplomatic controversy extending throughout the year was the result.

Venezuela bases her claims to the island on its proximity to the coast of Carinria, from which it is distant only three miles, claiming that it is a tenet of international law that a country commands waters within a marine league of its coast; that the international law institute had defined the territorial sea as six miles, whereas the island of Patos is more than ten miles from Trinidad, the nearest British possession. Further, that the treaty of March, 1845, explicitly confirms the title of Venezuela over the islands near her coast which were under the dominion of Spain in the initiative period of Venezuelan independence.

In support of this contention the Venezuelan authorities produce a letter from the royal Spanish minister for state in 1873, in which he denies that royal sanction ever was given to the concession alleged to have been made to the Ayuntanmiento of Trinidad by the governor of Patos, Huevos and Monos.

Great Britain advanced the contention that when she conquered the island of Trinidad, in 1797, sovereignty over Patos also was obtained and so recognized by the Madrid government; that Patos has remained in the peaceful possession of Great Britain for more than a century, during 70 years of which time Venezuela advanced no counter claim, and that the official map of Codazzi colors the island of Patos the same as Trinidad, indicating that both belong to the same country.

Being unable to agree on even the minor points of the controversy, the British minister near the close of last year informed the Venezuela foreign office the he would make no further representations in the matter, as there was nothing to be gained in continuing the correspondence. It is understood that President Castro will ask that the question he settled by arbitration, a proposition to which the British government will hardly accede, in view of its contention that the ownership of Patos is so clearly British as not to furnish a suitable subject for arbitration.

A NEW DEPARTURE.

American Machinists Working in Mexico Will Be Paid on a Gold Basis.

Eagle Pass, Tex., Dec. 8.—The machinists in the shops of the Mexican International at Ciudad Porfirio Diaz have been notified that from December 1 they will be paid standard American wages on a gold basis; the machinist will get $3.30 and the boilermaker $3.50 per day in American money or in Mexican silver at the average rate of exchange for the month in which they work. This is an entirely new departure in Mexican railroading and was caused by the fact that Americans could not be held at the old rates. The advance applies only to Americans.

BURIED IN HER WEDDING GOWN.

A Girl Dropped Dead While Serving as a Bridesmaid.

Bloomington, Ill., Dec. 8.—An unusual ceremony was carried out here Sunday at the funeral of Miss Augusta Rueger, who dropped dead while serving as bridesmaid at the wedding of a girl friend, and who was to have been married herself next Wednesday. Miss Rueger was buried in the dress that was to have been her wedding gown, and her body was escorted to the grave by the three young women and the three young men who had been chosen for the bridesmaids and groomsmen at her wedding.

THOMAS B. REED DEAD

The Former Speaker Passed Away in Washington.

All Day Sunday There Was a Stream of Sympathetic Callers at the Arlington Hotel Where the Body Lay Awaiting Removal.

Washington, Dec. 8.—Thomas Brackett Reed, former speaker of the house of representatives and for many years prominent in public life, died here early Sunday morning in his apartments in the Arlington botel. The immediate cause of death was uremia. Mr. Reed had been confined to his bed since Tuesday last.

At the bedside when he died were Mrs. Reed and Miss Catherine Reed, Drs. Gardner, McDonald, Bishop and Goodnow and the nurses. Mr. Reed's mind was in such a state during the day that he did not realize the seriousness of his condition.

He was cheerful and conversing with those about his bedside. When it became apparent that he would not survive his illness, the wife and daughter were notified, and they remained constantly at the bedside until the distinguished patient breathed his last. With only a faint hope of saving his life, oxygen was administered.

It was stated Saturday night that Mr. Reed had been suffering with Bright's disease for some time. The ailment reached the acute stage Saturday and furnished an additional cause for alarm. Mr. Reed passed away peacefully and without pain.

The remains of Thomas Brackett Reed left here Sunday afternoon for Portland, Me., his former home, where the interment will take place on Tuesday afternoon. They were placed aboard a special train leaving Washington at 4:50 o'clock and running as the second section of the Federal Express scheduled to arrive at Portland Monday. Accompanying the body were Mrs. Reed, the widow, Miss Catherine Reed, the former speaker's daughter, Hon. Amos L. Allen, Mr. Reed's successor in the house of representatives, Mr. Asher C. Hinds, Mr. Reed's parliamentary clerk while speaker, and Mr. Augustus G. Payne, of New York, a lifelong friend. At Mrs. Reed's request there were no ceremonies of any kind here and at Portland they will be of a simple character.

During the entire day there was a stream of sympathetic callers at the Arlington hotel where the body of Mr. Reed lay awaiting removal to the railroad station. They included President and Mrs. Roosevelt, members of the cabinet and of the senate and house of representatives and of the diplomatic corps. Many persons in private life also called. Neither Mrs. Reed nor her daughter saw any of the visitors, who simply left their cards. It was not generally known that the body of the deceased would be taken from the city Sunday and President Roosevelt had invited Mrs. Reed and her daughter to be his guests at the white house pending its removal, which invitation under the circumstances they were compelled to decline.

The body was enclosed in a casket with heavy oxydized extension handles and on the top was solid silver plate on which had been engraved the following inscription:

"THOMAS BRACKETT REED
Oct. 18, 1839, Dec. 7, 1902."

The casket remained at the hotel until about 4 o'clock in the afternoon when it was brought down stairs and lifted into the hearse, the undertaker's assistants and the employes of the hotel acting as body bearers. Then without ceremony or display of any kind it was removed to the railroad station. On the casket rested two floral offerings, one of them from the widow and the other enclosed in a long pasteboard box from Mrs. Roosevelt. Mrs. Reed's offering was a large wreath of violets, American beauty roses and orchids sprinkled with lilies of the valley, while in the box which came from the white house were an assortment of white and pink roses with maiden hair ferns loosely thrown together for use on the casket when the interment is made.

NO OPPOSITION.

Hon. Oliver Wendell Holmes' Nomination Confirmed.

Washington, Dec. 5.—Hon. Oliver Wendell Holmes was Thursday confirmed by the senate to succeed the late Justice Gray as a member of the bench of the United States supreme court. There was no opposition and the nomination was not discussed. Immediately after the senate went into executive session Senator Hoar, as chairman of the committee on the judiciary, made a favorable report upon the nomination. The senate took the case up forthwith, accomplishing the act of confirmation as quickly as it was possible to do so.

The Sixteen-Inch Gun.

New York, Dec. 5.—The Mcrritt & Chapman Wrecking Co. fleet arrived at Sandy Hook with the 16-inch gun which was built at the Watervliet arsenal. The gun was transferred to two cars and hauled to the proving ground.

Killed By Falling Coal.

Johnstown, Pa., Dec. 4.—Dominick Dunriski, aged 18, and Adam Lepansky, aged 28, miners employed in the Berwynd-White Co.'s mine No. 31 at Windber, near here, were instantly killed by a fall of roof coal.

THE SEARCH PROBLEM.

The Maneuvers of the Opposing Fleets Began Friday.

Washington, Dec. 5.—The navy department has made public the elements of the great naval search problem on which the combined European, North Atlantic and South Atlantic fleets are to begin work Friday in the West Indies. The details of the squadron organization already have been made public and the announcement Thursday concerns the rules which are to govern in this mimic warfare. These rules are as follows:

The white fleet includes vessels in command of Rr. Admr. Sumner and Crowninshields, combined under the former. The blue fleet includes vessels under Rr. Adm. Higginson.

In the afternoon of December 5 the blue fleet learns that one of its scouts sighted the white fleet December 2 in latitude 15 degrees north, longitude 45 west, a position about 500 miles to the eastward of Barbadoes.

The white fleet represents an advanced detachment of an enemy whose object is to secure a base in the Porto Rican waters between and including Mayaguez on the west and Great Harbor, Culebra, on the east; also to mine the main ship canal of the port before p. m. December 10, at which time the problem ends.

(A) If it enters the port selected and has worked one hour in laying mines before the arrival of a blue force 50 per cent. greater than its own, it wins.

(B) If it enters the port and completes the mining of the channel before the arrival of a blue force double its own it wins.

White loses if intercepted by superior blue force at sea or in less than one hour after it enters into the port.

The blue force to win must: (A) With a superior force meet the white fleet at sea or within one hour after it has anchored in the port selected. (B) If the white force has been anchored more than one hour, but not long enough to plant all its mines, the blue force must be 50 per cent. greater than the white.

CUMMINGS LIBRARY.

It Will Be Given to the Printers' Home at Colorado Springs.

Colorado Springs, Co., Dec. 8.—The library of the late Amos J. Cummings, the New York congressman and editor, is to be given to the home founded here in 1892 by the International Typographical Union. Mrs. Cummings, the widow, is authority for the announcement. She is here on a visit to the home.

Mr. Cummings was a member of the original board of trustees and his interest in the home was great. He frequently spoke of his intended bequest. His will did not contain the provision but, knowing it to he his wish, Mrs. Cummings has made the bequest in her own will recently executed.

The library will reach the home ultimately, perhaps soon if Mrs. Cummings decides to remove from New York. The library contains many valuable works and manuscripts.

TO INCREASE PAY.

Wages of Employes of the D., L. & W. Railroad to Be Adjusted.

Scranton, Pa., Dec. 8.—The Delaware, Lackawanna & Hudson Western Railroad Co. purposes a substantial increase in rates to pay to employes in various departments. The officials are now at work on a general plan of readjustment and equalization to become effective at an early date, probably December 1. The rates paid by the Lackawanna road since October, 1898, have not been exceeded by any road in the east, and the increases already made by some of the companies do not now much more than equal the Lackawanna rates, if as much. Still the company is disposed to continue such encouragement to its employes, many of whom have devoted practically a life time to its interests. All branches of the service, especially all the employes, will be affected by the company's voluntary action.

Found Dead in Her Room.

Springfield, Mo., Dec. 8.—Annie McMahan, a domestic employed in a local hotel, was found dead in her room Sunday. William Pittman, an employe of the 'Frisco shops, slightly wounded, was also found in the room. Pittman asserts that the girl in a jealous frenzy shot him and then committed suicide. Examination by the police disclosed the fact that the girl had been shot in the back. Pittman was held pending investigation.

Sleigh Run Down by a Train.

Havelock, Ont., Dec. 8.—James Rogers, of Belmont, was driving across the Canadian Pacific tracks with his family, when a train struck the sleigh. Mrs. Rogers and a 12-year-old son were killed. Mr. Rogers and his daughter, aged 9, were fatally injured, and another 11-year-old lad was badly hurt.

Watchman Believed Burned to Death.

Buffalo, N. Y., Dec. 8.—Fire Sunday night destroyed the building occupied by Nathan Wolff & Sons, dealers in hides and oils. John Krautman, a watchman employed by the company, is believed to have been burned to death. Loss $50,000.

Clark Centennial Exposition.

Portland, Ore., Dec. 8.—President H. W. Corbett, of the Lewis & Clark Centennial Exposition Co., announced Sunday that the railways with terminals in Portland have subscribed $50,000 to the exposition.

STATE NEWS HAPPENINGS.

THE CHINN MURDER.

Whitney Found Guilty and Punishment Fixed at Death.

Lexington, Ky., Dec. 5.—Earl Whitney, charged with the murder of Merchant A. B. Chinn, took the witness stand here Thursday morning in his own behalf. The crowd was so large that Judge Parker ordered the doors to the court room locked. Whitney was still on the stand at noon. He was made to go over the entire story which he told once before to the detectives. He attempted to lay the blame for the death of Mr. Chinn upon O'Brien, the Memphis boy, who was with him, and appears to have been an adept in the art of burglary. He said he had the 32 cheap-brand revolver, and it would not fire, while O'Brien carried the revolver they found in the Slade residence, with which he shot Mr. Chinn. Whitney went into minute details of the tragedy, describing not only the killing of the merchant, but the battle in the hallway with Asa Chinn, during which he was shot in the leg and young Chinn received several wounds.

After being out an hour the jury in the case of Earl Whitney, of Nashville, Tenn., brought in a verdict of guilty, and fixed his punishment at death. Only two ballots were taken, the first being 11 for hanging and one for life imprisonment.

Claude O'Brien, of Memphis, another youthful burglar who was with Whitney, October 11, entered the home of Merchant A. B. Chinn, and who, Whitney has protested, fired the fatal shot into Mr. Chinn's body as he sat up in bed, will be placed on trial Friday.

Lexington, Ky., Dec. 6.—Claude O'Brien, charged with complicity in the murder of Merchant A. B. Chinn here, was presented in court Friday for trial and a jury secured. O'Brien put on a bold front.

FILED A WRIT OF ERROR.

Ex-Banker McKnight Attempts to Secure a Reversal of Judgment.

Louisville, Ky., Dec. 6.—Having failed in his attempt to secure a pardon from President Roosevelt, J. M. McKnight, former president of the defunct German national bank of this city, who has been convicted four times in the federal court on the charge of embezzling the funds of the bank, filed in the office of the clerk of the United States court here Friday a writ of error and an assignment of errors to be presented to the United States circuit court of appeals. The action was taken in order to secure if possible a reversal of the judgment rendered against him in the lower court.

NEW TRIAL FOR POWERS.

The Kentucky Court of Appeals Gives the Man Another Chance.

Frankfort, Ky., Dec. 4.—Judge O'Rear delivered an opinion in appellate court Wednesday, reversing Scott circuit court in case of Caleb Powers against the commonwealth and awarding appellant a new trial. The reversal in the Powers case is mainly on failure of Judge Cantrill to vacate the bench.

Powers was secretary of state under the Taylor administration until put out of office on a contest. This is the second time his case has been reversed, the sentence in each case having been a life term.

TRIED TO BREAK A CALF.

Animal Ran Away With the Boy and He Was Found Unconscious.

Auburn, Ky., Dec. 5.—The youngest son of Burr Robertson was trying to break a young calf to work. The boy had a rope halter on the calf, and in some way the rope got about the boy's neck and the calf ran away with him, dragging him a considerable distance. No one was aware of the boy's action, and at night a search was begun to find him. About 8 o'clock he was discovered lying in a ditch in an unconscious condition. He did not fully recover for several hours afterward.

Compromise With Goebels.

Frankfort, Ky. Dec. 5.—It is said here that the suit of Attorneys Bradburn and McQuown, of Bowling Green, against the estate of the late William Goebel for $5,000 fee for representing him in the contest before the general assembly, will never come to a trial The matter has been compromised.

Surprised Their Friends.

Carrollton, Ky., Dec. 6.—The marriage of James Webster, an attorney of Louisville, to Miss Jessie Ellis, of this place, which took place at Madison September 2, has just been announced. It came as a surprise to our people.

Dr. Massie Paroled.

Frankfort, Ky., Dec. 6.—The state prison commission paroled Dr. J. L. Massie, of Owen county, who was serving a life sentence in the state penitentiary for the murder of Jesse Honaker. He charged Honaker with slandering his wife.

No Extra Session.

Frankfort, Ky., Dec. 5.—Gov. Beckham told Sam W. Booker and and other officers of the Home Tobacco Warehouse Co., of Louisville, that he would not call an extra session of the legislature.

CITY OF HENDERSON LIABLE.

The Pesthouse Located Too Close to the City Limits.

Frankfort, Ky., Dec. 4.—The court of appeals affirmed a damage judgment of the Henderson circuit court, holding the city of Henderson liable for damages for violation of the statute prohibiting the location of a pesthouse within a mile of the limits of a city. Judge Hobson delivered the opinion, the whole court sitting, and Judges Paynter and DuRelle dissenting.

The action was by Mrs. Nannie O'Halloran, who contracted smallpox while visiting at the home of a friend located within 250 yards of the pesthouse. The jury in the court below awarded her $500 damages. On appeal the city contended that the damages sued for were not the natural result of its wrong and that the plaintiff was guilty of contributory negligence. The court here hold that the damages to appellee are not too remote to be recovered and that appellee did not know of the disease at the time of her visit.

ATTEMPT TO SLEEP IN A TRUNK.

Little Boy Is Dead and His Sister in a Serious Condition.

Anchorage, Ky., Dec. 6.—As the result of an attempt to go to sleep in a trunk John Allen, jr., the 6-year-old son of John Allen, a resident of this place, is dead and his 8-year-old sister is in a very serious condition though she will recover. The children, according to the girl's story, were playing in the attic of their home when the boy proposed that they get into a trunk and rest. After they had done so the boy pulled the lid down and they were unable to open it again. Their cries for help were not heard and when their mother found them about an hour later the boy was dead and the girl was unconscious. The family is at a loss to understand way the children could not raise the lid, as it had neither lock nor clasp.

HUTCHINSON MURDER TRIAL.

The Widowed Sister Testified Against the Accused Man.

Paducah, Ky., Dec. 6.—A strange scene was a widowed sister giving evidence in the circuit court against her brother that may send him to the gallows. The case was that of Eli Hutchinson, charged with the murder of his brother-in-law, Henry Gray. Mrs. Gray gave damaging testimony against the defendant, stating that her husband said he pleaded witb Hutchinson not to kill him. The murdered man's 8-year-old daugbter and 15-year-old son were the only eye witnesses. The daughter became frightened on the stand and had to be excused. The boy is making a good witness for the commonwealth.

Attacked By Vicious Hog.

Burgin, Ky., Dec. 6.—While C. B. Vineyard was engaged in feeding a large number of hogs on the Bonta Bros. farm near town, he was attacked in a vicious manner by a large hog, and would have lost his life had neighbors who heard his calls for help been a few moments later in coming to his rescue. One of Vineyard's hands was almost torn off, and he was badly bitten in many places. He is in a critical condition.

A Unique Invitation.

Maysville, Ky., Dec. 4.—John Duley, president of the board of trade, Wednesday sent Congressman James N. Kehoe at Washington a twist of burley tobacco three feet long to be presented to Senator Mark Hanna with an invitation to visit this city during the tobacco fair February 21, as the guest of the Maysville board of trade.

Bought a Stradivarius.

Hopkinsville, Ky., Dec. 6.—Judge M. D. Brown, of Madisonville, has purchased here a violin bearing the inscription, "Antonius Stradivarius Cremonises, Faciebat, Anno 1713." The instrument was formerly owned by an old Negro of this county, who sold it for a small sum.

Killed By a Train.

Bellevue, Ky., Dec. 6.—James B. Thornton, 56, was instantly killed by being struck by an eastbound freight train on the C. & O. railroad, near Taylor avenue. He was on his way from his home to visit his son-in-law, Ollie Shaftstall, who is critically ill with pneumonia.

Siler Indicted.

Lancaster, Ky., Dec. 3.—The grand jury adjourned Tuesday, after returning 19 indictments, one for manslaughter against J. C. Siler, who shot Lt. C. E. Poyntz to death in a street duel at Paint Lick on October 20.

Dug Out of Jail.

Jackson, Ky., Dec. 5.—Curtis Fett, who mercilessly assaulted and beat old man Howard because he lodged complaint against him in court, charging assault on his daughter, escaped from jail here Wednesday night by digging out.

Death of J. W. Walker.

Henderson, Ky., Dec. 8.—J. W. Walker, until recently local manager of the Henderson Telephone and Telegraph Co., died here after a long illness. His body was interred at Morganfield, his old home, Thursday.

THE trusts can trust in the administration.

THE improvement of the Ohio river has received a temporary backset.

THOMAS B. REED, of Maine, died in Washington, D. C., last Sunday morning. He was about the ablest man in the Republican party.

THE court of Appeals granted Caleb Powers, charged with the murder of Gov. Goebel, a new trial, mainly because Judge Cantrill refused to vacate the bench upon Powers filing the necessary affidavit.

The Barkers, at Carrollton, Ky., who are being driven out of the tobacco warehouse business by the trust, will establish an immense canning plant there employing 200 hands. M. I. Barker will put in 150 acres of garden truck on his farm, and other farmers will arrange to grow vegetables to supply the plant.—Rising Sun Recorder. Will the Recorder please inform the President Roosevelt whether that particular trust is a good or a bad trust?

Investigation has shown that 60 per cent of cigarette smoking boys had poor memories, 40 per cent were untruthful, 60 per cent had bad manners and 90 per cent were slow thinkers, while the average efficiency of boys not smoking was 95 per cent. These statistics, however, cut no ice with the youths who do not think they lay claims to manhood unless they have one of the little "coffin nails" stuck between their teeth.

Corinth, Grant county, voted 57 to 12 against the sale of whisky, last Saturday. Local option is getting a foothold in Grant county.

Folls A Deadly Attack.

"My wife was so ill that good physicians were unable to help her," writes M. M. Austin, of Winchester, Ind., but was completely cured by Dr. King's New Life Pills." Gov. Beckham has, undoubtedly, the endorsement of the masses in his refusal to call an extra session of the legislature in the interest of the Home Tobacco Warehouse Company, although that company has the sympathy of the people generally. Several of the members who would like to have a $5 a day job through the winter petitioned the Governor to make the call, but they could not influence him a little bit.

Henry Roberts, who was sent from this county to Lakeland Asylum, about 18 years ago, gave that institution the shake, a few weeks since, and retuned to the scenes of his childhood down on Middle creek. Last Saturday Sheriff Allphin went down and took him into custody and returned with him to Lakeland that afternoon.

Joshua Masters, of Bullittsville, goes down the East Bend road every Monday with his oil and gasoline supply wagon. Last week while he was filling oil cans at Wesley Underhill's about three miles from town, a couple of white Bantam chickens, unnoticed, jumped up on the coupling of the wagon, where they remained undiscovered until the wagon returned to Burlington, when Mr. Masters noticed them and put them in a coop to await the coming of their owner, to whom he sent word as to where he would find the chickens. It was several days before Mr. Underhill knew what had become of his chickens.

C. C. Coleman, who was born and raised in Burlington, was elected Attorney General of the State of Kansas, at the last election, by a plurality of over 44,000 over his Democratic opponent, being the largest plurality received by any of the Republican candidates. The Limaburg guessers landed about $500 of the Enquirer money. James, son of Joe Brown, got $384 and James M. Utz, $20. The latter dreamed of the number he sent in.

It is said that a farmer who lives on one of the railroads that passes through this county has struck upon the following plan to secure free fuel for this winter. He has stuck a bottle on a fence post on his farm by the side of the railroad track, as a tempting mark for the firemen on the passing locomotives to throw at Not one fireman in twenty is able to resist the temptation, and having no stones to throw they will throw pieces of coal. In this way the farmer always has coal to burn, and he can well afford to replace the bottle when one happens to get hit.

It seems that he and his wife had been getting along badly for some time, and he finally undertook to whip her, and she had him arrested. He says the blows he administered to his better half were in his necessary self-defence, but he failed to make the jury so believe, and he is now registered at Hotel Adams.

Our friend Alex Buckner, of Erlanger, sends the Recorder the following clipping, and says it explains how country editors make such rapid strides toward wealth and fame:

"The man who penned this current piece of history knows what he is talking about. The 'Monoa Index' says, truthfully: 'After a great deal of study and worry we have at last figured out why many country editors get rich. Here is a secret of their success. A child is born in the neighborhood; the attending physician gets $10, and the editor gives the loud-lunged youngster and the happy parents a send-off and gets $00. It is christened and the minister gets $5 and the editor gets $00. It grows up and marries the editor publishes another long-winded flowery article and tells a dozen lies about the 'beautiful and accomplished bride.' The minister gets $10 and a piece of cake, and the editor gets $000. In the course of time it dies and the doctor gets from $5 to $100, the minister gets another five, the undertaker gets from $50 to $100, the editor publishes notice of the death and an obituary two columns long, lodge and society resolutions, a lot of poetry and a free card of thanks, and gets $0,000. No wonder so many country editors get rich."

For some weeks past I have noticed the discourse on educational matters, which were something like this: "To secure qualified teachers more money must be remitted to the cause," and I think Mr. McNeal is exactly right in regard to the improvement of the public schools of Boone county. Good teachers are essential to their welfare, and to secure them enough money must be paid to encourage them, and in a measure repay them for the time and trouble they take in teaching the young hopefuls. The subject of education is fraught with a deep interest to all who have a just appreciation of its merits, and to help the schools along, care should be taken to secure qualified pedagogues for above all what can be gathered from the fields of classic lore and polite erudition, are of the utmost value. Measures should be taken to raise the salaries of Boone's teachers before the talented and zealous teachers become discouraged and step from the ranks. I have heard a great many people say that Kentucky is deficient in school matters, but with that I never agreed. As my sister was for two years one of Boone's teachers, and from what I have learned, all that is detrimental to the schools is the small salary. The people should afford to pay more taxes in order to secure a sufficient and qualified corps of teachers, a greater interest taken in the noble work. It seems to me that a teacher has a higher calling than any other person living. Such a responsibility on their hands to lead the pupils steps aright, as well as to strive for their education and training, for the real satisfaction of living is in obtaining a complete and lasting education.

At the last term of the county court, the following orders were entered: Edward Clegg was appointed trustee for his wife, W. N. Smith, the trustee nominated in the will of her grandfather, Jeremiah Smith, being dead.

C. A. Roberts, of Verona, was granted a druggist liquor license.

The will of Rebecca Johnson, deceased, was admitted to probate, and Lafayette Johnson was appointed administrator with the will annexed. C. L. Griffith, J. W. Cleck and Jas. H. Watson were appointed appraisers.

John M. Finch, of Florence, was granted hotel license with the privilege to sell spirituous, vinous and malt liquors by the drink.

Last week was a busy period with county Judge Cason. On Monday he held the regular monthly term of the county court; on Tuesday his time was occupied by the quarterly court; Wednesday he was engaged in the criminal division of his court, and sent one fellow to jail for 20 days and fixed the bond of the McIntyre boys a $500 each for robbing Miller's store at Big Bone, and returned them to jail in default of bail. Thursday he tried old man Bauers of Florence, and adjudged him of unsound mind and ordered him taken to Lakeland asylum.

CHRIST AS THE VINE.

Beautiful Figure Which Illustrates Deep Spiritual Truth.

Sermon by the "Highway and Byway" Preacher on One of the Six Striking Sayings of Jesus.

[Copyright, 1902, by A. N. Kellogg Newspaper Co.]

Chicago, December 7, 1902.

Text:—"I am the True Vine, and My Father is the Husbandman. . . . ye are the branches."—John 15:1, 5.

In the garden-decked land of Palestine, where the grape vine flourished in all of its splendid beauty and luxuriance, came One from God Who declared Himself the True Vine, that His Father was the Husbandman Who planted the Vine, and that His disciples in their relations to Him were the branches of the Vine. The vine was known and cultivated from the earliest times in Palestine and is very frequently referred to in the Old and New Testaments. The short biography which God's word gives us of Noah acquaints us with the fact that he planted a vineyard. It was a wonderful sight which greeted the eyes of the spies when they had penetrated the Promised Land as far as the Valley of Eschol, for we are told that they cut down a branch bearing one cluster of grapes, which two of them bore between them on a staff. And it was the vine which Christ selected to illustrate the close and intimate union which existed between Himself and His disciples and the relationship which His Father bore to both the Vine and the branches.

He declares: "I am the True Vine." Here is a beautiful intimation: That Nature in her gift to man of the vine has but foreshadowed the Christ and strikingly illustrated what the Father is to Him and He to His followers. Nature sings a perpetual song of praise and testimony to God of His will and purposes toward man. Always in perfect harmony with the Divine will herself, Nature seeks to teach man, who is out of harmony with God, spiritual truths which will bring his wayward heart into sweet communion and fellowship with its Maker. The mission of the sun to the earth is not alone to give light and heat, but to bear testimony to that True Light which lighteth every man that cometh into the world. The rainfall and the dew come not only to refresh the parched earth and make it blossom and bear fruit, but each pattering drop and each sparkling dewdrop tells the thirsty soul of man that there are times of refreshing from the Lord. The grains and the fruits that crowd barn and cellar do not rejoice alone that they give physical life to man, but that they come laden with the message that "man shall not live by bread alone, but by every word that proceedeth out of the mouth of God;" that as Nature's bread feeds the body and gives it life, so Christ, the True Bread from Heaven, feeds the soul and gives it life.

Christ from the beginning to the end of His ministry delighted to take His illustrations from Nature. His creative hand had fashioned the worlds; had piled the rocky heights down which the refreshing waters coursed; had planted the fertile valleys, and in the leafy tops of the trees He had nested the happy birds. The busy hum of Nature caught its music from the activity of the Divine workshop, and is it any wonder when Jesus came into the world that the lilies of the field sang to Him of the Father's loving thought and care; that the rolling bosom of the blue Galilee should have given Him refreshing and rest after many a wearying day, and that the quiet seclusion of the mountain retreats should have become the sacred temples in which He met and communed with the Father? During the boyhood days of Jesus, at His home in Nazareth, as He roamed the hillsides surrounding the town, He had seen the sower go forth to sow. He had seen the seed planted in the cold, damp earth; had discovered the green sprout come pushing up to the sunshine and the rain; had watched the tasseled stalk waving its grain-laden head in the breezes as the harvest time approached, and had seen it yield, some forty, some sixty and some an hundred fold. Nature taught Him the beautiful lesson that "except a corn of wheat fall into the ground and die, it abideth alone; but if it die it bringeth forth much fruit," and He willingly trod the pathway of death that through His death He might give life unto all the world.

And He Who had lived in the realm of Nature and had so forcibly taught spiritual lessons from the pages of her book, brings to His disciples as a last parting message this beautifully suggestive figure of the vine and the branches to comfort their hearts and help them to realize that though their Lord was to be no longer with them in the flesh, still the union between Him and His disciples was not broken, but was more vital and intimate than ever before. This is the most striking of all the figures which Jesus used, but it is interesting to note that it is not the only one which illustrates the union of Christ with the believer, for, as some one has said, they run through the whole range of visible figures of speech. There is the animal kingdom, with its sheep and the shepherd; there is the mineral kingdom, with the building and the Chief Corner Stone of Ephesians the second chapter; there is the human form with the body and its members of the fourth chapter of Ephesians; there are the family and its members, or the state or commonwealth and its citizens of the third and fourth chapters of Ephesians; there is the marriage relation with the bride and the groom of the fifth chapter of Ephesians; and the climax is reached in 1 Cor. 6:17: "He that is joined unto the Lord is one spirit," and in Rom. 8:35: "Who shall separate us from the love of God?" The poem of Frances R. Havergal comes to mind:

"Joined to Christ in mystic union,
We Thy members, Thou our Head,
Sealed by deep and true communion,
Risen with Thee, who once were dead—
Saviour, we would humbly claim
All the power of this, Thy name.

"Instant sympathy to brighten
All their weakness and their woe,
Guiding grace their way to lighten,
Shall Thy loving members know;
All their sorrows Thou dost bear,
All Thy gladness they shall share.

"Make Thy members every hour
For Thy blessed service meet;
Earnest tongues, and arms of power,
Skilful hands and hastening feet,
Ever ready to fulfill
All Thy word and all Thy will.

"Everlasting life Thou givest,
Everlasting love to see;
They shall live because Thou livest,
And their life is hid with Thee.
Safe Thy members shall be found,
When their glorious Head is crowned!"

Where in all the realm of religion or poetry can you find a sublimer thought than this, that Christ is the Vine, that His disciples are the branches and that God the Father is the Husbandman? The branches dead and lifeless without the Vine, the Vine incomplete without the branches, and both planted, and nourished, and tended by the Father, the Husbandman. The life of the Vine, the life of the branches; the nature of the Vine, the nature of the branches; the purpose and desire of the Vine, the purpose and desire of the branches; the fruit-bearing power of the Vine swelling and pushing through the branches and crowning them with the glory of the luscious fruit. Think of it! Jack of the nursery fairy tale mounted up the miraculous beanstalk into new and wonderful realms, but the true believer in Christ is grafted into the True Vine, and is able to mount to the secret recesses of the Most High. Everything that the Father gives to the Vine flows through the Vine to the branches, so that all the riches of Heaven and earth are freely given as the branches have need.

But remember that the branches are not the Vine. This may appear at first thought as a foolish and needless statement, but when you consider that pride and self-centered esteem, as blasting perils, threaten every Christian, it becomes a matter of supreme importance to emphasize the fact that after all he is nothing but a branch and spiritually is absolutely dependent upon the Vine for life, for growth and for fruit-bearing impulses. The lesson of humility is beautifully illustrated and emphasized by this figure. Nothing but branches! Why he is the pastor of the biggest church in the city and a most eloquent pulpit orator! Yes, but he is nothing but a branch. Whatever spiritual life he has, whatever growth he attains, whatever fruit he bears, all come from the Vine. Whether he is called bishop, or elder, or writes D. D. after his name, whether he is Sunday school superintendent or president of a young people's society, before God he is only a branch, and dependent upon the Vine. Peter, the great apostle, upon the rock of whose faith was to be reared the Church of Jesus Christ, and Paul, the great apostle to the Gentiles, the mighty preacher the untiring missionary, were nothing but branches of the Vine. Whatever success attended their efforts in Christian service was wholly the result of being the unobstructed channel through which Christ, the Vine, could pour His power and blessing. Peter, realizing this, exhorts: "Be clothed with humility; for God resisteth the proud, and giveth grace to the humble. Humble yourselves, therefore, under the mighty hand of God, that He may exalt you in due time." And Paul exclaims, to the Galatian Christians, after reminding them of all the mighty work he had done among them: "But God forbid that I should glory save in the cross of our Lord Jesus Christ." Yes, nothing but branches, but, oh, look at the possibilities if they will be only branches and abide in the Vine! The life of Christ to flow through them and make them fruitful unto Eternal Life and the salvation of souls!

And another thing, the figure of the Vine and the branches is destructive of denominational pride. Congregationalists, and Methodists, and Presbyterians, and Baptists, and Episcopalians, and so forth, are only branches of the Vine. The source of their life is the same, their growth is proportionate to the opportunity they offer for a free flow of the Divine life through them, and their fruit-bearing possibilities are dependent upon a spirit of submission to the perfect will of the Vine. The narrowness of denominational pride would disfigure the Vine with ugly signs and bristling figures, and assign sunny exposures to one branch while all the other branches would be cast into the shade of disapproval and distrust, wholly unmindful and forgetful of the fact that Christ the Vine and the branches abiding in Him are one beautifully symmetrical and harmonious whole—the branches all drawing life and nourishment from the Vine and the Vine glorying, not in one branch to the forgetfulness of the others, but in all the branches, because all the branches have their part in the Vine and have their fruit to bear. Imagine one branch on a vine beholding itself with complacent satisfaction because it was longer and rounder and more lusty than its neighbor. Imagine it reasoning with itself that, because the bend of the other branch was different from its own, and because the color of its bark was not exactly the same as the other, the other branch could not be part of the same vine. And if Christ is the Vine and "ye are the branches," what are you going to do with denominational dividing lines and theological differences? In the mind of God no such things exist. Christ is the Vine which He has planted, the true believers, by whatever name they are called, are the branches, and the life of the Vine flows freely and fully to all alike as they offer unobstructed channels to receive and use it. Is not this beautiful? Is not this comforting, even if it is humbling to personal or denominational pride?

Jesus spoke the words of our text on the threshold of the darkest moments in His own life and the lives of His disciples. In the quiet confidences of that last sad hour He told them: "I am the True Vine, and My Father is the Husbandman . . . ye are the branches," and then the tempest of hell and the wrath of man burst full upon Him and He was torn from the midst of His disciples, and they were scattered. How many times during the days that followed, while their Lord was in the tomb, do you suppose His words occurred to them? What mockery they must have seemed to them, and yet how they must have kept stirring their hearts to expectancy. If God the Father was the Husbandman He would not permit the True Vine to be destroyed root and branch. And so they waited, waited, waited. Oh, that is what you must do during the dark hours. Remember the words of Jesus, and wait. The thrill of the Divine Life was felt as the glory of the resurrection morning broke and Jesus came and spoke with them. And when your dark hours are past during which you have felt yourself completely severed from the Vine, Jesus will come to you and you will feel the awakening of new life, and the dark hours will be seen to have been but the purging and pruning of the faithful Husbandman.

But now watch the disciples grow, as during those forty days of communion with their risen Lord the Scriptures are opened up to their hearts and they begin to understand the marvelous plan of God's salvation. The branches are being prepared and strengthened for the fruit-bearing of the day of Pentecost. Then come the ten days of quiet waiting; the learning of the lesson of patience, "for ye have need of patience, that, after ye have done the will of God, ye might receive the promise." And so with every branch in the Vine, there is the period of growth, the preparation for fruit bearing. During the dark hours of trial the Husbandman breaks down the self-will and self-confidence so that there may be spiritual development and growth. And then as the new life thrills and throbs through the awakened branch, and it begins to feel its capabilities for fruit-bearing, there comes the period of waiting, that the wonderfully important lesson of patience may be learned. How hard it is to wait! You wonder why it is. But if the branch is content to wait the will of the Vine, the fruit-bearing is certain and large.

Two conditions are incumbent upon the branch to enable the Vine to realize its full possibilities; one is active, the other passive. The branch must abide in the Vine, and it must yield submissive obedience to the impulses of the Vine. What is abiding in the Vine? "I don't feel a bit like going to prayer-meeting to-night, but I know I ought to go, and that I will get a blessing if I do." And the branch starts off for God's house. That's abiding in the Vine. The father gets home tired and hungry at night. The baby is cross, the children noisy and supper isn't ready. The impatient spirit rises in the heart and the lips are about to speak unkind and hasty words, when the still small voice whispers in the heart: Rejoice, "for all things work together for good to them that love God," even a delayed supper. A cheery smile greets the tired wife, instead, and the voice of sympathy says: "Well, dear, this has been a hard day for you, hasn't it?" That's abiding in the Vine. The lady is calling on her friend and the conversation, unfortunately, but as is so often the case, becomes of a gossipy nature. The unkindly criticism is passed upon another member of the church, but the hostess, instead of encouraging the criticism by saying something mean, too, looks for the good in the person under discussion and says something kindly about her. That is abiding in the Vine. The man in the office or the shop hears the unclean word or the suggestive, smutty story, and, instead of keeping silent or in the uneasiness of his own mind passing it off with a short, jerky laugh that condemns him as a coward, he rebukes the foul utterance by a quiet, earnest word. That is abiding in the Vine. It takes courage to abide in the Vine. It takes self-denial, it takes thoughtfulness, it takes self-control, it takes kindly sympathy and love, it takes purity of heart and singleness of heart to abide in the Vine, but it is worth all it costs, and more, infinitely more, for the Divine Life flows through the one who is abiding in the Vine, there is spiritual growth, and there is fruit-bearing. The Husbandman faithfully cares for the Vine. He cuts off the dead branches, He prunes and purges the fruitful ones, and when He sees the glorious fruitage, He rejoiceth exceedingly. The Vine with unfailing devotion, pours its life into the branches, compelling growth and fruit-bearing. The branches, that are obedient to the high calling of God in Christ Jesus, abide in the Vine, and by submissive obedience become the channels through which the Vine can realize all its magnificent and eternal possibilities. Is it not a wonderful privilege to be so linked to Christ and through Christ to God?

STEEL TRUST FACTS.

Monopoly Masked Upon Unsound Principles at Variance with the People's Interests.

The industrial chieftains at the head of the billion dollar steel trust may understand their business as steel producers, but as economists and philosophers they are wobbly in their logic.

President Charles M. Schwab made some bad breaks, both as to facts and theories, when he was before the industrial commission in 1901. Now comes Judge L. H. Gary, the acting head of the trust, with a three column interview in the New York World of November 21st, which can properly be described only by saying that it is a "corker." Here are a few samples of his economic wisdom on the subject of monopoly:

"I am opposed to private monopoly. No decent man in America can defend it."

"It is an impracticable and utterly unsound idea in business."

"All sound organizers of industry recognize the absurdity of the monopoly theory. No large industry can last in America unless it is founded on the basis of competition, that is, the survival of the fittest."

"If the United States Steel corporation, the most powerful private institution in the world, is to succeed, it must not and cannot found its policy on a programme of monopoly. Its success is due to the highest form of competition, competition in brains, in methods, in work."

"No man need fear that monopoly is making any headway in this country. A study of the United States Steel corporation or of any other great and successful industrial organization in the United States will show that it is the spirit of unsleeping competition competition that avails itself of every new idea or appliance—that makes success."

But Judge Gary has very peculiar ideas as to the meaning of monopoly and competition, as will be seen from the following quotations from this same interview:

"There is a tremendous competition on all the time between our various mills, a friendly, good-natured rivalry, but none the less eager. It is the kind of competition that is giving the industrial supremacy of the world into the hands of America."

"No, we know very well that we cannot win by the device of a monopoly. We must win by getting possession of the best and most economical raw products, and by using the most concentrated and highly developed methods of production. This is a competitive, not monopolistic idea."

"Of course the first element of strength, which the United States Steel corporation has is its possession of raw products. We own 70,000 acres of Connellsville coal, practically the whole supply of the world. We also own 50,000 acres of Pocahontas coal. These two coals beat the world for cheapness and quality. We also own 700,000,000 tons of unmined iron. We have methods of measuring the supply in the ground, and that is our estimate. Then we have about 1,500 miles of our own railroads, besides something like a hundred and fifteen steel boats on the lakes. Our vast system of steel and iron mills is controlled by 15 subsidiary companies, which in turn control their own subsidiary companies."

No further comment upon Judge Gary's logic is necessary, except to say that the only danger he sees ahead for his world-conquering trust lies in lower tariff duties and in less protection. "If we are to be the dominant manufacturing nation of the world," he says, "we must be as fully protected as any other nation."

Judge Gary is up-to-date, and knows how to manufacture new definitions, and rules of logic, as well as steel rails. These are great times.

BYRON W. HOLT.

——It goes without saying that a nonpartisan commission is not going to be appointed by any partisan who is willing to tolerate the present method of holding the consumer up. Even if a nonpartisan committee could be raised its work would be merely advisory and would be promptly rejected by a partisan congress or a partisan president if it did not line up with party policy and promises. The tariff question must be settled at last by congress with the approval of the president.—Dallas (Tex.) News.

PRICES AND WAGES.

Facts Which Do Not Carry Out the Boast of Prosperity to All Classes.

There are two kinds of wages. One is called "money wages," the other "real wages." The former is the actual number of dollars paid to the wage-earner, the latter is what it will really pay for—in rent, food, fuel, clothing.

The question that deeply interests every American home to-day is, What are "real wages" to-day as the high-water mark of prosperity? This calls for a comparison of present prices as well as wages with those of 1897 or 1898, when prosperity was at low tide. This comparison is comprehensively made in the World's news columns. From the mass of figures collected from the leading cities of the union these facts appear:

1. That $1.24 to-day buys about the same amount of necessaries of life as were bought for $1 four years ago.

2. That to offset this 24 per cent. increase in the cost of living there has been no rise in wages in many industries and callings; a rise averaging 15 per cent. in the wages of skilled labor; a rise of five to ten per cent. in several manufacturing industries.

3. That the "real wages" of the family with only one bread-winner are therefore less by from five to 24 per cent. than they were in the less prosperous times of 1897-98.

4. That the "real wages" of families with two or more bread-winners are better than four years ago for this one reason—that they are all as a rule at work now, whereas some of them were idle in 1897-98.

THEORY AND PRACTICE.

VALUES HAVE FALLEN.

Something for Which the Republican Philosophers Lack an Explanation.

From September 8 to November 12, 56 railroads and 18 industrial stocks (71 per cent. of par value of all listed on the New York stock exchange) declined an average of 10¾ per cent., or $601,442,000. It is estimated that all of the listed stocks, with a face value of $7,314,421,790 declined in value between $700,000,000 and $800,000,000.

It would have been easy to account for this great shrinkage had there been a democratic victory on November 4. It would certainly have been charged to the wicked democrats, who are bent on ruining the country, and whose coming victory cast its shadow in advance.

Thousands of editors would have jumped at the chance to blame the party of adversity. They are now at a loss to account for this great slump. Not only will the republicans have the next house by a safe majority, but big crops, and the settlement of the coal and other great strikes assure us peace and prosperity for some time to come. What, then, caused the slump?

As most of the shrinkage occurred after the election, it cannot possibly be charged to the democrats. It is up to the republican philosophers to concoct a plausible explanation for this lack of confidence in the G. O. P.

COMMENTS OF THE PRESS.

——The American Tin Plate company and the Amalgamated association have agreed regarding the wages of workmen on tin cans used for exporting oil. It is distinctly fixed that a can of oil shall be sold abroad at a lower price than at home.—Providence Journal (Ind. Rep.).

——If Roosevelt is chosen or rejected in the national convention of 1904, he will owe the result, whatever it may be, to the people, whose confidence he now enjoys in such generous measure, and not to the practical politicians, whose confidence he fortunately and happily does not enjoy. The interests of the politicians are antagonistic to the interests of the people.—Philadelphia Public Ledger (Ind. Rep.).

The World's tables of actual wages and prices in different parts of the country on which these conclusions are based are full of interest and instruction on this vital topic of the time. They agree in the main with such incomplete official statistics as are available. The labor department's figures and Dun's standard tables show a steady rise of prices since 1897, averaging at least 30 to 35 per cent., and an average increase of wages not exceeding 12 per cent.

NEW KIND OF A CIGAR.

Like a Good Many Kinds of Cheap Cigars, It Contains No Tobacco and Is Made in France.

Doctors at Philadelphia have had their attention called to a substitute for the cigar. At the last meeting of the Conseil d'Hygiene of the Seine, France, M. Guiguard presented a report relating to the placing on the market of a cigar which contains no tobacco. Many people have long supposed that thousands of the so-called cigars contained no vestige of tobacco. The cigar of M. Guignard is at least an honest production. It contains no tobacco, its "base"—a fine word this—is an aromatic herb, and, moreover, it is said to be an antiseptic. It will give out plenty of smoke—so will brown paper—and it is guaranteed to be absolutely inoffensive. In fact, so harmless it is said to be that even the late Mr. Gladstone, who never had a cigar in his mouth but once, would have had no objection to use it. The council approved of the report of M. Guigard and should government approve the manufactures of the "cigare antiseptique" will form another state monopoly.

CABLES AROUND WORLD.

Bostonian Sends the First Message Circling the Globe Via the New Pacific Cable.

Charles J. Glidden, of Boston, former president of the Eric Telegraph company, has received the first cable message sent around the world, establishing a record of 39 hours and 20 minutes. He started a dispatch addressed to himself from the Hotel Touraine at 9:15. It read as follows:

"Glidden, Boston, Mass., via Vancouver, British cable to Australia. Around the world."

The message took its place with the ordinary commercial business and was received in Boston by the Western Union at 12:35 a. m. next day, 39 hours and 20 minutes after it left Boston. Only three errors were made, the message arriving: "Gleddon Boston Armund the world," and dated at Southport, Australia.

PHONOGRAPH AT FUNERAL.

Congregationalist Pastor of Kansas Finds Innovation Proves a Decided Success.

Rev. Samuel Pearson, pastor of the First Congregational church of Leavenworth, Kans., used a phonograph to supply the music at the funeral of Daniel P. Williams, an old resident. Learning that no choir had been provided for the services, he took the machine along to the church, where it rendered "The Holy City" and "Jesus, as Thou Wilt." Though somewhat surprised, the relatives and friends of the decedent seemed greatly pleased with the innovation, and said he was in favor of the use of the phonograph for sacred music in sick rooms.

Marries Couple on Train.

Lloyd Roberts and Miss Blanche Gilliam, of Pleasant Hill, Ill., were married the other day on the Chicago & Alton passenger train which runs between Mexico, Mo., and Bloomington, Ill. They had gone from Pike to Green county to marry, but had taken out a license in the former county before departing. They discovered that they would have to return to the county where the license was issued if they would make the marriage legal; so, after the train passed into Pike, they had Rev. William Orr perform the ceremony while the train was speeding on its way to Mexico.

AGRICULTURAL HINTS

STEAM IN THE SILO.

Oregon Experiment Station Tests Favor the Steaming of Ensilage, in Certain Conditions.

Nearly 20 years ago, when silage was an uncertain quantity, a student at an agricultural college suggested running a jet of live steam in at the bottom of a cement silo. The argument was that this would cook the silage, and, if the silo were then tightly closed, give it just about the conditions under which fruit or vegetables are canned. This suggestion was laughed at as absurd. From time to time we have seen reports of the use of steam for preserving stock food. In one case an English farmer had a quantity of musty or damaged hay. It was packed into a small barn—all the cracks and holes being closed. A pipe was run inside at the bottom of the hay, and steam forced in under powerful pressure. This was kept up until the steam escaped at the top. The result was that

DEVICE FOR STEAMING SILAGE.

decay of the hay was prevented so that it made fair fodder.

Now we find in Bulletin No. 72 of the Oregon experiment station (Corvallis) an interesting account of steaming silage. The silos, made purposely for the experiment, were constructed of well seasoned yellow fir dressed tongue and groove lumber 1⅛ inch thick, 3½ inches wide and 12 feet long. When completed the silos measured approximately five feet in diameter and 12 feet deep. They were constructed plain, having no doors, so that the only way of filling and emptying them was by way of the top of the silo. Five such silos were constructed; two of them, Nos. 1 and 5, were fitted with 1¼-inch piping so that they could be steamed after being filled.

The picture clearly shows how the steam pipes were connected. In one case the steam was delivered near the bottom only. The other was fitted "so that steam could be liberated in the silo within two inches of the bottom at G, and also midway between the bottom and top at F. The upright pipe EF in the silo was covered with a cap at F so as to prevent fodder from falling into the pipe. Ten to 15 holes three-eighths-inch in diameter were drilled in the pipe near the cap at F as outlets for the steam. The elbow at G turns directly down and comes to within about two inches of the bottom of the silo. This elbow G prevents material from getting into the pipe GH, and serves as an easy outlet for the steam when forcing it into the silo near the bottom."

The corn cut into these silos was quite green. It was cut into three-fourths-inch lengths and packed down so that each silo contained a little over three tons. Steam was introduced under pressure of first 20 and again later at 40 pounds. This was kept up until the steam escaped at the top and the temperature rose to 212 degrees. Then the steam was shut off and the pipe stuffed with sterilized cotton, while the top of the silage was covered with the same material. As a result of the steaming the silage shrunk about 25 per cent. When opened there was some loss at the top, as the cotton did not prove a good protector. Below the moldy part the silage was bright and sweet—"with the odor of cooked sweet corn—not at all like ordinary silage!" Analysis of this silage showed that it did not undergo nearly as great a chemical change as the silage put up in the ordinary way. Of course such a small silo does not give a fair chance for practical investigation, and this year the experiments have been repeated on a larger scale—in silos nine and ten feet in diameter. These have been filled with corn and green clover, and thoroughly steamed. While no actual feeding results can be given until this silage is taken out and fed we feel very confident that steaming, in tight silos, will be found very useful in some sections of the country.—Rural New Yorker.

The Heifer's First Calf.

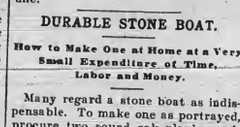
There should be no such thing as "breaking in a heifer" when she has her first calf. She should be so carefully handled that there will be no necessity for doing the thing after that; it should be done before calving. If this has not been done before, begin some weeks before calving to familiarize the heifer with the milker. Stroke her, caress her, handle the udder, doing everything so carefully that any advance in the process will be unnoticed by the animal. Within a few days the udder can be handled at will, and the heifer will soon come to enjoy and even expect such caresses. If this work is carefully and kindly done there will be no trouble when milking time comes.—Cincinnati Commercial.

RURAL FREE DELIVERY.

Maintenance of a National Service Would Cost Not Less Than $24,000,000 Per Year.

The officials of the post office department look forward now to the extension of rural free delivery throughout the entire United States. They have made their estimates as to what it will cost to deliver letters on every American farm or plantation in the sparsely settled and thickly settled parts of the country. The cost will not be trifling. To deliver every rural American his mail will take about $24,000,000 a year. Should the present service be extended at the rate of 12,000 routes a year until the 700,000 square miles of territory yet to be covered have been taken care of, there will be for several years an annual deficit in postal revenues of from $8,000,000 to $10,000,000. This deficit will, it is asserted, disappear gradually as the revenues increase by reason of the improved postal facilities.

Not many years ago rural free delivery was a questionable sort of experiment. The farmers, for whose benefit it was intended, did not in all quarters take kindly to it. They are not eager seekers after novelties, and the idea of abandoning the customary trip to the village post office for mail, a trip which gave them a welcome opportunity to gossip with neighbors and discuss crops and elections, was not altogether attractive to them. But they appreciate fully now the advantages of the new departure. There is an increasing pressure for the establishment of rural routes, and the representative of a country district who cannot secure something in this line for his constituents runs the risk of losing his popularity.



So strong is the pressure for rural free delivery that the post office department officials are not dealing with a remote question when they prepare estimates of the gross cost of a complete rural service. But while the cost will be large it will not frighten americans. Indeed, they are in the habit of looking unmoved on much larger appropriations for far less useful purposes.

It may well be that when the letter carrier makes his trips to every farmer's gate the farmers will make a more extensive use of the mails than they do now, and that the revenues of the department will expand as they have in the past whenever better facilities have been provided. Even if this were not to be the case, the "general welfare" will be promoted by an expenditure which brings the farmers of the United States into closer touch with the busy world from which most of them are so far removed.—Chicago Tribune.

DURABLE STONE BOAT.

How to Make One at Home at a Very Small Expenditure of Time, Labor and Money.

Many regard a stone boat as indispensable. To make one as portrayed, procure two sound oak planks, each about 2x15 inches and seven or eight feet long. Cut a piece about 12 inches long from one end of each plank, making the cut at a bevel of 20 or 30 degrees. Turn the cut-off pieces over, and bolt to the planks so as to make

EASILY MADE STONE BOAT.

a sloping front. At front and at rear end bolt a 2x4 inch or 2x6 inch crosspiece. The front crosspiece should be beveled at one side, to fit close to the sloping front.

A piece of strap iron of reasonable strength is bolted or spiked on, as illustrated, to hitch doubletree to. A strap of 2x1-inch lath may be nailed at each side of the boat, if desired. Planks the size mentioned will make a boat 2½ feet wide and six or seven feet long. If a wider bont is wanted, use three planks. Three 12-inch wide planks will make convenient sized boats.—L. E. Turnover, in Farm and Home.

Very Hard to Understand.

Official records show that a new kind of American invasion is occurring on this continent, as 50,000 citizens of the United States have settled in the rich wheat lands of the Canadian provinces. Why anybody should want to emigrate to Manitoba, where a sub-arctic climate provides almost perpetual winter, while rich farming lands are to be had in Missouri and adjoining states, where an almost perpetual summer provides the most equable climate in the world, is beyond the comprehension of a citizen of a republican form of government.—Rural World.

Trees Planted in the Fall.

When planted in the fall, all trees should be banked up at least one foot high until spring. This overcomes the tendency of the trees to heave out, protects them from mice and prevents the roots from freezing before they have taken hold of the soil. In planting roses, shrubs, vines, and other delicate stock in the fall, the tops should be nearly or quite buried with mellow earth during the first winter. The surplus earth should be removed early in the spring.—Horticultural Visitor.

Lettuce has become recognized as a fall, winter and spring crop and is extensively used because of its appearance in the market when most other vegetables are out of season.

The Proof of the Pudding Lies in the Eating.

The doctors are dumbfounded, the druggists astonished, and the people excited and joyful over the wonderful cures and tremendous sales of the great Remedy, St. Jacobs Oil. Every case of Rheumatism—some of many years' standing—has given way to this powerful remedy. Thousands of certificates like the following can be furnished as to its value:

George Scleyer, Publisher of the Chilton, Wis., "Volksbote," used St. Jacobs Oil for "almost unbearable pains in the back, which had completely prostrated him." A few applications cured him entirely.

Mrs. Fred Eberle, Bellaire, O., was for a long time severely troubled with Rheumatism. St. Jacobs Oil instantly relieved and entirely cured her.

Rev. Dr. B. Pick, of Rochester, N. Y., suffered so intensely from Rheumatic pains that he was unable to preach. Several applications from a bottle of St. Jacobs Oil "relieved him."

F. Radder, Cleveland, Ohio, says: "Two applications of St. Jacobs Oil cured me of great and long-continued pain in my foot."

Messrs. C. L. Brundage and Son, Druggists, Muskegon, Mich., write:—"St. Jacobs Oil has a wonderful sale. We sold eight bottles at retail yesterday. This will give you some idea of how well it is liked in this section."

Mr. Louis Finkel, of East Poesten, Kill, N. Y., says:—"I call St. Jacobs Oil the best liniment I ever used. It cured me of Rheumatism and pain in the back."

Herman Rittner, Manchester, N. H., "I have tried St. Jacobs Oil, and found it excellent. All those who have purchased it speak of it as 'simply incomparable.'"

Geo. G. Riffle, Palestine, Ill.:—I was in bed suffering from a swollen leg. I used St. Jacobs Oil, its effect was wonderful. The following day I attended to my business again."

Dr. Otto Fuls, Reading, O., writes:—"The sale of St. Jacobs Oil is constantly increasing; it is praised by everybody, and never fails to give entire satisfaction."

CONVINCING PROOF.

Case No. 41,206.—Capt. Alfred G. Rigler of Hose Company No. 4, Canton, Ohio, says: "I had a weak back ever since I was a boy, and about six years ago the cause developed into rather a bad case of kidney complaint. It was not a little backache now and then but backache which caused actual suffering day and night, and the harder I tried to get rid of it the worse it became.

"When the attacks were in the acute stage it was difficult to sit down, and when down it was just as hard to regain an erect position, on account of the twinges of pain in the kidneys. I can only describe some of the pangs as similar to that received from a knife thrust.

"In time, distressing and terribly inconvenient urinary weakness resulted, causing annoying embarrassment during the day and loss of sleep during the night.

"I took everything which came to my notice from reading, from observation, and which my friends and acquaintances advised. I consulted physicians, but none of them were able to relieve the trouble, let alone stop it.

"It became so well known that I had a pronounced case of kidney complaint that I often received circulars from medical companies offering to cure me, and one day eighteen letters were handed to me by the mail carrier.

"When Doan's Kidney Pills attracted my attention I wanted to try them, just as I had tried everything else, and Mrs. Rigler went to Durban & Wright Co.'s drug store for a box. Relief followed. I knew after a dose or two that the medicine was acting directly on the kidneys from the altered condition of the kidney secretions, and, encouraged, I continued the treatment. Finally, the backache and other complications stopped.

"Let me sum up my opinion about Doan's Kidney Pills by saying, I would willingly pay one month's wages for a box of them if I could not buy them for less. You can refer anyone to me about Doan's Kidney Pills and I will convince them that they act just as represented."

Four Years After.

"Lapse of time has strengthened my appreciation of Doan's Kidney Pills. I give this remedy my unqualified endorsement in the summer of 1896, because of the results I obtained from a course of the treatment. I can now add to my original endorsement the experience of a number of others who are just as enthusiastic, when they express their opinion of Doan's Kidney Pills, as I."

A FREE TRIAL of this great kidney medicine which cured Mr. Rigler will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

BETTER LEFT UNSAID.

Said with the Best Intentions, But So Awkardly as to Give a Wrong Impression.

Under the caption, "The Art of Putting Things," an English author has given some very amusing examples of saying things in a queer way. One of the most unfortunate recorded attempts to escape from a conversational difficulty was made by an East end curate, who cultivated the friendship of mechanics.

One day a carpenter came to him and said: "I have brought my boy's likeness, as you said you'd like to have it."

"How good of you to remember!" said the curate. "What a capital likeness! How is he?"

"Why, sir, don't you remember?" said the carpenter. "He's dead."

"Oh, yes, of course I know that," replied the curate. "I mean how's the man that took the photograph?"

A story is told of a young laborer who, on his way to his day's work, called at the registrar's office to register his father's death. When the official asked the date of the event, the son replied:

"He ain't dead yet, but he'll be dead before night, so I thought it would save me another journey if you would put it down now."

"Oh, but that won't do at all," said the registrar. "Perhaps your father will live till to-morrow."

"Well, I don't know, sir; the doctor says as he won't; and he knows what he has given him."

HORSES IN THEIR KNAPSACKS.

Lawton's Cavalry Were Provided Against Any Sort of Expedition or Privation.

A well-known Boston lecturer, Peter Mac Queen, has seen military service in more than one campaign, having been with Roosevelt at Santiago and with Lawton in the Philippines. He is an enthusiastic admirer of the regular army service, whose sense of humor, he declares, is unfailing. The following is one of his favorite stories:

"In the last expedition Gen. Lawton made against Santa Cruz two regiments, the Fourth cavalry and an Idaho regiment, were sent up the Laguna de Bay in native boats. In the darkness two regiments ran into one another and great confusion resulted.

"'What farmer outfit are you?' yelled the Idaho boys, derisively, at the clumsy cavalry.

"'Lawton's Fourth cavalry,' answered the regulars.

"'Fine cavalry,' was the answer. 'Where are your horses?'

"'Here in our knapsacks,' replied the cavalry, rattling their cans of 'salt horse.'"

The Worm Turned.

He loved her devotedly. He was also bow-legged. Both facts gave him pain at times.

He passed it by with a rueful smile, when she merrily said that his affliction gave him such an arch look, and that, after all, he was a pretty good sort when you got onto his curves. He bore it patiently, when she referred to his walk at his parenthetical progress. But he rebelled, and broke the engagement, when she called her pet dog through the wicket formed by his legs.

"I may not be so overly ornamental," said he, "but I emphatically object to being made useful, so unseasonably early in the game!"—Smart Set.

Why Syrup of Figs is the best family laxative

It is pure.

It is gentle.

It is pleasant.

It is efficacious.

It is not expensive.

It is good for children.

It is excellent for ladies.

It is convenient for business men.

It is perfectly safe under all circumstances.

It is used by millions of families the world over.

It stands highest, as a laxative, with physicians.

If you use it you have the best laxative the world produces.

Because

Its component parts are all wholesome.
It acts gently without unpleasant after-effects.
It is wholly free from objectionable substances.

It contains the laxative principles of plants.
It contains the carminative principles of plants.
It contains wholesome aromatic liquids which are agreeable and refreshing to the taste.

All are pure.
All are delicately blended.
All are skillfully and scientifically compounded.

Its value is due to our method of manufacture and to the originality and simplicity of the combination.

To get its beneficial effects—buy the genuine.

BOONE CO., RECORDER
Wednesday, Dec. 3, 1902.
W. L. RIDDELL, - - Publisher.

Personal Mentions.

W. N. Hind, of Covington, was in town, Monday.

Mrs. W. C. Brown was quite sick several days last week.

R. A. Brady was quite sick all last week at Judge Lassing's.

Judge Lassing was visiting old friends at Richmond, Ky., last week.

John J. Berkshire and W. C. Goodridge are both reported as improving.

Judge Roberts left home early Friday morning with gun, flse and rubber boots. Not much luck.

Mrs. Della Utz, of Limaburg, spent a few days last week, the guest of Mr. and Mrs. B. W. Adams.

Our friend, John E. Calvert, of Rabbit Hash, called yesterdy. John's hairs get whiter but he gets no older.

Mrs. Mary McConnell, of East Bend, fell one day last week and broke her hip. She is an aged lady and her recovery is regarded as doubtful.

Messrs. A. P. Collins and D. B. Dobbins, of Richwood, were interviewing some of the county officials here last Thursday afternoon. They are two of Boone's excellent citizens.

Chas. Wilson has moved back to Burlington from the Francesville neighborhood, and occupies the Morris house, from which Chas. Birkle moved to the J. M. Barlow residence.

T. J. Clore will give an entertainment with his graphaphone on the night of the 27th inst., at Odd-Fellows hall in Bellevue. He will also give to the prettiest girl in the audience that night a $7 lamp.

James Bullock, one of the Greenwood Grange Dramatic Co., was in Burlington, last Thursday afternoon. He says the entertainment to be given by the company at Hebron, next Saturday evening, will be full of fun from start to finish.

W. J. Rice received a letter from M. T. Garnett, at Bartow Fla., yesterday. The letter was written on the 5th inst. He arrived alright. He said the Mr. E. D. Crigler, who had been dangerously ill, was some better, but not out of danger.

Hon. Stephen Henry, of Erlanger, made the Recorder a pleasant call yesterday while attending court here. He informed us that the probability is that a rural free mail delivery route will be established from Erlanger to Constance, thence to Hebron, thence to Limburg, thence back to Erlanger.

Circuit Court.

Very few, except those summoned as grand jurors, were present at the opening of the Boone circuit court Monday morning. Two or three of those summoned failed to answer when called. Leslie Harrison and W. H. Griffith were excused on account of ill health, and Nathan Clements was excused because of the sickness of his children. The jury as organized is composed of the following gentlemen: David Houston, Ed Utz, A. C. Roberts, Geo. Smith, Will Graves, Ed Rice, N. S. Walton, Geo. Barlow, J. J. Lillard, J. M. Craven, W. L. Aylor, R. O. Beemon. N. S. Walton was appointed foreman. Judge Lassing gave the jury the usual charge and was given close attention throughout. In calling the attention of the jury to their duty in reference to the public buildings his remarks in regard to the condition of the court house ought to serve to hasten action on the part of the fiscal court to have the necessary repairs made. Among other things he said Boone is the richest county in the district and has the poorest court house.

When court convened yesterday the following visiting attorneys were present: M. D. Cray, Commonwealth's Attorney, of Williamstown; J. G. Tomlin, of Walton; W. H. McCoy, of Covington; B. F. Menifee, of Crittenden, O. M. Rogers, of Erlanger, Judge Cecil Pence, of Covington.

The petit juries were organized as follows:

No 1.—Guvin Benson, B. L. Cleek, W. A. Gaines, Newton Sullivan, Joe Myers, Ben Cason, J. M. Barlow, A. C. Porter, Milton Souther, Ezra Tanner, W. C. Brown, F. L. Gordon.

No. 2.—R. L. Huey, Al Rogers, Jerry Dempsey, Eliza Harper, W. H. Rouse, Walter Campbell, J. F. Blyth, J. R. Clutterbuck, G. L. Miller, J. B. Eidred, Leonard Rouse, J. Wash Watts.

The grand jury is a body of excellent men.

The Powers will case goes over until the next term.

16 equity and 5 common law appearances at this term.

Judge Lassing is pushing the business of the court with his usual vigor.

Sheriff Allphin opened circuit court Monday morning with the old time ceremony of "Oh yes! Oh yes!! hear ye," &c.

The court tried two cases yesterday, the Commonwealth vs Harry Passons, and same vs Leonard Rouse, a verdict of not guilty being returned.

It is said that James McIntyre will plead guilty to the indictment charging him and his brother with robbing Miller's store at Bigbone Springs, when arraigned this morning.

The grand jury returned an indictment yesterday against the two McIntyre boys for robbing Miller's store at Big Bone Springs, week before last. They will be tried today.

Judge Lassing told the grand jury that Boone is the only county in his district that has a court house that is necessary to keep propped up to keep it from killing people.

The Covington & Lexington Turnpike Co. was fined $100 yesterday for collecting toll while its bridge across the L. & N. railroad, near Walton, was burned out, a few mo[nths ago].

Geo. E. Philips, of Covington, was granted a license, yesterday, practice law in the courts of this Commonwealth. He was gived a rigid examination by attorneys Castleman and Menfee, for which he was well prepared.

The following from Grayson Gazette has the right ring:

"Inasmuch as the courts are to pass upon the legality of a State Primary and also the eligibility of Gov. Beckham for re-election, we think the opposition to both a Primary and Gov. Beckham should be more discreet, to say the least, in their utterances. After the Democratic ticket is nominated next year, comes the election of that ticket, and nothing should be done to bring about discord in the party ranks. Surely every good Democrat can safely leave the settlement of the questions in controversy to the judgments of the courts. Such papers as the Owensboro Messenger, and the Hopkinsville Kentuckian in their violent opposition to the Primary and Gov. Beckham are indulging in intemperate and untimely criticisms that will of necessity lessen their usefulness to the party in the event that the decision is against them.

"The Gazette is not an advocate of a State Primary, in fact it is opposed to the idea, but like the good Democrat that it is, it is willing to leave the settlement of the que-tion to the wisdom of the court of last resort, and that decision, whatever it may be, will be accepted by it in good faith. Let us not furnish campaign thunder for the Republicans by indulging in premature remarks that will have no effect upon the final settlement of the question at issue."

BOONE COUNTY RECORDER.

VOL. XXVIII. BURLINGTON, KENTUCKY, WEDNESDAY, DECEMBER 17, 1902. NO. 9.

County Correspondence.

PETERSBURG.

Dec. 15.—A big river and lots of coal going down.

Three new men went on duty at the distillery this morning.

Ed Kelm's little child that has been very sick, is some better.

Miss Emma McWethy is spending the week with friends in Lawrenceburg.

Will Mahan and wife, of Lawrenceburg, were guests of friends here yesterday.

Mrs. Ira Theetge fell on the icy pavement, this morning, and broke one of her arms.

Mr. and Mrs. Grant Mathews were visiting in Covington, last Saturday and Sunday.

Miss Girtie Collier is at Constance at the bedside of Mrs. Leon Loder, who is quite sick.

Misses Daisey Hahn and Henrietta Wylie, of Napoleon, Gallatin county, are guests at Prof. Bondurant's.

Mr. and Mrs. Albert Sidney Johnson Westover, of Franklin, Ohio, are visiting Capt. W. T. Evans and family.

The American Boy Literary League, received last Saturday night, a considerable assignment of splendid literature.

The local Building Association has purchased a safe that weighs 3-tons, in which to keep its money and valuable papers.

Rev. Chatham lectured on Pythianism yesterday afternoon. It was the best lecture of that character ever delivered here.

The children of the M. E. church will have a Christmas tree on the night of the 26th inst. Everybody is invited to attend.

The protracted meeting at the M. E. church is still in progress. There have been three additions, Dr. Weindel and wife, and Miss Catharine Cook.

Joe Furnish Story, who left here when only a small boy, is here on a visit, and his friends are glad to learn that he is a prosperous merchant at Dallas, Texas.

The young ladies here have organized a literary club with Miss Sue McWethy, president; Miss Mae Thompson, vice-president, and Ezra Berkshire, secretary.

The Christian Sunday School will have a supper at Gordon's Hall, Christmas night. In the contest in that school the Blues won by 65. The average attendance was 98.

Rev. Milo Atkinson, who will serve the Christian church as pastor, next year, is moving here from Vanceburg. He will occupy the Guisler house. He and his estimable wife will be welcome citizens.

HEBRON.

Dec. 15.—Some of our young men had good excuses for remaining at the homes of their best girls, Sunday night. Their horses were smooth, and a trip home after night would have been very hazardous.

We have heard it said there is some probability of a free mail delivery route from Erlanger taking in this town.

We are glad to report Mr. John Stephens, of Francesville, as very much improved in the past week, and his complete recovery will result in a few weeks if he has no back set.

The Greenwood Grange Dramatic Club played to a large and appreciative audience at the hall last Saturday night. Each of the performers presented his or her part in a good manner. The attendance at the matinee that afternoon was small.

J. C. Gordon, of Henry county, has been here several days. He is one of the administrators of the large estate left by his father, and he is pushing the settlement of the business to a conclusion. Rider was an extensive farmer and left many interests to be looked after for a while.

It was reported here, last week, that Judge Lassing had purchased of Mr. Hall, of Chicago, the fine farm near town, occupied by Mr. A. G. Winston, but the latest news along that line is to the effect at the last moment the trade hung fire and was declared off, which we guess is a fact.

BUFFALO.

Dec. 15.—Clark Rouse has been very sick for several days.

S. H. Marshall is on the sick list.

Whooping cough is still at work—several bad cases here.

Robt. Woods made a business trip to the city, last Thursday.

L. W. Stephens was calling on friends on Woolper, last Saturday.

S. H. Stephens and wife made a business trip to Rising Sun, Tuesday.

M. C. Stephens, of Plattsburg, was visiting relatives here, last Saturday.

Wood Stephens, of Waterloo, spent last Thursday with his parents here.

P. P. Neal delivered his crop of tobacco to Stephenson at Erlanger, last Tuesday.

Walter Adams and family, of Indiana, were visiting relatives here, several days last week.

Quite a crowd attended the sale at Robt. Adam's, last Saturday in spite of the disagreeable weather.

Ras Stephens and wife, and Mrs. Fannie Adams spent the day with T. J. Stephens and family, Sunday.

P. P. Neal and wife, and Homer Clore and wife spent last Sunday with Robt. Rouse and wife on Gunpowder.

Samuel H. Stephens and wife celebrated the 40th anniversary of their marriage, last thursday. Their children and grand-children were all present and spent a most delightful day.

We were shocked to hear of the death of Mrs. Dode Pope, and extend our sympathy to the bereaved husband and family. May God sustain them and help them to say "Thy will be done."

BELLEVUE.

Dec. 15.—Clore boys have prized and shipped their tobacco to the Morris House at Cincinnati.

Miss Minnie Clore is visiting in Cincinnati.

Chas. Clore is employed as clerk on the Str. Cincinnati.

M. J. Brough is progressing nicely with the school at this place.

Al Rogers, our district petit juror, regards his Honor, Judge Lassing, as a hustler on the bench.

Dony Cook reports that his dogs set the stubble on fire, one night last week, while chasing reynard.

Our mail arrives near 9 o'clock, and, as a result, uncle Henry Crisler, at Mexico, Mo., receives his Recorder on the same day we do, and we are only eight miles from the place of publication.

Not long since Frank Buffington captured 37 fish, called the Buffalo, from a single net, the smallest weighing 14 pounds. This seems to be a good fish story, but not improbable at certain seasons of the year.

Some men never speak without saying something. So it is with that wide-awake, generous, faithful and versatile writer, who resides hard by the source of Rock Spring branch. Here's to you, Bro. Thomas, hoping he may be largely instrumental in increasing the interest and subscribers of our county paper.

This community was shocked by the sudden death of the wife of Dode Pope, that occurred on the 8th inst. Deceased was ill only a very short time, and was the only daughter of David Williamson and wife, and had a large circle of relatives and friends who followed her remains, on the 9th to rest, in the cemetery at this place. The writer extends condolence to all who are connected with the sad affliction.

HATHAWAY.

Dec. 15.—Born to Beu Huey and wife, a daughter.

J. D. McNeely was in Burlington, on business Thursday.

Nathan Smith shipped a bunch of nice hogs last week.

W. S. White butchered a hog that weighed 530 pounds.

Owing to press of business, we omitted writing last week.

Bro. Phillip, we have not seen you in these diggings yet. When you do come, we will have hoghead and hominy and sausage galore.

Dear Uncle, or near the Commissary, you must not let our bro. q p., at that place go hungry at any time. If you do, he may not report for the Commissary as he should.

Jno. S. Mason has recently purchased a saw mill with all the latest improvements from the Reeves Company of Columbus, Ind., for the sum of $636. He will erect it on Gum Branch, near Big Bone church, where he has a large bill of sawing to do at the earliest date possible.

WALTOWN.

The Woman's Missionary Society of the Baptist church has sent a box of clothing to a Missionary of the Home Mission Board in Southwestern Texas. The value of the articles contained was estimated at $100.

The last job of cement pavement was finished by contractor John R. Craven just as the first hard freezing weather fell on the country. He had undertaken to put down the sidewalk in front of Joseph Glinn's residence, and up to the very night it was finished everything was alright for a handsome finish, but "The best laid plans of mice and men gang oft agla." Craven will do it all over again in the spring without charge. He was the first to condemn the work when the loose timbers with which it was protected were taken off.

Married, on Wednesday, the 10th inst., by Rev. Lafayette Johnson, Mr. Herbert Glinn, son of Joseph Glinn, and Miss Sarah Crisler, daughter of Mr. G. Crisler, all of this place. The congratulations of all of their friends, and they are many, have been showered upon them. It was a love match of long standing, the parties having grown up together. Herbert is one of the most industrious young men in the country and Sarah is naturally a careful and competent housekeeper. Herbert had furnished a house completely. The couple went to the Gibson House the evening of the marriage, and returned to their well prepared home the next evening on the Commuter. Parties who came out on the same train say nobody would ever have taken them for a newly wedded couple. They were happy within themselves and did not attract more attention than any good-looking and well behaved couple would have done had they been married for years or more.

FRANCESVILLE.

Emmet Kilgour has purchased a gun.

Turkeys are a better price than usual.

William Graves was on the grand jury, last week.

Our enterprising neighbors, Charles Beall and Zeke Aylor, take produce to the city every Friday.

Mrs Laura May Wilson, of Ludlow, was visiting her parents, Mr. and Mrs. Joe Graves, last Monday and Tuesday.

Some of our neighbors missed getting their mail last week, on account of the bus not running between Idlewild and the city.

Harry Kilgour rented Mike Muntz's place and moved, last Thursday. Mike moved to Chas. DePee's house in the village and has hired to Mac.

Though the weather is gloomy and the "mud still rising" we wear smiling faces, for we and our friends have plenty of fresh meat, new corn meal, hominy and sorghum molasses.

We wish to tell our friends that we expect to have meeting twice a month at Sand Run, having secured the services of W. S. Taylor, of Erlanger, for the first and third Sundays.

RABBIT HASH.

Dec. 13.—Colon Kelly had a woodsawing, last Wednesday.

Mrs. Dode Pope died last Tuesday afternoon, and was buried Wednesday afternoon at Bellevue.

George Hillis moved into the house vacated by Richard Reckard, who will make his home with Richard Stephens.

Three weddings are on the program here for the Christmas holidays, and the Recorder will be expected to give a notice of each for the usual fee, $00.

Prospects are very bright now for a railroad through our neighboring town, Rising Sun, and the citizens of Rabbit Hash are as anxious for it as are the Sunners. Then there is that telephone line through the Hash to Burlington, which will put this end of the county on a boom. This may sound fishy, but we hope to see substantial evidences of these improvements before the flowers bloom again.

MOUND FIELD FARM.

Dec. 15.—Miss Mae Keck, of Cincinnati, is the guest of Miss Clara Hossman.

Messrs. Lloyd Aylor and Bud Baker dined with W. O. Hafer, Sunday.

Dr. L. C. Hafer and wife, of Union, spent Thursday night, last with J. W. Crigler.

James Beall and wife, with Harve Aylor and wife, eat sausage with Henry Quick's folks Suuday.

Thomas Hafer butchered a hog last week that netted 496 pounds, from which he got 22 gallons of lard. How is that for a sprlug pig?

Old man Battersou has a new granddaughter, who will call Mrs. Addison Pearl Moore! Battersou, mamma, and old Mrs. Batterson, grandma.

Harry Roberts and Charlie Robinson have entered into a combine in the hay hauling business. They are paying $12 per ton for a good article.

Notwithstanding the terrible condition of the roads, last Saturday, the Hoss Hall could not seat all the people who attended the entertainment. It was a decided success.

Miss Pearl Anderson, of Ludlow, who formerly resided here, was married to Mr. Winslow Byland, of Erlanger, Thanksgiving eve. Her many friends here wish them a long and prosperous life.

Henry Quick and Harve Aylor became so euthused with the farces at the entertainment Saturday night that the next night they attended a theater in the city. Don't know whether their fun has abated any or not.

The Y. P. C. E. Society, of Hebron, will give a social and pie party combined, at the home of William McGlasson, jr., on Saturday night, Dec. 20th. Each lady is requested to bring a pie. All are requested to attend.

Eris Rouse has constructed and hung a new automatic scribe gate. Passers by would think it a base ball back stop, but on examining they would see their mistake, and recognize at once the many advantages it has over the old time gate.

Dick Tanner, the Hebron goose bone oracle, has been a little tardy this season, but he has at last prognosticated. The goose bone of 1902 is quite purple with a few white spots. This means that there will be a long, hard winter, lasting far into the spring.

Hebron was without any mail, one day last week, owing to our veteran mail carrier, Simeon Terrill, resigning his commission. This place was supplied next day, however, with that efficient and accommodating gentleman, James Grant, and our mails are received on schedule time again.

Thos. Hafer has a remedy that has been guaranteed to him to prevent hydrophobia in either persons or stock of any kind that have been bitten by a rabbid dog. Should any person have stock bitten he proposes to treat the case or cases as it may be, and if he fails to prevent the rabbies developing there will be no charges. He is anxious for a trial.

GUNPOWDER.

The roads are in a bad condition.

H. F. Utz and wife called on the writer last Sunday.

Rather a small congregation attended church at Hopeful last Sunday.

Dec. 15.—Lewis Clegg and wife were guests at James Utz's last Sunday.

Ben Rouse sold to R. P. Rice a load of corn and delivered it for 50 cents per bushel.

Joe Weaver, of Hathaway, passed through our burg last Saturday evening enroute to Florence.

Mrs. Mary Weaver, of Georgetown, spent several days with her relatives in this neighborhood last week.

We are under many obligations to the Recorder and B. W. Adams for special favors conferred. What might have appeared in the lost, strayed or stolen column, was kept out by their kind assistance and direction.

J. H. Corbin had occasion to call Dr Crisler, last Saturday night, to see a sick horse. The doctor informed him he could not come at that time and Mr. Corbin gave the case over to Enoch Rouse and following his prescription the horse was all right Sunday morning.

Union Blade, we are certainly glad to hear from you, occasionally through the columns of the Recorder. We had looked forward and were expecting a visit from Bro. Fail last fall, and were not anticipating the imaginary visit which he made recently. The latch string still hangs out. Gunpowder is raising and Bro. Batterson's hounds are in good train, and if Jim Bristow hasn't a gun he will make one.

Mrs. Annie Tanner, after about a week of severe illness, passed to her reward December the 9th, at the advanced age of 75 years and 8 months. She had a stroke of paralysis and gradually grew worse until death claimed her. She was united in marriage to Aaron Tanner, who preceded her to the grave about 15 years. To this union three children were born, two daughters, Mrs. Mary Zimmerman, and Mrs. Alice Tanner and one son Noah C. Tanner. Aunt Ann united with Hopeful church early in life and was an earnest and faithful member until death. The funeral services were conducted by Pastor Slater at Hopeful church on Thursday the 11th inst., after which the remains were placed in the vault at that place to await final interment. The bereaved family have the sympathy of the entire community.

FLORENCE.

Your writer is contemplating a visit to the "Windy City" in the near future.

Mrs. Lulu Roberts spent last week with her parents, Mr. and Mrs. J. M. Powers, during the absence of her husband who was serving as a grand juror at Burlington.

A Million Voices

Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use Dr. King's New Discovery for Consumption and writes—"it completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for Coughs, Colds and Lung troubles. Price 50c and $1.00. Trial bottles free at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Oelaner's, Florence; A. W. Smith's, Walton; O. N. Grandy's, Bellevue.

The Mt. Pleasant Grange will give an entertainment, consisting of music and drama, at Grange Hall, Bullittsville, on the evening of Dec. 26, 1902, will be assisted by Mr. Perlesse Grubbs and Mrs. Pichelheimer, together with musical talent of a very high grade from Cincinnati and Covington. Misses Maude Scott, Grace Sutton and Lillard Scott called on J. J. Lillard and wife an hour or two last Thursday, and on Misses Arta and Stella Ryle, last Friday.

Last Thursday I sent by Clutterbuck to Richard Louden's for bread, and when he returned in the evening there came with the bread some of the best sausage that I have sampled this season. They were a nice treat and pleasant to taste, and the thought that I was remembered gave me as much pleasure and did me as much good as the sausage. Many thanks.

A couple of young ladies classed as bluebloods or upperfens, thought to deceive some one, and dressed themselves in male attire and passed through the Commissary, one carrying a gun as a help to deceive. They may have thought they might run amuck a rabbit, but after all their trouble they failed in deceiving any one. Their style, peculiar twist, wiggle, and look-at-me step, gave them away, and whenever met they were greeted with "good evening, ladies."

Ere my next reaches all the readers and the correspondents of the Recorder, Christmas will have passed, so I will now wish them all a merry and happy day. If the day is observed at this place in accordance with Madam Rumor's predictions, I will dine away from home. If not I will be at home, and with the sausage given me by the good Mrs. Rouse, and the two pies and few slices of fine cake given by jolly W. T. Ryle, with the delicacies that I can prepare, I will have a good time at home.

Since the announcement that Santa Claus will make his annual rounds this year in an automobile, the people on Middle creek are afraid he will not visit them on account of the bad condition of the roads. Don't be alarmed. Arrangements have been made by which if the present stage of water exists at Christmas, he will travel the 'pike from Bellevue to the Parsons mill road, where he will leave his auto, and go up Middle creek in a dory; but if the stage of water is not sufficient, he will go up on a mud sled, or, as is called by some people, a mud boat.

Willie Kelly spent a couple of hours with Commissary Ink-slinger, Thursday. Mr. Kelly was soliciting orders to enlarge photographs, and had tramped through mud, over hills and across the fields, until leg-weary and hungry. He inquired if "Mr. Walton was at home" and was told that he was not, as he had gone down to Egypt to salt some stock. In a few minutes Mr. Walton passed, going home in answer to the dinner bell. I said to Mr. Kelly, "cut across the field and you can get to the house by the time Mr. Walton does, and perhaps get an invitation to dinner." He replied, "I'll do it." In an hour or two he returned, looking like a stuffed toad, and when asked if he got an order, he said, "no; but I got my dinner." I thought he would never get through praising the dinner and Mrs. Walton as a model cook, and Mr. Walton for politeness, kindness and intelligent conversational ability. Before leaving Mr. Kelly gave me a few tips relative to coming events, which will be reported in due time.

CLORE'S RIDGE.

Perry Presser killed hogs one day last week.

GOLD STANDARD IN MEXICO.

Silver Miners and Farmers Will Make Common Cause Against It.

Mexico City, Dec. 13.—The silver question continues to be one of the great topics of public discussion. It is now ascertained that silver miners and farming classes will make a common cause against the adoption of the gold standard. The miners argue that silver mines in gold standard countries will have to shut down at the present price of silver, while Mexican mines can continue to he operated; also that silver mining and agriculture are interests with more claim on the protection of the government than railways or merchants. Meantime all prices are being raised and there is much anxiety felt among the middle classes, especially wage earners and salaried men. The cost of living is considered to be out of proportion to incomes.

This Means That War Has Begun Between Great Britain and Germany On One Side and Venezuela On the Other.

Puerto Cabello, Saturday, Dec. 13.—The British cruiser Charybdis and the German cruiser Vineta bombarded the fortress here at 5 o'clock this afternoon and quickly silenced it. The hombardment lasted for 45 minutes. The fortress is composed of Fort Solano and the castle Libertador. After the firing ceased the Charybdis sent marines to occupy the castle. The fortress was almost demolished. It is probable that only a few persons were injured by the shelling. Tae commander of Castle Libertador has been taken prisoner. The cruisers are still here.

At 7 o'clock this morning the Charybdis and the Vineta arrived here searching for Venezuelan gunboats. The two cruisers sent their boats into the inner port, but finding no gunboats the boats returned. The captain of the British merchant steamer Topaze, which was seized by the mob here last Wednesday, then visited the British commodore on hoard the Charybdis and lodged a protest against the violation of his ship. The British captain returned an hour later with a detachment of 50 marines, who took charge of the Topaze. The populace was greatly excited at this incident and raised the cry, "To arms!" hut there was no disorder.

The British commodore then sent a message to the authorities at Puerto Cahello demanding immediate satisfaction for the action of the mob in having hauled down the British flag from the Topaze, saying that if this satisfaction was not forthcoming in two hours, at 5 o'clock the fortress and the custom house would he bombarded. On receipt of this demand the authorities sent a message to President Castro asking for instructions.

A committee of the merchants of Puerto Cabello then approached the American consul here, petitioning him to intervene. The consul accepted this mission and visited the cruisers, hut he could obtain no alteration in the decision of the allies.

At 5:15 a reply was received from President Castro, who authorized the chief official here to give the British commodore ample satisfaction. Before this answer could be communicated to the American consul the hour stipulated for its receipt had arrived; the cruisers immediately opened fire on the frortress. The fire was returned from Fort Solano and Castle Libertador, but the Venezuelans' guns were soon silenced. While the firing continued there was intense excitement in this port. Every house in town was closed.

The people of Puerto Cabello can not account for this precipitate action on the part of the allies, which they consider to be proof that Great Britain and Germnay intend forcing war upon Venezuela.

The British marines propose to make use of the cannon in Castle Libertador. No damage was done to the town. The excitement of the people is subsiding.

Caracas, Saturday, Dec. 13.—The British legation here was reopened to-night under the American flag hy W. W. Russell, secretary of the American legation.

The statement that Italy, through her legation here, is to demand payment of her claims against Venezuela has been confirmed.

The arrival of the United States gunboat Marietta at La Guaira yesterday was due to a rumor that United States Minister Bowen was in danger. There has been no ground for such a rnmor, and the presence of the Marietta was not requested by Mr. Bowen.

The situation in Caracas continues to be critical, and there is intense excitement among the German residents of the city. To-day the Germans sought refuge at the American legation, where they were sheltered. Mr. Bowen has gotten in quantities of all kinds of provisions, to be prepared for any emergency.

The enlistment of Venezuelan soldiers continues. Two thousand men from the environs of Caracas and Valencia came into this city to-day. Priests are preaching for war. It is reported that 90 Germans living in the country have offered to support the Venezuelan government against Germany.

The people of Caracas are astonished that the government at Washington remains silent in spite of the recent acts of the allied fleet.

New York, Dec. 14.—Mrs. Hoadly, widow of former Gov. George Hoadly, of Ohio, has sold a five-story residence at No. 33 East Fiftieth street, purchased 15 years ago, when the family first came here from Cincinnati.

CYANID OF POTASSIUM.

A New Process of Making It Discovered by Prof. O'Neill.

Berkley, Cal., Dec. 15.—Prof. Edmond O'Neill, of the University of California, chemistry department, has discovered a new process for making cyanid of potasium from nitrogen of the atmosphere, a discovery that will allow of the production of the precious compound at a rate far cheaper than it has ever been possible to manufacture it. Such an advantage can be obtained by the new method that it is hoped to secure a great reduction in the cost of extracting gold by the cyanid process and in other similar metallurgic operations.

Prof. O'Neill's process is analagous to the method of making nitric acid from the nitrogen of the air, a result which has been worked out and successfully demonstrated at Niagara Falls.

SUBMARINE TORPEDO BOATS.

Considered a Practical and Useful Element of Sea Coast Defense.

Washington, Dec. 13.—Maj. Arthur Murray and Capts. C. J. Bailey and G. F. Landers, of the artillery corps of the army, have made a special report to the war department in regard to the recent oncial trials of the submarine torpedo boats Adder and Moccassin in Little Peconic bay, which they were invited to witness. The report says that these trials are thought to be sufficient to show clearly that this type of submarine boat has passed the experimental stage and that such boats hereafter must be taken into account as a practical and useful element of sea coast defense.

THE NATIONAL LEAGUE.

Harry Pulliam Elected President—"Peace" Negotiations.

New York, Dec. 13.—The National league of basehall clubs, which has been in session here since Tuesday last, completed its business Friday night and adjourned subject to the call of President Harry Pulliam, who was elected to the principal executive office Friday. The next session of the league will probably not be held until its committee having in charge the task of concluding a "peace" arrangement with the American league is ready to report.

OCEAN TUG WRECKED.

Her Tow, a Standard Oil Barge, Was Saved—One Life Was Lost.

Rockland, Me., Dec. 13.—Standard oil barge No. 70, with Capt. Herman Oleson and crew, was brought here Friday night in tow of the revenue cutter Woodhury, hy which the barge was picked up to the seaward of Saddleback ledges. The men reported that the ocean tug Astral, Capt. Root, of New York, in tow of which they left Rockland Monday for St. John, N. B., was wrecked on Mount Desert Rock, in the gale Monday night and one man was lost.

Washington, Dec. 15.—The president has selected Lloyd Griscom, jr., now minister to Persia, to be minister to Japan, succeeding Mr. Buck, deceased. Richmond Pearson, of North Carolina, consul general at Teheran, Persia, is to succeed Mr. Griscom as minister to Persia.

Scarcity of Coal in Kansas.

Topeka, Kan., Dec. 13.—There is a great scarcity of coal in some portions of Kansas. Considerable suffering has resulted already and much more will ensue unless the famine shall be relieved at once. The complaint is made that the railroads confiscate to their own use nearly all the coal that is being shipped to the extreme western portion of the state.

The Restaurador Captured.

Port of Spain, Dec. 15.—Restaurador, formerly Jay Gould's yacht, entered this port flying a German flag and accompanied hy the German ship Gazelle, by which she was captured in Venezuelan waters. The Restaurador is manned by 40 Germans.

Fire in Boston.

Boston, Dec. 15.—Fire Sunday night in the Hatbaway building, at Nos. 203 218 Summer street, did damage to the extent of $150,000. The building is occupied by printing and bookbinding firms and wool dealers.

NIGHT TURNED INTO DAY.

The Expensive Notion of a Retired Steamboatman—Coal and Money to Burn.

A transformation of the interior of a family mansion resulted in an extraordinary inversion of the plans of nature. The owner, Mr. Brownjohn, a retired stock broker, was determined to turn night into day, and it cost him thousands of pounds to do it, according to Pearson's Weekly. All the outside windows of the house were built up, so as to exclude every ray of natural light. Entrance to the mansion was by an underground passage; and every room had a door and window opening onto a magnificent central space, which was open to the roof. From the roof, when it was night outside, an imitation sun shone forth an electric glare, which filled the whole place with a light as of day.

The wealthy eccentric rose at nine o'clock each evening, and, having breakfasted, started on a day's routine of work and pleasure. He lunched at one in the morning, drank a cup of tea about four a. m., and dined at seven o'clock, retiring to rest about ten and eleven a. m., when, by an ingenious sliding arrangement in the roof, the bright sky and imitation sun were at once transformed into a concave expanse of inky blackness; from out of which a host of false stars twinkled, and an artificial moon shed forth her spurious beams.

QUEEREST SUIT ON RECORD.

Partners in Highway Robbery Went Into Court to Settle Their Business Accounts.

Perhaps the most remarkable suit ever brought is on the records of the court of the exchequer in England. It was filed on October 3, 1725, and it sets forth very clearly that John Everit and Joseph Williams were highway robbers, says the New York World.

In the succinct legal phrases the complaint says that the men formed a partnership for the purposes of carrying on business as highwaymen. It was mighty profitable, as was shown by the fact that Everit sued Williams for the equivalent of $5,000, "being for moneys wrungfully appropriated to defendant's private purse."

This was the amount in dispute after the partnership had lasted only a year. Then Everit claimed that he discovered that his partner had not made a fair division of the spoils.

The action was adjudged to be a gross contempt of court, and the plaintiff was ordered to pay all costs, while the solicitors who served the writ were fined £50 each. One of the solicitors, a man named Wreathcock, refused to pay the fine and was sent to prison for six months. Both plaintiff and defendant to this action were subsequently hanged—one at Tyburn and the other at Maidstone.

Disguised Hands Always Bad.

"Here is a truth," says a handwriting expert in the Philadelphia Record, "that is as widespread as the other. A disguised hand always tries to be poorer than the real hand. That axiom is a great help to us experts. For instance, when a letter done in a disguised hand is brought to us we always know that the writer of the letter is in a higher station than the hand would lead us to infer. Hence, in our detective work, we are able to save much valuable time by eliminating all persons socially below the appearance of the letter, and concentrating our attention on those only who are above it."

Corean Umbrellas.

In Corea a serviceable umbrella costs about 12 cents. The covering is of oiled paper.

Somewhat of a Radish.

A man in Butler, Okla., who has followed the "biggest ear of corn" and "biggest pumpkin" controversy in the Star, writes to tell of his giant radish. He says a black Spanish winter radish, of this veracious correspondent writes, "just commencing its winter growth. It has leaves as long as a Missouri fence rail; it is larger at the top than that Kansas pumpkin, and has sapped my well of all its water. It looks like a steam merry-go-round and is still growing. Grasshoppers faltered on its leaves now weigh 40 pounds."—Kansas City Star.

THE MINERS' EVIDENCE

Their Testimony Before the Commission About All In.

Commission Will Probably Adjourn Next Saturday For the Holidays—The Sessions May Then Be Held In Philadelphia.

Scranton, Pa., Dec. 13.—The strike commission Friday heard cumulative testimony on matters that have already been touched on by witnesses. This testimony tended to show that there has been excessive docking; that many men have been discriminated against because they went on strike rather than do the work of strikers; that they have been paid one price for mine cars of all sizes; that they do not get paid for all the coal mined; that they should have the eight-hour day because the mines are unhealthful and dangerous, and that they ought to receive higher wages.

Late in the day President Mitchell was called to the witness stand and presented comparative figures, which showed that men paid by the day received from 40 to 50 per cent. higher wages in the bituminous regions than in the anthracite fields. His figures of the anthracite fields were gathered by his own officers, and a hurried comparison with the figures handed to the commission by the Delaware & Hudson Co., he said, showed that his were generally higher.

The attorneys for the miners do not expect to close their case until the early part of next week. It is not known to the lawyers for the companies whether they will be able immediately to proceed with their case and it is possible that they will ask for a short recess.

Two hodcarriers, who were formerly mine workers, were called to the stand in the afternoon. Hodcarriers in the vicinity of Wilkesbarre, they said, received 25 cents an hour, time and a half for overtime, and double time for Sunday or holiday work. Bricklayers receive 30 cent an hour, time and a half for extra work, and double time for Sunday or holiday work. Stonemasons received $3 a day. They all worked eight hours a day. Both witnesses thought the miners ought to get $5 a day.

Scranton, Pa., Dec. 15.—The mine workers who have been engaged in presenting their side of the controversy with the anthracite coal operators to the anthracite coal strike commission for about 20 days will close their case either Monday or Tuesday. That is their present program. They have a considerable number of witnesses, among them some young silk mill girls, they desire to be heard. The miners may, however, continue to present witnesses until President Mitchell, who has gone to his home in Illinois for a few days, returns so that he can be on hand when the operators open their case.

The companies hope to be able to start their side immediately after the miners close. Former Congressman Simon P. Wolverton, leading counsel for the Philadelphia & Reading Coal & Iron Co., will make the opening address for all the large companies and possibly the indepenndents also. After the opening statement witnesses will be called by each company.

It is expected that the commission will adjourn next Saturday for the holidays and meet again in one or two days after New Years day. There is considerable talk of holding the sessions in Philadelphia after the Christmas adjournment. Some of the companies prefer to have the hearings there, especially the Reading and some members of the commission are not averse to holding the sesions in that city. The matter has not yet officially been brought before the commission.

SAC AND FOX INDIANS.

A Large Majority of the Tribe Is Afflicted With Incurable Diseases.

Guthrie, Okla., Dec. 15.—Dr. Wyman, government physician at the Sac and Fox Indian agency in Oklahoma, announces that a large majority of the tribe are afflicted with tuberculosis, scrofula and other incurable diseases, and adds that the tribe will be practically annihilated within a few years. The latest report says there are but 479 members of this once powerful tribe left.

COAL COMING.

Nearly 15,000,000 Bushels Will Be Shipped From Pittsburg This Rise.

Pittsburg, Dec. 15.—The Monongahela and Allegheny rivers were falling Sunday night after a continued rise of three days. The Ohio river mark at the dam is 15 feet and falling slowly. Three million bushels of coal were started south Sunday and fully 5,000,000 is expected to be shipped Monday, which will make the aggregate for four days nearly 15,000,000.

Coal as Souvenirs.

New York, Dec. 13.—Four hundred and sixty members and guests of the Pennsylvania society of New York were present at the fourth annual dinner of the society Friday night. The souvenirs consisted of miniature coal buckets filled with anthracite coal.

MRS. GEN. GRANT DEAD.

Expired at Her Home in Washington of Heart Disease.

Washington, Dec. 15.—Mrs. Ulysses S. Grant, wife of President Grant, died at her residence in this city at 11:17 o'clock Sunday night. Death was due to heart failure, Mrs. Grant having suffered for some years from valvular disease of the heart, which was aggravated by a severe attack of bronchitis. Her age prevented her rallying from the attacks. Her daughter, Nellie Grant Sartoris, was the only one of her children with her at the time of her death, her three sons having been summoned here, all being out of the city.

There were also present at the bedside when the end came Miss Rosemary Sartoris, a granddaughter; Dr. Bishop, one of the attending physicians, and the two trained nurses. Death came peacefully, the sufferer retaining almost complete consciousness practically to the end. For several years Mrs. Grant has been so feeble that it was impossible for her to accept social engagements. She suffered from rheumatism, and was compelled to walk with a cane or with the assistance of an attendant. She was 76 years of age at the time of her death.

The remains of Mrs. Grant will be deposited in the tomb at Riverside park, New York, where those of her husband now repose. Whether they will be taken there immediately or this ceremony will be postponed for a time could not be ascertained at the house Sunday night.

WENT THROUGH A BRIDGE.

Three of a Crew of a Wrecking Train Killed; Others Injured.

Brookfield, Mo., Dec. 15.—A wrecking train on the Hannibal & St. Joseph railroad went through a high bridge over Yellow creek Saturday night while on the way to clear away a wrecked freight. Three dead bodies and several injured persons have been recovered from the wreckage and more may be found.

The collapse of the steel bridge was caused by a collision between the superstructure of the causeway and a steel derrick. Engineer Goode and Fireman Greene were imprisoned in the cab of the locomotive by tons of twisted iron. By aid of the moonlight they pounded an opening with sledge hammers and crawled into the water, whence they were rescued.

DEVASTATED BY FIRE.

Property to the Value of $150,000 Destroyed in Centerville, Md.

Centerville, Md., Dec. 15.—The business portion of this city was devastated by fire early Sunday entailing a loss of about $150,000, with insurance of $78,000. A high wind rendered the work of the local volunteer fire department inadequate and a special train brought two engine companies from Wilmington, Del., whose work soon subdued the flames.

ON A WAGER.

Two Men Are Driving From Colorado to Asheville, N. C.

Knoxville, Tenn., Dec. 15.—Edward M. Barr, of Chicago, and Dr. Stanley O. Sabel, of New York, who are driving from Colorado to Asheville, N. C., on a wager, left Knoxville Sunday morning, have less than 100 miles to make before Christmas. They have driven 3,000 miles since the middle of June and have avoided large cities as much as possible. Barr is a son of J. M. Barr, general superintendent of the Chicago, Milwaukee & St. Paul railroad.

A LONG JOURNEY.

George Harold Says He Has Traveled More Than 65,000 Miles.

St. Louis, Dec. 15.—George Harold, a tramp, who says he has traveled more than 65,000 miles, is in St. Louis with a queer collection of relics and souvenirs. He is headed for Guatemala, where he declares he will receive a wager of $5,000. He is 27 years old, and has tramped steadily for eight years. During that time he has been in every country on the globe. Harold arrived in St. Louis from the Klondike regions.

Oil and Anthracite in Alaska.

Tacoma, Wash., Dec. 15.—Southern Alaska may rival the anthracite coal and oil production of Pennsylvania, according to Charles F. Sinclair, who has arrived from Katala, bringing coal samples running 70 per cent. in illuminating quality. Katala is 200 miles east of Valdes.

A Fatal Quarrel.

Clinton, Ia., Dec. 15.—During a quarrel here Sunday Charles Granderson, of Sioux City, was shot and instantly killed, Benjamin Carrol was wounded twice, and Mrs. Carrol was probably fatally shot. The shooting resulted from jealousy.

Morphine Poisoning.

Galveston, Tex., Dec. 15.—A young German, who was known here as H. S. Benjamin, is dead from morphine poisoning. It is said his right name was Hans Gwafblehl von Schoffky; that he was a German count, and that he owned a large estate in Germany.

Seven Inches of Snow.

Omaha, Neb., Dec. 15.—Seven inches of snow, half of which has fallen since morning, is on the ground. Trains Sunday night are coming in late from all directions. No wind accompanied the storm, however.

ARE LAYING THE CABLE

The Shore End at San Francisco Successfully Landed.

The First Message Over the Cable Was Sent From the Shore to the Chief Engineer on the Vessel.

San Francisco, Dec. 15.—"In memory of John W. Mackay, I christen the Pacific cable. May it always carry messages of happiness."

With these words Lucille Gage, the 11-year-old daughter of H. L. Gage, governor of California, Sunday, christened the trans-Pacific cable and breaking a bottle of champagne over the shore end, inaugurated a new era in the commercial development of the Pacific coast. The landing and splicing of the shore end which is to connect the main land with Honolulu, was accomplished without hitch of any kind, and was witnessed by 30,000 or 40,000 people. Ideal weather prevailed, their being scarcely any surf.

Early Sunday morning the steamer Newsboy, carrying six miles of cable, steamed close in shore, off Baker's beach, south of the Cliff house, and through a life-saving boat, sent ashore a rope to which the cable was attached.

The work of hauling in the cable was done so expeditiously that the officials arrived on the beach only two minutes before the cable was landed. The great bundle of wires touched the beach and was christened at 9:55 o'clock. While the cable was being spliced to the land end, Mayor Schmitz delivered a short speech, congratulating Clarence Mackay on the successful beginning of the work. He also spoke of the importance of the undertaking and the benefit to the world at large that would result from its completion.

Clarence W. Mackay, president of the Commercial Cable Co., thanked the mayor and those present.

Gov. H. T. Gage, on behalf of the state of California, paid a fervent tribute to the late John W. Mackay. The formal exercises closed with cheers for the cable and all those taking part in its landing.

Refreshment tents were erected on the beach and while the cable was being spliced Mr. Mackay served champagne and other refreshments to a large number of specially invited guests. Mr. Mackay also sent a telegram to President Roosevelt announcing the event.

When the splicing was completed late in the afternoon horses were hitched to the end and the cable was drawn through the conduit to the cable station. At the same time the steamer Newsboy steamed out to sea five miles and anchored the cable with balloon buoys. It was picked up by the cable steamer Silvertown and taken aboard. The splicing to the main body was completed Sunday night and the Silvertown headed for Honolulu at a seven knot speed.

The first message over the cable was sent from shore to Chief Engineer Benest on the Silvertown, congratulating him on the successful landing. Several tests were made as the cable was being laid out by the Newsboy and it was found to be in perfect condition.

A portion of the cable was cut up into 3,000 bits for souvenirs and distributed by President Mackay among his guests.

San Francisco, Cal., Dec. 15.—President Mackay received a message from the Silvertown at midnight, saying that everything was working to perfection.

SUBSIDIZED RAILROADS.

All Companies Have Settled Their Indebtedness With the Government.

Washington, Dec. 15.—The annual report of Gen. Longstreet, the commissioner of railroads, says that of the railroad companies which have received government subsidies in bonds, all have settled their indebtedness with the government, except the Central Branch Railway Co., the successor of the Central Branch Union Pacific Railway Co. The report of the bond-aided and land-grant roads show an increase of $20,000,000 in net earnings over those of 1901. There was an increase of over $45,000,000 in gross earnings and of $27,000,000 in expenses. The report deals with the detailed annual summaries of the operations of the roads, embraces the principal laws of congress that relate to the bond-aided and land-grant railroads, and includes abstracts of the decisions of the supreme court in cases affecting the bond-aided Pacific railroad companies and to which the United States is party.

Reconciliation Reported.

Sioux Falls, S. D., Dec. 15.—The friends of Mrs. Roland B. Molineux in the divorce colony here are responsible for the statement that all contemplated divorce proceedings on her part will be dropped, and that she will soon return to New York, where a reconciliation with her husband will be effected.

More Schooners Lost.

St. Johns, N. F., Dec. 12.—Furious snow storms continue to sweep the New Foundland coast. Four more schooners have been lost, one with her entire crew of ten persons. Other vessels have been driven to sea and are believed to be in great danger.

Portrait of Luther Found.

Berlin, Dec. 12.—A hitherto unknown portrait of Martin Luther, painted by Lucas Cranach, the celebrated artist burgomaster of Wittenberg, has been uncovered in the town of Wittenberg.

FIFTY-SEVENTH CONGRESS.

Second Session.

Washington, Dec. 11.—Senate—Almost the entire session of the senate was devoted to discussion of the omnibus statehood bill. The bill came over as the unfinished business from the last session and by agreement Wednesday was fixed for calling it up. Early in the morning hour Mr. Quay submitted a report of his own and its reading occupied the time of the senate until 2 o'clock when the statehood bill was laid before the senate. Mr. Beveridge, chairman of the committee on territories, then presented the committee report giving the reasons for recommending joint statehood of Oklahoma and Indian territory, and for not favoring the omnibus bill. In the course of the reading of the several reports and the statehood bill the senate passed a bill refunding certain revenue taxes to owners of private dies and also a bill relieving certain importers from the duty on tea placed in bonded warehouses. Just before adjournment Mr. Nelson secured permission to withdraw the substitute in order to perfect it.

House—The feature of the house proceedings was a thoughtful speech by the venerable Galusha A. Grow, of Pennsylvania, on the relations between labor and capital. Another bill was passed in general terms designed to relieve the tea importers from the effect of the recent decision of the circuit court in New York imposing the ten cent war duty on tea imported in bond prior to the time when tea is restored to the free list, January 1, 1903. Another bill to refund the duties collected on merchandise from porto Rico and the Philippines during the period between the ratification of the treaty of Paris and the congressional revenue acts for those islands also was provided. The pure food bill was made a continuing order.

Washington, Dec. 12.—Senate—The senate passed, with several amendments, the bill fixing the compensation of the anthracite coal strike commission and it now goes to conference. The sentiment of the senate was strongly in favor of allowing the members of the commission who are not in the civil or military service of the government a lump sum for their service and after considerable debate $4,000 was settled upon as the proper amount, thus taking the matter out of the hands of the president, as the bill originally provided. Several other amendments to the bill were adopted fixing the expenses of the commissioners and the assistant recorders at $10 per day instead of $15 and leaving the question of the amount of salary of the assistant recorders and employes to the commission. The name of the commission was changed to "Anthracite Coal Strike Arbitration." At 2 o'clock the statehood bill came up and there was a brisk exchange between Mr. Quay, who favors the omnibus bill, and senators who oppose it regarding its consideration. Mr. Quay and Mr. Bate said they were ready to vote, Mr. Beveridge, Mr. Lodge, Mr. Hale and others protested against pressing the bill so soon after it was reported and it went over till Monday.

House—The house Thursday devoted practically the whole day to discussion of a resolution to limit the period of taking testimony in the Wagoner Butler contested election case to 40 days, and finally adopted a resolution to that effect by a party vote—155 to 118. The purpose of the resolution is to permit the house to pass on the case during this session. The house agreed to hold a session on Sunday, January 25, for the purpose of paying tribute to the memories of the late Representatives Russell, of Connecticut, and Sheppard and De Graffenreid, of Texas.

Washington, Dec. 13.—House—Friday was devoted to consideration of private pension bills. The calendar was cleared, 173 bills being passed. None of them was of essential interest. The bill to appropriate $1,000,000 for the eradication of foot and mouth disease in New England was made a special order for next Tuesday with the understanding that only the legislative features of the bill would be considered and that the appropriation would be reported from the appropriations committee.

Wants Military Camps in Kentucky.

Washington, Dec. 13.—A bill was introduced Friday by Mr. Kelsoe, of Kentucky, appropriating $612,000 for the purchase of a site and the establishment of a military camp for the United States army in Boyd and reenup counties, Kentucky. Representative Needham of California, introduced a bill appropriating $360,000 for the purchase of a site and the establishment of a similar camp in Monterey and San Luis Obispo counties, California.

A Reciprocity Bill.

Washington, Dec. 13.—Representative McCall (Mass.) introduced a bill authorizing the president to enter into a reciprocal agreement with Great Britain whereby coal mined in the United States may be shipped into Canada free of duty and Canadian coal admitted into the United States free of charge.

Senator Perkins' Bill.

Washington, Dec. 12.—Senator Perkins introduced in the senate a bill providing that whenever a retired officer of the navy is ordered to active service he shall have the same rank and pay as an active officer of the like length of active service.

Ad Valorem Tax on Franchises.

Atlanta, Ga., Dec. 13.—The state senate Thursday passed a bill providing for an ad valorem tax on the franchises of all corporations in the state which exercise the right of eminent domain.

STATE NEWS HAPPENINGS.

SUN LIFE INSURANCE CO.

It Reinsures Its Business in the Metropolitan Company.

Louisville, Ky., Dec. 13.—It is stated on good authority Friday night that a deal has been consummated whereby the Sun Life Insurance Co. of America, with headquarters in this city, has reinsured its entire business in the Metropolitan Life Insurance Co. of New York. The deal was practically closed at a meeting of the board of directors of the Sun Life Co. held here Friday afternoon and a special meeting of the stockholders of the company has been called for Saturday to ratify the transfer.

The decision of the directors of the Sun Co. is the result of the recent tax laws of the state, which bear heavily upon insurance companies incorporated in Kentucky.

The Sun Life Insurance Co. was organized in 1889 and the greater portion of the business is on the industrial plan. It has about 200,000 policy holders and about $20,000,000 insurance is involved. The amount to be paid in the deal is not yet known.

FRAGMENT OF A METEOR.

It Was Picked Up in Bath County and Taken to the State College.

Lexington, Ky., Dec. 12.—A fragment of the meteor which fell in Bath county on the night of October 15 is now in the hands of Prof. A. M. Miller, of the State college, who is making an analysis of its composition. The piece weighs 13 pounds and is as black as charcoal, the inside resembling limestone rock. It contains iron, nickel, sulphur, silicates and other metals. It was picked up by Buford Staton at his home three miles from Salt Lick and sold to W. H. Daugherty, of Owingsville, its present owner. Daugherty brought the body to the State college for analysis.

A FRIENDLY SUIT.

It Will Be Filed to Test the Status of Gov. Beckham.

Louisville, Ky., Dec. 15.—At a conference held here between Allie Young, chairman of the democratic state executive committee, and several friends of Gov. Beckham it was decided to file a friendly suit this week in Nelson county to determine whether Gov. Beckham is eligible to become a candidate for the democratic nomination for governor next fall. The law of the state provides that no man can be governor for two successive terms, but Gov. Beckham claims that he was elected to fill out the unexpired term of the late Gov. Gobel.

PAID THE PENALTY.

Frank Lewis Hanged In Harlan For the Murder of Henry Dixon.

Harlan, Ky., Dec. 13.—Frank Lewis was hanged Friday in the presence of 5,000 people for the murder of Henry Dixon. Lewis came here from West Virginia about three years ago and married Miss Dixon. The men had quarreled over the separation of Lewis and his wife, the latter being Dixon's daugbter.

Found Dead In His Buggy.

Maysville, Ky., Dec. 15.—James Quaw, a discharged soldier, who recently returned from Manila, was found dead in a buggy near this city Sunday morning. He started for his home at Flemingsburg Saturday night, when, it was said, he was under the influence of liquor. When found his body was half-way out of the buggy, lying across the dashboard. There is no doubt but that he froze to death.

The Action Ratified.

Louisville, Ky., Dec. 15.—The transfer of the business end of the Sun Life Insurance Co., of this city, to the Metropolitan Insurance Co., of New York, was completed when the stockholders of the Sun Life formally ratified the action of the board of directors and the head officers of the company in reinsuring its business.

Suit For $25,000.

Maysville, Ky., Dec. 12.—Pleasant Hendrickson, administrator of W. B. Barkley, filed suit in the Mason circuit court Thursday morning against the C. & O. railroad for $25,000. Barkley was killed at the depot in this city on December 11, 1901, while on his way to Cincinnati with a load of cattle.

Died of Overwork.

Ludlow, Ky., Dec. 13.—Overwork, causing nervous prostration, is blamed for the death of Councilman Casper Ritchie Friday at his home, on Elm street, this city. He had worked 12 or 15 hours daily as head bookkeeper for a Cincinnati bakery.

Shot and Dangerously Wounded.

Owensboro, Ky., Dec. 15.—William Horrell, a farmer living near Birk City, shot and dangerously wounded John Rusb, a young man of the neighborhood, because Rush persisted in paying his attentions to Miss Elizabeth Horrell, the young daughter of Horrell.

To Expend $300,000.

Bowling Green, Ky., Dec. 15.—It was stated here on reliable authority that at an early date the Louisville & Nashville Railroad Co. would expend $300,000 in building a new depot and improving its yard facilities in this city.

A PROSPECTIVE BRIDE.

Miss Carrie Gardner, of Munfordsville, Mysteriously Missing in Louisville.

Louisville, Ky., Dec. 15.—Miss Carrie Gardner, 18 years old, a tall and handsome blonde, has been missing since Wednesday, but the matter was not reported to the detectives until Sunday night. Miss Gardner's home is at Munfordsville, Ky. Her wedding day has been fixed for New Year's eve. She came her last Sunday to purchase her wedding outfit, and made part of her purchases on Monday and Tuesday. She has relatives living here, and when she disappeared Wednesday it was thought she had visited her brother in another part of the city. Sunday her brother, sister and aunt met to-get[illegible] for the first time it was discovered that she was mysteriously missing. She had $52 with her when last seen. Foul play is feared.

KENTUCKY DISTILLERS.

Investigating the Feasibility of Establishing a Mutual Insurance Co.

Louisville, Ky., Dec. 12.—The committee appointed by the Kentucky Distillers' association to investigate the feasibility of establishing a mutual insurance association, met Thursday and decided to write to all the distillers in the United States asking their opinion of the proposed movement. Another meeting will be called in about a week to consider the answers, and if the majority of the distillers are in favor of organizing a company to take their own risks, active steps toward this end will be begun.

DOWN WITH SMALLPOX.

He Waited on a Son Whose Case Was Diagnosed as Chicken Pox.

Bowling Green, Ky., Dec. 13.—John L. Thomas, one of the best known men in the Polkville neighborhood, is now confined in the pesthouse with smallpox. Mr. Thomas' son was residing near the city and broke out with the disease. The case was diagnosed as chicken pox. The young man's father was permitted to see him and to carry him a change of clothes. The next day young Thomas' case was pronounced smallpox and he was removed to the pesthouse. In nine days his father was stricken.

CHINN'S MURDERERS.

Sentenced to Be Hanged on the 13th Day of February Next.

Lexington, Ky., Dec. 15.—On Saturday, the 13th day of December, Earl Whitney and Claude O'Brien, the youthful murderers of A. B. Chinn, were sentenced to be hanged on Friday, February 13, near the county jail, and the judge limited the number of spectators to 50.

Whitney weakened when he heard the day of his doom, while O'Brien rolled a cigarette and smiled. Both cases will be appealed to the court of appeals.

Store Destroyed By Fire.

Louisa, Ky., Dec. 12.—Fire destroyed the store of J. F. Hackworth at this place, entailing a loss of $15,000, with no insurance. The building was a substantial two-story brick and Mr. Hackworth was almost suffocated. He was rescued through a window just before the flames reached his room.

Declines to Be a Staff Officer.

Lexington, Ky., Dec. 12.—Because he was only a captain in the confederate army Capt. Oliver L. Redd has declined an appointment on the staff of Col. Bennett H. Young, commanding the confederate veterans of Kentucky, carrying with it the rank of lieutenant colonel.

Whitecapping Trial.

Owensboro, Ky., Dec. 15.—The first prosecution in this county for whitecapping is on trial here. It is that of John Webber, who, with his brother, Robert Webber, Emmet Fulkerson, Mike Bivens and John and William Jones, are charged with whitecapping W. H. McDowdell.

Horses For Newport.

Lexington, Ky., Dec. 15.—Monday afternoon a carload of horses belonging to various owners will be shipped to Newport to take part in the coming outlaw race meeting there. Phil T. Chinn says there will be fully another carload to go the latter part of the week.

Preached 1,000 Funerals.

Hopkinsville, Ky., Dec. 12.—Rev. A. W. Meacham, aged 85, a Baptist minister, died near here Thursday. He had served almost every Baptist church in this section. He baptized 4,263 persons, married 800 couples and officiated at 1,000 funerals.

Several Families Quarantined.

Olive Hill, Ky., Dec. 13.—Smallpox is prevailing at Grayson to an alarming extent. County Health Officer Hudgins returned from there after placing several families in quarantine. There is much opposition to the quarantine.

Poolroom Men Fined.

Lexington, Ky., Dec. 13.—John B. McLaughlin and Phil T. Chinn were each fined $500 in the circuit court for conducting two poolrooms. James Kearns was fined $250 for operating a gaming device.

MONEY matters are in a shaky condition at headquarters—Wall Street, New York.

THE administration has no trouble with the Monroe doctrine in the time of entire peace on this side of the globe.

EX-PRESIDENT CLEVELAND'S frequent appearance on public occasions is creating the belief that the Presidential bee has got into his head gear again.

THE fact that the grand jury found only eight indictments in a five days' sitting is only another testimonial as to the high state of morals that prevail in Boone county.

THE opposition to a primary election for the nomination for State officers appears to be confined to only a few of the leaders, two or three of whom seem to be making about all the fuss.

IN the prosecution of a gang of fake foot-racers at Hot Springs, Arkansas, a few days since, it was developed that they pulled Frank Lory, of Petersburg, Ind., for $65,500. The race was to have come off at Colorado City last September. This was another instance in which the old adage, "a fool and his money soon parts," was verified.

IN a recent examination at the Northwestern University only 56 out of a class of 141 were able to stand the test of spelling. This fact was thought so remarkable that it went the rounds of the press and has provoked a vast amount of discussion. The result has been to prove that the case of the Northwestern is not exceptional. It is about the average with young men and women who are supposed to be prepared for college.

Inter-State Life Insurance Co.

Capital, paid-up, $100,000.

Incorporated under Legal Reserve Laws of Ohio, $100,000 deposited with the State for the security of policyholders.

A staunch "Old Line" Ohio Company, with leading business men of Cincinnati in the directorate.

Issues especially attractive policies on ordinary life, limited payment, endowment and annuity plans.

The Inter-State Life has all the advantages that other good companies have and is besides a HOME COMPANY.

Information cheerfully furnished.

A policy written with more options in it than of any two others combined. Why not prepare for the rainy day that is coming and protect yourself in The Inter-State?

C. C. ROBERTS,
Gen. Agent Boone County.

FROM the Statistics of the census of 1900 the Washington correspondent of the Chicago Inter-Ocean has prepared a most interesting statement. According to this showing the "death months" are March and April for adults and July and October for children under five years of age, the mortality for both males and females being greatest during these periods. The "health months" for both adults and children are October and November, when the mortality is at a minimum. Vital statistics show in practically every instance the greatest mortality among the males, evidence, the scientists assert, that the males are becoming weaker physically and more susceptible to disease and death, while the females are growing stronger and are constitutionally better equipped to battle for life.

IN the appointment of the Jury Commissioners last week, Judge Lassing selected two Democrats and one Republican, something that was never by done by a Judge of the Boone Circuit Court under the new Constitution. While the RECORDER believes those heretofore acting as Jury Commissioners in this county have discharged their duties in a fair and impartial manner, it believes Judge Lassing's action in dividing the Commission politically will be endorsed almost unanimously in the county, on the grounds that, although the Republicans are largely in the minority in Boone county, they are entitled to representation on such boards. Besides it shows that Judge Lassing lays aside politics when he ascends the bench and dispenses justice alike to all regardless of political affiliations. The Judge has displayed a level head in every instance since he donned the ermine.

According to the Trimble county Democrat a very large proportion of the tobacco crop in that county has been purchased by local buyers at fair prices.

The list of allowances, &c., published on the first page does not show anything in regard to road fund, which in 1901 amounted to $5,914.44 and was expended on the roads in 1902.

The Williamstown Courier run up the following distress signal, last week: "Crowded out—every line of editorial and much of our correspondence. Will do better after the rush is over."

The News-Herald thinks Dr. Massie, recently paroled from the penitentiary at Frankfort, will exercise good judgment by leaving Owen county at once. The feeling against him there is very strong.

Al Rogers, of Bellevue, brought in a couple of very perfect ears of corn, the other day, as a sample of the large crop he raised this year. The ears were not enormously large, but the cob was filled to its utmost capacity.

Boone county farmers are feeling a great deal better than they were at this time last year. Their corn cribs and [illegible] while meat houses are filled with an abundance of nice lard and meat.

The public school at this place had to suspend, last week, for the want of fuel. The trustees say many of the patrons will not contribute for that purpose, and they cannot afford to furnish the fuel.

The finest sample of tobacco we have seen in many a day is that left at this office by Owen Conner. It is of the crop of R. B. Huey, of Locust Grove neighborhood. It has a very rich color, good length and body.

A drove of about a dozen handsome turkeys are seen on the streets here daily. They appear oblivious to the fact that the holidays are close at hand, and that they are likely to play an important part in some big Christmas dinner. Ignorance is bliss, &c.

According to the Lawrenceburg Press Aurora people were very liberal patrons of the recent newspaper schemes to raise the wind. It says: Aurora citizens dumped between $2,000 and $5,000 in the various Cincinnati newspaper lottery schemes and pulled out about $100. "What fools these mortals be!"

News reached here last week of quite a serious accident happening to Ott Scott at his home in Daviess county. It was that in attempting to jump across a hollow he slipped and fell, striking a stub of a corn stalk which pierced his stomach. His brother, Wilbur, who works for W. C. Brown, went down to see about it and render him assistance.

Last Wednesday afternoon Mrs. Geo. E. Rouse, of Limaburg neighborhood, was in the garden when she slipped and fell, dislocating her right hip, from which she has suffered considerably. Mrs. Rouse is not a large lady, but that she may be handled with as little pain as possible Mr. Rouse sent immediately and purchased the best invalid chair to be had in Cincinnati.

William Rice, who killed Marshal Nicholas Hopperton, of Independence, a few weeks since, after a desperate duel on the outskirts of that town, was sufficiently recovered from his wounds, to have an examining trial, last Friday before County Judge Stephens. He was allowed to give bail in the sum of $500. It is said Rice makes a pretty strong case of selfdefense.

At the next term of the fiscal court the justices of the peace will make their report as to how the overseers of roads have performed their duties. These reports are being looked forward to with considerable anxiety on the part of citizens in certain localities. It is intimated that a few overseers may be requested to make explanations as to why certain needed work has been neglected.

Chas. Westbay had more bad luck with his team, last week, his large brown horse dying. He started to Covington early Wednesday morning with a load of hay. When about half way to Florence he discovered that something was wrong with the horse, and about a mile this side of Florence the animal fell. He got it up and to Cahill's stable in Florence, where, in a few hours, it died. It is the second splendid horse that has died on his hands in the last two years. He was offered $175 for it last summer.

The patrons of the Idlewild, Bullittsville, Hebron and Constance postoffices had considerable trouble a few days last week on account of the mail carrier throwing up the job. S. E. Terrill, who went to Missouri, a few weeks ago was the carrier, and the contractor under whom he was working had failed to pay him according to agreement, and the man who was subbing for Terrill quit work and there was considerable trouble along the line for several days. Last Thursday James T. Grant, of Bullittsville, was sworn in and installed as the carrier.

THE HOUSE THAT SAVES YOU MONEY.

The Christian Citizen

By REV. G. CAMPBELL MORGAN.
Leader in the Northfield Extension Work.

Whatever of Christian energy a man may possess, the world still stands in need of. To the man that says: "I take no interest in civic life, I am dead to the world," my reply is: "If you are dead to the world, then you would better be buried."

We want no dead-to-the-world Christians. We want real, live, earnest, active believers in and followers of the principles of Christianity. Those old Puritans, who saved England and made you, carried their religion into their daily lives, and they established on a firm foundation the state that to-day you call your country—a country the thought of which must arouse in the soul of each of her citizens, unless the soul be dead, the fondest emotions.

Though those Puritans are judged to have been stern and prejudiced in their Christianity, yet we grant they builded well. To-day, that old zeal and steadfastness is needed in public life, and the duty of each citizen lies plainly before him. The country stands in need of the aid that every right-minded, intelligent citizen has it within him to give.

CHRISTIAN MEN AND WOMEN SHOULD GET TOGETHER AND SHOULD ORGANIZE FOR THE FURTHERING OF RIGHTEOUS GOVERNMENT. In each community, if there labored a band of workers bent on the conscientious carrying out of just laws, a national conscience eventually would become recognized. In each community such a company of workers is needed, and will be so long as there is war to fight, so long as the drink evil exists, so long as immorality flaunts itself, so long as the god of mammon reigns in men's hearts.

So long as war devastates, you should take your place in the ranks of those that stand for peace. So long as drunkenness reels upon your streets or hides behind saloon doors, you cannot afford to be "dead to the world." So long as the gambler plies his trade and corrupts youth with the habit almost as hard to break as the ope of intemperance, you must not be "dead to the world." So long as woman's purity is assailed, you cannot be so cowardly as to be "dead to the world." So long as dishonesty and incompetency hold sway in the administration of public affairs, YOU MUST AWAKE AND DO YOUR DUTY AS CITIZEN.

Pliny, the younger, in writing to the emperor concerning the early Christians, described them as people who sang hymns about Jesus and paid the taxes. That is not a bad ideal. There are people that pay their taxes but neglect the hymns, and these do not appeal as models; then there are some singers of hymns that neglect the taxes, and these also fail as examples. This is a happy combination—TO SING HYMNS AND
PAY TAXES.

BURGLAR STRANGELY ROUTED

He Couldn't See Anything Dangerous, But He Heard Enough to Scare Him Out.

A burglar was recently sentenced to one of the up-state prisons after an experience so harrowing that his capture by his natural enemies, the police, was almost a relief. In company with his partner the burglar entered a house in which the residents apparently were buried in peaceful slumber. Now, this particular burglar rather prides himself on his professional skill. Accordiagly, he directed his "pal" to watch outside while he himself attended to the fine points of the burglary, relates the New York Sun.

All went well until the burglar entered a room on the second floor, in which was a man apparently sleeping the sleep. Then came a hoarse whisper:

"Here, you come out and tend to this."

As the whisper seemed to come from the hall, the burglar thought his partner had intruded in a most injudicious manner to instruct him on burglary as a fine art. He tiptoed toward the hall, inteading to rebuke the presumptuous partner and inform him that it was a burglary, not a night school, which was in progress. But near the door of the room he was halted by a gruff voice:

"Back up there, or I'll fill you with holes."

Thoroughly terrified, the burglar darted back into the room, at the same time making a motion as if to draw his revolver The man on the bed still seemed to be sleeping peacefully, but from the semigloom of one of the corners of the room came the warning:

"Make another move of that sort, and I'll drop you. I've got you covered."

And then came the deep, threatening growl a bulldog gives before he makes his spring. The growl seemed to come from under the burglar's very feet. It was ao time to parley. He made a wild dash across the room, plunged through the window, alighted on the roof of a little shed, and rolled to the ground in the back yard. Picking himself up, the terrified thief scrambled over the fence and sped up an alley. His partner, startled at his sudden exit, but realizing that it was not the time for cross-examination, darted off in another direction.

It was certainly fated to be an unlucky night for this particular burglar. At the intersection of the alley up which he was fleeing and the first street he encountered a policeman, who had heard the crash of the breaking glass. The policeman wished the burglar to stop and explain. The burglar refused this request. A short argument ensued. The policeman, by the use of his club, persuaded the burglar that logic was on his side. He even prevailed on the burglar to accompany him to the nearest police station.

It was not until the case was called up in the police court that the unfortunate burglar learned the cause of his undoing. In the house which he had entered there lived a professional ventriloquist. And the ventriloquist was awake when the burglar entered his room.

"Now, wouldn't that jar a man?" sighed the unlucky burglar, when he realized what had caused his woes. "Some folks can get all the hard luck that ain't chained down. A ventriloquist! Gee, when I heard that growl I thought I was against the real thing in the way of bulldogs."

CONGRESS IN SESSION.

Many Reforms Due Attention by the Party in Power.

The last session of the Fifty-seventh congress having begun, the general expectation that it will be unfruitful of important legislation is not likely to be disappointed, says the New York World.

The regulation of trusts with a view to suppressing monopolies is the subject of first importance. In his message a year ago and in his speeches on the stump last summer, President Roosevelt insisted upon the need of a constitutional amendment to confer upon congress the power to deal adequately with monopolies. But in his speech at Philadelphia on November 22, he said:

"It is idle to tell the people that we have not the power to solve such a problem as that of exercising adequate supervision over the great industrial combinations of to-day. We have the power and we shall find out the way."

And in the same speech he strongly indorsed the remedy proposed by Attorney General Knox, which is, in substance, enforced publicity for the affairs of all corporations doing an interstate business, for which he contended there is already ample authority of law. Whether a stringent law of this character can get by the trust agents in the senate is very doubtful. What effect mere publicity would have in curing the worst evil of the trusts — their tariff-chartered privilege of putting monopoly prices upon their products—nobody has yet attempted to explain.

The subject of next importance is the revision of the tariff and the related question of reciprocity. It is evident from all that the president has said that he is not in favor of attempting a revision of even the most oppressive tariff schedules—like those on coal, meat, lumber and hides—at this time. The most that he is likely to do is to recommend a tariff commission to "examine and report"—a favorite method of sidetracking the issue.

But even if the president were an advocate of necessary and reasonable tariff reform there would not be the slightest chance of securing action by this congress. The speaker, the chairman of the ways and means committee and nearly all the influential members of the majority have expressed themselves since the elections as opposed even to taking the subject up at this session. They allege a lack of time—though they once passed in three days a bill imposing more than $100,000,000 of internal revenue taxes, and it is beyond question that the majority can pass in short order under its ironclad rules any bill which it decided to put through. It is the will, not the time that is lacking. Yet even if the house were to pass a measure of relief it would be killed in the senate. Every republican of influence in the upper house is inflexibly opposed to any tariff changes.

So that the main work of the session is likely to be the passing of the appropriation bills, and perhaps the ratification of some sort of reciprocity treaty with Cuba—though even this is doubtful. Needed reforms must wait until the people see fit to put in power a party that believes in them.

WILL NOT REFORM TARIFF.

The Trusts Still in the Saddle Riding the Republican Party to Its Undoing.

It is practically settled that there will be no tariff tinkering by the present congress. The organization of the present representatives of the people is in the hands of the protectionists, who are of the Hanna "stand pat" stripe. The trusts are therefore secure in their extortion, at least until 1904, and can continue to sell their products to foreigners for from 20 to 50 per cent. less than they compel the people of the United States to pay. How long the voters will continue to condone this discrimination against themselves is a question that is postponed for two more years. At the presidential election in 1904 they will have another opportunity to decide the question, and with further enlightenment they may reverse their decision of this year.

The trust question and reciprocity are forced to the front by the president in his annual message to congress with the evident intention of inspiring the people with hope of relief and relieving the republican party of the more important tariff question, on which it is so sorely divided.

As the president has not, by any means, exhausted the power to punish bad trusts which the law already gives him, especially the criminal section of the Sherman law, which he has never invoked, it is hardly fair to shoulder upon congress all the ills that the trusts have brought upon us.

As the trusts and corporations are quite willing to have members of congress, knowing that they have a friendly majority which will manage, at least, to do nothing to seriously cripple them, the outlook for the people is dark indeed.

By the time the national election takes place the voters will have further proof that no relief can be expected from the trust and corporation-controlled party which they have intrusted with power, and they will be more than willing to give the democratic party an opportunity to enforce the criminal section of the Sherman law, to amend the interstate commerce law to prevent discrimination, and to reform the tariff law by placing trust productions on the free list.

TIN WORKERS' WAGES.

Pet Industry of Protectionists Fails to Keep Up the Pay for Labor.

The tin plate industry is one of the special pets of the protectionists. They claim to have created that industry by the McKinley tariff, ignoring the fact that it grew and prospered more than any other industry under the so-called Wilson tariff, which was about half the McKinley tariff, says the Chicago Chronicle.

They hasten to restore the McKinley rate in the Dingley law upon the false pretense that the Wilson tariff was destroying the industry.

The claim for the tin plate duty was the usual one that it was all for the benefit of labor. The duty was giving employment at high wages to American labor. It happens that most of the labor at first was imported under an exception to the general provisions of the contract labor law. But let that pass.

The point of interest just now is that the tinworkers have just agreed to accept a general reduction of three per cent. in wages. Most workers in tin factories have never received princely wages, and now they have been brought to agree to a reduction. The tariff does not serve them.

The reduction is the end of a discussion which has been in progress for five or six months. The employers wanted the men to submit to a reduction of 25 per cent. on the orders to fill the "drawback trade," and the general reduction of three per cent. is the counter-proposition of the men.

What is meant by the "drawback trade" is this: American exporters of canned goods can import the tin, paying the duty, and get a drawback equal to the duty when they export the cans containing the goods. To induce the exporters to buy American cans the manufacturers have to make special prices for that trade, and to enable them to do this without loss the workers were asked to submit to a reduction.

American consumers have to pay high prices for their canned goods to enable the manufacturers to pay reasonable wages, and the men have to submit to a reduction to secure the export trade. That is how protection works both ways.

OPINIONS AND POINTERS.

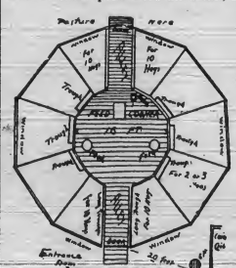
——Congressman Moody is right in saying that the duty on anthracite coal was a mistake. It was a great mistake in more ways than one, as almost all the republican managers are ready to admit, to-day.—Boston Advertiser (Rep.).

——President Roosevelt has changed sides in the Delaware fight by the appointment of Byrne, an Addicks man, as United States district attorney. This is an entire reversal of the supposed high ideals of the Roosevelt administration, and is an indorsement of the rotten politics for which Addicks is noted.

——Mr. Addicks, the gas man, has been invested by the administration with the bossship of Delaware, and the federal offices will be parceled out to his political strikers. President Roosevelt certainly is making some queer deals for a civil service reformer. If he does not look out, while making friends of the gas trust, he will lose the support of those who would naturally be for him.

——If Mr. Roosevelt really had any anxiety to curb monopoly he would avail himself of the laws already at hand and he would join with those isolated members of his party who urge the withdrawal of tariff protection to the great combinations of monopoly which, under the shelter of the Dingley schedules, rob the American consumer while invading foreign markets and underselling all competitors.—Johnstown Democrat.

——When the republican leaders discuss tariff revision they elaborate fine phrases which on analysis are found to mean nothing. What Mr. Roosevelt may say in his message on the subject is a matter of present curiosity, but nobody expects him to propose anything radical. He sets the pace on no such public question, but conforms to the opinions of those he thinks can do him the most good in the next republican convention.—Buffalo Courier.



——Congressman Roberts, of Massachusetts, in a speech delivered at Boston, said: "It is safe to assume that at least 70 members of the present congress are in favor of free hides." As Mr. Roberts was evidently talking of republican congressmen, free hides would seem to be assured if less than half of the 70 are independent enough to vote with the democrats. But these congressmen who favor free hides must remember that free coal, free beef, free steel, and other trust products are even more important than free hides.

AN IDEAL HOGHOUSE.

This Is What Its Designer Calls the Little Structure Here Described by Himself.

A ground plan of my hog house, built in 1894, is shown in the cut. It is an ideal one. The chimney is directly behind the ventilator. It is half way down the roof. I prefer my hogs all in one house. Here I can feed 50 to 60 of all ages in 15 or 20 minutes. Their feed is put in dry, one bag to a barrel; then the barrel is filled with boiling water from a faucet in the cooker. Water is heated in the afternoon, turned in the barrel with feed after chores are done, and left over night with cover on. The next day it is stirred thoroughly before feeding, and dipped out with a ten-quart tin pail. Small pens here and there are good enough for summer or if one has only one sow that farrows late in the season. If those pens were all small, I

THE GLORY OF CRISES

It Is Manifested in the Deliverances Which God Sends.

Man's Part, Then, Is To Stand Still, While God Fights for Him—Sermon by the "Highway and Byway" Preacher.

(Copyright, 1902, by the A. N. Kellogg Newspaper Company.)

Chicago, Dec. 14, 1902.

Text: "Stand still, and see the salvation of the Lord. . . . The Lord shall fight for you, and ye shall hold your peace."—Ex. 14:13-14.

Man dreads crises. God delights in them. Man likes to feel that he is master of the situation. God wisely leads the way, sometimes between the mountain and the deep sea, and permits the enemy to cut off retreat in the rear, so that His glory can be manifested and His power realized in the deliverance wrought. The words of our text were spoken to the children of Israel during one of the most trying crises in their history. It is the third day since they have fled from the cruel bondage in Egypt. They are on the edge of the desert, and a short distance more in their journey will carry them beyond the pursuing chariots of Pharaoh. And when confidence is growing strong in their breasts that they are safe, suddenly the cloudy pillar veers to the southward and leads them between the mountains and the sea, and as the afternoon wears away and the sun sinks to rest the mountains on the right hand cast their deep shadow of gloom over the long, irregular column of helpless men, women and children, and on the left hand the roar and splash of the sea are heard. Suddenly upon their ears breaks the dull rumble of the on-rushing chariots of the pursuing Egyptians, and their straining eyes penetrate the fading light of the evening, and make out in the distance the advancing enemy. Escape seems impossible. They are panic stricken, and in agony of fear they turn upon Moses and begin to upbraid and abuse him.

Here was a trying crisis, indeed! The vengeful enemy threatening them in the rear, the walls of rock and the rolling sea on either hand, and rebellion in the camp. In the face of such awful peril, but, with eye fixed on that pillar of cloud, which was even now beginning to glow with light as the darkness settled down around them, Moses showed sublime confidence in God as he calmly speaks: "Fear not, stand still, and see the salvation of the Lord, which He will shew to you today: for the Egyptians whom ye have seen to-day, ye shall see them again no more forever. The Lord shall fight for you, and ye shall hold your peace." And then follows the mighty deliverance of the children of Israel from their peril, and the utter destruction of the enemy of God and God's people.

And this thrilling bit of history from the pages of God's Book has its lessons for you and for me—Crises and the glory which shines out of them if God's hand is leading, and His power controlling. There are crucial periods in the lives of every individual and every nation which mark the complete breaking away from old conditions and the entrance upon a larger liberty. The crisis comes at the point where it is uncertain whether the one who has been led out will surrender to the pursuing enemy and go back to the land of bondage and to a worse slavery than ever before, or whether in the gathering gloom, with the relentless foe pressing upon him, he will lift his eyes to the glowing cloudy pillar of the Divine presence and stand still and watch for the salvation of the Lord, which never fails to come.

Watching for the Crisis.—I understand that in cases of typhoid fever the careful physician exercises the greatest precautions in detecting the crisis in the disease, for carelessness and failure to note the true condition of the patient might bring about a fatal issue. He watches for the approach of the crisis, and so is prepared for it when it comes. There is peril in not discovering the crisis. A sleeping nurse and a careless doctor would miss the critical period. There is peril for you and for me in not discovering the crisis as it comes to us in life's experiences. The sleeping conscience and the careless mind will make us miss the critical period.

The crisis came in the life of Saul when at Gilgal he usurped the priestly office and offered burnt offerings before the Lord. His sleeping conscience was not sensitive towards God and it permitted his careless mind to plunge him heedlessly on to holy ground. He was not watching. The crisis came when he little dreamed it was there. Hardly had he completed his sacrifice of burnt offering when Samuel, God's prophet and priest, came. Oh, what an eternity of difference a few moments make in a life, sometimes! Saul, the king, by the anointing of the Lord, with the possibility of perpetuating a line of kings through his posterity! Saul, the rejected one, because he was not watching for the crisis and was not prepared to meet it! If he had not allowed his conscience to fall asleep after he had been called from the humble occupation of herding his father's cattle to the responsibility of ruling a kingdom, he would have realized that on the new and higher road he was traveling the crisis would surely come and make or mar his name and destiny. But Saul let conscience sleep and carelessness crept into his life, and when the crisis came at Gilgal he failed to recognize it, and was not prepared to meet it.

The crisis comes in every life, in connection with both temporal and spiritual things. If conscience is not up in the watch tower, and steadiness of purpose is not keeping the gates to the city of eternal possibilities below, the crisis will come unexpectedly and take your city of desire and drive you out, perhaps forever. The crises come to every Christian. They have come in my life. I have seen them come into the lives of others. Ah, how I remember the crisis that came in my life years ago when my conscience was asleep and the desire of self-gratification ruled. I had given myself to God for His service. I had promised to walk along the will of His purpose for me. And I did, and it was blessed, but I let conscience go to sleep, and careless indulgence of selfish desires was let loose in my life. God tried to waken me to a sense of the impending crisis. He always does. He is so merciful and patient. His hand stayed off the crisis as long as possible, in longing hope that I might arouse to a consciousness that it was coming. But I went heedlessly on. It came. I was unprepared to meet it. Oh, the anguish of soul and the darkness that filled the years that followed! Only God knows. Only His hand of mercy stayed the hand of desperation that would have taken the life that He had given. No one but God knew it. I went on with my Christian service, and others beholding, thought I had comfort and delight in it. But I did not. I realized a crisis had come in my life, that I had failed, and that I was rejected of God. And as the years rolled heavily by I began to pray: "Oh, God, give me another chance!" And He did. He whose mercy is from everlasting to everlasting and whose forgiving love is as inexhaustible as the ocean always gives poor, miserable, failing man another chance. And thanks be to God and the faithfulness and keeping power of my Saviour, when the next crisis came, as it always does, and as then I realized it would, I had conscience up in the watch tower with my Saviour, and I had steadiness of purpose below at the gate with my Saviour, and with His help I passed the crisis and kept the city of my desires for God! And other crises have come since then, and I have found they have nearly always come along the line of previous failures. Set a lookout and watch for the crises.

And crises come in the experience of nations. The fate of Solomon's extensive kingdom rested in the decision of his son Rehoboam, who faced the national crisis when emissaries came to him from the tribes of Israel and complained of oppressive burdens. And every nation before and since Rehoboam's day has had its crisis to face. Set a lookout, oh! ye nations, for the crisis will surely come and determine your destiny. And crises come to churches. The calling of a new pastor, the building of a new structure, the adoption of a new policy, the method of raising funds and disbursing them are conditions which may come as the determining crises in the life of a church. There comes to my mind the history of one little church to which the crisis came years ago in the selection of a pastor. It was a newly-organized church, and was vigorous and active. God sent them a man after His own heart as pastor. For three months he did a magnificent work among them, and then God suddenly took him from earth. Then came the crisis. A man came, not sent from God. Little was known of him. He came from a distant part of the country. There were rumors heard that should have caught the ears of the officials in the watch tower of the church if they had been at their post and keen to catch the warning sound. The crisis was on. The man's preaching was faultless. He captivated the people. The officials allowed the rumors to be covered up and explained away. This man, not sent from God, was called as pastor. And, oh! what that church has suffered in not being watchful for the crisis and prepared to meet it. The church was blasted in its early bloom, but it was not wholly wrecked. It survived the experience of those dark days. God has mercifully spared it for a large mission of usefulness in the days to come. He gave them a man who has, under Divine guidance, healed the cruel wounds made by the other pastor, and God has led along the line of the previous failure to another crisis. The church is looking for another pastor. Will it set its watch in the tower? Will it be prepared to meet the issue? It will if it will do what the children of Israel did as they faced their crisis before the Red sea. If it will wait until the clear and certain command of God is heard: "Go forward!"

The Test of Waiting.—It comes in every crisis. The haste of Saul in the moment of his crisis cost him the kingdom and a kingly posterity. The crucial period in every crisis is the time of waiting, of standing still. Oh, how hard it is! With the terrible army pressing hard in the rear and with the mountain and the sea on either hand it is hard to stand still and wait for God. It is easier to ride with the light brigade into the shot and shell of the Russian artillery than it is to stand on the firing line waiting for the command to fire while the enemy is pouring in a hail of bullets upon you. Paul when equipping his Christian soldier tells him to stand and watch and pray. If you can get the soldier to stand calmly in the face of the enemy under perfect control of his captain awaiting the command: "Ready, aim, fire," there need be no fear of his readiness and ability to fight when the time comes. The test of the soldier is the ability to stand and wait the command of his captain. The test of the soldier of the cross of Jesus Christ is found in his ability to stand and await the command of the Divine Captain. He knows when the crisis is on. He sees with clear vision the dreadful armed hosts at your rear threatening you with destruction. His judgment is unerring. He knows exactly the best time to strike. Stand fast, wait on your Captain, oh, soul! David prays: "Let none that wait on Thee be ashamed." And in all the trying times of David's life he never was ashamed when he waited on the Lord. He met the crises by waiting. And in his psalms of praise and thanksgiving he exclaims over and over again: "Wait on the Lord; be of good courage, and He shall strengthen thine heart: wait, I say, on the Lord."

Have you failed when the crisis has come into your life? It is almost certain to have been because you did not wait. Something must be done, you thought. That was what the terrified children of Israel thought. They wanted to do something, they did not know what, but they felt it strong upon them that something must be done, and that right quickly. Common sense told them that action must be taken at once in the face of the awful crisis. They railed on Moses and counted him for a fool. But, oh, glorious victory in the Lord; he knew that God would not fail him, and that the thing for him to do until God spoke was to stand fast, to wait. The thing to do always when darkness is about you, and you know not which way to turn, is to wait. It is folly to take action, to move, until God says: "Go forward." Then the strong east wind of His providences will drive a channel through the deepest waters ever to be met with, and you will pass over to the other side dry shod and your enemies will be swallowed in the returning waters. Oh, it is glorious to wait on the Lord! You have to do it if you are going to successfully meet the crises of life. Don't move until you hear God's voice speak. He will not let your ear be deceived if you wait on Him. You will know when the command to go forward comes. If you are uncertain as to the voice and your heart is eager to do God's will, you may always be sure that it is not God's voice that is speaking to you. But if you are waiting in faith on Him, faith's ear will hear the blessed voice of God, the heart will leap with responsive joy and the feet eagerly move in the direction which God indicates, even if it is right into the black waters of a Red Sea.

The Glory of Crises.—And right at this point will be realized the glory of the crisis in your life. As you take the step forward at His command, God will divide the waters and the way will be made plain. There is a Divine glory in every crisis in which God has His way and the soul waits on Him. And the glory is realized at the point of obedience. Patient waiting and prompt obedience will make every dark crisis brilliant with the glory of God. There was the magnificent glory of the King of Egypt in his palaces, and his temples, and his pyramids, and his great and powerful country. There was the commanding glory of his great army, as it came thundering along; the glittering chariots flashing in the sunshine, the richly-caparisoned horses skimming the ground as they rushed onward; the strong warriors equipped for the battle riding confidently. That seemed to be all the glory there was that day to the affrighted Israelites. Even the majestic cloudy pillar of God's presence lost its glory in their eyes, and to be slaves to the Egyptians was better than dying with God in the wilderness. But God never lets the soul that is following Him die in the wilderness. Just at the point where the soul feels that death is upon it, God sends deliverance and the glory that had appeared in the ranks of the enemy disappears beneath the waves of God's judgment, and His glory bursts forth from the issues of the crisis which the soul had just been facing. And the soul does not know what the glory of the Lord is until it has seen it flash out of the crisis to which He has led, and over which He has control.

There are little crises and big crises in every life. The little ones are met with every day. The big ones come when some important issue is at stake. The little ones if successfully met with prepare one to meet the big ones when they come. The sleeping conscience and careless mind that miss the glory in the little crises pave the way for defeat in the important crises when they come. It is magnificent to behold a brave soul like Moses meeting the mighty crisis. To see him stand calmly in the face of panic and opposition and ridicule and bitter denunciation, and patiently wait for God. He couldn't tell how God was going to send deliverance. He could not answer the forcible and plausible arguments brought by the prominent men about him. He could only answer: "Stand still, and see the salvation of the Lord." And when God got the people calm before Him and they were looking wholly to Him for deliverance, then the glory of the crisis shone forth and deliverance was at hand. Oh, the glory of the crises in which God has His way! Oh, soul, would you see and know that glory, and experience God's salvation? Then begin to-day to meet the little crises with patient waiting on God, while the way is dark and you know not which way to turn, and then when the voice of God tells you to go forward, give prompt obedience. Then the same glory which flashed over the Red sea and led to the victory of the other shore will be shed abroad in your life, and your heart will sing a song of praise to God as Moses sang in the 15th chapter of Exodus.

He Thought His Bones Were to Be Taken from Him a Bit at a Time.

At the Royal national hospital, Ventnor, recently a patient found a very small piece of splintered bone work out through his skin. Next day he happened to be called up for medical examination, with some four or five other patients. In the consulting room he told the physician of the preceding day's incident, relates the Philadelphia Inquirer.

"Can you produce the piece of bone?" said the latter. Whereupon the fellow carefully unwrapped a little piece of paper and handed over the tiny object. The doctor made some remarks about its chemical nature, and passed it on to the resident medical officers for further scrutiny.

The patient was then dismissed, and in the next room caused some amusement among the few fellow sufferers present by the remark: "That's all right, ain't it? I wonder what he'll do next. He's started sneakin' my confounded skeleton, and says how very interestin' it is!"

Many of us might be happy if we did not suffer from disorders of the liver. Then we ought to use Dr. August Koenig's Hamburg Drops, which cure the disorders and bring the whole system to a healthy condition.

I Did Not Feel That I Could Walk

"Dear Mrs. Pinkham:—It is with thankfulness I write that **Lydia E. Pinkham's Vegetable Compound** has been of the greatest help to me. My work keeps me standing on my feet all day and the hours are long. Some months ago it didn't seem as though I could stand it. I would get so dreadfully tired and my back ached so I wanted to scream with the pain. When I got home at night I was so worn out I had to go right to bed, and I was terribly blue and downhearted. I was irregular and the flow was scanty, and I was pale and had no appetite. I told a girl friend who was taking your medicine how I felt, and she said I ought to take it too. So I got a bottle of **Lydia E. Pinkham's Vegetable Compound** and commenced to take it. It helped me right off. After the first few doses menstruation started and was fuller than for some time. It seemed to lift a load off me. My back stopped aching and I felt brighter than I had for months. I took three bottles in all. Now I never have an ache or pain, and I go out after work and have a good time. I am regular and strong and am thankful to you for the change.

"I recommend **Lydia E. Pinkham's Vegetable Compound** whenever I hear of a girl suffering, for I know how hard it is to work when you feel so sick."—Miss Mamie Keirns, 553 9th Ave., New York City.

Women should not fail to profit by the experiences of these women; just as surely as they were cured of the troubles enumerated in their letters, just so certainly will Lydia E. Pinkham's Vegetable Compound cure others who suffer from womb troubles, inflammation of the ovaries, kidney troubles, irregular and painful menstruation, nervous excitability, and nervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

Miss Amanda T. Petterson, Box 131, Atwater, Minn., says:

"Dear Mrs. Pinkham.—I hope that you will publish this testimonial so that it may reach others and let them know about your wonderful medicine.

"Before taking **Lydia E. Pinkham's Vegetable Compound** I was troubled with the worst kind of fainting spells. The blood would rush to my head, was very nervous and always felt tired, had dark circles around eyes.

"I have now taken several bottles of **Lydia E. Pinkham's Vegetable Compound** and am entirely cured. I had taken doctor's medicine for many years but it did me no good.

"Please accept my thanks for this most excellent medicine which is able to restore health to suffering women."

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

CIRCUIT COURT.

Tom Miller was fined $5 in one case.

The jurors had but little to do except "come and go."

The grand and petit jurors were discharged Friday afternoon.

Court will adjourn today. Orders have been made every day this week.

Indictments in the following prosecutions were filed away: Tom Miller, Lon Henry.

The grand jury in its report made special reference to the condition of the court-house.

At no time during court were there 50 persons, other than jurors and officers of the court, present.

The sheriff furnished money with which to pay the grand and petit jurors a very great accommodation to them.

The court appointed J. Wash Watts, of Bullittsville; Al Rogers, of Bellevue, and Geo. L. Miller, of Big Bone, jury commissioners.

R. O. Ryle, who purchased a portion of the tract of land at Waterloo, sold to settle the estate of David H. Ryle, deceased, transferred his bid and purchase to J. W. Kite.

In the two prosecutions against John Kahr for selling, lending or giving spirituous, vinous and malt liquors to minors, the proof showed that he sold hard cider, only, and the court found for the defendant.

The fines and forfeitures collected by the trustee of the jury fund at this term amounted to $570, the largest amount he has reported for a long time which gives the district and county attorney, each, quite a nice little sum.

Prosecutions against the following parties were continued: Frasier Miscal, W. H. Prather, Claud Beall, Thos Roberts, D. Selker, Lewis Wrightman, John Graves, colored, Bullittsville & Dry Creek T. P. Co., Edgar Houston, H. L. Offutt, Leu Miller, John Lacy, R. C. Tilley, Jas. Colemau.

The Tobacco Growers' Bank of Crittenden had an attachment levied on 130 acres of land belouging to Tom Jeff Anderson, of Verona, on the ground that he had not enough property to pay his debts. The proof for the bank was that the land is worth uot to exceed $17 per acre, while Andersou and his son placed its value at $10 per acre. The court discharged the attachment.

Atty. Sam Adams, of Erlanger, was moving a large record book in the court room, one day last week. Under the book chanced to be several parlor matches which went off like a pack of Chinese shooting crackers. For a few seconds it looked like a panic in the court room would result. There have been occasions that the rapid fire of these matches would have started an exodus instantur.

James Coleman, who was arrested, a few months since, for stealing chickens in the Crescent neighborhood, and waived examination before Esquire John H. Watson, of Walton, putting up $200 in lieu of bail for his appearance at this term, failed to appear and forfeited the $200, which was paid over to the trustee of the jury fund and he came part and parcel of the money of the Commonwealth of Kentucky.

One of the nicest contests during the term was in the suit on the part of the colored school district at Walton to recover a portion of the railroad tax collected in the Walton Graded School district for school purposes. The defendant filed and argued general and special demurers to the petition, each of which was overruled by the court, giving the plaintiff the victory. Tomlin for plaintiff, and Clore & Dickerson for defendant.

The McIntyre boys were brought into court Saturday afternoon, and each sentenced to one year in the peniteutiary for the job they did at Big Bone Spings a few days before the assembling of court. They were the liveliest lads that were ever in jail here. They scrapped last Saturday morning until jailer Adams put them in separate cells, a proceeding they resisted with all the strength at their command. Judge Lassing directed the jailer to put them on a diet of bread and water, and on that they subsisted until Sheriff Allphin took them to the pen, at Frankfort, Monday.

To the Honorable J. M. Lassing, Judge of the Boone Circuit Court:

We, the Grand Jury, in a session of five days, in diligent inquiry for violations of law, having examined twenty witnesses have found 8 indictments.

We have examined the public buildings and find the Court-house in bad repair—its walls and ceilings in many places bear the marks of danger and ruin; we recommend that the Fiscal Court proceed to repair and strengthen it without delay; we recommend that the building be thoroughly rodded both ways, that the ceiling of the Circuit Court room be made of wood or metalic substance, and that the arch over the Judge's stand be substantially repaired. We find the Jail in good condition and well kept. The County Infirmary well kept. We find evidence of leaks in the roof, to which we recommend immediate attention, and further recommend that the out side of the building be painted. Respectfully submitted,

N. S. WALTON, Foreman.

"Wine of Cardui is indeed a blessing to tired women. Having suffered for seven years with weakness and bearing-down pains, and having tried several doctors and different remedies with no success, your Wine of Cardui was the only thing which helped me, and eventually cured me. It seemed to build up the weak parts, strengthen the system and correct irregularities."

By "tired women" Mrs. Adams means nervous women who have disordered menses, falling of the womb, ovarian troubles or any of these ailments that women have. You can cure yourself at home with this great women's remedy, Wine of Cardui. Wine of Cardui has cured thousands of cases which doctors have failed to benefit. Why not begin to get well today? All druggists have $1.00 bottles. For any stomach, liver or bowel disorder Thedford's Black-Draught should be used.

WINE OF CARDUI

A new way of employing peanuts in entertainments has been found in the "peanut punch." Tables are arranged as for any progressive game and on each table is placed a bowl of peanuts and four hat pins. The players take turns by couples in trying to spear as many peanuts as possible with the hat pins. The couple having the greatest number of peannts to their credit when the bell rings progress. Three minutes are allowed by the hostess for each side and the peanut punching waxes fast and furious. It is marvelous how hard it is to pierce a common peanut shell with a pin. Brown bread sandwiches spread with peanut butter may serve as refreshments at a peanut punch also peanut cookies or peanut taffy.

A Danville, Ky., groceryman spends $1200 annually for newspaper advertising in a town of about 5,000 population. He finds it necessary now to employ ten clerks and is about to establish a branch house at Perryville. The Danville man has learned how to use newspaper space liberally and intelligently. He spends $100 a month for this kind—the only kind—of advertising and his pockets are bulged.

BOONE COUNTY RECORDER.

VOL. XXVIII. BURLINGTON, KENTUCKY, WEDNESDAY, DECEMBER 24, 1902. NO. 10.

County Correspondence.

BUFFALO.

Robt. Adams Going West.—Hog Killing Season Ended, Etc.

Dec. 20.—Several from here attended the Rouse sale, last Thursday.

Clark Rouse is able to be out again after a severe illness.

Mr. Editor, I wish you and all the correspondents a merry Xmas.

Robert Adams will leave for the West as soon as he can get his business in shape.

Miss Alma Ryle, of Waterloo, was visiting her brother and family here last Friday.

Claud Ryle was visiting friends and relatives in East Bend, last Saturday and Sunday.

Bert Clore killed hogs last Friday, which ends the hog killing in this vicinity for this season.

BELLEVUE.

The Burial of an Old Citizen.—Big Order for Sausage.—Turkeys High.—Some Tobacco Sold.

Dec. 20.—John D. McNeely shipped three and George Rector two fine xmas steers recently.

Wm. Clore reports that he realized satisfactory prices for his tobacco on Cincinnati market.

The local buyers are offering 10½cts for turkeys, gross weight. Some are asking 11c per pound.

John Weisicle, jr., sold his crop of 4,000 lbs. to Conner & Hogan at an average of $8.25 per hundred.

The infant child of Mr. and Mrs. Ransom Ryle was interred in the new cemetery at this place, last Thursday.

The recent floods and high river have made it interesting for the local drifters Many coal barges were wrecked above.

Richard White, of near Burlington, delivered five hogs to Corbin & Son, one day last week, that weighed 1,800 pounds. They were of the Thibnind stock. Price, 6c.

A. Corbin & Son are filling an order for 600 pounds of sausage for J. G. Furnish, of Lakeland. He writes. "We want some good, country sausage, and believe you can fill the bill." Dr. Joe knows a good thing when he tastes it.

The remains of R. H. Ingram were sent here by boat from Cincinnati, on the night of the 18th inst., and were buried in the old cemetery on the 19th. Deceased having spent most of his days in Boone county, was well known to many. Well does the writer remember meeting him last, in the town of Erlanger some years ago, and how he interested himself in showing me the town and many of interest. What a blessing it is to humanity that—

"When departing to leave behind
Footprints upon the sands of time."

Bro. Editor, we wish you and your host of subscribers a merry and prosperous Christmas. We are glad to know that your holiday funds have recently been replenished, if our exchequer is somewhat low. However, we have considerable in the larder for the family and the weary and hungry, for which we are profoundly grateful. My dear readers let us press on into the joyous future, not unmindful of the bountiful harvest we have been permitted to reap within the past year, recognizing the hand of our Sovereign Ruler in it all, and to Him render thanks, glory and praise.

FLICKERTOWN.

Moving in Order.—Some Damage by Backwater.—Some Good Tobacco Sold at Good Prices.—That Iron Bridge.

Dec. 18.—James Snyder, jr., moved to Mrs. Mary Terrill's place, last week.

Botts & Setters will move their sawmill next week.

The local turkey buyers were paying 9c per pound for turkeys for Xmas.

The backwater raised 15 feet between Monday at noon and Tuesday at noon.

Your scribe made a business trip to the city, last Monday and returned on Tuesday.

Here's wishing the Recorder and its correspondents and readers a merry Christmas.

The backwater got all of the fodder and some corn in the creek bottoms below here, last week.

The Cincinnati Post of the 10th inst., carried a good picture of Miss Julia Smith, of this place, with a flowery description of herself and home.

Geo. Hensley, moved, last week, to Mrs Lonaker's place; Hogan Wingate, of Rabbit Hash neighborhood, will occupy the house, Mr. Hensley vacated.

Louis Sullivan claims to have the champion fox-hound in Boone county. Anyone who does not believe him can have a chance to test their dogs any time during the holidays.

John Deck sold his crop of tobacco to James Thompson, last week, at 7¼cts. around; Meritt and Henry Sullivan sold their crop of 7,000 pounds to J. W. Berkshire at 6½ around.

John Deck wound up the hog-killing season in this neighborhood, last Friday. After the work was all finished a song and dance act with instrumental music was furnished by some of the minstrel class.

The iron bridge that lies on the banks of Woolper at Plattsburg could not be put to a better use than to be placed across Ashby fork at this place. There are two good abutments here, therefore, it could be placed here with less expense than anywhere else in the county. Lend a helping hand and lets not let it go to ruin when we need it so badly.

GUNPOWDER

J. L. Rouse Preparing to Leave.—A Regular Exodus from this to Other Neighborhoods

Dec. 21.—Sam Tanner left Saturday for Campbell county, where he will make his home the ensuing year.

Mr. Wm. Adams, of near Union, moved to Erlanger a few days since.

The remains of Aunt Ann Tanner were burried at Hopeful last Saturday.

Ben Long moved to Erlanger last week. He has a position in Cincinnati.

Mrs. J. A. Smith, who has been on the sick list for several weeks, has about recovered.

J. C. Hankins moved to Hebron last week, and will take charge of Uncle Harrison Clore's farm.

Lee Adams, of Grant county, attended J. L. Rouse's sale, and bought several Jersey cattle to take back with him.

Elbert Senlour moved to this neighborhood last week. He is occupying the farm he recently purchased of T. L. Utz.

A large crowd attended J. L. Rouse's sale last week and everything sold for fairly good prices. Horses, $60 to $70;

WALTON.

A Ladies' Bazaar.—School Closed.—Prof. Dickey Out Again.—A Dangerous Kind of Sport.

Miss Alice Laws, who has been confined to her bed for 12 weeks, is much better, tho still unable to walk.

Miss Elenor Walsh came out from Covington on her regular Sunday visit to her father who is always in high spirits when she is about. He appreciates these visits and so do all her girl companions that get to see her.

Our new druggist has shown excellent taste in the decoration of his store. The front window is an attractive display for which his sprighlly young daughter has no inconsiderable credit She worked faithfully during the past week and her merit is acknowledged by all.

The Ladies' Aid Society of the Christian church will hold a festival on New Years eve., in the Opera House. It will be an up-to-date affair, and the Society will use every exertion to make it a success. The ladies are busy already in their preparations and the promise of an excellent table is a foregone conclusion.

The ladies of the Baptist church have opened up a bazaar in the building adjoining Edwards' livery stable. The place is trimmed with holly and other evergreens, making it very attractive. They have for sale many Christmas novelties and among other things the always appreciated confectionery and cookies that accompany the holidays.

Prof. Dickey is able to be about, altho he looks to be very weak, after a long spell of pneumonia. The school children had the news of his being out circulated all over town before he had gotten but a hundred yards from the house. He has certainly gained a very strong hold upon their affections, tho a rigid disciplinarian. He states that the school was closed on Friday for a vacation until January 5, 1903.

Letters received from F. E. Curley, of Tucson, Arizona, our late City Atty., states that Mrs. Curley has entirely recovered her health and finds it easy to do her house work, but she must stay in that region for all time. Frank has been advanced to the book keeper's position in the house of Wheeler & Perry, wholesale grocers and mine dealers, and has a salary that ensures his continuance in Arizona for the future. Success to him—a boy of Walton's good boys. As Jim Haven says, "he is a gentleman and a scholar, high larnt and deeply versed in arthmetic lore."

Some youngsters were amusing themselves in tying a tin can to a dog's tail. They are mischievous youngsters, but had they seen the sight of a dead mother and her little babe of four months which was the outcome of this same kind of a prank, they would never be guilty of it again. It caused a horse to run away throwing the mother and child out on the pavement. They were picked up dead. The horse, a family pet, had a broken leg and had to be shot. If the little fellows who amuse themselves in this way would think on this matter they would never do it again unless they were naturally too mean to live.

RICHWOOD.

The News of the Past Week Cut in to Short Paragraphs.

Dec. 22.—Rabbits and birds are as scarce as hen teeth.

Mrs. Sarah Robinson is some better.

Excelsior Grange held their regular election, Saturday.

A wedding for next week if Dame Rumor is not mistaken.

Cary Carpenter's two children have been poorly for a few days.

W. C. Clark, of Ludlow, was the guest of Ell Carpenter, Saturday.

Our roads are in a terrible condition owing to the incessant rains.

Wm. Woodward and family were visiting at John Carpenter's, Snuday.

Not a very large crowd at church at Zion, Sunday, owing to the weather.

Our chicken fancier was not able to appear before the grand jury, being on a visit to friends elsewhere.

An entertainment will be held at Richwood for the benefit of the orphans. Admission, 1, 2 and 3 potatoes.

milch cows, $20 to $45, and hogs went out of sight.

Mrs. Missouri Clegg lost two bottles of medicine, last Thursday, either at Florence or on the Union pike between Florence and the lower toll gate. The label has the name of Dr. W. M. Blowyer on it. The finder will please leave it at Dr. W. M. Corey's office in Florence, and oblige Mrs. Clegg.

L. H. Busby was the busiest man here the first few days of last week. He says he is here to accommodate the people, and will do so even if he has to burn some coal oil to do it. He was kept so busey one day he shod two horses all round by lamp light, but he struck the next day for an eight hour schedule.

J. L. Rouse has arranged to leave for his future home in the South, on the 6th of January. In his departure Boone county loses one of her best citizens. Your cor. has been associated with him in business and official church work, &c., and we can say to his credit that we have never dealt with a more agreeable and honorable gentleman, and we hope most ardently that success will attend him in his new home in Georgia.

HATHAWAY.

A Birth.—Some Corn Lost.—Personals, Etc.

Dec. 22.—A merry Xmas to all.

Born, to John Horton and wife on the 17th, a daughter.

B. H. Stephens and F. J. Rue were in Rising Sun, Thursday.

James K. Sebree went to Rising Sun last Saturday, to find Santa Claus.

G. N. Smith went to the city, last Friday night, with a nice bunch of furs.

Mrs. Harry Stephens was visiting her parents in Graut county, a couple of day's last week.

The firm of Houston & Weaver is headquarters for holiday goods, such as candies, nuts, oraueries, oysters, etc.

Your humble butchered hogs last Friday, and replenished his larder with plenty of fresh meat, sausage, &c., for the holidays.

Mrs. J. W. Ryle and daughter and Mrs. Lizzie Horton, of near Beech Grove, were visiting in Big Bone neighborhood last Friday.

The recent rise in the river put the back water up Gunpowder creek, and caused several of the farmers to hustle around and get their corn out of the way, but some few were caught and lost considerable corn.

We have a good story to relate for a new year, so let every body that is not taking the RECORDER begin with the new year, and if those who are taking it will call on the agent at this place, he will gladly receive and receipt for same, for there is no home in Boone county that is complete without the RECORDER.

UNION.

Mrs. Voshell Entertains.—Atheletic Club's Enjoyable Dance.—Other Society News.

Dec. 22.—Mrs. L. H. Voshell entertained Mr. and Mrs. Charles Beach, of Covington, Wednesday.

Miss Helen Dickey is home for the holidays.

Wm. Kennedy spent Tuesday and Wednesday at Corinth.

Miss Lula Jones, of Walton, spent Saturday with friends here.

Mrs. B. L. Norman entertained a few friends at dinner, Thursday.

Mrs. Cecil Hafer spent part of last week with her parents near Hebron.

Joseph Huey spent a part of last week in Gallatin, the guest of his grandparents.

Miss Bernice Johnson has returned to Verona, where she will spend the holidays.

Mr. Harriette Talliaferro has for her guest Mrs. Raymond McHatton, of Covington.

Mr. Hughes, the Bible agent from Glasgow, Ky., was delivering Bibles here, Saturday.

Ben Terrill left Monday for Covington, after two weeks' visit with Mrs. Terrill's relatives.

Fielding Dickey, jr., has been confined to his room for several days. Pneumonia is feared.

Miss Lottie Williams, of Covington, will spend Xmas with her parents, Mr. and Mrs. J. Williams.

Misses Nanule D. Bristow and Mae L. Norman were guests of Mrs. John Gibson Saturday and Sunday.

L. B. Dickerson was called to Kensington, Sunday, to see his mother, Mrs. Sara Dickerson, who is very ill.

The dance given by the Athletic Club, Friday night, was an enjoyable affair, and quite a crowd of young people was present in spite of the inclement weather.

The Richwood Presbyterian Sunday School will give an entertainment at Richwood church, Dec. 26, at 2 o'clock p. m. The proceeds to be sent to the Orphans at Anchorage, Ky. Admission, three potatoes.

The holiday festivities began Saturday with a surprise party given Mrs. J. N. Gibson by her church society. Twelve o'clock dinner was served by the ladies and the afternoon was spent with the usual excercises of the society. All left at a late hour having spent a most delightful day.

Two more Boone county couples crossed the river to be married. The last issue of the Rising Sun Local says:

Mr. John E. Louden and Miss Minnie Batchelor, of Boone county, were united in marriage Tuesday Dec. 16th, by Rev. L. S. Knotts at the M. E. parsonage.—Mr. Lucian Steveus and Miss Lena B. Rector, of Boone county, were united in marriage Wednesday, Dec. 17, by Rev. John Henry at the Presbyterian parsonage.

PETERSBURG.

Tobacco Buyers on the Move.—Uncle Henry Crisler Hurt.—Five Additions to M. E. Church. Other Newsey Items.

Two towboats passed here the other day with 60 barges of coal.

Ben Passons is in the employ of an electrical company in Cuba.

All the medical and dental students are at home for the holidays.

Miss Bessie Glass, a very handsome young lady, is at Mr. Belden's.

Some of the boys were rather premature in their holiday celebration.

Malcom Chambers is keeping books for a large concern at Beanmont, Texas.

Miles Ellis McCright was married a few days since to Lewis Christian, of Alabama.

A merry Christmas to the entire Recorder force, including the Thomas cat under the stove.

W. T. Stott will be found behind the counter at Berkshire & McWethy's store during the holiday rush.

Miss Gene Berkshire is home from a visit to her sister at Chilicothe, Ohio. Her sister came with her.

W. T. Stott will be found behind the counter at Berkshire & McWethy's store during the holiday rush.

While trying to land some runaway barges, one day last week, a colored man was drowned just below town.

The brick house in which Louis Terrill lives at Lawrenceburg ferry, is said to have been built 111 years ago.

A newspaper correspondent gets more abuse and less praise than any other person on God's green earth.

Mrs. Frank Baker and two little sons have gone to Kokomo, Indiana, where he is at work in an autobile factory.

Ed Nixon, son of Ennis Nixon, Mrs. Edna Sullivan, daughter of H. T. Sullivan, will be married on the 24th inst.

Bernard Berkshire and Barney Sullivan are engaged in the fur trade. They made a big shipment a few nights ago.

Bernard Berkshire has returned from a visit of two weeks in Chicago. He says that city is entirely too swift for him.

Geo. Weindell, our representative in the U. S. navy, is now at Trinidad, Pt. Spain, where he says it is 94 in the shade.

The Gay Widowers' Society initiated a new member at its last regular meeting—Louis Messmer, of Woolper Heights.

News has reached here that Uncle Henry Crisler fell at the home of his daughter, Mrs. Rice, at Mexico, Mo., a few days since, and broke his hip.

Our tobacco buyers have been on the move for several days, and the growers have disposed of considerable of the weed at prices ranging from 5½ to 7 cents a pound.

Marion Bruce struck a run of bad luck last week. One day his best cow died; the next a large hog turned up its toes, and the day following his son cut the ends off of three of his fingers.

The Christmas tree at the Methodist church will be on Christmas eve from 6 to 8 o'clock p. m., when the exercises will close, giving all an opportunity to attend the supper given by the Christian Sunday school that night at Gordon's Hall.

Mrs. Ira Theetge, who feel and broke her arm and crushed her hip during the recent sleet, will not recover, and realizing this fact, she requested that her daughter be married at her bedside, and Rev. Early was called and her daughter, Miss Dot and Mr. Burris were married.

The protracted meeting at the Methodist church closed last Friday night with five additions, viz: Dr. Weindel and wife by letter; Mrs. Black Pease, Miss Catharine Cook, Charles Black, Ed Keim and J. B. Tolin. Rev. Chatham was the pleasantest and most liberal minister that ever preached here, and his work will result in much good.

The Petersburg adjunct of the Recorder would like for Philip of Alexandria to make him a call during the holidays. We have no watermelons on which to feast him, but corn bread, kraut, souse, hominy and sausage are abundant. We know he is sighing for a shight of the old home and the bridge of which he spoke so feelingly.

COMMISSARY.

All kinds of Weather.—Mail Matter Mixed.—Holiday Festivities Begun.—McVill Ferry Boat Waiting Repairs.

Dec. 22.—We are having all kinds of weather; but in one sense only one kind, and that is very bad.

As Friday of last week was a nice day Jack Walton killed his hogs, 6 in number, which yielded 66 gallons of lard.

John Weisickle and Henry Raines sold their tobacco to Conner & Hogan at prices that averaged—Weisick, 7c. Raines, 6c.

The regular mail carrier being off of duty, last week, mail matters got considerably mixed up, but this week everything was righted.

William Slayback and mother went to Aurora, Saturday, to do their Xmas trading, and when they returned their wagon was loaded.

Several of the elite in the vicinity of the Commissary have received invitations to the ball at Petersburg on Monday night of this week.

Ransom Ryle and wife thank their many friends and neighbors for their kindness, sympathy and assistance during Mrs. Ryle's sickness.

Sandford Bros. are doing a paying business with their skiff between Belleyue and Rising Sun. They will do extra well for the next two weeks.

Bro. White, your uucle keeps one eye on me, and I keep my two eyes on Billie. If I don't get the pies and cake I will certainly say something.

At Bro. Nooe's last regular meeting in Bellevue, two united with the church, one of them coming from the Baptists and the other from the Presbyterians.

Strayed—A sow and 2 shoats belonging to Will and Hugh Arnold. Any one knowing of their whereabouts will please report to Arnold Bros. or Acra at the toll gate.

John Ed Louden and Miss Pearl Bachelor, of McVille, were married in Rising Sun, last Tuesday evening. They are a worthy young couple and have my best wishes.

Mrs. T. J. Walton went to Erlanger, Friday, for a few days' visit among relatives, and upon her return T. J. will visit at the same place, accompanied by the little b. j.

James Louden, of McVille, requests me to state that his ferry boat is undergoing repairs, and will be ready to run in about a month. Notice will be given when it is ready for business.

The party at Eugene Kelly's, last Tuesday night, was not a success in as much as the ladies who intended to be present did not attend. Bro. Albert, I extend you my heartfelt sympathy in your disappointment.

Last Tuesday J. S. Clore, of Waterloo, passed through the Commissary accompaning Mrs. Sims, of Goiconda, Ill., a relative of the Clores, too Noah Clore's at or near Florence. Mr. Clore returned Wednesday and stopped for a few minutes chat. The talented and accomplished Misses Birdie and Daisy Rouse, of near Milan, Ind., will be guests of Mr. Clore and family Xmas.

I took another swing around the circle, yesterday, and had a very enjoyable time. My first call was on Bro. Cy Kelly. Mrs. Kelly had been spending a few days at his brother Ben's, who had just brought her home. Bro. Cy had dinner ready when we arrived. Women who can cook equal to him are scarce. After dinner a couple of hours were spent discussing politics and religion. Bro. Ben has an adjustible tongue, and when discussing politics and universal salvation, he hangs it on a pivot in the middle and lets it wag at both ends. He gave me an invitation to spread jelly with him some day, and I shall certainly honor the invitation. As Bro. Ben went home I rode with him as far as McVille, where I called on a couple of friends a few minutes. As I returned home I called on Bro. Jack Snyder a few minutes. He is the most accommodating man I ever met—will discommode himself to accommodate a friend. Thanks, Bro. Snyder, for compliment last week. I shall strive to be worthy. I will enter the new year resolved to do all I can to increase the circulation of the Recorder, and to make the Commissary column as newsy and spicy as possible. Hand in your subscriptions and begin with the new year.

BEAVER LICK.

Several of Our Young Men at Home from the West.—The Weather a Drawback to Farmers.

Dec. 22.—Reuben Brown, of Livermore, is visiting our fellow townsman, William Brown and family.

B. B. Hume, wife and daughter, were visiting friends in Verona, last Sunday.

Rev. H. R. Mills filled his regular appointment at Bigbone Springs, last Sunday morning and evening, at the Spring Hill chapel.

Well, here's a merry Xmas and a happy New Year to the Editor, correspondents and readers of the ever welcome old Boone County Recorder.

The weather in this locality, the past month, has been very disagreeable and farmers have been greatly inconvenienced trying to do their winter work.

Quite a number of our farmers, their wives, their sons and daughters and their sweet hearts, visited the city this week and laid in a large supply of Christmas goodies.

Jerry Carr and William Brown, two of our enterprising huxters, doubled teams last week and brought out a manmoth load of Christmas "toys" for the Mercantile Co.

A. F. Pullilove and wife were the recipients, one week, of two magnificent Christmas gifts in the form of two $50 checks, signed by her brother, Dan'l J. Grigsby, of Jeffersonsville, Texas.

Several of our sturdy young men, who have been spending the past year out in the Western country, are taking advantage of the holidays, to pay their relatives a visit at home once again.

Mrs. Almira Conly and her pretty daughter, Addie, moved to Covington last week, where she has four sons engaged in the telephone business. John Snow moved to her farm and will attend to it the incoming year.

RABBIT HASH.

Quite a Lot of Wreckage Landed.—Entertainment at Mapil Hill.—Supper by the Masons.

Dec. 22.—A merry Christmas and a happy New Year to the Recorder and its host of friends and "fellow quill pushers."

Sam Wilson draws the "lying" on tobacco strippings.

Z. T. Kelly, wife and son are visiting relatives in Covington, this week.

Miss Bettie Dolph will give a school exhibition at her school at Maple Hill on Christmas eve.

Mrs. Irwin Balsley, of Kansas, has been visiting Mrs. Z. T. Kelly, of this place, the past week.

Bellevue lodge, 544, F. & A. M. will have a supper on the 27 of Dec. Masons and their families are invited to attend.

G. H. Keeney, of Rising Sun, surveyed the Carlton estate here last week in the interest of B. W. Nelson and W. O. Ryle.

Quite a lot of wreckage was landed by the boys here, which was broken up at Cincinnati during the recent rise in the river.

Called on Scott Kelly, the young tonsorial artist of Bellevue and spent a pleasant half hour in his neat little shop at his father's store. Scott is a deserving young man and bids fair to succeed in his occupation of barber at that place.

BELLEVUE.

Two Funerals in One Day.—Additions to Christian Church.—Tobacco Buyers Around.

Dec. 22.—Tobacco buyers are calling on the growers.

Prices for corn range from 38 to 40 cents a bushel.

Not much stir occasioned here by the proximity of the holidays.

O. N. Grant was in the city, on last Monday, purchasing holiday goods.

Dave Akin is progressing nicely with the work on John Rogers' new house.

Joe Birkle will devote this week to supplying his customers with holiday turkeys.

Miss Minnie Clore and James Smith and wife visited friends in Newport, last week.

Orin Philpps was around last Saturday, collecting his holiday purchase of turkeys.

Mrs. Elizabeth Sims, of Goiconda, Ill., is visiting her relatives out on Clore's Ridge.

James and Al Rogers purchased the mare and two colts, and Oscar Hodges, the work horse, at Mrs. Belle Clore's sale.

Rev. James A. Kirtley, jr., occupied the Baptist pulpit here last Sunday. He is an earnest and pleasant speaker.

Capt. Rol Akin's little daughter, who has been confined to her bed with typhoid fever for a month or more is improving nicely.

Bro. Nooe received two additions to the Christian church, at his last appointment here. He will be with us again on the second Sunday in January.

Miss Ernie Marshall, of Indmana, attended Sunday school at the Christian church, last Sunday. She is a daughter of our old friend and schoolmate, Thomas A. Maeshall

Clay Hensley, of Petersburg, looked at several crops of tobacco out on Middle creek, last Saturday. He bought one crop. Considerable tobacco out there is not stripped.

The sisters of the Christian church have about completed three quilts, one of which they have sold, and have the other two for sale. Those wanting anything in that line should see them. They are made nicely, of new material and proceeds go for benefit of church.

Two funerals here last Friday. One was that of Robert Henry Ingram, an old schoolmate and relative of many persons in this neighborhood. He died at his home in Cincinnati on the 17th inst. The remains were interred in the old cemetery. He leaves a wife, one daughter and two sons, who have the sympathy of all. The other funeral was that of the infant child of Ransom Ryle and wife. It was buried in the new cemetery.

IDLEWILD.

Society News Gathered During the Past Week by Our Worthy Correspondent.

Dec. 22.—Scott Chambers has moved to this neighborhood.

Messrs. J. B. Winston and B. R. Gaines are on the sick list.

Chas. A. Gaines is paying 9 cents a pound for Christmas Turkeys.

Mrs. George Walton visited her mother at Sand Run, Monday.

Bernard Gaines at home from his school in Covington to spend the holidays.

Our merchant has a full supply of holiday luxuries. Spend your money with him.

R. C. Gaines sold a crop of nice tobacco to Thompson & Wingate at 7½ cents a pound.

Mrs. Geo. Kreyleich entertained very handsomely, last Thursday. Covers were laid for 20.

Mesdames N. S. Walton and J. A. Kirtley were guests of Mrs. Thomas Grant, a few days since.

Bullittsburg church has two air-tight heaters, which will prove generous with their warmth to all visiting friends.

Dr. Alfred Chambers, of Ludlow, is going to Texas, where his brother Malcolm is conducting an extensive lumber business.

Miss Beulah Gaines' sojourn at Denver, Colorado, is proving very beneficial to her health, and it is hoped that climate will cure her.

Mrs. John S. Gaines, of Denver, Colorado, has returned home, her father, Mr. John Stepheus, having about recovered from his recent serious illness.

Miss Dora Huey went to Bellevue, Sunday to meet Rev. Jas. A. Kirtley, jr., who preached that day for Rev. Atwood, who was visiting his home in Southern Kentucky.

Mrs. A. E. Chambers is entertaining her sister, Mrs. Senior, of Toronto, Canada. Mrs. Chambers will move to Petersburg, shortly, where she will make her home with her daughter, Mrs. Atkinson.

After a pleasant visit with her many relatives and friends here, Miss Sadie Kirtley has returned to her home in Carrollton, very much improved in health, and her friends hope the improvement will prove permanent.

When Buford Terrill took the old 'bus away, we felt like another old friend had left us, that another strong tie of the past was broken. It was the premium 'bus at one of the Cincinnati expositions, and was bought by Alfred S. Gaines for $400 thirteen years ago. We would prefer being without any of the modern improvements than the dear 'bus, and we wish the new carrier, Mr. Grant, success.

The sisters of Hullittsburg had arranged to celebrate the wooden wedding of Pastor Sproles and wife during the holidays, but as Mrs. Sproles had planned to visit her parents in Tennessee, the affair was postponed, but will occur when they move to their new home in Burlington. The sisters in Burlington church and all friends are cordially invited to take part with us in the celebration.

The Gift Of the Child

ONCE more, once more we read it, the Christmas story dear,
And yet once more we tell it; all eagerly we hear,
The years haste into centuries, the centuries grow old,
Till never once too often is the blessed story told,
And never once too often do we talk of that strange night
When humble shepherds witnessed the angel's southward flight;
And ever our thought grows weary tracing the sacred way,
That leads us to the manger where Mary's baby lay,
To Him whom wise men worshiped brought gift of peace for strife,
Brought joy for sorrow's darkness, brought hope and love and life.

Wherever watching mothers pray for their babes to-day,
The precious lives are safer because of One that lay.
Homeless in the manger two thousand years ago;
Where earth's babies slumber since that dear head lay low,
Where'er beside the cattis, watched by the angel throng,
While heavenly hosts were singing the first glad Christmas song,
Wherever hearts grow weary, wherever sin abides,
Whatever be our anguish, whatever woe betides,
The darkness would be deeper, pain harder to be borne,
Had Heaven had forgotten to send that Christmas morn!

Once more, then, let us read it, the Christmas story dear,
And yet once more repeat it that other hearts may hear,
The years haste into centuries, the centuries grow old,
Once again hearts hunger to have the story told.
Let the dear little children about that wondrous night
Seen watching shepherds witnessed the angels' earthward flight,
Keep feet that long have wandered, into the better way
At least lead them to the manger where Mary's baby lay,
Tell He whom wise men worshiped brought gifts of peace for strife,
Christ was born from Heaven that mortals might have life.

MISS CYNTHIA'S CHRISTMAS

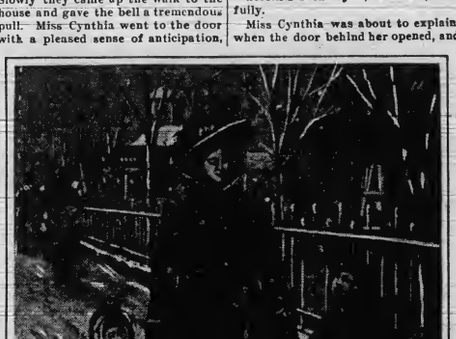
By ISABEL WILLIAMS.

MISS CYNTHIA MARSH sat alone—a not unusual thing in these days, and as her sharp blue eyes roved over the family room, a strange feeling of desolation stole over her. In vain she reminded herself of hard facts that had heretofore given her satisfaction; she was the richest woman in Dalesburg, her house was the largest and most imposing, her clothes the finest and most fashionable and yet—

She got up impatiently and, going over to the window, pressed her face against the pane and looked out into the December dusk. Muffled figures passed and repassed, carrying bundles of all shapes and sizes, for it was Christmas eve, the night sent queer little thrills through Miss Cynthia and a great load seemed to settle on her heart. She had no one to buy gifts for, she told herself, and no one cared enough for the lonely old spinster to even give her good wishes.

It had not always been thus. She recalled the many, many happy Decembers she had enjoyed when Sidney Bruce, her nephew and only living relative, had lived in her house. She had taken him to live with her when he was a small boy, and her love for him had grown into a mild idolatry by the time he had become a man. They returned her affection with all the strength of his loving heart until he wanted to marry Edith Blake. Miss Cynthia had other plans for Sidney, and refused to even discuss Edith with him, but Sidney was very much in love and cared not a farthing that Edith was poor and a sort of upper servant in his aunt's house. Edith was a peace-loving girl who found the situation almost more than she could bear, for Miss Cynthia had taken her in as an orphan, six years before, and had been like a mother to her ever since. Edith loved Miss Cynthia dearly, but loved Sidney more, and one December day she went away with him and was married.

Miss Cynthia did not rave or storm; she simply ignored the existence of the youthful pair, and Sidney, reared in luxury, had to go to work at anything he could find to do. He had always tried to support himself and never he had Edith to love and cherish and support in addition.



Miss Cynthia changed into a cold, hard woman, and was filled with bitterness when her oldest friends openly sided with Sidney and Edith. The latter took a small house, not a great distance from Miss Cynthia's, and were happy but very poor. Sidney met many discouragements succeeded in obtaining a situation in a large store as assistant bookkeeper, but times were hard and the pay pitiful.

Miss Cynthia watched from her parlor window and saw Sidney go past day after day to his work, and her heart hardened, for apparently he never glanced at his old home as he passed with averted eyes. Miss Cynthia had ample opportunity to witness how thin and careworn Sidney had grown and how shabby his clothes were as time went on.

It was six years now since Sidney's marriage, and Cynthia had not relented nor had Sidney asked aid, although there were two little children, and Edith was nearly blind with an affliction of the eyes.

Miss Cynthia's heart yearned for those children, and whenever she passed a group of neighborhood little ones, her sharp eyes peared into each small face trying to discern which were the Bruce children, but she had never felt sure of their identity. Her heart was unusually tender on this Christmas eve, and for the first time she wondered if she had not been too hard upon Sidney and Edith. She had missed Edith's willing service many times in the past few years, and there had been no one to take her place in Miss Cynthia's household. She strained her eyes into the gathering darkness to see Sidney pass on his homeward way, but it was impossible to distinguish him in the hurrying throng. It was snowing a little now, and it was some time before Miss Cynthia noticed two little figures going along the sidewalk, hand in hand, laughing and shouting with glee. The fence in front of Miss Cynthia's yard was an iron one with the bars set some distance apart, and the children paused and pressed their faces between the pickets, gazing into the lighted house.

The room in which Miss Cynthia stood was still in darkness, and she could see them quite plainly but remained herself unseen. The children whispered together, then with hesitating steps came forward toward the gate and opened it with some difficulty. Slowly they came up the walk to the house and gave the bell a tremendous pull. Miss Cynthia went to the door with a pleased sense of anticipation,

"NOW CHILDREN TAKE ME TO YOUR HOME."

for it was seldom children came to the solemn old house. When the heavy door swung open, the children almost fell into the hall, as they had been leaning against it, wiping the snow from their little shoes.

"What do you want, children?" asked Miss Cynthia, assisting them to regain their balance and closing the door behind them.

They looked at each other timidly, their eyes growing large and solemn. The smaller, a little girl, put one fat finger in her mouth and looked up at Miss Cynthia searchingly.

"We have run away, and we liked this pretty big house, and I told sister we'd come and see who lived here," said the boy, boldly.

"Run away!" repeated Miss Cynthia, in shocked surprise; "that was very, very naughty; can't you tell me where you live?"

"It's just 'round some corners, and we ain't afraid, are we, Jean?" demanded the boy.

Jean shook her head and seated herself in a small chair that stood in the hall, with great calmness and deliberation.

"I like your house!" said the boy, thoughtfully; "it's got soft floors, and feels like you was walking on pillows," stepping around on the rich carpet with evident enjoyment.

"Haven't you any carpet on your floors?" asked Miss Cynthia, tenderly.

"No, only in two rooms, mamma's and the sitting-room. We used to have, but papa had them sent away, and asked us not to tell dear mamma, 'cause she might cry," answered the boy, looking into Miss Cynthia's face, gravely.

"Is your mamma sick?" asked Miss Cynthia.

"Yes, she's awful sick, and has to stay in a dark room all the time. She never laughs 'cept when papa's there; then she acts so happy, and told us once not to tell him that she moans when he's gone," said the boy.

"And who cares for you and Jean?" asked the woman, quickly.

"Just Mary; she washes the dishes and cooks our dinners and scrubs, and washes our clothes, and irons 'em, and —oh, yes—plays with us," answered the boy, joyously, while Jean smiled approval.

Miss Cynthia shuddered, and drew him to her arms, while Jean hitched her chair closer and leaned against the woman's knee.

"I'll tell you something, she said, softly; "to-morrow's Christmas."

Miss Cynthia's smile was so loving, her best friend would scarcely have recognized her.

"Is it, dear; will Santa Claus go to your house?" she asked, gently.

"No, this year. Father says he can't come every year to our house, 'cause we mustn't be selfish. Some little children never had a Santa Claus come," said the boy, his eyes shining with sympathy for the Santa Clausless children he spoke of.

A great resolve was forming in Miss Cynthia's heart. She would take these children to their home, and then send them such a Christmas as they would never forget. She could not do it for Sidney's children, but here were two little waifs who could take their place. Hastily she donned her hat and sealskin coat, and taking a hand of each wondering child, went out into the night.

"Now, children, take me to your home, and when I have explained your absence to your Mary, I'll hunt up Santa Claus and send him around to your house," she said, as they went down the steps.

The boy pulled her along the snowy street, talking so rapidly all the time of what he wanted Santa Claus to bring that Miss Cynthia did not notice which way they were going until they stopped before a small house on a dark street. Around the side of the cottage the trio went, and the boy opened a door noisily into a poorly-furnished dining-room. At the sound, a young Irish girl rushed in and clasped the truants in her arms.

"Oh, you naughty ones! Mary's been so worried, and the poor mother —herself's been cryin'," she said, tearfully.

Miss Cynthia was about to explain, when the door behind her opened, and Sidney Bruce stood there, staring in amazement.

"Aunt Cynthia!" he gasped.

Miss Cynthia turned, and all the hardness of years melted from her heart. "My own boy!" she murmured, laying her hand on his arm, and gazing into his face as if she could not gaze enough.

"What does it mean?" the poor fellow said; as he noticed the children run forward and cling to her skirts.

She told him all, and he listened wonderingly until she finished, when he drew each small figure to his breast and kissed them, with tears in his eyes.

"Let me go now to Edith, while you get the children ready, and then we shall go home. Don't refuse me, Sidney; I know I don't deserve your forgiveness, but I'm getting old and I need you all—every one," Miss Cynthia pleaded, tremulously.

Sidney pointed to the door of Edith's room, and Miss Cynthia entered. What the two women said will never be known, but an hour later a carriage drove up and the Bruce family entered and were driven home.

Miss Cynthia never did things by halves, and that Christmas was one of joy, not only to her own family, but to many others, for happiness opened the way to all her treasures, and Miss Cynthia opened her heart and hand and gave lavishly to the poor.

The children found that Santa Claus knew the way to Aunt Cynthia's, and that was sufficient for them. They did not think, as their elders did, of the words, "A little child shall lead them."

STRIKES PROTECTION.

Iowa's Governor Says There Are No Sacred Schedules.

Dissects from Hanna's "Stand Pat" Maxim—Favors Mutual Trade Treaties for the Good of the Entire People.

At the afternoon session of the National Reciprocity convention in Detroit, Wednesday, December 10, Gov. A. B. Cummins, of Iowa, spoke on the subject of "Reciprocity and the Tariff." He began his address by assuming sole responsibility for what he might say. He said he should deal with reciprocity as a partisan doctrine because it presupposes the existence of a system of duties on imports levied primarily either to restrict commodities which it embraces. Of the policy or principle of protection as it is applicable in tariff schedules he said:

"To the former my tribute is without reserve and my eulogy limited only by my capacity to praise. Concerning the latter, it is true, as it is of other just principles of government, that we may have made some mistakes and are probably perpetuating some duties originally excessive and some that have become so by the mutations of time and circumstance.

"In a country like ours its legislative bodies move only as impelled by the sentiment of the people. I rejoice that it is so, because when the people cease to actually determine broadly the lines upon which the government shall proceed and some merely to acquiesce in the leadership of their representatives, free institutions will have perished from the face of the earth. The weakness of reciprocity is found in the fact that it has never formed the basis of a political campaign and therefore public sentiment has never yet been crystallized upon it. Little or nothing can be accomplished until we are willing to approach tariff schedules in precisely the same spirit that we approach any other subject of legislation. So long as the controlling minds of congress insist that the welfare of the country demands that the tariff be let alone there is no hope for practical or substantial reciprocity.

"There are many ardent advocates for reciprocity who believe that tariff schedules should be changed only through reciprocal treaties. I am not one of them. It seems to me manifest that a prerequisite to any material or important reciprocal tariff is a willingness to adjust, whenever fairly required, our exclusive tariff to the conditions of the time. Reciprocity will never win its way until we are willing to treat the tariff rationally instead of hysterically, and the first step in the process is to be willing to make such changes as from time to time may be necessary to bring tariff schedules into harmony with the principle which vindicates their existence."

Scouts "Stand Pat" Maxim.

Gov. Cummins expressed his disagreement with Senator Hanna's maxim of political economy: "Stand pat and let well enough alone," and continued:

"I am unalterably opposed to readjustment for light or trivial reasons. Changes should never be made unless it is clear that duties are too high or too low. Laws of all kinds should be as permanent as human affairs will permit them to be and I beg you to bear in mind that the proposition with which I began and with which I shall end is that tariff schedules, like all other laws, are to be made, unmade and remade according to the public needs and that we are not to be warned off by the cry that we are on holy ground and that the sacred vestments of the high priests are not to be touched by profane hands.

"There are duties, notably in the iron and steel schedule, although not confined to it, which are wholly indefensible, which no man will ever attempt to defend and which are as much at war with the real object of protection as free trade itself. They can be greatly reduced and still the American manufacturer will occupy the whole American market, pay the highest American wages and be rewarded with an ample American profit, and therefore they ought to be reduced—not years hence, but now. There are materials which our experience has shown us should be admitted free, simply because they would give our people more work to do in preparing them for their ultimate uses, and it should be done—not years hence, but now. This is not the time to enter into detail, for what I have said is not denied."

Argument from Prosperity.

Stating that the argument most frequently heard against touching the tariff usually begins with a statement of the prosperity of the people of the United States, Gov. Cummins said:

"It is a slander upon the fundamental truth of the world to say that the prosperity of the people ever has been or ever can be impaired by doing what is right and just and fair. What evidence is there to sustain the assertion that a correction of the grossly excessive duties would hasten the days of extreme commercial activity to a close?

"Nor are the advocates of making the tariff forever immune from examination or change altogether consistent. Roosevelt boldly insists upon the abolition of the duty upon anthracite coal, and I doubt not that the men who so stoutly demand that tariff schedules should be exempt from legislative interference will be quick to assist in the removal of the duty of 67 cents per ton upon the commodity. Roosevelt likewise urges the reduction of the duty upon Cuban sugar and tobacco, and it is easy to see that if Cuba wants the reciprocity treaty it will be made. I shall rejoice when these things are done, but I have been unable to suppress the inquiry whether the duty on anthracite coal is more burdensome than some other duties which have excited public comment, and whether the treaty with France is not as meritorious as the treaty with Cuba.

"It is also urged that if some duties are too high that they do no harm, and that the injury inflicted upon the country by an attempt to reduce them will be greater than the good that can be accomplished by the reduction. If this argument be sound, then we should hesitate long before we touched the subject at all. It is not, however, supported by the facts as they are known to exist. If competition were effective in every field of industry excessive duties, generally speaking, would do little harm, but it is a matter of common knowledge that in some commodities the force of competition has either been wholly eliminated or seriously impaired, and with respect to such things whenever there is a full demand at home it is possible for the home producer to raise the price to the point of extortion, and in many instances at this moment the possibility has become a reality and buyers and consumers are now paying more than a fair price for what they buy and consume."

Definition of Reciprocity.

Expressing emphatic dissent from the doctrine of maintaining tariff duties higher than they should be simply to give opportunity to reduce them through the medium of reciprocity treaties Gov. Cummins analyzed the doctrine of reciprocity, saying:

"The truth is that, considered as economic principles, protection and reciprocity are not only widely separated, but are the exact opposites of each other. We ought to understand that in the domain of competitive commodities reciprocity does not sustain, but destroys, protection. Protection is intended to practically exclude importations upon the subjects that it embraces by giving to the home producer an advantage in the home market. Reciprocity, to be of any advantage or to operate in any substantial degree, is intended to encourage importations in the subjects it embraces and to give to the importer at least an equal chance in the markets. Obviously I am not now speaking of reciprocity in the importation of those commodities which we do not and cannot produce. These commodities are already largely on the free list and there is but little opportunity to promote reciprocal treaties in those things which by nature we must import.

Effect of Prosperity.

"The real controversy respecting reciprocity lies in the field of competitive production, actual or potential, and it is my desire at this time to bring the questions which there arise so clearly before the minds of the people that they will consider them understandingly and decide them according to the very spirit of the matter. There are some things that must be assumed in the investigation of any subject.

"1. That reciprocity treaties will be negotiated with intelligence and patriotism on both sides. It is always gratifying to our pride to believe that we are a little better, clearer sighted and more honest than the people of other countries, but it is not safe to proceed upon that hypothesis with respect to commercial treaties.

"2. We must assume that any such treaty or bargain will have the effect of restricting to the United States competitive commodities upon better terms than heretofore they received; that is to say, upon such terms as will enable the foreign producer to at least fairly compete with the home producer, and therefore it is not only probable but reasonably certain that any such arrangement will result in diminishing the output of the home producers in those things upon which our duty is reduced or removed.

"The conclusion is inevitable that in the great majority of cases a reciprocal treaty respecting competitive commodities would interfere and injure some home producer or producers, and if that fact be a bar to the operation of the principle let us at once abandon it. I for one, however, am willing to be counted among the ranks of those who believe that this consequence is not a bar and that great public policies should not be viewed from so narrow and illiberal a standpoint. The purpose of any such treaty on our part would be to open up a new market or enlarge one already discovered for our products, and if those who are charged with the responsibility of making in our behalf a commercial trade are of the opinion that, upon the whole, the market thus opened up or enlarged to us will take more of our products, measured by the labor required to produce them, than the new competition admitted to our shores will obliterate, then we should make the trade.

Public Good the Test.

"You will observe I am putting it narrowly. I intend by this illustration to embrace all the indirect advantages or disadvantages which, according to the best judgment of man, would flow from the proposed relations. If it be, as undoubtedly it is, the purpose of all interference with the laws of trade to increase the business of the country which enacts the laws, and thereby give employment to a greater number of its people, then it is difficult to perceive the ground upon which there can be fair opposition to the principle of reciprocity. The trouble is that whenever a concrete instance arises the attention of the people is drawn not to what we gain, but what we lose. They see a vision of dismantled factories, but they do not perceive the new homes of industry springing up to meet the demands of the markets which we acquire.

"Why is it that this distorted notion of the doctrine has so constantly prevailed? To me it has seemed that the reason is to be found in the fact that in the congress of the United States there oftentimes prevails a courtesy which ignores the public good. It is wholly natural that the tariff, expressed along protection lines, takes on a local tinge. And here again I reach the substantial difficulty of the whole subject. The tariff is not and must not be a local question. In all the history of our country I have never known of an instance in which our legislative tribunals did not faithfully respond to the will of the people when once that will was aroused and expressed. And so it will be with regard to reciprocity. Whenever the people take up the subject congress will take it up also, and whenever the people pass upon it congress will register the decree.

Argues Against Local Interest.

"Every student of the subject knows that we can make a treaty with Canada that will give us more work to do in the United States than we have now, and the time will come when the adoption of any such treaty will depend not upon the will of any state or of any district, but upon the centralized, unselfish, righteous will of all the states, exercised for the welfare of all the people. Every student of the subject knows that the treaty with France, negotiated upon our part with consummate ability by one of the most capable and patriotic statesmen of his age, will give to the people of the United States more work in producing things that will be exported under it into France than it will take away from them on account of the things imported under it, and when the people adequately understand this it will be more difficult for those who are interested in a special industry to prevent its passage through the senate than it is now.

"I again appeal to the sentiment with which I began, that our tariff laws, whether it is proposed to change them by direct legislation or through the medium of commercial treaties, must be examined, discussed, amended, in exactly the same spirit which imbues our legislators in examining, discussing or amending any other law. The people will never, under any circumstances, forgive the man who exerts his influence to so amend these laws as to deprive the workingmen of the republic and those who come after them of a single day's work. On the other hand, they will be just as swift to punish and exile those who, through fear or favor, fail to so amend and change our tariff laws as to give these men and their posterity more work, a greater field for their energies and a better opportunity in the struggles of life."

—We are yet as a people to learn the precise bearing of extreme tariff legislation upon the industrial prosperity of the country. Five years of experience under a particular tariff determine nothing and ten years of experience cannot be held conclusive as to its enduring prosperity producing effects. It will probably be seen by everybody before many more decades have passed that panics and industrial depressions result from waves of excessive speculation and that a high tariff enactment, in fostering speculative commitment on an artificial loaning, as it certainly does, tends to produce the conditions that make panics possible and not to avert them.—Springfield (Mass.) Republican.

—The administration's consuls are learning that the high-protective tariff taxes American consumers and enables European consumers to purchase American articles at low prices. Light will dissipate the "protection" night. When it does the democrats will be in Washington, victorious and pledged to tariff reform.—St. Louis Republic.

There are plenty of people who have become depressed and discouraged, because that dry, hacking cough hangs to them continually. They have taken much medicine, mostly of the advertised quack sort, nothing like Dr. August Koenig's Hamburg Breast Tea, the discovery of a noted German physician. We do not say that this will cure a case where the lungs are badly diseased, for it will not, and up to this date, there is nothing that will cure under these conditions; but on the other hand, if the lungs are not hard hit, the patient should take Dr. August Koenig's Hamburg Breast Tea, a cup full every night on going to bed, have it hot, drink slowly, then every other night, rub the throat and top portion of the lungs with St. Jacobs Oil, cover with oil silk, let it remain an hour, then remove. Eat good, plain, nourishing food, live in the open air as much as possible. By all means sleep as near out of doors as possible, that is, windows wide open, except in the very severe weather. Take a cold sponge bath every morning; then immediately rub the body vigorously with a coarse towel. Take Dr. August Koenig's Hamburg Drops every other day according to directions. One can buy the three remedies for $1.25 of any reliable druggist. Begin the treatment at once, and see how much better you will be almost within a week's time.

Miss Alice Bailey, of Atlanta, Ga., tells how she was permanently cured of inflammation of the ovaries, escaped surgeon's knife, by taking Lydia E. Pinkham's Vegetable Compound.

"I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it inflammation of the ovaries, and proposed an operation.

"I felt so weak and sick that I felt sure that I could not survive the ordeal. The following week I read an advertisement in the paper of Lydia E. Pinkham's Vegetable Compound in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, and in the end I was cured by it. I had gained eighteen pounds and was in excellent health."—Miss Alice Bailey, 50 North Boulevard, Atlanta, Ga. [Only part of original of above letter proving genuineness cannot be produced.]

The symptoms of inflammation and disease of the ovaries are a dull throbbing pain, accompanied by a sense of tenderness and heavy bearing down in the side, with occasional shooting pains. The region of pain sometimes shows some swelling.

PRESIDENT INGALLS.

Watterson Lauds Head of the Big Four Railway.

Extracts from an Editorial Article in a Recent Number of the Louisville Courier-Journal.

The Social Service Magazine has an essay upon the ruling conditions and current outlook in the United States from the president of the Big Four railway system, which, says Mr. Watterson, in the Louisville Courier-Journal, is so suggestive, and drawn upon lines so Jeffersonian, as to invite the serious attention of intelligent readers and to justify more than passing comment. Mr. Ingalls is a democrat. Born, like so many successful Americans, a farmer's boy, he has merged the man of affairs enough with the man of books to evolve in one and the same personality both the thinker and the actor upon the stage of real life. Whatever he says is weighty because it springs from a mind richly endowed and highly trained, and fortified by varied experience.

In this latest contribution to the reservoir of contemporary thought, Mr. Ingalls recognizes the revolutionized elements no less than the momentous problems with which we have to deal. Upon the very threshold of the new century, as he clearly points out, political events and business conditions are crowding each other so fast that we stop and wonder what is to happen next. New developments, new methods, new conditions, new obligations, are upon us. To many the clouds in the horizon have an angry look and they fear for the future of the nation. While optimists, like Mr. Ingalls, may not share their fears, they agree that the national safety depends upon the virtue and integrity of our citizens, and it is just as well to look the situation over and make up our minds as to what should be done to meet the danger, if there be any. In fact, there is nothing better for an individual or a community than to stop and think. We rush along in our mad race, heedless of the future. To many people the close of the nineteenth century and the opening of the twentieth is not full of promise for the higher ideals of life; it seems to them that everything is being sacrificed to the desire of getting rich; that religion, conscience, truth and virtue are at a discount, and the world only thinks of who will win in the race of piling up millions. It is certainly a time for serious thought. Heretofore we have been a nation in isolation, a law unto ourselves, but fast ships, cables, the intercourse of people, the demands of commerce, circumstances over which we had no control, have forced us from this position and we stand forth today full grown and compelled to take our share of the responsibilities of the world.

* * *

The crisis, as Mr. Ingalls shows, is upon us. Our fleets and armies are in the orient; we are in possession of new lands and countries; we stand, as it were, sponsor for all the republics and nations of North and South America. When President Cleveland took his stand in the Venezuela case and the country supported him we were committed to certain duties and responsibilities in reference to all our neighbors, and we cannot get away from them. The Spanish war and subsequent negotiations placed on us the burden of controlling and developing other countries.

In connection with these imminent and overwhelming international issues, as Mr. Ingalls proceeds to show, we are confronted with a further serious question, which is continually raised and which must be considered—the struggle between capital and labor. The organization of the most immense trusts or corporations ever known has brought this to the front, and certainly there are grave issues to be settled by us as a people and as a nation. Are we prepared to assume all these responsibilities and can we successfully manage them and still maintain our republic, still preserve "a government of the people, for the people and by the people?"

We quote the following:

"Is there danger in the future from the great business combinations that are now being made—from the trusts? You hear it on every street corner. At every gathering men are inquiring and discussing it. Has the struggle between capital and labor actually commenced, and is the conflict irrepressible? My observation in the last 25 years has been that labor has steadily won, and capital lost in the struggle which always exists more or less. The compensation of labor has constantly risen, the cost of the necessities of life has decreased. On the other hand, the earnings of capital have grown less and less each year, and the responsibility and trouble of keeping it employed has increased. The rate of interest in this country is only about one-half what it was 25 years ago. A citizen who retired from business then and decided to live on his income is to-day in comparatively poor circumstances. In other words, if he has stood still he has seen the interest upon his capital cut in two, while his expenses have at the best stood still.

"Capital has been able to exist and increase only when it has been actively employed, and if it has been active, it has had to employ labor in order to exist. Our law of equal distribution of estates and the prevention of entails scatters wealth. About the only large estate in this country to-day that I recall, which will not be separated and divided among heirs is Carnegie's, and it looks as though he might divide that up himself. It is rarely that large estates last long in a republic. Children left with large wealth soon dissipate it. The saying that it is only three generations from the millionaire to the clerk in shirt sleeves is generally true, and it is well for society and for the nation that it is true.

"Has the danger to labor increased by the organization of the vast combinations of to-day? The trust is no new danger. It is an aggregation of capital under a new name. It may be a greater one, but it is only a large corporation—the outgrowth of business and competition. How to control it is the question.

"Publicity and taxation, all agree, is one way of controlling and keeping the trusts within the limits. Let the full light of day [illegible] statements and all their accounts, and provide either by a franchise or license tax that they shall pay their fair share of the burdens of the people. Our case is somewhat different from that of England or other countries, and therefore precedents do not always apply. In England, for instance, they have practically free trade, and there is nothing which the trust wants from parliament. Here we have a tariff, and to a certain extent it is used as a protection for the corporations, and the great danger to our institutions is that these great aggregations of wealth may endeavor to control legislation and do other things that smaller bodies would not attempt.

These are pregnant words. They touch the marrow of the question treated. Here is another passage which is full of wise suggestion. Again we quote:

"After all, this danger must be met, as all dangers in the republic must be, and must be overcome by the virtue of the people. We must, so far as possible, protect our small land holders. In their hands is the future of the republic. If you will read the history of the empires and republics that have perished, you will find that their failure dates from the time when the lands drifted into large holdings and were cultivated by tenants or slaves. So far, therefore, as it can be done by legislation our small property holders should be encouraged, and they should be protected; their burden should be made as light as possible, and capital should be made to pay its fair share of the burdens of the state. Large ownership of land should be discouraged and prevented.

"Our system of taxation is the crudest on the civilized earth, with possibly the exception of Turkey and some of the oriental countries. The laws of every state are different, and by means of the large aggregations of capital avoid paying their share of the cost of government. We are just learning that a franchise tax is the easiest collected of any, and probably one of the fairest ways of raising revenue. Of course, those who manage corporations will object, as everybody does, to paying taxes, but, nevertheless, it is right and proper. Those that have the protection of the state should bear their share of the burdens."

LEARNING A LANGUAGE.

It Does Not Require Much Time, If One Has Patience and Perseverance.

"It doesn't require any great length of time to learn a language if one has patience," said a man who has mastered several languages, according to the St. Louis Globe-Democrat, "and when I hear a man regret that he is unable to speak French or German, or Spanish or some other language unknown to him, I cannot conceal my amusement. In nine cases out of ten I might say that the men who express regret of this sort handle English very poorly if that happens to be their language. The chances are that their vocabularies are extremely limited, and it would probably surprise them to know that, despite the advantages of birth and education, they could not command more than 600 or 700 words in English if their lives depended upon it. Yet they are able to carry on intelligent conversation and many of them may become forcible and even axiomatic in their sayings, and they plunge into discussions of literature, art, music and other subjects of such fine elegance, and do it rather successfully, too. Now, how long ought it to take a man to learn 600 or 700 or even 1,000 words in any language?

"Certainly it ought not to take any great length of time, and from my own experience I know that it does not. Of course I am not speaking now of mastering so that one can get the full benefit of all the refinements of speech in a particular tongue. But I have in mind the idea of speaking intelligibly in a given language and being able to understand perfectly what is said in return. I have a system which I have worked out, and it has been of vast benefit to me, and has enabled me to learn a number of languages. It occurred to me while I was in Mexico a few years ago on important business. I could not speak a word of Spanish and could not understand the language. I concluded that I would learn the language. My plan was simply this: I made up my mind that I would not retire at the close of any day as long as I was there without learning at least three words in Spanish, how to pronounce them and what they meant. That would give me 90 words per month, or something over 1,000 in a year's time. I stuck to the task, and I was there nine months, and as a result of my system I was not only able to converse in Spanish, but I carried on my correspondence in Spanish. I don't suppose I could write an essay in the language, but I can speak it, write it and understand it and it was all brought about by the three words a day system."

The Volcano Bird.

One curious result of the Soufriere's eruptions has been the loss on the island of St. Vincent of the beautiful bird known as Guilding's Amazon parrot. This bird was formerly found only on the slopes of the Soufriere and was called the "volcano bird" by the inhabitants of the island. It was driven away by the eruptions of 1718 and sought shelter in other parts of the Antilles. The great hurricane of 1898 still further reduced its numbers, hardly leaving a single bird in St. Vincent, and now it is feared that whatever survivors there may have been were destroyed by the recent eruptions or have fled from the scene. Not a bird can be found anywhere within the range of the volcano's activity. Unlike man, birds and beasts did not risk returning to such a danger zone.—Detroit Free Press.

Trick of Dutch Anglers.

Dutch fishermen make astonishing catches by means of a very simple expedient. They put a number of live worms and insects into a bottle partly filled with water, which is then securely corked. The bottle is dropped into the water, and the fisherman sinks his line alongside. It appears that the wriggling contents of the bottle so tempt the fish that they fall easy victims to the baited hooks.—N. Y. Sun.

POPULAR SCIENCE.

The first scientific society was established by Dr. Franklin.

A German geographer complains that north pole exploration is in danger of degenerating into a sport, in which the establishment of "records" is the main thing.

The breathing or blowing of wells driven on the plains of Nebraska has been lately shown to coincide with changes of barometric pressure, but it is thought that low pressure can hardly account for the force with which the air is expelled from some of the wells.

In his experiments with various vehicles, M. Michelin has found that iron tires require greater motive power than either solid rubber or pneumatic. An electric automobile running at five per cent. greater speed with pneumatic tires took 18 per cent. less power than when fitted with solid rubber tires; and in stopping, the solid tires required an increase of 14 per cent. in braking power.

Two striking instances of the effects of "wind shots," or the currents of air caused by the enemy's cannon balls, are given in the "Autobiography of Sir Henry Smith." On one occasion his horse fell as if stone[illegible] but he was not hurt at all. On another occasion an officer was "knocked down by the wind of a shot and his face was black as if he had been two hours in a pugilistic ring."

Between Mount Kasbek and Ghimarai Khokh, in the Caucasus, a glacier descends into the narrow, wedge-shaped valley of the Ghenal Don, which after a course of 13 miles joins the Ghizel Don, a tributary of the Terek. Like most glaciers of the Caucasus, the Ghenal Don has of late years receded considerably, and some years ago copious springs of hot sulphur water were uncovered by the recession. About the middle of July the whole end of the glacier broke off and slid down the valley, grinding down everything in its path. Thirty-two lives were lost. On July 19 another huge block of ice broke off and followed the first with terrible rapidity for eight miles down the valley.

SOUTHERN SUPERSTITIONS.

If you kill frogs your cows will "go dry."

Tickling a baby will cause the child to stutter.

To cut off a pup's tail causes him to grow "smart."

To throw hair-combing out of the window is bad luck.

To thank a person for combing your hair will bring bad luck.

No person who touches a dead body will be haunted by his spirit.

Cut a dog's "dew claws" and it will not die from poisonous snake bite.

To kill a ghost, it must be shot with a bullet made of a silver quarter-dollar.

If you boast of your good health, pound wood immediately with your fist or you will become sick.

To dream of a live snake means enemies at large; a dead snake, enemies dead or powerless.

To dream of unbroken eggs signifies trouble to come; if the eggs are broken the trouble is past.

To cut a baby's finger nails will deform it; if the child is a month old it will cause it to have fits.

Silver nails or screws in a coffin will prevent the dead haunting the scenes of its existence in the flesh.

To allow a child to look into a mirror before it is a month old will cause it to have trouble in teething.

A child will have a nature and disposition similar to that of the person who first takes it out of doors.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness as when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartica and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. The genuine article may be bought anywhere of all reliable druggists at fifty cents per bottle. Please to remember, the full name of the Company—**CALIFORNIA FIG SYRUP CO.**—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.

ABOUT the worst feature in the proposition to hold a State primary election is the support Col. W. C. P. Breckinridge is giving it.

THE hearing of the Meacham injunction suit to restrain the holding of a primary election to nominate Democratic candidates for State offices next year, was postponed until the 6th of January.

THOSE men who are good party men as long as everything is going their way, and don't care a darn for party when it refuses to be run by them entirely, ought never be allowed to sit in high places. Weed them out.

VENEZUELA has a population of two and a half millions, about one per cent of which is white; but from the noise that has been made in her part of the world for the last fortnight, one not posted would suppose she is about fifty times that large. She is small potatoes and few in the hill.

LEXINGTON expects to raise $10,000 to aid in the Kentucky exhibit at the St. Louis fair in 1904, and Covington will endeavor to do better. It ought to be very little trouble for Kentucky to raise the desired $100,000.. This amount can be raised by private donations, and nobody be distressed thereby. How much will Boone county give?

THERE is perhaps no better known song than "The Mocking Bird." Septimus Winner, the composer of this song, died at his home in Philadelphia on November 24. Mr. Winner was 76 years of age. It is said that he sold "The Mocking Bird" for $35 and that out of this investment the publishers realized more than $3,000,000.

THE colored population of South Bend, Indiana, is in a high state of excitement, and many of them are leaving the town. There have been one murder and several shootings, in South Bend, recently, in which colored people took part, and the feeling against them is running so high on the part of the white citizens, that they do not consider their lives safe. This race trouble is in Indiana, mind you.

THE coming winter promises to be the hardest ever experienced by the English laboring classes. Already more than half the workmen are out of employment. Reports of terrible destitution in the poorer quarters of London find their way into the newspapers in great numbers. The gloomy prospect is made darker by the prospect that shipbuilders are contemplating a test of strength with trades unions.

THE school authorities of Boston are considering a plan for separating the white and negro pupils in that city. The children of both races have heretofore attended the same school. There is a strong prejudice against the system on the part of both whites and negroes. The negroes want separate schools where their children will not be treated as inferiors, while the motives of the white citizens are obvious.

THE opponents of a primary election claim that Gov. Beckham has control of the political machine in the State, and that the primary election is only a scheme for manipulating the machine so as to compel his nomination. Grant, for the sake of argument, that Governor Beckham has control of the machine in the State, could it not be used in his favor to a better advantage in a State convention than in a primary election?

A substitute for the National Bank Currency Bill presented at the last session of Congress has been introduced in the House. The new bill provides that national banks may take out for issue national bank currency equal in amount to one-fourth their paid up, unimpaired capital without depositing Government bonds as security. A security of bonds or gold of 5 per cent of the currency taken out for issue is all that is required.

THE Court of Appeals reversed the judgment of the lower court in the case of Jim Howard, convicted of the murder of Gov. William Gobel, and awarded the defendant a new trial last Thursday. The failure of Circuit Judge Cantrill to give to the jury an instruction to the effect that the accused could not be convicted upon evidence of what other persons did, but only upon proof of his own acts, is the sole ground upon which the four Republican members of the Court of Appeals could base a reversal.

THE December report of the Department of Agriculture is an interesting one, giving the comparative acreage of winter wheat in the chief winter wheat States. The report estimates the newly sceded area of winter wheat at about 34,000,000 acres, an increase of 5.1 per cent over the area estimated to have been sown in the fall of 1901. The condition of winter wheat on December 1 was 99.7 as compared with 86.7 in 1901, 97.1 in 1900, and a nine-year average of 91.4,

IN a heart to heart talk, last week, with his subscribers, the editor of the Owen News-Herald tells them it is necessary for the office to take a weeks vacation, and there will be no paper this week, and next year he will do his best to improve the News-Herald. He takes the delinquent subscribers into his confidence and tells them that they will be given the shake if they do not square up in the next few days, and, of course, they will begin falling over eachother to get to the captain's desk to plank down the coin of the realm that is due him.

IN past years when a candidate for a State office had as complete control of the political machine as it is claimed that Gov. Beckham has, his nomination by the convention was generally considered a foregone conclusion. If the machine is so powerful in a primary election, it surely would be more potent in a convention where it could concentrate its energies on the few, and if Gov. Beckham is the machine candidate for the Gubernatorial nomination, his friends who are asking for the primary election are laying aside a certainty for an uncertainty, if the action of past conventions were to be repeated and the claims made by the Governor's opponents are true.

THE annual report of the Interstate Commerce Commission contains a carefully weighed exposition of the dangers of railroad combinations. It states that the commission can no longer count on the assistance of competition in keeping rates down to a reasonable figure. The report further calls attention to the fact that no indictments or convictions have yet been secured against the roads which were shown last winter to have secretly preferred certain grain shippers in the matter of rates. This failure, the commission asserts, proves that the existing laws are dead letters and new ones should be enacted.

THE U. S. Civil Service Commission reports that for the year ending June 30, 1902, there were 14,983 persons appointed from its registers. This was 4,692 more than was ever before appointed in a single year. Anyone wishing information about these positions can secure it free by writing for the Civil Service announcement of the Columbian Correspondence College, Washington, D. C. The Commission will hold examinations to secure young men and women for these places during March and April, at Covington, Danville, Owensboro, Louisville and Lexington. Many people do not know that these appointments are made without political influence and that a large share of them are filled by those having only a common school education, but such is now the case.

THE domestic economy of the White house is not unlike that of a hotel. The president's wife has little responsibility or household cares. The banquets are all managed, even to the seating of the guests, by a special officer detailed for that purpose. The bed linen, table linen, sliverware, china, and all furnishings are Government property, the Government furnishing even soap and towels. Repairs and mendings are made, broken crockery replaced, and new furniture provided, without bothering the mistress. She has no trouble about servants; these are provided by the Government and are nearly all men. They are each paid $60 per month, and it may be safely affirmed that few ever leave of their own volition. The kitchen has a range like a hotel, and here three women are employed—a cook, an assistant cook, and a cleaner, while during the social season a French chief takes charge

THE RECORDER is in receipt of a copy of the Covington Courier of the 19th inst. containing a marked article, the intention of which is to show Joe Pugh up as a very bad man, politically; but the article reaches still further and shows that there is a very large block of voters in Covington whose Democracy is only a secondary consideration, and that personal likes and dislikes govern the casting of their ballots in most instances. This holds good in both the Pugh and the anti-Pugh factions, and the country Democrats have long since come to the conclusion that Democratic principles cut very little ice with a majority of those claiming to be the Democrats in Covington. Offices are what they are out for, and most any old scheme that will land an office will be resorted to.

The Courier's article lays the blame for all the recent Democratic reverses in Covington at the door of Joe Pugh, and for naught the RECORDER knows the accusation is correct, but in this section of country the warring Democratic (?) factions in Covington are regarded in the same light, that is "there are six of one and half a dozen of the other." There is one thing, however, on which the Democrats in Boone county are unanimous and that is the desire that Covington political methods may never contaminate Boone's pure and undefiled Democracy.

The Courier article says: "Mr. Gooch's plurality in the Sixth District in November, was 1,401." If the other statements in the article are as much at variance with facts as is the one above quoted, the writer has shown himself thoroughly reckless in the handling of facts. Mr. Gooch's plurality in November was over 3,600, but for selfish motives some of the political scrappers in Covington may feel justified in reducing it to less than one-half.

The RECORDER does not consider Pugh an angel, nor is it prepared to say that he is a devil; but it does think the time has come when the good of the party demands that the Democratic managers in Covington be selected from among men who have not been mixed up in the factional fights that have disgraced that city in the last few years. There are honorable men—good Democrats in Covington outside of either faction, and to them should be consigned the authority to look after the party's interest. Until this is done political affairs there will continue to grow worse, as the feeling between the Pugh and anti-Pugh factions is too hostile to admit of any compromise for the good of the party on their part. Let there be peace even if every Pughite and every anti-Pughite in the land has to surrender his aspiration for official emoluments. Lay down your weapons, cast your ammunition into the raging Licking and let some of the noncombatants take charge of Democratic affairs in Covington, and the skies will at once begin to clear, and when, at the next election, a harmonious democracy marches to the polls the result will be so overwhelming that, if the Pughites and the anti-Pughites are the genuine article they have been declaring themselves, they will fall upon each others' necks and weep for joy because of the magnitude of the victory.

Under present conditions the Democratic party, in Covington can accomplish nothing, and the only thing any of the belligerants can hope for is an occasional sop thrown out by a victorious Republican as a reward for assistance in defeating a Democratic nominee. What has been done once may be done again, and it is not necessary to recur to ancient history to ascertain that such a system of rewards has been practiced in Covington.

NEW Jersey the home of the trusts, provides the newspapers with an interesting story relating to the manner in which a labor union has turned the tables upon a great corporation. The story relates to the method adopted by the New Jersey glass blowers in their contest with the great company of that state. The labor union has gone into court and asked that the glass company be enjoined from interfering with the labor union's business. The representatives of the union assert that theirs is an organization having for its purpose the sale of the labor of its members, that the glass company being in competition with it has violated the laws of the state and the labor market and has prevented by force the union's business of selling labor; that the corporation is engaged in an illegal alliance for the purpose of preventing men from leaving its employ.

C. C. ROBERTS,
Gen. Agent Boone County.

An interesting study for farmers and their boys, these indoor days, would be that portion of Geology that describes the formation of our soils. Very few of us understand what the different soils are composed of, or how they came to locations where they are found. The bottom lands we know are composed largely of the soil that is washed from the hills and uplands, and is made up of decayed vegetable matter. This is also true of the lower Mississippi lands. But where did the clay loam soil, on which this vegetable matter was produced, come from? Geologists tell us that clay is the result of the decomposition of the rocks, that have been thrown up into mountain ranges by the vast pressure within the earth. The rain, frost, sunshine and other forces, continually at work through ages upon ages, have produced the wondrous results we see about us, in the many different kinds of soils, gravels, sands and loams. The study of glaciers, explains both how soils are formed and how they are distributed, and is exceedingly interesting to all, especially those who till the ground. Our State Geological reports, some of which can be had for the asking, give much attention to these subjects, and should be more generally distributed in the farming districts. —Ex.

THE Paducah Register has been pummeling the Courier-Journal because it does not enter the fight against a State primary election In reply to the Register, among other things the C.-J. says: "We are free to confess that, with our later experience of Conventions, we have a decided preference in favor of the Primary as the better means of arriving at the will of the people. We could ill sustain ourselves in opposing a Primary and urging a Convention. Nor can we see for the life of us how a band of conspirators can get a better chance to work their schemes through a Primary than through a Convention. If we were a party in interest we should want nothing better than an opportunity to go before the Democrats of Kentucky and expose the unholy device of men in office seeking by the corrupt use of the power intrusted to them to establish a dynasty and to perpetuate themselves. If such a scheme is on foot, if Gov. Beckham is at the head of it, and if the men sought to be overwhelmed by it are as unselfish and as upright as they claim to be, they ought to welcome the opportunity of a direct appeal to the people and be able to make the welkin so ring with the truth of their position as to drive the horde of conspirators before them. If they are not able to do this by a direct appeal to the people, how would they be able to do it in a Convention?

Candidate Breckinridge prefers a primary for the nomination of the Democratic candidate for Governor, but, primary or convention, he is in the race to a finish. Candidate Hendrick prefers a convention, but convention or primary, he is ready, willin' and waitin' to run either or both from "end to eend." And so it is with the other candidates for Governor, and all the candidates for nomination for the other State offices. So where does the opportunity for "the splitters" to split come in?—Louisville Times.

THE last thing the court of appeals did before adjourning for the holidays, was to hand down an opinion making the Republicans of Georgetown a Christmas present of the city offices. Of course their socks will be large enough to contain the present.

Rolfes & Wachs, The Reliable Clothiers

No. 1 Pike St., Cor. Madison, COVINGTON, KY

A firm in Philadelphia has recently sold to that Government one of their machines for a novel purpose. The representative of Japan, who placed the order, said that in the Governmental mints a great many gold dollars are coined, and there has been considerable loss through dishonest employes swallowing the small coins, and thus taking them out of the mints. There has been no way of preventing this until a clever official suggested the use of the X-rays, and the machine was ordered at once. It is not proposed to put every employe to the test when leaving the mints, but he will be searched by electricity from time to time, unexpectedly, and any one of the employes may be called up at any time to undergo the test. It is believed that the fear of detection will prevent the stealing, at least in the form now used. It is suggested that a machine might be used with profit in the South African diamond fields to make the black laborers honest. The field for X-rays in this direction seems to be large.

Commissioner Yerkes' report of the Internal Revenue service for the last fiscal year shows good for Kentucky. It follows: The Louisville district led the list as usual with collections of $11,529,286; Covington was second with $3,376,705; Lexington third with $2,825,084; Danville fourth with $2,616,286. The State of Kentucky ranked sixth in aggregate collections, with $21,996,018, being exceeded in order named by Illinois, New York, Indiana, Pennsylvania and Ohio. The States of Missouri, North Carolina, Kentucky and Virginia, in the order named, were the largest producers of both chewing and smoking tobacco. As compared with other districts, the First Missouri produced the largest quantity, while the next largest manufacturing district was the Louisville district, producing 28,976,000 pounds.

Several years ago a number of Burlington people invested in real estate at Hill City, South Dakota. They had long since given up the money invested as lost, and never expected to hear of their Hill City possessions or anything pertaining thereto. But not so. One day last week they got notice that they had been sued for a lawyer's fee of over $200 for services rendered in perfecting their title to the land. According to the allegations of the petition it puts a certain distinguished gentleman of another county in rather an awkard position in regard to the handling of the matter. If those here who have been sued for the fee were certain they owned the real estate at Hill City, they might be willing to put up their part of the fee.

About two weeks ago an effort was made by burglars to enter Riley & Riddell's store at Bullittsville. Mr. Riddell, who lives near the store heard the noise, and when he went out of his house the thieves fled. The matter was kept very quiet, and last Thursday night the thieves made a second attempt. Bernard Tupman, aged 14, was sleeping in the store that night; about 2 o'clock he heard a noise at the back door, and someone remarked, "it is no use to go in here, because there is a petition between this room and the store-room." They then went to a side window, which they tried, and said, "this is fastened down tighter than it was when we were here before." They then went to the front door and began to cut through. By this time young Tupman had got hold of his pistol and was ready to take a hand in the fun, which he did, very unexpectedly to the burglars, one of the shots passed through the hat of one of them. The thieves beat a hasty retreat under the fire from Tupman's pistol, leaving a hat and pair of gloves behind. Several shots were fired by Tupman at the fleeing forms after he got out of the store, but he does not know whether either of them took effect. Mr. Riddell one of the owners of the store was awakened by the shooting, and hastened to the scene, but the rascals had made good their escape before his arrival.

Great Weather Calendar.

The Chattanooga Medicine Co., the manufacturers of McElree's Wine of Cardui and Thedford's Black Draught, have just issued the 1903 edition of the Cardui Weather Chart and Calendar. This Calendar has sprung into universal prominence by accurately foretelling the Galveston flood and predicting the droughts and floods of the past summer, a year ahead of each occurrence. This office has just received one of these calendars, which consists of twelve sheets of paper, 13x20 inches in size, all fastened together with a gilt tin strip and a brass loop hanger. Each sheet contains the calendar for one month in large figures that can be read across the room. Under the figures patent weather signals indicating Prof. DeVoe's Weather forecasts for every day in the year appear. We understand a few copies of it can be secured by sending 10 cents apiece in postage stamps to The Chattanooga Medicine Co., Chattanooga, Tenn.

UNREQUITED LOVE.

Female Teacher of Languages Fatally Wounded By Former Pupil.

Philadelphia, Dec. 20.—Voltairin Lecleyre, an anarchist and a teacher of languages, was Friday shot and mortally wounded by Herman Heischer, a former pupil. The woman is dying in a hospital and Heischer is in custody. Unrequited love is said to have caused the deed. When arrested Heischer's explanation was the following: "We were sweethearts, she and I. She broke my heart and deserved to be killed."

Miss Lecleyre is 36 years old and her assailant is 24.

The shooting occurred on the street in broad daylight and was witnessed by a score of persons.

Miss Lecleyre was standing at a street corner awaiting a car. Heischer, who disguised himself by means of a false mustache, accosted his victim from behind. Almost at the same time he drew a revolver from his pocket and pointed it at the woman, who turned and attempted to run away. She had gone only a few steps when Heischer began firing upon her.

After discharging five shots at the fleeing woman, three of which took effect, he replaced the pistol in his pocket and started to walk away. He made no effort to escape and was arrested.

Miss Lecleyre has attained widespread notoriety through her anarchistic utterances and her intimacy with Emma Goldman and other anarchists. She is an accomplished linguist and musician and has written much anarchistic literature, and many erotic poems. Friends of the wounded woman say she came to this city about 15 years ago from Michigan. Her father, who was a Frenchman, is dead. Her mother is said to live somewhere in the west.

WAGES INCREASED.

Locomotive Engineers and Firemen Receive a Raise.

Chicago, Dec. 20.—Increases in wages amounting to $600,000 a year are to be granted the locomotive engineers and firemen employed by the Chicago & Northwestern railroad and its branch lines through an agreement reached Friday between officials of the railroad and committees representing the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen. The new scale will go into effect January 1. It provides for increases of approximately 8 per cent in the pay of the members of the labor organizations. The engineers will receive from $3.80 to $4.70 for each run of 100 miles. They are now paid from $3.70 to $4.30.

The high rate is paid to the men who run the larger and newer engines. The number of these engines is constantly growing and, it is said, a majority of the men will receive the $4.70 rate.

AMERICAN FARMERS.

Germany's Representatives Studying Their Work and Conditions.

Chicago, Dec. 20.—The agricultural progress of the United States and the work and condition of American farmers are being noted by the German government, which is taking special interest in the subject for the coming year. According to information received by Dr. Walther Wever, the German consul here, Chicago has been chosen by the German government as the center of operations for the agricultural experts' bureau during the coming year. Heretofore there has been agricultural experts connected with the embassy at Washington and one also in New York city. An order has been made which transfers the bureau from New York to this city.

ONE HUNDRED THOUSAND LOSS.

Fire Partially Destroyed the Fulton Market, Chicago.

Chicago, Dec. 20.—Fire early Saturday morning partly destroyed Fulton market, causing a loss of $100,000. The market is composed of wholesale meat markets and several manufacturing plants. All the second floors and the greater of the third floors from 1 to 25 Fulton street were destroyed. The principal losers are Schwartzschild & Sulzberger, Wachenheim & Co., Swift & Co., Cook County Shoe Co. and the Acorn brass works.

Bout Ended in a Draw.

Pittsburg, Pa., Dec. 20.—The ten-round bout Friday night between Jack McClelland, of Pittsburg, and Eddie Toy, of San Francisco, ended in a draw. McClelland, who fought McPadden at St. Louis Thursday night, arrived here only a short time before time to enter the ring.

TWENTY WERE KILLED.

Rear End Collision on the Southern Pacific.

About a Score of Persons Were Badly Injured—Passenger Train Crashed Into a Disabled Owl Train A tByron, Cal.

Byron, Cal., Dec. 22.—As a result of a rear-end collision between the Stockton flyer and the "Owl" train on the Southern Pacific railroad at Byron Springs Saturday night 20 persons were killed, four more may die and more than a score were injured severely. Twenty-seven injured passengers were put on a train to be taken to the Southern Pacific hospital at San Francisco. Five persons died on the way and of the 22 injured who reached the hospital, R. Post, of Fowler, Cal. and Lee Sou, a Chinese, may die.

The Owl train had stopped at Byron Springs on account of a broken locomotive. A brakeman went back to flag the Stockton train, but for some reason the "flyer" did not stop.

After the "Owl" left the Oakland Mole it was noted that there was a leak in the flue of the engine. This increased to such an extent that it was deemed advisable to stop here to take up a freight engine for relief. The train officials knew that the Stockton local train was following a half hour behind and a flagman was sent back down the track to give warning of the presence of the "Owl."

It is said that the Stockton train in charge of Engineer Maguire and Fireman Joyce, got the warning signal in due time and gave the usual response with whistle blasts. Why the incoming train was not checked, however, has not been thus far explained, the men who could give the facts being numbered among the badly injured.

None of the passengers of the Stockton train were injured and all of the crew of the "Owl" escaped unhurt.

Among the injured was E. Lee, of Louisville, Ky., burns on head, face and arms.

San Francisco, Dec. 22.—At the Southern Pacific hospital Sunday night two more victims of the Byron wreck died, Richard Post, of Fowler, Cal., a medical student, and Mini Magowa, a Japanese girl, and the death of Mary Baird, another victim, was reported from Oakland. This makes the total number of deaths 19.

Fresno, Cal., Dec. 22.—D. J. Vernon and Carl Mayer, injured in the wreck, died in the hospital here Sunday night.

ON RIVERSIDE DRIVE.

Funeral Services Conducted Over the Remains of Mrs. Ulysses S. Grant.

New York, Dec. 22.—In the mausoleum on Riverside Drive brief and simple services were conducted Sunday over the remains of Mrs. Ulysses S. Grant. In addition to the members of the Grant family there were present among the 500 persons to whom invitations had been sent, Gov. Odell, Mayor Low, Secretary of War Elihu Root, Rr. Adm. Barger and staff, Gen. James Grant Wilson, Gen. Granville Dodge, Gen. Horatio C. King, Gen. Charles F. Roe, New York N. G.; and staff, Mr. and Mrs. Andrew Carnegie, and many federal and municipal officials and officers of the army and navy stationed in the city.

Gen. Frederick D. Grant and the members of the family occupied seats overlooking the crypt. The services, conducted by Bishop E. G. Andrews, of the Methodist Episcopal church, and Rt. Rev. Alexander Mackay E. Smith, Protestant Episcopal bishop coadjutor of Pennsylvania, opened with the hymn, "Lead Kindly Light," after which the burial services of the Methodist Episcopal and the Protestant Episcopal churches were read. The services were closed with the reading of a poem, "The Land Beyond the Sea," which had been a favorite of Mrs. Grant, and the singing of the hymn, "Abide With Me."

CHRISTMAS MAIL BURNED.

Only 20 or 30 Out of 700 or 800 Pouches Were Saved.

Syracuse, N. Y., Dec. 22.—Official report of the burning of a car load of Christmas mail en route for the west was made here at 3:45 o'clock Sunday afternoon by the crew of mail clerks arriving here from New York on the fast mail No. 3 on the New York Central which left New York at 8:45 a. m. Only 20 or 30 out of 700 or 800 pouches were saved, the burned mail being for Chicago and points further west. Some of the mail was destined for the Philippine and Fiji islands. The mail sacks were in a storage car which carried no clerks. The crew was on the car behind and discovered the fire between Peekskill and Highland. The car was left burning at the latter station.

Effort to Form a Union.

Los Angeles, Cal., Dec. 22.—Efforts are being made by the general office clerks of the Santa Fe system to form a union. There are about 150 freight clerks, handlers and checkers in the employment of the Santa Fe road here.

Kipling's Poem.

London, Dec. 22.—The Times Monday morning publishes a poem by Rudyard Kipling, which is a strong protest against the Anglo-German agreement with regard to Venezuela. The poem probably will cause much discussion.

BIG FIRE IN KNOXVILLE.

The Total Loss Will Be in Excess of One Million Dollars.

Knoxville, Tenn., Dec. 22.—Fire which broke out Monday morning at 1:30 o'clock in the four-story factory of the Knoxville knitting mills on Commerce avenue quickly spread to surrounding structures and at 3:15 threatened to destroy property that will bring the total loss up in excess of a million dollars. The burning building is just across the street from the Central fire station and no sooner had the men of this station turned out than a general alarm went in calling the entire fire department.

In less time than it takes to tell it, the large building was completely gutted and the fire had spread both east and west, taking the building occupied by Broyles, McClelland & Lackey, on the west, and that occupied by the David Commission Co., on the west.

At 2:35 the Davies Furniture Co.'s building was in flames. Then followed the plant of the Claiborne, Tate & Cowan Clothing Co.

The H. H. Gate & Co., wholesale liquor house, was next to go. This same building is occupied by the Shanklin Grain Co. and Merchants' Transfer Co.

Up to 3:30 the loss is fully $1,000,000, probably more. All the firms are well insured.

The buildings which seemed doomed are those occupied by Haynes, Henson & Co., wholesale boots and shoes, at 312 Gay street; Gillespie, Shields & Co., wholesale clothiers, and Brown, Payne, Deaver & Co., wholesale dry goods, at 318, 320 and 322 Gay street.

AT BAY IN A BARN.

Masked Men Who Invaded Loogootee, Ind., Surrounded.

Loogootee, Ind., Dec. 22.—The masked men who invaded the town and held up the two night clerks at the Patterson Bros.' restaurant, robbed two stores and attempted to force an entrance into the vault of the White River bank Saturday morning, have disappeared as completely as though the earth had swallowed them. There were six men in the gang, all of them masked. It is freely hinted that the work was that of amateurs, yet such is hardly probable, as the only unprofessional thing about the work was the time taken to do it. The Patterson boys were tied and gagged over an hour in the rear room of the restaurant, and when they recovered and gave the alarm the burglars left their work on the bank vault and disappeared, going in different directions. Since that time six local detectives and officers have been in pursuit, assisted by the police forces of adjoining towns.

Word came over the rural telephone Sunday night that the burglars were surrounded in a farmer's barn west of here and a posse of 20 men, armed with revolvers and shotguns, have left for the scene to assist in the capture. Detectives for the bank insurance company arrived Sunday evening.

WIRELESS TELEGRAPH.

Communication Between Cape Breton, Can., and Cornwall, Eng.

New York, Dec. 22.—The following dispatch from Marconi from Glace Way, N. Y., Dec. 21, was received by the Asociated Press:

"I beg to inform you for circulation that I have established wireless telegraph communication between Cape Breton, Canada, and Cornwall, England, with complete success. Inauguratory messages, including one from the governor general of Canada to King Edward VII., have already been transmitted and forwarded to the king of England and Italy. A message to the London Times has also been transmitted in the presence of its special correspondent, D. Parkin, M. P. (Signed) G. Marconi."

NATURAL GAS EXPLOSION.

One Man Probably Fatally Burned and Two Others Injured.

Pittsburg, Pa., Dec. 22.—An explosion of natural gas in the boarding house of Mrs. Laura Rickards Sunday resulted in the probably fatal burning of one man and the severe injury of two others. E. G. Walters, a telegraph operator of Marietta, O., was burned about the face, chest and arms. He is not expected to recover. E. W. Barrett and Burt Piper were also painfully burned.

The men were asleep on the second floor of the building and were surrounded by fire and smoke when they awoke. Walters jumped to the ground and sustained severe bruises in addition to his burns.

Pioneer Iron Man Dead.

Pittsburg, Dec. 22.—Charles T. Neale, one of the pioneers in the iron business of Western Pennsylvania, is dead at his home here, aged 70 years. Since 1858 Mr. Neale has been prominent in the iron industry in this city, and was active in business.

Purchased the Champion Mine.

Champion, Mich., Dec. 22—The United States steel corporation has purchased the Champion mine, at this place, and the large tract of adjoining iron ore lands, for a reported consideration of $2,000,000.

ROOSEVELT ACCEPTS.

He Will Arbitrate the Venezuelan Troubles.

It is Believed That the Negotiations Will Soon Reach a Stage Assuming a Definite Arrangment and Obviating Hostilities.

London, Dec. 22.—It is believed that President Roosevelt's answer to the proposal made by the allied powers that he arbitrate the Venezuelan issues has been received in London. The strictest secrecy with regard to every phase of the negotiations is preserved, however, and it is impossible to make a definite statement, but such indications as are obtainable point to President Roosevelt's acceptance of the office of arbitrator.

A constant interchange of cablegrams is proceeding night and day between the United States embassy here and the state department at Washington. It is believed that the president's answer will be submitted formally to the foreign office Monday. By Wednesday, unless some unexpected complications arise, it is believed the negotiations will reach a stage assuring a definite arrangement and obviating hostilities.

It must be said that the acceptance of the office of arbitrator by President Roosevelt would greatly surprise the foreign office, which always has been doubtful of the issue of the arbitration negotiations on account of the belief that President Roosevelt, or the United States, was not willing to undertake the responsibility thereby involved.

Judging from private American advices which have been received in London President Roosevelt, as arbitrator, would be favorably disposed toward the temporary adoption of some such method as was arranged with the Venezuelan secret mission and communicated to the state department by Isaac Seligman. With President Roosevelt acting as arbitrator the serious objections in the matter of guarantees, which frequently have been mentioned at the foreign office and in these dispatches, would disappear. The foreign office has repeatedly said that the great difficulty in its seeing a way to agree to a pacific settlement of the Venezuelan trouble was its inability to ascertain to what extent the United States was willing to assume responsibility.

In spite of the fact that Sunday is usually sacred to leisure in London's diplomatic circle, Sunday it was marked by activity at all the embassies, and especially the American, where work was in progress all Saturday night. The promptness with which Washington deals with those vital matters concerning which prolix pourparlers have been interchanged in Europe astonishes diplomats here and forms an interesting phase of engrossing situation.

Berlin, Dec. 22.—It has been learned here that the governments of Germany and Great Britain have adopted answers to the proposal to arbitrate the Venezuelan issues. These communications will be handed to Ambassador Tower here and to Charge d'Affaires White in London Monday. A press correspondent has learned further that the German answer agrees in all substantial effects with the British answer and makes no separate reservations in behalf of the German case.

Caracas, Dec. 22.—In the name of Venesuela President Castro has signified acceptance of the appointment of President Roosevelt to arbitrate the Venezuelan difficulty.

Port of Spain, Trinidad, Dec. 22.—The blockade of Venezuelan ports was begun with an effective force at midnight saturday night. The British have the cruisers Indefatigable, Alert and Tribune, the special service steamer Columbine and the torpedo boat destroyer Rocket along the coast. The cruiser Ariadne, the flagship of Vice Adm. Douglas, is here and will remain here. All the British operations will be directed from Trinidad.

The cruiser Vineta, the German flagship, left here Sunday morning for La Guayra to reinforce the German cruisers Gazelle, Panther and Falke and the training ship Stosch. The Charlotte, another training ship, has left here for St. Lucia, her presence on the blockade apparently being unnecessary.

The United States battleships Kearsarge and Alabama arrived here Sunday afternoon. Their appearance provoked considerable comment on shore, but when Adm. Higginson called upon the acting governor of Trinidad and the commander of the British ships he took occasion to explain that the visit to this port of the American men-of-war was part of the usual winter trip of the squadron. As the American vessels entered the harbor the Charlotte saluted Adm. Higginson's flag, a courtesy which was also extended by the English ships. The salutes were returned.

Rebels Capture Ciudad, Bolivar.

New York, Dec. 23.—Ciudad, Bolivar, a great Venezuelan post on the Orinoco river, has been taken by Gen. Matos at the head of insurgent forces. It is believed that he will march on Caracas, put himself in Castro's place and pay the indemnity.

Died of Blood Poisoning.

Janesville, Wis., Dec. 22.—Mrs. Ida Davies Green, widow of the late Lieut. Green, U. S. N., who committed suicide at Rio Janeiro three years ago, died here Sunday afternoon of blood poisoning.

GREAT STRIDES MADE.

Wonderful Richness of the Soil of Western Canada Has Turned the Tide of Immigration.

The great strides which Western Canada is making, and the wonderful richness of the soil, is creating considerable excitement, not only in Canada, but in the United States and Great Britain. The large crops of the past two years, with phenomenal yields, have enacted a movement towards the west, which will not be checked until every available homestead is taken. The Edmonton Bulletin, one of the "farthest north" newspapers, in a recent article on the Northwest as a wide and open field, says: "There must be fertile soil, there must be a suitable climate, there must be the possibility of building up a modern civilization; and the conditions must be such that labor can reach the land; or in other words, land must be cheap. The Canadian Northwest contains the largest unbroken area of country on the continent, or in the world fulfilling these conditions. In its thousand miles of plain which stretches from the Lake of the Woods to the Rocky Mountains Canada is able to offer land to the landless of the continent, and of the world. This year (1902), the only complaint, over all the vast stretch of territory, of the farmers and ranchers, is that the railways have not sufficient rolling stock to move to market the returns of the past season.

The area under crop in Western Canada in 1902 was 1,987,330 acres. Yield 1902, 117,922,754 bushels. Wealth waits on industry in Canada. There is Plenty of Room.

Prices have advanced in Western Canada 50 per cent. in the last two years, and the upward movement seems still on. The migration into Canada is becoming notable. Somebody has estimated that 25,000 acres of Canadian land are sold a day to people from the United States.

Whatever doubts there have been as to the suitability of the Canadian Northwest for settlement, those doubts have been set at rest by the successive yields of previous years, and by the crowning glory of the past year (1902), which gives solid assurance as to possibilities that would not otherwise have been believed. The fact of the grain production of the past season in Manitoba and the Northwest, 117,922,754 bushels from 1,987,330 acres, and that a certain number of farmers have produced a greater value of wheat, oats, and cattle for sale than any other equal number anywhere else in the known world, is the best possible answer to the question: "Is there wealth in the Northwest?" Not only in the Northwest but in the whole country has there been prosperity.

The Canadian Northwest is not all alike in its production. Wheat growing is the speciality of one part, cattle rauching of another, and mixed farming—the growth of grain and live stock together—of still another. Speaking roughly, the southeastern parts of the Territories and Manitoba are wheat growing; the southwestern part of the Territories is ranching, and the northern part of the Territories is mixed farming. Differences of soil, climate, and other conditions are the causes of these differences in agriculture in the various sections. But it is safe to say that in no other area of the world is there an equal possibility of the production of wealth from the soil, whether by one branch of agriculture or another.

TREASON TO THE CZAR.

What Would Certainly Have Happened Had This Thing Ever Been Perpetrated.

"Ha, Whoopikoff, you are the very man I have wanted to see so muchski," relates the Cleveland Plain Dealer.

"Hush, Demidoff. Draw aside lest the secret policesky get wind of us and we are pinchedsky."

"Yes, Whoopikoff, I will be prudent. But tell me, where is Skoopsky?"

"What! Do you not know?"

"Know? You alarm me. What has happened?"

"The very worstsky! Poor Skoopsky is on his way to Siberia."

"Alas, alas! How did it happen?"

"We do not know. There must have been a traitor in the campsky. The secret police seized him just as he was tacking a card to the doorsky of the palace of the czar!"

"Merciful Nicholas! And then?"

"And then they hurried him to the mines."

"Without a trial?"

"Without a trial!"

"Great Gortchakoff! And what, oh, what was within on the fatal card?"

ANGEL MESSENGERS.

Bring from Heaven to Earth Good Tidings of Great Joy.

Christmas Sermon by the "Highway and Byway" Preacher—A Three-Fold Message Concerning the Christ.

[Copyright, 1902, by A. N. Kellogg Newspaper Co.]

Chicago, Dec. 21, 1902.

Text:—"Are they [the angels] not all ministering spirits, sent forth to minister for them who shall be heirs of salvation?"—Hebrews 1:14.

Greek mythology represents the imaginary gods of the planets as coming to earth and performing their deeds and bearing their messages to man. The experience of Paul and Barnabas at Lystra strikingly illustrates what a strong hold these ideas had upon the mind of the heathen world. Because of the miraculous blessing which Paul brought to the impotent man, the superstitious people instantly concluded that Paul and Barnabas must be gods come to earth, and they named Barnabas Jupiter and Paul they called Mercurius, and would fain have done sacrifice to them. This idea of visitors to earth from other worlds permeated the thought and literature of the heathen nations from earliest times, and may have been borrowed from the records of God's Word, which told of angel messengers come to earth bearing communications from the God of Heaven to man. The blessed tread of angel footsteps echoes all through the sacred pages of God's Word from the Heavenly messenger with the flaming sword, placed at the east of the Garden of Eden to guard the way of the Tree of Life, to the angel who visited John on the isle of Patmos on that memorable Lord's day and unrolled before his vision all the wonderful mysteries of God's will which he left recorded in the Revelation. Angels come to earth from the presence of God as ministering spirits to communicate to man God's will and God's purpose for man.

We are treading on holy ground when we come into the presence of God's angels. We may not gaze with the curious eye and seek to penetrate the beautiful mystery of God's movements, but if we remove the shoes of our natural will and desires, we may draw near to the burning bush of the angelic presence, and behold many a beautiful vision, may hear many an inspiring message and learn lessons that only the Divine finger can trace on the fleshy tables of the human heart. It was the Angel Gabriel who came to the hand-maiden of the Lord in Nazareth, of Galilee, and brought the message from God that she was to be the mother of the Christ. It was most probably the same angel whose quick glad feet trod the sward of the hillside overlooking Bethlehem until he stood in the midst of the simple-hearted shepherds and announced to them the good tidings of great joy of a Saviour born. It was two angels who joined the group of wondering disciples as they stood on the brow of sacred Olivet, gazing after their ascending Lord, and who announced to them that "this same Jesus, which is taken up from you into Heaven, shall so come in like manner as ye have seen Him go into Heaven." Glad messages of the angels! Let us draw near and listen to the sweet music of their words, let us drink in the height and depth and the length and breadth of their meaning, let us appropriate the inexhaustible riches of God's love which they pour at our feet.

The Christmas-time air is filled with the music of angel voices. The song that burst from the angelic choir over the hills of Judea that first Christmas morning has not ceased its music. The hillsides rang with the glad message, the mountain peaks clapped their hands with joy and sent echoing throughout the world the "glory to God in the highest, and on earth peace, good will towards men." It comes ringing over dale and hill to-day, bringing joy to the hearts of men. Not a Christmas bell can be rung, not a Christmas carol can be sung, that has not caught its music from the melody that burst from the multitude of the Heavenly host as it hovered over that entranced group of shepherds and their gentle flocks. Christmas! Glad Christmas! Joyous Christmas! Blessed, yea thrice blessed, Christmas! Let all the earth rejoice.

Angel messengers from Heaven to earth with their reassuring words: "Fear not," and then the gates of Heaven open wide and the glory of God streams forth, the Celestial music bursts upon the world, the beauteous star guides to the lowly manger, and there the world is led to pay homage to the Eternal King, the Saviour of the world. To pay homage, but oh, it is so easy to bow the knee, while the heart remains unyielding and unmoved. So easy to worship as the wise men did, to pay tribute as the wise men did out of their treasure, and then to depart to the "own country" of the heart's unyielded will. But it is quite another thing to come with the simple faith of the humble shepherds, to lay at the feet of the Saviour the surrendered will, and to go away glorifying and praising God for His gift and His deliverance.

The glad feet of angels have aped from the presence of God and the courts of Heaven down, down on the steps of God's love to the weary, sad, sin-cursed earth, and the sweet voices of the Heavenly messengers have heralded forth their glad story. The sweetest and the gladdest messages they have ever brought center around the Christ. We want to talk about three of these visitations: Of Gabriel's advent at Nazareth and his announcement: "Jesus is coming." Of his appearance to the Judean shepherds and his announcement: "Jesus has come." Of the two shining ones on Mount Olivet and their cheering and inspiring message: "This same Jesus will come again."

Christmas Is Coming!—As the summer days fade into the chill, blustering days of autumn, the eager child suddenly awakens to the thought that Christmas is coming, a new star of happy anticipation rises on its horizon, and as the days are slowly, oh, so slowly, counted off the star of hope grows brighter, until the glad day arrives with its flood of joy and light. And the hearts of the children are not the only ones that thrill with the announcement that Christmas is coming, for their elders warm with the thought and are soon busy with plans for others to make the day bright with its gifts. Christmas is coming! The Angel Gabriel was the first to bear these glad tidings to earth; to the earth lost in the darkness of sin; to the earth groaning under the bondage of its human masters. Listen to his message:

"Fear not, Mary; for thou hast found favor with God. And behold, thou shalt conceive in thy womb, and bring forth a son, and shalt call His name Jesus. He shall be great, and shall be called the Son of the Highest: and the Lord God shall give unto Him the throne of His father David: and He shall reign over the house of Jacob forever; and of His Kingdom there shall be no end."—Luke 1:30-33.

Jesus is coming! In the breast of every devout Jewish maiden burned the flame of hope that she might be the mother of the promised Messiah, and the rapture of Mary's heart found expression in her inspired song:

"My soul doth magnify the Lord,
And my spirit hath rejoiced in God my Saviour,
For He hath looked upon the low estate of His handmaiden:
For behold, from henceforth all generations shall call me blessed.
For He that is mighty hath done to me great things;
And holy is His name.
And His mercy is unto generations and generations
On them that fear Him.
He hath shewed strength with His arm:
He hath scattered the proud in the imagination of their heart.
He hath put down princes from their thrones,
And hath exalted them of low degree.
The hungry He hath filled with good things;
And the rich He hath sent empty away.
He hath holpen Israel His servant,
That He might remember mercy
(As He spake unto our fathers)
Toward Abraham and his seed for ever."

And we can enter into the spirit and joy of that song, for Mary rejoiced in God her Saviour, and prepared the way for His coming by a surrendered will and life. The miraculous circumstances surrounding the birth of Jesus were Divinely ordered and Divinely wrought out. The angel announced the fact that Jesus was coming. Mary accepted with unbounded joy the fact that Jesus was coming. God's will! How beautiful it is! It takes root and buds and blossoms in the fruitful ground of a surrendered will and the dead self of a human life. Jesus is coming! Prepare ye the way of the Lord. Glad message of the angel! How can I prepare the way for His coming? By a surrendered will and an obedient heart. Miraculous, indeed, is the advent of the Christ into the human heart and life. "The wind bloweth where it listeth, and thou hearest the sound thereof, but canst not tell whence it cometh, and whither it goeth: so is every one that is born of the Spirit."

Jesus is coming! So spake the angel, and then he sped back to God. The place of the Son on the throne with His Father was empty. The One who was co-existent with God, who had "laid the foundation of the earth," and "whose hand had fashioned the heavens," was gone from the Father's house into the far country to pay the wages of sin by His death and redeem back to God the souls of men. Oh, what a sad and empty place was Heaven with the Son and Heir absent. The angels stood in mute wonder before the mystery of God's marvelous plan of salvation. Suddenly the scene is changed, there is a mighty stir among the angels and Gabriel speeds from the presence of God to the shepherds tending their flocks by night, "and the glory of the Lord shone round about them, and they were sore afraid. And the angel said unto them: Fear not; for, behold, I bring you good tidings of great joy, which shall be to all people. For unto you is born this day, in the city of David, a Saviour, which is Christ the Lord."

The Son of God, absent from Heaven, found on earth! No wonder the angels sang. The mystery of the Son's absence was explained. No wonder the multitude of the heavenly host burst in upon the scene to sing the praises of Heaven to the new-born King. The sorrow of Heaven is turned to the joy of earth. The song they sang was one they had learned in Heaven in the presence of the Father and the Son, where it was always glory to God in the highest and peace and good will. And now with Jesus stepped from Heaven to earth it was still "Glory to God in the highest," for on earth, peace and good will would be wrought toward men through the Son.

Jesus has come! The message the angels bore to earth that first glad Christmas morning has never grown old. It has grown brighter and sweeter and better as the years have come and gone since then. Oh, light that gilded the tops of the Judean hills! Oh, song that swelled on the gentle night breezes and has filled all the earth with its music! Jesus has come! Jesus has come!†

Does the Christmas time mean this to you, oh, precious soul? Does it come to you, bearing this glad song of the angels? Listen to the Heavenly music; catch the message God has sent to earth to your soul.

Two things the shepherds did after the message of the angels had been borne in upon their souls: They made haste to find Jesus, and when they had found Him they returned, "glorifying and praising God," and "they made known abroad" the glad message of salvation. Jesus has come! The world celebrates the anniversary of His birth. It has heard the message of the angels, but it remains out on the hillsides of sin refusing to seek Jesus. Do you celebrate Christmas? oh, friend! Have you heard that Jesus has come? Then seek with haste the presence of Jesus. Let the music of Eternal Life burst in upon your soul and learn the true joy of Christmas time. And then carry the glad message of the angels to all about of a Saviour born, of a Saviour crucified, of a Saviour who ever liveth to make intercession.

Jesus Will Come Again.—But the angels have left another message. It was delivered on the brow of Mount Olivet, made sacred by the memories of Christ's presence there as He communed with His Father and with His disciples. The handful of disciples are there with their risen Lord in their midst. They listen to His parting words; they hear His promise of power after the Holy Ghost has come upon them; they receive His command to go into all the world and witness for Him, and while they gaze with rapt absorption upon His glorified face, He is taken up from their midst, and a cloud receives Him out of their sight. "And while they looked steadfastly toward Heaven, as He went up, behold, two men stood by them in white apparel; which also said: Ye men of Galilee, why stand ye gazing up into Heaven? This same Jesus, which is taken up from you into Heaven, shall so come in like manner as ye have seen Him go into Heaven." The promise of the Father borne by the angels from Heaven to earth is that Jesus is coming again. What a bright hope to keep the Christian ever gazing Heavenward in expectancy.

He is coming! The gentle heart of the maiden sings with joy at the thought of the coming of the one she adores. The daily letter has come, and the daily letter has gone speeding on its way to him. The communion has been sweet and constant between the two, but, oh, he is coming! Coming, so that his strong arms shall clasp her to his bosom, so that she shall hear his own tender voice sounding in her ear, so she can talk with him face to face and understand him better and be with him always. All this is so natural and human. We understand it. We love to read the story of love and constancy, of the sadness of separation which gives place to the gladness of reunion. And is it a strange thing that the Christian who is in daily communion with his Lord should long to be with Him?

"Jesus lover of my soul,
Let me to Thy bosom fly."

Is it any wonder that John, the beloved disciple, in closing his wonderful Revelation, when he hears his Lord say: "Surely, I come quickly," should respond with a reverent Amen, and exclaim: "Even so, come, Lord Jesus!"

Yes, Jesus is coming again! God sent His angels to tell the disciples so. The manner of His coming is known, for they said He should come in the clouds of Heaven, even as He went up into Heaven. And Paul, under the inspiration of the Holy Spirit, adds: "For the Lord Himself shall descend from Heaven with a shout, with the voice of the archangel, and with the trump of God: And the dead in Christ shall rise first: Then we which are alive and remain, shall be caught up together with them in the clouds, to meet the Lord in the air; and so shall we ever be with the Lord."

But the time of His coming is not known. The angels do not know, Jesus does not know, "but the Father, only." "Watch, therefore," says Jesus, "for ye know not what hour your Lord doth come." The five foolish virgins knew the bridegroom was coming, but they were not watching and were left outside the marriage supper and the door was shut against them. It is the eternal truth of God that, "This same Jesus" is coming again. Is it not a glad message to couple with the one that Jesus has come? The song of the angels which announced the birth of a Saviour for the world was a glad burst of Heavenly music, but it had its minor chords which marked the weary, blood-stained path which Jesus trod up to the cross and through the tomb. Two angels announced to the sad-hearted disciples as they sought their Lord's body: "He is not here, but He is risen." And then with new faith awakened, Christ Himself appeared unto them. Two angels appeared to the gazing disciples and announced to them that Jesus was coming again, and what a burst of triumphant music will fill the heavens as He comes with the angelic hosts to receive unto Himself them that are His. Surely the angels ought to sing at Christmas time their messages into your soul and mine. Will you let them?

FIFTY-SEVENTH CONGRESS.

Second Session.

Washington, Dec. 18.—Senate.—The senate Wednesday passed the pension appropriation bill without discussion. It carries $139,847,000. An urgent deficiency bill also was passed. The amount carried by this bill is $1,148,400, and includes an item of $500,000 to enable the secretary of agriculture to stamp out the foot and mouth disease, which has become epidemic in the New England states. At 2 o'clock, Mr. Keen, of New Jersey, called up the resolutions expressing the regret of the senate at the death of the late Senator Sewell of New Jersey, and feelingly spoke of the life and character of the deceased. He was followed by several other senators, and as a further mark of respect an adjournment was taken until Saturday.

House.—The legislative appropriation bill, with the following amendment to enforce the Sherman anti-trust law, was passed: "That for the enforcement of the provisions of the act of July 2, 1890, the sum of $500,000 is hereby appropriated out of any money in the treasury not heretofore appropriated to be expended under the direction of the attorney general in the employment of special counsel and agents of the department of justice to conduct proceedings suits and prosecutions under said acts in the courts of the United States; provided, that no person shall be prosecuted or be subjected to any penalty or forfeiture for or on account of any transaction, matter or thing, concerning which he may testify or produce evidence, documentary or otherwise, in any proceeding, suit or prosecution under said acts; provided, further, that no person so testifying shall be exempt from prosecution or punishment for perjury committed in so testifying. This appropriation shall be immediately available."

Washington, Dec. 19.—House—The house Thursday passed the bill to reduce the duties on the products of the Philippine islands coming into the United States from 75 per cent. of the Dingley rates (the present duties) to 25 per cent. of those rates. The discussion of the bill was accompanied by considerable maneuvering in the democratic side to secure test votes on various amendments designed to lower the tariff barrier still further, and a record vote was forced on a motion to recommit with instructions to report a bill providing for absolute free trade with the islands. The division on this proposition was on party lines with the exception of Mr. McCall (rep., Mass.), who voted with the democrats. The discussion of the pure food bill, which has been made a continuing order until finally disposed of, was begun. Mr. Tompkins (O.) and Mr. Adamson (Ga.) opened the debate respectively for and against the bill. Mr. Gardner (Mass.) opposed the bill. The McCall resolution, calling upon the state department in the Venezuelan embroglio was adopted at the beginning of the session.

Washington, Dec. 20.—House—The house Friday passed the pure food bill by a vote of 72 to 20. There was not a quorum present, but the point was not raised by the opponents of the measure. The bill inhibits the introduction into any state or territory or the District of Columbia from any other state or territory or the District of Columbia or from any foreign country, or to the shipment to any foreign country, of any article of food or drug which is adulterated or misbranded. The above inhibition is made to apply to any one shipping, delivering or receiving within the regions named any such food so adulterated.

THE BRIBERY CASES.

Five Convicted and Sentenced to the Pen For Five Years Each.

St. Louis, Dec. 20.—The joint trial of five former members of the house of delegates which began Tuesday ended Friday night in a verdict of five years in the penitentiary for each man. The defendants, John A. Sheridan, Charles J. Benny, Charles Gutke, Edmund Bersch and T. E. Albright, were convicted on charges of bribery in connection with the passage of the suburban street car bill to accomplish which it was charged $75,000 had been placed in deposit to be used as required. The five defendants filed motions for a new trial and each was released on bond.

THE FRENCH NOTE.

It Has Nothing of the Character of An Ultimatum.

Caracas, Venezuela, Dec. 20.—The French note to Venezuela has absolutely nothing of the character of an ultimatum, although its text is still unknown here in consequence of delay in its transmission by cable. Therefore, Charge d'Affaires Quievreux has not been able to present it. Its terms are similar to those of Belgium and Spain, asking for the most favored nations treatment in the payment of claims.

To Consolidate Street Railways.

Omaha, Neb., Dec. 18.—The plan for the consolidation of all the street railways of Omaha, South Omaha and Council Bluffs was made public Wednesday. The new company, which is financed by Seligman & Co., of New York, takes control January 1.

Schooner Overdue.

Sydney, C. B., Dec. 18.—The schooner Swift Current, which left North Sydney ten days ago, has not arrived at her destination, Charlottetown, P. E. I., and she is considered lost. She carried coal and a crew of six men.

STATE NEWS PICK-UPS.

HEAVILY INSURED.

R. C. Whayne, Found Dead, Carried Policies to the Amount of $340,000.

Louisville, Ky., Dec. 18.—R. C. Whayne, the largest dealer in sewing machines in this city, was found dead in a lane near his country home Wednesday night. He was on one side of a barbed wire fence and a double-barreled shotgun on the other. He told friends several days ago, it is said, that he was insured for $100,000 in case he died suddenly. He was married and had three children.

Louisville, Ky., Dec. 19.—It developed Thursday that R. C. Whayne, a Louisville business man who was found dead Wednesday night in the vicinity of Jacob park with a gunshot wound in the breast, carried insurance on his life of $340,000, and had applications pending for $50,000 more. The policies were distributed as follows:

Equitable Life Assurance Society of New York, $200,000; Provident Savings Life Assurance Society of New York, $100,000; Union Central Life, $10,000; New York Life, $5,000; Northwestern Mutual Life, $5,000.

Mr. Whayne had applied for a policy of $25,000 with the Manhattan company, and the policy was to issue December 22. Another application had been made to the Mutual of Vermont for an equal amount, and this policy was to be dated December 24.

It was upon the fact that Mr. Whayne carried such a large life insurance and was said to be suffering from rheumatism that a theory of suicide is based.

Coroner Kelly went to the scene of the death Thursday. He said the circumstances were such that the case would require exhaustive investigation. The inquest will be held Saturday.

Near Mr. Whayne's body when found but on the opposite side of a wire fence was a shotgun with one barrel empty, and the other loaded and cocked. His friends and family declare that death was due to an accident, and that the gun was discharged while he was climbing the fence.

It developed Thursday that four of Mr. Whayne's policies, two in the Equitable Life Assurance Society for $50,000 each, and two in the Provident Savings Life Assurance Society for $60,000 each, are contestable in case of suicide. All of the other policies with one exception contained the suicide clause but the limit in every case had expired.

Gov. Beckham, in An Address, Announces His Candidacy.

Frankfort, Ky., Dec. 20.—Gov. J. C. W. Beckham Friday night in an address "to the democrats of Kentucky" announces himself a candidate for re-election for full term to the office of chief executive. His present term, that filling out the unexpired term of the late William Goebel, expires on December 12, 1903. This election is to be held in November next year, and the democratic party is to nominate by the primary election method on May 9 next.

DROWNED IN THE FLOOD.

Widow Lost Her Life While Trying to Cross Swollen Stream.

Lawrenceburg, Ky., Dec. 18.—Mrs. Richard Monroe, a widow, aged 55 years, living 15 miles southwest of this city, was drowned Monday while trying to cross a swollen stream in a buggy. Her 14-year-old son, who was with her, narrowly escaped with his life. She was a most estimable woman, and leaves three sons and one daughter. There is no telephone connection with that locality, and the news was only received here Wednesday.

THE FLOOD AT OWENSBORO.

The River Is Still Rising Rapidly—Creeks Out of Their Banks.

Owensboro, Ky., Dec. 20.—The river is still rising rapidly here. River men predict a further rise of five feet and say the crest of the rise will not be broken before Monday. Green, Pond and Rough rivers are all high, and all the creeks are out of their banks. Travel in the country is being impeded and much damage is being done to corn in the river lands in this county and in McLean, Hancock and Ohio counties.

Hon. E. H. Brown Wedded.

A Million Voices

Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use Dr. King's New Discovery for Consumption and writes—"it completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for Coughs, Colds and Lung troubles. Price 50c and $1 00 Trial bottles free at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Oelsner's, Florence; A. W. Smith's, Walton; O. N. Grant's, Bellevue.

The undersigned hereby give notice that their lands are posted against all kinds of trespass, and especially against trapping, setting dead falls or snares: R. L. Willis, J. S. Mason, N. S. Bristow, M. L. Utz, J. H. Aylor.

A meeting of those interested in the Cincinnati and Milton traction road, will be held, one day this week, at Warsaw. The last issue of the Warsaw Independent, in regard to the proposed road, says, "it is a now or never proposition." It argues that the proposed new railroad from Cincinnati to Louisville along the Ohio river on the Indiana side will knock out entirely the proposed traction road should work on it begin first. The Independent is very much in earnest and puts up a good argument in the interest of the traction road. No town along the proposed route would reap more benefits from the traction road than would accrue to Warsaw.

BIG BONE.

The Sick Convalescent.—Some Real Estate Deals.—"Prospect" for a Sanitarium at the Springs.

Dec 22.—W. R. Miller, Bigbon's popular P. M., who has been confined to his bed the past three weeks, we are glad to announce, is able to be out again.

Several of our farmers along the river lost their corn by the sudden rise last week.

Rev. Mills preached two interesting sermons at the M. E. church, Sunday morning and evening.

J. N. Moore, who has been suffering with typhoid fever for the past month, is gradually convalescing.

Dr. Hanold, of Mayesville, has moved into the Clay house, and contemplates opening a sanitarium in the spring.

J. D. Moore, our local tobacco merchant, has been hustling the past week, purchasing the golden weed at prices ranging from 5 to 8 cents per pound.

J. P. Hamilton has purchased a lot in Z. T. Baker's subdivision, and has a force of hands getting out timber for a new residence, which he will erect as soon as the weather will permit.

MOUND FIELD.

Stone Masons Cant Eat Turkey.—Dramatic Club Going to Burlington.—Roads being put in Good Condition.

Dec. 22.—Very few stone masons will have turkey for dinner xmas.

R. L. Bradford was visiting his parents Saturday night and Sunday.

Don't forget the entertainment at the Grange Hall at Bullittsville on the evening of December 26, 1902.

Mrs. Amanda Rouse will spend the winter with her daughter, Mrs. Paddock, at Hartwell, Ohio.

We had the pleasure of entertaining our friend, Malchus Souther, Saturday night and part of Sunday.

Mrs George Heist presented her husband with a pretty curley haired boy, on the 20th inst. Dr. Sayer, George and the baby are getting along fine.

Charles Goodridge, our road supervisor, had a force of men breaking and spreading stone on the North Bend road the latter part of last week.

Cleve Hankins is a citizen of this community again—having moved on his aunt Amanda Rouse's farm. He has also rented Harrison Clore's farm.

Several of the land owners along the North Bend road have donated a day or two in fixing stone on the road this fall, by this means, if kept up, in a few years we will have an excellent road.

We shall be obliged to anyone in the neighborhood who may have a news item, to make a note of it and "drop" same in Box 26, Hebron P. O. Bear in mind however, that we will forward nothing for publication that are not absolute facts.

The Greenwood Grange Dramatic Club contemplates giving their recent entertainment over at Burlington on or about the first of the year—most likely New Year's night. The announcement will be made in time that all who wish to attend may do so. Admission, 15c.

Billy Smith passed down by the Farm, Saturday last, with a 3 horse load of candies, nuts and jim-cracks, for the Xmas trade. He had the hatchways on the lower deck of his craft closed down, and was standing on the hurricane roof, apparently unconcerned, watching the waves of mud as they rolled by. Billy has navigated this channel for several years successfully, and should he arrive safe in port after disposing of the cargo he had aboard Saturday, he will most probably retire.

Saved at Grave's Brink.

"I know I would long ago have been in my grave," writes Mrs. S. H. Newsom, of Decatur, Ala., "if it had not been for Electric Bitters. For three years I suffered untold agony from the worst forms of Indigestion, Waterbrash, Stomach and Bowel Dyspepsia. But this excellent medicine did me a world of good. J. J. TANNER, Limaburg.

If the information that comes from Washington is to be relied upon, and there is no reason to believe to the contrary, the ruralist everywhere had ... ready and welcome the free rural delivery of mail. The officials of the postoffice department look forward now to the extension of rural free delivery throughout the entire United States says the Lexington Democrat. They have made their estimates as to what it will cost to deliver letters on every American farm or plantation in the sparsely settled and thickly settled parts of the country. The cost will not be trifling. To deliver every rural American mail will take about $24,000,000 a year. Should the present service be extended at the rate of 12,000 routes a year until the 700,000 square miles of territory yet to be covered have been taken care of, there will be for several years an annual deficit in postal revenues of from $8,000,000 to $10,000,000. The deficit, will, it is asserted, disappear gradually as the revenues increase by reason of the improved postal facilities. Not many years ago rural free delivery was a questionable sort of an experiment. The farmers, for whose benefit it was intended, did not in all quarters take kindly to it. But they appreciate fully now the advantages of the new departure. There is an increasing pressure for the establishment of rural routes and the representative of a country district who cannot secure something in this line for his constituents runs the risk of losing his popularity.—Ex.

VOL. XXVIII. BURLINGTON, KENTUCKY, WEDNESDAY, DECEMBER 31, 1902. NO. 11.

County Correspondence.

HATHAWAY.

Dec. 29.—Write it 1903 after Wednesday.

Big dinners were the order here last week.

Ealy Conley and wife gave a party last Thursday night.

Houston & Weaver did a good business during the holidays.

Clay White, of Ellerton, Ohio, came home last week to spend the holidays.

Now is a good time to turn over a new leaf and begin with the new year.

Robert Rouse and wife, of Gunpowder, were guests of B. H. Stephens and wife Xmas.

Mrs. May Hubbard spent the holidays with her mother and brothers in Covington.

James White and wife spent last Tuesday night week with his parents at this place.

Jno. N. Moore, who has been on the sick list for some time, is reported in a critical condition.

Several from here attended the Xmas tree at the Grange Hall school house, Xmas eve. All report a pleasant time.

Raymond Smith and Miss Sallie Rich were united in holy matrimony at the bride's parents, near Big Bone church. Rev. W. S. Taylor, of Erlanger, officiated.

O. W. Adams was in this vicinity last week buying tobacco at prices ranging from 6c to 10c. The latter he paid for one crop near Big Bone, where he found a crop that was fine.

I will report our holiday festivities: Wednesday evening we left our port and set sail for G L. Smith's, where we landed and remained until about 5 o'clock, when we called on B. H. Stephens and wife and Prof J. H. Newman, where we took supper, which was enjoyed very much. Then we repaired to the sitting room where we listened to many good jokes, etc., until about 8 o'clock when we went to Mr. Smith's for the night. We remained there to enjoy the dinner the next day, which consisted of oysters and other good things. We spent the next day with W. S. White, very pleasantly. That evening we steered our craft home, where we are layed up for repairs.

FLICKERTOWN.

Dec. 29.—A happy New Year to all.

Santa Claus brought the usual number of Christmas jugs.

The backwater did not damage the corn in the low bottoms much.

If three sleets indicate a good fruit year we have a good crop assured.

The snow and cold weather, furnished some nice sleighing, last week.

Irvin Rue and wife, of Bellevue, were visiting relatives here, several days last week.

Some of the young folks from here attended the Christmas exercises at Petersburg, Thursday & Friday nights.

Notwithstanding the bad weather Santa Claus made his annual tour of this neighborhood and gladdened the hearts of the little ones.

Surely no one in the Idlewild or any other neighborhood will stand in their own light so much as to discourage the proposed rural delivery route. Everybody should give it all the encouragement they possibly can, for it will surely be a benefit to all. If a person who rents, moves his place of residence at any time, can he move his box?—[Certainly. It is his property and he can put it where he pleases.—ED.]

IDLEWILD.

Dec. 29.—Dr. Ed. Grant, of Louisville, has been enjoying the Christmas holidays with his brothers and relatives here.

We are glad to see Miss Mary Gaines in our midst every few days.

Glad to report our sick are better and no contagious diseases in our neighborhood.

W. D. Cropper, our merchant, reports quite a good trade this year, and we wish him success for the next.

Jas. Thompson and family, of Petersburg, with Mrs. Grant and daughter, took dinner with Mr. Wm. Riley, Saturday.

Mrs. Courtney Walton entertained a number of friends, Sunday, in honor of her sister, Miss Lizzie Graddy, of Lexington.

The pastor, and friends of Mrs. Ott Gaines and Mrs. Tom Grant were entertained to turkey dinners by them, this week.

O. E. Stephens and wife, A. S. Winston and sisters spent the day very pleasantly with Mr. and Mrs. Owen Allen, Thursday.

Miss Genie Berkshire has returned from a very pleasant visit to her sister, Mrs. Maud Roseboom, of Ohio. The latter accompanied her here to spend the holidays.

Mr. and Mrs. Geo. Kreyleich took their daughter, Mattie, to Dr. Cleveland, of Cincinnati, Saturday, to have an operation performed on her ears, which we hope may prove successful.

Miss Bessie Cropper, of North Bend, is visiting friends here, also taking part in the entertainment at Bullittsville, which we are sorry was not as well attended as should have been owing to the inclemency of the weather.

The snow came just the right time to more forcibly remind us that Christmas was here, and while there is not enough to produce the jingle of the sleigh bell and add pleasure to the young people, yet the ground is sufficiently covered to protect the wheat and other grain.

A NEW YEAR'S GREETING.—Mr. Editor, as most of your correspondents were so thoughtful as to wish the Recorder and its many readers a "Merry Christmas," and while I was not one of them to openly express this wish, let me assure you that it was not because I do not appreciate the blessings of this paper that I did not extend the usual Christmas Greeting, but it was just a little negligence on the part of your correspondent, so, therefore, to make amends for this seeming neglect may I offer, and will not, a New Year's greeting, be just as acceptable? For as we enter on the threshhold of the year Nineteen hundred and three, we are filled with new hopes, new resolutions, and new desires, although these often bloom only to fade. But at the close of the coming year, may we trust that the book we have now opened, with its pages so pure and white, be found with the new hopes fully realized; these new good resolutions sacredly kept, and these new desires gratified; and may not one single blot be found upon its pages to mar its beauty and purity. But may our lives be more useful than ever before in past years; may our country be more prosperous, and its people more grateful and more worthy the blessings they receive, and at the close of this another year, may not one of them have any cause to regret a deed they have done, or an act they should have performed to promote the happiness and peace of a civilized world, and now, while the year Nineteen hundred and two has passed into oblivion with many others may we reflect on the things wherein we have been deficient along each line, and try in the future to make amends for all the wrongs done in the past, by embracing every opportunity which is offered us to promote the welfare of our God, our country, our State, our home and our Weekly Boone County Recorder, which adds so much pleasure, not only to those of its own county but to those who from various circumstances in life have left the home and friends of their nativity to seek health and prosperity in other States, and through the pages of this paper they are informed of the changes and events which occur in their absence, and are thus kept posted about their friends and everything worthy of mention. So, therefore, each and every edition of this paper is highly appreciated and anxiously awaited by all its readers, and with them, I extend the best wishes of the season to its editor for success through the coming year.

BUFFALO.

Dec. 27.—Mrs. Alice Neal and charming daughter, Imogene, were pleasant guests of P. P. Neal and wife, during the holidays.

Thomas Carlisle, of Bank Lick, was visiting friends here last Thursday.

Cage Stephens and wife, and Claud Ryle and wife dined with Homer Clore and wife, last Friday.

Harry Stephens has bought of J. L. Henderson the old Henderson homestead on Gunpowder.

Joe Huey and wife have been rejoicing over a bouncing boy at their house since last Tuesday, the 23d.

L. W. Stephens took his turkeys to the city, one day last week. They averaged him 17 cts per pound dressed.

O. W. Adams made this burg a call one day last week, and bought several crops of tobacco, at prices ranging from 5 to 7 cents.

Mrs. Emma Marshall has the whooping cough very badly. It seems to be no respector of person, as both old and young get their share.

There was a Christmas tree at Grange Hall on Christmas eve, which was enjoyed by a large crowd. The recitations and songs by the school were splendid. Miss Edna McElroy, the teacher, deserves credit for the way it was conducted.

T. J. Stephens and wife on Christmas eve entertained with an oyster supper, and after supper with a Christmas tree with presents for all. Those present were Mr. J. Rice, wife and son, L. W. Stephens and wife, Wood Stephens and wife and daughter, Cage Stephens and wife, Claud Ryle, wife and daughter, and Mrs. Thomas Carlisle.

VERONA.

Dec. 29.—J. G. Hudson spent the holidays visiting relatives and friends here.

Elmer Griffith had a new overcoat stolen at J. R. Johnson's party.

Mrs. Fay Rankins, of Tennessee, is visiting her parents, Mr. and Mrs. J. E. Ransom.

Prof. J. H. Craven, of Covington, came out home to spend the holidays with his old friends.

W. H. Adams and wife, of Cincinnati, were guests of Mr. and Mrs. James Hind, Xmas day.

We are having considerable winter here. The thermometer registered zero last Friday morning.

Mrs. A. Butler, of Tennessee, is visiting old acquaintances here. Dr. Butler resided here about 27 years ago.

Walter Fling and Miss Ida Vest were married, Wednesday, Dec 17, by Rev. Lafe Johnson, at the Methodist church.

J. R. Johnson gave the young people of the neighborhood an old fashioned play party Christmas eve night. It was largely attended.

Mr. Gul Thorp, thinking an unmarried life is not good for man, began himself unto the residence of Mrs. Fannie Powers, claiming her youngest daughter, Miss Katharine, for a bride. The two wended their way to the Queen City, last Wednesday, and were quietly married.

Last Wednesday evening, during the exercises at the Christmas tree here, one of our young men while acting Santa Claus, came very near being the victim of a serious accident. While in the midst of the exercises, Santa's robes caught fire from one of the candles, on the tree, causing a panic for a while. But, fortunately, several persons rushed forward and succeeded in tearing Santa's robe off before any serious harm was done.—[Who was impersonating Santa Claus?—ED.]

Conner & Hogan received the following cross of tobacco Monday: O. P Tanner's at $8 40; Lucleu Clore's at 6½c

WALTON.

Dec. 28.—Dr. Jim Adams encouraged by his sale of a ferret to Tom Johnson has bought more of them, but it may be a long time before another fellow comes along and gives a quarter of a century for another one.

Mr. and Mrs. Edward Stamler came down from Paris preparatory to a removal to that city, this week. Our metropolis is very sorry to part with him, as he was widely known for ability, energy and straight forward way of doing business and will make him a valuable addition to any place where these qualities are appreciated. He had a severe test on the Graded School house, but pulled thru it like a man and came out with flying colors. He shirks no duty or responsibility and is always on deck when labor is encountered. The talents and accomplishments in connection with the amiability of his charming wife (nee Miss Pearl Byrd), will make her an ornament to society wherever she may go. Her host of friends will long hold in remembrance her sweet lady like ways and earnest efforts to improve the condition of her sisters wherever she may be. Success to them in all the joys and perils of life wherever they may be is the sincere wish of the writer wherever they go.

Glasscock must be to some of the other tobacco buyers what the writer appeared to "Old Billy W——," of Carter, some 50 or 60 years ago. He had accompanied a very demure but very pretty and mischevious daughter of the old gentleman's home from a frolic and stayed around for a couple of days to the evident disatisfaction of the old gentleman, but to the thoro delight of the young lady. One morning when he could find no further excuse for remaining longer he mounted his horse and started for Greenupsburg. Along or about sundidge he made his appearance, claiming he had lost his way, and was again the guest of the Colonel. Miss Mary was in high glee. The young fellow was way out in Elysian fields. The next morning he noticed his horse carefully groomed, hitched to the rack; and after breakfast the host walked down to the rack and suddenly yelled toward a negro cabin, "Silas, come and show this gentleman the plain road to some plantation for upon the face of the living yearth he is about to become troublesome." So, with Glasscock. A fellow who was around here seemed annoyed that so much tobacco was being handled by him and started a report that Glasscock was limited to pay but 7c for tobacco, which the Walton man pronounced to be a lie with an adjective before the word lie (you know I never use profane language) But Glasscock is not only about to become—he is already troublesome, and says he will "show them a thing or two about limitation." He has bought in round numbers 85,000 lbs. of tobacco and it does not appear to be gratifying to some of the other buyers. I saw a good deal of the tobacco and it is of fair to good quality.

COMMISSARY.

Dec. 29.—Richard Louden and wife visited their son, Jesse, on Middlecreek, last Sunday.

J. J. Lillard has been confined to the house several days with a severe cold.

Misses Artie Ryle and Maud Scott spent Christmas day with Miss Lizzie Rogers.

Jacob and Artlass Fleek spent Thurs day with their sister, Mrs. Ed Burris, near here.

Ira and Stella Ryle started on a visit Thursday to their brother living in Rush county, Ind.

Bernard Rogers and wife visited her father and brother, W. T. Ryle and wife, Saturday night and Sunday.

Misses Myrah Craig, Sadie Crisler, Bessie Berkshire, John Cloud and Rex Berkshire spent Thursday with W. I. Rouse and family.

Sylvester Fleek and wife, Charley Slayback and wife, Miss Grace Slayback came down from near Limaburg and Erlanger on a visit to relatives and friends here, last week.

Wm. Slayback entertained with a card party, Wednesday night. After the guests had tired of cards Misses Grace Slayback and Stella Garland entertained them with some splendid instrumental music.

Rex Berkshire and Sadie Crisler, Lelle Goodridge and Birdie Horner, Carl Rouse and Myrah Craig, Bert Berkshire and Minnie Hilkers, John Cloud and Lizzie Hilkers attended the matinee at Cincinnati, last week.

Everybody here is rejoicing because Miss Grace Slayback won the lamp at the entertainment in Bellevue, Saturday night, she having received the greatest number of votes as the prettiest young lady. If your humble scribe had been at the entertainment, and Billy Slayback had had his hair cut, the Commissary would have carried off all the honors.

When Fleek and wife, Slayback and wife, Misses Grace Slayback and Stella Garland came down Wednesday evening, Grace and Stella stopped at Wm Slayback's, while the others went to Nick Fleek's, and Thursday evening they came back to Mr. Slayback's, and he entertained with a play party that night, and on Friday night Rolen McCauley entertained with an oyster supper and play party.

The following turkeys have been sold within a mile of this place this season: Mrs. T. J. Walton, 51 turkeys, 850 lbs at 9c; Mrs. W. I. Rouse, 36 turkeys, 500 lbs. at 8½c; Mrs. Lou Scott, 30 turkeys, 333 lbs. at 8c; Mrs. Wm. Snelling, 39 turkeys, 536 lbs. at 9c; Mrs. Ben Cason, 81 turkeys, 1208 lbs. at 9c; Mrs. Gene Kelly, 18 turkeys, 249 lbs. at 8½c; Mrs. J. J. Lillard, 27 turkeys, 431 lbs. at 8c; Mrs. W. B. Walton, 18 turkeys, 319 lbs. at 9c; Mrs. Wood Sullivan, 26 turkeys, 398 lbs. at 8c; Mrs. W. T. Ryle, 9 turkeys, 129 lbs. at 8c.

Christmas has passed— everything went off nice at the Commissary. There were the usual number of b. j's. but their contents was partaken in moderation, consequently no drunks or scrapping. Several nice presents were received. Christmas is a time for love and kindness, a time for peace and good will. It is a time to give gifts and make little presents and to brighten up the homes of the poor. If we have nothing else to give we can certainly give a smile to those we meet and wish them a happy Christmas. The good even this may do, and the happiness it may bring cannot be estimated.

Early last Thursday morning the sad news reached here of a fatal stabbing affray at Williamstown, in which Claud McGuire, a former resident of this county, lost his life. John McGuire, his father, and Jasper a brother left for Grant county immediately. An account of the killing has already been given in the Cincinnati paper. His remains were laid to rest Friday in the Mt. Zion cemetery. Claud had his faults, we all have them; none are perfect, but with his faults he had many good qualities of heart. In sickness there was none better nor kinder than Claud. Let us remember only his good qualities. We extend our sympathies to the bereaved relatives.

PETERSBURG.

Dec. 29.—This has been a very quiet Christmas—no disorder of any kind.

Some ice floating in the river.

Miss Bessie Ruth received a nice Christmas present.

John W. Early and wife are visiting his brothers and sisters here.

Mrs. Ira Theetge is still living, but there is no hopes of her recovery.

The many friends of Miss Georgie Parker are glad to see her out again.

Miss Nettie Cave visited friends at Moores Hill, Indiana, during the holidays.

S. G. Botts, one of our oldest citizens, as well as one of the best, is quite feeble.

Dr. Ray Grant, one of the best young dentists in Louisville, is visiting his parents here.

Commodore James Leak is having bad luck with his purchase of swine—all of them died.

Jesse Waldon, son of Ed Waldon, who use to live at Hattsburg, is on the Cincinnati police force.

At the close of Rev. Jones' last sermon here, Miss Katie Bachelor united with the Christian church.

Earl Whiting is home from Lexington, enjoying the holidays with his friends and his grandmother.

Miss Rae Alcorn, of Little Rock, Arkansas, is the guest of her graudparents, Mr. and Mrs. D. C. Alcorn.

Rev. Edgar D. Jones preached his last sermon at the Christian church here, Sunday night the 20th inst.

H. W. Blyth, an old Burlington boy seems to be doing a rushing business with his meat emporium at Aurora.

Mrs. Alex. Hyatt is visiting her sons in Pittsburg, and the venerable Captain has spent a lonesome Christmas.

The beautiful to the depth of several inches, fell here last night, and is falling yet at eight o'clock this morning.

Miss Girtie Collier is home from Constance, and reports the health of her aunt, Mrs. Leon Loder, as very much improved.

For Rent—Good house and 11 acres near N. S. Walton's. Call on A. B. Rouse at Burlington, or J. B. Tolin at Petersburg.

Fine skating on the Tanner creek slough across the river opposite here, and several hundred of persons enjoyed the sport Sunday.

The town seemed almost deserted on Christmas day. All were partaking of good dinners. Your correspondent dined with W. F. Hensly and his estimable wife.

Dr. E. P. Berkshire, of Nashville, Tennessee, is visiting his brother, B. H. Berkshire, near here. Eugen is the leading druggist of his city. He sees Henry Lassing and Perry Stephens every week.

Frank Collier, who is night watchman for the Lawrenceburg Coal Co., fell into the river near the wharf boat, last Saturday, and it was only through effort that he kept from being carried under the barges near by. The only inconvenience he experienced was the severe cold.

About 200 persons attended the exercises of the Christian Sunday school at Gordon's Hall, and for noise and confusion it excelled any crowd we were ever in. All was good natured, and the supper was a success. E. L. Helms had charge of the meetiug, and first introduced the apple eating contest, which was won by Paul Randall. This contest afforded a great deal of amusement for the audience. The pie eating contest, between three girls, was won by Mattie Leak. Pinning the tail on the mule was funny, but no one was able to locate the proper place for the caudie appendage. The last and the most interesting was the hair combing contest between four boys, Simmie Dick Deiph with Gus Gordon and Billy Slayback had had his hair cut, the Commissary would have carried off all the honors.

When the Christmas exercises at the Methodist church opened last Wednesday night, every seat in the church was occupied, and a great many were standing. Fairly good order prevailed and all seemed pleased. Ringing the Bells for Christmas, by the choir, and prayer by Rev. Cook, after which came the Christmas Greeting by Clifford McWethy, a wee little tot. Then, Christ is Coming, by the choir, and recitation by Olivia Allen. Cradled in the Manger—Agnes Thompson, Clifford McWethy, Adam Veseimont, Paul Hensly, primary class. A good piece was rendered by Miss Ollie Witham. When Good Old Chris Comes Around—Misses Lelia Thompson and Katherine Cook. Heaven—Leonard V. Hoffman. A nice recitation was the song of the Redeemer, by Miss Ethel Hensley. Santa Claus and the Mouse was well rendered by Eugene Gordon. Christmas Day has Come, by Henriette Giesler, and a Letter from Santa Claus, by Ira Lee Thompson, pleased the audience. Lyman Cristy's Peace on Earth and Good Will to Man, was nice. The Tale of the Christmas Tree by Miss Lelia Thompson, ended the program, when Ed Witham, as old Santa Claus, took charge and distributed the presents. Mrs. T. B. Mathews superintended the decoration of the tree, and it was beautiful, indeed.

MOUND FIELD

Dec. 29.—Get your ice houses ready. Ice is 3 inches thick on the creek and getting thicker.

Charlie Clore handled over 400 turkeys for the Christmas trade, and realized a good profit.

Harve Aylor sold 50 turkeys for $97 44, almost as much as a bunch of hogs—that is a small bunch.

Everybody in this vicinity got a Christmas present of some kind, except Jake Crigler. Santa Claus did not find Jake's socks.

Mrs. James Dyre, of Taylorsport, and Mrs. Charles Robinson, living on the Gordon farm, each presented her husband with a fine boy, last week. All are doing well.

The road between her and Limaburg was so rough, last Saturday, that it was with difficulty a person could drive over it at all. Bud Baker, did, however, but the shaking up he got broke the crystal in his watch in his pocket, and he was minus nearly all of his overcoat buttons when he got to Hebron.

What came very near being a disastrous fire in Hebron, Christmas eve, was only prevented by the heroic efforts of a few determined men. John Kelsa was entertaining a few of his friends with an oyster stew, and, by some mishap the gasoline stove turned over, spilling the oil, which ignited. For a few minutes the room was enveloped in flames. After the oil had been consumed the fire was got under control by the bucket brigade. No one was seriously burnt, although some took desperate chances.

Some person or persons attempted to rob Charley Clore's market wagon of some dressed turkeys, last Monday night. They got away with two, leaving the third on the ground outside the barn, where the wagon was corraled. After the household had retired for the night, a noise at the barn awoke some of them. Leslie Aylor rushed out and when the thieves saw him they ran. Leslie opened fire on them and he is of the opinion his shot took effect, tho were not serious enough to cause the rascals to drop the turkeys they had secured.

GUNPOWDER.

Dec. 29.—W. N. Surface is on the sick list—heart and lung trouble.

Mrs. W. R. Tanner is on the sick list.

Elbert Vaughn is figuring on a proposition to move to the city.

A happy New Year to the RECORDER and all of its correspondents and readers.

It has been snowing for about four days and we have about four inches of snow.

E. H Surface presented his oldest daughter, Miss Ottie, a handsome gold watch as a Christmas present.

Miss Viletta Rouse received, for a Xmas present, a fine Steinway piano presented by her parents, E. O. and Minnie Rouse.

John Swin, our efficient sexton at Hopeful, received, a number of nice presents as tokens of appreciation of his good work.

The annual congregational meeting will be held at Hopeful church Jan. 6, 1903. A good attendance of the membership is desired.

Jerry Carpenter and family, of Richwood, spent Xmas day at Gunpowder, guests of W. N. Surface, who feasted them on fat goose and all other delicacies of the season.

Saw Dave Houston, of Verona, in Covington, last Wednesday, and from the number of bundles he was carrying, we believe he is a member of the firm of Santa Claus & Co.

B. C. Surface and wife entertained with a turkey dinner Xmas day. Those present were Rev. Slater and family, H. F. Utz and wife, Noah Surface and wife, and the writer and family. A most delightful time was had by all present. The special feature of the afternoon was some very beautiful music rendered by the Gunpowder quartette. Every line instrumental music was rendered by Mrs. H. F. Utz and Miss Lelia Floyd.

The Christmas exercises at Hopeful, last Friday, were a success in all of their features. The decorating committee deserves special mention for the manner in which it did its work, the decoration adding very much to the beauty of the scene. The exercises consisted of a Cantata, little Santa Claus' Dream, which was rendered by the Sunday school to the satisfaction and delight of a large and attentive audience. At the close of the above exercises a beautifully decorated Xmas tree was unveiled. It was laden with presents, some of which were valuable. It contained several handsome, ladies gold watches, which were presented to the following: Misses Ethel and Kittie Tanner, Susie Snyder and others whose names the writer failed to secure. Each member of the Sunday school was remembered with a big sack of candy, oranges, &c.

RABBIT HASH.

J. P. Ryle sold his tobacco to Hubert Brady at $6 75.

Alferd Wingate has returned from Connersville, Ind., where he was at work.

There is strong talk of justituting a lodge of Masons at Rabbit Hash, and we sincerely hope it will be a success.

Christmas passed off very quietly here, and the wedding predicted failed to materialize, which goes to show how unreliable human nature is.

Miss Katie Craig and Miss Bess Van Ness are at home from their schools, spending the holidays, also Miss Lolla Ward, who teaches at Big Bone.

Lunsford Stephens and wife gave the young folks a dance, Friday night and on Saturday night Walter Ryle and wife gave a dance. Both were well attended.

The undersigned hereby give notice that their lands are posted against all kinds of trespass, and especially against trapping, setting dead falls or snares: R. L Willis, J. S. Mason, N. S. Bristow, M. L. Utz, J. H. Aylor.

RICHWOOD.

Mrs. Fielding Dickey is no better.

Excelsior Grange meets Saturday Jan. 3rd, at 2 p. m.

J. J. Tanner and family spent Christmas day with relatives in Covington.

Harry Soden has returned from Iowa, where he has been working for several months.

A large crowd attended the entertainments at Hughe's Chapel and Richwood church.

Shelby Conner and Bud Fahay are home from Illinois, where they have been for a year.

Jas. Coleman has vacated the house recently occupyed by him and moved——. Where?

Hubert Carpenter, of Crescent, has taken our telegraph operator's place, he going to Dry Ridge.

Mrs. Mary Fields and Mrs. Georgie Carpenter lost their pocket books in Covington, while shopping last week.

A two roomed house on wheels passed through here Saturday, occupied by well-to do movers. They had two good horses and everything nice and handy.

Charles Finn and Miss Mary Carpenter were married at the residence of the bride's parents Tuesday afternoon in the presence of the intimate friends and relatives. Rev. Adams officiated.

BELLEVUE.

Dec. 29.—Chas. Deck is home for the holidays.

Chas. Clore is home from off of the river for a few days.

Irvin Rue and wife were guests of Henry Wingate and wife at Waterloo, Sunday.

Mrs. Carrie Bradford and children were visiting her mother in the city last week.

G. T. Rue and wife spent last Sunday with David Williamson and wife, of Beech Grove.

Will and Ed Maurer are home to enjoy a few days with their parents and brothers and sisters.

Chas. Birkle and wife, of Burlington, spent a couple of days here, last week, with their parents.

Miss Genie Moody arrived home, last week, after a visit of several weeks with relatives in Ohio and Indiana.

I do not think there was a person in this neighborhood on Christmas day, so sick as to be confined to his or her room.

When you see Irvin Rue ask him to show you the Christmas present he received from Manchester Ind. It's a daisy.

A happy and prosperous New Year to our old friend W. L. Riddell and office force, correspondents and readers of the Recorder.

Nat Carpenter and wife, of Burling ton neighborhood, spent several days last week, with Mrs. Carpenter's parents at this place.

Christmas day Mr. and Mrs. B. F. Rogers entertained with an elegant dinner. A large number of friends shared their hospitality.

Amy Smith, little daughter of Dr. G. T. Smith, has returned to her home in Welsburg, Indiana, after a visit of seven weeks with her uncle, John, and her aunts, Misses Genie and Emma Moody, near here

The members of the Christian church here remembered the Sunday school scholars, last Sunday, with candy, oranges and cards. Our school is growing in interest and attendance. We hope it will continue.

We had the pleasure, one day last week, of meeting our young friend, A. B. Rouse, of Burlington, while on his way to Rising Sun. We think Congressman Gooch made a wide choice in the selection of a secretary.

Everybody was glad to see a white Christmas. Very little preparation was made in this neighborhood for celebrating the day. There was no worship at either of the churches. Most of the people spent the day at their own firesides.

The entertainment at the I. O. O. F. Hall, given by T. J. Clore, was a success. Miss Grace Slayback received the largest number of votes as the handsomest lady and received the prize lamp. Johnnie received a box of cigars as the handsomest man. Jasper McGuire, a box of cigars as the homliest man.

LIMABURG.

Dec. 30.—Miss Dora Baker is home from Dayton, Ohio.

A big turkey dinner at Henry Clore's, last Sunday.

The first sleighing of the season came in on the 29th.

Julius Rouse, of Arlington, Ky., was here on the 27th.

Herman Gibbeu entertained with a bountiful dinner on Christmas day.

Owen Aylor and wife entertained in a royal manner, last Saturday night.

Limaburg celebrated Christmas in due form with appropriate fire works.

A large nnmber of Ed Snyder's friends enjoyed a turkey dinner with him Monday.

Your correspondent wishes the entire Recorder force a happy and prosperous new year.

Dogs killed Everett Dixon's flock of sheep considerably, Monday. The dogs were killed.

Mrs. Emma Rouse had Henry Tanner and wife and James Tanner and wife, of Florence, for guests, Monday.

A Million Voices

Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled off his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use Dr. King's New Discovery for Consumption and writes—"it completely cured me and saved my life. I now weigh 227 lbs." It's post ively guaranteed for Coughs, Colds and Lung troubles. Price 50c and $1 00 Trial bottles free at W. F McKim's, Burlington; Union Drug Store, Union; J. G. Oeisner's, Florence; A. W. A DOMESTIC TRAGEDY.

Killed Himself After Shooting His Sick Wife Three Times.

Kansas City, Mo., Dec. 26.—Wm. P. Hollenback Thursday, while in a fit of rage caused by domestic troubles, shot his wife three times as she lay in bed ill, drove his 17-year-old stepdaughter into the street at the point of a revolver, and then shot and killed himself. The wife is dangerously wounded.

Hollenback and his wife had quarreled repeatedly of late and recently separated by mutual agreement. He was to have been tried in police court Friday on the charge of mistreating her and he tried Thursday to effect a reconciliation. Failing in this, he locked the doors of the apartment, and with the remark: "Here's a Christmas present for you," shot his wife as she raised herself in bed to receive the expected gift. The desperate man then turned the weapon upon his step-daughter, who managed to unlock a door, after which he sent a bullet into his own heart and died instantly.

COLD-BLOODED MURDER.

Christian C. Rauck Killed By a Man Discovered in His Cellar.

Lancaster, Pa., Dec. 26.—Christian C. Rauck, aged 25, a farmer residing with his father, Benjamin Rauck, near Paradise, this county, during Wednesday night was murdered in a cold-blooded manner. Young Rauck went out to attend to the incubator in his hennery. As he was returning to the house he noticed that the cellar door of the house was open. He started to close it and as he stooped to do so he saw a man in the cellar. Without a word the stranger shot him in the abdomen with a revolver and then fled. Rauck fell mortally wounded, but recovering himself, staggered into the house where his aged mother lay dying from apoplexy. Two hours later he died. The murderer left no clew as to his identity. Snow had obliterated his footprints by the time pursuit began.

THE WALL FELL.

Firemen Buried Under the Debris—Three Were Killed.

New York, Dec. 26.—Fire Friday morning destroyed the cooperage plant of the Arbuckle Bros.' sugar refinery located near the East river front in Brooklyn. The large force of engines and firemen which was summoned succeeded in confining the flames to the cooperage shops.

During the progress of the fire one of the walls of the building fell, burying the members of one of the fire companies beneath the mass of bricks and other wreckage.

When the other firemen had arrived at the pile they found Michael O'Toole was dead and Thomas Coppinger, a battalion chief, and Thomas McCarthy very severely hurt.

Battalion Chief Coppinger died after being taken to a hospital, and the dead body of Assistant Foreman Thomas was found in the ruins of the fallen wall. The loss is $100,000.

A DISASTROUS FIRE.

Four Persons Were Burned to Death at Piercefield, N. Y.

Malone, N. Y., Dec. 26.—Four persons were burned to death Thursday in the house of Julius King, of Piercefield, a prominent pulp and paper manufacturing town in the Adirondacks. The fire had gained such headway before it was discovered that Mrs. M. J. McGovern, King's eldest daughter, and her three children who were sleeping on the lower floor were not able to get out and all were burned to death. One of the children, whose body was found close to a window, evidently had made heroic efforts to escape. King and his wife, with a few boarders on an upper floor, escaped by jumping out of the windows. One man was seriously burned. It is not known how the fire started.

Fireman and Engineer Killed.

Lincoln, Neb., Dec. 26.—A clerical error in the commutation of the sentence of Rev. Rowland P. Hills, bigamist, will prevent his getting his liberty until April, 1904. A mistake of one year was made in calculations.

WARMLY WELCOMED.

Colonial Secretary Chamberlain at Durban, Natal.

A Frank Speech Delivered By Him Intended to Allay the Fears and Gain the Confidence of the Burghers.

Durban, Natal, Dec. 27.—Colonial Secretary Chamberlain and Mrs. Chamberlain, who left Portsmouth, Eng., November 25, on board the armored cruiser Goodhope, landed here at 10:30 Friday morning. They received a warm welcome from crowds of people.

The long speeches made by Mr. Chamberlain in the course of the reception functions were notable for their strong tone of conciliation and his expression of confidence in Lord Milner, British high commissioner in South Africa. Bearing in mind seemingly the rumors that his visit would lead to the displacement of Lord Milner, Mr. Chamberlain declared his belief that his visit would have the effect of strengthening the hand of Lord Milner, who, he hoped, would be as great in conciliation as he had been in the maintenance of the rights of the empire.

Referring to the war, the Colonial secretary said the Dutch and the British had fought in courageous rivalry. Between the two races not kindred in origin or nature, such a struggle for supremacy had been inevitable. From that struggle two proud and kindred races would grow in mutual respect, appreciation and lasting friendship.

"Victor and vanquished," said Mr. Chamberlain, "bravely played their parts. We scorn to glory in our triumph; the enemy need fear no humiliations in their defeat. Let us see, as Britons worthy of the name, that nothing be done to revive the animosities of the past. We must give our new fellows equality of position with ourselves. We ask, however, something in return; it is with them that the issues lies. We hold out our hand and ask them to take it without thought of the past, but frankly and in the spirit in which it is offered."

Mr. Chamberlain elaborated his theme with eloquence and was loudly encored. He announced incidentally the acceptance of the Boer offer to fight in Somaliland.

ALEX GRAHAM BELL.

Gives An Idea of a Properly Constructed Flying Machine.

Washington, Dec. 27.—Dr. Alexander Graham Bell, who has just returned to Washington from his summer home in Cape Breton island, Friday night made the following statement in connection with reports that have appeared in the public prints that he has invented a flying machine:

The newspapers have been premature in announcing that I have been at work upon a flying machine. I have not any flying machine at all, and have not been trying to make one. I am, of course, interested in the problem, and have come to the conclusion that a properly constructed flying machine should be capable of being flown as a kite, if anchored to the ground, and that conversely a properly constructed kite should be capable of use as a flying machine provided with suitable means of propulsion.

"My experiments have had as their object the building of a kite of solid construction capable of carrying up in a moderate breeze a weight equivalent to that of a man and engine, and so found that it could be suitable for use as the body of a flying machine and with supporting surfaces so arranged that when the kite is cut loose it will come down gently and steadily and land uninjured. I have successfully accomplished this, but do not care at the present time to make public the details of construction."

MERCHANT MURDERED.

Safe Robbed of $1,200 and the Store Burned Down.

Matthews, Ga., Dec. 27.—Edward Gay, a merchant running a store six miles from here, was murdered early Christmas morning and his store burned. His safe, which contained $1,200, was found open and the money gone. Mr. Gay was called from his home by an unknown man who asked him to change a bill. Not having the money, Gay walked with the man to the store and did not return. His skull was found in the ruins of the store.

Railroad Building.

Chicago, Dec. 27.—According to the Railroad Gazette railroad building in the United States for 1902 aggregated 6,026 miles, a total not exceeded in any year since 1888. Second track, sidings and electric lines not included.

Mascagni Arrested.

Chicago, Dec. 27.—Signor Pietro Mascagni, the Italian composer who abandoned his American trip while playing in Chicago last week, was placed under arrest Friday night on a charge of embezzlement by his former manager, Richard Heard.

To Fight For Statehood.

Denver, Col., Dec. 27.—A special from Santa Fe, N. M., says: Gov. Otero has started with his wife and son, Miguel, for New York. From there he will go to Washington to engage in the fight for statehood.

THE ISLAND OF GUAM.

Annual Report of Commander Seaton Schroeder.

Washington, Dec. 27.—The annual report of Commander Seaton Schroeder, governor of the Island of Guam, which is dated July 16, and which has just reached the navy department, owing to the failure of congress to appropriate the sum asked for last year. The receipts last year were in round numbers $66,000 and the expenditures $57,000, leaving a balance of $8,000, which, however, is a decrease of over $13,000 in the cash balance for the preceding year. This loss is due largely to the unexpected expenses incident to the establishment of the leper colony and the decrease of over $10,000 in import duties.

Commander Schroeder reports that it has been deemed prudent to stop all work of public improvement until further appropriations are made. The value of exports and imports during the year have been respectively $35,549 and $35,165. The exports consisted almost entirely of Mexican dollars. Not a pound of copper has been exported, and neither cocoa or coffee has been produced in sufficient quantities to supply the home market, owing to the slow recoveries from the effects of the hurricane of 1900.

The governor recommends that if a Philippine silver dollar of fixed value is to be coined under the laws of the United States, that it be made legal tender also in Guam in place of the present Mexican dollar. The census of the island taken last autumn shows the total population to be 9,676, of whom only 46 are foreigners, 14 being citizens of the United States. The latter does not include officers and men of the navy or other civil employes, temporarily imported from the United States. Above the age of 7, 46 per cent. of the natives read and write Spanish. He says that the natives still continue to refuse to allow their sick to receive medical attention, but that conditions are improving, an excess of births over deaths being shown for each of the last two years.

Commander Schroeder says that there are now 24 lepers in seclusion at Tumon bay. The governor recommends improvements in facilities for education and also that the laws for the government of the islands should be remodeled and modified. The governor says there is a desire for United States citizenship among persons domiciled in the island. He calls attention to the case of Pedro M. Duarte, at present the auditor of the island. He occupies an anomalous position. He was an officer in the Spanish army who resigned after the war and who obtained an acceptance of renunciation of allegiance. The result is that to-day he is a citizen of no country.

THE EARTHQUAKES.

Fifteen Thousand Houses Destroyed—People Living in Cars.

Ashkabad, Russian Turkestan, Dec. 27.—The oscillations of the earth at Andijan continues. The people there are using railroad cars to live in so they are not leaving town on account of their business interests. Committees have been appointed to prepare lists of the losses to life and property in the Andijan district 15,000 houses were destroyed. Until the shocks cease, guards will be kept on the railroad between Fedohenks and Andijan to watch for fissures along the line. The railroad station at Andijan threatens to collapse. Barracks to be used as dwellings are being rapidly constructed and will soon be ready for occupancy.

NOVELTY TO BE INTRODUCED.

The Santa Fe Co. Will Build a Railroad By Electric Light.

Chicago, Dec. 27.—Building a railroad by electric light is a novelty which will be introduced by the Santa Fe Co. when it begins construction of its cut-off to connect Pecos Valley line with its main line in New Mexico. In the construction of the cut-off line, which will begin within two months, 500 men will be put to work in Abo Pass canyon and a large electric light plant will be installed at the mouth of the canyon, so that men can work at night as well as day.

Appointed Chief of Sculpture.

St. Louis, Dec. 27.—Carl Theodore Francis Bitter has been appointed chief of sculpture of the Louisiana Purchase exposition, taking the place of Frederick W. Ruckstuhl, resigned. Mr. Bitters early home was in Vienna, Austria, where he attended art schools and studied sculpture.

Mill To Be Put In Operation.

Sharon, Pa., Dec. 27.—It was announced Friday that the Greer tin mill at Newcastle would be put in operation on the first Monday in January. The Shenango plant will begin operation of 20 of its 30 mills at the same time. The mills have been idle since July.

Village Almost Destroyed.

Vicksburg, Miss., Dec. 27.—Glenn Allen, a village in Washington county, with a population of between four and five hundred was almost totally destroyed by fire Friday morning, only two business blocks and an oil mill being saved.

Natural Gas In Wyoming.

Douglass, Wyo., Dec. 27.—Natural gas has been discovered 13 miles west of here in an oil well. The gas threw gravel and sand far above the derrick and was accompanied by a small flow of oil.

WILL PAY HER DEBTS.

Guarantees Them By a Percentage on Customs Receipts.

It Is Understood Venezuela Will Make Any Concessions, Even Abandoning Her Demand That Her Navy Be Returned.

Caracas, Dec. 29.—United States Minister Bowen and Lopez Baralt, Venezuelan minister of foreign affairs, held a long conference Saturday night. Mr. Bowen, on receiving instructions from Washington, conveyed to Senor Baralt President Roosevelt's refusal to act as arbitrator in the Venezuelan difficulty. He recommended that the matter be taken to the international peace court at The Hague, which had been expressly organized to consider questions in which the honor of a country or the disposition of territory were not concerned. He suggested the organization of a commission to sit in Washington by their ambassadors to the United States and Venezuela by a delegate. The commission is to sign a document setting forth the matters to be decided at The Hague court. Mr. Bowen said also that Germany would not press for an immediate payment and that she had agreed to accept a guarantee based on a percentage of the customs receipts.

As a result of this conference Senor Baralt telegraphed President Castro to return from La Victoria. The president will reach here Monday and Venezuela's answer to the foregoing proposal will be given then.

It is understood that Venezuela will make any concessions, even abandoning her demand that her navy be returned. Through the Venezuelan delegate to the commission the Venezuelan government will ask that the blockade be lifted at once. Senor Baralt has expressed the desire that Mr. Bowen represent Venezuela on the commission; if Mr. Bowen can not accept the post it is suggested in official circles that it be given to W. W. Russell, secretary to the American legation.

Senor Baralt has Prepared the following statement for the public:

"Venezuela agrees to pay all her debts, the payments to be guaranteed by a certain percentage of the customs receipts or by the flotation of a special loan, also to be guaranteed. I believe the proposal to submit the issues to The Hague will be acceptable to President Castro. I am sorry that President Roosevelt was unable to act as arbitrator."

Willemstad, Curacao, Dec. 29.—The Venezuelan revolutionists have resumed active hostilities against President Castro. There occurred Saturday morning a lively engagement between 1,200 revolutionists, under Gen. Riera, and government forces at Cauyawao, in the vicinity of Coro. Details of the engagement are lacking, but it is known here that the revolutionists had artillery. The government forces were commanded by Gen. Referno Castillo. Gen. Riera retained his position.

The armistice between the government and the revolutionists has just expired.

News has reached here from an authoritative source in Caracas that Vicente Gomez, first vice president of the republic, intends to carry out a bold strategic stroke against President Castro.

Gen. Zollo Vidal and five other leading supporters of Gen. Matos, who had sought refuge here, left the Island of Curacao early Saturday morning in a sailboat, which took them in the direction of Cumarebo near Coro, on the Venezuelan coast. The departure of these men is taken as proof that the revolt against President Castro is again active.

BABY FARMING CONSPIRACY.

It Is Charged That 300 Children Were Killed By a Japanese Family.

Victoria, B. C., Dec. 29.—Correspondence received from Yokahama by the steamer Tartar includes details of a horrible baby farming conspiracy in Osaka. An elderly woman, her married daughter, husband and two other persons have been arrested for infanticide, and it is learned that since they started operations this year 300 children were killed.

The Japan Times has an account of a Japanese of Kochi having been married to a corpse. The bride-elect committed suicide on the eve of her marriage. The body was recovered and at the request of the dead girl's parents the ceremony took place between the living and dead.

Will Demand An Increase in Wages.

Springfield, Ill., Dec. 29.—W. D. Ryan, secretary-treasurer United Mine Workers of Illinois, in a statement, says that the miners of the United States will make a demand for a material increase in wages at the national convention at Indianapolis on January 19.

The Blockade Will Continue.

London, Dec. 29.—A dispatch to the Central News from Rome says it has been semi-officially announced that under special agreements the blockade of the Venezuelan coast by the allies will continue during the arbitration of the issues.

Sultan's Family Captured.

Brussels, Dec. 29.—The Dutch government received a telegram from Batavia, Dutch East Indies, announcing the capture of the sultan's family in the mountains of Achin, Sumatra, where they had taken refuge.

A FINE COUNTRY.

Resident of Ohio Says Western Canada Is an Ideal Land for Farmers and Ranchers.

A delegate from Ohio to Western Canada says: "The whole of Western Canada seemed to me to be a very fine country, but I spent most of my time about thirty miles east of Lacombe, in Alberta, near what is popularly known as the coal banks on the Red Deer River, and I am very pleased to report that the country appears to be everything that the Agents of the Canadian Government have claimed for it. Good water can be obtained almost anywhere from 17 to 40 feet, and fed generally by springs. The natural hay and grass were magnificent in their growth and wild pea vines very heavy. I met some of my friends who moved there seven years ago and two brothers who had absolutely nothing on their arrival seven years before now own two and a half sections of land and 175 head of cattle. They told me that they did not feed their stock all winter, in fact, never saw them again until the spring, when they came home fat and without loss. I gathered oats 6 ft. 4 high and running from 75 to 100 bushels per acre. It appeared to me that all grasses, wild and cultivated, grow to perfection in any part of Alberta that I saw, and the farmers were cutting from two to three tons of wild hay to the acre. I found the climate very desirable in every respect, and I am told that the winter is the finest part of the year. There is plenty of coal and wood to be had near at hand for the hauling, and such is my satisfaction with the country that I acquired some land and have put a bunch of cattle thereon. I can confidently recommend Western Canada as a suitable place for farmers to immigrate to, and can assure them the kindest treatment by the people there, so much so that one does not distinguish the fact that we have left the boundaries of the United States."

Hugh Spender, of the Westminster Gazette, one of the British Journalists who visited Canada this summer (1902), says: "We fell in with a young farmer from Somersetshire, England, driving a binder round a hundred acre field of wheat in Western Canada. In conversation I found that he came from within fifteen miles of my old home in Somersetshire. Here was the very man we wanted. He had come to Manitoba ten years ago, with a capital of $12 on landing. In England he had been employed on a dairy farm, and earned eighteen shillings a week. He now owns 320 acres of land, his horses, buildings and cattle, and expects to have 4,000 bushels of wheat this season. We had heard of such things in the old land, but they did not seem credible, until we came to this living example of the strides that it is possible to make in Manitoba. Had this man remained in England, it is pretty safe to say he would still be earning no more than eighteen shillings a week, while in the same period in Manitoba he has become a substantial and prosperous farmer."

"I know a man who commenced in Assiniboia, 15 years ago, with no means; no capital. To-day this man owns 7,000 acres of land, some 30 horses, 30 or 40 bullocks, cows, etc. He has built a good stone house with his own hands, and has now married and is doing well, with every prospect of increasing his means in the future. Western Canada has the most exhilarating, bracing climate I ever knew. All that is required in the settler is perseverance, grit, patience and hard work. I will guarantee the country, if you will guarantee the man." From letter from a retired officer in the British army.

Prison Warden—Yes, ma'am. He is one of the loveliest murderers we have.—Chicago News.

RECORD OF THE PAST.

The best guarantee of the future is the record of the past, and over fifty thousand people have publicly testified that Doan's Kidney Pills have cured them of numerous kidney ills, from common backache to dangerous diabetes, and all the attendant annoyances and sufferings from urinary disorders. They have been cured to stay cured. Here is one case:

Samuel J. Taylor, retired carpenter, residing at 312 South Third St., Goshen, Ind., says: "On the 25th day of August, 1897, I made an affidavit before Jacob C. Mann, notary public, stating my experience with Doan's Kidney Pills. I had suffered for thirty years and was compelled at times to walk by the aid of crutches, frequently passed gravel and suffered excruciatingly. I took every medicine on the market that I heard about, and some gave me temporary relief. I began taking Doan's Kidney Pills, and the results I gave to the public in the statement above referred to. At this time, on the 19th day of July, 1902, I make this further statement, that during the five years which have elapsed I have had no occasion to use either Doan's Kidney Pills or any other medicine for my kidneys. The cure effected was a permanent one."

A FREE TRIAL of this great Kidney medicine which cured Mr. Taylor will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

A TERRIBLE WRECK.

Twenty-Eight Killed and Many Hurt on a Canadian Road.

The Operator Who Failed to Deliver the Order to the Conductor Says It Was Cancelled by the Dispatcher.

London, Ont., Dec. 29.—There were no deaths Sunday among the persons injured in Friday night's collision at Wanstead, on the Sarnia branch of the Grand Trunk railroad between Pacific express No. 5, west-bound, and an east-bound freight in which 28 persons lost their lives. At Victoria hospital several of the injured are still in a serious condition but it is expected that all will recover. The body of Fireman Ricketts, of the express train, which was Saturday night believed to be buried under the wrecked engines, was found Sunday covered with snow in the ditch beside the track. One arm was completely torn off and the body was otherwise mangled. Death must have been instantaneous.

Andrew Carson, the operator at Watford, the first station east of the wreck, whose failure to deliver orders to Conductor McAuliffe, of the Pacific express, to pass the freight at Wanstead, is said by the Grand Trunk officials to have caused the wreck, Sunday afternoon made his first statement since the wreck. He says he received the order for No. 5, the express, to pass the freight at Wanstead at 9:48 o'clock. but declares positively that a few minutes later Dispatcher J. G. Kerr, at London, called him and ordered him to "bust" or cancel the order. He said: "About 9:54, after calling Wyoming and ascertaining that the freight was there the dispatcher called me rapidly a half dozen times. When I answered on the wire he told me to 'bust' this order. I wrote 'bust it' across the order just as No. 5 was coming in. Conductor McAuliffe came in and asked me what the order board was out against him for. I told him that we had an order for him but the dispatcher had 'busted' it. He asked me to hurry and write him a clearance order, which I did. After the train had started and was out of my reach the dispatcher learned that the freight had left Wyoming. I told him I could not stop No. 5 as it had left. He immediately began calling Kings Court Junction, the station between Watford and Wanstead on the railroad wire and I tried to raise them on a commercial wire. We both failed to do this, however until after the express had passed the junction."

One of the most pathetic features of the wreck is the triple loss sustained by the Bodley family, of Port Huron, in the death of Mrs. J. Bodley, son Clem Bodley and granddaughter, little Lottie Lynch, who died at Victoria hospital. The bodies of 19 of the victims have been shipped to their sorrowing friends at home. The trunk of the, as yet, unidentified woman was located by the Grand Trunk officials Sunday and arrived here about 10 o'clock Sunday night. It will be searched in an endeavor to find something with which to identify the woman.

FOUR BODIES RECOVERED.

Explosion in the Little Redstone Mine, Near Fayette City, Pa.

Fayette City, Pa., Dec. 29.—Four bodies have been recovered from the little Redstone mine, two miles above here, where the explosion occurred Saturday night. There may yet be another victim beneath the pile of debris in one of the entries.

The dead are victims of their own carelessness, it is claimed, by the mine officials, because they deliberately passed a danger signal while carrying naked lamps.

BECAME DESPERATE BY WANT.

An Old Soldier Poisoned His Granddaughter and Cut His Throat.

Florence, Ala., Dec. 29.—Calvin Carson, an old confederate soldier, driven to desperation by want, with his granddaughter, a helpless cripple, dependent upon him, gave the girl carbolic acid and cut his own throat at 7 o'clock Sunday morning. The girl has been a cripple from birth and was 21 years old. When found at 8 o'clock by another tenant of the house she was dead. The man is dangerously wounded, but he may recover.

Severe Earthquake Shocks.

Rome, Dec. 29.—A severe earthquake shock was experienced at Syracuse, Sicily, Sunday evening. It was preceded by several subterranean rumblings.

St Petersburg, Dec. 29.—An earthquake shock which lasted 23 seconds was felt Sunday at Bisak, in the government of Temak.

May Resume His Tour.

Chicago, Dec. 29.—Pietro Mascagni, Italian composer, will appear in Chicago, as temporary director of the Thomas orchestra. It was also determined that he will resume his tour of the United States, and he is now looking for a manager.

Reed Gives All to His Widow.

New York, Dec. 29.—The will of Thos. B. Reed has been filed. It gives all his estate to his widow, Mrs. Susan P. Reed, and makes her sole executrix, a bequest to his father and mother having lapsed by their death.

POISONED WINE.

One Man Is Dead and Woman and Daughter Made Sick.

Chicago, Dec. 29.—Poisoned, it is charged, by means of a bottle of wine given as a Christmas present, Richard Cummings, 50 years of age, died Sunday at the home of Mrs. Lizzie Shanahan, 1228 Ashland avenue, where he was boarding. William Moniak, his wife, Mrs. Theresa Moniak, and their 14-year-old daughter, Mary, of 4226 Ashland avenue, were arrested Sunday on suspicion of having poisoned Cummings.

A bitter quarrel is said to have taken place between Cummings and Mrs. Shanahan, on one side, and the Moniaks on the other. The wine, according to the story told the police, was given to Mrs. Shanahan by Mary Moniak on behalf of her parents as a peace offering. Mrs. Shanahan drank some of it and said she suffered from severe pains soon afterward. She offered some of the wine to her niece, who complained that it tasted bitter. Cummings drank the remainder and died 24 hours later.

"I have been poisoned by that bottle of wine and want the people who gave it to me arrested," were the last words to Mrs. Shanahan. Dr. William T. Kirby, who attended him, received a similar statement.

An examination of Cummings's stomach will be made Monday. Moniak and his wife deny that they had any knowledge of poison being in the wine.

DEATH OF MRS. FREMONT.

The Wife of the "Pathfinder" Passed Away at the Age of 78 Years.

Los Angeles, Cal. Dec. 29.—Mrs. Jessie Benton Fremont, widow of Gen. Fremont, who died Saturday night at her home at 1107 West Twenty-eighth street, in this city, was 78 years of age. Mrs. Fremont was taken ill on Christmas. She grew rapidly worse and lapsed into unconsciousness, from which she never rallied. For three years the aged widow of the "Pathfinder" had been extremely feeble as a result of a fall in which she suffered dislocation of the hip, which has since prevented her from walking. A naturally strong constitution was impaired by the shock of the fall and recently Mrs. Fremont required the attendance of a trained nurse, her advanced years aiding the gradual decline of her strength. Mrs. Fremont was the daughter of Thomas H. Benton, for 30 years a senator in the United States senate.

STRUCK A ROCK.

The Army Transport Sherman Damaged South of Luzon.

Manila, Dec. 29.—The United States army transport Sherman struck a rock near San Bernandino light, south of Luzon, Friday night. The transport sustained a heavy shock and some of the heavy plates were damaged. After the accident 23 inches of water was found in her forward bilges, but was controlled by steady pumping. The steamer proceeded for Manila under her own steam and arrived here Sunday.

When the Sherman struck the passengers on board were terrified, but there was no disorder. They promptly took their stations, with life preservers on, in the small boats. The officers of the Sherman handled the situation splendidly. Her cargo was not damaged. It probably will be necessary for her to dock at Hong-Kong.

CONFEDERATE VETERAN HOME.

Assistance Offered By the Colored Normal School at Norman, Ala.

Montgomery, Ala., Dec. 29.—Col. J. H. Falkner has received a letter from W. H. Council of the colored normal school at Norman, Ala., offering assistance to the home for confederate veterans to be established at Mountain Creek, Ala. Prof. Council offers the services free of carpenters, blacksmiths and others from the school who might be useful in building the home and also agrees to furnish a dozen pair of shoes for the veterans whom he refers to as "those grand old men who followed Lee's tattooed banners down to Appomattox."

Death of Rev. D. C. Rankin.

Nashville, Tenn., Dec. 29.—A private cablegram received by Rev. S. H. Chester, secretary of the board of foreign missions of the Southern Presbyterian church announces the death Sunday from pneumonia in Seoul, Corea, of Rev. D. C. Rankin, editor of the foreign missions publications of the Presbyterian church.

Negro and His Wife Lynched.

Greenwood, S. C., Dec. 29.—W. K. Jay, a prominent young farmer of the Tray section of this county, was murdered in his own yard by a Negro, Oliver Wideman, or his wife, both of them living on the place, and a few hours later both of the Negroes were lynched by Jay's infuriated neighbors.

Died While Praying.

Rutherfordton, N. C., Dec. 29.—At a prayer meeting, three miles from town, James Snyder called upon several to join in prayer. Mrs. Snyder went forward. When the congregation arose they were astonished to find that Mrs. Snyder had died while praying.

To Be Excommunicated.

Rome, Dec. 29.—The Tribuno says the pope has ordered the archbishop of Manila to excommunicate all persons who endeavor to promote the creation of a national church in the Philippines.

MISERY FROM COAL TRUST.

The People Are Helpless Against the Rapacity of the Pampered Coal Barons.

The rapacity and greed of the coal barons is getting almost beyond endurance. The bituminous coal combine is equally as guilty as the anthracite trust, for it has advanced prices in about the same proportion. The coke combine has also increased prices on a par with its brother reprobates. The pretense is being made by the hard coal trust that it has a hard and fast price of $3.75 a ton at the mines, to which is added the railroad freight rate, ranging from $1.55 to New York, two dollars to Washington, D. C., and "whatever the tariff will bear" to other points, which varies according to the competition of river and lake transportation. To these charges is added $1.50, allowed the retailer for cartage and profit. The agents of the coal trust are, they say, obliged to agree not to charge above the prices given, that is on the basis of $6.75 at New York, $7.25 at Washington, D. C., and at other points according to the increased railroad charges. The facts, however, do not substantiate this scale of prices, for when the harassed householder puts in his order for coal to the agents of the trust, he is informed that his order will be booked, but delivery cannot be promised. Compelled to find coal that will be delivered immediately, the buyer finds that the independent dealers have hard coal on hand, but the price ranges from nine dollars to $15 a ton. The natural conclusion to arrive at is that the trust is selling, at a large advance in price, to the independent dealers, instead of supplying its own agents at the advertised rates.

The rich and well to do are, of course, able to obtain coal, but the largely increased cost to the poor vastly augmented by the profits of the small dealers, is so serious that great destitution and sufferings is reported in the large cities. In New York alone it is reported that 5,000 families are unable to buy fuel, and the corporation of Greater New York has appropriated $100,000 to purchase coal to be given to such destitute persons.

There is no doubt that the misery and suffering on account of the high price of coal will lead to a great increase of sickness and a consequent great loss of life from pulmonary and other kindred diseases.

The criminal section of the anti-trust law covers just such a restraint of trade and monopoly as the coal trust is imposing upon the American people. The administration of that law is in the hands of the attorney general of the United States, and in each state the United States district attorneys can enforce the law in the federal courts. Thus the whole machinery for bringing the coal monopolists to the bar of justice can be put in motion by the republican administration. One word from President Roosevelt would compel his attorney general to act. As he does nothing to curb the monopoly, it would seem certain that he does not want any action taken, or, for political reasons, does not wish the extortion of the trust stopped.

The criminal statute would allow the arrest of the coal barrons and, upon conviction, of being parties to any restraint of trade, or of having formed a combination to control prices, they could be imprisoned for one year. A coal baron in jail would soon bring him and his brother robbers to terms, and the price of coal would soon tumble.

The Talking Man.

In his speeches last summer, which, it will be remembered, were brought to a sudden end for various reasons, President Roosevelt made a good many people believe that he was likely to attack the monopoly tariff and trusts and enter upon a vigorous and sensational foreign policy without waiting for the aid or consent of congress or anybody else. His message repeated a few of the rhetorical flourishes of these addresses, but the thunder was all in the index. When it came to politics he had none, and as for recommendations he did not make bold to submit any that need cause nervousness in protected and trusted circles. It is plain enough that the privileged moneyed men of Mr. Roosevelt's party conveyed certain intimations to him on the subject of tariffs and trusts which caused him to relax his strenuosity in that direction most emphatically. Is it possible that England and Germany have sized up his vigorous foreign policy in the same manner?—Chicago Chronicle.

Tariff and Panics.

"Our past experience shows that great prosperity in this country has always come under a protective tariff."—President's Message.

Our experience also shows that great panics and long periods of commercial and industrial depression have also come under a protective tariff, for we have always had a protective tariff. The panics of 1873-9 and 1892-7 were coincident with the highest of high protective tariffs, and both of them were more protracted than that of 1857, which came under what was the nearest approach that we ever made to a tariff for revenue only.—Chicago Chronicle.

"Resign, nothing," says Mr. Hanna—substantially—in reply to stories that he will retire from the senate, relinquish the chairmanship of the republican national committee, and get out of politics generally. Mr. Hanna is not the retiring sort. Before they are done with him Mr. Roosevelt, and some others, may find that there are several fights ahead.—St. Mr. Hanna—Albany Argus

CHARITY AND TRUST PROFITS.

The Morgans and Rockefellers Can Well Afford to Do Something for the People.

The Standard Oil company notified its customers, December 10, that it had advanced the price of oil another cent per gallon. This is an increase of 3½ cents since the beginning of the coal strike.

On December 11, Commander Booth Tucker, of the Salvation Army, got a promise, by telephone, from J. Pierpont Morgan that he would do all in his power to aid the Salvation Army to supply the poor with coal. The army is holding meetings on the corners in the tenement section of New York, for the purpose of giving instructions as to how to use porous bricks, which may be saturated with kerosene or petroleum and used for heating purposes instead of coal.

Morgan controls the coal and Rockefeller the oil trust. Each profits by the other's monopoly of high prices. The prices of both coal and oil will average 40 to 60 per cent. higher this than last year. There is almost no limit to the price which these coal and oil barons could obtain in winter for these earth commodities. Their monopoly is now complete enough, but they fear the wrath of the people too much to double prices at once. They welcomed the coal strike because it accustomed the people to higher prices.

The 3½ cents per gallon advance in the price of oil means $35,000,000 of extra profits to the trust, which paid dividends last year of $48,000,000. The $2.50 or three dollars per ton advance in the price of coal means $125,000,000 or $150,000,000 a year to the coal trust.

It pays to be a divine holder of the coal and oil properties of this country, even if a part of the profits of the business are given as charity, to the poor to help them to keep warm. If a little given in this way will keep the people quiet, while the trusts put on the screws and add another cent per gallon or another 50 cents per bushel, it is a good investment. We are at their mercy, and they are merciful unto us. There is no law to compel them to give a dollar of their profits to charity. They just give out of the goodness of their hearts. We may be thankful that such wise and good agents are put in charge of the coal and oil mines of this bountiful earth.

NOTHING BUT A FARCE.

Not the Slightest Intention Among Republicans of Proceeding Against the Trusts.

Republican newspapers which are engaged in the business of kicking holes in the Littlefield "publicity" bill and the Cullom anti-trust bill may as well save their strength. There is not the remotest intention that either bill should pass. Congress may as well amuse itself with these farces as to stage some other. But the republican majority really ought, in deference to the proprieties, to keep a straight face in public, and laugh in private, as the dear people are likely to hear of the satirical, fun-poking comments which are openly made by leading republicans whenever the subject is broached in or about the national halls of legislation, says the Albany Argus.

There are men, even in congress, who believe that the time has come when the exactions of monopolies, and their frank indifference to the rights and comfort of the masses, ought to be dealt with by legislation. These men honestly believed that there was some prospect of relief in the Littlefield bill. They have examined it, and to their regret they find that it is "not a trust-killer, but only a time-killer." It is candidly admitted now that this much paraded administration measure contains not one solitary provision which is not incorporated in existing laws. The Sherman anti-trust, take it as a whole, is a better and a more effective statute than the Littlefield bill would be. The "publicity" features of the pending bill are covered by existing state laws.

Mr. Littlefield is chairman of the subcommittee of five which is supposed to deal directly with this subject; but the subcommittee must report to the house committee on the judiciary, whose chairman, Mr. Jenkins, of Wisconsin—another alleged trust-buster of renown—is frankly committed to the scheme of constitutional amendment, which would take six years or more, and which, when President Roosevelt proposed it, was laughed out of court.

Meanwhile, the direct, effective and natural means of curbing the trusts, by abolishing the tariff schedules which shelter monopolies, is rejected by all the republicans alike, with suspicious and enlightening unanimity.

The Poor Filipinos to Be Pitied.

President Schurman, of Cornell university, in a speech delivered before the Nineteenth Century club in New York, on December 11, gave a pitiful picture of conditions in the Philippines which is much at variance with the optimistic picture drawn by President Roosevelt in his message to congress. Prof. Schurman said: "The Filipinos are victims of famine, pestilence, wholesale loss of farm animals by disease, depression of agriculture, decline of trade and disastrous derangement of the currency. The insular government is purchasing rice on the Asiatic continent to furnish the Filipinos with the means of subsistence." The great prosperity which republican organs and spell-binders assure us exist there, would thus appear to be a myth, invented for political purposes, and their tale of peace and plenty is made out of whole cloth.

STATE ITEMS OF INTEREST.

A HISTORIC CHECK.

It Was Found Among the Personal Papers of the Late Jas. Murphy.

Lexington, Ky., Dec. 26.—While John Skain, administrator of the estate of the late James Murphy, was going through the latter's personal papers Thursday he came across a check for $1,000 which Murphy drew on February 22, 1897, payable to the order of the late Harry M. Weldon, with instructions that Weldon bet the full amount in Murphy's behalf that Jas. J. Corbett would win his fight with Bob Fitzsimmons in Carson City, Nev., that year. The check bears the personal indorsement of Harry M. Weldon. For some unknown reason the money was never placed. Murphy got the amount returned to him a few days after the fight in the shape of a personal check from Weldon.

CAUSED A PANIC.

Small Blaze in a Storeroom of a Presbyterian Orphan Asylum.

Louisvlne, Ky., Dec. 25.—A small blaze in the storeroom of the Presbyterian orphan asylum on Preston street in this city Wednesday night caused a panic among the inmates of the place. The entire building was filled with smoke, but the matron managed to get all of the children out of the house safely with the exception of two little boys, who were rescued by a fireman after they had been almost suffocated. The boys were revived, however, as soon as they were taken into the open air.

DIDN'T HEAR THE TRAIN.

One of the Most Substantial Farmers in Jefferson County Killed.

Louisville, Ky., Dec. 27.—"Gabe" Summers, one of the oldest and most substantial farmers in Jefferson county, was struck and killed by an L. & N. fast passenger train No. 7 near Huber's Station, 14 miles from Louisville, late Friday afternoon. Summers was driving across the track and failed to hear the approaching train. The buggy was ground to pieces and Summers was instantly killed. He leaves a widow and two grown children.

Burned By Powder.

Maysville, Ky., Dec. 27.—James Heflin, brother of Dr. W. R. Heflin, of Newport, came very near losing both eyes. Henry Farwick was shooting blank cartridges when one exploded in Mr. Heflin's face. He was terribly burned about the face and neck and was horribly disfigured by the grains of powder penetrating the skin.

Shot and Killed By a Witness.

Deranged By Wife's Death.

Nicholasville, Ky., Dec. 25.—Ben Arnett, a wealthy farmer, aged 53, was committed to the insane asylum at Lexington. This is the third time he has been there. The recent death of his wife unbalanced his mind.

LOWEST OF THE SEASON.

A Cold Christmas in Some Parts of the South.

Louisville, Ky., Dec. 26.—Thursday was a cold Christmas in some parts of the south. In Louisville the temperature was the lowest of the season, being 13 degrees above zero at midnight after hovering around that mark all day. In Atlanta the thermometer registered 32 degrees at midnight, a drop of 14 degrees in 24 hours. The temperature was 28 above in Memphis.

DESTROYED BY FIRE.

Senator Richardson's Home Burned, Scarcely Anything Being Saved.

Guston, Ky., Dec. 25.—The residence of Hon. Gus W. Richardson, state senator from the Tenth senatorial district, was destroyed by fire. The members of the family were away from home at the time of the fire, and scarcely anything of value was saved. No one of the family saved so much as a change of wearing apparel. The origin of the fire is not definitely known. The loss will amount to about $8,000, with insurance of $3,500.

Attempt to Break Jail.

Versailles, Ky., Dec. 26.—George Honaker, under sentence of life imprisonment in the penitentiary for murderously assaulting his wife and for two former penitentiary convictions, and Alfred Gray, awaiting trial for horse stealing, both white men, attempted to break jail. They had forced the lock of a cell door with a bar broken from an iron bed when a Negro accomplice weakened and alarmed the jailer.

Giant Firecrackers.

Lexington, Ky., Dec. 25.—Giant firecrackers are responsible for two serious accidents in this city. One exploded in front of a horse driven by William Dwyer, city salesman for the Stoles Co., causing the horse to take fright, throwing him out and breaking his arm. Later Will Mayes, an employe of the Southern railway, had his left eye blown out by the premature explosion of a large cracker while in his hand.

Four Bullets Hit Him.

New Haven, Ky., Dec. 27.—William Middleton was shot by Mayor Will F. Johnson, who was trying to arrest him. Middleton attacked Johnson with a club, and Johnson fired four shots to save himself. One bullet hit Middleton in the mouth, lodging under the tongue, two hit him in the left arm, and one grazed the shoulder. His wounds are dangerous, but not necessarily fatal.

Smallpox at Bondville.

Harrodsburg, Ky., Dec. 27.—Ten cases of smallpox have developed at Bondville, a station nine miles out on the Southern railroad. Dr. M. L. Forsythe, president of the board of health, has quarantined the stricken families, and has ordered all the people there vaccinated.

A DOMESTIC TRAGEDY.

Killed Himself After Shooting His Sick Wife Three Times.

Kansas City, Mo., Dec. 26.—Wm. P. Hollenback Thursday, while in a fit of rage caused by domestic troubles, shot his wife three times as she lay in bed ill, drove his 17-year-old stepdaughter into the street at the point of a revolver, and then shot and killed himself. The wife is dangerously wounded.

Hollenback and his wife had quarreled repeatedly of late and recently separated by mutual agreement. He was to have been tried in police court Friday on the charge of mistreating her and he tried Thursday to effect a reconciliation. Failing in this, he locked the doors of the apartment, and with the remark: "Here's a Christmas present for you," shot his wife as she raised herself in bed to receive the expected gift. The desperate man then turned the weapon upon his step-daughter, who managed to unlock a door, after which he sent a bullet into his own heart and died instantly.

COLD-BLOODED MURDER.

Christian C. Rauck Killed By a Man Discovered in His Cellar.

Lancaster, Pa., Dec. 26.—Christian C. Rauck, aged 25, a farmer residing with his father, Benjamin Rauck, near Paradise, this county, during Wednesday night was murdered in a cold-blooded manner Young Rauck went out to attend to the incubator in his hennery. As he was returning to the house he noticed that the cellar door of the house was open. He started to close it and as he stooped to do so he saw a man in the cellar. Without a word the stranger shot him in the abdomen with a revolver and then fled. Rauck fell mortally wounded, but recovering himself, staggered into the house where his aged mother lay dying from apoplexy. Two hours later he died. The murderer left no clew as to his identity. Snow had obliterated his footprints by the time pursuit began.

THE WALL FELL.

Firemen Buried Under the Debris—Three Were Killed.

New York, Dec. 26.—Fire Friday morning destroyed the cooperage plant of the Arbuckle Bros.' sugar refinery located near the East river front in Brooklyn. The large force of engines and firemen which was summoned succeeded in confining the flames to the cooperage shops.

During the progress of the fire one of the walls of the building fell, hurying the members of one of the fire companies beneath the mass of bricks and other wreckage.

When the other firemen had arrived at the pile they found Michael O'Toole was dead and Thomas Coppinger, a battalion chief, and Thomas McCartny very severely hurt.

Battalion Chief Coppinger died after being taken to a hospital, and the dead body of Assistant Foreman Thomas was found in the ruins of the fallen wall. The loss is $100,000.

A DISASTROUS FIRE.

Four Persons Were Burned to Death at Piercefield, N. Y.

Malone, N. Y., Dec. 26.—Four persons were burned to death Thursday in the house of Julius King, of Piercefield, a prominent pulp and paper manufacturing town in the Adirondacks. The fire had gained such headway before it was discovered that Mrs. M. J. McGovern, King's eldest daughter, and her three children who were sleeping on the lower floor were not able to get out and all were burned to death. One of the children, whose body was found close to a window, evidently had made heroic efforts to escape. King and his wife, with a few boarders on an upper floor, escaped by jumping out of the windows. One man was seriously burned. It is not known how the fire started.

WARMLY WELCOMED.

Colonial Secretary Chamberlain at Durban, Natal.

A Frank Speech Delivered By Him Intended to Allay the Fears and Gain the Confidence of the Burghers.

Durban, Natal, Dec. 27.—Colonial Secretary Chamberlain and Mrs. Chamberlain, who left Portsmouth, Eng., November 25, on board the armored cruiser Goodhope, landed here at 10:30 Friday morning. They received a warm welcome from crowds of people.

The long speeches made by Mr. Chamberlain in the course of the reception functions were notable for their strong tone of conciliation and his expression of confidence in Lord Milner, British high commissioner in South Africa. Bearing in mind seemingly the rumors that his visit would lead to the displacement of Lord Milner, Mr. Chamberlain declared his belief that his visit would have the effect of strengthening the hand of Lord Milner, who, he hoped, would be as great in conciliation as he had been in the maintenance of the rights of the empire.

Referring to the war, the Colonial secretary said the Dutch and the British had fought in courageous rivalry. Between the two races not kindred in origin or nature, such a struggle for supremacy had been inevitable. From that struggle two proud and kindred races would grow in mutual respect, appreciation and lasting friendship.

"Victor and vanquished," said Mr. Chamberlain, "bravely played their parts. We scorn to glory in our triumph; the enemy need fear no humiliations in their defeat. Let us see, as Britons worthy of the name, that nothing be done to revive the animosities of the past. We must give our new fellows equality of position with ourselves. We ask, however, something in return; it is with them that the issues lies. We hold out our hand and ask them to take it without thought of the past, but frankly and in the spirit in which it is offered."

Mr. Chamberlain elaborated his theme with eloquence and was loudly encored. He announced incidentally the acceptance of the Boer offer to fight in Somaliland.

ALEX GRAHAM BELL.

Gives An Idea of a Properly Constructed Flying Machine.

Washington, Dec. 27.—Dr. Alexander Graham Bell, who has just returned to Washington from his summer home in Cape Breton island, Friday night made the following statement in connection with reports that have appeared in the public prints that he has invented a flying machine:

The newspapers have been premature in announcing that I have been at work upon a flying machine. I have not any flying machine at all, and have not been trying to make one. I am, of course, interested in the problem, and have come to the conclusion that a properly constructed flying machine should be capable of being flown as a kite, if anchored to the ground, and that conversely a properly constructed kite should be capable of use as a flying machine provided with suitable means of propulsion.

"My experiments have had as their object the building of a kite of solid construction capable of carrying up in a moderate breeze a weight equivalent to that of a man and engine, and so found that it could be suitable for use as the body of a flying machine and with supporting surfaces so arranged that when the kite is cut loose it will come down gently and steadily and land uninjured. I have successfully accomplished this, but do not care at the present time to make public the details of construction."

MERCHANT MURDERED.

Safe Robbed of $1,200 and the Store Burned Down.

Matthews, Ga., Dec. 27.—Edward Gay, a merchant running a store six miles from here, was murdered early Christmas morning and his store burned. His safe, which contained $1,200, was found open and the money gone. Mr. Gay was called from his home by an unknown man who asked him to change a bill. Not having the money, Gay walked with the man to the store and did not return. His skull was found in the ruins of the store.

Railroad Building.

Denver, Col., Dec. 27.—A special from Santa Fe, N. M., says: Gov. Otero has started with his wife and son, Miguel, for New York. From there he will go to Washington to engage in the fight for statehood.

THE ISLAND OF GUAM.

Annual Report of Commander Seaton Schroeder.

Washington, Dec. 27.—The annual report of Commander Seaton Schroeder, governor of the Island of Guam, which is dated July 16, and which has just reached the navy department, owing to the failure of congress to appropriate the sum asked for last year. The receipts last year were in round numbers $66,000 and the expenditures $57,000, leaving a balance of $8,000, which, however, is a decrease of over $13,000 in the cash balance for the preceding year. This loss is due largely to the unexpected expenses incident to the establishment of the leper colony and the decrease of over $10,000 in import duties.

Commander Schroeder reports that it has been deemed prudent to stop all work of public improvement until further appropriations are made. The value of exports and imports during the year have been respectively $35,549 and $35,165. The exports consisted almost entirely of Mexican dollars. Not a pound of copper has been exported, and neither cocoa or coffee has been produced in sufficient quantities to supply the home market, owing to the slow recoveries from the effects of the hurricane of 1900.

The governor recommends that if a Philippine silver dollar of fixed value is to he coined under the laws of the United States, that it be made legal tender also in Guam in place of the present Mexican dollar. The census of the island taken last autumn shows the total population to be 9,676, of whom only 46 are foreigners, 14 being citizens of the United States. The latter does not include officers and men of the navy or other civil employes, temporarily imported from the United States. Above the age of 7, 46 per cent. of the natives read and write Spanish. He says that the natives still continue to refuse to allow their sick to receive medical attention, but that conditions are improving, an excess of births over deaths being shown for each of the last two years.

Commander Schroeder says that there are now 24 lepers in seclusion at Tumon bay. The governor recommends improvements in facilities for education and also that the laws for the government of the islands should be remodeled and modified. The governor says there is a desire for United States citizenship among persons domiciled in the island. He calls attention to the case of Pedro M. Duarte, at present the auditor of the island. He occupies an anomalous position. He was an officer in the Spanish army who resigned after the war and who obtained an acceptance of renunciation of allegiance. The result is that to-day he is a citizen of no country.

THE EARTHQUAKES.

Fifteen Thousand Houses Destroyed—People Living In Cars.

Ashkabad, Russian Turkestan, Dec. 27.—The oscillations of the earth at Andijan continues. The people there are using railroad cars to live in so they are not leaving town on account of their business interests. Committees have been appointed to prepare lists of the losses to life and property. In the Andijan district 15,000 houses were destroyed. Until the shocks cease, guards will be kept on the railroad between Fedohenks and Andijan to watch for fissures along the line. The railroad station at Andijan threatens to collapse. Barracks to he used as dwellings are being rapidly constructed and will soon be ready for occupancy.

WILL PAY HER DEBTS.

Guarantees Them By a Percentage on Customs Receipts.

It Is Understood Venezuela Will Make Any Concessions, Even Abandoning Her Demand That Her Navy Be Returned.

Caracas, Dec. 29.—United States Minister Bowen and Lopez Baralt, Venezuelan minister of foreign affairs, held a long conference Saturday night. Mr. Bowen, on receiving instructions from Washington, conveyed to Senor Baralt President Roosevelt's refusal to act as arbitrator in the Venezuelan difficulty. He recommended that the matter be taken to the international peace court at The Hague, which had been expressly organized to consider questions in which the honor of a country or the disposition of territory were not concerned. He suggested the organization of a commission to sit in Washington by their ambassadors to the United States and Venezuela by a delegate. The commission is to sign a document setting forth the matters to be decided at The Hague court. Mr. Bowen said also that Germany would not press for an immediate payment and that she had agreed to accept a guarantee based on a percentage of the customs receipts.

As a result of this conference Senor Baralt telegraphed President Castro to return from La Victoria. The president will reach here Monday and Venezuela's answer to the foregoing proposal will be given then.

It is understood that Venezuela will make any concessions, even abandoning her demand that her navy be returned. Through the Venezuelan delegate to the commission the Venezuelan government will ask that the blockade be lifted at once. Senor Baralt has expressed the desire that Mr. Bowen represent Venezuela on the commission; if Mr. Bowen can not accept the post it is suggested in official circles that it be given to W. W. Russell, secretary to the American legation.

Senor Baralt has Prepared the following statement for the public:

"Venezuela agrees to pay all her debts, the payments to be guaranteed by a certain percentage of the customs receipts or by the flotation of a special loan, also to be guaranteed. I believe the proposal to submit the issues to The Hague will be acceptable to President Castro. I am sorry that President Roosevelt was unable to act as arbitrator."

Willemstad, Curacao, Dec. 29.—The Venezuelan revolutionists have resumed active histilities against President Castro. There occurred Saturday morning a lively engagement between 1,200 revolutionists, under Gen. Riera, and government forces at Cauyawao, in the vicinity of Coro. Details of the engagement are lacking, but it is known here that the revolutionists had artillery. The government forces were commanded by Gen. Referno Castillo. Gen. Riera retained his position.

The armistice between the government and the revolutionists has just expired.

News has reached here from an authoritative source in Caracas that Vicente Gomez, first vice president of the republic, intends to carry out a bold strategic stroke against President Castro.

Gen. Zollo Vidal and five other leading supporters of Gen. Matos, who had sought refuge here, left the Island of Curacao early Saturday morning in a sailboat, which took them in the direction of Cumarebo near Coro, on the Venezuelan coast. The departure of these men is taken as proof that the revolt against President Castro is again active.

BABY FARMING CONSPIRACY.

It Is Charged That 300 Children Were Killed By a Japanese Family.

Victoria, B. C., Dec. 29.—Correspondence received from Yokahama by the steamer Tartar includes details of a horrible baby farming conspiracy in Osaka. An elderly woman, her married daughter, husband and two other persons have been arrested for infanticide, and it is learned that since they started operations this year 300 children were killed.

The Japan Times has an account of a Japanese of Koohi having been married to a corpse. The bride-elect committed suicide on the eve of her marriage. The body was recovered and at the request of the dead girl's parents the ceremony took place between the living and dead.

Will Demand An Increase in Wages.

Springfield, Ill., Dec. 29.—W. D. Ryan, secretary-treasurer United Mine Workers of Illinois, in a statement, says that the miners of the United States will make a demand for a material increase in wages at the national convention at Indianapolis on January 19.

The Blockade Will Continue.

London, Dec. 29.—A dispatch to the Central News from Rome says it has been semi-officially announced that under special agreements the blockade of the Venezuelan coast by the allies will continue during the arbitration of the issues.

Sultan's Family Captured.

Brussels, Dec. 29.—The Dutch government received a telegram from Batavia, Dutch East Indies, announcing the capture of the sultan's family in the mountains of Achin, Sumatra, where they had taken refuge.

A FINE COUNTRY.

Testimony That Western Canada Is an Ideal Land for Farmers and Ranchers.

A delegate from Ohio to Western Canada says: "The whole of Western Canada seemed to me to be a very fine country, but I spent most of my time about thirty miles east of Lacombe, in Alberta, near what is popularly known as the coal banks on the Red Deer River, and I am very pleased to report that the country appears to be everything that the Agents of the Canadian Government have claimed for it. Good water can be obtained almost anywhere from 17 to 40 feet, and fed generally by springs. The natural hay and grass were magnificent in their growth and wild pea vines very heavy. I met some of my friends who moved there seven years ago and two brothers who had absolutely nothing on their arrival seven years before now own two and a half sections of land and 175 head of cattle. They told me that they did not feed their stock all winter, in fact, never saw them again until the spring, when they came home fat and without loss. I gathered oats 6 ft. 4 high and running from 75 to 100 bushels per acre. It appeared to me that all grasses, wild and cultivated, grow to perfection in any part of Alberta that I saw, and the farmers were cutting from two to three tons of wild hay to the acre. I found the climate very desirable in every respect, and I am told that the winter is the finest part of the year. There is plenty of coal and wood to be had near at hand for the hauling, and such is my satisfaction with the country that I acquired some land and have put a bunch of cattle thereon. I can confidently recommend Western Canada as a suitable place for farmers to immigrate to, and can assure them the kindest treatment by the people there, so much so that one does not distinguish the fact that we have left the boundaries of the United States."

Hugh Spender, of the Westminster Gazette, one of the British Journalists who visited Canada this summer (1902), says: "We fell in with a young farmer from Somersetshire, England, driving a binder round a hundred acre field of wheat in Western Canada. In conversation I found that he came from within fifteen miles of my old home in Somersetshire. Here was the very man we wanted. He had come to Manitoba ten years ago, with a capital of $12 on landing. In England he had been employed on a dairy farm, and earned eighteen shillings a week. He now owns 320 acres of land, his horses, buildings and cattle, and expects to have 4,000 bushels of wheat this season. We had heard of such things in the old land, but they did not seem credible, until we came to this living example of the strides that it is possible to make in Manitoba. Had this man remained in England, it is pretty safe to say he would still be earning no more than eighteen shillings a week, while in the same period in Manitoba he has become a substantial and prosperous farmer."

"I know a man who commenced in Assiniboia, 15 years ago, with no means; no capital. To-day this man owns 7,000 acres of land, some 30 horses, 30 or 40 bullocks, cows, etc. He has built a good stone house with his own hands, and has now married and is doing well, with every prospect of increasing his means in the future. Western Canada has the most exhilarating, bracing climate I ever knew. All that is required in the settler is perseverance, grit, patience and hard work. I will guarantee the country, if you will guarantee the man." From letter from a retired officer in the British army.

RECORD OF THE PAST.

The best guarantee of the future is the record of the past, and over fifty thousand people have publicly testified that Doan's Kidney Pills have cured them of numerous kidney ills, from common backache to dangerous diabetes, and all the attendant annoyances and sufferings from urinary disorders. They have been cured to stay cured. Here is one case:

Samuel J. Taylor, retired carpenter, residing at 312 South Third St., Goshen, Ind., says: "On the 25th day of August, 1897, I made an affidavit before Jacob C. Mann, notary public, stating my experience with Doan's Kidney Pills. I had suffered for thirty years and was compelled at times to walk by the aid of crutches, frequently passed gravel and suffered excruciatingly. I took every medicine on the market that I heard about, and some gave me temporary relief. I began taking Doan's Kidney Pills, and the results I gave to the public in the statement above referred to. At this time, on the 19th day of July, 1902, I make this further statement, that during the five years which have elapsed I have had no occasion to use either Doan's Kidney Pills or any other medicine for my kidneys. The cure effected was a permanent one."

A FREE TRIAL of this great Kidney medicine which cured Mr. Taylor will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

Twenty-Eight Killed and Many Hurt on a Canadian Road.

The Operator Who Failed to Deliver the Order to the Conductor Says It Was Cancelled by the Dispatcher.

London, Ont., Dec. 29.—There were no deaths Sunday among the persons injured in Friday night's collision at Wanstead, on the Sarnia branch of the Grand Trunk railroad between Pacific express No. 5, west-bound, and an east-bound freight in which 28 persons lost their lives. At Victoria hospital several of the injured are still in a serious condition but it is expected that all will recover. The body of Fireman Ricketts, of the express train, which was Saturday night believed to be buried under the wrecked engines, was found Sunday covered with snow in the ditch beside the track. One arm was completely torn off and the body was otherwise mangled. Death must have been instantaneous.

Andrew Carson, the operator at Watford, the first station east of the wreck, whose failure to deliver orders to Conductor McAuliffe, of the Pacific express, to pass the freight at Wanstead, is said by the Grand Trunk officials to have caused the wreck, Sunday afternoon made his first statement since the wreck. He says he received the order for No. 5, the express, to pass the freight at Wanstead at 9:48 o'clock, but declares positively that a few minutes later Dispatcher J. G. Kerr, at London, called him and ordered him to "bust" or cancel the order. He said: "About 9:54, after calling Wyoming and ascertaining that the freight was there the dispatcher called me rapidly a half dozen times. When I answered on the wire he told me to 'bust' this order. I wrote 'bust it' across the order just as No. 5 was coming in. Conductor McAuliffe came in and asked me what the order board was out against him for. I told him that we had an order for him but the dispatcher had 'busted' it. He asked me to hurry and write him a clearance order, which I did. After the train had started and was out of my reach the dispatcher learned that the freight had left Wyoming. I told him I could not stop No. 5 as it had left. He immediately began calling Kings Court Junction, the station between Watford and Wanstead on the railroad wire and I tried to raise them on a commercial wire. We both failed to do this, however until after the express had passed the junction."

One of the most pathetic features of the wreck is the triple loss sustained by the Bodley family, of Port Huron, in the death of Mrs. J. Bodley, son Clem Bodley and granddaughter, little Lottie Lynch, who died at Victoria hospital. The bodies of 19 of the victims have been shipped to their sorrowing friends at home. The trunk of the, as yet, unidentified woman was located by the Grand Trunk officials Sunday and arrived here about 10 o'clock Sunday night. It will be searched in an endeavor to find something with which to identify the woman.

FOUR BODIES RECOVERED.

Explosion in the Little Redstone Mine, Near Fayette City, Pa.

Fayette City, Pa., Dec. 29.—Four bodies have been recovered from the little Redstone mine, two miles above here, where the explosion occurred Saturday night. There may yet be another victim beneath the pile of debris in one of the entries.

The dead are victims of their own carelessness, it is claimed, by the mine officials, because they deliberately passed a danger signal while carrying naked lamps.

BECAME DESPERATE BY WANT.

An Old Soldier Poisoned His Granddaughter and Cut His Throat.

Florence, Ala., Dec. 29.—Calvin Carson, an old confederate soldier, driven to desperation by want, with his granddaughter, a helpless cripple, dependent upon him, gave the girl carbolic acid and cut his own throat at 7 o'clock Sunday morning. The girl has been a cripple from birth and was 21 years old. When found at 8 o'clock by another tenant of the house she was dead. The man is dangerously wounded, but he may recover.

Severe Earthquake Shocks.

Rome, Dec. 29.—A severe earthquake shock was experienced at Syracuse, Sicily, Sunday evening. It was preceded by several subterranean rumblings.

St Petersburg, Dec. 29.—An earthquake shock which lasted 23 seconds was felt Sunday at Bigsk, in the government of Tomsk.

May Resume His Tour.

Chicago, Dec. 29.—Pietro Mascagni, Italian composer, will appear in Chicago, as temporary director of the Thomas orchestra. It was also determined that he will resume his tour of the United States, and he is now looking for a manager.

Reed Gives All to His Widow.

New York, Dec. 29.—The will of Thos. B. Reed has been filed. It gives all his estate to his wife, Mrs. Susan P. Reed, and makes her sole executrix, a bequest to his father and mother having lapsed by their death.

POISONED WINE.

One Man is Dead and Woman and Daughter Made Sick.

Chicago, Dec. 29.—Poisoned, it is charged, by means of a bottle of wine given as a Christmas present, Richard Cummings, 50 years of age, died Sunday at the home of Mrs. Lizzie Shanahan, 1228 Ashland avenue, where he was boarding. William Monlak, his wife, Mrs. Therera Monlak, and their 14-year-old daughter, Mary, of 4226 Ashland avenue, were arrested Sunday on suspicion of having poisoned Cummings.

A bitter quarrel is said to have taken place between Cummings and Mrs. Shanahan, on one side, and the Monlaks on the other. The wine, according to the story told the police, was given to Mrs. Shanahan by Mary Monlak on behalf of her parents as a peace offering. Mrs. Shanahan drank some of it and said she suffered from severe pains soon afterward. She offered some of the wine to her niece, who complained that it tasted bitter. Cummings drank the remainder and died 24 hours later.

"I have been poisoned by that bottle of wine and want the people who gave it to me arrested," were the last words to Mrs. Shanahan. Dr. William T. Kirby, who attended him, received a similar statement.

An examination of Cummings's stomach will be made Monday. Monlak and his wife deny that they had any knowledge of poison being in the wine.

DEATH OF MRS. FREMONT.

The Wife of the "Pathfinder" Passed Away at the Age of 78 Years.

Los Angeles, Cal. Dec. 29.—Mrs. Jessie Benton Fremont, widow of Gen. Fremont, who died Saturday night at her home at 1107 West Twenty-eighth street, in this city, was 78 years of age. Mrs. Fremont was taken ill on Christmas. She grew rapidly worse and lapsed into unconsciousness, from which she never rallied. For three years the aged widow of the "Pathfinder" had been extremely feeble as a result of a fall in which she suffered dislocation of the hip, which has since prevented her from walking. A naturally strong constitution was impaired by the shock of the fall and recently Mrs. Fremont required the attendance of a trained nurse, her advanced years aiding the gradual decline of her strength. Mrs. Fremont was the daughter of Thomas H. Benton, for 30 years a senator in the United States senate.

STRUCK A ROCK.

The Army Transport Sherman Damaged South of Luzon.

Manila, Dec. 29.—The United States army transport Sherman struck a rock near San Bernandino light, south of Luzon, Friday night. The transport sustained a heavy shock and some of the heavy plates were damaged. After the accident 23 inches of water was found in her forward bilges, but was controlled by steady pumping. The steamer proceeded for Manila under her own steam and arrived here Sunday.

When the Sherman struck the passengers on board were terrified, but there was no disorder. They promptly took their stations, with life preservers on, in the small boats. The officers of the Sherman handled the situation splendidly. Her cargo was not damaged. It probably will be necessary for her to dock at Hong-Kong.

CONFEDERATE VETERAN HOME.

Assistance Offered By the Colored Normal School at Norman, Ala.

Montgomery, Ala., Dec. 29.—Col. J. O. Falkner has received a letter from W. H. Council of the colored normal school at Norman, Ala., offering assistance to the home for confederate veterans to be established at Mountain Creek, Ala. Prof. Council offers the services free of carpenters, blacksmiths and others from the school who might be useful in building the home and also agrees to furnish a dozen pair of shoes for the veterans whom he refers to as "those grand old men who followed Lee's tattooed banners down to Appomattox."

Death of Rev. D. C. Rankin.

Nashville, Tenn., Dec. 29.—A private cablegram received by Rev. S. H. Chester, secretary of the board of foreign missions of the Southern Presbyterian church announces the death Sunday from pneumonia in Seoul, Corea, of Rev. D. C. Rankin, editor of the foreign missions publications of the Presbyterian church.

Negro and His Wife Lynched.

Greenwood, S. C., Dec. 29.—W. K. Jay, a prominent young farmer of the Tray section of this county, was murdered in his own yard by a Negro, Oliver Wideman, or his wife, both of them living on the place, and a few hours later both of the Negroes were lynched by Jay's infuriated neighbors.

Died While Praying.

Rutherfordton, N. C., Dec. 29.—At a prayer meeting, three miles from town, James Snyder called upon several to join in prayer. Mrs. Snyder went forward. When the congregation arose they were astonished to find that Mrs. Snyder had died while praying.

To Be Excommunicated.

Rome, Dec. 29.—The Tribuno says the pope has ordered the archbishop of Manila to excommunicate all persons who endeavor to promote the creation of a national church in the Philippines.

MISERY FROM COAL TRUST.

The People Are Helpless Against the Rapacity of the Pampered Coal Barons.

The rapacity and greed of the coal barons is getting almost beyond endurance. The bituminous coal combine is equally as guilty as the anthracite trust, for it has advanced prices in about the same proportion. The coke combine has also increased prices on a par with its brother reprobates. The pretense is being made by the hard coal trust that it has a hard and fast price of $3.75 a ton at the mines, to which is added the railroad freight rate, ranging from $1.55 to New York, two dollars to Washington, D. C., and "whatever the tariff will bear" to other points, which varies according to the competition of river and lake transportation. To these charges is added $1.50, allowed the retailer for cartage and profit. The agents of the coal trust are, they say, obliged to agree not to charge above the prices given, that is on the basis of $6.75 at New York, $7.25 at Washington, D. C., and at other points according to the increased railroad charges. The facts, however, do not substantiate this scale of prices, for when the harassed householder puts in his order for coal to the agents of the trust, he is informed that his order will be booked, but delivery cannot be promised. Compelled to find coal that will be delivered immediately, the buyer finds that the independent dealers have hard coal on hand, but the price ranges from nine dollars to $15 a ton. The natural conclusion to arrive at is that the trust is selling, at a large advance in price, to the independent dealers, instead of supplying its own agents at the advertised rates.

The rich and well to do are, of course, able to obtain coal, but the largely increased cost to the poor vastly augmented by the profits of the small dealers, is so serious that great destitution and sufferings is reported in the large cities. In New York alone it is reported that 5,000 families are unable to buy fuel, and the corporation of Greater New York has appropriated $100,000 to purchase coal to be given to such destitute persons.

There is no doubt that the misery and suffering on account of the high price of coal will lead to a great increase of sickness and n consequent great loss of life from pulmonary and other kindred diseases.

The criminal section of the anti-trust law covers just such a restraint of trade and monopoly as the coal trust is imposing upon the American people. The administration of that law is in the hands of the attorney general of the United States, and in each state the United States district attorneys can enforce the law in the federal courts. Thus the whole machinery for bringing the coal monopolists to the bar of justice can be put in motion by the republican administration. One word from President Roosevelt would compel his attorney general to act. As he does nothing to curb the monopoly, it would seem certain that he does not want any action taken, or, for political reasons, does not wish the extortion of the trust stopped.

The criminal statute would allow the arrest of the coal barrons and, upon conviction, of being parties to any restraint of trade, or of having formed a combination to control prices, they could be imprisoned for one year. A coal baron in jail would soon bring him and his brother robbers to terms, and the price of coal would soon tumble.

The Talking Man.

In his speeches last summer, which, it will be remembered, were brought to a sudden end for various reasons, President Roosevelt made a good many people believe that he was likely to attack the monopoly tariff and trusts and enter upon a vigorous and sensational foreign policy without waiting for the aid or consent of congress or anybody else. His message repeated a few of the rhetorical flourishes of these addresses, but the thunder was all in the index. When it came to politics he had none, and as for recommendations he did not make bold to submit any that need cause nervousness in protected and trusted circles. It is plain enough that the privileged moneyed men of Mr. Roosevelt's party conveyed certain intimations to him on the subject of tariffs and trusts which caused him to relax his strenuosity in that direction most emphatically. Is it possible that England and Germany have sized up his vigorous foreign policy in the same manner?—Chicago Chronicle.

Tariff and Panics.

"Our past experience shows that great prosperity in this country has always come under a protective tariff."—President's Message.

Our experience also shows that great panics and long periods of commercial and industrial depression have also come under a protective tariff, for we have always had a protective tariff. The panics of 1873-9 and 1892-7 were coincident with the highest of high protective tariffs, and both of them were more protracted than that of 1857, which came under what was the nearest approach that we ever made to a tariff for revenue only.—Chicago Chronicle.

"Resign, nothing," says Mr. Hanna—substantially.—In reply to stories that he will retire from the senate, relinquish the chairmanship of the republican national committee, and get out of politics generally. Mr. Hanna is not the retiring sort. Before they are done with him Mr. Roosevelt, and some others, may find that there are several fights ahead.—St. Louis Republic.

CHARITY AND TRUST PROFITS.

The Morgans and Rockefellers Can Treat Afford to Do Something for the People.

The Standard Oil company notified its customers, December 10, that it had advanced the price of oil another cent per gallon. This is an increase of 3½ cents since the beginning of the coal strike.

On December 11, Commander Booth Tucker, of the Salvation Army, got a promise, by telephone, from J. Pierpont Morgan that he would do all in his power to aid the Salvation Army to supply the poor with coal. The army is holding meetings on the corners in the tenement section of New York, for the purpose of giving instructions as to how to use porous bricks, which may be saturated with kerosene or petroleum and used for heating purposes instead of coal.

Morgan controls the coal and Rockefeller the oil trust. Each profits by the other's monopoly of high prices. The prices of both coal and oil will average 40 to 60 per cent. higher this than last year. There is almost no limit to the price which these coal and oil barons could obtain in winter for these earth commodities. Their monopoly is now complete enough, but they fear the wrath of the people too much to double prices at once. They welcomed the coal strike because it accustomed the people to higher prices.

The 3½ cents per gallon advance in the price of oil means $35,000,000 of extra profits to the trust, which paid dividends last year of $48,000,000. The $2.50 or three dollars per ton advance in the price of coal means $125,000,000 or $150,000,000 a year to the coal trust.

It pays to be a divine holder of the coal and oil properties of this country, even if a part of the profits of the business are given as charity, to the poor to help them to keep warm. If a little given in this way will keep the people quiet, while the trusts put on the screws and add another cent per gallon or another 50 cents per bushel, it is a good investment. We are at their mercy, and they are merciful unto us. There is no law to compel them to give a dollar of their profits to charity. They just give out of the goodness of their hearts. We may be thankful that such wise and good agents are put in charge of the coal and oil mines of this bountiful earth.

NOTHING BUT A FARCE.

Not the Slightest Intention Among Republicans of Proceeding Against the Trusts.

Republican newspapers which are engaged in the business of kicking holes in the Littlefield "publicity" bill and the Cullom anti-trust bill may as well save their strength. There is not the remotest intention that either bill should pass. Congress may as well amuse itself with these farces as to stage some other. But the republican majority really ought, in deference to the proprieties, to keep a straight face in public, and laugh in private, as the dear people are likely to hear of the satirical, fun-poking comments which are openly made by leading republicans whenever the subject is broached in or about the national halls of legislation, says the Albany Argus.

There are men, even in congress, who believe that the time has come when the exactions of monopolies, and their frank indifference to the rights and comfort of the masses, ought to be dealt with by legislation. These men honestly believed that there was some prospect of relief in the Littlefield bill. They have examined it, and to their regret they find that it is "not a trust-killer, but only a time-killer." It is candidly admitted now that this much paraded administration measure contains not one solitary provision which is not incorporated in existing laws. The Sherman anti-trust, take it as a whole, is a better and more effective statute than the Littlefield bill would be. The "publicity" features of the pending bill are covered by existing state laws.

Mr. Littlefield is chairman of the subcommittee of five which is supposed to deal directly with this subject; but the subcommittee must report to the house committee on the judiciary, whose chairman, Mr. Jenkins, of Wisconsin—another alleged trust-buster of renown—is frankly committed to the scheme of constitutional amendment, which would take six years or more, and which, when President Roosevelt proposed it, was laughed out of court.

Meanwhile, the direct, effective and natural means of curbing the trusts, by abolishing the tariff schedules which shelter monopolies, is rejected by all the republicans alike, with suspicious and enlightening unanimity.

The Poor Filipinos to Be Pitied.

President Schurman, of Cornell university, in a speech delivered before the Nineteenth Century club in New York, on December 11, gave a pitiful picture of conditions in the Philippines which is much at variance with the optimistic picture drawn by President Roosevelt in his message to congress. Prof. Schurman said: "The Filipinos are victims of famine, pestilence, wholesale loss of farm animals by disease, depression of agriculture, decline of trade and disastrous derangement of the currency. The insular government is purchasing rice on the Asiatic continent to furnish the Filipinos with the means of subsistence." The great prosperity which republican organs and spell-binders assure us exist there would thus appear to be a myth, invented for political purposes, and their tale of peace and plenty is made out of whole cloth.

STATE ITEMS OF INTEREST.

A HISTORIC CHECK.

It Was Found Among the Personal Papers of the Late Jas. Murphy.

Lexington, Ky., Dec. 26.—While John Skain, administrator of the estate of the late James Murphy, was going through the latter's personal papers Thursday he came across a check for $1,000 which Murphy drew on February 22, 1897, payable to the order of the late Harry M. Weldon, with instructions that Weldon bet the full amount in Murphy's behalf that Jas. J. Corbett would win his fight with Bob Fitzsimmons in Carson City, Nev., that year. The check bears the personal indorsement of Harry M. Weldon, for some unknown reason the money was never placed. Murphy got the amount returned to him a few days after the fight in the shape of a personal check from Weldon.

CAUSED A PANIC.

Small Blaze in a Storeroom of a Presbyterian Orphan Asylum.

Louisville, Ky., Dec. 25.—A small blaze in the storeroom of the Presbyterian orphan asylum on Preston street in this city Wednesday night caused a panic among the inmates of the place. The entire building was filled with smoke, but the matron managed to get all of the children out of the house safely with the exception of two little boys, who were rescued by a fireman after they had been almost suffocated. The boys were revived, however, as soon as they were taken into the open air.

DIDN'T HEAR THE TRAIN.

One of the Most Substantial Farmers in Jefferson County Killed.

Louisville, Ky., Dec. 27.—"Gabe" Summers, one of the oldest and most substantial farmers in Jefferson county, was struck and killed by an L. & N. fast passenger train No. 7 near Huber's Station, 14 miles from Louisville, late Friday afternoon. Summers was driving across the track and failed to hear the approaching train. The buggy was ground to pieces and Summers was instantly killed. He leaves a widow and two grown children.

Burned By Powder.

Maysville, Ky., Dec. 27.—James Heflin, brother of Dr. W. R. Heflin, of Newport, came very near losing both eyes. Henry Farwick was shooting blank cartridges when one exploded in Mr. Heflin's face. He was terribly burned about the face and neck and was horribly disfigured by the grains of powder penetrating the skin.

Shot and Killed By a Witness.

Frankfort, Ky., Dec. 26.—Edward Adams, aged 22 years, was shot and killed Thursday night by George Bean as the result of a quarrel over testimony Bean had given in a police court here against Adams. Before he was shot Adams stabbed Bean in the neck, inflicting a serious wound.

Noted Race Mare Changes Hands.

Nicholasville, Ky., Dec. 25.—Ben Arnett, a wealthy farmer, aged 53, was committed to the insane asylum at Lexington. This is the third time he has been there. The recent death of his wife unbalanced his mind.

LOWEST OF THE SEASON.

A Cold Christmas in Some Parts of the South.

Louisville, Ky., Dec. 26.—Thursday was a cold Christmas in some parts of the south. In Louisville the temperature was the lowest of the season, being 13 degrees above zero at midnight after hovering around that mark all day. In Atlanta the thermometer registered 32 degrees at midnight, a drop of 14 degrees in 24 hours. The temperature was 28 above in Memphis.

DESTROYED BY FIRE.

Senator Richardson's Home Burned, Scarcely Anything Being Saved.

Guston, Ky., Dec. 25.—The residence of Hon. Gus W. Richardson, state senator from the Tenth senatorial district, was destroyed by fire. The members of the family were away from home at the time of the fire, and scarcely anything of value was saved. No one of the family saved so much as a change of wearing apparel. The origin of the fire is not definitely known. The loss will amount to about $8,000, with insurance of $3,500.

Attempt to Break Jail.

Versailles, Ky., Dec. 26.—George Honaker, under sentence of life imprisonment in the penitentiary for murderously assaulting his wife and for two former penitentiary convictions, and Alfred Gray, awaiting trial for horse stealing, both white men, attempted to break jail. They had forced the lock of a cell door with a bar broken from an iron bed when a Negro accomplice weakened and alarmed the jailer.

Giant Firecrackers.

Lexington, Ky., Dec. 25.—Giant firecrackers are responsible for two serious accidents in this city. One exploded in front of a horse driven by William Dwyer, city salesman for the Stoles Co., causing the horse to take fright, throwing him out and breaking his arm. Later Will Mayes, an employe of the Southern railway, had his left eye blown out by the premature explosion of a large cracker while in his hand.

Four Bullets Hit Him.

New Haven, Ky., Dec. 27.—William Middleton was shot by Mayor Will F. Johnson, who was trying to arrest him. Middleton attacked Johnson with a club, and Johnson fired four shots to save himself. One bullet hit Middleton in the mouth, lodging under the tongue, two hit him in the left arm, and one grazed the shoulder. His wounds are dangerous, but not necessarily fatal.

Smallpox at Bondville.

Harrodsburg, Ky., Dec. 27.—Ten cases of smallpox have developed at Bondville, a station nine miles out on the Southern railroad. Dr. M. L. Forsythe, president of the board of health, has quarantined the stricken families, and has ordered all the people there vaccinated.

A Woman Burned to Death.

Frankfort, Ky., Dec. 25.—Mrs. Dee Hawes, wife of a farmer of the Peak's Mill neighborhood, fell into an open fireplace at her home and was burned to death. The house was destroyed and the body burned to a crisp, there being no one at home to rescue her. She was subject to epilepsy.

PREDICTIONS as to the next fruit crop are now in order.

LOUISIANA will have her legislature on her hands in a few days.

THE cross-arm on telephone poles in Kansas are very handy when a mob has a negro to hang.

THE city campaign in Lexington can now be said to be opened —Charlie Bronston has been called a liar.

THE editors of two of Jessamine county's papers are candidates for the Democratic nomination for the legislature. Go in, boys.

THE cold weather has caused considerable alarm among orange growers in Florida. The murcury one night last week registered 30 above zero at Tampa, and 24 at Jacksonville. Much damage is feared.

IN a few days Judge Cantrill will have his say in regard to the State primary election. A great many believe that he will decide that he has no jurisdiction over the matter. It will then go to the court of appeals.

CANDIDATES for the legislature are announcing in every section of the State, but, as yet, Boone has no announced candidate, although it is generally understood that Hon. James W. Kennedy, of Union, who served so acceptably in the last General Assembly, desires to be his own successor.

Coal oil is now 13 cents a gallon in this territory. Do you see any connection between this advance in price and John D. Rockefeller's recent million dollar donation to Chicago university?—Lawrenceburg Press.

You don't think John would work the rabbit's foot on the public in the manner indicated?

AT Pittsburg, Kas,, last Thursday, Montgomery Godley, a negro, was taken from jail and hanged by a mob. At the first attempt to hang him the rope broke, and after his throat had been cut he was hanged a second time. Godley was accused of shooting Policeman Hinkle, who was trying to keep order at a negro dance. The lynching took place two hours after the killing of the officer.

The Somerset Journal calls the attention of its hill-billy friends to the fact that what it takes to keep one dog would keep sixty hens, and sixty hens would lay 600 dozen eggs. Yes, but our Somerset friend must look at the other side of the picture. Wouldn't a man look like a lunatic when the hunting season arrives going out to the fields, gun on shoulder, with sixty old hens following along after him? Wouldn't he be a cartoon?—Franklin Favorite.

ACCORDING to the last census the United States has 3,536 who are 100 years old or over. Of these 2,247 are women, and only one of this number is unmarried. Twenty of these centenarians were asked to tell "how to live to be a hundred," and the rules they give for long life are: regular habits, hard work, plenty of exercise in open air, simple food, marriage and avoidance of worry. In 1890 the average length of life in the United States was 31 years; now it is 32.

THE RECORDER is in receipt of another marked copy of the Covington Courier, which is putting up a hard fight against Joseph Pugh as a party leader. The author of the marked articles seems to think as goes Covington in the next general election so goes the State, and says that the Democrats of Kenton county are ready for a revolt. From the tone of the articles their author has already decided to bolt unless he has things exactly to suit him, and nothing will suit him. That is about his awful condition politically.

THE School of Tropical Medicine has issued a report on the sleeping sickness, which is now devasting Uganda. Though it was discovered only a few years ago, it is computed that the disease has already killed from 20,000 to 30,000 people, and is spreading to new areas with increasing virulence. Scientific reports made on the spot describe the sleeping sickness as a complaint something like that group of diseases known as meningitis, or inflammation of the brain. It begins insidiously with changes in the mental attitude of the patient. From that time the disease progresses and the patient becomes stupid and restless, and after other symptoms have passed enters into a state of coma and dies. The duration of the complaint varies from a month in acute cases to six months or more in others.

SENATOR VEST, of Missouri, speaking of the tariff and its relations to the great corporations, says: "It is said that the name of the late Senator Sherman should be coupled to a measure which he conspicuously opposed and refused to vote for. In 1890 Mr. Sherman introduced from the Senate Finance Committee a bill designated to regulate the corporations, but it was clearly unconstitutional in that it sought to take from the states their right to regulate their domestic commerce. The bill was referred to the Judiciary Committee, of which Senator Edmunds was Chairman, and of which I was a member. The committee took up the question and reported the measure to control big corporations, which became law, but which embodied none of the essential features of the Sherman bill. When the bill came before the Senate Mr. Sherman opposed it, and, rather than vote for its passage, got up and left the Senate Chamber.

"THE disease," says a writer in the Scientific American, "which has broken out in Massachusetts, especially in the vicinity of Boston, known as the foot and mouth disease (Epizootic Aphtha), is not new to this country. Thirty years ago it caused considerable havoc in Massachusetts, New York, and Conneeticut, as well as in Canada. It was finally suppressed and exterminated, at a cost of $2,000, and until a few weeks ago not a single case had been reported in the United States since.

"The germs which spread the disease in this last case—first found in Brighton Stock Yards, Brighton, Mass., a few weeks since—may have been brought over from Scotland fens, or some districts of France, or from some foreign country where the disease is prevalent, on some traveler's clothes who had visited one of these places and inspected the stock, or on the straw or hay packed around articles imported from them. The second herd found with the disease was in Dedham, Mass., and the herd had contracted the disease from a cow bought at an auction in Concord. The cow proved to be lame, and so it was sent back, but too late to prevent the introduction of the disease and its spreading to the herd. From these places the disease spread rapidly to other places, and there is danger of its spreading still further."

The manufacturing industries of the South have grown so rapidly and yet with so little spectacular incident that we presume nine men of ten in the South of today still believe that the greatest interest of the Southern States is bound up in agricultural pursuits and products. The figures reported by the census returns show that while in 1880 the agricultural products of the South exceed in value that of its manufactures by $200,000,000, the balance has been turned to the other account during the twenty years just past, so that in 1900 the value of our Southern manufactured products exceed the value of our agricultural products by 190,000,000. It must be remembered, too, that the number of people in the South engaged in agriculture in 1900 was 36 per centum more than were so engaged in 1880. These are most significant figures, and it will take the wisest sort of statesmen to figure out their effects upon the industrial, economic and political policies of the Southern people within the next two decades.—Atlanta Constitution.

If newspapers were to tell all truth all the time there would doubtless be many more wedding "writeups" after the manner of the following from a Missouri paper:

Willie Shortlike and Bettie Bloomers were married at the church last evening. The church was prettily decorated with flowers and potted plants borrowed promiscuously from over the town from people who didn't want to lend them.

The decoration was done under protest by some of the members of the church, who were asked to do so by the bride and couldn't refuse. The ladies were of the opinion that if the couple were so bent on having a stylish wedding they should have been willing to pay some one to chase all over town for a day getting flowers together and taking them home again.

The bride wore a nice silverstein gown made at home, and the groom was decked out in a $10 hand-me-down suit. The ushers wore cutaway coats, borrowed for the occasion. Sallie Potts was maid of honor, and the consensus of opinion was that she was two to one prettier than the bride. The young couple took the train for St. Louis, where they will spend more money in a few days than Willie can earn in 3 months.

Willie says that now he's married he's going to settle down. Some of our merchants think it would have been better if he had settled up. He gets a salary of $37 a month, which is about the allowance Bettie has been used to for pin money. We wish, for Willie's sake, that the saying that it takes no more to support two than one, wasn't a lie.

The bride sent us a shoe box full of a conglomeration of stuff supposed to be cake. If this is a sample of Bettie's cooking we feel for Willie. Our janitor's dog fell heir to the cake, and now he's lying in the cold, cold ground. But this wedding is none of our funeral.

Owen Beemon was in it with his turkeys. He sold 40 for the holiday trade that brought him $63.

Several teams were hauling wood Monday morning. It was very favorable weather for that class of work.

During Three Decades the Louisville Courier-Journal has stood unalterably and conspicuously before the public as the representative of the great commonality of the people against both the Robber Baron, seeking through the accretion of illgot money to steal away the people's liberty by stealing away their franchise rights, and the ready-tool of the Robber Baron, the bandit politician masquerading as a statesman and a patriot the better to serve the ends of his master. In fulfilling this high function it has sometimes had to go fast and sometimes to go slow, sometimes to cry, "onward" and sometimes to say, "halt." sometimes to drive at the root of things, and sometimes to drive ahead; but never changing the direction of its movement and always true to the underlying principle of its being, expressed by the simple demand for "The greatest good to the greatest Number."

With the advent of the New Year, this is on the first of January, 1903, the Courier-Journal began a campaign from which it looks for commanding results, and the better to reach the objects it has before it, the twice a week edition, returning to the old Weekly Courier-Journal, which for a quarter of a century was literally a political bible to millions of Americans who knew they could trust both its prescience and its disinterestedness.

The new Weekly Courier-Journal is modern in every respect, and is a paper for the home. It is issued every Wednesday, and its ten or twelve 8-column pages are filled with the best work of the best writers. Price of the paper is $1 a year.

The finer the soil the more moisture it is capable of absorbing and retaining. Moisture cannot and does not penetrate into heavy, tenacious soils, and when clods in such soils are not pulverized, and become dry, they retain their dryness in the center during the entire summer. When land is made fine and free from clods the water does not so readily flow clods to the surface, nor is it so rapidly dried up during the season, but is delivered to the surface in proper proportions. The moisture which is inclosed in the interstices of the soil and which accumulates, is a large quantity. When land has been plowed the soil expands and contracts during the winter according to the temperature, and many of the coarse portions are pulverized, but in spring, should the plowing of a field composed of heavy soil be performed, and the work followed by dry weather, even the harrow will sometimes fail to reduce it. Plowing and harrowing must therefore be done at proper times, and the judgment of the farmer must be exercised to guide him. The condition of a field should be similar to that required for a garden. With a small garden, where the spade and rake are used, care is taken to make the soil as fine as possible. A field should be considered as a garden on a larger scale. It requires more labor on a garden plot than for a field, but the garden produces twice as much in proportion to area as the field. Labor bestowed on a field so far as the preparation of the soil is concerned, will be amply repaid in the gain of yield of the crop. The soil always responds to good treatment, a fact which at one time gave rise to the claim that a well-cultivated soil required no manure, which claim, however, is not correct, but cultivation without doubt largely increases the yield.

THEDFORD'S BLACK-DRAUGHT
THE GREAT FAMILY MEDICINE

Thedford's Black-Draught has saved doctors' bills for more than sixty years. For the common family ailments, such as constipation, indigestion, hard colds, bowel complaints, chills and fever, biliousness, headaches and other like complaints no other medicine is necessary. It invigorates and regulates the liver, assists digestion, stimulates action of the kidneys, purifies the blood, and purges the bowels of foul accumulations. It cures liver complaint, indigestion, sour stomach, dizziness, chills, rheumatic pains, sidache, backache, kidney troubles, constipation, diarrhoea, biliousness, piles, hard colds and headache. Every druggist has Thedford's Black-Draught in 25 cent packages and in mammoth size for $1.00. Never accept a substitute. Insist on having the original made by the Chattanooga Medicine Company.

I believe Thedford's Black-Draught is the best medicine on earth. It is good for any and everything. I have a family of twelve children, and for four years I have kept them on foot and healthy with no doctor but Black-Draught. A. J. GREEN, Ilieware, La.

Jeff Eddins had some trouble disposing of his purchase of holiday turkeys. He was caught by a slump in the market, and instead of disposing of his stock in a few hours, it took him two days to sell out. When he arrived home he could scarcely speak above a whisper, he had so overtaxed his vocal organs in advocating a 14-cent-a-pound price on foot.

The colored people had a very nice Christmas entertainment at their church, last Wednesday evening, upon which they realized several dollars. Shortly after 7 o'clock last Thursday morning some member of J. M. Eddins' family discovered that their residence was on fire, it having caught between the plastering and the weather-boarding, where a stove pipe passed into a chimney. The alarm was given and the bucket brigade responded promptly, and what, in a few minutes more, would have been an ugly fire to contend with, was soon put out. It will take only a few dollars to repair the injury to the building.

Hall's Family Pills are the best.

The following is from the industrial edition of the Bartow, Florida, Courier-Informant of Dec. 17, and relates to a well known native of this county:

"The beautiful home of Mr. L. C. Tanner is located one and one-half miles southeast of the Atlantic Coast Line depot in Florida. It is just outside the limits of the town, and is one of the prettiest places in this part of the country. The tract of land contains thirty acres, and on the place are about 200 bearing orange trees, together with a great many young trees that will soon be in bearing.

"In addition to the oranges there are various other varieties of fruit trees, such as peaches, plums, figs, pecans, etc., on the place.

"Mr. Tanner came to Polk county from Kentucky just 12 years ago last Friday, and on that day he had a remarkable experience. On his place are a number of turkeys, and Friday morning his wife noticed with them out in the field near by, seven large gobblers. She saw at a glance that they were wild turkeys, and kept everything about the place as quiet as possible until her husband returned home. Taking down his gun, Mr. Tanner went out and made a raid on the turkeys, killing two the first shot, one the next, and wounded a fourth one, which he succeeded in capturing after chasing it into the river's swamp. The turkeys weighed just eight pounds each, after being dressed, and Mr. Tanner was as proud of his game as a schoolboy with his first pair of boots.

"He had intended offering his place for sale, and had instructed the Courier-Informant to say that he would entertain a proposition to sell it; but since his experience with the turkeys he has probably raised the price—if, in fact would sell at all."

Last Thursday Mont Slayback boozed up and concluded he wanted to do a pugilistic stunt with Noah Clore, who he claimed had insulted him a day or two before. Mont become very aggressive, notwithstanding Noah insisted that he did not want any trouble with him, but Mont's ware-like demonstrations grew more violent, and Noah drew his pocket knife. Mont continued his pugilistic maneuvers, apparently ignoring the knife with which Noah showed he intended to protect himself if he was crowded too far. In the demonstration Slayback got a slight abrasion of the cuticle on the right hand side of his neck, which, in his excited condition, he easily imagined was a very serious wound. Friday Judge Casson called Noah and Mont to account before him and a jury. Mont demanded a separate trial, and the following jury was sworn: William Garnett, L. S. Beemon, Robert Brown, Lonnie Acra, Charles Craven. Having heard the evidence as to Mont's conduct, the jury decided that he was guilty of a breach of the peace, and fixed his punishment at $10 fine and 10 days imprisonment in the county jail, and Sam Adams is now furnishing him his meals. The charge against Noah was continued without day.

The following orders have been made in the county court in the last few days:

Edgar Cropper, executor of the will of L. H. Dills, was discharged as such, and he declined to accept the trusteeship to which he was appointed by said will.

Patrick Finn was allowed $38 for acting as guard and waiting on Mrs. Green, smallpox patient.

D. M. Snyder renewed his bond as County Superintendent of Public schools, with J. M. Lassing, J. H. Lawell and S. W. Tolin as sureties.

F. P. Walton was appointed administrator of the estate of Nellie C. Dempsey, deceased, and he was also appointed guardian for her two children.

Foils A Deadly Attack.

"My wife was so ill that good physicians were unable to help her," writes M. M. Austin, of Winchester, Ind., but was completely cured by Dr. King's New Life Pills." The small boys had a very exciting chase after a flying squirrel here in town, last Wednesday afternoon. While a captive it bit one of the boys through a knuckle, causing him considerable pain. It succeeded in making its escape after the boys had had considerable fun with it.

Many thousands of bushels of corn were destroyed in the Miami bottoms by the recent high water. The rise in the river came at an unusual time of the year, and the farmers were not ready for it.

You will soon know who desires the job of swinging ink during the next term in the Boone circuit court clerks office. There are several, it is said who would not refuse the office.

Her Last Holiday

BY HATTIE ANTLEY FAIRCHILD

IT WAS a bare, desolate room in a tenement house in a southern city. On a rickety table in one corner stood a broken vase, which still showed remnants of its pristine beauty as the light of a stray sunbeam shone through its ruby depths. A long-stemmed, withered rose which it held was doubtless a reminder of some happier hour. The occupants of the room were a mother and her three children, a puny babe, a little girl, perhaps three years of age, and a boy about seven years her senior. There was nothing about the room to suggest that the family had ever been comfortably placed as regards this world's goods, save the broken Venetian vase, but the face of the mother as she bent over her wailing babe, trying to soothe and still its cries, bore the traces of what had once been the most refined type of beauty.

Only a short year ago, Mary Derwent and her little family had been living in comparative comfort, but suddenly her husband lost his position as head clerk in a large establishment, which, owing to the pres-

sure of the times, had failed. Unfortunately, he fell seriously ill of a fever, which completely prostrated him. By degrees their small savings were expended, then the best of the furniture was sold, for they were too proud to ask help, and so they went from bad to worse, until they only had the poor bed, the stove, the table and two chairs, which now furnished in scant measure the little room in the tenement they called home.

Hugh had been out since early morning hunting for work, and his wife was growing momentarily more anxious about his prolonged absence. What could keep him? It began to grow dark. Pressing her pale face against the panes, she peered out into the street.

"Mamma, I'm so hungry," pleaded a weak little voice from the bed. "Can't I have something?"

"Oh, Harry, what shall we do? Sister wants something to eat?" cried Mrs. Derwent, putting her arms around her little boy's neck.

"Mamma, don't cry. I'll go out again; perhaps I'll get something this time, and p'raps I'll meet papa. I won't come back without something this time," cried Harry. "Now, see, mamma, if I do. Please don't cry!"

"Oh, where will you go, my poor little darling, where will you go? Your clothes are too thin to go out in this wind. I cannot, cannot let you go!"

But Harry was off; he had no time to lose. He had no time to lose, indeed, if he meant to reach the great publishing house in Broad street. It was fully five o'clock, and he must be there before six, and it was such a long, weary walk for a little fellow.

Meanwhile Hugh Derwent had dragged his weary way homeward. He had met the usual rebuffs, some rudely uttered, some gently worded, for there were men who were touched by his pallid face and the hopeless expression of his countenance. Mary listened for his footsteps, for it was now too dark to see the passers-by on the street, caught a faint, uncertain sound as of someone tottering on the stairs. Opening the door she discerned the figure of her husband coming wearily up, step by step, but oh, so slowly. Soon she had him clasped in her arms. No need for him to repeat the sad story of failure again; she knew it when she touched her cheek with his cold lips.

"Where is Harry?" were the first words he spoke after regaining his breath, for he was quite exhausted by the exertion of mounting the steep staircase.

"He's gone out, dearest; I couldn't stop him. Mary cried for something to eat, and the little fellow rushed out, determined to do something. Don't be frightened, Hugh, God will take care of him, and of us, too. We must not hide our trouble from your aunt any longer. It isn't justice to our children."

Where, meantime, was little Harry, and what was his object in visiting the great publishing house of Ford & Company? Looking at the huge, seven-story building, with all its windows ablaze with light, you would wonder what purpose the child had in mind.

Nearly a year before, Mary Derwent, when the beginning of their troubles had come, had mailed a story to the Manhattan Magazine, entering the competition for a prize of $500, which had been offered. Mary Derwent, in her happier days, had written verse which had been accepted and published. The prospect of coming trouble had stimulated her, as it has many another, to literary effort, in the hope of giving her family the helping hand. Poverty had knit this little family into a closer and more intimate union than ordinarily exists in families, and they had talked things over together, but long since Mary had ceased to wonder about her story, giving it up for lost.

The thought of it came as an inspiration to small Harry, and he meant to beg money for the story; that was his errand. "Surely," thought the child, "the good editor will buy it if he knows how hungry we all are."

Harry's tired little feet at last reached the large building where the Manhattan Magazine was published, and through his earnest solicitation he was admitted to the editorial rooms, where he told his errand. After some questioning, he was informed that Mary Derwent's story had won the first prize, and as she had sent no address except "City," they had forwarded the check to the general delivery office.

It was so far to the post office, but that letter would buy bread, so Harry trudged bravely on. At last he was there. There were two letters, one for his father. He clutched them tightly in his thin, small hand and started for home. How far it was! If he could just hold out to get there! A pain came in his head and everything turned dark around him, despite the electric lights.

There was an elegant gentleman sauntering leisurely along, looking almost bored by the mere fact of existence. Harry stopped a moment, passing his hand over his eyes as if to clear away the mist, before attempting the muddy crossing.

What made everything turn around so? Suddenly there was an outcry as a little form went down in the mud and slush, right in front of a carriage dashing furiously onward. A moment more and the cruel hoofs of the madly driven horses will trample the brave little life out.

But no, a strong arm clutches them, and with almost superhuman strength forces them back on their haunches as the little child struggles to his feet. It was the listless gentleman, a Mr. Mayo.

"Oh, thank you, sir," gasped Harry.

"Ah, don't mention it, sonny; let me help you across," and he grasped the muddy, ragged sleeve in his daintily gloved hand, and nearly lifting the slight form, swung him over. The child reeled and would have fallen, but he caught and held him.

"I can't go on, and they are so hungry at home. Please take this letter to mother—I—I can't see."

The gentleman signaled a hack and lifted Harry in, taking a seat beside him.

"Now, where do you live?" he inquired.

Harry roused sufficiently to give directions, but immediately sank back almost fainting.

Mr. Mayo suddenly exclaimed, as if a thought had struck him which was very surprising:

There Were Two Letters, One for His Father.

"I believe the boy is starving," and he stopped the hack in front of a restaurant and ordered a glass of milk, a glass of sherry and some brandy and water, the only things he could think of just then.

The hackman said, dryly:

"That ain't no fitten stuff fur folks whut's starvin'! The milk'll do, but bread and meat's whut he needs."

"Well, bring them," and a generous supply was brought forth.

A slow smile dawned on the face of the gentleman as the child ate.

"Ah, what a remarkable appetite! I feel surfeited myself just watching you."

Harry's appetite appeased, they proceeded.

Mr. Mayo scanned the addresses on the letters which he had taken.

"Mary Derwent—sounds familiar, somehow."

They arrived at the mean tenement, and Harry asked Mr. Mayo upstairs. "For mother will want to thank you," he said.

"I don't care for thanks, but I would like to see the owner of that name—must be someone I have known."

"Mother!" called Harry, "oh, mother, I bring good news. Here's money, your story won first prize, and here's a kind gentleman who saved me from being run over. Now Mary and all can have something to eat."

Mr. and Mrs. Derwent could not realize the sudden transition from despair to hope. They sat as if dazed. Mr. Derwent came forward at last, and in a broken voice tried to speak his thanks.

"Why, haven't you a light?" inquired Mr. Mayo.

"Oh, sir," said Harry, who had revived wonderfully since eating, "we had no money to buy anything."

Mr. Mayo stared. He had never come in contact with poverty before.

"Here, take my purse and get light and, ah—something to eat."

Mr. Derwent was again thanking him, while Mrs. Derwent was weeping tears of joy and thankfulness.

"God sent you to save my children from starvation. This evening I begged for bread, begged it, and the baker refused me. But what wouldn't a woman do for her children?"

Harry soon came back with a light and a basket of food and handed the purse back to Mr. Mayo.

"I only took enough for to-night, for mother has money, now."

Mr. Mayo emptied the purse on the bed, where Mrs. Derwent was already feeding little Mary, who ate ravenously.

The mother had less to eat than any, but, mother-like, thought of self last.

Mr. Mayo bowed himself out, promising to call on the morrow, silently wondering that he, of all others, should be the one to play Providence to a poor family.

The second letter which Harry brought proved to be an urgent invitation from Mr. Derwent's aunt in the country for him and his family to spend New Year's with her, the second day from this. How gladly they left the close, comfortless room for the spacious old farmhouse among the hills!

The day was glorious, the air balmy as if Indian summer had come again.

When they reached the home station and crowded into the large family carriage, she threw wide the windows to let in the golden sunlight and health-giving breeze from the pine lands.

Was ever a day more royal than this?

Mr. Mayo, having called to see the Derwents the day previous, Mrs. Derwent took the liberty, in her great happiness, to invite him out, too, presented himself, to his own and her astonishment, as they were going out to dinner in the large, handsome old dining-room.

There was just enough frost in the air to make the wood fire acceptable, yet the musk roses looked saucily in at the wide windows and nodded a welcome, while large vases full of flowers breathed out their hearts in fragrance.

The crowning event of the day came when Mr. Derwent was giving a second helping to turkey. The dear old aunt announced that, as he would be her heir, it was his duty to remain there and keep up his property; she was tired of living without children in the house. "And what is more, I'm not going to any longer," she declared with emphasis.

"Ah, Mrs. Derwent," said Mr. Mayo, after dinner, as he swung lazily in a hammock under a large oak tree, "I found out why your name sounded so—ah, familiar; there was a little mistake. My cousin wrote a story for that competition, and took a fancy to sign her name 'Mary Derwent,' having heard it somewhere, perhaps. She told me about it and—"

"Then it was her story instead of mine which won the prize?"

"Her story was called 'Evelyn,' I think."

"That accounts for the letter that contained the check said 'Evelyn, by Mary Derwent.' Mine was 'Evangeline,' but I thought they had made a mistake."

"Ah, quite a coincidence," said Mr. Mayo, "but you shan't lose by it."

"I can't lose now. Had Harry not gone to the post office, he would not have met you, and had you not succored us at that critical time we would have died, and but for the check we could not have come out here."

"So you stole your New Year's, Mary," said her aunt, as she shook her fat sides in laughter, "but the heir to 'Pinelands,' your farmer husband (as he is to be), can easily replace it."

Would you believe that that gay young fellow driving the cows from the pasture with Harry, helping little Mary make mud pies, swinging the baby in the hammock, peeling potatoes with a checked apron on, was the dandy who stood at the street crossing with his cane in his mouth, almost refuting the statement that "God made man in His own image?"

Well, he is the identical young swell, who has been out at Pinelands several weeks, and says he intends staying there several more.

"In fact, Mr. Derwent," he said, "I am in love with Pinelands, and I intend you shall adopt me as a brother. Let me put my money in improvements on the plantation, and instead of making 'ducks and drakes' of my capital, I'll buy ducks and drakes and quit making a goose of myself."

Soon he gave the world "assurance of a man."—Ladies' World, New York.

DICTATES OF FASHION.

Some of the Smart Features of the Season's Costumes and Dress Details.

The careless flapping green and blue veils are no longer in favor. They were unbecoming and unsightly. Dainty veils, the color of the costume, now are very popular and quite smart.

Eyelet holes, the simple decoration of our grandmothers' day, rises from its long silent tomb and lays claim to our winter gowns. Cloth cut all over in eyelet holes and worked in silk of contrasting colors is quite a novelty and extremely beautiful.

The long capes to be worn are not becoming to short women; they give a top-heavy appearance. A cape, to be fashionable, must fit tightly over the shoulders, giving the long, sloping effect. Sometimes these garments are finished with a standing collar, reports the Chicago Daily News.

This is the season of braiding—braids of every kind, in the most severe simplicity or extravagantly elaborate styles. Often a narrow contrasting braid is used to outline the edges of the wider braids and a pretty braid effect is given to the new cloth in braids of cloth cut and stitched to form any design used in braiding.

Ribbon makes a serviceable trimming for all kinds of gowns. On some of the latest frocks the ribbon is plaited on in fine quillings. A white serge skirt has the ribbon slipped through the plaits and tied in bows in front. Any color can be used for the desired effect. Trimming gowns with ribbon in all styles is revived.

Heavy laces are used to decorate the tailor-mades—Venetian guipure, Irish lace and heavy Russian lace. Most of these collar and panel effects are done by hand. Never before in the history of dressmaking has there been so much detail work, for each dress commands an individual finish. As a consequence a handsome tailor-made costs a handful of money.

Every kind and size of button is now used. Some are exquisite and of costly make, while others just as useful and artistic are covered with plaid silk and used upon gowns of dark, plain color. Fancy buttons and loops fasten the cuffs, loops being used more at present than the buttonholes of other days. Some of the buttons are very large; these are wooden molds, covered with black silk and then recovered with lace. These are called "pompadours." Big white lace buttons appear on morning gowns; hand-painted buttons are also worn and the real Dresden button is displayed.

For the past few months the cutters have been trying to do away with the habit back, producing the effect with a different design. But the Parisian will not stand the counterfeit, even though it fits tightly across the hips and back. The fullness below, though picturesque and graceful, seems to add something to the breadth. The idea seems to be to produce as accentuated an effect as possible, and there is no gainsay to the fact that the tight, severely plain black is becoming to the French woman. Beautiful models have been made and the mannikins have languished in them as seductively as possible before the customer, but in nine cases out of ten the decision is: "The plaits are very chic and may look well on another person, but my figure requires something without fullness."

"MAKING GOOD" THE CHICKENS

They "Was Et Up," But Others Were Returned in Their Place to Lift the Decree.

Not long ago a respectable colored preacher, who was noted for his ability to "cuss out" people from the pulpit, was hurling thunderbolts of invective against his congregation because of a great wave of lying and stealing that was sweeping over the city, relates Lippincott's. Among other things he said:

"No longer ago 'n' yist some one come an' stole de las' two chickins dat me and mah ol' 'oman had. I b'lieves de thief is in dis house right now, an' I hereby countersigns him to evahlastin' punishment. De nigger dat stole dem chickins is a-gwineter burn fur it sho, you hyea me! De 'cree has gone forth!"

Next morning a colored man with two fine hens came up to the preacher's door. He said:

"Parson, hyeah's yo' chickins."

"No, sah," said the preacher, eying the chickens closely, "dese ain't mah chickins."

"I knows dey ain't perzactly yo'wn," explained the parishioner, "but dese is to tek de place of yo'wn. Yo' chickins wuz et up 'fo de 'cree went forth. An' las' night after I went to bed my conshunce hurt me so tell I had to git up and go ovah to Marse Bob's house an' git two mo' chickins. Parson, do tek dese chickins, an' fur de Lawd's sake tek dat 'cree back too."

An Irish Refrigerator.

An Irish woman was looking at refrigerators in a housefurnishing store some weeks ago. After examining into the merits and qualities of a number of them, she purchased the one that the salesman assured her would keep food the best. Some days afterward the woman called and requested them to take that refrigerator back, as it would not keep anything better than the kitchen safe of the cellar. The salesman mildly suggested that possibly she had not put enough ice in it to keep the things cold. "Enough ice in it? Why, you are crazy, man. I don't put any ice in it. Anything will keep cold if you put ice in it. I bought the refrigerator so that I wouldn't need the ice."—Philadelphia Public Ledger.

Instincts of a Great Name.

The Osage Indians have invested $8,000,000 in the state bank and own 1,200,000 acres of land. Mrs. Emmons, saved from an operation for Ovaritis, tells how she was cured by Lydia E. Pinkham's Vegetable Compound.

"I am so pleased with the results I obtained from Lydia E. Pinkham's Vegetable Compound that I feel it a duty and a pleasure to write you about it.

"I suffered for over five years with ovarian troubles, causing an unpleasant discharge, a great weakness, and at times a faintness would come over me which no amount of medicine, diet, or exercise seemed to correct. Your Vegetable Compound found the weak spot, however, within a few weeks—and saved me from an operation—all my troubles had disappeared, and I found myself once more healthy and well. Words fail to describe the real, true grateful feeling that is in my heart, and I want to tell every sick and suffering sister. Don't dally with medicines you know nothing about, but take Lydia E. Pinkham's Vegetable Compound, and take my word for it, you will be a different woman in a short time."—Mrs. Laura Emmons, Walkerville, Ont.

Constipation Makes Bad Blood.

MULL'S GRAPE TONIC CURES CONSTIPATION

Constipation is the rotting and decaying of undigested food in the alimentary canal. Disease germs arise from this festering mass, which find their way into the blood. The blood becomes impure and shortly the entire system gives way to the unhealthy condition.

You cannot cure a case like this by taking pills or other common cathartics. A laxative will not do. A blood medicine is ineffective. Mull's Grape Tonic is a gentle and mild laxative in addition to being a blood-making and strength-giving tonic which immediately builds up the wasted body and makes rich, red blood that carries its health-giving strength to every tissue at every heart beat.

Mull's Grape Tonic is made of pure crushed fruit juices and is sold under a positive guarantee.

THE PROMISED LAND.

It Lies Before Every One in the Possibilities of the New Year.

Seasonable Sermon by the "Highway and Byway" Preacher on Caleb's Brave Appeal and Paul's Noble Purpose.

[Copyright, 1903, by A. N. Kellogg Newspaper Co.]

Chicago, Dec. 28, 1902.

Texts:—"Let us go up at once and possess it (the land); for we are well able to overcome it."—Numbers 13:30.

"This one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus."—Philippians 3:13-14.

The world loves a hero. It has the profoundest admiration for the brave, manly man. It is ever ready to applaud the man of conviction who courageously stands up in the face of opposition and declares for the right. It is willing to step aside and give place to the man of noble purpose, who is persistently pushing toward a high ideal. It is even eager, at times, to catch the inspiration of a noble purpose and follow the lead of the fearless pioneer as he blazes the way into the new country of enlarged possibilities. Such characters may, perchance, be found in profane history. Certain it is that they are found in the sacred history of God's Word.

Two such characters step before us as the words of our double text fall upon our ears. Caleb, that intrepid explorer, that fearless fighter, that true-hearted patriot; and Paul, that magnificent soldier of the cross of Jesus Christ, that sure, steadfast leader, that untiring preacher and writer. They stand before us in all of their overtowering manhood; God's noblemen, their feet resting on the eternal purposes of the Divine will, and their hearts as true as steel and as uncompromising for the right as the mountain that feels unmoved the breath of the tempest. Caleb, with the black looks of cowardly fear cast upon him by the other ten spies, and with the faint-hearted and rebellious people surging about him, stands up and courageously pleads: "Let us go up at once and possess it (the land), for we are well able to overcome it." Paul, with the clank of the chains sounding in his ear, and with the form of the powerful Praetorian guard overshadowing him as he wrote to his beloved Philippian church, sees beyond his prison wall and the limitations of his surroundings, and exclaims: "This one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus."

Caleb and Paul stand face to face with the Promised Land of new possibilities. In the unknown realm toward which their steadfast gaze was turned, hope and aspiration paint an attractive picture of fresh triumphs and enlarged opportunities, and they are eager to go up and possess the land. Caleb, with his faithful sword at his side and God's sure promise of victory in his heart, is impatient for the command: "Forward, march." Paul, stripped of every impeding weight, with every muscle set, and his eye fixed steadfastly on the goal, listens eagerly for the word "Go," that will send him speeding over the course to obtain the coveted prize.

No less really does everyone who treads the narrowing border land of the Old Year stand face to face with the Promised Land of the New Year, than did these two grand Bible heroes. The long, and sometimes trying journey of the Old Year has been made. The discouragements, and disappointments, and failures, and mistakes of the past are forgotten as you climb the mountain of hope and gaze off toward the Promised Land of the New Year. The pathway of the journey by which you have come bears the ineffaceable imprint of your hurrying feet. Here and there the footprints lead from the right path. At numerous places along the way may be seen the quagmires and pitfalls into which you have tumbled. You may not retrace your steps and mark out a different record, but in the Promised Land of the New Year your feet may follow a straighter and a better course. And this is the message which comes to us out of God's Word. Caleb's brave hand reaches down through the centuries and grasps the strong hand of the Apostle Paul and they two unite their voices in the beautiful harmony of a single purpose as they plead with you and me to go up and possess the Promised Land of new opportunities.

As the fading days of the Old Year grow less and less, and the dawning of a new calendar year begins to redden and glow on the horizon of Time, it seems most natural for the human heart to be impressed with the thought of a closing of old accounts and the opening of new. Each year, as it comes and goes, marks more or less distinctly in every life endings and beginnings. It is the mile stone that is set by the roadside of life to indicate a certain distance in the journey covered, and a new stretch begun. With the beginning of the New Year, more than any other time, are beginnings made, hopes revived, and a new grip on life and its possibilities taken. It is a season of grave digging and garden making. With a sigh of relief the past is laid away and covered over with the fresh soil of new purposes and desires, and in this productive soil the tiny seed of hope is planted. It soon pushes up its tender blade of trust with the world. The life of faith in God in Christ Jesus does not shut the office door, does not hush the bustle of the mart of trade, does not stop the factory wheels, does not close the books of the student or quiet the busy hum of the halls of learning and invite the cobwebs of ignorance to weave their disfiguring mantle over the intellect. No, it means a better and fuller life in all the essential activities of the world.

Singleness of Purpose.—Caleb says: "Let us go up at once." Paul exclaims: "This one thing I do." Ah, brave hearts, with such a spirit as that burning in their breasts no wonder all the strong cities of Canaan and the mighty sons of Anak could not make Caleb falter, or the chains and prison walls could not cut short the great mission of the mighty Paul. In this day of many ideas and multiplied activities, it is said that the man of a single idea has little or no chance of success. However that may be we are not prepared to judge, but we are confident in our assertion that the man of a single purpose is the man who will succeed in planting his banner on the mountain top of achievement, if any man can. "This one thing I do" has been blazoned along the rugged and steep pathway which has been traveled by all those who have achieved worthily and mightily in the world. Here is indeed a worthy sentiment for the New Year. Many resolutions and elaborate plans are made to-day to be broken and to fail to-morrow. But the single purpose of a Caleb or a Paul carries through the difficult way to the Promised Land of the high calling of God.

The one purpose of Paul was retroactive as well as progressive. It dealt with the past which might hinder and make him wish to go back, and it marked out clearly in the unmeasured distances ahead the goal to which he aspired. "Forgetting those things which are behind," he says, "and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus." With the face set steadfastly towards the rising sun and the coming morning, he was determined to press onward and upward. He was going to burn the bridges behind him so that the hardships in the unoccupied country ahead might not tempt him to beat an ignominious retreat. What do you suppose it was that Paul was so anxious to forget, and the memory of which would so evidently prove a handicap in the race he was running? Certainly it was not the bright One he met in the way on his journey to Damascus, when he heard the voice of his Lord speaking to him out of the Heavens; certainly it was not his three years' communion with his Lord in the Arabian desert, during which time he was caught up to the third heaven and "heard unspeakable words, which it is not lawful for a man to utter;" certainly it was not the mighty work he had accomplished on his evangelistic tours through Asia Minor and Europe; certainly it was not his beloved church at Philippi, for he says in his opening salutation to them in the letter from which our text is taken: "I thank my God upon every remembrance of you;" certainly it was not his bonds and the afflictions which had come to him. What was it then that Paul wanted to forget? The opening verses of the third chapter of Philippians, I believe, tell us. He wanted to forget his splendid pedigree, his scholarly attainments, his spotless life, for they fed pride and self-centered esteem and hindered his gaining the Promised Land of the high calling of God. The things that were gain for him, he counted loss for Christ. And here is where we need to begin to strip for the race into the Promised Land. Pride and self-centered esteem have wrecked more lives and blocked the entrance into the Promised Land of the high calling of God than anything else that touches the human heart and life. If you want to run with Paul you must forget those things which are behind which will nourish pride and self-esteem. Strip yourself of these hindering weights and you may with this New Year enter the Promised Land which God sets before you. It was no easy task which Paul set for himself. It will be the hardest thing you ever did in your life to kill that pride which is blinding your eyes and narrowing your view of life, to break up that self-centered esteem which has made yourself the axis around which every plan and purpose in life have revolved. Break away from these things which "do so easily beset" the human heart, so that you may be able in the New Year to leave the valley of narrow purpose and endeavor and, scaling the mountain of vision, look off into the Promised Land which God has selected for you and to which He will faithfully lead. Yes, "forgetting those things which are behind" in the little narrow self, "reach forth" unto the larger opportunity of a new and better self. See the attitude of the runner as he sets himself for the race. The body strains forward with every muscle set for the starting spring, that will send him well along in the race. He has no time to think with pride on his splendid physique and bulging muscles. The glory of these will only be manifest at the end of the course when the laurel wreath rests upon his brow. Everything is forgotten that would hinder him at the starting point. So it must be with you, if you would run the race of this life well. As this New Year dawns upon you, will you not go up and with the help of God and under His leadership possess the land?

"Oh, to be nothing, nothing,
Only to lie at His feet."

No! A thousand times no! Strange, isn't it? that such an idea should have gotten abroad in the world. If God's Word is to be believed, and its grand procession of heroes which passes before us from Abel, the first successful sheep raiser, and Noah, famous in his time as a mighty architect and builder, down to Paul, the greatest logician and thinker of his or any other time, is to be allowed to bring his weight of proof, then we must admit that the men who have entered the Promised Land of the high calling of God have been in the most practical and vital contact with the world. The life of faith in God in Christ Jesus does not shut the office door, does not hush the bustle of the mart of trade, does not stop the factory wheels, does not close the books of the student or quiet the busy hum of the halls of learning and invite the cobwebs of ignorance to weave their disfiguring mantle over the intellect. No, it means a better and fuller life in all the essential activities of the world.

Singleness of Purpose.—Caleb says: "Let us go up at once." Paul exclaims: "This one thing I do." Ah, brave hearts, with such a spirit as that burning in their breasts no wonder all the strong cities of Canaan and the mighty sons of Anak could not make Caleb falter, or the chains and prison walls could not cut short the great mission of the mighty Paul. In this day of many ideas and multiplied activities, it is said that the man of a single idea has little or no chance of success. However that may be we are not prepared to judge, but we are confident in our assertion that the man of a single purpose is the man who will succeed in planting his banner on the mountain top of achievement, if any man can. "This one thing I do" has been blazoned along the rugged and steep pathway which has been traveled by all those who have achieved worthily and mightily in the world. Here is indeed a worthy sentiment for the New Year. Many resolutions and elaborate plans are made to-day to be broken and to fail to-morrow. But the single purpose of a Caleb or a Paul carries through the difficult way to the Promised Land of the high calling of God.

The one purpose of Paul was retroactive as well as progressive. It dealt with the past which might hinder and make him wish to go back, and it marked out clearly in the unmeasured distances ahead the goal to which he aspired. "Forgetting those things which are behind," he says, "and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus." With the face set steadfastly towards the rising sun and the coming morning, he was determined to press onward and upward. He was going to burn the bridges behind him so that the hardships in the unoccupied country ahead might not tempt him to beat an ignominious retreat. What do you suppose it was that Paul was so anxious to forget, and the memory of which would so evidently prove a handicap in the race he was running? Certainly it was not the bright One he met in the way on his journey to Damascus, when he heard the voice of his Lord speaking to him out of the Heavens; certainly it was not his three years' communion with his Lord in the Arabian desert, during which time he was caught up to the third heaven and "heard unspeakable words, which it is not lawful for a man to utter;" certainly it was not the mighty work he had accomplished on his evangelistic tours through Asia Minor and Europe; certainly it was not his beloved church at Philippi, for he says in his opening salutation to them in the letter from which our text is taken: "I thank my God upon every remembrance of you;" certainly it was not his bonds and the afflictions which had come to him. What was it then that Paul wanted to forget? The opening verses of the third chapter of Philippians, I believe, tell us. He wanted to forget his splendid pedigree, his scholarly attainments, his spotless life, for they fed pride and self-centered esteem and hindered his gaining the Promised Land of the high calling of God. The things that were gain for him, he counted loss for Christ. And here is where we need to begin to strip for the race into the Promised Land. Pride and self-centered esteem have wrecked more lives and blocked the entrance into the Promised Land of the high calling of God than anything else that touches the human heart and life. If you want to run with Paul you must forget those things which are behind which will nourish pride and self-esteem. Strip yourself of these hindering weights and you may with this New Year enter the Promised Land which God sets before you. It was no easy task which Paul set for himself. It will be the hardest thing you ever did in your life to kill that pride which is blinding your eyes and narrowing your view of life, to break up that self-centered esteem which has made yourself the axis around which every plan and purpose in life have revolved. Break away from these things which "do so easily beset" the human heart, so that you may be able in the New Year to leave the valley of narrow purpose and endeavor and, scaling the mountain of vision, look off into the Promised Land which God has selected for you and to which He will faithfully lead. Yes, "forgetting those things which are behind" in the little narrow self, "reach forth" unto the larger opportunity of a new and better self. See the attitude of the runner as he sets himself for the race. The body strains forward with every muscle set for the starting spring, that will send him well along in the race. He has no time to think with pride on his splendid physique and bulging muscles. The glory of these will only be manifest at the end of the course when the laurel wreath rests upon his brow. Everything is forgotten that would hinder him at the starting point. So it must be with you, if you would run the race of this life well. As this New Year dawns upon you, will you not go up and with the help of God and under His leadership possess the land?

MAN CHASED BY WILDCAT?

Pennsylvania Farmer's Life Is Saved by the Prompt Action of His Brave Dog.

Charles Mason, a farmer living near Confluence, Pa., had a narrow escape last week from being killed by wildcats. These animals have always been found in the mountain woods in that region, but for a great number of years they have not been so numerous as they are this fall.

Mason went, early in the evening, to the house of a friend about three miles from his home, and returned through the woods late at night. Fortunately for him, he was accompanied by his dog.

A band of wildcats followed him and threatened several times to spring upon him. Whenever one of the animals rushed toward Mason, the dog bravely made at it. The cats were afraid of the dog, but they became so numerous and bold that Mason only saved himself by taking refuge at a mountain dwelling half way home, and there passed the night. He believes that at least a dozen of the wildcats were after him.

The cats are so plentiful that they have driven squirrels and other game from the woods. A party of hunters is being formed to go into the mountains and spend a couple of days in search of the animals.

ELEVATOR GIRLS IN BOSTON.

Their Pretty Caps, Aprons and Backing Please the Shopping Public of the Hub.

Boston's latest and smartest girl is the elevator girl. She suddenly has made her appearance in the fashionable downtown stores, luncheon rooms for women, dressmaking establishments, the Young Women's Christian association and the Women's Educational and Industrial union.

It all came about because the elevator man at the latter place left. Looking around for some one to take his place, one of the managers suggested employing a girl, and it was done at once. The new girl was young and pretty and wore a neat cap, apron and shoes with shining buckles. The patrons of the Union luncheon were pleased.

A week later a girl appeared in the mirror-lined elevator of the Young Women's Christian association. The idea became a fad and more girls were given places. Their employment is fast becoming popular in other establishments.

VIOLINS IN CONTEST.

Stradivarius Worth $3,000 Has Small Margin of Votes Over That of a Cheap Instrument.

Dr. Henry Watson, a well-known authority on music and himself a cultured musician, while lecturing recently at Manchester, England, on the violin, incidentally had a short piece played on two violins, one a Stradivarius, worth $3,000, and the other one of a lot worth half a crown apiece, used in a variety turn on the stage to break a comedian's head. Then he asked the audience which instrument they regarded as the better of the two. It was only by a very narrow margin that the audience, which was composed largely of regular attendants at the performances of Lady Halle (Mme. Norman Neruda) and subscription concerts, decided in favor of the genuine Strad. Thereupon Dr. Watson said: "I doubt whether you would have chosen the right one if the piece had been played in another room without giving you an opportunity of seeing the instruments."

THE OLD FOLKS AT HOME

Are Never Without Peruna in the House for Catarrhal Diseases.

MR. AND MRS. J. O. ATKINSON, INDEPENDENCE, MO.

UNDER date of January 10, 1897, Dr. Hartman received the following letter:

"My wife had been suffering from a complication of diseases for the past 25 years.

"Her case had baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing.

"She also was passing through that most critical period in the life of a woman—change of life. In June, 1895, I wrote to you about her case. You advised a course of Peruna and Manalin, which we at once commenced, and have to say it completely cured her. She firmly believes that she would have been dead only for these wonderful remedies.

"About the same time I wrote you about my own case of catarrh, which had been of 25 years' standing. At times I was almost past going. I commenced to use Peruna according to your instructions, and continued its use for about a year, and it has completely cured me.

"Your remedies do all that you claim for them, and even more. Catarrh cannot exist where Peruna is taken according to directions. Success to you and your remedies."

John O. Atkinson.

In a letter dated January 1, 1900, Mr. Atkinson says, after five years' experience with Peruna:

"I will ever continue to speak a good word for Peruna. In my rounds as a traveling man I am a walking advertisement for Peruna and have induced many people during the past year to use Peruna with the most satisfactory results. I am still cured of catarrh."

John O. Atkinson,
Box 272, Independence, Mo.

When old age comes on, catarrhal diseases come also. Systemic catarrh is almost universal in old people.

This explains why Peruna has become so indispensable to old people. Peruna is their safe-guard. Peruna is the only remedy yet devised that meets these cases exactly.

Such cases cannot be treated locally; nothing but an effective systemic remedy could cure them. This is exactly what Peruna is.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

A PROFESSIONAL OPINION.

The Advice of a Lawyer to His Barber, Who Was Cutting In on His Business.

A former judge, now practicing law, became interested when told by his favorite barber that the latter wanted to study, with a view to admission to the bar, relates the Philadelphia Times. The lawyer encouraged him in every way possible, lending him books and giving him an informal lesson while being shaved each morning. Soon the barber began putting hypothetical cases to his patron, who gravely, soundly and pains-takingly gave information as to correct procedure. Site. a time the ex-judge learned that the barber's cases were genuine, that, indeed, the fellow was acting as a cut-rate attorney for his friends, who invariably profited by following his advice. The following morning the barber opened up by putting what he described as an imaginary bit of litigation to the latter-covered lawyer, and then asked:

"Now, judge, what do you advise?"

"Let me see," replied the lawyer, musingly. Then: "Why, I advise that you come see me at the office, bring me a certified check for $100 as a fee, and I'll tell you how the case should be handled."

Accuracy.—Husband—"Didn't I tell you that was a secret, and you were not to tell it to anyone?" Wife—"You told me it was a secret, but you did not say I was not to tell it to anyone."—N. Y. Weekly.

The Newman News reports this of a young-ter there: "We had the minister for dinner yesterday," said one. "Shah," replied the other, "we had a 'possum."—Atlanta Constitution.

BOONE CO. RECORDER

W. T. RIDDELL, - - Publisher.

Personal Mentio_s.

Shelby Cowen came home from Rising Sun and spent the holidays.

James H. Lawell, of Bellevue, made the Recorder a pleasant call last press day.

Miss Sherley Tolin entertained several of her young friends, Thursday afternoon.

Luther Adams, who has been in the far west for quite a while, arrived home yesterday.

Mrs. W. F. McKim and son, Herbert, were at home from the city during the holidays.

Miss Mabel Vest entertained some of her young friends, last Thursday night, very pleasantly with a party.

Mrs. F. P. Walton, of Covington, spent several days, last week, as the guest of her brother and sister, of this place.

Mr. John DeGarris, a prosperous young farmer, of Scott county, was a guest at Dr. Duncan's a few days last week.

James L. Clore and his two little daughters, May and Pearl, attended the theater in Cincinnati, last Sunday night.

Misses Sheba and Susan Roberts entertained quite a number of their young friends with a six o'clock dinner, last Wednesday evening.

Mrs. O. P. Conner has been visiting her daughters, Mrs. McAtee, of Ludlow, and Mrs. J. E. Rouse, of Payne's Depot, for several days.

F. P. Walton, of Covington, spent last Saturday and Sunday in Burlington. City life appears to agree with him, and he is looking first class.

L. S. Beemon, of Limaburg, spent last Thursday afternoon in Burlington, serving his country as a juryman. Lewis never shirks a public duty.

The Burlington contingent that attended the ball at Florence Monday night reported a delightful time, as did also those who went to Petersburg.

A letter received at this office from L. C. Tanner, Arcadia, Florida, says: "M. T. Garnett is in good health and B. D. Crisler has improved greatly."

Jesse Kirkpatrick came over from Aurora to spend the holidays. Hear that he expects to go to Florida, shortly, to work at his trade. He will join M. T. Garnett.

No wonder County Clerk Adams has increased in weight considerably since the advent of the holidays. Some of his friends remembered him with two handsome turkeys.

C. L. Crisler, of Covington, arrived Monday at noon to spend a portion of the holiday period with friends here. Cy is not so fleshy as of yore, but he has good health and looks well.

Col. William Patterson and Dr. Sayre, of Hebron, came over Monday morning, as advance agents of the dramatic club, which is advertised to give a performance here tomorrow night.

William Clore was the first to show up in a sleigh, Monday, but before night every old thing that had a pair of runners was in use, and all kinds of bells were jingling, from the deep-toned cow bell to the diminutive sheep bell.

Dr. Crisler journeyed to Bullittsville, last Friday afternoon, to assist in the entertainment there that evening, and they do say when it comes to a speech of thanks that the doctor can put up as neat an article as the next one, no matter from whence he comes.

The young people were given a dance by Mr. Chas. Kelly and wife, at their home out on the East Bend road, last Thursday night, and on Friday night, Mr. and Mrs. Asa Cason's home, in the same neighborhood, was the scene of a very enjoyable affair socially.

Joseph Weaver, one of the Hathaway merchants, was in town Monday. Joe reported business good, and his looks testified as to the abundance to eat in that part of the land. He was going to Florence that night to shake his foot and mingle with friends.

Henry Phipps, who imbibes the pure water and inhales the exhilerating air for which the Middle creek section of country is noted, was in town the other day, and already are their rejuvinating effects on him quite noticeable, although his last sojourn there has been brief.

Bert Sullivan and his father and family are occupying their new home just south of town. Bert says the hill regions are colder than those that sweep up Gunpowder on a very cold day. He has felt no cold weather up here yet. Just wait until an 18 below zero zephyr kisses his cheek once, then he will say something.

E. E. Fry, of Verona, was in town yesterday. He is agent for the Piano machine people, and has a territory of sixteen counties in this State to look after. He says in his territory wheat is looking fine, and the acreage is considerably larger than it was last year. Besides being the cleverest fellow you ever saw, Ed is one of the best machine men on the road.

About 11 a. m. Sunday Sheriff Allphin received a telephone message from the sheriff of Grant county to meet him at Verona as soon as he could reach there, to take, under a writ of habeas corpus, a little child from its father, New Redmaner, and deliver it to its mother. The sheriff proceeded, without delay, and performed the unpleasant duty. The Redmauers are great county people and are having domestic trouble.

Saved at Grave's Brink.

"I know I would long ago have been in my grave," writes Mrs. S. H. Newsom, of Decatur, Ala., "If I had not been for Electric Bitters. For three years I suffered untold agony from the worst forms of Indigestion, Waterbrash, Stomach and Bowel Dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 35 lbs." For Indigestion, Loss of Appetite, Stomach, Liver and Kidney troubles Electric Bitters are a positive, guaranteed cure. Only 50c at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Delaney's, Florence; A. W. Smith's, Walton; O. N. Grant's, Bellevue.

The following is from the Tri-County Scribe, published at Plymouth, Hancock county, Illinois:

"On last Saturday a number of relatives and friends assembled at the hospitable home of Mr. and Mrs. Bert Cloud, to pay their respects and help celebrate the 20th wedding anniversary of this couple. There were thirty-seven guests present and a number of invited guest were unable to come. Mr. Cloud had gone to St. Marys on business but was telephoned to come home and help his better-half entertain company. Mrs. Cloud was preparing the noonday meal, but her part of the dinner was set aside as the ladies had brought well-filled baskets with all the delicacies of the season. A fine dinner was soon spread and greatly enjoyed by all present. Mr. and Mrs. Cloud were the recipients of many nice presents in china and silver ware. They were married twenty years ago in Boone Co., Ky., Mrs. Cloud's native state. They have resided since their marriage on St. Marys prairie, with the exception of a few years in Harmony township, and are a highly respected couple. The day was spent in social chat and good cheer and the guests departed wishing the host and hostess many happy returns of their wedding day. The different families represented were: Elijah Scott of Freedom on George Walton of Mt. Pleasant, Taylor Scott, Walter Huey, Erastus and Ed. Huey, and Henry Long of Shilo, S. C. Powell, T. J. Allison, Sid Richards, Walter Cloud, Billy Cloud, Julius Blair, of the Prairie and Mrs Olivia Grafton and Elda Wright, of Plymouth.

ALEXANDRIA, IND., Dec., 27, 1902.

Wishing you and the Recorder a prosperous New Year, allow me to say that away back in Kentucky's early history some far-sighted and scholarly gentleman suggested that the State's motto should be, "United We Stand, Divided We Fall." These six words have been a factor in bringing into life a code of social laws that does not exist in anyother State. The inspiration of these six words has been woven and interwoven into the social and political life of its people until today they present to the world a picture of unusual beauty. The background is a hearthstone that reaches its length and breadth, and around this hearthstone a hospitality has been dispensed that poets delight to put in verse and orators never tire of telling about. The high lights of this picture are "silver tongued orators, (excuse Billie B, if you please) beautiful women, handsome men, etc. Distance only lends enchantment to this picture, and so it goes. every Kentuckian, it matters not where he happens to be, will erect in his mind an altar, and upon that altar he will offer up sacrifices to the goddess who guides the destiny of his beloved State, remembering that, Kentucky, with her endless hearthstone—its charming social life is a fine place to be when hungry, and a better place to be when thirsty. Coming down to real facts, Mr. Editor, it is no wonder that men hunt in vain for these charming peculiarities in other States when they exist nowhere except in Kentucky. It is no fault of mine, is it?

On Christmast day the Recorder came, and in glancing over its pages we could see engraven there in great big letters the beautiful idea of united we stand, etc. Each correspondent seemed desirous of showing that he or she was inspired by the six words, "United We Stand, Divided We Fall." The men and women who lend a hand in building up the Recorder and making it the equal if not the superior of any county paper in the State, do a noble work, and some day they will realize that they have aided to weave into great chains the delicate threads of fraternal feeling that have bound Kentuckians together for 100 years, and will ultimately bind them so closely that nothing short of a cyclone can blow them apart, so may it be with the Recorder and all concerned. Some day when Bro. Batterson sees the shadows growing long and the days growing longer—when he sees rabbits hiking for their holes, chickens roosting high and quails nesting low, he can bet that a long, lean, lank fellow, about my size will be in evidence with Lee, for a hunt. The same to Brother Tolin and all the boys.
